

在职 24 周新版托福 100+ 学习全书

中文讲解·英文原创训练·2026 新版 TOEFL iBT

为在职自学者编写

2026-08-04

目录

第一章 使用说明与入门诊断	1
1.1 一、先说清楚：学完不等于自动得到 100+	1
1.2 二、2026 新版考试地图	1
1.3 三、你的起点	2
1.4 四、学习工具	2
1.4.1 文件夹建议	3
1.5 五、第 1 周入门诊断	3
1.5.1 Part A: 词汇与词形 (15 分钟)	3
1.5.2 Part B: 句法 (15 分钟)	4
1.5.3 Part C: 阅读 (30 分钟)	5
1.5.4 Part D: 听力 (20 分钟)	6
1.5.5 Part E: 写作 (35 分钟)	8
1.5.6 Part F: 口语 (20 分钟)	8
1.6 六、答案与自评	9
1.6.1 客观题答案	9
1.6.2 写作自评	10
1.6.3 口语自评	10
1.7 七、诊断结果如何解释	10
1.7.1 你的第一个决定	11
1.8 八、第 1 周最低完成线	11
第二章 24 周总学习路线	12
2.1 一、在职版时间预算	12
2.1.1 为什么周末只留单词	12
2.1.2 周末的单词怎么算数	12
2.1.3 两项辅助材料的固定额度 (已计入上表)	13
2.1.4 阶段测验和模考怎么办	13
2.1.5 工作特别忙的一周	13
2.2 二、每周固定闭环	13
2.3 三、阶段总览	14
2.4 四、测验与模考章节映射	14
2.5 五、逐周计划	15
2.6 Week 1: 诊断与系统搭建	15
2.7 Week 2: 词汇不是单词表	15
2.8 Week 3: 句子骨架与长句	16
2.9 Week 4: 发音与听觉入口	16

2.10 Week 5: 生活阅读	17
2.11 Week 6: 学术短文基础	17
2.12 Week 7: 听力即时反应	17
2.13 Week 8: 公告与学术短讲	18
2.14 Week 9: 写作句法与邮件	18
2.15 Week 10: 学术讨论	18
2.16 Week 11: 听后复述	19
2.17 Week 12: 采访回答与第一次综合评估	19
2.18 Week 13: 阅读推断与逻辑	19
2.19 Week 14: 听力态度与目的	20
2.20 Week 15: 写作准确与自然	20
2.21 Week 16: 口语清晰与展开	20
2.22 Week 17: 自适应首阶段稳定性	21
2.23 Week 18: 学术主题拓展	21
2.24 Week 19: 写作与口语速度	21
2.25 Week 20: 第二次综合评估	22
2.26 Week 21: 完整模考一	22
2.27 Week 22: 模考一修复	22
2.28 Week 23: 完整模考二	23
2.29 Week 24: 减量与定型	23
2.30 六、阶段补救规则	24
2.30.1 阅读低于目标	24
2.30.2 听力低于目标	24
2.30.3 写作低于目标	24
2.30.4 口语低于目标	24
2.31 七、每周复盘模板	24
2.32 八、何时报名	25
第三章 第 2 章 词汇、语法与发音基础: 把“认识”变成“能用”	26
3.1 2.1 先理解新版目标: 为什么基础仍决定上限	26
3.2 2.2 学习原理: 少而多次, 输入后必须检索	26
3.2.1 原理一: 主动回忆比重读有效	26
3.2.2 原理二: 间隔重复, 但复习内容要变化	27
3.2.3 原理三: 以“可理解输入 + 轻度困难”为单位	27
3.2.4 原理四: 错误是分类数据, 不是“粗心”	27
3.3 2.3 词汇体系: 从“单词表”升级为“四层网络”	27
3.3.1 2.3.1 四层优先级	27
3.3.2 2.3.2 用“词条”而非“译词”记忆	27
3.3.3 2.3.3 高价值搭配清单	28
3.4 2.4 构词与词族: 遇到陌生词也不慌	28
3.4.1 2.4.1 三步拆词法	28
3.4.2 2.4.2 常用前后缀	28
3.4.3 2.4.3 高频词族表	28
3.5 2.5 Complete the Words: 从词形、词性到语境	29
3.5.1 四步流程	29

3.5.2	拼写微规则	29
3.6	2.6 Build a Sentence: 高分所需的最小语法系统	30
3.6.1	2.6.1 句子骨架: 每句先找谓语	30
3.6.2	2.6.2 名词短语: 信息向右扩展	30
3.6.3	2.6.3 时态: 只解决时间关系	30
3.6.4	2.6.4 从句: 只学最常用的三类	30
3.6.5	2.6.5 非谓语: 压缩信息, 但先保证主语一致	31
3.6.6	2.6.6 可直接复用的输出句框	31
3.7	2.7 发音基础: 让耳朵能切词, 让嘴巴能输出	31
3.7.1	2.7.1 音素: 优先处理影响辨义的对立	31
3.7.2	2.7.2 单词重音: 重音位置会影响识别	32
3.7.3	2.7.3 句子重音: 内容词重, 功能词轻	32
3.7.4	2.7.4 连读、失爆与弱读: 听力“丢词”的真正原因	32
3.7.5	2.7.5 意群: 一口气表达一个单位	32
3.8	2.8 Listen and Repeat: 基础精听跟读程序 (15 分钟)	33
3.9	2.9 适合在职者的每日与每周安排 (6-6.5 小时)	33
3.9.1	工作日: 每天 70-80 分钟	33
3.9.2	周末: 只背单词, 20-30 分钟	33
3.9.3	六周推进	33
3.10	2.10 分级原创练习	34
3.10.1	A 级: 识别与填空	34
3.10.2	B 级: 句子骨架与语法	34
3.10.3	C 级: 综合产出与发音意识	35
3.11	2.11 答案与解析	35
3.11.1	A 级	35
3.11.2	B 级	36
3.11.3	C 级	37
3.12	2.12 通关标准: 何时进入下一章	37
3.13	2.13 错题记录模板: 让下一次复习有靶子	38
3.13.1	建议的错误到行动映射	38
第四章 03	 2026 新版 TOEFL 阅读完整自学章节	39
4.1	1. 先弄清你在练什么	39
4.1.1	在职考生的最低可行周计划	39
4.2	2. 多阶段自适应: 首阶段策略	40
4.2.1	2.1 原理: 为什么首阶段要“稳”	40
4.2.2	2.2 首阶段四步法	40
4.2.3	2.3 首阶段禁止动作	40
4.2.4	2.4 时间预算	40
4.3	3. Complete the Words: 用语境补出“可预测”的语言	40
4.3.1	3.1 能力原理	40
4.3.2	3.2 五步操作	41
4.3.3	3.3 示例	41
4.3.4	3.4 练习	41
4.3.5	3.5 答案与详解	42

4.3.6	3.6 CTW 错因分类与修复	42
4.4	4. Read in Daily Life: 在真实限制条件中精确取数	43
4.4.1	4.1 能力原理	43
4.4.2	4.2 RDL 的“表格化”步骤	43
4.4.3	4.3 示例	43
4.4.4	4.4 练习	43
4.4.5	4.5 答案与详解	45
4.4.6	4.6 RDL 错因分类与修复	46
4.5	5. Read an Academic Passage: 压缩理解一段学术论证	46
4.5.1	5.1 能力原理	46
4.5.2	5.2 RAP 读法: 60 秒结构扫描 + 证据作答	46
4.5.3	5.3 RAP 常见问法与动作	46
4.5.4	5.4 示例	47
4.5.5	5.5 练习	47
4.5.6	5.6 答案与详解	49
4.5.7	5.7 RAP 错因分类与修复	49
4.6	6. 从 <i>Sapiens</i> 50%-60% 理解迁移到 TOEFL	50
4.6.1	20 分钟迁移练习 (每周两次)	50
4.7	7. 30 天训练路径	51
4.7.1	每次练习后的 5 分钟检查	51
4.8	8. 考场执行卡	51
4.8.1	CTW	51
4.8.2	RDL	51
4.8.3	RAP	51
4.8.4	首阶段	51
第五章	04 2026 TOEFL 听力完整自学教程: 在职考生的 100+ 路线	52
5.1	一、先建立正确的得分模型	52
5.1.1	100+ 听力的可执行目标	52
5.2	二、2026 新版四类任务的听法不同	53
5.2.1	1. Listen and Choose a Response (听句选回应)	53
5.2.2	2. Conversation (校园/生活事务对话)	53
5.2.3	3. Announcement (通知、说明、活动播报)	53
5.2.4	4. Academic Talk (学术讲解)	53
5.3	三、阅读/听力多阶段自适应: 把节奏当作能力练	54
5.3.1	考场节奏脚本	54
5.4	四、原创 TTS 训练包	54
5.4.1	A. Listen and Choose a Response	54
5.4.2	B. Conversation: 设备借用	55
5.4.3	C. Announcement: 校园温室参观	57
5.4.4	D. Academic Talk: 城市树木与局部温度	58
5.5	五、精听: 把“听不懂”拆成可修复的问题	60
5.5.1	漏点日志模板	60
5.6	六、复述与语音识别训练: 输出反过来校准输入	60
5.6.1	1. 复述不是翻译	60

5.6.2	2. 用语音识别做闭环	61
5.6.3	3. 影子跟读的正确强度	61
5.7	七、在职考生的分级计划	61
5.7.1	基础级：建立可听见的结构（建议 3-5 周）	61
5.7.2	目标级：从“听见”升级到“推理”（建议 4-6 周）	62
5.7.3	冲刺级：多阶段节奏与抗波动（建议考前 3-4 周）	62
5.8	八、每周执行表与复盘	62
5.8.1	最小可持续周计划	62
5.8.2	每周只回答五个问题	63
5.9	九、最终通关清单	63
第六章	2026 新版 TOEFL 写作完整教程：在职考生 24 周冲刺 100+	64
6.1	一、先建立正确的目标：100+ 写作长什么样	64
6.1.1	1. 三项任务的共同能力	64
6.1.2	2. 100+ 的可执行通关标准	64
6.2	二、评分维度：写作不是只看语法	65
6.2.1	自我量表（每项 0—2 分）	65
6.3	三、底层句法：让每一句都站得住	66
6.3.1	1. 英文句子的骨架	66
6.3.2	2. 四种高收益句型	66
6.3.3	3. 高频错误的“停止信号”	66
6.4	四、Build a Sentence：先找骨架，再安放词块	67
6.4.1	1. 任务本质	67
6.4.2	2. 30 秒解题流程	67
6.4.3	3. 原创练习与解析	67
6.4.4	4. 高低分对比	68
6.4.5	5. 逐句修改示范	68
6.4.6	6. Build a Sentence 分级练习	69
6.5	五、Write an Email：写一封让对方能立刻处理的邮件	69
6.5.1	1. 读题时提取四张卡	69
6.5.2	2. 僵化的五功能结构	70
6.5.3	3. 语气标尺	70
6.5.4	4. 原创题目与范文	70
6.5.5	5. 范文拆解	71
6.5.6	6. 低分与高分对比	71
6.5.7	7. 逐句修改：把“中文式礼貌”改为自然英文	72
6.5.8	8. Email 分级练习	72
6.6	六、Writing for an Academic Discussion：贡献观点，而不是背诵短文	73
6.6.1	1. 任务本质	73
6.6.2	2. 读题的 45 秒决策	73
6.6.3	3. 灵活的段落蓝图	73
6.6.4	4. 原创题目与范文	73
6.6.5	5. 为什么这篇有效	74
6.6.6	6. 高低分对比	74
6.6.7	7. 逐句修改：从观点堆砌到推理链	74

6.6.8 8. Discussion 分级练习	75
6.7 七、限时流程：把时间用在决定分数的地方	76
6.7.1 1. Build a Sentence	76
6.7.2 2. Write an Email	76
6.7.3 3. Academic Discussion	77
6.8 八、避免模板化：用“功能库”代替万能套话	77
6.9 九、24 周在职学习计划	78
6.9.1 总体原则	78
6.9.2 阶段一：句子稳定（第 1—4 周）	78
6.9.3 阶段二：专业邮件（第 5—8 周）	78
6.9.4 阶段三：学术讨论发展（第 9—14 周）	78
6.9.5 阶段四：整合与弱点修复（第 15—20 周）	79
6.9.6 阶段五：考前表现（第 21—24 周）	79
6.10 十、复盘系统：一次练习必须产出第二次能力	79
6.10.1 错误记录模板	79
6.11 十一、考场自检清单	80
6.11.1 Build a Sentence	80
6.11.2 Write an Email	80
6.11.3 Academic Discussion	80
6.12 十二、最终通关量表	80
第七章 2026 新版 TOEFL 口语完整教程	82
7.1 一、先认识两类任务	82
7.2 二、单次 35 分钟录音流程	82
7.2.1 标准流程	82
7.2.2 录音命名与保存	83
7.3 三、Listen and Repeat：从“逐词听”到“按意群复述”	83
7.3.1 1. 四步复述法	83
7.3.2 2. 短时记忆专项	83
7.3.3 3. 意群与停顿规则	84
7.3.4 4. 发音、重音和语调的最低有效改进	84
7.3.5 5. Listen and Repeat 分级题库	84
7.4 四、Take an Interview：无准备也能有内容	86
7.4.1 1. 10 秒构思框架	86
7.4.2 2. 40 秒回答的时间分配	86
7.4.3 3. 自然追问：不是背新答案	86
7.4.4 4. Interview 分级题目与示例	87
7.5 五、从“能回答”到“像在交流”	88
7.5.1 常见卡顿的替代动作	88
7.5.2 有效自我修正	89
7.5.3 流利度的正确标准	89
7.6 六、自评量表（每项 1-5 分）	89
7.6.1 评分解释	90
7.7 七、二次录音：把反馈变成动作	90
7.8 八、建立个人错误库	90

7.9 九、四周通关计划	91
7.9.1 总通关标准	91
7.10 十、一次 12 分钟混合模拟	91
7.11 十一、AI 陪练的简要衔接	92
7.12 十二、AI 陪练专用提示词 (独立使用)	92
7.12.1 1. Listen and Repeat 出题与核对	92
7.12.2 2. Interview 追问模拟	92
7.12.3 3. 首录与二录对比	92
7.12.4 4. 错误库整理	93
7.13 十三、最后的执行原则	93
第八章 07 阶段测验与完整模考 (2026 新版 TOEFL iBT 训练版)	94
8.1 一、如何做阶段评估	94
8.1.1 1. 统一执行规则	94
8.1.2 2. 训练成绩单 (不作正式换算)	94
8.1.3 3. 每四周阶段测验框架	95
8.2 二、压缩版完整模考的执行说明	96
8.2.1 与正式考试的差异	96
8.2.2 本书的两阶段路由算法	96
8.3 模考 A The Campus Repair Lab	96
8.4 A1. Reading (12 分钟)	96
8.4.1 Stage 1: Router (6 题, 6 分钟)	96
8.4.2 Stage 2A: Core Module (6 题, 6 分钟)	98
8.4.3 Stage 2B: Upper Module (6 题, 6 分钟)	99
8.5 A2. Listening (12 分钟)	100
8.5.1 Stage 1: Router (6 题, 6 分钟)	100
8.5.2 Stage 2A: Core Module (6 题, 6 分钟)	101
8.5.3 Stage 2B: Upper Module (6 题, 6 分钟)	102
8.6 A3. Writing (21 分钟)	104
8.6.1 Task 1: Build a Sentence (4 分钟)	104
8.6.2 Task 2: Write an Email (7 分钟)	104
8.6.3 Task 3: Academic Discussion (10 分钟)	104
8.7 A4. Speaking (约 8 分钟)	104
8.7.1 Task 1: Listen and Repeat (7 提示)	104
8.7.2 Task 2: Take an Interview (4 提示; 无准备时间)	105
8.8 模考 B The Neighborhood Water Map	105
8.9 B1. Reading (12 分钟)	105
8.9.1 Stage 1: Router (6 题, 6 分钟)	105
8.9.2 Stage 2A: Core Module (6 题, 6 分钟)	106
8.9.3 Stage 2B: Upper Module (6 题, 6 分钟)	107
8.10 B2. Listening (12 分钟)	108
8.10.1 Stage 1: Router (6 题, 6 分钟)	109
8.10.2 Stage 2A: Core Module (6 题, 6 分钟)	110
8.10.3 Stage 2B: Upper Module (6 题, 6 分钟)	111
8.11 B3. Writing (21 分钟)	112

8.11.1 Task 1: Build a Sentence (4 分钟)	112
8.11.2 Task 2: Write an Email (7 分钟)	112
8.11.3 Task 3: Academic Discussion (10 分钟)	112
8.12 B4. Speaking (约 8 分钟)	113
8.12.1 Task 1: Listen and Repeat (7 提示)	113
8.12.2 Task 2: Take an Interview (4 提示; 无准备时间)	113
8.13 答案、评分要点与复盘	113
8.14 一、客观题答案	113
8.14.1 模考 A	113
8.14.2 模考 B	114
8.15 二、主观题教学评分量表	114
8.15.1 1. Build a Sentence (每句 0-2, 满分 12)	114
8.15.2 2. Email 与 Academic Discussion (每项 0-4)	114
8.15.3 3. Listen and Repeat (每句 0-4)	115
8.15.4 4. Take an Interview (每题 0-4)	115
8.16 三、模考后复盘页 (每套填写一次)	115
第九章 08 统一答案、解析与评分手册	117
9.1 一、先核对什么, 后分析什么	117
9.1.1 1. 答案的使用顺序	117
9.1.2 2. 07 章答案完整性说明	117
9.2 二、客观题统一复盘法	117
9.2.1 1. 每道题的四格证据卡	117
9.2.2 2. 客观题错因总码	118
9.3 三、阅读: 答案如何被证明	118
9.3.1 1. Complete the Words (CTW) 核对规则	118
9.3.2 2. RDL / RAP 阅读错因编码	119
9.3.3 3. 阅读高、中、低表现示例	119
9.4 四、听力: 从“没听见”到可修复的错误	120
9.4.1 1. 听力错因编码	120
9.4.2 2. 回听的三遍法	120
9.4.3 3. 听力高、中、低表现示例	120
9.5 五、Build a Sentence: 核对与给分规则	121
9.5.1 1. 先判任务限制	121
9.5.2 2. 六项逐句核对单	121
9.5.3 3. 统一判分 (每句 0—2)	121
9.6 六、Email 与 Academic Discussion: 分析量表	122
9.6.1 1. 写前的答案要点卡	122
9.6.2 2. 每项 0—4 的分析量表	122
9.6.3 3. 高、中、低表现示例	123
9.7 七、口语: Listen and Repeat 与 Interview 自评量表	124
9.7.1 1. Listen and Repeat (每句 0—4)	124
9.7.2 2. Take an Interview (每题 0—4)	124
9.8 八、阶段通关判定与补救	125
9.9 九、如何使用 ChatGPT: 辅助训练, 不替代官方评分	126

9.9.1 可以做	126
9.9.2 不可以做	126
9.9.3 可直接使用的提示词	126
第十章 09 错题本复盘表与打卡表	128
10.1 一、24 周总打卡表	128
10.2 二、每日最小任务卡	129
10.3 三、每周复盘表	129
10.4 四、词汇卡 (每词一张)	129
10.5 五、阅读错题单	130
10.6 六、听力错题单	130
10.7 七、写作错误库	131
10.8 八、口语录音对比表	131
10.9 九、《Sapiens》阅读日志	131
10.10 十、模考分析表	132
10.11 十一、阶段通关决策表	132
10.12 十二、在职繁忙周恢复协议	133
10.12.1 1. 触发条件	133
10.12.2 2. 繁忙周规则	133
10.12.3 3. 恢复日安排 (繁忙结束后的第 1 天)	133
第十一章 资料来源与更新说明	134
11.1 一、资料来源与事实层级	134
11.1.1 A 层: ETS 官方材料	134
11.1.2 计分、未计分与呈现数的口径	135
11.1.3 B 层: Delta (仅可选训练补充)	135
11.1.4 C 层: 近期面经与非官方趋势	135
11.1.5 D 层: Sapiens 辅助阅读	136
11.2 二、版权与合规原则	136
11.3 三、更新机制	136
11.3.1 更新触发条件	136
11.3.2 每月更新检查表	136
11.3.3 版本记录格式	137
11.4 四、读者使用提示	137
第十二章 《Sapiens》辅助阅读与迁移训练	138
12.1 先读这一页	138
12.2 一、总原则: 读懂主张, 而非认识每个词	138
12.2.1 1. 你的“可理解”标准	138
12.2.2 2. 每周固定五步法 (约 40 分钟, 拆成周一、周三各 20 分钟)	138
12.2.3 3. 查词上限与决策规则	139
12.3 二、精读工具箱	139
12.3.1 1. 长句分析: 先骨架, 后枝叶	139
12.3.2 2. 英文摘要: 少而准	140
12.3.3 3. 口头复述: 从“看着会”到“说得出”	140
12.3.4 4. 观点—证据—限制 (V-E-L)	141

12.4 三、24 周路线：每周约 1 小时	141
12.4.1 第一阶段：建立不断读的能力（第 1—6 周）	141
12.4.2 第二阶段：看清论证与句法（第 7—12 周）	142
12.4.3 第三阶段：形成批判性输出（第 13—18 周）	142
12.4.4 第四阶段：迁移到托福任务（第 19—24 周）	143
12.5 四、四类托福迁移任务	143
12.5.1 1. 阅读：练“定位与关系”，不把本书当题库	143
12.5.2 2. 听力：把“阅读笔记法”迁移到语音输入	144
12.5.3 3. 写作：从材料复述走向可评分论证	144
12.5.4 4. 口语：从复述到回应	144
12.6 五、当周完整示范（原创材料）	145
12.6.1 按五步法完成	145
12.6.2 迁移练习	145
12.7 六、分阶段通关与纠偏	145
12.8 七、可复制的每周日志模板	146
12.9 结语：让一本书成为方法训练场	147
第十三章 12 ChatGPT 口语陪练提示词与记录表	148
13.1 一、通用启动提示词（每次新对话先复制）	148
13.2 二、四种可直接使用的练法	149
13.2.1 1. 自由对话：把“能聊下去”练成习惯	149
13.2.2 2. 发音与意群：短句、证据、重录	149
13.2.3 3. Listen and Repeat：听辨后再模仿	149
13.2.4 4. Take an Interview：逐题采访，绝不预告题库	149
13.3 三、严格限时模式	150
13.4 四、英文题目生成约束（复制给 AI）	150
13.5 五、三项反馈与二次录音模板	150
13.6 六、错误库与每周评估	151
13.6.1 错误库记录表	151
13.7 七、24 周使用节奏	151
13.8 八、练习前后速查	152
第十四章 第 13 章 词汇、词形与语法分级题库：24 周把“看懂”练成“写得出、听得清”	153
14.1 13.1 使用法：先预测，再检索，最后迁移	153
14.2 13.2 24 周词汇组与词族训练	153
14.2.1 第 1 周 观察、记录与校园日常	153
14.2.2 第 2 周 变化、数量与趋势	154
14.2.3 第 3 周 因果、证据与结论	155
14.2.4 第 4 周 比较、选择与限制	155
14.2.5 第 5 周 分类、特征与定义	156
14.2.6 第 6 周 过程、顺序与方法	156
14.2.7 第 7 周 空间、移动与分布	157
14.2.8 第 8 周 系统、功能与关系	158
14.2.9 第 9 周 资源、消耗与环境	158
14.2.10 第 10 周 研究、假设与测量	159
14.2.11 第 11 周 社会、制度与参与	159

14.2.12 第 12 周	风险、问题与解决	160
14.2.13 第 13 周	解释、态度与观点	161
14.2.14 第 14 周	时间、历史与发展	161
14.2.15 第 15 周	文化、语言与学习	162
14.2.16 第 16 周	材料、结构与性质	162
14.2.17 第 17 周	经济、决策与效率	163
14.2.18 第 18 周	健康、行为与变化	163
14.2.19 第 19 周	设计、创新与实施	164
14.2.20 第 20 周	准确、标准与质量	165
14.2.21 第 21 周	协作、沟通与责任	165
14.2.22 第 22 周	媒体、信息与判断	166
14.2.23 第 23 周	综合学术表达	166
14.2.24 第 24 周	复盘、迁移与长期保持	167
14.3	13.3 Complete the Words: 120 组语篇词形训练	167
14.3.1	CTW 001—010: 基础语境与高频派生	168
14.3.2	CTW 011—020: 空间、系统与资源	169
14.3.3	CTW 021—030: 社会、风险与解释	169
14.3.4	CTW 031—040: 材料、效率与合作	170
14.3.5	CTW 041—050: 准确、媒体与综合表达	171
14.3.6	CTW 051—060: 城市生活与公共服务	172
14.3.7	CTW 061—070: 学习、职场与信息管	173
14.3.8	CTW 071—080: 自然科学与研究过程	173
14.3.9	CTW 081—090: 健康、行为与社会关系	174
14.3.10	CTW 091—100: 设计、技术与实施	175
14.3.11	CTW 101—110: 媒体、文化与观点表达	176
14.3.12	CTW 111—120: 累计迁移与高阶谨慎表达	176
14.4	13.4 Build a Sentence: 300 道从词块到完整句	177
14.4.1	BAS 001—015: 单句骨架与名词短语	177
14.4.2	BAS 016—030: 时间、变化与主动表达	178
14.4.3	BAS 031—045: 修饰、比较与数量	178
14.4.4	BAS 046—060: 因果、让步与条件	179
14.4.5	BAS 061—075: 定语从句与信息定位	180
14.4.6	BAS 076—090: 不定式、动名词与目的	180
14.4.7	BAS 091—105: 被动、过程与正式表达	181
14.4.8	BAS 106—120: 比较、假设与复合关系	182
14.4.9	BAS 121—135: 名词从句与间接问题	182
14.4.10	BAS 136—150: 强调、倒装与语序控制	183
14.4.11	BAS 151—165: 分词、压缩与学术说明	184
14.4.12	BAS 166—180: 词族、搭配与精确选择	185
14.4.13	BAS 181—195: 报告、说明与证据链	185
14.4.14	BAS 196—210: 工作场景与礼貌的准确表达	186
14.4.15	BAS 211—225: 叙事、顺序与动作关系	187
14.4.16	BAS 226—240: 观点、程度与谨慎表达	187
14.4.17	BAS 241—252: 环境、系统与公共议题	188
14.4.18	BAS 253—264: 学习迁移与语言控制	189

14.4.19	BAS 265—276: 复合句诊断与改写意识	189
14.4.20	BAS 277—288: 长句整合与正式语域	190
14.4.21	BAS 289—300: 累计终检	190
14.5	13.5 发音听辨、意群与 Listen and Repeat 微练习	191
14.5.1	13.5.1 三个动作, 不把“跟读”变成含糊地重复	191
14.5.2	13.5.2 听辨微题 1—24: 先选出你听到的词	191
14.5.3	13.5.3 Listen and Repeat 001—216: 词尾、弱读、重音与意群	192
14.6	13.6 词族迁移实验室: 把一个词用进四种任务	204
14.6.1	第 1—4 周 基础词性与逻辑	204
14.6.2	第 5—8 周 分类、过程、空间与系统	206
14.6.3	第 9—12 周 资源、研究、参与与风险	207
14.6.4	第 13—16 周 解释、时间、语言与结构	208
14.6.5	第 17—20 周 决策、健康、设计与质量	210
14.6.6	第 21—24 周 协作、媒体、综合与保持	211
14.6.7	13.6.2 精听抄写微循环 001—096: 先听, 再补, 再说	212
14.6.8	13.6.3 24 周句子诊断台: 发现“看起来像英语”的错误	215
14.6.9	13.6.4 近义尺度与语域选择 001—024: 不是“中文一样”就能替换	217
14.6.10	13.6.5 信息不变的双向改写 001—024: 用词族压缩, 也要保持证据力度	219
14.7	13.7 CTW 集中答案、证据与错因复盘	221
14.7.1	CTW-001—020	221
14.7.2	CTW-021—040	222
14.7.3	CTW-041—060	223
14.7.4	CTW-061—080	224
14.7.5	CTW-081—100	225
14.7.6	CTW-101—120	225
14.8	13.8 BAS 参考句、判分点与替代范围	226
14.8.1	BAS-001—050	226
14.8.2	BAS-051—100	229
14.8.3	BAS-101—150	231
14.8.4	BAS-151—200	233
14.8.5	BAS-201—250	235
14.8.6	BAS-251—300	238
14.9	13.9 分级复盘: 六次把题库变成可保持的能力	240
14.9.1	复盘 A 第 4 周末: 基础形式是否自动化	240
14.9.2	复盘 B 第 8 周末: 词族与连接关系	240
14.9.3	复盘 C 第 12 周末: 输入能否迁移到输出	241
14.9.4	复盘 D 第 16 周末: 长句与语流是否同步	241
14.9.5	复盘 E 第 20 周末: 准确度与谨慎度	241
14.9.6	复盘 F 第 24 周末: 终检与下一轮安排	241
第十五章	14 阅读分级题库: 200 篇原创两阶段训练	243
15.1	14.1 使用方法: 先稳住第一阶段, 再处理第二阶段	243
15.1.1	难度与计时标签	243
15.2	14.2 Read in Daily Life 120 篇生活阅读	243
15.2.1	校园服务公告	243

15.3 14.3 Read an Academic Passage 80 篇学术短文	305
15.3.1 生态学	305
第十六章 15 听力脚本与分级题库: TTS 原创训练库	371
16.1 A. Listen and Choose a Response (300 题)	371
16.2 B. Conversation / Announcement / Academic Talk (160 篇)	407
16.3 C. 用题库建立“首听一定位—输出”闭环	467
16.3.1 一周轮换示例: 把材料用深, 而不是做散	467
第十七章 16 写作强化工作簿: 从句子控制到真实沟通	469
17.1 一、怎样把这本工作簿做成能力, 而不是答案抄写	469
17.1.1 1. 四步闭环	469
17.1.2 2. 本章评分标记 (内部教学标准, 非 ETS 官方换算)	469
17.1.3 3. 答案对应与自评边界	470
17.2 二、Build a Sentence: 305 题句法耐力训练	470
17.2.1 1. 做题动作: 先决定关系, 再安排词序	470
17.2.2 2. 句子题代表性诊断: 高、中、低与逐句改写	493
17.3 三、Write an Email: 80 个读者导向任务	493
17.3.1 1. 先画“读者行动线”	493
17.3.2 2. Email 代表性任务: 从“道歉句”到可执行邮件	509
17.4 四、Academic Discussion: 80 个有回应、有推理的短论证	510
17.4.1 1. 不是“小作文模板”, 而是给讨论增加一个可检验的想法	510
17.4.2 2. Discussion 代表性任务: 让回应推动论证	533
17.5 五、Edit and Diagnose: 48 组改错与解释训练	534
17.5.1 改错代表性任务: 不要只把错误涂掉	536
17.6 六、四周混合使用与复盘	536
17.6.1 完成检查	537
17.7 附: 补足的情境任务	537
17.8 七、12 个修订诊室: 把低稿改成读者可用的英语	538
17.8.1 诊室 1 请求太早	538
17.8.2 诊室 2 理由像口号	538
17.8.3 诊室 3 错误让步	538
17.8.4 诊室 4 无回应同学	539
17.8.5 诊室 5 信息堆积	539
17.8.6 诊室 6 强硬要求	539
17.8.7 诊室 7 模糊例子	539
17.8.8 诊室 8 代词不清	539
17.8.9 诊室 9 无效结尾	540
17.8.10 诊室 10 过度承诺	540
17.8.11 诊室 11 句子粘连	540
17.8.12 诊室 12 例外遗漏	540
17.8.13 诊室补充 六种高频“看似正确”问题	541
17.8.14 最后十分钟: 提交前的逐句审校	542
第十八章 17 口语强化工作簿: 400 句复述与 100 组连续采访	544
18.1 一、怎样把工作簿练成口语, 而不是阅读材料	544

18.1.1 1. 只做一遍没有训练价值	544
18.1.2 2. 分级路线与抽题方式	544
18.1.3 3. 标记法: 看得见的发音和意群	545
18.1.4 4. 内部量表边界: 先知道“差在哪里”	545
18.1.5 5. 代表性高、中、低表现	546
18.1.6 6. 二录前的 90 秒动作卡	547
18.2 二、Listen and Repeat 题库 (LR-001—LR-400)	547
18.2.1 A 级 日常事实与双意群 (LR-001—LR-100)	547
18.2.2 B 级 关系、条件与信息密度 (LR-101—LR-200)	551
18.2.3 C 级 复杂句、抽象关系与校正 (LR-201—LR-300)	555
18.2.4 D 级 高密度信息、修正与三句链 (LR-301—LR-400)	561
18.2.5 LR 完成核对与抽样复测	565
18.3 三、Take an Interview 连续题库 (INT-001—INT-100)	566
18.3.1 采访的统一观察表	566
18.3.2 A 级 熟悉经历: 把一句回答扩展成一段交流 (INT-001—INT-025)	566
18.3.3 B 级 校园与社区: 理由、例子、取舍 (INT-026—INT-050)	572
18.3.4 C 级 工作、学习与连续判断 (INT-051—INT-075)	578
18.3.5 D 级 观点修正、抽象议题与礼貌协商 (INT-076—INT-100)	585
18.4 四、从题库到稳定输出: 四周轮换与复盘	591
18.4.1 1. 四周循环 (可重复使用)	591
18.4.2 2. 首录—二录的代表性复盘	591
18.4.3 3. 结束前自评: 不以“我感觉不错”为结论	593
18.5 五、连续采访表现工作室: 高、中、低的边界在哪里	593
18.5.1 工作室 1 INT-004 纸质笔记还是电子笔记	593
18.5.2 工作室 2 INT-010 什么时候向别人求助	594
18.5.3 工作室 3 INT-026 图书馆优先改进什么	595
18.5.4 工作室 4 INT-030 课堂手机政策	596
18.5.5 工作室 5 INT-038 社区服务是否应被要求	597
18.5.6 工作室 6 INT-043 为在职者设计晚间课程	598
18.5.7 工作室 7 INT-055 学习中使用 AI 工具	599
18.5.8 工作室 8 INT-062 要求不清楚时怎么办	600
18.5.9 工作室 9 INT-071 哪些会议值得开	601
18.5.10 工作室 10 INT-080 效率与公平	602
18.5.11 工作室 11 INT-087 转发信息前的责任	603
18.5.12 工作室 12 INT-098 眼前需求与长期利益	604
18.5.13 工作室使用法: 让示例变成自己的证据	605
第十九章 18 阶段卷与完整模考 (2026 新版 TOEFL iBT 原创仿真)	606
19.1 一、全卷的用法: 仿真不是复制	606
19.1.1 1. 六套卷与第 19 章的答案映射	606
19.1.2 2. 两种执行模式	607
19.1.3 3. 四科执行卡	607
19.1.4 4. TTS 与技术中断规则	608
19.1.5 5. 成绩记录与复盘出口	608
19.2 二、固定全卷仿真 M01 City Food Network	608

19.2.1 M01-A Reading (35 题, 至多 30 分钟)	609
19.2.2 M01-B Listening (35 题, 至多 29 分钟)	613
19.2.3 M01-C Writing (12 项, 23 分钟)	618
19.2.4 M01-D Speaking (11 提示, 约 8 分钟)	619
19.2.5 M01-E 交卷后路由记录	620
19.3 三、固定全卷仿真 M02 The Night Museum	620
19.3.1 M02-A Reading (35 题, 至多 30 分钟)	620
19.3.2 M02-B Listening (35 题, 至多 29 分钟)	624
19.3.3 M02-C Writing (12 项, 23 分钟)	629
19.3.4 M02-D Speaking (11 提示, 约 8 分钟)	630
19.3.5 M02-E 交卷后路由记录	630
19.4 四、固定全卷仿真 M03 Coast Watch	631
19.4.1 M03-A Reading (35 题, 至多 30 分钟)	631
19.4.2 M03-B Listening (35 题, 至多 29 分钟)	634
19.4.3 M03-C Writing (12 项, 23 分钟)	638
19.4.4 M03-D Speaking (11 提示, 约 8 分钟)	639
19.4.5 M03-E 交卷后路由记录	640
19.5 五、固定全卷仿真 M04 Clear Health Messages	640
19.5.1 M04-A Reading (35 题, 至多 30 分钟)	640
19.5.2 M04-B Listening (35 题, 至多 29 分钟)	643
19.5.3 M04-C Writing (12 项, 23 分钟)	647
19.5.4 M04-D Speaking (11 提示, 约 8 分钟)	647
19.5.5 M04-E 交卷后路由记录	648
19.6 六、固定全卷仿真 M05 Buildings That Adapt	648
19.6.1 M05-A Reading (35 题, 至多 30 分钟)	648
19.6.2 M05-B Listening (35 题, 至多 29 分钟)	651
19.6.3 M05-C Writing (12 项, 23 分钟)	654
19.6.4 M05-D Speaking (11 提示, 约 8 分钟)	655
19.6.5 M05-E 交卷后路由记录	656
19.7 七、固定全卷仿真 M06 Neighborhood Data Lab	656
19.7.1 M06-A Reading (35 题, 至多 30 分钟)	656
19.7.2 M06-B Listening (35 题, 至多 29 分钟)	659
19.7.3 M06-C Writing (12 项, 23 分钟)	662
19.7.4 M06-D Speaking (11 提示, 约 8 分钟)	663
19.7.5 M06-E 交卷后路由记录	663
19.8 八、阶段路由卷: 决定下一周练什么, 不预测正式路由	664
19.8.1 1. 使用时机与本书阈值	664
19.8.2 2. Route A 公共服务路径 (R01—R12; L01—L12)	664
19.8.3 3. Route B 学习与工作路径 (R01—R12; L01—L12)	666
19.8.4 4. 路由后的最小复盘	669
19.9 九、六套全卷的考前使用顺序	669
第二十章 19 扩展题库答案与解析: 审校版、证据链与复盘	670
20.1 19.0 审校范围、题号覆盖与标记结论	670
20.2 19.1 第 13 章 词汇、词形、语法: 逐题答案与规则	671

20.2.1 19.1.1 CTW-001—120: 词形答案、槽位证据与近形干扰	671
20.2.2 19.1.2 BAS-001—300: 参考句、结构证据与判分边界	676
20.3 19.2 第 14 章 阅读: RDL、RAP 与 CTW 的题级证据索引	690
20.3.1 19.2.1 RDL-001—120: CTW + Q1 + Q2	690
20.3.2 19.2.2 RAP-001—080: 主张、发现、限制的三重核查	700
20.4 19.3 第 15 章 听力: 自然回应、脚本主线与精听补充	708
20.4.1 19.3.1 LCR-001—300: 唯一自然回应	708
20.4.2 19.3.2 LT-001—160: 每篇三问、脚本证据与复述出口	714
20.5 19.4 第 16 章 写作: 勘误后的句子答案、邮件与讨论评分	725
20.5.1 19.4.1 BS-001—305: 可评分参考句与题面勘误	725
20.5.2 19.4.2 EC-001—080: 邮件任务要点、评分与代表性样本	742
20.5.3 19.4.3 AD-001—080: 立场、回应与可接受论证路径	745
20.5.4 19.4.4 ED-001—048: 诊断题的唯一修复原则	749
20.5.5 19.4.5 写作代表性高/中/低表现 (适用于 EC 与 AD)	751
20.6 19.5 第 17 章 口语: 400 句复述与 100 组采访的评分入口	752
20.6.1 19.5.1 LR-001—400: 逐句精听锚点与复述核对	752
20.6.2 19.5.2 INT-001—100: 连续采访的任务完成与追问路径	754
20.6.3 19.5.3 口语代表性高/中/低表现	757
20.7 19.6 第 18 章 六套完整模考: R/L 完整答案与 W/S 核对	757
20.7.1 19.6.1 M01: 客观题答案、证据与关键干扰	757
20.7.2 19.6.2 M02: 客观题答案、证据与关键干扰	760
20.7.3 19.6.3 M03: 客观题答案、证据与关键干扰	762
20.7.4 19.6.4 M04: 客观题答案、证据与关键干扰	765
20.7.5 19.6.5 M05: 客观题答案、证据与关键干扰	767
20.7.6 19.6.6 M06: 客观题答案、证据与关键干扰	770
20.7.7 19.6.7 六套卷 W/S: 任务完成、内部评分与代表性表现	772
20.8 19.7 阶段路由卷: Route A / B 的答案、输出与后续路径	776
20.8.1 Route A 公共服务: R01—R12 / L01—L12	776
20.8.2 Route B 学习与工作: R01—R12 / L01—L12	776
20.9 19.8 覆盖复核、使用出口与版本记录	777

第一章 使用说明与入门诊断

适用考试：2026 年 1 月 21 日后 TOEFL iBT

适用学习者：在职、尚无托福成绩、已能进行一定英文原著阅读

默认投入：每周 6-6.5 小时（工作日 5 天 + 周末只背单词），24 周内容实际约需 36-40 周，详见 01-24 周总学习路线.md

目标：建立旧分制 100+、新版约 5 分档所需的综合英语能力

1.1 一、先说清楚：学完不等于自动得到 100+

这套教材给你的是一条完整、可执行、可检查的训练路径。它不能替你保证分数，因为考试成绩还取决于：

1. 你现在的真实词汇、听辨、语法和输出基础；
2. 24 周中实际完成了多少高质量训练；
3. 是否认真做了录音、改写、错题复盘和阶段补救；
4. 正式考试当天的设备、节奏和状态。

正确的目标不是“把页数翻完”，而是达到每个阶段的通关标准。若第 20 周仍没有达到目标线，应延后考试或增加补弱周期，而不是为了赶日期跳过问题。

1.2 二、2026 新版考试地图

新版考试按 **阅读、听力、写作、口语** 的顺序进行，算分任务总时长约 85-90 分钟，实际考场流程会更长。阅读和听力采用多阶段自适应：第一阶段表现会影响第二阶段题组难度，因此首阶段既要稳，也不能因为害怕出错而过度拖延。

科目	2026 官方当前任务与范围	本书重点
阅读	Complete the Words; Read in Daily Life; Read an Academic Passage; 自适应，正式呈现题量可能因未计分题而变化	词形、快速理解、信息定位、推断、首阶段稳定性

科目	2026 官方当前任务与范围	本书重点
听力	Listen and Choose a Response; Listen to a Conversation; Listen to an Announcement; Listen to an Academic Talk; 自适应, 正式呈现题量可能因未计分题而变化	语音识别、即时反应、主旨、目的、细节、推断
写作	Build a Sentence; Write an Email; Write for an Academic Discussion; 共 12 个任务、23 分钟	句法、任务完成、语气、逻辑、准确与简洁
口语	Listen and Repeat (7 个提示); Take an Interview (4 个提示); 共 11 个提示、8 分钟	短时记忆、意群复述、发音流利度、即时组织

上述范围按第 10 章列示的 ETS 页面于 2026-08-04 核对; ETS 可能更新, 考试日须以其最新说明为准。计分项目数与屏幕实际呈现项目数不是同一口径: 未计分项目不计入分数, 却可能使某次考试的实际呈现数高于计分项目数; 也不要将本书训练题量当作正式题量。成绩单在过渡期同时呈现 ETS 出具的新版 1-6 分制和旧版 0-120 分制, 不能由本书正确数或内部量表自行换算。学校要求应以申请时的官方页面为准。100+ 仅表示本书的能力训练目标; “新版约 5 分档” 不是成绩承诺、官方等值主张或录取保证。

1.3 三、你的起点

你正在阅读英文版 *Sapiens*, 当前理解约 50%-60%。这通常说明:

- 你已经能承受真实英文材料, 不属于英语零基础;
- 高频词和部分学术词已有积累, 但词汇覆盖仍不稳定;
- 遇到长句、抽象论证和密集生词时, 理解容易断裂;
- 阅读可能依赖翻译或反复回看, 限时能力尚未建立;
- 原著阅读能力不能直接等于托福听说读写能力。

因此, 本书不会让你从字母和最基础语法重新学起, 也不会直接把你放到高分冲刺题。第 1 周先诊断, 再决定前 8 周的训练比例。

1.4 四、学习工具

准备以下工具即可, 不需要不断购买资料:

- 本书及 ETS 官方公开的最新版说明、样题;
- 一本纸质或电子错题本;
- 手机或电脑录音工具;
- 支持定时的设备;
- 可朗读英文脚本的 TTS 工具;

- ChatGPT, 用于口语陪练、追问和语言反馈;
- 你已合法取得的英文版 *Sapiens*, 作为辅助阅读, 不作为主教材; 本书不复制、分发或重构其受版权保护的原文。

1.4.1 文件夹建议

TOEFL/

vocabulary/

reading/

listening/

writing/

speaking/

mock-tests/

error-log/

recordings/

录音文件统一命名:

W03-D2-interview-topic-attempt1.m4a

W03-D2-interview-topic-attempt2.m4a

不要覆盖第一次录音。第一次和第二次的差异, 才是你真正的学习证据。

1.5 五、第 1 周入门诊断

诊断不是正式托福估分或缩略版真考。它用于决定你该把时间放在哪里; 下列题量与分配时间是为诊断能力而设, 可能大于或不同于正式考试的当前范围。请在两天内完成, 期间不要查词、问 AI 或暂停计时。

1.5.1 Part A: 词汇与词形 (15 分钟)

A1. Choose the best meaning.

1. The new evidence **undermined** the earlier explanation.
A. made it more popular
B. made it less convincing
C. described it in detail
D. repeated it exactly
2. The insects are **abundant** during the wet season.
A. difficult to observe
B. present in large numbers
C. harmful to crops
D. active only at night
3. The policy had an **adverse** effect on small businesses.
A. unexpected
B. temporary

- C. harmful
- D. measurable
- 4. The two theories are not necessarily **incompatible**.
 - A. unable to be true together
 - B. supported by equal evidence
 - C. expressed in simple language
 - D. developed at the same time
- 5. The researchers tried to **isolate** the cause of the change.
 - A. remove the effect permanently
 - B. identify it separately from other factors
 - C. explain it to the public
 - D. compare it with an earlier result

A2. Complete the words.

Complete each unfinished word so that the paragraph is grammatical and meaningful.

Urban trees do more than make streets attractive. They can red___ summer temperatures, abs___ some air pollutants, and prov___ shade for pedestrians. However, trees also req___ long-term care. A city that plants thousands of young trees but fai___ to water them may lose much of its investment.

A3. Word families.

Write the correct form of the word in brackets.

1. The decline was too _____ to be explained by chance. (SIGNIFY)
2. The committee questioned the _____ of the data. (RELY)
3. The species can _____ to a wide range of temperatures. (ADAPTATION)
4. The decision was based mainly on economic _____. (CONSIDER)
5. The speaker gave a clear and _____ explanation. (LOGIC)

1.5.2 Part B: 句法 (15 分钟)

B1. Build a sentence.

Reorder the chunks to make one correct sentence.

1. many coastal cities / because sea levels are rising / are improving / their flood defenses
2. the professor / that the first experiment / pointed out / had not controlled for temperature
3. students can reserve / which is located beside the library / the media room / online
4. although the device is inexpensive / it requires / regular maintenance / to remain accurate

5. the migration pattern / scientists once believed / was caused only by climate / is now understood differently

B2. Repair the sentence.

Each sentence contains one important error. Rewrite it.

1. The article explains why did the settlement disappear.
 2. Students who wants to join the trip must register by Friday.
 3. The new schedule is more convenient comparing with the old one.
 4. Because the equipment was unavailable, so the experiment was delayed.
 5. The museum allows visitors taking photographs without flash.
-

1.5.3 Part C: 阅读 (30 分钟)

C1. Read in Daily Life

Library Notice

Beginning Monday, the second-floor study area will close at 8:00 p.m., two hours earlier than usual, while new lighting is installed. The first floor will remain open until midnight. Students who have reserved second-floor group rooms after 8:00 p.m. will receive an email offering a first-floor room. Construction is expected to last four evenings.

1. Why will the second floor close early?
 - A. The library has reduced its staff.
 - B. Workers are changing the lighting.
 - C. Group rooms are being expanded.
 - D. The first floor is being repaired.
2. What will happen to students with late group-room reservations?
 - A. Their reservations will be canceled.
 - B. They must arrive before 8:00 p.m.
 - C. They will be offered another room.
 - D. They must contact the library.
3. What can be inferred about the first floor?
 - A. It normally closes before the second floor.
 - B. It has no rooms for group study.
 - C. It will operate on its usual schedule.
 - D. Its lighting was recently replaced.

C2. Read an Academic Passage

Why Some Seeds Wait

Seeds do not always begin growing as soon as water and warmth become available. Many species produce dormant seeds that remain inactive even

under conditions that seem favorable. This delay can protect a plant population from short periods of good weather followed by drought or frost. If every seed germinated during the first warm week, a sudden return of cold conditions could destroy an entire generation. By remaining dormant for different lengths of time, seeds spread this risk across several seasons. Dormancy can be controlled by a hard outer covering, by chemicals inside the seed, or by a requirement for a particular environmental signal. Some seeds, for example, germinate only after exposure to cold temperatures. Others respond to chemicals released by fire, which helps them take advantage of open ground after competing vegetation has burned.

4. What is the passage mainly about?
 - A. Why young plants need stable temperatures
 - B. How seed dormancy can improve survival
 - C. Why fire destroys some plant populations
 - D. How scientists measure seed growth
 5. Why does the author mention “the first warm week”?
 - A. To describe the normal length of germination
 - B. To explain why water is more important than temperature
 - C. To illustrate the danger of responding too quickly
 - D. To compare seeds produced in different seasons
 6. The phrase “spread this risk” is closest in meaning to:
 - A. make the danger affect different times
 - B. prevent the danger from being observed
 - C. increase competition among plants
 - D. move seeds to different locations
 7. Which of the following can control dormancy?
 - A. The size of the adult plant
 - B. The number of competing species
 - C. A chemical within the seed
 - D. The amount of open ground
 8. What can be inferred about seeds that respond to fire-related chemicals?
 - A. They are likely to grow when competition has been reduced.
 - B. They are usually damaged by cold weather.
 - C. They can germinate without water.
 - D. They remain dormant for only one season.
-

1.5.4 Part D: 听力 (20 分钟)

请使用 TTS 或让他人朗读以下脚本。第一次做题时不要看文字。每段只播放一次。

D1. Choose a Response

Prompt 1: “Would you mind sending me the updated schedule?”

- A. No, the train was delayed.

- B. Sure, I'll email it this afternoon.
- C. The meeting lasted an hour.
- D. I updated my computer yesterday.

Prompt 2: "I thought the workshop started at ten."

- A. It was moved to ten thirty.
- B. I learned a lot at the workshop.
- C. The room holds about ten people.
- D. You should start with the introduction.

Prompt 3: "Why don't we study in the science building?"

- A. I studied biology last year.
- B. The building is made of stone.
- C. Good idea; it's usually quiet there.
- D. Science can be difficult.

D2. Announcement

Attention students: Because of strong winds, this afternoon's outdoor club fair will take place in the student center rather than on the central lawn. The starting time remains two o'clock. Clubs assigned to tables one through twenty should use the main hall. All other clubs should set up upstairs. Signs near the entrances will show the new table locations.

- 4. Why is the location changing?
- 5. When will the fair begin?
- 6. Where should a club assigned to table 28 go?

D3. Academic Talk

When we think about animal communication, we often focus on sound. But some animals communicate through vibration. A certain kind of treehopper, a small insect that feeds on plants, sends signals by shaking a plant stem. The vibration travels through the plant to other treehoppers. Researchers have found that young treehoppers use these signals when they are threatened. They produce a particular vibration, and their mother responds by moving toward them. This system works well on a plant, but it creates a challenge for scientists. A microphone records sound traveling through air, not vibration traveling through a stem. To study the signals, researchers attach special sensors directly to the plant.

- 7. What is the main topic?
 - A. How insects damage plant stems
 - B. A form of communication through plants
 - C. Why young insects remain near their mother
 - D. A new type of ordinary microphone
- 8. What happens when young treehoppers are threatened?
 - A. They move to another plant.

- B. They make a vibration.
C. They stop feeding.
D. They produce a sound in the air.
9. Why are special sensors needed?
A. The insects are too small to observe.
B. The signals occur only at night.
C. Ordinary microphones do not record stem vibrations well.
D. The mother treehopper moves too quickly.
-

1.5.5 Part E: 写作 (35 分钟)

E1. Build a Sentence

Reorder the chunks.

1. the event / due to heavy rain / has been moved / into the main hall
2. whether the new material / the researchers are testing / can survive / extreme heat
3. students who need assistance / before Friday / should contact / the advising office

E2. Write an Email — 7 minutes

You registered for a Saturday photography workshop, but your work schedule has changed. Write an email to the workshop coordinator. In your email:

- explain the problem;
- ask whether you can attend a different session;
- request any information you need.

Write about 80–120 words.

E3. Academic Discussion — 10 minutes

Professor: Some companies are considering a four-day workweek without reducing employees' total pay. Do you think this would benefit both workers and employers?

Mina: Yes. Employees would have more time to rest, so they might be more focused during working hours.

David: I am not convinced. Customers may still need services five days a week, and scheduling could become more complicated.

Write a response of at least 100 words. State and support your view, and contribute something new to the discussion.

1.5.6 Part F: 口语 (20 分钟)

用手机录音。不要先写完整稿。

F1. Listen and Repeat

使用 TTS 播放，每句只听一次，随后立即完整复述。

1. The bookstore closes earlier on Fridays.
2. Students who reserved a laptop can collect it from the front desk.
3. Although the afternoon lecture has been canceled, the laboratory session will continue as planned.
4. Researchers are examining whether urban noise changes the way certain birds communicate with one another.

F2. Take an Interview

每题听完后立即回答，目标 35-45 秒。

1. What is one skill you are currently trying to improve, and why?
2. Describe a difficulty you have faced while learning that skill.
3. What method has helped you make progress?
4. Do you prefer learning alone or with other people? Explain your answer.

保存录音，但现在不要重录。

1.6 六、答案与自评

1.6.1 客观题答案

A1: 1 B; 2 B; 3 C; 4 A; 5 B

A2: reduce; absorb; provide; require; fails

A3: significant; reliability; adapt; considerations; logical

B1 参考:

1. Many coastal cities are improving their flood defenses because sea levels are rising.
2. The professor pointed out that the first experiment had not controlled for temperature.
3. Students can reserve the media room, which is located beside the library, online.
4. Although the device is inexpensive, it requires regular maintenance to remain accurate.
5. The migration pattern scientists once believed was caused only by climate is now understood differently.

B2 参考:

1. The article explains why the settlement disappeared.
2. Students who want to join the trip must register by Friday.
3. The new schedule is more convenient compared with the old one.
4. Because the equipment was unavailable, the experiment was delayed.
5. The museum allows visitors to take photographs without flash.

C: 1 B; 2 C; 3 C; 4 B; 5 C; 6 A; 7 C; 8 A
D: 1 B; 2 A; 3 C; 4 strong winds; 5 2:00 p.m.; 6 upstairs; 7 B; 8 B; 9 C
E1:

- 1. The event has been moved into the main hall due to heavy rain.
- 2. The researchers are testing whether the new material can survive extreme heat.
- 3. Students who need assistance should contact the advising office before Friday.

1.6.2 写作自评

每项 0-2 分:

维度	0	1	2
任务完成	多项信息缺失	基本完成但不充分	所有要求明确完成
组织	难以理解	大体清楚	顺序自然、重点明确
语言	错误频繁影响理解	有错误但可理解	基本准确且表达自然
细节	几乎无支持	有简单支持	有具体、相关的支持

邮件和讨论分别满分 8 分。不要把这个分数当作官方换算。

1.6.3 口语自评

听两遍自己的录音:

- 1. 第一遍只判断: 回答是否直接、完整、听得懂;
- 2. 第二遍记录: 停顿、重复、语法错误、发音不清和内容空泛。

每项 0-2 分:

维度	0	1	2
完整度	大量缺失或未回答	基本回答	完整且有展开
流利度	经常中断	有停顿但可跟随	节奏自然
清晰度	多处难辨	大体清楚	容易听懂
语言	错误严重	有明显错误	基本准确、多样

1.7 七、诊断结果如何解释

将各模块换算为百分比即可，不追求官方估分。

结果	含义	前 8 周调整
多数模块低于 50%	基础链条不稳	50% 时间用于词汇、句法、听辨和发音

结果	含义	前 8 周调整
阅读高于 65%，听力低于 50%	文字理解强于声音识别	增加每日精听和跟读，减少额外泛读
听读高于 65%，口写低于 50%	输入可用，输出未自动化	每天保留短输出，必须重录或改写
四科约 60%-75%	正常目标起点	按标准 24 周路线执行
多数模块高于 80%	起点较好	压缩基础期，提前进入限时和模考

1.7.1 你的第一个决定

根据诊断，在错题本首页写下：

- 我的最弱输入能力：
- 我的最弱输出能力：
- 最常见的三类错误：
- 未来四周每天必须完成的最小任务：

1.8 八、第 1 周最低完成线

无论工作多忙，至少完成：

- 全套诊断；
- 建立文件夹和错题本；
- 录制并保留第一组口语；
- 制定固定学习时段；
- 开始每日 20 分钟词汇复习；
- 开始每日 10 分钟听音跟读；
- 完成一次 25 分钟 *Sapiens* 限时阅读，不逐词查词。

完成这些任务后再进入 01-24 周总学习路线.md。

第二章 24 周总学习路线

2.1 一、在职版时间预算

默认每周投入 **6-6.5 小时**，全部落在工作日；周末不排托福训练。

时间	标准任务
周一 75 分钟	词汇 20 + 阅读 35 + 复盘 20
周二 75 分钟	词汇 20 + 听力 35 + 跟读 20
周三 75 分钟	词汇 20 + 写作 35 + 改写 20
周四 75 分钟	词汇 20 + 口语 35 + 重录 20
周五 60 分钟	本周错题回炉 + 混合小测
周六	只背单词 （墨墨当日新词 + 复习），约 20-30 分钟
周日	只背单词 （墨墨当日新词 + 复习），约 20-30 分钟

工作日合计 360 分钟，加周末两天的单词约 40-60 分钟，即 **6-6.5 小时**。

2.1.1 为什么周末只留单词

这是排程上的取舍，不是偷懒，但它的代价必须写清楚：**周末停训后每周投入约为原设计的一半**（原为 600-720 分钟）。直接后果是，按本书 24 周的里程碑节奏走会**赶不上**——同样的内容量，实际需要约 **36-40 周**。

有三种处理方式，选一种并写进你的打卡表，不要含糊过去：

1. **顺延考试日期**（推荐）：保留每周 6 小时和本书的内容顺序，把 24 周的里程碑按 1.55 倍拉长，Week 8 / 12 / 18 / 24 的节点相应落在第 12 / 19 / 28 / 37 周附近。
2. **压缩内容**：保持 24 周，但放弃扩展题库（13-19 章）的一半篇幅，只做主教程和阶段测验。分数目标应相应下调。
3. **提高工作日强度**：把周一至周四加到 100-110 分钟。只在你确认能连续 12 周做到时才选它——做不到的计划比慢的计划更糟。

单词之所以是唯一不断的一项，是因为它是**唯一按遗忘曲线走的**：停两天就产生真实的欠账，而阅读、写作停两天只是进度慢一点。其余四项没有这个性质，所以它们是可以停的那部分。

2.1.2 周末的单词怎么算数

周末不进本书的任务表，但也不是空白：当天在墨墨里背的新词和复习词，会由 momo-vocab-epub 生成当天一篇的精读文章，同步到 Boox。那篇文章把当天的新词正式讲解一遍，并把当天复习时判为“忘记/模糊”的旧词再放回句子里，所以周末的 20-30 分钟同时完成了背词和一次轻量的语境输入。

这也是本书唯一与外部日更材料联动的地方，属于 D 类辅助材料（见 10-资料来源与更新说明.md），不替代任何题型训练。

2.1.3 两项辅助材料的固定额度（已计入上表）

材料	每周额度与安排	对应章节	使用边界
Sapiens	约 40 分钟，拆到周一和周三的“复盘/改写”时段各 20 分钟；完成 11-Sapiens 辅助阅读与迁移训练.md 当周一行的五步法。原安排在周日的整块 60 分钟已随周末停训取消。	11；阅读迁移参照 03	辅助深度输入，不替代阅读题型、限时练习或模考。
ChatGPT 口语陪练	40-60 分钟，每周 2 次、每次 20-30 分钟；置于周三、周四的“改写/重录”时段。原第三次（周日）已取消。	12；口语任务参照 06，评分口径参照 08	必须“首录一有证据反馈—二录”，不让 AI 代写；额度已计入上表。

2.1.4 阶段测验和模考怎么办

这是周末停训后**唯一真正塞不下**的东西：一套压缩模考需要 2-3 小时连续不被打断的时间，而工作日最长的格子只有 75 分钟，拆成两天做会让计时和耐力失去意义。

所以它们是明确的例外，全程只有 5 次（Week 8、12、18、24 的阶段卷与两套模考）：**提前两周选定一个周末上午占用一次**，做完当周的工作日任务相应减半。把这 5 个日期一次性写进 09-错题本复盘表与打卡表.md，其余周末保持只背单词。

2.1.5 工作特别忙的一周

不要补到凌晨，也不要整周放弃。执行与 09-错题本复盘表与打卡表.md 第十二节一致的最低版：

- 任选 3 天，每天只完成 **1 项、25 分钟**：1 段精听、1 段精读、60 秒口语录音（可二录）或 1 个写作段落；
- 该周至少覆盖一次输入（精听或精读）和一次输出（口语或写作）；
- 单词照常，一天不停——它是欠账会累积的那一项；
- 错题归类和下周排程压缩到工作日 20 分钟，不强行做整套或阶段测验。

这约为 1.5-2 小时，只用于加班、出差或疲劳周；不补债，恢复后直接回到标准版。连续三周只能完成最低版，应把考试日期顺延。

2.2 二、每周固定闭环

每项训练都遵循：

- 1. **首次限时完成**：模拟真实反应，不查资料；
 - 2. **核对与分类**：不只看答案，要写出错因；
 - 3. **局部精练**：精读、精听、句法分析或逐句修改；
 - 4. **再次输出**：重做、复述、改写或重录；
 - 5. **间隔回测**：2 天后和 7 天后各回看一次。
- 如果没有第 4 步，你通常只是在理解解析，而不是获得能力。

2.3 三、阶段总览

阶段	周数 主要目标
定位与筑基	1-4 诊断、词汇系统、句法、发音、习惯
输入能力	5-8 阅读和听力基础题型、精读精听
输出能力	9-12 写作和口语入门、第一次综合评估
四科进阶	13-16 限时、难度提升、知识迁移
目标冲刺	17-20 自适应首阶段稳定性、输出自动化
模考与定型	21-24 套题、补弱、考场节奏和状态

2.4 四、测验与模考章节映射

所有评估均先按 07-阶段测验与完整模考.md 的执行规则限时完成，再用 08-答案解析评分量表.md 核对、用 09-错题本复盘表与打卡表.md 留档；第 1 周诊断另按 00 章执行。

节点	本路线中的安排	具体章节与后续动作
Week 1	入门诊断	00 章；按 08 章的错因口径记录到 09 章。
Week 4	基础阶段小测	07 章“第 4 周”压缩卷；重点回看 02、06 章的词法、句法和复述。
Week 8	输入阶段测验	07 章“第 8 周”压缩卷；阅读/听力分别回到 03、04 章补弱。
Week 12	第一次综合测验	07 章“第 12 周”压缩卷；写作/口语分别回到 05、06 章，评分用 08 章。
Week 16	四科阶段测验	07 章“第 16 周”将 R/L 与 W/S 分两天完成；按 09 章通关表决定补弱。
Week 20	第二次综合评估	07 章“第 20 周”较高路径压缩卷；以 03-06 章专项修复唯一首要弱项。

节点	本路线中的安排	具体章节与后续动作
Week 21	完整模考一	07 章模考 A (The Campus Repair Lab); 答案/量表见 07、08 章, 复盘页见 07、09 章。
Week 23	完整模考二	07 章模考 B (The Neighborhood Water Map); 与模考 A 用同一 08、09 章口径比较。
Week 24	考前定型	只用 09 章检查表和短组维护风险项; 不再新增第三套完整压缩模考。

10 章规定官方资料优先、辅助材料不得冒充考试材料; 因此本表中的所有“测验/模考”均是本书训练评估, 不替代 ETS 当期规则或正式成绩。

2.5 五、逐周计划

2.6 Week 1: 诊断与系统搭建

目标

- 完成入门诊断;
- 找出最弱输入项和最弱输出项;
- 固定学习时段和记录方式。

任务

- 完成 00-使用说明与诊断.md;
- 建立错题本、录音目录和词汇复习系统;
- 学习新版考试地图;
- 进行 2 次 10 分钟跟读;
- 在本周 60 分钟 *Sapiens* 时段中进行 1 次 25 分钟限时阅读;
- 使用 ChatGPT 做一次 4 问口语采访, 保留原始录音。

通关

- 能准确说出四科任务;
- 所有诊断结果有错因分类;
- 下周学习时段已写入日历。

2.7 Week 2: 词汇不是单词表

目标

- 建立词形、词族、语境和声音四维记忆;
- 开始 Complete the Words 基础。

任务

- 每日新增 20-25 个高频词，复习量由间隔系统决定；
- 学习常见前缀、后缀和词性变化；
- 完成 5 组短篇补词；
- 每天朗读例句并口头造句 5 个；
- 做一次 *Sapiens* 段落英文口头概括。

通关

- 一周新词延迟回忆正确率至少 80%；
- 补词练习正确率至少 70%；
- 能用 20 个新词独立造句。

2.8 Week 3: 句子骨架与长句

目标

- 快速识别主干、从句和修饰关系；
- 为阅读、Build a Sentence 和口语复述打底。

任务

- 学习五类基本句型、名词从句、定语从句、状语从句；
- 每天拆解 5 个长句；
- 完成 30 道句子重组；
- 把 10 个复杂句改写为两个简单句，再合并回来；
- 口语跟读时按意群停顿。

通关

- 句子重组正确率 75%；
- 90 秒内找出一个长句的主谓宾和主要从句。

2.9 Week 4: 发音与听觉入口

目标

- 识别自身主要发音问题；
- 建立重音、弱读、连读和意群意识。

任务

- 对比录音，检查尾音、长短元音、重音和吞音；
- 每天 10-15 分钟影子跟读；
- 完成 4 组 Listen and Repeat 基础句；
- 做第 4 周阶段小测；
- 汇总前四周最常见的 10 个错误。

通关

- 短句一次复述完整率至少 80%；
- 录音可以听清主要词尾和句子重音；
- 阶段小测达到 65%，否则加一周筑基。

2.10 Week 5: 生活阅读

目标

- 快速理解邮件、通知、广告和网页信息。

任务

- 学习目的、对象、时间地点、条件和行动要求；
- 每天完成 2-3 篇短材料；
- 练习先读问题再扫描材料；
- 每周一次 10 分钟混合限时组。

通关

- 生活阅读正确率 80%；
- 平均每题不超过 60 秒。

2.11 Week 6: 学术短文基础

目标

- 理解段落主旨、结构和关键细节。

任务

- 学习定义、因果、对比、问题解决、时间顺序；
- 每天完成一篇短学术段落精读；
- 周五的错题回炉时段并入两篇限时练习；
- 从 *Sapiens* 选一个短段落，只写主旨、证据和作者目的，不逐句翻译。

通关

- 学术短文正确率 70%；
- 能在 30 秒内说出段落结构。

2.12 Week 7: 听力即时反应

目标

- 提高日常回应和短对话的语用理解。

任务

- 每天练 10 个选回应；
- 训练建议、请求、拒绝、纠正、惊讶、不确定；
- 错题必须写出“字面意思”和“说话目的”；
- 进行 3 次无字幕听写，每次 5-8 句。

通关

- 选回应正确率 80%；
- 常见弱读句能一次听出核心意思。

2.13 Week 8: 公告与学术短讲

目标

- 抓主旨、目的、结构、例子和关键细节；
- 使用极简笔记。

任务

- 每天一段 1-3 分钟材料；
- 第一次做题，第二次补笔记，第三次跟读或复述；
- 只记录名词、动词、箭头、因果和对比；
- 做第 8 周阶段测验。

通关

- 听力混合正确率 70%；
- 能用 30 秒复述短讲主线；
- 若语音识别错误超过理解错误，下一阶段每日追加 10 分钟精听。

2.14 Week 9: 写作句法与邮件

目标

- 稳定完成 Build a Sentence；
- 写出清楚、礼貌、任务完整的邮件。

任务

- 每天 5 道句子重组；
- 学习邮件开头、目的、解释、请求和结尾；
- 写 3 封 7 分钟邮件；
- 每封必须进行一次压缩和纠错。

通关

- 重组正确率 85%；
- 邮件所有任务点完整；
- 主要语法错误不超过每 100 词 5 个。

2.15 Week 10: 学术讨论

目标

- 10 分钟内形成明确观点并提供新贡献。

任务

- 学习立场—理由—机制/例子—回扣结构；
- 每天做 3 分钟口头构思；
- 本周写 3 篇完整讨论；
- 删除空洞套话，优先写具体因果。

通关

- 10 分钟完成至少 100 词；

- 观点明确，有一个充分展开的理由；
- 能回应讨论但不重复他人。

2.16 Week 11: 听后复述

目标

- 扩大一次听取的意群长度；
- 提高完整度和语音清晰度。

任务

- 从 7-9 词句逐步提高到复杂句；
- 每天 10 句，记录遗漏位置；
- 使用“内容词—语法骨架—语调”三轮训练；
- 每组至少重录一次。

通关

- 中等句内容词保留率 85%；
- 不因追求口音而破坏完整度；
- 听者可轻松理解。

2.17 Week 12: 采访回答与第一次综合评估

目标

- 无准备直接回答，持续 35-45 秒；
- 检查前半程学习效果。

任务

- 每天一组 4 问采访；
- 每题只用 5 秒想“答案 + 原因 + 细节”；
- 用 ChatGPT 模拟采访，但不得先看全部题；
- 完成第 12 周综合测验；
- 根据结果重分配第 13-16 周时间。

通关

- 80% 回答直接回应问题；
- 大多数回答持续至少 30 秒且无长时间中断；
- 综合测验达到 70%。

2.18 Week 13: 阅读推断与逻辑

目标

- 从证据推断，不凭常识猜。

任务

- 训练指代、隐含因果、作者目的和排除干扰；
- 每天解释一题为什么三个选项错；

- 进行一次两阶段教学模拟。

通关

- 推断题正确率 70%;
- 每个答案能指出文本依据。

2.19 Week 14: 听力态度与目的

目标

- 识别转折、犹豫、委婉拒绝、修正和强调。

任务

- 建立语气信号表;
- 同一句用不同语气朗读并解释含义变化;
- 对话和公告混合限时;
- 学术短讲做结构复述。

通关

- 态度/目的题正确率 75%;
- 能区分“说了什么”和“为什么这样说”。

2.20 Week 15: 写作准确与自然

目标

- 减少中式英语和重复句型。

任务

- 建立个人十大语法错误清单;
- 每天修改 5 个错误句;
- 写 2 封邮件和 2 篇讨论;
- 对照量表做第二稿, 不让 AI 直接代写。

通关

- 重复错误较 Week 9 减少一半;
- 句型有变化但不牺牲准确度。

2.21 Week 16: 口语清晰与展开

目标

- 回答具体、连贯、自然;
- 处理追问而不是背稿。

任务

- 同一问题用个人经历、一般例子、对比三种方式回答;
- ChatGPT 每次根据上一答自然追问;
- 做第 16 周阶段测验;

- 选 5 段 Week 12 录音重新回答并比较。

通关

- 连续四问中内容不自相矛盾；
- 每题有至少一个具体细节；
- 阶段测验达到 75%。

2.22 Week 17: 自适应首阶段稳定性

目标

- 在不过度拖延的前提下减少首阶段粗心。

任务

- 阅读、听力各做 3 次两阶段教学模拟；
- 首阶段结束前只检查标记题，不全面重做；
- 记录错误来自知识、节奏还是注意力；
- 保持口写日常输出。

通关

- 首阶段基础与目标题正确率稳定在 80% 左右；
- 没有因个别难题造成后续大面积超时。

2.23 Week 18: 学术主题拓展

目标

- 降低陌生学科带来的焦虑。

任务

- 轮换生命科学、物理科学、历史、艺术、社会科学、商业；
- 每个主题建立 15-20 个高复用概念词；
- 用 *Sapiens* 做一次“观点—证据—限制”英文摘要；
- 将摘要改造成 45 秒口语回答。

通关

- 面对陌生题材仍能抓结构；
- 不因不懂背景知识放弃文本证据。

2.24 Week 19: 写作与口语速度

目标

- 构思自动化，减少启动时间。

任务

- 写作 60 秒列提纲；
- 口语 5 秒确定回答方向；
- 进行短时混合输出：邮件、讨论、采访交替；

- 每次只修正最影响得分的三项。

通关

- 90% 任务在时限内完成；
- 内容完整度不因提速明显下降。

2.25 Week 20: 第二次综合评估

目标

- 判断是否进入最终模考期。

任务

- 完成四科阶段测验；
- 抽查 100 个旧词、20 个长句、两周前的错题；
- 对比 Week 1、12、20 的录音和写作；
- 选择最后四周唯一首要弱项。

通关

- 综合正确率 80% 左右；
- 输出量表稳定达到目标档；
- 未达标者增加 2-4 周专项，不急于报名。

2.26 Week 21: 完整模考一

目标

- 第一次按完整顺序连续完成；
- 发现节奏、设备和耐力问题。

任务

- 使用耳机、计时和正式顺序；
- 中途不查答案、不暂停；
- 次日再精查，不在模考当天情绪化复盘；
- 找出最多三个系统问题。

通关

- 所有任务完成；
- 没有因时间分配导致整组空白；
- 建立一页模考修复清单。

2.27 Week 22: 模考一修复

目标

- 修复系统问题，不盲目再刷套题。

任务

- 将模考错题按六类归档；

- 每类做 3-5 个同类微练习；
- 重写全部写作，重录全部口语；
- 只复习高频、错过和需要输出的词。

通关

- 原错题在无答案提示下可以正确解释；
- 重做不是靠记答案。

2.28 Week 23: 完整模考二

目标

- 验证修复效果；
- 决定是否具备报考状态。

任务

- 严格模拟正式考试；
- 与模考一比较正确率、时限、输出质量和疲劳；
- 只保留最后一周要修的五个问题。

通关

- 两次模考表现接近而非大幅波动；
- 目标档表现稳定；
- 若仍有单科明显短板，延长专项期。

2.29 Week 24: 减量与定型

目标

- 保持手感，不再大规模学习新内容；
- 固定考试流程和心理状态。

任务

- 每天 45-75 分钟轻量训练；
- 回看个人错误清单、邮件语气、讨论结构和口语节奏；
- 做短组，不再做高强度完整模考；
- 准备证件、路线、设备要求和睡眠安排；
- 考前一天停止高强度学习。

通关

- 能清楚描述每科策略；
 - 作息稳定；
 - 接受个别难题，不追求考场完美。
-

2.30 六、阶段补救规则

2.30.1 阅读低于目标

- 词汇题错多：回到词族、构词和语境；
- 主旨题错多：每段只写 5-10 个词的功能标签；
- 推断题错多：强制标注证据，不允许凭常识；
- 超时：短篇分段限时，不靠无限精读解决。

2.30.2 听力低于目标

- 看稿懂、听不懂：精听、听写、跟读；
- 单词听懂但题错：训练目的、结构和推断；
- 笔记太多：限制每分钟记录 8-12 个符号或词；
- 后半段忘记：每 20-30 秒做一次脑内小结。

2.30.3 写作低于目标

- 写不完：减少复杂句，先保证任务完整；
- 内容空：补“为什么—如何发生—具体例子”；
- 错误多：建立个人错误库，每次只查高频错误；
- 模板感强：删除与题目无关的万能句。

2.30.4 口语低于目标

- 开不了口：5 秒只决定答案和一个原因；
- 停顿多：用短句完成意群，不追求长句；
- 发音不清：修重音、尾音和停顿，暂不追求口音；
- 内容短：加入时间、地点、人物、动作或结果之一。

2.31 七、每周复盘模板

Week:

本周实际学习小时：

标准版 / 最低版：

阅读正确率与主要错因：

听力正确率与主要错因：

写作完成数与重复错误：

口语录音数与最大问题：

本周真正掌握的三件事：

1.

2.

3.

下周唯一最高优先级：

需要减少或停止的低效行为：

2.32 八、何时报名

不要只因为“24 周结束了”就报名。更可靠的条件是：

- 两次间隔至少一周的完整模考都接近目标；
- 四科没有明显拖后腿的单项；
- 阅读听力在限时下稳定，而非偶尔高分；
- 口语写作经过量表评估，且第二次输出明显优于第一次；
- 工作和睡眠允许你在考前两周保持稳定。

达到这些条件，才说明你不仅“学完了书”，而且正在接近 100+ 所需的可复现表现。

第三章 第 2 章 词汇、语法与发音基础：把“认识”变成“能用”

适用对象：在职学习者；尚无托福成绩；正在系统背词；阅读英文版 *Sapiens* 的理解度约为 50%-60%；目标为 2026 新版 TOEFL 100+（约新制 5 分档）。

本章任务：在有限时间内，建立听、读、写、说共用的语言底盘。每周总学习 6-6.5 小时（工作日集中，周末只背单词），本章建议连续执行 6 周，再进入题型强化。

3.1 2.1 先理解新版目标：为什么基础仍决定上限

新版 TOEFL 的任务形式已经更新，但高分能力并没有变：你必须能迅速识别词义，听清连续语流，读懂句子关系，并用准确而自然的英语组织信息。100+ 不是“会很多孤立难词”，而是下面四项能同时稳定运行：

- 1. **词汇检索快：**看到或听到常用学术词，能在一两秒内提取核心义和搭配。
- 2. **句子拆解稳：**能找到谓语、逻辑连接和修饰范围，不被长定语或抽象名词拖住。
- 3. **声音识别准：**能把弱读、连读、重音变化后的声音还原成词。
- 4. **输出可控：**用已掌握词族和少量可靠句型，写出/说出清楚、少错的句子。

你目前读 *Sapiens* 能理解 50%-60%，说明已有语境推断能力和一部分中高频词。接下来不要把所有生词等量处理；优先补齐“高频、可迁移、可产出”的词和句法。

3.2 2.2 学习原理：少而多次，输入后必须检索

3.2.1 原理一：主动回忆比重读有效

看见 contribute 并觉得“我认识”，不代表考试中能听出、拼出或造句。学习时先遮住答案，逼自己回答，才叫检索。一次正确检索比多次划线更能巩固记忆。

操作：每张词卡先回答四个问题：

提示	你的回答
这个词的核心画面/核心义？	
常与什么词搭配？	
它的一个词族成员？	
能否在 10 秒内造一个自己的句子？	

3.2.2 原理二：间隔重复，但复习内容要变化

新词建议在 **当天、次日、第 3 天、第 7 天、第 14 天** 回看。每次不要只重复“英译中”：依次做识义、听辨、拼写、搭配选择、造句。多通道提取才能迁移到听说读写。

3.2.3 原理三：以“可理解输入 + 轻度困难”为单位

材料有 90%-95% 可理解词时，最适合积累词义和句法。低于 85% 时，先精读一小段，不要硬刷量。你读 *Sapiens* 时可选 120-180 词的一段：第一遍不查词抓主旨，第二遍标出影响理解的 3-5 个词/结构，第三遍朗读并复述。

3.2.4 原理四：错误是分类数据，不是“粗心”

错题必须标原因：词义、词性、搭配、语法、音形混淆、速度或注意力。相同标签累计 3 次，才是本周最该投入的训练点。

3.3 2.3 词汇体系：从“单词表”升级为“四层网络”

3.3.1 2.3.1 四层优先级

层级	目标	例子	学法
A：高频功能词	听读中即时识别	despite, whereas, likely	听辨 + 句内判断逻辑
B：学术核心词	所有学科通用	factor, indicate, decline	词义 + 搭配 + 词族
C：学科主题词	读听特定主题	habitat, sediment, vaccine	用主题小语料积累
D：低频精确词	不影响主旨时暂缓	translucent, herbivorous	首遇标记，二遇再学

每天新增 **8-12 个 A/B 词**，外加从阅读中挑 **3-5 个 C 词**。不要追求一次记住所有释义；先掌握最常用的一个核心义。

3.3.2 2.3.2 用“词条”而非“译词”记忆

以 decline 为例。一个合格词条应包含：

decline /dɪˈklaɪn/

核心义：下降；谢绝

词性：v. decline; n. a decline

搭配：decline sharply / a decline in population

对比：decrease (中性减少); refuse (直接拒绝)

自造句：The number of visitors declined after the storm.

最低产出要求：每个 A/B 词必须有一个搭配和一个自己能说的短句。只有中文释义的卡片属于“识别卡”，不能保证输出。

3.3.3 2.3.3 高价值搭配清单

优先把下面的“词块”整体记住，听到和写到时都更快：

- play a **role** in; have an **effect** on; lead to / result in
- be **associated with**; be **responsible for**; be **based on**
- a **significant** increase in; a **wide range of**; in **contrast to**
- **raise awareness of**; **take into account**; **draw a conclusion**
- **make a contribution to**; **provide evidence for**; **be likely to**

注意：搭配不是固定句子。你要能替换内容词，例如：provide evidence for the theory / the claim / the policy.

3.4 2.4 构词与词族：遇到陌生词也不慌

3.4.1 2.4.1 三步拆词法

1. 找**词根**：携带主要概念，如 spect (看)、tract (拉)、form (形状)。
 2. 看**前缀**：常改变方向、否定或程度，如 re-、inter-、mis-。
 3. 看**后缀**：常提示词性，如 -tion、-ive、-ly。
- 拆词用于**提出假设**，必须回到上下文验证。invaluable 并不是“不值钱”，而是“极有价值的”。

3.4.2 2.4.2 常用前后缀

部分	常见意义	示例	判断提示
re-	再、回	rebuild, reconsider	重建、重新考虑
inter-	之间	interaction, international	相互/跨国
sub-	下、次级	subgroup, subconscious	下属/次级
trans-	穿过、改变	transport, transform	运送/转变
-tion/-sion	名词：行为/结果	expansion, decision	常接 of 或 in
-ive	形容词	effective, selective	常修饰名词
-ity	名词：性质	stability, diversity	常作主语/宾语
-ize	动词：使……化	stabilize, modernize	后接宾语
-ly	副词	gradually, relatively	修饰动词/形容词/全句

3.4.3 2.4.3 高频词族表

核心概念	动词	名词	形容词/副词	常用句框
分析	analyze	analysis	analytical	analyze data / an analysis of
变化	vary	variation	various, variable	vary according to
贡献	contribute	contribution	contributory	contribute to
影响	affect	effect	effective	affect A / have an effect on A
分布	distribute	distribution	distributed	be distributed across
显著	—	significance	significant, significantly	a significant change
维持	maintain	maintenance	maintained	maintain a balance
反应	react	reaction	reactive	react to

特别警报：词性陷阱

- affect 通常是动词；effect 通常是名词：The policy affected costs. / The policy had an effect on costs.
- economic (经济的) 与 economical (节约的) 不同。
- sensible (明智的) 与 sensitive (敏感的) 不同。

3.5 2.5 Complete the Words: 从词形、词性到语境

这类训练的核心不是“把字母补齐”，而是用上下文预测词性、词义和拼写形式。

3.5.1 四步流程

1. **看语法槽位**：空前有 to，多半是动词原形；a/an/the 后通常需名词；be 后常需形容词或过去分词。
2. **找逻辑信号**：however 表转折，therefore 表结果，for example 表举例。
3. **确定词族**：The rapid ___ of cities 要名词，优先考虑 expansion，不是 expand。
4. **最后拼写检查**：单复数、时态、-tion/-sion、双写规则。

3.5.2 拼写微规则

- -y 变 -ies: study → studies; 但元音 + y: play → plays。
- 辅音 + y 变 -ied: carry → carried。
- 重读闭音节常双写: plan → planned; 但 open → opened。
- -tion 常见于动词后: inform → information; 但不是所有词都可机械套用。

3.6 2.6 Build a Sentence: 高分所需的最小语法系统

语法目标不是背术语，而是让意思不歧义。先把下列六个系统练到可自动使用。

3.6.1 2.6.1 句子骨架：每句先找谓语

英语完整句通常至少有一个有限谓语：

- Urban populations ****grew**** rapidly.
- The study ****suggests**** that the policy was effective.

长句先删掉修饰语，保留主干：

The plants **that grew near the river absorbed** more water **during the summer**.

主干：The plants absorbed more water.

3.6.2 2.6.2 名词短语：信息向右扩展

the rapid growth of online education in rural areas

核心名词是 growth; rapid 在左修饰; of ... 和 in ... 在右补充。阅读时先抓核心名词，写作时不要连续堆三个以上 of，必要时拆句。

3.6.3 2.6.3 时态：只解决时间关系

情境	形式	例句
普遍事实/图表趋势	一般现在时	Water boils at 100°C.
已结束过去事件	一般过去时	The researchers collected samples in May.
过去开始且影响现在	现在完成时	Scientists have identified a new pattern.
过去某时正在进行	过去进行时	The team was testing the device when it failed.

常见错误：不要因句子看起来“高级”就滥用完成时。明确过去时间 in 2024 / last year 一般用过去时。

3.6.4 2.6.4 从句：只学最常用的三类

1. **名词性从句**: The results show that the method works.
2. **定语从句**: The method that we tested is inexpensive.
3. **状语从句**: Although the method is cheap, it requires training.

高频逻辑词：

功能	连接词	例句
原因	because, since	Since demand rose, prices increased.
让步	although, while	Although it is small, it is useful.
条件	if, unless	If rainfall falls, crops may fail.
结果	so, therefore	The sample was contaminated; therefore, it was discarded.
对比	whereas, unlike	Urban areas grew, whereas rural areas declined.

because 后接完整句; because of 后接名词短语。although 与 but 不在同一分句中重复使用。

3.6.5 2.6.5 非谓语：压缩信息，但先保证主语一致

- Using solar power, the school reduced its costs. (使用者是 school)
- To reduce costs, the school installed solar panels.
- Built in 1900, the bridge remains in use.

错误: Using solar power, costs were reduced. 看似有语法, 实际上 costs 不会使用太阳能。改为第一句。

3.6.6 2.6.6 可直接复用的输出句框

不要追求复杂句堆砌。以下句框准确、可迁移:

1. One important factor is that + 完整句。
2. X is likely to + 动词原形 because + 完整句。
3. Compared with X, Y + 谓语。
4. The evidence suggests that + 完整句。
5. Although + 完整句, 主句。
6. This change may lead to + 名词短语。

3.7 2.7 发音基础：让耳朵能切词，让嘴巴能输出

3.7.1 2.7.1 音素：优先处理影响辨义的对立

不必一开始背完整 IPA 表, 但要能听出并发出下列易混音。

对立	口形/动作	最小对立
/i:/ vs /ɪ/	/i:/ 嘴角更展开且长; /ɪ/ 短放松	sheep / ship

对立	口形/动作	最小对立
/æ/ vs /e/	/æ/ 张口更大; /e/ 更收	bad / bed
/ʌ/ vs /ɑ:/	/ʌ/ 短而中; /ɑ:/ 张口后、较长	cut / cart
/θ/ vs /s/	舌尖轻触上下齿之间送气	thin / sin
/ð/ vs /z/	同样伸舌但声带振动	then / zen
/r/ vs /l/	/r/ 舌不碰上颚; /l/ 舌尖碰上齿龈	right / light
词尾 /t/ /d/ /s/	不吞掉, 轻收尾	rate / raid / race

练习原则：**先慢、再准、再连贯**。录音后只挑一个问题改，例如今天只改 /θ/，不要一次改五项。

3.7.2 2.7.2 单词重音：重音位置会影响识别

重读音节通常更长、更响、元音更清晰：

- PHOtograph / phoTographic
- REcord (名词) / reCORD (动词)
- ANalyze / aNALysis

听生词时先拍节奏，再猜词。读词卡必须标一个重音符号：conTRIBute，而不是平铺地读每个音节。

3.7.3 2.7.3 句子重音：内容词重，功能词轻

通常重读名词、主要动词、形容词、副词、否定词和新信息；冠词、介词、助动词、代词多弱读。

The **NEW** policy will **REDUCE** energy **COSTS**.

同一句的焦点会改变含义：

MAYA submitted the report. (不是别人)

Maya submitted the **REPORT**. (不是别的东西)

3.7.4 2.7.4 连读、失爆与弱读：听力“丢词”的真正原因

- **辅音 + 元音连读**：take_it, find_out.
- **同类辅音简化**：next day 中 /t/ 常不完全释放。
- **/t/ + /j/ 融合**：did you 常接近 /'dɪdʒu/.
- **弱读**：to 常接近 /tə/；for 常接近 /fər/；and 可接近 /ən/；can 在肯定句常弱。

不要把弱读理解成“随便吞音”。内容词依然有清晰重音，弱读词只是缩短、元音中央化。听力训练要从“听单词”升级为“听重音骨架 + 连接处”。

3.7.5 2.7.5 意群：一口气表达一个单位

按意义而非标点断开：

In recent years / several cities have invested / in public transportation / to reduce traffic congestion.

做法：用 / 划意群；每组 4-8 个词；重读 1-2 个关键词。朗读时组内连贯，组间微停。这样既更自然，也能降低口语卡顿。

3.8 2.8 Listen and Repeat: 基础精听跟读程序 (15 分钟)

选择 15-30 秒、文本可得、语速自然的原创或公开教育材料；不要一开始挑战整段演讲。

1. **盲听 (2 分钟)**: 听两遍，写下关键词和逻辑词，不暂停。
2. **核对文本 (3 分钟)**: 圈出没听到的词，标重音、弱读和连读。
3. **切块模仿 (5 分钟)**: 按意群播放 2-5 秒，暂停复述。先模仿节奏，后模仿音。
4. **影子跟读 (3 分钟)**: 延迟约半拍跟原音，不停顿。
5. **录音回听 (2 分钟)**: 只记录一个可改点：如 “to 没弱读” 或 “句末 /s/ 漏掉”。

判断是否可升级材料: 连续两天，30 秒材料能抓到 85% 关键词，并能不看稿复述 2-3 句，即可提高到 45-60 秒。

3.9 2.9 适合在职者的每日与每周安排 (6-6.5 小时)

3.9.1 工作日: 每天 70-80 分钟

模块	时长 做什么
间隔复习	15 分钟 复习到期词卡；先说后看答案
新词与词族	20 分钟 8-12 个 A/B 词 + 2 个词族
语法造句	15 分钟 选一个句框，写 4 句并朗读
Listen and Repeat	15 分钟 执行 2.8 的五步程序
微复盘	5-10 分钟 错误分类、安排次日复习

碎片时间可做纯听辨或词卡，通勤时不建议首次学习复杂语法。

3.9.2 周末: 只背单词, 20-30 分钟

周末不排本章的精读、精听、听写和周测 (见 01-24 周总学习路线.md 第一节)。保留的只有词卡：

- 在墨墨完成当天到期的复习和新词，不加量；
- 读一遍当天生成的精读文章 (momo-vocab-epub 的日更章)，当作语境确认，不做题、不记笔记；
- 原本放在周六的词族归纳并入周一的“新词与词族”格，原本放在周日的周测并入周五的错题回炉。

词卡是唯一按遗忘曲线走的模块，停一天就产生真实欠账，所以它不随其余项目一起停。

3.9.3 六周推进

周数	主目标	可量化产出
1-2	固定词卡、句子主干、音素对立	80-120 个可产出词; 10 段 30 秒跟读
3-4	词族、从句、弱读连读	另 80-120 个词; 能拆 10 个长句
5	输出句框、意群、复述	5 段各 60 秒复述
6	混合复习与诊断	周测达通关标准, 确定薄弱标签

3.10 2.10 分级原创练习

请先独立完成, 答案在下一节。本练习为原创, 不取自任何官方真题、教辅、书籍或考试回忆。

3.10.1 A 级: 识别与填空

A1 选词填空

从方框中选择恰当形式填空: affect, effect, contribute, significant, vary

1. Temperature can _____ the speed of a chemical reaction.
2. The new rule had little _____ on daily routines.
3. Several small changes _____ to the final improvement.
4. The two groups showed a _____ difference in memory scores.
5. Plant growth may _____ according to the amount of light.

A2 Complete the Words

根据句意和首字母补全单词, 必要时改变形式。

1. The rapid e_____ of the city created a need for more housing.
2. Researchers must a_____ the data before drawing conclusions.
3. The museum's collection is d_____ across three buildings.
4. Regular practice can s_____ your pronunciation over time.
5. The report describes several v_____ in local weather patterns.

A3 词性判断

将括号中的词变成正确形式。

1. The manager explained the _____ (significant) of the result.
2. This method is more _____ (effect) than the older one.
3. The team made a useful _____ (contribute) to the project.
4. The price changed _____ (gradual) over six months.

3.10.2 B 级: 句子骨架与语法

B1 找主干

划出下列句子的主语和谓语, 再用中文概括主干。

1. The insects that live beneath the leaves avoid direct sunlight.
2. In many coastal towns, rising sea levels have changed local building plans.

3. The proposal, although it seemed expensive at first, may reduce waste in the long term.

B2 改错

每句只有一个主要错误，改正它。

1. Although the device is small, but it uses a large amount of power.
2. The results have changed last year.
3. Using the new software, the number of errors were reduced.
4. Because of the weather was cold, the event moved indoors.
5. The scientist explained that why the samples failed.

B3 组句

使用括号中的句框写出完整英文句子。

1. 证据表明，这种方法在小型学校也有效。(The evidence suggests that ...)
2. 与汽车相比，自行车不太可能造成空气污染。(Compared with ...)
3. 虽然样本数量有限，研究仍提供了有用的信息。(Although ...)

3.10.3 C 级：综合产出与发音意识

C1 逻辑与词形

完成短文，每空填一个词，必要时变化形式。

A community garden can have a positive _____ (affect/effect) on a neighborhood. It may _____ (provide/provides) fresh food, and it can also encourage residents to work together. _____ the garden requires time and money, many volunteers continue to support it because they believe it will _____ (contribution/contribute) to a healthier community.

C2 意群与重音

给下句划分意群 (用 /)，并用大写标出你会重读的内容词：

Researchers have recently developed a simple tool to measure water quality in remote areas.

C3 60 秒微复述

阅读下段，合上文本后用 4-6 句英文复述。必须使用 one important factor、lead to、although 中至少两个表达。

A small town replaced several empty parking spaces with trees and benches. During the following summer, people spent more time outdoors, and nearby stores received more visitors. The project was not expensive, but local residents had to agree on how to maintain the new public area.

自评：是否有完整谓语？是否至少使用一个词族词？是否在句末保留 /t/、/d/ 或 /s/？

3.11 2.11 答案与解析

3.11.1 A 级

A1

1. affect: can 后用动词原形; 表示“影响”。
2. effect: have an effect on 是固定搭配, 名词。
3. contributed: 主语 changes 是复数, 且描述已完成改善, 用过去式。
4. significant: 修饰名词 difference, 需形容词。
5. vary: may 后动词原形; vary according to 是常用搭配。

A2

1. expansion: rapid 后需要名词; 不是 expand。
2. analyze: must 后动词原形。
3. distributed: is 后用过去分词, 构成被动。
4. sharpen: can 后动词原形; 此处表示“让发音更清晰、更准确”。
5. variations: several 后用复数名词。

A3

1. significance: the 后需名词。
2. effective: more 后需形容词。
3. contribution: a useful 后需单数名词。
4. gradually: 修饰动词 changed, 需副词。

3.11.2 B 级

B1

1. 主语 The insects; 谓语 avoid。主干: 这些昆虫避开阳光。that live beneath the leaves 修饰 insects。
2. 主语 rising sea levels; 谓语 have changed。主干: 海平面上升改变了建筑计划。地点状语在句首。
3. 主语 The proposal; 谓语 may reduce。主干: 该提案可能减少浪费。although ... 是让步信息, in the long term 是时间范围。

B2

1. 删除 but: Although the device is small, it uses ...。although 已表达让步。
2. The results changed last year. 明确过去时间不用现在完成时。
3. Using the new software, the team reduced the number of errors. 原句悬垂修饰: number 不会使用软件。
4. Because the weather was cold, the event moved indoors. because 后须完整句; 或 Because of the cold weather, ...。
5. The scientist explained why the samples failed. explain 后的宾语从句不使用疑问语序中的 that why 双标记。

B3 参考答案

1. The evidence suggests that this method is effective in small schools as well.
2. Compared with cars, bicycles are less likely to cause air pollution.
3. Although the sample size was limited, the study still provided useful information.

可有不同表达。评分顺序: 句意准确 > 句子完整 > 词形/搭配正确 > 复杂度。

3.11.3 C 级

C1

effect; provide; Although; contribute

解析: a positive effect on; may 后动词原形; Although 后接完整句; will 后用动词原形 contribute to。

C2 参考标注

RESEARCHERS have recently DEVELOPED / a SIMPLE TOOL / to MEASURE WATER QUALITY / in remote AREAS.

合理断句不止一种。注意 to 通常弱读; 最后的 areas 和下一意群之间可轻停。

C3 参考复述

A town changed some unused parking spaces into a public green area. One important factor was the addition of trees and benches. More people stayed outside during the summer, which may lead to more customers for nearby stores. Although the project was inexpensive, residents needed a plan to maintain the area.

核查: lead to 后接名词短语; Although 引导完整从句; inexpensive 不等于 not expensive, 两者均可。

3.12 2.12 通关标准：何时进入下一章

连续两周达到下列标准，再把主要时间转向题型能力；未达标项目继续作为每日 15 分钟补课。

维度	通关线	自测方式
词汇	200 个 A/B 词中随机抽 40 个， 识义/搭配/造句正确率 ≥ 85%	词卡口头抽测
词族	30 个核心词族中，能写对至少 2 个成员的比例 ≥ 80%	词形填空
Complete the Words	中等难度 20 题 ≥ 17 题	限时 12 分钟
句法	10 个长句主干识别 ≥ 8 个；改 错 10 题 ≥ 8 题	周五纸笔测
听辨	45 秒短音频关键词听写 ≥ 80%	听两遍后核对
发音	录音中重音、意群清楚；自评并能 指出一个具体改进点	每周保留一条录音
输出	60 秒复述有 4-6 个完整句，重 大语法错误不超过 2 处	录音后转写

这里的“重大错误”指妨碍理解或改变关系的错误，例如缺谓语、时态混乱、主谓不一致、连接词误用。冠词或单复数偶发错误要记录，但不应阻止你继续表达。

3.13 2.13 错题记录模板：让下一次复习有靶子

每次只记录**值得复习的错题**：错过、猜对但不确定、说不出来、听不出来都算。不要整页抄题。

日期	来源/题号	原句或提示	我的答案	正确答案	错误标签	原因	下次动作	复习日期
					词义/词性/搭配/语法/音形/速度	例如：把 effect 当动词	造 3 句 + 听辨 5 次	D1/D3/D7

每周复盘的三个问题

- 1. 本周错误最多的两个标签是什么？
- 2. 哪些词“认识但不会用”？把它们转为带搭配和自造句的词卡。
- 3. 下周删掉什么低效动作，增加什么针对性动作？

3.13.1 建议的错误到行动映射

错误标签	立刻行动
词义	写核心义、反义/近义边界和一个情境句
词性	给同词族四格填空各写一句
搭配	把正确搭配制成词块卡，替换 3 个名词
语法	写“错误句—改正句—同结构新句”三联
音形	听写该词 5 次，标 IPA 与重音，再录 3 次
速度	把材料切为意群，从 0.8 倍到自然速度影子跟读

本章结论：稳定的基础来自可检索的词汇网络、可控制的句子骨架和可识别的连续语流。每天完成小闭环：记忆 → 使用 → 听说 → 纠错；六周后，你将拥有进入 TOEFL 综合训练所需的共同语言系统。

第四章 03 | 2026 新版 TOEFL 阅读完整自学章节

适用对象：在职备考者；目前能理解英文版 *Sapiens* 约 50%-60%；目标为建立支撑旧制 100+、新版约 5 分档的阅读能力。

本章原则：所有练习材料均为原创；不依赖背景知识；先练可复用的阅读动作，再练速度。

4.1 1. 先弄清你在练什么

2026 版阅读由三类任务构成：**Complete the Words (CTW)**、**Read in Daily Life (RDL)**、**Read an Academic Passage (RAP)**。阅读采用分阶段自适应：前一阶段的表现会影响后一阶段的难度和题目分布。因此，首阶段的目标不是“赌难题”，而是以稳定、低失误率完成每一道可验证的题。

旧制 100+ 不是要求逐词翻译，而是要求你能：

- 1. 看出句子的主干与限定信息；
- 2. 把信息放回正确的因果、转折、比较或时间关系中；
- 3. 用原文证据排除“听起来合理但不等于原文”的选项；
- 4. 在时间压力下持续做到以上三点。

4.1.1 在职考生的最低可行周计划

时段	任务	时长
工作日 4 天	1 个微型任务：CTW 10 题或 RDL/RAP 1 篇	25-35 分钟
工作日 1 天	两个任务连做并记录每题用时，随后错题归类、复盘并重做	60-75 分钟
周末	不排阅读任务；只在墨墨日更文章里做无题泛读	0（计入单词时段）

周末停训的依据见 01-24 周总学习路线.md 第一节：原本放在周末的“两个任务连做”已并入工作日第 5 天，泛读则由每日单词文章顺带完成，不再单列时段。

复盘格式：题型—错因—原文证据—我误读的词/关系—下次动作。只写“单词不会”不能改变下一次的表现。

4.2 2. 多阶段自适应：首阶段策略

4.2.1 2.1 原理：为什么首阶段要“稳”

自适应考试通常根据首阶段表现估计能力，再投放匹配难度的后续材料。首阶段漏掉容易题的代价很高：它既损失一道题，也可能让系统低估你的稳定水平。反过来，首阶段并不要求用超长时间解决一题极难题；它更奖励**证据充分的准确**。

4.2.2 2.2 首阶段四步法

1. **读任务，不脑补任务**：先确认问的是事实、目的、推断还是词义。
2. **证据优先**：能在文本中定位的，先定位后选；不能定位的推断题，也要能指出两条以上支持信息。
3. **两轮计时**：第一轮做确定题；单题超过个人预算的 1.5 倍，标记并继续。第二轮再处理。
4. **提交前只查高风险点**：否定词 (*not, except, only*)、数字/日期、条件 (*unless, provided that*)、代词指向、比较级。

4.2.3 2.3 首阶段禁止动作

- 因为一个生词停 40 秒；先问它是否阻碍主干或题目。
- 用中文把全文逐句默译。
- 仅因选项出现原词而选择它。
- 为了“做完”而不读 RDL 的时间、地点、限制条件。
- 改掉第一反应却没有找到新的证据。

4.2.4 2.4 时间预算

以下为训练预算，不替代考场界面显示的剩余时间：

任务	基础期	目标期 (2026 训练)	冲刺期
CTW 每空	20 秒	12 秒	8 秒
RDL 每篇含题	3 分钟	2 分钟	1 分 35 秒
RAP 每篇含题	7 分钟	5 分 30 秒	4 分 45 秒

若第一阶段题量或界面时间与练习不同，使用比例而非死记分钟：**先预留约 10% 的总时间给回查。**

4.3 3. Complete the Words: 用语境补出“可预测”的语言

4.3.1 3.1 能力原理

CTW 测的不是孤立拼写，而是四种预测同时工作：

- **句法预测**：空格需要名词、动词、形容词还是词尾？
- **搭配预测**：*make a decision* 比 *do a decision* 自然。

- **逻辑预测**: *however* 后应与前文形成反向; *therefore* 后应是结果。
- **篇章预测**: 这一句在解释原因、举例还是总结?

正确答案必须同时满足这四层; 只满足“这个词我认识”不够。

4.3.2 3.2 五步操作

1. 先扫完整句, 不立刻填第一个空。
2. 圈出信号词: *because, but, instead, for example, as a result*。
3. 判断空的词性和词形 (单复数、时态、派生)。
4. 先在脑中说出候选, 再逐字核对已给字母。
5. 从后往前复读该句, 检查搭配和逻辑是否自然。

拼写保险法: 长词先写词根, 再检查常见尾缀: -tion / -sion、-ment、-able、-ity、-ly。不要凭发音猜双写或元音。

4.3.3 3.3 示例

原创文本

Many office workers assume that a short walk cannot improve their afternoon performance. Yet a ten-minute walk may r_____ attention by giving the brain a change of stimulus. The benefit is not that walking makes people l_____ tired; rather, it can interrupt a period of p_____ concentration.

答案: refocus; less; prolonged

推理

- may r_____ attention: 空后为名词, 需动词; refocus attention 是自然搭配, 也符合字母。
- makes people l_____ tired: *less* + 形容词, 不是 *fewer tired*。
- a period of p_____ concentration: 冠词后的名词短语需要形容词; 前句说“中断持续专注”, prolonged 合逻辑。

4.3.4 3.4 练习

基础 | 限时 2 分钟

The city placed new signs near its river path. The signs do not f_____ visitors to stay on one route; they simply r_____ them that some areas are used by nesting birds. By keeping a d_____, walkers can enjoy the path without disturbing the animals.

写出三个完整单词。

目标 | 限时 2 分 30 秒

A small bakery began accepting orders through a phone app. At first, the owner feared that the system would r_____ personal contact with regular

customers. Instead, it reduced routine calls, so staff had more time to a____
_ detailed questions about ingredients. The change was useful not because
technology was i_____, but because it removed a repeated task.

写出三个完整单词。

冲刺 | 限时 3 分钟

Early maps of the ocean were often inaccurate, not because sailors lacked
c_____, but because longitude was difficult to measure at sea. A navigator
could estimate north-south position by observing the sun or stars. East-west
position, h_____, required knowing the time difference between two places.
Reliable shipboard clocks eventually made this calculation more p_____.

写出三个完整单词。

4.3.5 3.5 答案与详解

级别	答案	为什么
基础	force; remind; distance	<i>force visitors to do; remind someone that...; keep a distance</i> 是固定搭配。
目标	reduce; answer; innovative	<i>reduce personal contact</i> 与后面的 <i>Instead</i> 构成预期反转; <i>answer questions; not because ... innovative, but because...</i> 需要评价性形容词。
冲刺	courage; however; practical	<i>lack courage</i> ; 前后是转折, 需 however; 时钟使计算更“可操作”, 不是更 <i>possible</i> (此前本已可估计)。

4.3.6 3.6 CTW 错因分类与修复

错因	典型表现	立即修复动作
词性错	写出认识的词但句法不通	每空先标 N/V/Adj/Adv
搭配错	<i>do a decision</i> 一类	错题只记录“词块”, 不单记词
逻辑错	忽略 <i>yet/however</i>	用箭头写 同向/反向/因果
词形错	忘记复数、过去式、派生尾缀	填后读前后 3 个词
拼写错	语义正确但字母错	建个人拼写表, 隔天盲写

训练通关线 (仅用于本章训练, 不是官方分数线): 基础 90% 且不超过时, 再进目标; 目标连续三组 85% 以上且平均每空 ≤12 秒, 再进冲刺。

4.4 4. Read in Daily Life: 在真实限制条件中精确取数

4.4.1 4.1 能力原理

RDL 文本短，但信息密度高。公告、邮件、预约规则和日程表的答案常藏在**限制条件**中：谁、何时、何地、是否需要、例外是什么。它考的是功能性阅读，不是“读懂大意”。

常见提问可归为四类：

提问意图	你要找什么	常见陷阱
主旨/目的	发信者为何写、通知要你做什么	选过于宽泛的背景
事实细节	时间、地点、资格、费用、步骤	只匹配一个关键词
推断	必然能推出的下一步或态度	把“可能”当“必然”
词语/指代	词在本情境的功能、 <i>it/they</i> 指谁	用词典首义替代语境义

4.4.2 4.2 RDL 的“表格化”步骤

1. 看标题、发件人、粗体、项目符号，判断文本功能。
2. 心中建立五格：对象 | 动作 | 时间 | 地点/渠道 | 限制/例外。
3. 先读题，把题干关键词换成同义线索，再回原文找完整条件。
4. 选项逐个做“原文审计”：是否同时满足所有条件？
5. 推断题只允许走一步；如果需要补两个常识步骤，通常过度推断。

4.4.3 4.3 示例

原创公告

Community Tool Library

Members may borrow gardening tools for seven days. Electric tools must be returned before 6 p.m. on Friday, even if the seven-day period has not ended. Reservations are available only for tools marked “high demand.”

题目：What can be inferred about a member who borrows an electric drill on Monday?

- A. The drill may be kept until the following Monday.
- B. The drill must be returned by Friday evening.
- C. The member must reserve the drill online.
- D. The member cannot borrow gardening tools.

答案：B。电动工具有明确例外，优先于“七天”。A 忽略例外；C 把“仅高需求工具可预约”误当成“必须预约”；D 与首句相反。

4.4.4 4.4 练习

基础 | 限时 3 分钟

Building Notice

The north elevator will be inspected on Tuesday from 9:00 a.m. to noon.

During that time, visitors with mobility needs should use the south entrance and notify reception on arrival. Deliveries larger than two boxes must be rescheduled.

1. What is the purpose of the notice?
 - A. To announce a permanent entrance change
 - B. To explain temporary access arrangements
 - C. To invite visitors to an inspection
 - D. To restrict all deliveries on Tuesday
2. What should a visitor with mobility needs do?
 - A. Arrive before 9:00 a.m.
 - B. Use the north elevator
 - C. Enter through the south entrance and contact reception
 - D. Bring no more than two boxes

目标 | 限时 4 分钟

Email: Volunteer Orientation

Hello volunteers,

Saturday's orientation begins at 10:00 a.m. in Room 204, not in the lobby listed on last week's flyer. Please arrive at 9:45 to collect a name badge. If you have already completed online safety training, you may leave after the first hour; everyone else will stay until 1:00 p.m. Coffee will be available, but lunch will not be provided.

—Mara

1. Why does Mara mention last week's flyer?
 - A. To cancel the orientation
 - B. To correct the meeting location
 - C. To request new name badges
 - D. To explain the safety training
2. Who may leave at 11:00 a.m.?
 - A. Any volunteer who arrived at 9:45
 - B. Volunteers who bring their own lunch
 - C. Volunteers who completed online safety training
 - D. Volunteers assigned to Room 204
3. What is true about food?
 - A. Both coffee and lunch are provided.
 - B. Neither coffee nor lunch is provided.
 - C. Coffee is provided, but volunteers arrange lunch themselves.
 - D. Lunch is available after the first hour.

冲刺 | 限时 5 分钟

Museum Research Desk Booking

Researchers may request a desk up to fourteen days ahead. A confirmed request guarantees access from 10:00 a.m. to 4:00 p.m., but it does not reserve

any specific archive boxes. Requests made after 3:00 p.m. are processed on the next business day. On Wednesdays, the desk closes at 2:00 p.m. for staff training. Visitors who need materials from the map collection should state this in the request because those materials are stored off-site.

1. A request submitted at 4:00 p.m. on Monday will be processed
 - A. before closing on Monday.
 - B. on Tuesday, assuming it is a business day.
 - C. fourteen days later.
 - D. only after archive boxes are selected.
2. What does a confirmed request **not** provide?
 - A. A desk during stated hours
 - B. Access to a particular archive box
 - C. A booking made no more than fourteen days ahead
 - D. Permission to enter at 10:00 a.m.
3. Why should a visitor mention the map collection?
 - A. Maps can only be seen on Wednesdays.
 - B. A desk must be moved to another building.
 - C. The materials may need to be brought from another location.
 - D. The visitor will receive longer desk access.

4.4.5 4.5 答案与详解

练习	答案	证据与排除
基础 1	B	全文围绕周二上午检查期间的替代进入方式; A 把临时当永久, D 把“大于两箱”扩大为全部。
基础 2	C	原文给出完整双动作; D 是送货限制, 不是访客要求。
目标 1	B	not in the lobby 直接修正地点。
目标 2	C	10 点开始, 第一小时后为 11 点; 只有已完成线上培训者可离开。
目标 3	C	Coffee will be available, but lunch will not be provided.
冲刺 1	B	下午 3 点后次一工作日处理; 不是“次日必然开放”之外的任何说法。
冲刺 2	B	does not reserve any specific archive boxes 是直接否定。
冲刺 3	C	stored off-site 表示需要从馆外调取; 其余选项未出现。

4.4.6 4.6 RDL 错因分类与修复

错因	识别信号	修复
漏读例外	选了通则却错	每篇专找 <i>but, except, unless, only, not</i>
条件拼接不全	选项对了一半	在选项旁写“谁 + 何时 + 条件”
时间线错	把 <i>after 3 p.m.</i> 看成三点处理	把时间画在一条线
过度推断	选项含“肯定、所有、必然”	回原文找能支持该强度的词
关键词钓鱼	选项复述原词但关系变了	比较动词、否定词和数字，不只比名词

训练通关线（仅用于本章训练，不是官方分数线）：目标难度 8 题中至少 7 题正确，且每篇不超过 2 分钟；错题必须能圈出相反证据。

4.5 5. Read an Academic Passage: 压缩理解一段学术论证

4.5.1 5.1 能力原理

RAP 不要求已有学科知识。它要求把一段陌生内容还原成结构：

主题/现象 → 观点或解释 → 证据/例子 → 限制、对比或结果

学术段落常用“旧观点—问题—新解释”的推进。真正决定分数的不是认识多少术语，而是能否知道作者现在在支持谁、限制谁、用例子服务什么。

4.5.2 5.2 RAP 读法：60 秒结构扫描 + 证据作答

1. **首句定题**：本段讨论什么现象或争论？
2. **圈关系词**：however, unlike, therefore, for instance, although, rather than.
3. **给每段 5-8 个字中文标签**：如“旧解释”“实验条件”“新证据”“结论”。
4. **题目分类**：主旨看结构；细节回定位；推断找两处信息；词义用替换测试。
5. **选项审计**：正确项可以概括，但不得新增对象、时间、因果方向或确定性。

4.5.3 5.3 RAP 常见问法与动作

问法	快速动作
主旨/主要目的	读各段标签，选覆盖“主题 + 核心关系”的项
事实细节	回到原句及前后一句，核对限定词
词义	把四个候选代回原句，看语义与语法
推断	找至少两条信息，结论强度不得超过原文
句子功能/例子作用	问“没有此句，前一句的哪项主张失去支持？”

4.5.4 5.4 示例

原创段落

For many years, urban planners treated small vacant lots as signs of neglect. Recently, some cities have planted native flowers in these spaces. The goal is not merely visual improvement. Native plants can provide food for insects that are rarely supported by lawns. However, the success of such projects depends on maintenance: a neglected planting may be mistaken for an unmanaged lot and removed.

题目: Why does the passage mention lawns?

- A. To argue that lawns are cheaper than native plants
- B. To explain why some insects lack food in cities
- C. To show that vacant lots are easy to maintain
- D. To describe the appearance of unmanaged land

答案: B。lawns 是作为与 native plants 的对照, 支持“本地植物能给昆虫提供食物”。A、C 无文本依据; D 偷换了最后一句的 *neglected planting*。

4.5.5 5.5 练习

基础 | 限时 5 分钟

Cooling Clay Pots

Before mechanical refrigeration became common, some communities stored food in porous clay pots. When water on the outer surface evaporated, it drew heat away from the pot. This process could lower the temperature of the contents, especially in dry climates. The method was less effective in humid air because evaporation slowed when the surrounding air already contained much water.

1. What is the passage mainly about?
 - A. Why clay is difficult to produce in humid climates
 - B. How a storage method cools food and when it works best
 - C. Why mechanical refrigeration replaced all older methods
 - D. How communities measured air temperature
2. According to the passage, why is the method less effective in humid air?
 - A. Clay absorbs too much water.
 - B. Food evaporates more quickly.
 - C. Evaporation from the pot occurs more slowly.
 - D. The pot draws more heat from its contents.

目标 | 限时 6 分钟

A Misleading Fossil Record

Paleontologists sometimes use the number of discovered fossils to estimate how common an ancient animal was. This approach is useful, but it has an important limitation. Animals with hard shells or bones are more likely to

leave recognizable remains than animals with soft bodies. In addition, rocks from some environments are more likely to be preserved and later exposed at the surface. Consequently, an apparent increase in fossil discoveries may reflect improved preservation rather than a true rise in the animal's population. Researchers therefore compare fossil counts with information about rock type and formation site.

1. What limitation of fossil counts is described?
 - A. Fossils cannot be dated accurately.
 - B. Different organisms and environments have different preservation chances.
 - C. Soft-bodied animals never leave any remains.
 - D. Rock types cannot be identified after exposure.
2. The word **“apparent”** is closest in meaning to
 - A. obvious but possibly misleading
 - B. carefully measured
 - C. extremely rapid
 - D. completely unexpected
3. What can be inferred about researchers who compare counts with rock information?
 - A. They assume every fossil represents one living animal.
 - B. They are trying to distinguish population change from preservation effects.
 - C. They only study animals with shells.
 - D. They believe surface rocks are always young.

冲刺 | 限时 8 分钟

Why Some Markets Become Meeting Places

In many towns, markets originally developed where producers could exchange goods with nearby residents. Economic convenience was clearly important: sellers benefited from a predictable location, and buyers could compare several goods in one visit. Yet convenience alone does not explain why certain markets later became social centers. Historical records from several port towns show that markets near transport routes attracted travelers as well as local shoppers. These visitors brought news, customs, and unfamiliar products. Over time, cafés and repair shops opened nearby, serving people who had not come primarily to buy food.

The location of a market could therefore influence its later social role. A market beside a road or harbor did more than move goods efficiently; it created repeated contact among people with different destinations. This contact was not automatically beneficial to every resident. Crowding and higher rents sometimes followed. Nevertheless, the market's value to a town could no longer be measured only by the prices of items sold there.

1. What is the main purpose of the passage?
 - A. To show that port towns had lower food prices than other towns
 - B. To explain how market location could contribute to a broader social function
 - C. To argue that cafés caused markets to become economically inefficient

- D. To compare repair shops with food sellers
2. Why does the author mention travelers?
- A. To identify people who brought influences beyond local commerce
B. To show that local residents avoided markets
C. To prove that all markets were built near harbors
D. To explain why producers stopped selling goods
3. Which statement is supported by the passage?
- A. Economic convenience had no role in early markets.
B. Every resident benefited from market-related change.
C. Social effects could arise from repeated contact near transport routes.
D. Market value can be calculated entirely from rent levels.
4. In the passage, the word “**Nevertheless**” is used to
- A. add an example of a transport route
B. contrast drawbacks with a continuing conclusion about value
C. restate the definition of a social center
D. introduce evidence against historical records

4.5.6 5.6 答案与详解

练习	答案	结构化解释
基础 1	B	首三句解释机制，后句给出适用限制；B 同时覆盖两者。
基础 2	C	最后句直接说明湿度高时蒸发变慢。
目标 1	B	壳/骨与环境岩石都影响保存概率；C 的 <i>never</i> 过强。
目标 2	A	后文说明“发现增多”可能不是种群真的增加，故为表面上明显但可能误导。
目标 3	B	therefore 后的比较动作正用于分开两种解释。
冲刺 1	B	第一段提出“便利不足以解释”，第二段给出位置如何产生社会作用。
冲刺 2	A	旅行者带来新闻、习俗、陌生产品，扩大了本地商业以外的联系。
冲刺 3	C	第二段的 repeated contact 支持 C；A、B、D 都与原文相反或绝对化。
冲刺 4	B	先承认拥挤和租金问题，再以 Nevertheless 保留“价值不只价格”的结论。

4.5.7 5.7 RAP 错因分类与修复

错因	根源	修复动作
只读懂句子，没读懂段落	没标论证关系	每段写一个“主张/证据/限制”标签
主旨选项太窄或太宽	不会覆盖全段	用“每段标签是否都能放进选项”检验
因果倒置	把证据当结论	看到 <i>therefore/consequently</i> 画因果箭头
绝对化陷阱	忽略 <i>may, sometimes, can</i>	对比选项中的 <i>all/only/never</i> 与原文强度
推断跳步	以常识补文本	写出两条原文依据；少于两条则不选
术语恐惧	把陌生名词当障碍	将术语替换成 X，先读其作用和关系

训练通关线（仅用于本章训练，不是官方分数线）：目标难度每篇 3 题中至少 2 题正确，随后提高到连续 5 篇正确率 80%+；主旨题和推断题均须能复述证据链。

4.6 6. 从 *Sapiens* 50%-60% 理解迁移到 TOEFL

你已经拥有的能力并不为零：能够连续读英文非虚构书，意味着你能容忍部分未知词、追踪部分叙事和解释。下一步不是把书逐段翻译，而是把泛读能力变成考试动作。

阅读 <i>Sapiens</i> 时的现象	TOEFL 对应能力	迁移动作
能抓住一节的大概主题	RAP 主旨	每读 2-3 页，用 15 个中文字写“作者要解释什么”
遇到人类学术语会卡住	陌生学术名词处理	用 X 替换术语，只记录它是原因、证据还是例子
历史叙述能看懂但论证跳跃	因果与转折	在边上标 因/果/反/例，不抄整句
可读懂约六成但细节易忘	RDL 精确取数	另练短公告、邮件、表格；泛读无法替代此项

4.6.1 20 分钟迁移练习（每周两次）

1. 从你正在读的英文非虚构作品中选 250-350 词**未读部分**。
2. 3 分钟通读，写出每段一个中文标签。
3. 自问三个问题：作者的主张是什么？哪一句是证据？哪一个词表示限制或转折？
4. 只查妨碍回答这三个问题的词，最多 5 个。
5. 隔天不看原文，用英文 3 句概述逻辑；再回看修正。

不要复制或背诵书中段落；目的只是训练结构识别。TOEFL 需要的是你对**新文本**的处理速度。

4.7 7.30 天训练路径

阶段	天数	核心任务	退出条件
建动作	1-10	CTW 基础、RDL 基础、RAP 基础；所有题都写证据	能准确说出错因，不再只说“粗心”
提稳定	11-20	目标难度，按时间预算；建立二次回查	三类任务各达目标线两次
提速度	21-26	冲刺材料；两轮计时；只复盘错题类别	正确率不因加速下降超过 5%
首阶段模拟	27-30	混合任务，先易后难、严格留 10% 回查时间	首轮确定题准确率 $\geq 90\%$

4.7.1 每次练习后的 5 分钟检查

- 我错的是词义，还是限定词/逻辑关系？
- 正确选项对应原文哪一句？
- 错误选项是“无中生有、范围扩大、因果倒置、绝对化、还是忽略例外”？
- 若明天再见到同类题，我的第一个动作是什么？

4.8 8. 考场执行卡

4.8.1 CTW

读整句 → 判词性 → 看逻辑 → 补词块 → 查词形拼写

4.8.2 RDL

确认文本功能 → 抓对象/时间/限制 → 回原文核全条件 → 防例外

4.8.3 RAP

首句定题 → 每段贴标签 → 看关系词 → 题目回定位 → 选项做强度审计

4.8.4 首阶段

确定题先拿下；不确定题标记；不逐词翻译；最后检查否定、条件、数字和指代。

最后提醒：旧制 100+ 的阅读目标不是“零生词”，而是即使出现生词，也能在有限时间内把结构、证据和限制条件读对。稳定的首阶段正确率，比偶尔解出一道超难题更能打开后续表现空间。

第五章 04 | 2026 TOEFL 听力完整自学教程： 在职考生的 100+ 路线

适用对象：工作日可稳定投入 45-75 分钟、周末只背单词不排听力，目标 TOEFL 100+ 的自考生。

本章材料声明：下文所有英文脚本、题目和选项均为原创训练材料，可直接复制到 TTS 工具朗读；不使用、不改写 OG、Delta 或任何考生回忆题。

关于“2026 新版”：本章按 *Listen and Choose a Response*、*Conversation*、*Announcement*、*Academic Talk* 四类训练界面设计，并加入阅读/听力多阶段自适应下的节奏训练。这里的串联与切换只用于训练，不等同于正式考试流程；报名和考试前仍应以 ETS 当期官网的题型、时长、休息和评分说明为准，不要把网络流传的固定题量当作考场承诺。

5.1 一、先建立正确的得分模型

100+ 的听力目标，不是“每个词都听见”，而是稳定完成四件事：

- 1. **抓住话语功能：**说话人是在请求、拒绝、修正、抱怨、建议，还是在解释原因？
- 2. **保留结构，不囤积原句：**知道“问题—限制—方案—结果”即可，不能边听边默写。
- 3. **在选项前预判：**音频结束时，脑中已有一个短答案，再用选项验证。
- 4. **在不确定时做最小损失选择：**优先选择与全文主线、说话人态度、因果关系都一致的选项。

听力失分最常见的不是生词，而是以下三种断裂：

断裂	表现	立即修复
注意力断裂	一句没懂后，后面两句也丢了	用一个 ? 标记，不回想，立刻追下一句
结构断裂	听到很多细节，却不知道“为什么提它”	每段后默问：问题、变化、结果是什么？
选项断裂	觉得每个选项都“出现过”	只选回答题干的那个信息，不选孤立细节

5.1.1 100+ 听力的可执行目标

- 陌生活题的首听，能写出 **主旨 + 2 个关键转折 + 结论**。
- *Conversation / Academic Talk* 首听后，用中文在 30 秒内说清逻辑。
- 对错题的错误能归到一个标签：漏听、误判语气、因果倒置、范围扩大或词义猜错。

- 训练中不暂停完成后，正确率与复述质量在连续两周保持稳定，而非偶尔“做对一套”。

5.2 二、2026 新版四类任务的听法不同

5.2.1 1. Listen and Choose a Response (听句选回应)

核心不是翻译，而是识别**社交意图**。音频通常短，留给推理的时间也短。

四步法：

1. 听动词和情态：*could, would, mind, supposed to, rather*。
2. 判断句型：请求、邀请、抱怨、澄清、建议、道歉。
3. 在脑中用中文说出“对方要我做什么/想表达什么”。
4. 选自然推进对话的回答；排除答非所问、过度承诺、重复问题的选项。

特别注意反问、委婉拒绝与条件句：

- “Would you mind ...?” 通常是请求，合适回应是同意或礼貌拒绝。
- “I was hoping to ...” 往往暗示愿望尚未实现。
- “Why don't we ...?” 是建议，不是在追问原因。

5.2.2 2. Conversation (校园/生活事务对话)

把它当作一张“办事流程图”。优先捕捉：

原计划 → 遇到的限制 → 可选方案 → 最终决定/下一步

人物身份和地点只需确认一次；真正决定答案的是谁改变了计划、为什么改变、对方给了什么解决方案。听到 *actually, but, except, instead, the problem is, in that case* 时，注意力必须抬高。

5.2.3 3. Announcement (通知、说明、活动播报)

Announcement 的信息密度高，但结构最规整。用下面的四格框架：

目的 | 谁受影响 | 何时何地 | 行动与例外

数字不是都要记。只记会改变行动的数字，例如截止日期、地点变更、资格限制、替代安排。听到多个日期时，给它们标上用途，而不是机械抄下。

5.2.4 4. Academic Talk (学术讲解)

学术材料靠的是**论证骨架**，不是背景知识。典型骨架：

主题定义 → 分类/机制 → 例子 A → 转折或例子 B → 结论

例子的功能常是解释抽象概念、反驳直觉或比较两种机制。听到例子时，只记“例子服务哪个概念”，不要记完整故事。

5.3 三、阅读/听力多阶段自适应：把节奏当作能力练

在多阶段、自适应或会根据前段表现推进后段的考试设计中，考生看不到“下一阶段难不难”，也不应靠猜测调节心态。你能控制的是每一段结束后的**复位速度**。下面的“阅读 12 分钟 + 听力 18 分钟”只是训练串联，不是官方固定切片；阅读和听力都适用下列原则：

1. **单段结算**：一道或一组结束即视为完成，不为上一题补救而侵蚀下一段。
2. **前稳后快**：开段前 10-15 秒优先建立人物、话题和目的；中段按逻辑词记结构；末段提高对结论、行动和态度的灵敏度。
3. **难度中性化**：感觉材料变难，只说明它需要更少的词汇翻译、更多的结构抓取；不把它解读为“前面做砸了”。
4. **阅读—听力切换**：阅读刚结束时，大脑容易继续逐词扫描。进入听力前做一次 10 秒复位：放松下颌，目视固定点，默念“听功能，不追原句”。

5.3.1 考场节奏脚本

时点	动作	内在提示
音频前	坐稳、视线离开草稿最后一行	“我只要抓路线。”
前 15 秒	确认场景与目的	“谁在解决什么？”
中段	每次转折只写一个箭头或关键词	“变化比细节重要。”
结束后 3 秒	先在脑中答题，再看选项	“答案必须回到主线。”
一题失手后	呼气一次，手离开上一题笔记	“下一段从零开始。”

训练法：每周至少两次做“阅读 12 分钟 + 听力 18 分钟”的无暂停串联。阅读材料可使用任意公开、非真题的科普短文；重点不是阅读正确率，而是练习切换后第一段听力仍能抓住开头。

5.4 四、原创 TTS 训练包

5.4.1 A. Listen and Choose a Response

使用方式：先把每一组的英文“Speaker”单独交给 TTS 播放一次；不要先看选项。用 2 秒想出自然回应，再看选项。

题组 A1

Speaker

Could you send me the revised schedule before you leave this afternoon?

Choices

- A. Yes, I left it on the train.
 B. Of course. I will email it after I finish updating the last meeting notes.
 C. The afternoon session was very informative.

答案：B

解析：这是请求。B 承诺完成并说明发送方式；A 语义不合逻辑，C 只重复了“afternoon”。

I thought the library stayed open until midnight on Fridays.

- A. It usually does, but the hours are shorter during the holiday week.
- B. I borrowed a book about library design.
- C. Midnight is earlier than I expected.

答案: A

解析: 说话人表达了预期与现实的落差。A 解释例外; B、C 都没有回应开放时间。

Would it be all right if I joined the meeting by video instead?

- A. That works for me. I will send you the link.
- B. I watched the video twice last night.
- C. The meeting room is on the second floor.

答案: A

解析: *Would it be all right if ...?* 是征求许可。A 给出许可并推进安排。

I cannot decide whether to take the earlier bus or wait for the express one.

- A. The express bus has fewer stops, but it is often crowded.
- B. I waited for the decision yesterday.
- C. Earlier buses are usually painted blue.

答案: A

解析: 说话人需要比较信息; A 提供了与选择直接相关的利弊。

1. 不看文本再听四题, 写下触发词: *could / thought / all right / whether*。
2. 跟读时只模仿语气重音: 请求上扬、意外的重音、犹豫的停顿。
3. 把每题改写为自己的工作场景, 再录一条 8-12 秒回应。

Student: Hi, I reserved a portable recorder for my field interview tomorrow, but I received a message saying that the media desk will close early.

Staff Member: That is correct. The building is being inspected after five o'clock, so we have to close at four thirty.

Student: My last class ends at four twenty. I probably won't make it here in time. Is there any way to pick up the recorder in the morning?

Staff Member: Normally, equipment can only be picked up the day before it is due. However, your reservation is for an interview off campus, right?

Student: Yes. The interview starts at eight, and the location is almost an hour away by bus.

Staff Member: In that case, I can move your reservation to the secure locker near the east entrance. You will receive a code by email tonight. Please return the recorder to the same locker by noon tomorrow.

Student: That would solve the problem. Do I need to bring my student card?

Staff Member: Yes, scan it at the locker first. And remember to check that the battery indicator is full before you leave.

题目

1. What problem does the student have?
 - A. The recorder is already checked out.
 - B. The media desk will close before the student can arrive.
 - C. The interview location has changed.
 - D. The student has lost a reservation code.
2. Why does the staff member mention that the interview is off campus?
 - A. To explain why an exception to the usual pickup rule is appropriate.
 - B. To recommend a bus route to the student.
 - C. To confirm that the recorder needs an external microphone.
 - D. To suggest moving the interview to the building.
3. What will the student most likely do next?
 - A. Cancel the interview.
 - B. Pick up the recorder from the media desk at four thirty.
 - C. Watch for an email and use the east-entrance locker.
 - D. Ask the instructor to lend a recorder.
4. What does the staff member advise the student to do before leaving?
 - A. Test the bus schedule.
 - B. Verify the recorder battery.
 - C. Print the reservation message.
 - D. Return the student card.

答案与解析

1. **B.** 学生四点二十下课, 柜台四点半关闭, 关键是到达时间冲突。
2. **A.** *Normally ... However ... In that case* 构成“规则—例外—解决方案”的完整链条。
3. **C.** 工作人员明确说今晚邮件发送代码、设备放在东入口储物柜。
4. **B.** 末句是可操作的提醒: 检查电池指示。

极简笔记示范

recorder tmr 8 / desk close 4:30
class ends 4:20 → can't pickup
off-campus + 1h bus → exception
east locker / code email / back < noon
ID scan + batt full

这份笔记刻意没有记录完整句子。箭头左边是限制，右边是结果；问题 2 的答案就藏在 → exception。

精听与复述

- **第一轮：**盲听，写上面的五行骨架，不暂停。
- **第二轮：**每次听 15-25 秒后暂停，补出漏掉的逻辑词，尤其是 *normally, however, in that case*。
- **第三轮：**影子跟读（延迟 1-2 个词），只跟读工作人员的话。
- **复述目标 (45 秒)：**用自己的话说清“学生为什么拿不到设备、为什么获得例外、具体怎么取还”。

5.4.3 C. Announcement: 校园温室参观

TTS Script

Good morning, everyone. This is a reminder for visitors to the university greenhouse. Beginning next Monday, the west walkway will be closed for repairs. The greenhouse itself will remain open, but all visitors must enter through the south gate beside the science museum.

Guided tours will still take place at ten in the morning and two in the afternoon. Because the south gate area is narrow, groups of more than eight people need to reserve a tour online at least one day in advance. Individual visitors do not need a reservation, although they may have to wait briefly during busy periods.

Please do not bring food or drinks into the growing areas. Also, the small exhibition room near the old entrance will be unavailable until the repairs are finished. If you have questions about accessibility or group reservations, speak with a volunteer at the south gate. Thank you for helping us keep the greenhouse safe and enjoyable.

题目

1. What is the main purpose of the announcement?
 - A. To invite volunteers to work at the greenhouse.
 - B. To explain temporary changes to visitor access.
 - C. To advertise a new science museum exhibition.
 - D. To announce a permanent change in tour hours.

2. Who must make a reservation?
 - A. All visitors arriving after noon.
 - B. Individuals who want to see the exhibition room.
 - C. Groups of more than eight people.
 - D. Visitors who use the west walkway.
3. Which area will not be available?
 - A. The greenhouse growing areas.
 - B. The south gate.
 - C. The science museum.
 - D. The exhibition room near the old entrance.
4. What should a visitor do to ask about accessibility?
 - A. Contact the tour guide by email.
 - B. Speak with a volunteer at the south gate.
 - C. Wait near the west walkway.
 - D. Enter through the old entrance.

答案与解析

1. **B**。开头即给出施工及入口调整，后续均是配套访客规则。
2. **C**。限定条件是 *groups of more than eight*，不要误选所有访客。
3. **D**。温室仍开放；关闭的是旧入口附近的小展厅。
4. **B**。最后一句直接给出咨询渠道。

Announcement 速记模板

WHY: repairs

WHO: visitors / groups >8

WHEN: next Mon; tours 10 & 2

WHERE: enter south gate

DO: reserve 1 day / no food

EX: old exhibit closed

5.4.4 D. Academic Talk: 城市树木与局部温度

TTS Script

Today, I want to examine why trees can make some city neighborhoods feel cooler than nearby streets, even when both places are only a few blocks apart. The simplest explanation is shade. A tree canopy blocks part of the sunlight that would otherwise heat pavement and building walls. But shade is only one mechanism.

Trees also move water from the soil to their leaves. When some of that water evaporates, it takes heat from the surrounding air. This process is called transpiration. It is similar to the cooling effect people feel when water evap-

orates from their skin, although a tree does not use the process for the same purpose.

Researchers have found that the benefit varies with the design of a neighborhood. A few isolated trees beside a wide parking lot may provide pleasant shade to a person standing nearby, but they may not noticeably change the temperature of the entire area. In contrast, connected rows of trees, planted with enough soil and water, can influence air movement and reduce heat stored in large surfaces.

This does not mean that every species should be planted everywhere. Some trees need much more water than others, and a city with limited water must consider that cost. So urban planners often compare several goals: cooling, water use, maintenance, and the needs of residents. The broader point is that a tree is not merely decoration. Its effect depends on biology, placement, and the surrounding built environment.

题目

1. What is the main topic of the talk?
 - A. Why every city should replace parking lots with parks.
 - B. How trees can affect temperature in urban areas.
 - C. How residents choose tree species for private gardens.
 - D. Why building walls absorb more heat than pavement.
2. Why does the speaker mention water evaporating from skin?
 - A. To define a process by comparing it with a familiar experience.
 - B. To argue that people and trees cool themselves in identical ways.
 - C. To explain why trees need less water in cities.
 - D. To describe a health risk during hot weather.
3. What does the speaker imply about isolated trees near a parking lot?
 - A. They are more expensive to maintain than connected rows.
 - B. They may help a person locally without cooling the larger area much.
 - C. They prevent air from moving through the neighborhood.
 - D. They should not be planted in dry cities.
4. Why does the speaker discuss water use near the end of the talk?
 - A. To show that urban tree planting involves trade-offs.
 - B. To change the topic from temperature to public health.
 - C. To prove that all tree species have equal cooling effects.
 - D. To explain how transpiration was discovered.

答案与解析

1. **B**。第一句提出“为什么城市部分区域更凉”，结尾扩展到生物、位置与环境。
2. **A**。皮肤蒸发是对 *transpiration* 的类比，帮助定义，不能推出两者目的相同。
3. **B**。原文对比“局部舒适”和“整个区域温度明显变化”。
4. **A**。 *This does not mean ... must consider that cost ... compare several goals* 明确说明权衡。

Academic Talk 极简笔记示范

city trees ↓ heat
1 shade: block sun
2 transpire: evap → cool
isolated / parking = local only
connected + soil/water = area effect
tradeoff: cool vs water/maint./residents

60 秒复述框架：
“讲座解释树木为何能降低城市局部热量。首先是遮阴；其次是蒸腾带走热。效果取决于种植是否连片以及土壤和水分条件。最后，规划者还要在降温和用水维护之间权衡。”

5.5 五、精听：把“听不懂”拆成可修复的问题

- 每篇材料不要无限循环播放。采用 **1 + 1 + 1 + 1** 流程，总时长 20-35 分钟：
- 1. **首听（不暂停）：**答题、写极简结构。首听只能暴露真实问题。
 - 2. **定位（可暂停）：**按意群回放，给每个漏点打标签：L 连读、R 弱读、V 词义、G 语法、I 推理。
 - 3. **对照文本：**只查影响主线的 3-5 个点。不要把文本变成背诵材料。
 - 4. **脱稿再听与复述：**关掉文本重听；能用自己的话说出逻辑才算吸收。

5.5.1 漏点日志模板

原声片段	我听成	原因标签	下次动作
<i>in that case</i>	没抓到	R	单独跟读 10 次，连成一个节奏块
<i>limited space</i>	<i>little space</i>	V	记录 limited = 有限的，放入例句
<i>may not noticeably change</i>	听成“会改变”	G	圈出否定与程度副词，复听完整句

两天后从日志中随机抽三句盲听；仍抓不住才进入下一轮，而不是当天听 30 遍。

5.6 六、复述与语音识别训练：输出反过来校准输入

5.6.1 1. 复述不是翻译

- 复述的评分只看四件事：
- 是否有主旨；
 - 是否保留了关键因果/对比；
 - 是否有一个恰当例子或行动；

- 是否避免编造原文没有的信息。

按 **20 秒—45 秒—90 秒** 三档练习。同一材料先用中文保结构，再用简单英文表达。英文不需要高级，但逻辑词必须明确：*first, however, because of this, for example, as a result*。

5.6.2 2. 用语音识别做闭环

选择手机或电脑自带的英文语音输入即可；它不是评分器，而是“听者”。

10 分钟流程：

1. 选一段 20-35 秒原创脚本，听两遍。
2. 跟读一遍后，关闭文本，自己复述 30 秒。
3. 对语音识别稿只检查三类高价值错误：否定词、数字/专有名词、逻辑词。
4. 只重录一句最影响理解的句子，最多三次。

如果识别系统把 *can* 听成 *can't*、漏掉 *however*、把 *fifteen* 写成 *fifty*，这比“口音像不像母语者”更值得修。工作日不要在发音细枝末节上花超过 10 分钟。

5.6.3 3. 影子跟读的正确强度

- **基础**：看稿同步读，建立节奏。
- **目标**：不看稿、延迟 1-2 个词跟读，保持语义不断。
- **冲刺**：听 30 秒后立即复述，不模仿原句，保留结构和重音。

影子跟读卡住时，宁可丢掉一个词也不断句。这正是考场恢复能力的缩小版。

5.7 七、在职考生的分级计划

5.7.1 基础级：建立可听见的结构（建议 3-5 周）

进入条件：短材料中经常逐词翻译；连读和弱读导致丢句。

工作日 45 分钟：

- 10 分钟：Listen and Choose a Response, 8-12 题，先预判后看选项；
- 20 分钟：一篇 Conversation 或 Announcement, 按 1+1+1+1 精听；
- 10 分钟：20 秒跟读 + 20 秒中文复述；
- 5 分钟：更新漏点日志。

周末：不排听力。原本的两篇无暂停首听移到工作日第 5 天（周五）的错题回炉时段，压缩为一篇首听 + 错因统计。

通关标准：

- 连续 5 天短回应题正确率 $\geq 80\%$ ；
- 每篇短材料首听都能写出目的、变化和行动；
- 复述中能使用至少两个因果/转折词。

5.7.2 目标级：从“听见”升级到“推理”（建议 4-6 周）

- 进入条件：**能跟住主线，但细节题、态度题和例子题不稳定。
- 工作日 60 分钟：**
- 15 分钟：四类题型混合首听；
 - 25 分钟：一篇 Conversation 或 Academic Talk 精听；
 - 10 分钟：英文 45 秒复述并用语音识别核对；
 - 10 分钟：复盘一个错误标签，制作 3 个自己的例句。
- 周末：**不排听力。原本的“阅读 12 分钟 + 听力 18 分钟”串联移到周五，深度复盘压缩到 25 分钟。
- 通关标准：**
- 连续两周原创/公开非真题材料首听题目正确率 $\geq 85\%$ ；
 - Academic Talk 能在 60 秒内说出定义、机制、例子和结论；
 - 错题中“完全没听到”占比低于三分之一，错误主要可被明确归类。

5.7.3 冲刺级：多阶段节奏与抗波动（建议考前 3-4 周）

- 进入条件：**单篇表现不错，但疲劳、陌生口音或阅读后切换会拉低表现。
- 工作日 60-75 分钟：**
- 20 分钟：无暂停混合组，严格按考场一次作答；
 - 20 分钟：只精听最有代表性的 1 段；
 - 15 分钟：90 秒英文复述 + 语音识别；
 - 10 分钟：错因和情绪复盘：哪一秒开始慌，如何恢复；
 - 5 分钟：听力复位呼吸与短回应热身。
- 完整串联模拟：**需要 3 小时连续时间，工作日放不下，属于 01-24 周总学习路线.md 第一节列出的 5 次例外之一——提前两周选定一个周末上午占用，做完当周工作日任务减半。模拟后只复盘高频错因，避免“错一题背十页词”。
- 通关标准：**
- 三次串联模拟中，听力表现的波动不超过自己平均水平的一个小档；
 - 任一材料漏一句后，仍能在下一意群恢复主线；
 - 90 秒复述不看稿也能包含主旨、两个支撑点、一个转折/限制；
 - 最后一周不再新增大量生词表，重点转为节奏、睡眠和稳定性。

5.8 八、每周执行表与复盘

5.8.1 最小可持续周计划

日	任务	时长
周一	短回应 + Conversation 精听	45-60 分钟
周二	Announcement 首听、速记、复述	45 分钟

日	任务	时长
周三	短回应 + Academic Talk 精听	60 分钟
周四	阅读—听力切换训练	45-60 分钟
周五	混合串联 + 漏点日志复盘与语音识别	60 分钟
周六、周日	不排听力（只在墨墨背词）	0

忙到只能学习 20 分钟的日子，优先做：**一段盲听 → 极简笔记 → 30 秒复述**。不要用泛听播客替代这一闭环；泛听可以辅助语感，却无法替代可验证的答题与复盘。

5.8.2 每周只回答五个问题

1. 哪一类题型正确率最低？
2. 我最常漏掉的是连读、否定、数字还是转折？
3. 哪个错误是“听到但误推理”，而不是“没听到”？
4. 我从阅读切换到听力后的第一段是否变差？
5. 下周只保留哪一个最重要的改进动作？

把答案写成一行，例如：

下周：Academic Talk 听到例子时只写“例子 → 概念”，不再记录故事细节。

5.9 九、最终通关清单

考前两周，用下面清单自检。若任一项连续两次做不到，回到对应训练，而不是盲目刷量。

- ☐ 短回应题能先判断功能，再排除答非所问。
- ☐ Conversation 能写出“限制 → 方案 → 下一步”。
- ☐ Announcement 能抓住受影响人群、行动、例外和时间地点。
- ☐ Academic Talk 能区分主张、机制、例子和限制。
- ☐ 笔记每篇不超过 8 行，不写完整句。
- ☐ 一句漏听后能用？放下，不追忆。
- ☐ 阅读—听力串联后第一段仍能抓到场景和目的。
- ☐ 能在 90 秒内用英文复述陌生材料的逻辑，不依赖逐句翻译。
- ☐ 错题都有标签和下一步动作，没有“粗心”这种无效结论。

最后的原则：100+ 听力不是把耳朵训练成录音机，而是把注意力训练成导航系统。每次音频开始，先找方向；每次出现转折，更新路线；每次做完一题，清空上一段，进入下一段。

第六章 2026 新版 TOEFL 写作完整教程：在职考生 24 周冲刺 100+

适用对象：工作日每天 45—75 分钟、周末只背单词不排写作，希望总分达到 100+ 的在职学习者。

覆盖任务：Build a Sentence、Write an Email、Writing for an Academic Discussion。

使用原则：本章题目、范文与改写均为原创练习材料，不是考题、回忆题或官方样题复述。考试界面、限时和评分呈现可能调整；临考前请以 ETS 当期官方说明为准。

新版写作并不奖励“看起来高级”的固定模板。它考查的是：你能否在有限时间内**准确理解目的、选取相关信息、组织清晰英文，并用合适的语气完成沟通**。100+ 考生的写作通常不是每一句都华丽，而是几乎没有明显失误，且读者无需猜测其意思。

6.1 一、先建立正确的目标：100+ 写作长什么样

6.1.1 1. 三项任务的共同能力

能力	Build a Sentence	Write an Email	Academic Discussion
句法控制	核心	基础	基础
任务回应	间接体现	核心	核心
语气与读者意识	很少涉及	核心	重要
观点与理由	无	次要	核心
连贯与衔接	句内	段内	段内/篇内
语言准确度	核心	核心	核心

三题不是三套孤立技巧：

1. **Build a Sentence** 训练你把“词块”组织为自然、正确的句子。
2. **Write an Email** 训练你按目的筛选信息、提出明确请求、让对方容易行动。
3. **Academic Discussion** 训练你对一个学术话题提出可辩护的贡献，而非背诵作文框架。

6.1.2 2. 100+ 的可执行通关标准

把目标从“写得像母语者”改成以下可检查的标准：

- **Build a Sentence**：能先锁定主语和谓语；时态、单复数、从属关系正确；不漏必需词块。

- Email：开头一两句即交代身份/情境/目的；每段只有一个行动点；请求具体且礼貌。
- Discussion：有清晰立场、至少两个彼此不同的理由、一个具体例子或推理链，并与讨论中的观点发生关系。
- 三类任务：句子以完整、可读为先；拼写、标点、主谓一致、冠词和搭配错误不密集。

不要把“使用多少个高级词”设为目标。一个准确的 *practical solution* 优于误用的生僻词；一个清楚的复合句优于失控的三层从句。

6.2 二、评分维度：写作不是只看语法

正式评分细节应以考试当期官方文件为准。备考时可用下列“阅卷者视角”诊断表现：

维度	高水平表现	常见失分
任务完成度	直接完成题目要求；所有关键信息可执行	漏答、偏题、只讲背景不提出请求/观点
组织与连贯	信息顺序自然；指代清楚；连接有逻辑	机械堆砌 <i>first, second, finally</i> ；跳跃
语言控制	句法多样但稳定；词义和搭配准确	长句结构崩坏；动词形式和冠词反复错
语域与语气	对教授、同学、管理人员使用适当正式度	太随意、太强硬，或过分卑微冗长
发展与具体性	解释“为什么”，用合适例子支持	只有立场；例子泛泛且不服务观点

6.2.1 自我量表（每项 0—2 分）

每次完成 Email 或 Discussion 后，给自己打分：

项目	0 分	1 分	2 分
回应任务	漏掉主要要求	基本完成但不够直接	完整、直接、可执行
观点/目的	不清楚	有但埋得很深	首段即可识别
理由与细节	无解释	只有一个泛泛理由	至少两层有效支撑或具体例子
组织	顺序混乱	可读但衔接机械	段落和信息顺序服务读者
语法	频繁影响理解	有错误但大意清楚	少量小错，不妨碍理解
用词/语气	不合场景	基本适当	准确、自然、得体

11—12 分：稳定高水平；**9—10 分：**可冲刺但需消灭重复错误；**7—8 分：**先补任务完成和句法；**6 分及以下：**不要急于扩展词汇，先建立完整句。

6.3 三、底层句法：让每一句都站得住

6.3.1 1. 英文句子的骨架

任何完整英文句都先回答：
谁/什么（主语）+ 做什么/是什么（谓语）+ 对谁/什么/在何种条件下（补足信息）

- 例如：
- Weak: *Because the schedule change and many employees unhappy.*
 - Strong: *Because the schedule change affects many employees, several team members are unhappy.*
- 第一句没有真正的谓语；第二句有主句和原因从句。

6.3.2 2. 四种高收益句型

功能	结构	示例
陈述事实	S + V + O	<i>The policy reduces unnecessary travel.</i>
解释原因	Claim + because + reason	<i>I support the policy because it saves time for patients.</i>
让步转折	Although + clause, main clause	<i>Although the plan costs more initially, it may prevent larger losses later.</i>
条件结果	If + present, will/can + V	<i>If the library extends its hours, more commuters can use it.</i>

一个段落中交替使用短句和一两个稳定的复杂句即可。复杂句的作用是表现逻辑关系，不是装饰。

6.3.3 3. 高频错误的“停止信号”

- 写完每段，花十秒扫下面五项：
1. 每个句子都有明确动词吗？
 2. 主语和动词单复数一致吗？
 3. 可数单数名词前需要 *a/an/the* 吗？
 4. 从句前是否错误地又放了完整句号或重复主语？
 5. 我是否把中文的“很方便/很有意义”直接译成了不自然表达？

可用的替换：

不自然直译	更自然
<i>very convenient for people</i>	<i>convenient for users / easy to access</i>
<i>has a big meaning</i>	<i>is meaningful / has significant value</i>
<i>do a decision</i>	<i>make a decision</i>
<i>according to my opinion</i>	<i>in my view / I believe</i>

不自然直译

更自然

*discuss about**discuss*

6.4 四、Build a Sentence: 先找骨架, 再安放词块

6.4.1 1. 任务本质

这类题并非“把中文翻成英文”。你要将给定词或词块排列为一个**语法完整、意思自然**的英文句子。高分关键是识别结构, 而非按眼前顺序拼接。

6.4.2 2. 30 秒解题流程

1. **圈谓语候选**: 带时态的动词, 如 *was developed, will improve, has reduced*。
2. **找主语**: 通常是名词短语; 注意动词单复数线索。
3. **识别连接器**: *although, because, when, that, which, if* 决定从句层级。
4. **组不可拆词块**: 如 *as a result of, one of the most, in order to*。
5. **读一遍查闭合**: 每个 *because/although/if* 后有从句吗? 关系代词指代清楚吗?

6.4.3 3. 原创练习与解析

练习 A

词块: the researchers / were surprised / that / the older trees / recovered / more quickly / after the storm

参考答案:

The researchers were surprised that the older trees recovered more quickly after the storm.

解析: 主干是 *The researchers were surprised*; *that* 引导宾语从句, 不能把 *that* 放在句首。

练习 B

词块: although / the software / is expensive / it / could save / small businesses / considerable time

参考答案:

Although the software is expensive, it could save small businesses considerable time.

解析: *although* 从句后用逗号, 再进入主句。 *save somebody something* 是常用双宾语结构。

练习 C

词块: the article / that / Maya recommended / explains / why / coastal cities / need / long-term planning

参考答案:

The article that Maya recommended explains why coastal cities need long-term planning.

解析：主语不是 *Maya*，而是 *The article*；*that Maya recommended* 修饰 *article*。

6.4.4 4. 高低分对比

词块：the committee / postponed / the vote / because / several members / needed / more information

水平	答案	问题/优点
低	<i>Because several members needed more information the committee postponed the vote.</i>	缺少从句后的逗号；如果正式界面要求严格标点，这类错误会掉分。
中	<i>The committee postponed the vote because several members needed more information.</i>	正确、清晰。
高	<i>Because several members needed more information, the committee postponed the vote.</i>	正确；把原因提前，句式更灵活，但仍然保持结构清楚。

Build a Sentence 的“高分”首先是**完全正确**，不是写得更长。若只能使用给定词块，绝不能为了华丽自行增删。

Build a Sentence 快速自检量表

写完后，用 0—1 分快速检查以下四项：

项目	0 分	1 分
主干	主谓不清	主语和谓语都明确
从句	连接词或层级混乱	从句关系正确
闭合	有悬空结构或漏词	句子完整闭合
标点	标点妨碍理解	标点帮助读者顺利读完

4 分：可以直接提交；**3 分**：再读一次找漏词和标点；**2 分及以下**：先回到主谓和连接词。

6.4.5 5. 逐句修改示范

目标意思：旧设备虽便宜，却经常停止工作。

1. 初稿：Although the old equipment cheap, but it often stops work.
2. 找错：although 后需要完整从句；although 与 but 不同时使用；stop working 更自然。
3. 修改：Although the old equipment is inexpensive, it often stops working.

6.4.6 6. Build a Sentence 分级练习

基础

- 1. the new bridge / connects / two neighborhoods / that / were previously separated
- 2. when / the lecture ended / many students / stayed / to ask questions

进阶

- 3. the manager / asked / whether / the report / could be completed / by Friday
- 4. students / who / review their notes regularly / tend to remember / the material / more effectively

挑战

- 5. not only / did the survey reveal / a decline in sales / but it also showed / that / customers / were less satisfied
- 6. the proposal / was rejected / not because / it lacked ambition / but because / its costs / had not been estimated carefully

参考答案

- 1. The new bridge connects two neighborhoods that were previously separated.
- 2. When the lecture ended, many students stayed to ask questions.
- 3. The manager asked whether the report could be completed by Friday.
- 4. Students who review their notes regularly tend to remember the material more effectively.
- 5. Not only did the survey reveal a decline in sales, but it also showed that customers were less satisfied.
- 6. The proposal was rejected not because it lacked ambition, but because its costs had not been estimated carefully.

6.5 五、Write an Email: 写一封让对方能立刻处理的邮件

6.5.1 1. 读题时提取四张卡

不要一读完就写。先在草稿上压缩为四项：

卡片	你要写什么
Reader	收件人是谁？教授、同学、办公室人员、活动组织者？
Goal	你希望对方做什么？
Facts	哪两三背景必须提？
Action	对方看完后能采取什么具体下一步？

这会防止两个典型问题：信息漏答，以及背景写太多、请求反而不清楚。

6.5.2 2. 不僵化的五功能结构

不是固定句式，而是确保五种功能出现：

1. **称呼与目的**：收件人为何会收到这封邮件。
2. **必要背景**：只保留帮助对方决定的信息。
3. **明确请求或方案**：具体、可操作。
4. **现实条件/后续**：时间、附件、可替代安排等。
5. **礼貌收束**：感谢与下一步。

可根据场景合并为两到四段。短邮件不需要硬凑五段。

6.5.3 3. 语气标尺

对象	推荐语气	可用表达	避免
教授/管理人员	清楚、礼貌、专业	<i>Could you please...?</i> <i>I would appreciate your guidance.</i>	<i>I need you to...</i>
熟悉的同学	友好、直接	<i>Would you be able to...?</i>	过度正式的长句
服务人员	事实优先、解决导向	<i>Could you let me know whether...?</i>	指责性开头

礼貌不等于软弱。比较：

- 模糊：*I hope you can help me with this problem.*
- 有效：*Could you confirm whether I may submit the revised form by 3 p.m. on Thursday?*

6.5.4 4. 原创题目与范文

题目（原创）

You volunteer for a campus career event. A guest speaker has informed the organizers that her train will arrive forty minutes later than expected. Write an email to the event coordinator. Explain the situation, suggest a practical adjustment to the schedule, and ask for a decision before the event begins.

构思卡

- Reader: event coordinator
- Goal: 确认调整方案
- Facts: 嘉宾晚到 40 分钟；活动即将开始
- Action: 先安排 student panel, 嘉宾到达后演讲；请在某时间前确认

范文

Subject: Suggested adjustment for today's career event

Dear Ms. Rivera,

I am writing about Dr. Chen's arrival for this afternoon's career event. She has just told us that her train is delayed and that she will arrive about forty

minutes later than planned.

To avoid leaving attendees without a program, could we begin with the student panel and move Dr. Chen’s presentation to the second half of the event? The panel members are already prepared, and this change would give Dr. Chen enough time to arrive and set up.

Could you please confirm whether you approve this adjustment before 1:30 p.m.? I can notify the panel members and update the welcome slide immediately.

Thank you for your guidance.

Best regards,

Alex Morgan

6.5.5 5. 范文拆解

句子	功能	为什么有效
<i>I am writing about...</i>	交代目的	不绕圈，帮助读者定位
<i>She has just told us...</i>	提供事实	有来源、有预计影响
<i>could we begin...?</i>	提出方案	具体而非泛称 “change the schedule”
<i>this change would...</i>	说明理由	证明方案可行
<i>Could you please confirm...?</i>	请求决定	有明确时间点
<i>I can notify...</i>	降低对方负担	展示后续行动

6.5.6 6. 低分与高分对比

同一情境下：

低分版本

Hello, the speaker will be late because of the train. This is a serious problem. Please change the event. I think maybe the panel can do something. Reply soon. Thanks.

问题：信息不完整；*serious problem* 无助于解决；方案不具体；*Reply soon* 语气生硬；没有说明谁做什么。

改进版本

Dr. Chen’s train is delayed, so she is expected to arrive about forty minutes late. Could we begin with the student panel and move her presentation to the second half of the program? If you approve, I will inform the panel members and revise the welcome slide. Please let me know by 1:30 p.m. so that we can update attendees before the event begins.

改进不靠生词，而靠：**准确事实 + 可执行方案 + 时间边界 + 主动承担后续。**

6.5.7 7. 逐句修改：把“中文式礼貌”改为自然英文

情境：向项目负责人请求延后一次提交。

初稿	问题	修改
<i>I am very sorry to disturb you in your busy time.</i>	搭配不自然，开头无目的	<i>I am writing to request a short extension for the project summary.</i>
<i>I have many works these days.</i>	work 通常不可数；理由太泛	<i>I have been completing an urgent client report that is due tomorrow.</i>
<i>Can you give me more time?</i>	过于口语且不具体	<i>Would it be possible to submit the summary by Monday morning instead?</i>
<i>I promise I will do my best.</i>	空泛	<i>The additional time would allow me to verify the data and submit a complete draft.</i>

组合后：

I am writing to request a short extension for the project summary. I have been completing an urgent client report that is due tomorrow. Would it be possible to submit the summary by Monday morning instead? The additional time would allow me to verify the data and submit a complete draft. Thank you for considering my request.

6.5.8 8. Email 分级练习

基础：信息完整

You borrowed a projector for a team presentation, but it stopped working during the rehearsal. Write to the equipment desk. State what happened, give the reservation number (R-814), and ask whether you can exchange it before 10 a.m. tomorrow.

进阶：提出方案

Your community class has fewer participants than expected. Write to the instructor. Explain one likely reason, suggest one way to increase attendance next month, and offer one specific form of help.

挑战：处理冲突且保持得体

Two volunteers have requested the same Saturday shift. Write to the volunteer coordinator. Explain the conflict without blaming either person, recommend a fair solution, and ask the coordinator to confirm the final schedule.

参考要点

- 基础：故障发生的时间/情境；R-814；交换请求；明确截止时间。
- 进阶：原因应可验证（例如宣传时间短）；方案应有执行者；你的帮助应具体（设计海报、联系成员等）。
- 挑战：用中性事实而非“X is irresponsible”；说明公平依据；给出确认节点。

6.6 六、Writing for an Academic Discussion: 贡献观点, 而不是背诵短文

6.6.1 1. 任务本质

学术讨论通常给出教师问题和其他学生的观点。你的工作不是逐条“复述同意/不同意”，而是加入一个**推进讨论的、可理解的观点**。理想回答像一次短而有内容的课堂发言。

6.6.2 2. 读题的 45 秒决策

1. 教师真正问的是什么？把问题改写成一句中文。
2. 现有观点各自的**理由**是什么，不只是结论是什么？
3. 选最容易发展的一边，或提出有条件的第三种看法。
4. 迅速写下：立场 → 原因一 → 例子/机制 → 原因二或让步。

不要为了“平衡”而两边都写一点。有限时间里，清晰立场 + 有效发展通常优于表面全面。

6.6.3 3. 灵活的段落蓝图

以下是思路顺序，不是必须背诵的句子：

立场 → 理由/机制 → 具体情境或例子 → 第二理由、影响或限定条件 → 回扣问题

可用自然开头：

- *I would prioritize... because...*
- *The stronger argument, in my view, is that...*
- *I agree with the concern about X, but Y is more important when...*
- *Rather than choosing one option for every case, I would...*

避免每篇都以 *I agree with [name]* 开头。若提及其他同学，请回应其**观点**，而不是只写“我同意 Amy”。

6.6.4 4. 原创题目与范文

题目（原创）

Professor Lane: Our town has funding for one project: expanding public parks or creating a public indoor study-and-work center. Which project would provide greater long-term value for residents?

Student A: Parks should come first because they improve health and give families free places to spend time together.

Student B: An indoor center would be better because residents need quiet spaces with reliable internet, especially during bad weather.

范文

I would choose the indoor study-and-work center because it would serve residents in a wider range of daily situations. Parks are valuable for exercise and community events, but their usefulness depends heavily on weather and daylight. By contrast, a center with reliable internet, desks, and small meeting rooms could help students complete assignments, job seekers prepare applications, and remote workers attend online meetings throughout the year.

It could also reduce an inequality that Student B hints at: not every household has a quiet room or stable connection. For example, a parent sharing a small apartment with children may be unable to take an online training course at home, while the center would give that person a practical alternative. For long-term value, I think year-round access to learning and work resources would benefit the most residents.

6.6.5 5. 为什么这篇有效

- 首句直接选择，没有耗费篇幅重述题目。
- 承认公园价值，但解释为什么另一方案覆盖面更广。
- 用三类人群展开“更广”的含义，避免空话。
- 例子服务于“资源不平等”这一机制，而非随意编故事。
- 结尾回到 *long-term value*，和题目准确对齐。

6.6.6 6. 高低分对比

低分版本

I agree with Student B. The indoor center is good and useful. People can study there and use the internet. Parks are also good, but sometimes it is rainy. Therefore, the center is the best choice for the town.

主要问题：

- 立场有了，但理由重复；
- *good/useful/best* 都是判断词，没有解释；
- 天气理由太单薄；
- 没有说明何以“长期价值更大”。

高分方向的改写

Although parks support health, an indoor center would create reliable access to learning and work resources in every season. Its value would extend beyond students: residents could use it for job applications, online training, and small group meetings. This matters especially for people whose homes are crowded or lack dependable internet access.

这不是因为句子更长才更好，而是每句都新增了一个必要信息。

6.6.7 7. 逐句修改：从观点堆砌到推理链

题目：大学是否应要求所有学生参加一次社区服务活动？

1. 初稿: *I think students should do community service because it is meaningful and helpful.*
2. 诊断: *meaningful* 和 *helpful* 没有对象与机制。
3. 第一改: *I think students should complete one community service activity because it helps them understand needs outside the classroom.*
4. 仍可加强: 这种理解如何产生?
5. 完整改写:

I think students should complete one community service activity because direct contact with local organizations can make abstract social issues more concrete. For instance, a student who helps at a food-distribution center may better understand how transportation and work schedules affect families' access to meals. That experience can also help students connect classroom topics to practical community needs.

6.6.8 8. Discussion 分级练习

基础: 一条完整推理链

Professor Ortiz: Should local museums offer free admission one day each week, even if they must reduce spending on special exhibitions?

写 100—130 词左右的回应: 选择一边, 给出一个机制和一个例子。

进阶: 回应不同观点

Professor Singh: Some employers are replacing long interviews with short skills demonstrations. Is this a better way to select new employees?

Student A: Skills demonstrations are fairer because they show what applicants can actually do.

Student B: Interviews remain necessary because jobs also require communication and judgment.

写 120—150 词左右的回应。必须回应至少一个观点, 但不能只复述。

挑战: 条件性立场

Professor White: Should cities use empty downtown office buildings for housing, or reserve them for new businesses?

写 130—170 词左右的回应。提出立场, 并说明在什么条件下你的结论可能需要调整。

参考答案

基础示例:

I support free admission one day each week because a museum can only fulfill its educational role if local residents can enter it regularly. Special exhibitions may attract visitors, but admission fees can prevent families from returning often enough to build interest in art or history. For example, a parent could bring a child to different galleries over several months instead of trying to see everything in one expensive visit. The museum could still present smaller exhibitions, while the free day would make its permanent collection accessible to a broader community.

进阶示例:

I agree with Student A that short skills demonstrations can reveal abilities that a polished interview may hide. However, I would not replace interviews entirely. A demonstration is most useful when a job has a clear task, such as analyzing a data set or responding to a customer request. For roles that involve supervising others, employers also need to see how applicants explain decisions and respond to unexpected questions. A better process would combine a brief practical task with a focused interview, so candidates can show both their technical ability and their judgment.

挑战示例：

Cities should generally convert suitable empty office buildings into housing because vacant floors can weaken downtown areas after business hours. New residents would support grocery stores, transit, and local services throughout the week, rather than only during the workday. However, conversion is not automatically practical. Buildings with limited natural light or costly plumbing changes may be better reserved for smaller businesses or shared workspaces. Cities should first evaluate whether a building can provide safe, comfortable homes at a reasonable cost; where it can, housing would likely create the more stable long-term use.

6.7 七、限时流程：把时间用在决定分数的地方

具体倒计时以正式界面为准。训练时应把“审题—组织—表达—检查”练成自动程序，而不是全程盯着屏幕写。

6.7.1 1. Build a Sentence

阶段	建议分配 动作
识别	前 1/3 找主谓、连接词、不可拆词块
拼合	中间 1/2 先主句，后从句和修饰成分
验证	最后 1/6 读一遍，检查动词、单复数、标点和漏词

卡住超过数秒时，回到“哪个词带时态？”而不是反复交换每一个词的位置。

6.7.2 2. Write an Email

若练习设定为约 7 分钟，可采用：

时间	工作
0:00—0:45	提取 Reader/Goal/Facts/Action
0:45—5:30	完成两到四段主体

时间	工作
5:30—6:20	检查是否答全每个要求
6:20—7:00	检查称呼、请求、日期/时间、语气和拼写

6.7.3 3. Academic Discussion

若练习设定为约 10 分钟，可采用：

时间	工作
0:00—1:00	读问题与同学观点；选立场
1:00—2:00	写四个关键词：观点、理由、例子、回扣
2:00—8:20	写两段或一段扎实的完整回应
8:20—10:00	删除重复，补逻辑词，检查动词和名词

实际限时不同也不影响方法：将约 **10%—20%** 留给审题和检查。最后一分钟的“任务清单检查”通常比再加一个形容词更值分。

6.8 八、避免模板化：用“功能库”代替万能套话

模板的风险不是句子本身，而是它会替你思考，导致所有回答看起来一样、又不贴题。请积累可替换的功能表达。

功能	可选表达
表明立场	<i>I would favor... / The more practical choice is... / I am not convinced that...</i>
引出原因	<i>The main reason is that... / This matters because... / One consequence is...</i>
让步	<i>That benefit is real; however,... / Even if..., ...</i>
举例	<i>For instance,... / Consider a resident who...</i>
邮件请求	<i>Could you please confirm whether...? / Would it be possible to...?</i>
邮件收束	<i>I appreciate your consideration. / Please let me know if you need any further details.</i>

练习方法：同一道 Discussion 题，连续写三次，每次必须用不同的立场开头和不同的例子类型（个人情境、机构机制、比较结果）。这样学到的是表达功能，而不是背诵外壳。

6.9 九、24 周在职学习计划

6.9.1 总体原则

- **工作日**：45—75 分钟。一次只练一个主目标：句法、邮件或讨论。
- **周末**：不排写作，只背单词。原本的两段深度训练压缩为周三的一次计时输出与周五的一次复盘改写（各 45—60 分钟），依据见 01-24 周总学习路线.md 第一节。
- **错题本**：只记录可复发的错误类型和自己的改句，不抄长篇范文。
- **间隔复习**：第 1、3、7 天重做同类错误句；正确后才降低频率。

6.9.2 阶段一：句子稳定（第 1—4 周）

周次 重点	每周产出
1 主谓、词性、简单句	40 个句子重组；20 句纠错
2 时态、单复数、冠词	40 个重组；个人错误表
3 从句、关系从句、连接词	35 个重组；10 句改写
4 综合限时与复盘	2 轮计时句子训练；一次诊断

阶段通关：连续两次 Build a Sentence 练习中，至少 90% 句子在不查语法书的情况下正确。

6.9.3 阶段二：专业邮件（第 5—8 周）

周次 重点	每周产出
5 邮件目的与信息卡	4 封基础邮件
6 请求、建议、截止时间	4 封情境邮件；逐句改写
7 语气、衔接、精简	3 封计时邮件；3 封二稿
8 混合任务	2 轮句子 + 邮件小测；错误归类

阶段通关：每封邮件能在首段写清目的，且同伴/自查均能找到题目全部要求。

6.9.4 阶段三：学术讨论发展（第 9—14 周）

周次 重点	每周产出
9 立场与理由区分	6 个观点提纲；2 篇短答
10 具体例子与机制	3 篇计时短答；例子库
11 回应他人观点	3 篇回应型短答
12 让步与条件立场	3 篇对比型短答
13 去重复、提高密度	2 篇初稿 + 2 篇压缩二稿
14 限时稳定性	3 篇全计时；复盘

阶段通关：每篇都能在 2 分钟内形成“立场—机制—例子—结论”提纲；没有只写口号的段落。

6.9.5 阶段四：整合与弱点修复（第 15—20 周）

周次	重点	每周产出
15—16	句法弱点专项	按错误类型各练 30—50 句
17—18	Email/Discussion 交替计时	每周 3 套组合训练
19	高低分对照改写	6 段低分稿升级
20	模拟与数据复盘	2 次写作模拟；错误趋势表

阶段通关：错误不再“随机出现”，而能命名并用固定检查动作拦截。

6.9.6 阶段五：考前表现（第 21—24 周）

周次	重点	每周产出
21—22	真限时与状态管理	每周 2 次完整写作段
23	最后弱项修补	只练出现频率最高的三类错
24	减量、稳定、复查	轻量计时；复习自检清单

最后四周不再大量吸收“高级替换词”。重点是让常用结构在疲劳时也可靠。

6.10 十、复盘系统：一次练习必须产出第二次能力

每篇输出后按此顺序复盘：

- 1. **任务层：**我是否回答每个要求？用题目关键词在文中标记证据。
- 2. **结构层：**每段的第一句是否能概括其功能？
- 3. **语言层：**找出最多三个高频错误，分类为句法、词汇搭配、拼写/标点或语气。
- 4. **改写层：**只挑两句重写，使其更清晰或更具体。
- 5. **迁移层：**写一条“下次规则”，例如“提出请求时总要写截止时间或下一步”。

6.10.1 错误记录模板

原句	错误类型	修改句	下次触发器
The employees was...	主谓一致	The employees were...	看到复数 -s 名词就查动词
I want you reply soon.	请求语气/结构	Could you please reply by Friday?	邮件请求必须含礼貌动词 + 期限

只记录你会再次犯的错误。把单次拼错的陌生专名塞进错题本，价值很低。

6.11 十一、考场自检清单

6.11.1 Build a Sentence

- ☐ 我先确定了带时态的主谓结构。
- ☐ 每个连接词后都有完整、合理的从句。
- ☐ 名词与动词单复数一致。
- ☐ 没有漏掉或无故重复词块。
- ☐ 句子读起来表达一个完整意思。

6.11.2 Write an Email

- ☐ 收件人、目的和背景清楚。
- ☐ 题目中的每项要求都有对应句子。
- ☐ 请求具体，且有合理的截止时间/下一步。
- ☐ 语气礼貌、直接，不强硬也不空泛。
- ☐ 有合适的称呼与结尾。
- ☐ 删除了不影响对方行动的背景细节。

6.11.3 Academic Discussion

- ☐ 第一两句明确我的立场。
- ☐ 我解释了“为什么”，不只是说“很好/重要”。
- ☐ 有至少一个具体例子、情境或因果机制。
- ☐ 如回应其他观点，我回应的是理由而不只是名字。
- ☐ 结尾回扣题目的核心标准。
- ☐ 没有为凑词而重复同一观点。

6.12 十二、最终通关量表

在连续两周的计时训练中，达到以下状态，再把重心转向全科整合：

任务	达标表现	尚未达标时优先修复
Build a Sentence	正确率稳定在 90% 左右或更高； 能解释自己的句法选择	主谓、从句边界、词块搭配
Write an Email	每封都完整回应；目的和请求一眼 可见；语气稳定	信息卡、具体行动、礼貌请求
Academic Discussion	每篇均有立场、两层发展和具体支 持；明显错误少	理由深度、例子服务性、重复删除
综合	疲劳和限时下仍能留出检查时间	降低生词冲动，固化流程

100+ 写作的核心不是“零错误”，而是稳定地让读者明白：你要表达什么、为什么这么想、下一步该做什么。

把每次练习都变成“审题更准、句子更稳、修改更具体”的循环，24 周后你获得的将不是一套易碎模板，而是一套可迁移到考试、工作邮件和学术沟通中的英文写作能力。

第七章 2026 新版 TOEFL 口语完整教程

目标：用可录音、可复盘、可量化的训练，把“知道怎么说”变成“听到就能说”。
本章任务均为原创练习，不使用或复述任何教材、机经或回忆题。

7.1 一、先认识两类任务

2026 版口语可先按两种核心能力训练：

任务	你要做什么	真正考查什么
Listen and Repeat	听一句英语后，尽可能准确、自然地复述	短时记忆、语音辨识、意群、重音、语调、即时输出
Take an Interview	围绕日常校园或生活话题，回答连续提问并自然互动	无准备构思、清晰表达、流利度、例证、回应与追问

两类任务共同的底层公式是：

听清/想清 → 切成意群 → 抓住关键词 → 自然发声 → 立刻复盘。

补充说明：Listen and Repeat 与 Take an Interview 是 2026 新版 TOEFL iBT 的官方任务名称；本章题目、分级、计时微练习和内部量表则是原创训练设计，不等同于 ETS 官方试题或正式评分。

不要把练习做成“背完整句子”。高分口语听起来像一个有组织、有反应、愿意沟通的人，而不是朗读机。

7.2 二、单次 35 分钟录音流程

每次口语专项都录音；不录音的练习，很难发现真实的停顿、吞音和跑题。24 周路线按 01 章将本流程安排为每周 2—3 次，并把 ChatGPT 陪练控制在每周 60—90 分钟内；这里的“35 分钟”是一次完整流程，不要求在每个日历日额外做一次。

7.2.1 标准流程

1. 热身 (3 分钟)

用舒适音量读 6 个意群。每个意群末尾轻轻收住，不拖长、不抢拍。

2. Listen and Repeat (10 分钟)

做 6-10 句：第一遍只听，第二遍复述，第三遍对照文本纠错。

3. Interview 快答 (8 分钟)

随机抽 2 个问题, 每题准备 10-15 秒, 连续说 35-50 秒。

4. 自然追问 (5 分钟)

针对自己的回答, 补答一个 “Why?”、“Can you give an example?” 或 “What would you do if...?”。

5. 第一次完整录音 (4 分钟)

不暂停、不重来, 保留原始表现。

6. 自评和错误库 (3 分钟)

用本章量表给分, 只记最影响沟通的 1-3 个问题。

7. 二次录音 (2 分钟)

只带着那 1-3 个改动重录。不要追求零错误, 要追求一次比一次更易懂。

上述 “6-10 句” 和 “2 个问题” 是一次专项练习的抽样量, 不是正式考试题量; 2026 正式口语为 7 个 Listen and Repeat 提示与 4 个 Take an Interview 提示, 共 11 个提示、8 分钟 (以 ETS 当期说明为准)。

7.2.2 录音命名与保存

建议命名为: 日期_任务_级别_第几录, 例如 0804_LR_B_1、0804_INT_B_2。
每周保留周一和周四录音, 横向比较 “停顿、速度、清晰度”, 不要只比较自己是否用了高级词。
尽量保持同一设备、同一距离、同一安静环境, 避免把设备差异误判成进步或退步。

7.3 三、Listen and Repeat: 从 “逐词听” 到 “按意群复述”

7.3.1 1. 四步复述法

第一步: 只听意思。

不要一边听一边在脑中拼写。先判断: 谁、做什么、为什么、结果怎样。

第二步: 按意群切块。

一个意群通常表达一个小意思。功能词可以轻读, 核心信息词要清楚。

The campus shuttle / stops near the library / every fifteen minutes.

第三步: 抓骨架, 而不是死抓每个词。

优先保留名词、动词、形容词、数字、否定词、转折词和逻辑关系。

例如听到 *The workshop was moved because the main hall needed repairs*, 骨架是:

workshop — moved — because — main hall — repairs

第四步: 带节奏复述。

一句话不需要每个词等重。内容词更突出, 语法词更轻、更快。复述结束时自然降调; 未结束的信息组用轻微续接感。

7.3.2 2. 短时记忆专项

训练	做法	目的
关键词延迟	听完后静默 2 秒，再复述	防止边听边机械模仿
数字替换	把日期、价格、数量换成新信息后复述	检验是否真正抓住句法骨架
尾部回收	只复述每句最后一个意群，再逐步加回前面内容	改善句尾丢失
三句串联	连听三句，只说每句的关键词链	训练工作记忆，不强迫逐字记忆
影子跟读	音频后延迟约半个意群跟读	建立语速、重音和连读感

每天只选两项；训练质量比堆数量重要。

7.3.3 3. 意群与停顿规则

可以在以下位置短暂停顿：主语后、长修饰语后、连接词前后、并列项之间。
不要在冠词、介词、助动词和固定搭配中间断开。

不自然	更自然
I want / to join the club.	I want to / join the club.
The students / who arrived late	The students who arrived late / missed the introduction.
We can meet / at noon.	We can meet at noon / if that works for you.

7.3.4 4. 发音、重音和语调的最低有效改进

- **清辅音收尾**：work, help, next 的末尾要有收束感，不必夸张爆破，但不能消失。
- **词尾语法信息**：-s、-ed 会影响人称、数量和时态；慢练时刻意凸显，快说时保持可辨。
- **重音放在内容词**：I ****NEED**** the ****FORM**** by ****FRIDAY****。
- **信息新旧决定重音**：新信息更重；已知信息可轻。
- **陈述多降调，确认或未完结多续接**：不要每句都上扬。连续上扬会显得犹豫或像在逐词点名。
- **连读服务于清晰，不服务于炫技**：pick_it_up、an_old_book 可以连，但不要快到吞掉关键词。

7.3.5 5. Listen and Repeat 分级题库

使用方式：先自己或让语音工具朗读英文句，再遮住文本复述；最后才看文本。

A 级：单意群（建立准确度）

1. The café opens at seven on weekdays.
2. My roommate borrowed my blue umbrella.
3. Please send the form before Friday afternoon.
4. The science club meets near the west gate.
5. I chose the earlier bus to avoid traffic.
6. The speaker answered questions after the presentation.

通关要求：连续 8 句中，关键词准确率达到 90%，且无超过 1 秒的空白停顿。

B 级：双至三意群（建立节奏）

1. After the lab ends, / we can compare our results / in the study room.
2. The museum added evening hours / because many visitors work during the day.
3. If you reserve a seat online, / you can enter through the side door.
4. Our professor postponed the quiz / until everyone could access the reading.
5. The new path is shorter, / but it becomes slippery / after heavy rain.
6. I left a note for Maya / in case she arrives before I return.

通关要求：连续 6 句中，信息骨架完整率 85% 以上；至少 5 句按意群而非逐词停顿。

C 级：信息密度与转折（建立记忆韧性）

1. Although the workshop begins at nine, / participants should arrive twenty minutes early / to collect their materials.
2. The student center will replace its old lockers / with larger ones / near the fitness area.
3. Several volunteers canceled this morning, / so the organizers asked nearby classes / for extra help.
4. The article argues that brief breaks / can improve concentration / when people return to a difficult task.
5. Rather than printing every handout, / the department will post digital copies / on its course page.
6. The tour was originally planned for Saturday, / but the forecast led the guide / to move it to Sunday.

通关要求：连续 5 句中，因果、转折、条件等逻辑词不丢失；每句最多一次自我修正。

D 级：三句信息链（模拟压力）

听完以下每组三句后，用自己的自然语速复述原意；允许换词，但不得改变事实关系。

组 1

The library is testing a new reservation system.
Students can book a small room for up to two hours.
The staff will review feedback at the end of the month.

组 2

The campus garden needs volunteers on Thursday.
They will plant herbs behind the dining hall.
Beginners will receive instructions and gloves.

组 3

A local designer will visit the art class next week.
She plans to discuss how public spaces influence creative work.

Students should bring one sketch or photo to share.

通关要求：三句中保留至少 7 个核心信息点，顺序合理，整体能被陌生听者理解。

7.4 四、Take an Interview: 无准备也能有内容

7.4.1 1. 10 秒构思框架

不要在脑中寻找“完美观点”，先选一个最容易展开的答案。用 **P-R-E-F**：

- **P — Point**：直接回答立场。
- **R — Reason**：给一个具体原因。
- **E — Example**：讲一个小场景、一次经历或可观察结果。
- **F — Finish**：回扣观点，或自然交给下一问。

英文骨架：

I'd choose ____.
The main reason is ____.
For example, ____.
So, for me, ____ makes the most sense.

这不是必须逐句照读的模板，而是防止卡顿的思维栏杆。

7.4.2 2. 40 秒回答的时间分配

时间	内容
0-5 秒	直接回答
5-18 秒	原因与解释
18-33 秒	具体例子或情境
33-40 秒	总结、取舍或衔接

如果想不出个人经历，可用“合理的微型情境”，但要自然、具体：人物、地点、行动、结果四选二即可。

7.4.3 3. 自然追问：不是背新答案

采访型交流常在同一主题上继续深入。追问时先回应问题的焦点，再补一层信息。

追问类型	可用开头	回答动作
要求原因	That matters because...	解释机制，而非重复结论
要求例子	A simple example would be...	给一个小情境
问变化	I might change my mind if...	加入条件与取舍
问细节	In that case, I would...	说具体行动

追问类型	可用开头	回答动作
表示不同观点	I can see that point, but...	先承认, 再温和转向

自然的衔接词足够用即可: actually, for instance, at the same time, because of that, to be honest. 每句话都加连接词反而会显得生硬。

7.4.4 4. Interview 分级题目与示例

以下问题和回答均为原创训练材料。示例展示结构, 不是要背的“标准答案”。
示例优先保证自然、完整、易懂, 不追求华丽表达; 如果你能用更短但同样清楚的话说出来, 也完全可以。

A 级: 立场 + 一个理由 (25-35 秒)

Q1. Would you rather study in a quiet room or in a busy public place? Why?

示例回答:

I'd rather study in a quiet room. The main reason is that I lose focus when people are talking nearby. For example, when I review vocabulary in the library's silent area, I can finish a short list much faster. So a calm space helps me use my study time well.

Q2. Do you prefer making plans early or deciding things at the last minute?

示例回答:

I usually make plans early because it reduces stress. If I know my schedule before the week begins, I can leave time for both schoolwork and rest. I do not plan every small detail, but having a basic plan makes unexpected changes easier to handle.

Q3. Is it better to learn a new skill alone or with other people?

练习要求: 先选一方, 给出一个真实或合理例子; 不要同时讲两方, 除非最后一句做简短让步。

B 级: 理由 + 例子 + 取舍 (35-45 秒)

Q1. Your community has money for one improvement: more bike paths, a larger public library, or more weekend events. Which would you choose?

示例回答:

I would choose more bike paths. A library and community events are valuable, but safer bike routes would affect people every day. For instance, students and workers could travel short distances without needing a car or waiting for a bus. It could also make the streets less crowded. That is why I think bike paths would have the widest practical benefit.

Q2. Should students be allowed to choose all of their courses, or should schools require several common courses?

Q3. When working on a group project, is it more important to divide tasks clearly or to meet often?

练习要求：回答中必须出现一次比较或让步，如 Although meetings are useful,

C 级：连续追问（每轮 30-45 秒）

主题：校园里的手机使用

1. Should students put their phones away during every class?
2. Can you describe a situation in which a phone is actually helpful for learning?
3. If a class has a phone policy, what would make that policy fair?

示范第 1 题：

I think students should usually put their phones away, especially during explanations or discussions. Notifications make it easy to miss one important point and then lose the rest of the lesson. However, I would not ban phones completely. In some classes, students may need them to check a schedule, take a photo of a diagram, or use a course app.

示范第 2 题：

One helpful situation is a class discussion that uses a shared document. Students can add ideas at the same time, and the teacher can see which questions need more attention. In that case, the phone is not a distraction; it is a simple tool for participation.

D 级：压力情境与立场调整

主题：一次社区活动的安排

1. You are helping plan a free neighborhood event. What activity would attract the most people?
2. A volunteer says outdoor events exclude people when the weather is bad. How would you respond?
3. The budget is cut by half. What would you keep, and what would you remove?

练习要求：

- 第 2 题先承认对方一点合理性，再提出方案。
- 第 3 题必须明确“保留什么、取消什么、为什么”。
- 三题合起来至少使用一次条件句和一次因果表达。

7.5 五、从“能回答”到“像在交流”

7.5.1 常见卡顿的替代动作

卡住时，不要用很长的 ummmmmm 填满空白，也不要从头推倒重来。可使用短而有意义的缓冲：

- **Let me think about that for a second.**
- **The first example that comes to mind is...**

- I'd look at it in two ways.
- What I mean is...
- A better way to say that is...

每题最多使用一次。更好的办法是把句子缩短：先说主句，再补细节。

7.5.2 有效自我修正

可以改，关键是快：

I went there on Friday—actually, it was Saturday morning.

避免：

I went, um, I mean, I was going, maybe I went, um...

修正事实、词义或会造成误解的语法；不要为冠词或一个小发音不断返工。

7.5.3 流利度的正确标准

流利不是越快越好，而是：

1. 意群之间有节奏；
2. 大部分停顿发生在想法边界；
3. 重点词可听清；
4. 即使有停顿，听者也知道你要说什么。

每周选一段 40 秒录音，记录总时长、超过 1 秒的停顿次数、无意义填充词次数。只要后两项稳步下降，速度可以暂时不变。

7.6 六、自评量表（每项 1-5 分）

第一次录音后打分；第二次录音只重点改善最低的两项。

下面的自评量表只用于练习复盘，不等同于 TOEFL 官方分数。官方评分更看重可懂度、对题回应、组织、语言使用和语音表现的整体结果，不会因为你用了某个“高级词”就单独加分。

维度	1 分	3 分	5 分
信息准确 (LR)	关键人物、动作或逻辑常丢失	保留主旨，少量细节不准	关键信息、否定和逻辑关系完整
回答切题 (INT)	没直接回答或明显跑题	有立场，但展开有限	直接、完整地回应问题与追问
组织	想法堆叠，难跟上	有基本顺序	观点、理由、例子、收束清楚
发音清晰	多处难以辨认	大体可懂，词尾偶有模糊	重点词、词尾和数字清楚自然
重音与语调	逐词平读或过度上扬	有部分意群与重音	信息重点突出，句子有自然起伏
流利度	多次长停顿或反复重启	偶有停顿，不严重影响理解	节奏稳定，停顿多在意群边界

维度	1 分	3 分	5 分
互动与追问 (INT)	追问后只重复原话	能补充一个相关点	能解释、举例、让步或提出条件

7.6.1 评分解释

- **28-35 分**：表现稳定，可提升题目难度或缩短准备时间。
- **21-27 分**：可沟通，但需锁定一个主要短板重复练。
- **20 分及以下**：降一级训练；先保证信息和清晰度，再追求复杂表达。

这只是内部训练分层，不是官方 35 分制换算。

不要用“词汇高级程度”单独决定分数。一个清楚、具体、顺畅的普通词答案，优于一个不断中断的复杂词答案。

7.7 七、二次录音：把反馈变成动作

第一次录音后，按下面顺序处理：

1. **听一遍，不看文本**。写下你作为听者真正听到的要点。
2. **对照目标**。LR 对照原句的关键词和逻辑；INT 对照问题、P-R-E-F 框架与追问要求。
3. **只选 1-3 个改动**。例如：“because 后不抢拍”“过去式结尾更清楚”“例子加入结果”。
4. **写一条微型指令**。如：每个意群先稳住，再说下一个。
5. **重录一次**。尽量在同一设备、同一距离、同一安静环境下录；不允许全文重写，也不允许练到背熟后才录。
6. **比较两版**。记录“本次明显变好的一项”和“明天仍要练的一项”。

二录的目标不是听起来像配音，而是在有限时间内更好地控制表达。

7.8 八、建立个人错误库

错误库应短、小、可复练。建议用表格或笔记软件维护：

日期	任务	原句/原回答片段	问题类型	修正版本	下次动作
08/04	LR B	stops near library	冠词与弱读丢失	stops near **the** library	慢读 5 次，后接正常语速
08/04	INT A	I like quiet because good	理由不完整	because it helps me focus	每个理由补“如何影响我”

推荐标签：

- **MEM**：听后信息遗漏或顺序错；

- **CHUNK**: 意群切分不当;
- **SOUND**: 发音、词尾、数字、专名不清;
- **STRESS**: 重音或语调平;
- **FLU**: 长停顿、重复、重启;
- **IDEA**: 无观点、理由空泛、例子不具体;
- **FOLLOW**: 追问只重复、未回应新焦点。

每周五统计出现最多的两个标签。下周 70% 的练习围绕它们, 30% 保持其他能力, 不要每天随机换十个问题。

7.9 九、四周通关计划

周次	核心目标	每日重点	周五检验
第 1 周	听清并按意群说	LR A/B; INT A	8 句 LR + 2 题快答
第 2 周	结构稳定、例子具体	LR B/C; INT B	6 句 LR + 一组双题追问
第 3 周	应对信息密度和连续追问	LR C/D; INT C	三句信息链 + 三轮采访
第 4 周	压力下保持自然	混合随机训练; INT D	12 分钟完整模拟与二录

7.9.1 总通关标准

完成四周后, 连续两次达到以下标准, 才进入更高难度材料:

- **Listen and Repeat**: B/C 级随机 10 句中, 核心信息完整率至少 85%; 逻辑词、数字和否定词错误不超过 1 处。
- **Take an Interview**: 随机 3 个主问题加 2 个追问中, 每题都直接回应; 至少 4 题有具体例子或条件; 无意义长停顿平均不超过每题 2 次。
- **声音表现**: 陌生听者或语音转写能抓住主要信息; 重录后的自评总分比首录至少提高 3 分, 且不是单靠加快速度。
- **复盘习惯**: 错误库累计至少 20 条有效记录, 并能说出自己最常见的两个错误及对应修复动作。

7.10 十、一次 12 分钟混合模拟

请自行用计时器和录音设备完成, 全程不暂停。

1. **LR (4 分钟)**: 从 B、C、D 级各选 2 项。每项只听两遍后复述。

2. **准备 (20 秒)**:

Would you rather join a long-term volunteer project or help with a one-day event? Why?

3. **回答 (45 秒)**: 按 P-R-E-F 完成。

4. **追问一 (35 秒)**:

What could make you change that choice?

5. 追问二 (35 秒):

How would you encourage a friend to participate?

6. 复盘与二录 (5 分钟): 只重录 Interview 三题, 重点解决一个内容问题和一个声音问题。

7.11 十一、AI 陪练的简要衔接

你已经用 ChatGPT 练口语, 可以把它作为“出题者、追问者、转写员和反馈员”, 而不是替你写漂亮答案的人。

推荐顺序:

1. 先自己录音并说完;
2. 再把转写稿和音频中的实际表现交给 AI;
3. 要求它只指出最影响可懂度的 2-3 个问题;
4. 根据反馈二录;
5. 让 AI 对第二版与第一版做对比, 而非重新给一篇范文。

注意: AI 的转写和评分只能作参考。若它误听了内容, 先回听原录音, 不要为了迎合转写而改掉自己本来正确的表达。所有练习题应保持原创, 不向 AI 索要或使用任何回忆题。

7.12 十二、AI 陪练专用提示词 (独立使用)

将方括号内容替换后发送。每次只用一个提示词, 保留你自己的原始录音和首版答案。

7.12.1 1. Listen and Repeat 出题与核对

你是英语口语陪练。请为 Listen and Repeat 生成 8 句完全原创的英文训练句, 难度为 [A/B/C/D]。主题限于普通校园、社区或日常生活; 不得使用任何真题、回忆题或教材原句。先只输出“朗读版”, 每句之间空一行, 不给答案提示。等我逐句发送复述文本后, 再按“核心信息、逻辑词、意群、发音风险”四项, 每句只给 1 条最重要反馈和 1 个可执行修改动作。

7.12.2 2. Interview 追问模拟

你是友善但真实的英语采访者。围绕我给出的原创话题 [话题], 一次只问一个英文问题。等我回答后, 先用中文简要评价“是否直接回答、理由是否具体、例子是否完整、流利度风险”, 总共不超过 3 点; 然后根据我的回答自然追问, 不要换成无关话题。不要提供范文, 除非我明确要求。连续进行 3 轮。

7.12.3 3. 首录与二录对比

以下是我同一题的第一版和第二版口语转写。请不要重写整篇答案, 而是比较两版: 1) 保留下来的进步; 2) 仍然最影响可懂度的两个问题;

3) 下一次录音时我可以默念的一句中文提醒。若转写可能误识别，请标为“需回听确认”，不要武断判错。

题目：[题目]

第一版：[文本]

第二版：[文本]

7.12.4 4. 错误库整理

请把下面的口语反馈整理为错误库表格，列为：错误标签、我的原句、更自然或更清楚的版本、影响、下次 2 分钟练习。

只保留重复出现或明显影响理解的问题，最多 5 条。

不要把所有小语法错误都列入，也不要替我写完整答案。

[粘贴反馈和转写]

7.13 十三、最后的执行原则

1. 先完整说完，再追求漂亮。
2. 先让听者听懂，再追求更快。
3. 先修复重复错误，再扩充新题。
4. 每次二录只改少数动作。
5. 练习中的英文必须原创；能力来自复盘，不来自背题。

持续四周后，你应能在陌生问题前迅速形成一个清楚立场，在听到信息后抓住骨架，并用自然节奏把它说出来。这就是两类任务最可迁移的核心能力。

第八章 07 | 阶段测验与完整模考 (2026 新版 TOEFL iBT 训练版)

版本与使用边界：本章参照 2026 年 1 月 21 日起 TOEFL iBT 的任务方向设计：写作包含 Build a Sentence、Write an Email、Write for an Academic Discussion；口语包含 Listen and Repeat、Take an Interview。阅读、听力以“Router + 第二阶段”组织为**教学上的两阶段体验**，不表示 ETS 已公开相同的模块名称、路由阈值、难度或算法。所有题干、文章、脚本与参考答案均为本书原创。

这不是 ETS 真题、题库、官方评分表或分数预测工具。本章题量、路由阈值、模块难度、计时和换算均为教学压缩设置，不能与正式考试等同，也不能用来申诉、报名或报分。正式考试为自适应考试，题数和时长可能调整；请以考试当天 ETS 的最新说明为准。

版权与商标说明：本章不复制 ETS 试题、音频、界面、评分算法或受版权保护的备考材料；TOEFL 与 TOEFL iBT 仅用于说明所参照的考试类型，不暗示 ETS 的认可、合作或隶属关系。

8.1 一、如何做阶段评估

8.1.1 1. 统一执行规则

1. 使用计时器，按各部分开始即计时；阅读、听力不回看、不修改上一题，模拟新版的单向作答体验。
2. 听力脚本应由教师、同伴或 TTS **只播放一遍**；考生不得先读脚本。独自练习时，先遮住脚本并录音播放，再打开题目作答。
3. 口语全程录音。Listen and Repeat 只播放一次、紧跟复述；Interview 不给准备时间。
4. 每次评估保留四份证据：答题纸、口语录音、写作原稿、错因表。错因只选四类：词义/语法、定位或推理、听辨或记忆、时间与执行。
5. 评估后的 48 小时内完成复盘：改正客观题；口语重录一次；写作只重写最弱的一项；把一个可重复错误写成下周的可观察动作。

TTS 执行卡（仅供本书训练）：开始前选英语语音和自然语速（建议 0.95-1.05 倍），将每个 Script 中的实际台词单独粘贴到 TTS；不要把题号、选项、标题或答案读入音频。先在考生不在场时试播一次确认听懂；正式作答时只播放一次、不暂停、不展示文字稿。若在第一句话开始前发生技术故障，可从头重播该段；开始后不得重播，应将该段标为“技术中断、不可计分”，另择时间用同一规则重做。Listen and Repeat 同样一次播放后立即录音复述。

8.1.2 2. 训练成绩单（不作正式换算）

本书采用四维内部记录，而非把正确题数硬换算为 TOEFL 分数。

维度	记录方式	达标信号
阅读/听力准确	正确数 ÷ 该卷可得分	同一任务连续两次达到 80%
路由稳定性	Router 后进入较高模块的次数	近三次至少两次进入较高模块
写作表现	每项 0-4 分, 取平均	平均 3 分且没有 1 分项
口语表现	每提示 0-4 分, 取平均	平均 3 分, 且复述遗漏不超过一个关键信息

仅供训练的进展标签：客观准确率 <60% 为“需补基础”；60–74% 为“可完成”；75–84% 为“较稳”；≥85% 为“可挑战”。这不是 1-6 或 0-120 的换算，也不应据此推断录取结果。

8.1.3 3. 每四周阶段测验框架

第 1 周诊断用于确定起点；其后每 4 周进行一次阶段测验。若课程不是 24 周，可从下表选择最接近的节点，始终保留“路由—第二模块—复盘”结构。

节点	核心问题	建议压缩卷	评估产出	下周期行动
第 4 周	能否在单向作答下稳定完成基本任务？	R/L 各 Router 6 + 第二模块 6；W 三任务；S 11 提示	基线二：速度、遗漏类型	每科只选一个最高频错因训练
第 8 周	Router 表现是否稳定，第二模块是否掉速？	同上，第二模块改为较高路径优先	路由记录表、时间分配表	对弱任务做 2 次限时微练习
第 12 周	能否将信息组织成清晰英语输出？	R/L 压缩卷；W/S 全量	写作四项量表、口语录音转写 60 秒	建立个人连接词与自我修复清单
第 16 周	压力下能否保持准确与完整？	R/L 各 Router + 一条第二模块，W/S 全量，分两天完成	两日完成度、疲劳点	针对疲劳点做连续两日短练
第 20 周	较高模块是否具备可重复性？	Router + 强制较高第二模块；W/S 全量	高模块正确率、推理错因	补“证据—推理”而非盲目刷题
第 24 周	是否已形成稳定的考前流程？	不做新的完整压缩模考；从两套模考的风险项各抽一个短组	考前技能清单、风险项	只维护风险项，不新增大量材料

阶段会 (15 分钟)：先由考生用英语说 30 秒总结一次表现；再看数据而非感觉；最后写下一个 If-Then 规则，例如：If I hear a contrast word, then I write two short opposing notes before the question appears.

8.2 二、压缩版完整模考的执行说明

8.2.1 与正式考试的差异

本章每套卷只在**任务类型覆盖**意义上涵盖四科；它不是正式长度、正式界面或正式自适应算法的“完整模考”，而是可在课堂内执行的压缩训练：

部分	本章每套题量/训练时间	正式考试方向（会变动）	不能据此做的事
Reading	Router 6 + 已路由的第二模块 6；12 分钟	ETS 2026 Specifications 的计分口径为 35 个计分项目；若某次考试另含未计分项目，实际呈现总数可高于 35。两种口径不得混用。	预测正式模块、正式题数或正式分数
Listening	Router 6 + 已路由的第二模块 6；12 分钟	ETS 2026 Specifications 的计分口径为 35 个计分项目；若某次考试另含未计分项目，实际呈现总数可高于 35。两种口径不得混用。	用本章阈值判断真实路由、题数或正式分数
Writing	6 句重组 + Email + Discussion；21 分钟	ETS 官方当前范围：12 个任务、23 分钟	代替官方机考界面与评分
Speaking	7 句复述 + 4 个访谈；约 8 分钟	ETS 官方当前范围：11 个提示、8 分钟	判断设备、音量或官方 AI 评分

正式范围的依据为 ETS 的 [TOEFL iBT Test Specifications \(2026\)](#) 与 [TOEFL iBT Test Content \(2026-08-04 查阅\)](#)。ETS 可更新考试设计；本表只作当前范围提示，以 ETS 考试日说明为准。

8.2.2 本书的两阶段路由算法

每科先做 Router（6 题）。**5-6 题正确进入 Upper Module；0-4 题进入 Core Module。**一次计时测验中，考生只做 Router 和其进入的一个第二模块（共 12 题）；未进入的模块留作另一日的补弱或教师诊断，不能补入本次成绩。答案区同时列出两条路径仅为阅卷方便。Router 与已进入第二模块各占该科内部观察的 50%；不进行分数换算，也不对应 ETS 的真实路由或分数。

8.3 模考 A | The Campus Repair Lab

8.4 A1. Reading (12 分钟)

8.4.1 Stage 1: Router (6 题, 6 分钟)

Task 1: Complete the Words

Read each sentence and choose the missing letters that make the best word.

1. The library's new **recy**___ station turns damaged book covers into reusable material.
A. cling B. cles C. late D. ring
2. Maya kept a brief **lo**__ of the tools she borrowed so that the next team could find them.
A. ck B. ad C. g D. w

Task 2: Read in Daily Life

Repair Lab Notice

Beginning Monday, students may reserve the electronics bench for 45-minute blocks. Bring your student card and a description of the problem. The lab supplies basic hand tools, but users must provide replacement parts. Reservations not claimed within ten minutes may be given to people waiting nearby.

3. What must a student bring when using the bench?
A. A replacement part and a tool kit
B. A student card and a problem description
C. A teacher's written approval
D. Proof of a previous reservation
4. What happens after an unclaimed reservation has been held for ten minutes?
A. It is automatically moved to the next day.
B. The student is charged a fee.
C. A waiting person may receive the bench.
D. The lab closes the bench.

Task 3: Academic Reading

In many cities, public repair events invite residents to bring broken household objects to volunteer technicians. Organizers originally measured success by the number of items repaired. Later, they noticed a second benefit: visitors often learned simple maintenance skills while watching the work. A repaired lamp therefore represented not only less waste but also a possible future repair completed at home. Some organizers now schedule short demonstrations between appointments so that learning is an explicit part of the event.

5. Why does the author mention a repaired lamp?
A. To show that lamps are the most common item at events
B. To illustrate that repair can produce both environmental and educational benefits
C. To explain why volunteers need specialized electrical training
D. To argue that home repair is always safer than professional repair
6. Which change did some organizers make?
A. They stopped accepting household objects.
B. They charged visitors for demonstrations.

- C. They added planned instruction between appointments.
- D. They measured only the weight of avoided waste.

Route now: 5–6 correct → Upper Module. 0–4 correct → Core Module.

8.4.2 Stage 2A: Core Module (6 题, 6 分钟)

Task 1: Complete the Words

7. Before starting, the group made a **si**___ checklist of the parts they needed.
A. mpl B. ngl C. lent D. zer
8. The volunteer showed the visitor how to **te**___ whether a battery still worked.
A. st B. ll C. am D. nd

Task 2: Read in Daily Life

Tool Return Reminder

Please return borrowed tools to the blue counter, not to classroom desks. Attach the yellow tag to any tool that feels loose or makes an unusual sound. Staff inspect tagged tools each afternoon.

9. Why should a user attach a yellow tag?
A. To request an extra day of borrowing
B. To identify a tool that may need inspection
C. To show that the tool belongs to a classroom
D. To receive a new tool immediately
10. Where should tools be returned?
A. At classroom desks
B. At the blue counter
C. In the afternoon inspection room
D. Beside the yellow tags

Task 3: Academic Reading

A useful design is not necessarily one with the fewest parts. In a repairable product, however, parts should be arranged so that a person can reach a likely point of failure without damaging unrelated pieces. This principle may increase the number of visible screws, yet it can reduce the time and cost of repair. Designers must balance a clean appearance with access for future users.

11. What is the main point of the passage?
A. Products should never contain visible screws.
B. Easy access to parts can make a product more repairable.
C. Fewer parts always reduce repair costs.
D. Appearance is more important than repair.
12. The word **balance** is closest in meaning to
A. compare carefully

- B. ignore completely
- C. keep in reasonable proportion
- D. measure precisely

8.4.3 Stage 2B: Upper Module (6 题, 6 分钟)

Task 1: Complete the Words

7. The instructor asked students to **docu**___ each repair step so later groups could evaluate the method.
A. ment B. rate C. lar D. sign
8. A part that seems inexpensive may be **inco**___**ble** with an older device if its connectors differ.
A. mpati B. rpo C. nce D. rdi

Task 2: Read in Daily Life

Proposal Review Schedule

Teams requesting funds for community repair projects must upload a two-page proposal by Thursday noon. The proposal should identify a local need, list materials already available, and explain how participants will learn from the project. A panel will prioritize plans that can continue after the initial grant ends; novelty alone will not determine selection.

9. Which proposal feature is explicitly favored?
A. A project unlike any previous project
B. A plan that remains viable after the grant
C. A request containing more than two pages
D. A project that buys all materials new
10. What can be inferred about the panel?
A. It values learning as well as completing repairs.
B. It refuses to fund local projects.
C. It selects proposals in the order received.
D. It provides all project materials.

Task 3: Academic Reading

Historians of technology caution against treating repair as the opposite of innovation. A repairer may adapt a device to a new material, combine parts from different generations, or discover a recurring weakness that manufacturers later address. These actions generate practical knowledge. Yet this knowledge is often informal: it can remain in a workshop rather than appearing in a patent or published report. Researchers studying innovation therefore risk overlooking repair if they count only formal records.

11. Why might researchers overlook repairers' contributions?
A. Repairers refuse to use new materials.

- B. Their knowledge may not appear in formal records.
 - C. Manufacturers do not make devices with weaknesses.
 - D. Patents are usually written in workshops.
12. Which statement best expresses the author's view?
- A. Repair has little connection with technological change.
 - B. Formal records fully represent practical knowledge.
 - C. Repair can create knowledge relevant to innovation.
 - D. Innovation should be limited to manufacturers.
-

8.5 A2. Listening (12 分钟)

Administrator instruction: Read each script naturally once only. Then allow the stated questions. Do not show the script to the candidate until the section ends.

8.5.1 Stage 1: Router (6 题, 6 分钟)

Task 1: Listen and Choose a Response

Script 1: "Do you know whether the repair lab is open this evening?"

- 1. A. Yes, it opens at nine each morning.
- B. I think it stays open until eight on Tuesdays.
- C. I repaired the door yesterday.
- D. The evening class was interesting.

Script 2: "I cannot find the form for borrowing a soldering iron."

- 2. A. It is linked on the lab's reservation page.
- B. I borrowed it from my sister.
- C. The iron was very hot.
- D. You should form a group.

Task 2: Conversation

Script:

Student: Hi, I reserved a camera tripod, but I only need it for tomorrow morning. The system gave me a three-day loan.

Staff member: That is normal for equipment loans. Just return it after your project.

Student: Great. Could I also borrow the small microphone?

Staff member: Yes, but it has a separate checkout form because it includes a battery.

- 3. Why does the student speak to the staff member?
- A. To cancel a project
- B. To ask about an equipment loan
- C. To report a broken camera
- D. To extend a library book

4. What does the staff member imply about the tripod loan?
- A. The student must keep it for three days.
 - B. The system made an error.
 - C. Returning it early is acceptable.
 - D. A teacher must approve it.

Task 3: Academic Talk

Script:

Professor: When cities install public benches, they often judge them by appearance and durability. But a recent design study added a third criterion: repairability. The researchers compared two bench models. One used a single molded seat; the other used separate wooden slats. Replacing one damaged slat took little time, while damage to the molded seat required replacing the whole unit. The slatted bench needed more routine checks, but over several years it produced less material waste. The study does not claim that one design fits every location. Instead, it shows that maintenance plans should influence a city's first purchase.

5. What is the talk mainly about?
- A. Why cities should remove public benches
 - B. How repairability can affect a design choice
 - C. Why wooden benches always last longer
 - D. How to make molded seats more attractive
6. Why does the professor mention the slatted bench?
- A. To give an example of a design with replaceable components
 - B. To show that it requires no maintenance
 - C. To explain why it costs less at purchase
 - D. To describe a bench that cannot be repaired

Route now: 5-6 correct → Upper Module. 0-4 correct → Core Module.

8.5.2 Stage 2A: Core Module (6 题, 6 分钟)

Script 1: “Would you mind moving your bike away from the emergency exit?”

7. A. Of course—I'll move it now.
B. The exit was very exciting.
C. I bought it at a bike shop.
D. Yes, I would mind the emergency.

Script 2: “The workshop starts at three, right?”

8. A. It began last semester.
B. Yes, but arrive ten minutes early to sign in.
C. Three tools are missing.
D. I started a new workshop.

Script 3:

Student: I printed my poster, but the colors look much darker than on my laptop.
Technician: Did you use the print-preview setting?

Student: No. I did not know there was one.

Technician: It cannot match every screen, but it can help you adjust the image before printing again.

9. What problem does the student have?
 - A. A laptop that will not start
 - B. A poster with unexpected printed colors
 - C. A missing image file
 - D. A broken printer cable
10. What does the technician recommend?
 - A. Borrowing another laptop
 - B. Changing the poster's size
 - C. Using print preview before reprinting
 - D. Printing only in black and white

Script 4:

Instructor: For next week, compare two ways people learn a physical skill: by reading instructions and by observing another person. Do not assume one is always superior. Think about the skill itself. For example, written steps may be especially useful when a learner needs to pause and check a sequence. Observation may help when timing or body position matters. Your short report should explain which method you would choose for one specific skill and why.

11. What assignment does the instructor give?
 - A. Repair a household object
 - B. Compare two learning methods for a skill
 - C. Write instructions for using a printer
 - D. Observe a class without taking notes
12. Why does the instructor mention body position?
 - A. To explain an advantage of observation
 - B. To argue that reading is always better
 - C. To require a report about sports
 - D. To describe a printing problem

8.5.3 Stage 2B: Upper Module (6 题, 6 分钟)

Script 1: "I heard the lab moved its reservation system to a new website."

7. A. It did, and old bookings were transferred automatically.
- B. The website reserved a laboratory.
- C. I moved the system yesterday.
- D. A reservation is a useful science tool.

Script 2: "Why not ask the technician before ordering that part?"

8. A. Because I have already asked the question.
- B. Good idea; compatibility is hard to judge from a photo.
- C. The part arrived yesterday.
- D. I ordered a photo from the technician.

Script 3:

Student: I am proposing a tool-lending station for my residence hall. My budget lists the purchase price, but the committee asked for a maintenance estimate too.

Advisor: That is a reasonable request. What would maintenance include?

Student: Replacing lost pieces, checking batteries, and training student volunteers.

Advisor: Then organize the estimate by recurring costs and one-time setup costs. It will make clear which expenses continue after the first year.

9. What is the student trying to prepare?
 - A. A residence-hall maintenance schedule
 - B. A budget proposal for a lending station
 - C. A training manual for technicians
 - D. A request to replace batteries
10. Why does the advisor suggest two cost categories?
 - A. To reduce the purchase price
 - B. To show which expenses will recur
 - C. To avoid training volunteers
 - D. To remove lost pieces from the budget

Script 4:

Professor: A common mistake in studying technology is to focus only on the moment an object enters the market. That approach treats design as finished at purchase. In reality, users modify objects, maintenance workers discover patterns of failure, and communities develop unofficial instructions. These later activities can reveal whether the original design fits everyday conditions. Consider an outdoor water fountain: a designer may test it in mild weather, while maintenance workers learn how a valve behaves during repeated freezes. Their observations are not merely complaints; they are evidence about design in use. For your field notes, distinguish between a report of a problem and an explanation of what that problem suggests about the original design.

11. What is the professor's main point?
 - A. Market entry is the only important phase of design.
 - B. Use and maintenance can provide evidence about a design.
 - C. Outdoor fountains should be tested only in mild weather.
 - D. Workers' complaints should be excluded from field notes.
 12. What does the fountain example illustrate?
 - A. A difference between laboratory assumptions and everyday conditions
 - B. A method for advertising new fountains
 - C. The high cost of freezing weather
 - D. Why valves cannot be repaired
-

8.6 A3. Writing (21 分钟)

8.6.1 Task 1: Build a Sentence (4 分钟)

For each item, write one grammatical sentence using all the words. Capitalization and punctuation may be changed.

1. the technician / after lunch / inspected / the tagged tools
2. because / the replacement part / did not fit / the team / changed its plan
3. students / to reserve / must / the bench / online
4. the guide / explains / how / a battery / to test
5. although / inexpensive / the repair / was / it / took / patience
6. the volunteers / what / recorded / they / had learned

8.6.2 Task 2: Write an Email (7 分钟)

You reserved a place in a campus repair workshop, but a required laboratory class now meets at the same time. Write an email to the workshop coordinator. Explain the conflict, ask whether another session or materials are available, and state how you will remain a responsible participant. Write **80-120 words**.

8.6.3 Task 3: Academic Discussion (10 分钟)

Professor Lee: Our university has a small sustainability fund. Should it support a repair lab or a program that gives students discounts on new energy-efficient devices? Explain your view with reasons and an example.

Nora: Discounts could help students who cannot afford an efficient device. Newer devices may use less electricity from the first day.

Sam: I favor a repair lab. It could reduce waste and teach students to solve practical problems instead of replacing things immediately.

Write a post of **100-140 words**. Respond to the discussion, develop your own position, and add one specific reason or example.

8.7 A4. Speaking (约 8 分钟)

8.7.1 Task 1: Listen and Repeat (7 提示)

Administrator instruction: Read each sentence once at a natural pace. Give the candidate 5 seconds to repeat it immediately.

1. "The repair lab closes at eight on Tuesday evenings."
2. "Please place damaged tools on the blue counter."
3. "My group reserved the electronics bench for tomorrow."
4. "The workshop teaches students how to check a battery safely."

5. "A missing screw can delay a repair more than people expect."
6. "We changed the schedule because the replacement part arrived late."
7. "The proposal explains how the project will continue after the grant ends."

8.7.2 Task 2: Take an Interview (4 提示; 无准备时间)

Record answers of about 30–45 seconds each.

1. What is one useful skill you learned outside a regular class? How did you learn it?
 2. Some students prefer to repair an item; others prefer to replace it. Which do you usually prefer, and why?
 3. Describe a time when a plan changed unexpectedly. What did you do first?
 4. Imagine that you lead a campus project with limited money. How would you decide what to spend money on? Give a specific example.
-

8.8 模考 B | The Neighborhood Water Map

8.9 B1. Reading (12 分钟)

8.9.1 Stage 1: Router (6 题, 6 分钟)

Task 1: Complete the Words

1. Volunteers recorded the **loca**___ of each public water fountain on a map.
A. tion B. tive C. lity D. tor
2. The group asked residents to **re**___t a fountain that was leaking or difficult to use.
A. por B. pea C. pla D. qui

Task 2: Read in Daily Life

Water Map Walk — Saturday

Meet at the east gate at 9:00 a.m. Bring a phone with a camera if possible, but do not photograph people without permission. Teams will check fountains, refill stations, and public taps. At noon, return to the community room to upload observations. Rain will not cancel the walk; severe lightning will.

3. What should participants do at noon?
A. Begin checking public taps
B. Return to upload their observations
C. Meet at the east gate
D. Cancel the event because of rain
4. When would the walk be canceled?
A. When phones have no cameras

- B. When fewer teams attend
- C. During severe lightning
- D. During any rain

Task 3: Academic Reading

Maps are often treated as neutral descriptions of places, but every map results from choices. A city map may show bus stops while omitting benches, shade, or public drinking water. For a commuter driving a car, those omissions may matter little. For a person walking on a hot day, they can shape which route is practical. Community mapping projects sometimes begin by asking residents what they need to notice rather than assuming that an existing map already contains the relevant features.

5. What is the passage mainly about?
 - A. Why all maps should show bus stops
 - B. How mapmakers' choices affect usefulness for different users
 - C. Why commuters prefer driving to walking
 - D. How to draw maps without residents
6. Why does the author mention a person walking on a hot day?
 - A. To illustrate a user for whom omitted features may be important
 - B. To explain why buses do not need stops
 - C. To show that all routes are equally practical
 - D. To argue that maps should include weather forecasts

Route now: 5-6 correct → Upper Module. 0-4 correct → Core Module.

8.9.2 Stage 2A: Core Module (6 题, 6 分钟)

Task 1: Complete the Words

7. The team wrote a short **no**__ beside each fountain on the map.
A. te B. de C. se D. va
8. A fountain was marked **cl**__ because no water came out.
A. osed B. ean C. ear D. ock

Task 2: Read in Daily Life

Map Editing Rule

Add a fountain only after you visit it yourself or confirm it with a recent photograph. If its hours are unknown, leave the hours field blank rather than guessing. A map with fewer verified details is more useful than one with many uncertain details.

9. What should an editor do if a fountain's hours are unknown?
 - A. Estimate the hours from nearby stores
 - B. Leave the hours field blank

- C. Remove the fountain from the map
 - D. Copy hours from an older map
10. What is the purpose of the rule?
- A. To make the map contain more locations
 - B. To encourage editors to guess efficiently
 - C. To keep the information reliable
 - D. To limit photographs of fountains

Task 3: Academic Reading

Field observations are valuable because they record conditions at a particular place and time. They also have limits. A fountain that works in the morning may be turned off later for cleaning, and a path that is shaded in spring may be sunny after leaves fall. Researchers can reduce mistaken conclusions by recording the date, time, and conditions of each observation. Such details allow later users to interpret the record rather than treating it as permanent fact.

11. Why should observers record conditions?
- A. To make observations longer
 - B. To help later users interpret a time-specific record
 - C. To prove that fountains never change
 - D. To avoid visiting places in spring
12. The word **permanent** is closest in meaning to
- A. lasting without change
 - B. difficult to see
 - C. carefully measured
 - D. publicly owned

8.9.3 Stage 2B: Upper Module (6 题, 6 分钟)

Task 1: Complete the Words

7. To avoid misleading users, the map distinguishes **ve_____ed** observations from unconfirmed reports.
- A. rifi B. nera C. loca D. rsion
8. The coordinator asked each team to note any **ob_____le** that could prevent access to a fountain.
- A. stac B. ject C. serve D. tain

Task 2: Read in Daily Life

Data Review Memo

Before publishing the summer water map, compare each new entry with the previous season's record. A difference does not automatically mean that either record is wrong: operating hours, construction, and seasonal demand

can all change access. Flag differences for review, and include an explanatory note when evidence supports a change. Do not delete an older record merely because it is inconvenient to compare.

9. Why should editors compare new entries with previous records?
 - A. To preserve every old entry without change
 - B. To identify differences that may need explanation
 - C. To avoid recording seasonal information
 - D. To publish the map before reviewing it
10. What does the memo suggest about a difference between records?
 - A. It always proves the older record was false.
 - B. It may reflect a real change in access.
 - C. It should be deleted immediately.
 - D. It is caused only by construction.

Task 3: Academic Reading

Participatory mapping can broaden what counts as relevant local knowledge, but participation alone does not guarantee fairness. A meeting scheduled during working hours may exclude some residents; a digital form may favor people with reliable internet access. In addition, the people most affected by a missing service may not feel comfortable speaking in a public meeting. Project leaders therefore need to examine not only who contributes information but also whose absence could distort the map. Designing several ways to participate can improve both representation and data quality.

11. What concern does the passage raise about participatory mapping?
 - A. It makes internet access unnecessary.
 - B. It always produces fair representation.
 - C. Some participation methods may exclude relevant residents.
 - D. Public meetings contain too much information.
12. What does the author recommend?
 - A. Collecting information through several participation methods
 - B. Replacing residents with digital forms
 - C. Holding meetings only during working hours
 - D. Limiting maps to missing services

8.10 B2. Listening (12 分钟)

Administrator instruction: Play/read each script once only; candidates must not see scripts before answering.

8.10.1 Stage 1: Router (6 题, 6 分钟)

Task 1: Listen and Choose a Response

Script 1: “Can I add a photo to the water map from my phone?”

1. A. Yes, use the upload button beside the location.
B. The phone was beside the map.
C. I added water to the bottle.
D. Photos are usually blue.

Script 2: “Is the community room far from the east gate?”

2. A. It is on the second floor of the building across the courtyard.
B. The gate opens every morning.
C. I am far from finishing the room.
D. The community is very friendly.

Task 2: Conversation

Script:

Student: I found a fountain behind the athletic center, but it was turned off. Should I leave it off the map?

Coordinator: Add it, but choose “temporarily unavailable” and include the time you visited.

Student: So people will know it exists, but not expect water today?

Coordinator: Exactly. That distinction is useful.

3. What is the student's concern?
A. A map photograph is unclear.
B. A fountain was unavailable during the visit.
C. The athletic center is closed.
D. The coordinator lost an entry.
4. What does the coordinator tell the student to do?
A. Ignore the fountain completely
B. Report that it is permanently removed
C. Add it with a temporary-status note and time
D. Return only after the athletic center closes

Task 3: Academic Talk

Script:

Professor: In environmental studies, a map can be both a product and a question. As a product, it displays information—perhaps the location of water sources. As a question, it asks why those sources are distributed unevenly and who can use them. Suppose two neighborhoods have the same number of fountains, but one has fountains inside buildings that close early. A simple count would suggest equal access, while a map including opening hours would reveal an important difference. The lesson is not that numbers are useless. It is that a measurement must match the question we want to

answer.

5. What is the talk mainly about?
 - A. Why environmental studies should stop using maps
 - B. How a map can prompt questions about access
 - C. Why all buildings should close early
 - D. How to count fountains quickly
6. Why does the professor mention opening hours?
 - A. To show that equal counts may not mean equal access
 - B. To explain how fountains are built
 - C. To argue that numbers are useless
 - D. To compare two kinds of buildings

Route now: 5–6 correct → Upper Module. 0–4 correct → Core Module.

8.10.2 Stage 2A: Core Module (6 题, 6 分钟)

Script 1: “Could you send me the map link after the meeting?”

7. A. Sure, I will email it this afternoon.
- B. The meeting linked two maps.
- C. Send the afternoon to me.
- D. I could not meet the link.

Script 2: “I think this fountain is near the bus stop.”

8. A. Let's check the location before we add it.
- B. The bus stopped thinking.
- C. It is a very clear fountain.
- D. I added a stop to my drink.

Script 3:

Volunteer: I wrote “good condition” for a fountain, but I am not sure that is specific enough.

Team leader: What did you observe?

Volunteer: The water flowed steadily, the button worked, and the ground was dry.

Team leader: Put those details in the notes. They are more helpful than a general label.

9. What does the team leader suggest?
 - A. Removing the fountain from the map
 - B. Replacing general language with observed details
 - C. Writing a shorter note
 - D. Testing only the ground
10. Why is the volunteer uncertain?
 - A. The fountain has no button.
 - B. The map link is missing.
 - C. The phrase used may be too general.
 - D. The team leader arrived late.

Script 4:

Instructor: For your next observation, work in pairs. One person will check a location while the other records the time, weather, and any barriers to access. Then switch

roles at a second location. This is not because two people always agree. In fact, comparing notes can reveal different interpretations. Your final submission should mention one detail you both recorded and one detail you discussed before deciding how to describe it.

11. What should pairs do at the second location?
 - A. End the observation
 - B. Switch roles
 - C. Delete their first notes
 - D. Work separately
12. Why does the instructor want students to compare notes?
 - A. To find different interpretations that need discussion
 - B. To prove that two people always agree
 - C. To avoid recording weather
 - D. To shorten the final submission

8.10.3 Stage 2B: Upper Module (6 题, 6 分钟)

Script 1: “The map labels one fountain as seasonal—what does that mean?”

7. A. It is expected to operate only during part of the year.
- B. The label was printed in every season.
- C. It takes a year to add the label.
- D. The water has a seasonal color.

Script 2: “Should we publish this entry if only one resident reported it?”

8. A. Not yet; let's seek confirmation or label it as unverified.
- B. One resident published the whole map.
- C. The entry is published in a book.
- D. We should report it every day.

Script 3:

Student: Our team found that the fountain near the stadium is accessible only through a gate that opens for events. I was going to label it “stadium fountain.”

Supervisor: The name tells users where it is, but not when they can reach it. What information would help a visitor decide whether to walk there?

Student: The gate hours and perhaps an alternate nearby fountain.

Supervisor: Good. Add both if you can verify them.

9. What is the supervisor's main concern?
 - A. The student chose an inaccurate stadium name.
 - B. The label does not explain practical access.
 - C. The stadium needs another gate.
 - D. Visitors should not walk to fountains.
10. What additional information does the supervisor want?
 - A. Ticket prices for stadium events
 - B. The fountain's construction date
 - C. Gate hours and a possible alternative
 - D. A larger map symbol

Script 4:

Professor: When we aggregate observations into a citywide map, detail can disappear. A category such as “working” may combine a fountain that flows slowly with one that is easy to use for a person carrying a large bottle. Aggregation helps us see patterns across many locations, but it can hide variation within a category. One solution is to keep the detailed notes linked to the summary map. Then a planner can begin with the broad pattern and investigate the local experience before making a decision. This practice also makes the map more accountable: users can see how a summary was produced.

11. What problem with aggregation does the professor describe?
 - A. It prevents any broad pattern from appearing.
 - B. It can hide meaningful differences within a category.
 - C. It makes detailed notes impossible to collect.
 - D. It always creates inaccurate maps.
 12. What solution does the professor offer?
 - A. Remove all summary categories
 - B. Publish only detailed notes
 - C. Link detailed notes to the summary map
 - D. Ask planners to avoid local investigations
-

8.11 B3. Writing (21 分钟)

8.11.1 Task 1: Build a Sentence (4 分钟)

1. the volunteers / recorded / the time / at each location
2. if / the fountain / is unavailable / mark / it / clearly
3. the map / includes / places / where / people / can refill bottles
4. although / the route / was longer / it / had / more shade
5. the coordinator / asked / why / the hours / had changed
6. residents / can / report / problems / through / the website

8.11.2 Task 2: Write an Email (7 分钟)

You agreed to help with Saturday's Water Map Walk, but you have discovered that your phone camera does not work. Write an email to the event organizer. Explain what you can still contribute, ask for a practical solution, and confirm how you will prepare. Write **80-120 words**.

8.11.3 Task 3: Academic Discussion (10 分钟)

Professor Grant: Our city can improve public water access in one of two ways: install more fountains in busy areas or improve information about the fountains that already exist. Which should be the first priority?

Lina: More fountains should come first. A good map cannot help someone if there is no water source nearby.

Omar: Better information is the first step. The city may already have usable fountains that people simply do not know about.

Write a post of **100-140 words**. State a clear view, respond to the ideas above, and use one concrete example.

8.12 B4. Speaking (约 8 分钟)

8.12.1 Task 1: Listen and Repeat (7 提示)

1. "The map shows where people can refill a water bottle."
2. "Please record the time when you check each fountain."
3. "This path has more shade than the shorter route."
4. "A recent photograph can help us verify a location."
5. "The fountain was temporarily unavailable during our visit."
6. "We compared our notes before adding the new entry."
7. "Opening hours can affect whether a public service is truly accessible."

8.12.2 Task 2: Take an Interview (4 提示; 无准备时间)

Record answers of about 30-45 seconds each.

1. What information do you usually check before going to a new place? Why is it useful?
 2. Would you rather join a project that collects information or a project that solves a physical problem? Explain.
 3. Describe a situation in which two people noticed different details about the same event. How could they decide what to report?
 4. A city has limited money for public services. What principle should guide its first decision: serving the largest number of people, or helping those with the greatest need? Explain with an example.
-

8.13 答案、评分要点与复盘

8.14 一、客观题答案

8.14.1 模考 A

部分	Router	Core Module	Upper Module
Reading	1 A, 2 C, 3 B, 4 C, 5 B, 6 C	7 A, 8 A, 9 B, 10 B, 11 B, 12 C	7 A, 8 A, 9 B, 10 A, 11 B, 12 C
Listening	1 B, 2 A, 3 B, 4 C, 5 B, 6 A	7 A, 8 B, 9 B, 10 C, 11 B, 12 A	7 A, 8 B, 9 B, 10 B, 11 B, 12 A

A Writing—Build a Sentence 参考答案 (同义、语法正确的变体可得分)

1. The technician inspected the tagged tools after lunch.
2. Because the replacement part did not fit, the team changed its plan.
3. Students must reserve the bench online.
4. The guide explains how to test a battery.
5. Although the repair was inexpensive, it took patience.
6. The volunteers recorded what they had learned.

8.14.2 模考 B

部分	Router	Core Module	Upper Module
Reading	1 A, 2 A, 3 B, 4 C, 5 B, 6 A	7 A, 8 A, 9 B, 10 C, 11 B, 12 A	7 A, 8 A, 9 B, 10 B, 11 C, 12 A
Listening	1 A, 2 A, 3 B, 4 C, 5 B, 6 A	7 A, 8 A, 9 B, 10 C, 11 B, 12 A	7 A, 8 A, 9 B, 10 C, 11 B, 12 C

B Writing—Build a Sentence 参考答案

1. The volunteers recorded the time at each location.
2. If the fountain is unavailable, mark it clearly.
3. The map includes places where people can refill bottles.
4. Although the route was longer, it had more shade.
5. The coordinator asked why the hours had changed.
6. Residents can report problems through the website.

8.15 二、主观题教学评分量表

8.15.1 1. Build a Sentence (每句 0-2, 满分 12)

分数	判断
2	所有词均被合理使用; 句子语法完整、意思自然。
1	主旨可懂, 但有一个明显语法、词序或遗漏问题。
0	无法组成完整可理解的句子, 或关键成分缺失。

8.15.2 2. Email 与 Academic Discussion (每项 0-4)

分数	可观察标准
4	完整回应任务；立场/请求清楚；至少有一个具体细节或例子；组织连贯；语言错误极少且不妨碍理解。
3	回应主要要求并有合理发展；有少量不精确处或组织跳跃，但整体清楚。
2	回应不完整、理由泛泛或细节不足；错误多次影响清晰度。
1	严重偏题、内容极少，或语言难以理解。
0	空白、非英语，或与任务无关。

Email 必查点：说明情境/问题；提出明确请求；给出可行下一步；使用得体称呼与结束语。

Discussion 必查点：明确选择；回应至少一个同学观点；给出因果理由；提供具体例子，而不是只重复题干。

8.15.3 3. Listen and Repeat (每句 0-4)

分数	判断
4	关键信息、词序和语调基本完整；清晰易懂。
3	有小遗漏或替换，但句子核心意思完整。
2	遗漏/改变一个以上关键词，仍保留部分信息。
1	只复述零散词语或主要意思错误。
0	无回应或完全无关。

记录时圈出遗漏类型：内容词、功能词、词尾、连接/否定、整体流利度。不要只写“发音差”。

8.15.4 4. Take an Interview (每题 0-4)

分数	判断
4	直接回答；有清晰理由与具体例子；约 30-45 秒内连贯展开；即使停顿也能自我修复。
3	回答相关且有理由；细节或展开不足，偶有明显停顿。
2	只有观点或只有例子；组织松散，听者需猜测联系。
1	极短、偏题或难以理解。
0	无回应或无关回应。

8.16 三、模考后复盘页 (每套填写一次)

项目	记录
Reading Router / 6; 进入模块; 第二模块 / 6	
Listening Router / 6; 进入模块; 第二模块 / 6	
Writing: Sentence /12; Email /4;	
Discussion /4	
Speaking: Repeat 平均 /4; Interview 平均 /4	
最常见错因 (只选一个)	
证据 (题号、句子或录音时间点)	
下周 If-Then 规则	

教师提示: 若考生在 Router 表现不稳, 不要把 Upper Module 当作唯一目标; 先看其在 Core Module 是否能准确、按时、可解释地完成任务。若客观题不错但写作/口语低分, 优先训练“具体细节 + 明确连接”, 而不是机械增加词汇难度。

第九章 08 | 统一答案、解析与评分手册

用途：本手册统一 00—07 章的核对、错因记录与自评口径。题目、答案和示例均服务于本书原创训练；它不是 ETS 官方答案、官方评分量表、分数换算器或成绩预测工具。题型、时长、界面与正式评分以考试当期 ETS 说明为准。

9.1 一、先核对什么，后分析什么

9.1.1 1. 答案的使用顺序

1. **限时独立完成：**不得查词、暂停音频、询问 AI 或提前看解析。
2. **保留首答：**记录答案、用时和把握度（确定 / 犹豫 / 猜测），再核对答案。
3. **找可验证依据：**阅读标原文句、条件或逻辑词；听力标脚本时间点、说话功能或笔记关键词。
4. **给错因编码：**一题只选一个主因；若有次因，以主因 + 次因记录。
5. **闭卷重做：**24 小时后只重做同一题或同类新题；能说明依据才算真正改正。

“做对但猜的”“做对但不能解释”“输出后靠 AI 改对”都应进入错误库，标为 G（不稳定正确），不能按掌握处理。

9.1.2 2. 07 章答案完整性说明

07 章已给出模考 A、B 的阅读和听力 Router / Core / Upper 客观答案，以及两套 Build a Sentence 的参考句；请直接以该章的答案表核对，避免在本章重复整套答案。Email、Academic Discussion 和 Interview 是开放任务，**不存在唯一标准文本答案**；本章以下的“任务要点 + 分析量表”即为其必要的统一参考答案。Listen and Repeat 以原提示句及允许的自然微小语音差异为核对基准。

若发现“题号—答案表”不一致，先回到题干检查自己是否走对 Router 路径；若仍不一致，记录题号，不要擅自用某个选项替换答案表。

9.2 二、客观题统一复盘法

9.2.1 1. 每道题的四格证据卡

格子	必填内容	合格标准
题目要什么	主旨、细节、词义、目的、推断或回应	不把“问原因”答成“问结果”
正解证据	原文/脚本关键词、逻辑关系或完整条件	能定位到一处证据；推断题至少两处
排除理由	每个干扰项错在何处	至少写自己原先选择项为何错
下次动作	一个可执行动作	如“先圈 except”“听到 but 写箭头”，不是“更认真”

复盘句式：我选 __；正确为 __；题目问 __；证据是 __；我把 __ 误当成 __；下次__。

不要只抄译文或解析。复盘的目标是让下一次未见过的题也能使用同一个动作。

9.2.2 2. 客观题错因总码

代码	含义	可观察证据	纠正动作
V	词义、词性、词形或拼写	认识词根但填错形式/选错语境义	建“词块 + 词形 + 自造句”卡，隔日盲写
Q	审题错误	忽略 not / except / mainly / why	题干先圈限定词，再说出题型
E	证据缺失	因“听起来合理”选择，找不到出处	选项旁写证据行或脚本关键词
L	逻辑关系误读	把转折、因果、条件、比较读反	用 ↔ / → / 条件标出关系再选
S	范围、对象或时间偷换	忽略 only、例外、资格、日期	做 RDL 五格；回查所有限制
T	时间与节奏	会做但超时；卡在一题拖垮后文	首轮标记，按预算二轮回查
A	注意力/记忆断裂	听漏后反复回想，后续主线丢失	用？放下漏句，立刻追下一信息
G	不稳定正确	答对但靠猜或解释错误	按错题复习，不计入稳定正确率

同一道题有很多问题时，只问：**若只改一个动作，最可能把它做对的是哪一个？**那个就是主因。

9.3 三、阅读：答案如何被证明

9.3.1 1. Complete the Words (CTW) 核对规则

CTW 不是“写一个认识的单词”。一个答案必须同时通过下列五项：

核对项	要问的问题
已给字母	补入后是否与题面字母完全一致?
词性/句法	空位需要名词、动词、形容词还是副词? 时态、单复数正确吗?
搭配	前后词能否构成自然词块?
逻辑	是否符合 but / yet / because / therefore / rather 等关系?
通篇意义	代回全文后, 信息方向是否仍一致?

核对顺序为：**先句法，后搭配，再逻辑，最后拼写**。例如正确词义但少了复数、过去式或派生尾缀，仍应判错；仅凭首字母“猜像某词”也不可得分。

CTW 专用复盘标签：V-词性、V-词形、V-拼写、搭配、L-连接词、语篇预测。每次只积累完整词块，如 keep a distance，而非孤立地抄 distance。

9.3.2 2. RDL / RAP 阅读错因编码

代码	错误机制	典型误选	修复问题
R1	定位错位	找到同词但不是题干所问对象	“这句话回答题干的哪个词?”
R2	限制条件漏读	把一般规则当成例外规则	“谁、何时、是否、除外是什么?”
R3	指代或范围偷换	把 it / they / some 扩大为全部	“代词回指谁? 量词有多大?”
R4	过度推断	选项需要两步常识补充	“原文能否只走一步推出?”
R5	主旨层级错误	选细节、例子或过宽背景	“作者反复解释的中心问题是什么?”
R6	词义脱离语境	用词典首义替代此处功能	“删掉该词后，句间关系如何变化?”
R7	选项半真	前半符合，后半加了绝对化/新信息	“选项每个限定词都有出处吗?”
R8	时间失控	逐句翻译或反复回读	“先做能定位题；难题是否已标记?”

RDL 五格：对象 | 动作 | 时间 | 地点/渠道 | 限制/例外。选项须同时符合相关格子。
RAP 三问：段落功能是什么？例子服务什么观点？选项能否由文本直接或一步推出？

9.3.3 3. 阅读高、中、低表现示例

题干：公告说“工具可借七天，但电动工具无论何时借出均须周五 6 点前归还。”

表现	作答/解释	判定
低	“周一借就下周一还，因为写了七天。”	R2：忽略例外
中	“周五还，电动工具有特殊规定。”	答案正确，但证据不完整
高	“周五 6 点前还；even if 表明该例外覆盖七天的一般规则。”	正确且可迁移

阅读达标不只看正确率：随机抽三道已做题，能在 20 秒内说出“题型 + 证据 + 排除原误选理由”至少两道，才算这一组稳定。

9.4 四、听力：从“没听见”到可修复的错误

9.4.1 1. 听力错因编码

代码	错误机制	笔记/回听证据	下一次动作
L1	语音辨识失败	连读、弱读、词尾或数字听错	只截该意群做听辨—跟读—盲听
L2	话语功能误判	请求当陈述、建议当提问、许可当拒绝	先说“对方想我做什么”
L3	主线丢失	记了细节，答不出问题—变化—结果	笔记只写 问题 → 限制 → 方案 → 结果
L4	转折/因果反向	漏 but / actually / instead / so	转折写 ⇄，结果写 →
L5	细节张冠李戴	人、地点、时间或数字配错	数字后补用途，如 Fri=return
L6	选项诱导	选“听到过的词”而非回答题干的信息	先口头预判答案，再看选项
L7	注意力恢复失败	漏一句后持续追想，后文全丢	记？，不回头，追下一句
L8	推断越界	把可能、态度或例子夸大结论	只接受与主线一致的最小推断

9.4.2 2. 回听的三遍法

- 首遍（考试条件）**：只做题和留原始笔记，禁止暂停。
- 二遍（结构）**：暂停前不看稿；补出人物、目的、变化、结论，给失误编码。
- 三遍（证据）**：看脚本确认具体声学或逻辑触发点；只影子跟读错失意群，不把全文抄写一遍。
若二遍看稿前仍答不出主线，主因通常是 L3/L4，而不应一律写“词汇不足”。

9.4.3 3. 听力高、中、低表现示例

对话中工作人员说：通常只能前一天取设备，但因校外早间采访可改放安全柜，晚上邮件发送密码。

表现	回答/笔记	判定
低	选“明天下午到柜台取”，只记到通常规则	L4：漏转折后的最终方案
中	选“用安全柜”，但说不清为何例外	正确但结构不稳
高	课后赶不上 → 校外 8 点采访 → 例外：东门柜/邮件码；选安全柜	主线和证据完整

9.5 五、Build a Sentence: 核对与给分规则

9.5.1 1. 先判任务限制

- 若题目要求使用给定词块，必须使用**所有必需词块**，不得漏、重、随意替换。
- 允许的变体仅限不改变所给信息的自然标点、大小写、缩写展开及等价词序；不得凭空添加改变事实的新信息。
- 若题目明确允许同义改写，则以题干说明为准；本书 07 的参考答案亦允许语法正确、意义相同的合理变体。

9.5.2 2. 六项逐句核对单

- ☐ 主语—谓语完整
- ☐ 每个给定词块都被使用一次且位置合理
- ☐ 时态、单复数、主谓一致正确
- ☐ 从属连词、关系词和代词有清楚归属
- ☐ 固定搭配与词序自然
- ☐ 句意与题面信息一致，标点使结构清楚

两分钟返工法：先圈有限动词，再画主句；然后检查 *although* 不与 *but* 重叠、*because* 后有完整从句、疑问词宾语从句不用倒装。最后朗读一次，只改会影响语法或意思的地方。

9.5.3 3. 统一判分 (每句 0—2)

分数	判据
2	全部必需词块使用正确；结构完整、语法正确、意义自然。可有不影响正确性的标点微差。
1	主旨和大部分结构可懂，但有一处实质性错误：漏/误用一个关键块、词序或语法错误、关系不清。
0	关键主谓或词块缺失，无法组成可理解完整句，或改变核心关系。

高、中、低示例 (词块含 *although / the route / was longer / it / had / more shade*):

表现	输出	分数与原因
低	<i>Although the route longer, but it had more shade.</i>	0: 缺谓语且重复让步连接
中	<i>Although the route was longer it had more shade.</i>	1: 结构和意义对, 但从句后标点缺失; 训练中按本书标准修正
高	<i>Although the route was longer, it had more shade.</i>	2: 结构、意义、词块完整

9.6 六、Email 与 Academic Discussion: 分析量表

9.6.1 1. 写前的答案要点卡

任务	必须回答	不能用什么代替
Email	情境/问题、具体请求、可行下一步、得体称呼与收束	泛泛道歉、只复述题干、没有请求
Academic Discussion	明确立场、回应至少一个已有观点、理由链、具体例子	罗列两方、只说“我同意”、空泛大词

07 模考的开放题应按此卡核对: Email 必须让收件人知道你仍能贡献什么、你请求的实际解决方案以及你会如何准备; Discussion 必须在“增加设施”与“改善信息”之间作出清晰优先判断, 并回应 Lina 或 Omar 后给出具体情境。内容方向可以不同, 只要完整、合逻辑并符合题目。

9.6.2 2. 每项 0—4 的分析量表

分数	任务完成与发展	组织、语气与语言
4	所有关键要求直接完成; 目的/立场清楚; 理由有解释, 细节或例子具体且相关; Discussion 有真实回应而非点名。	信息顺序便于读者行动或理解; 语气匹配对象; 句法和用词稳定, 少量小错不影响理解。
3	完成主要要求; 有合理理由和细节, 但一处发展不足、回应较浅或部分信息不够具体。	整体清楚; 偶有跳跃、重复或不精确, 仍不妨碍沟通。
2	漏一项主要要求, 或观点/请求很模糊; 理由泛泛、例子不支持观点。	组织松散, 错误多次干扰理解或语气不够得体。
1	严重偏题、极短、几乎没有发展, 读者难以知道要做什么或作者主张什么。	大量语言问题使理解困难。
0	空白、非英语或无关内容。	—

不要用字数、复杂词数量或模板句数量直接定档。题面字数范围是完成任务的提醒, 不是分数本身。

9.6.3 3. 高、中、低表现示例

Email 情境：手机相机失灵，仍要参加活动。

水平	片段	为什么
低	<i>My camera is broken. Sorry. What should I do?</i>	问题有了，但无可贡献内容、无具体方案和准备承诺。
中	<i>My camera is not working, but I can record times and take notes. Could I work with someone who has a camera?</i>	请求明确，有贡献，但缺活动准备/后续安排。
高	<i>Although my phone camera has stopped working, I can record times, access conditions, and notes. Could you pair me with a volunteer who can take photographs? I will bring the route details and review the observation form before Saturday.</i>	问题、贡献、可执行请求、准备均完整且得体。

Discussion 情境：优先增加饮水设施还是改善现有信息。

水平	片段	为什么
低	<i>Both are important. We need fountains and maps.</i>	未选择优先项，无回应和论证。
中	<i>I agree with Omar that maps are useful because people need information.</i>	有立场和回应，但原因抽象，无例子或机制。
高	<i>I would first improve information about existing fountains. Lina is right that a map cannot replace a missing service; however, before funding construction, the city should learn which working fountains are unknown or inaccessible after building hours. For example, a map that shows a library fountain closes at 5 p.m. can direct evening commuters to an open location and reveal where a new fountain is truly needed.</i>	立场清楚，回应有让步，因果链和例子服务观点。

9.7 七、口语: Listen and Repeat 与 Interview 自评量表

9.7.1 1. Listen and Repeat (每句 0—4)

先对原句标出**内容词、否定、数字、比较、因果/条件词及词尾语法信息**；再听自己的录音。允许自然的口音、轻微连读差异和不改变意思的功能词弱化，不要求逐音模仿。

分数	信息准确	可懂度与流利度
4	核心信息、词序和逻辑完整；无改变意思的遗漏或替换。	意群自然、重音基本正确，陌生听者无需费力理解。
3	有一处小遗漏、替换或不自然停顿，但主干与事实关系完整。	整体清楚，偶有重音/词尾问题。
2	遗漏或改变多个关键词、逻辑词、数字或比较信息；仍保留部分原意。	断裂较多，但可辨出片段。
1	只剩零散词，主旨或关键关系改变。	长停顿或发音问题使理解困难。
0	无回应或与原句无关。	—

记录码：P-内容词、P-功能词、P-词尾、P-连接/否定、P-数字/比较、P-意群、P-重音/清晰度。

每句只挑最影响意义的一项改录；不要为追求零口音而牺牲连续表达。

水平	原句: <i>Opening hours can affect whether a public service is truly accessible.</i>	判定
低	<i>Opening hours are public service.</i>	1: 核心关系和 accessible 均丢失
中	<i>Opening hours can affect if a public service is accessible.</i>	3: 核心完整, truly 省略不改主旨
高	原意完整, OPENing HOURS / affect / truly acCESSible 重音清楚, 按意群说出	4

9.7.2 2. Take an Interview (每题 0—4)

评估的是可沟通的即时回答，不是背诵范文。建议先听完整录音，再看转写；转写只能帮助定位，不能替代回听。

分数	回答与发展	表达
4	直接回应；有理由和具体例子/情境；约 30—45 秒有连贯推进，能自然回应追问或自我修复。	节奏总体稳定，词汇足以表达意思；偶有停顿不妨碍理解。
3	相关且有理由；例子、取舍或展开稍少，偶有明显停顿。	大意清楚，组织基本可跟随。

分数	回答与发展	表达
2	只有立场或孤立例子；理由与结论连接弱，明显重复或跑题。	停顿/错误常使听者需猜关系。
1	极短、严重偏题或大多不可理解。	—
0	无回应或无关回应。	—

高、中、低示例 (问：去新地方前会查什么信息?)

水平	片段	判定
低	<i>I check the map. It is useful. Yes, map.</i>	1—2: 观点重复，无理由或情境。
中	<i>I usually check the map because I do not want to be late. Last month I went to a new clinic and checked the bus route.</i>	3: 相关、有理由和例子，但结果/联系较短。
高	<i>I first check the route and opening hours. A map tells me how to get there, but the hours prevent a wasted trip. For example, before visiting a clinic last month, I found that the bus arrived after the front desk closed, so I chose an earlier bus. That information saved both time and stress.</i>	4: 直接、理由、具体过程和结果完整。

9.8 八、阶段通关判定与补救

以下是本书训练的**学习门槛**，不是官方成绩或正式考试预测。必须同时满足“正确、限时、可解释”三项；单次偶然高分不通关。

阶段	通关证据	未通关时的最小补救
基础 (02)	连续两周达到 02 章的词汇、词形、句法、听辨与输出标准	每日保留 15 分钟做主因标签的微练习
阅读	CTW 达本章目标线；RDL/RAP 连续两次限时正确且能解释 80% 错/对题证据	R1/R2 多：五格定位；R4/R7 多：选项逐词审计；R8 多：两轮计时
听力	连续两周首听能复述主旨 + 2 个转折/关键点；错题均有 L1—L8 代码	L1 多：意群听辨；L3/L4 多：结构笔记；L6 多：先预判后选项

阶段	通关证据	未通关时的最小补救
写作	Sentence 至少 10/12; Email、Discussion 各至少两篇稳定 3/4, 且无漏答	先用要点卡补任务完成, 再改一个反复语法问题
口语	Repeat 连续两组平均至少 3/4; Interview 四题平均至少 3/4, 录音可指出证据	Repeat 只练最高频遗漏类型; Interview 用“观点—原因—例子—回扣”补最短板
模考 (07)	两套均按时完成; Router 和进入模块表现稳定; 每科错误能归类并在一周后重测改善	不因一次进入 Upper 就跳过 Core 弱项; 按模考复盘页只选一个主因训练一周

通关决定规则:

- 任何一项出现“高正确率但不能解释/超时/依赖提示”, 判为**待稳固**。
- 连续两次达到线且第二次换材料仍达到, 判为**通关**。
- 连续两次未达线, 暂停加难度, 执行上表补救后重测。

9.9 九、如何使用 ChatGPT: 辅助训练, 不替代官方评分

9.9.1 可以做

- 让它按本书原创题材生成**新的** CTW、RDL、听力脚本、Interview 追问或改写句, 不索要回忆题、泄题或受版权保护材料。
- 粘贴自己的首答, 请它按“题目要求—证据—错因代码—一个改进动作”反馈。
- 将自己的录音转写与原音频对照, 用它标出可能遗漏的关键词、意群或反复语法问题; 必须回听确认。
- 对 Email/Discussion 请求“是否漏答、请求是否可执行、例子是否支持立场”的检查, 而不是要求它代写最终答案。

9.9.2 不可以做

- 考试、诊断和模考过程中向 AI 查答案、润色、计时提示或估分。
- 把 AI 给出的分数、百分位、旧新版换算或“100+ 概率”当作官方成绩、报名依据或院校认可结果。
- 因 AI 转写误听而改掉自己录音中实际说对的内容; 先以原音频为准。
- 让 AI 直接重写整篇文章或整段口语后冒充自己的首答; 这会抹掉真正需要训练的错因。

9.9.3 可直接使用的提示词

以下是原创练习题、我的首答和我的自评。不要给总分预测, 不要重写全文。请按: 1) 是否完成任务; 2) 一个最影响理解的问题; 3) 对应本书错因代码; 4) 只需修改的 1—3 处; 5) 让我自己重说/重写的检查问题, 给出反馈。

以下是我对 Listen and Repeat 的原句、录音转写和我标出的停顿。请只列出可能遗漏或改变意思的关键词、词尾、否定、比较和逻辑词；提醒我回听核实。不要把 AI 判断说成官方评分。

AI 最有价值的角色是**陪练、提问者、转写辅助和反馈整理者**。正式成绩只由正式考试及其官方评分产生；本书所有自评只用于决定下一步训练。

第十章 09 | 错题本复盘表与打卡表

使用方法：复制需要的表格到笔记软件，或打印后手写。所有记录以“下一次怎样做对”为核心；每次复盘只选最值得修正的 1—3 项。

符号：V 完成 | △ 缩减完成 | × 未完成 | R 已复盘 | M 完成模考。

10.1 一、24 周总打卡表

周次	日期	词汇	阅读	听力	写作	口语	复盘/模考	本周状态
1	—							
2	—							
3	—							
4	—							
5	—							
6	—							
7	—							
8	—							
9	—							
10	—							
11	—							
12	—							
13	—							
14	—							
15	—							
16	—							
17	—							
18	—							
19	—							
20	—							
21	—							
22	—							
23	—							
24	—							

每周合格线：完成 5 天最小任务，且做 1 次周复盘。忙周允许全列填 △，但不可整周失联。

10.2 二、每日最小任务卡

正常日完成 A+B+C；时间不足时只完成 保底 B，并在第二天回到正常节奏。

模式	用时	今日任务	完成
A 正常	90—150 分钟	词汇 30 分钟；主攻科目 45—60 分钟；输出/订 正 20—30 分钟	☐
B 保底	25 分钟	复习 20 个词；精听/精读 1 小段；订正或录音 1 条	☐
C 加餐	30—60 分钟	限时短组、邮件/学术讨 论、口语短组或错题重做	☐

日期	主攻科目	A/B/C	今日可量化产出	最难点/明日第一步
_____	_____	_____	_____	_____

10.3 三、每周复盘表

项目	本周记录
周次 / 日期	第 ____ 周；—
学习天数 / 总时长	____ 天 / ____ 小时
完成得最好的 1 件事	
最大失分点（只写 1—3 个）	
错题根因	☐ 词义/知识 ☐ 审题 ☐ 定位 ☐ 推理 ☐ 时间 ☐ 粗心 ☐ 表达/发音
下周唯一优先级	
下周量化目标	例如：阅读 3 篇，正确率 ≥ 80%
需要删减/保护的安排	
下周第一天第一项任务	

10.4 四、词汇卡（每词一张）

正面	背面
单词 / 音标: _____	中文核心义: _____
词性: _____	常见搭配/词族: _____
我容易混淆的词: _____	自造托福语境句: _____
首次日期: /	复习: ☐ D1 ☐ D3 ☐ D7 ☐ D14 ☐ D30

通过标准：能说出核心义、辨认词性，并在句中正确使用；不会的词回到 D1。

10.5 五、阅读错题单

日期/篇章	题型	我的答案 → 正确答案	错因	原文证据 (句/段)	下次规则	重做
	☐ CTW ☐ ☐ RDL ☐ RAP; ☐ 词 形 ☐ 细节/目 的 ☐ 推断 ☐ 结构/主旨					☐ D1 ☐ D7

复盘句式：我错在 _____；原文的证据是 _____；下次遇到 _____，我先 _____。

10.6 六、听力错题单

日期/材料	场景	丢失点	错因	原句/信号词	笔记改法	重听
	☐ 选回应 ☐ ☐ 对话 ☐ 公告 ☐ 学术短讲	☐ 主旨 ☐ 结 构 ☐ 细节 ☐ 态度 ☐ 推断	☐ 词不熟 ☐ ☐ 连读 ☐ 笔记 ☐ 注意力 ☐ 推理			☐ D1 ☐ D7

精听流程：盲听答题 → 重听补笔记 → 对照文本标记连读/生词/信号词 → 复述 30 秒 → 7 天后盲听重做。

10.7 七、写作错误库

类别	原句/问题	修改后	可复用模板或规则	复查
☐ 审题 ☐ 结构 ☐ 论证 ☐ 衔接 ☐ 词汇 ☐ 语法 ☐ 拼写				☐ 下篇使用

写前 30 秒检查：题目要求了什么？每段是否只有一个中心？每个观点是否有解释或例子？
写后 2 分钟检查：主谓一致、时态、冠词、单复数、拼写、连接词是否准确。

10.8 八、口语录音对比表

日期/题目	第 1 录 (问题)	第 2 录 (修改)	只改一个重点	自评 /5 下次动作
	时长 ____ 秒； ☐ 空白 ☐ 结构 ☐ 发音 ☐ 语法 ☐ 内容	时长 ____ 秒；改 后亮点： ____		

对比顺序：先看是否答题和结构完整，再看例子/细节，最后才改发音与语法。每题最多重录 2 次，避免无效打磨。

10.9 九、《Sapiens》阅读日志

目标是稳定建立长文阅读与表达能力，不追求逐词翻译。每次读 15—30 分钟即可。

日期	章节/页码	一句主旨 (中文或英文)	读时	一个问题或联想	完成
			分钟		☐
			分钟		☐
			分钟		☐

每章结束：用 60—100 词英文或 3 句中文写出“作者观点—证据—我的看法”，不查词先完成。

10.10 十、模考分析表

模考编号 / 日期	R	L	S	W	内部记录 (不换算)	总用时	状态
M____ / _____							☐ 完整 ☐ 分科
模块	数据与现象		最大失分类型	根因	下次只改的动作		
阅读	正确 ____ / ____; 剩余 ____ 分钟						
听力	正确 ____ / ; 笔记情况:						
口语	题号 ; 最弱维度:						
写作	题目 ; 最弱维度:						

模考后优先级：先处理“高频且可训练”的失分点；不要因一次分数波动同时更换材料、方法和计划。

10.11 十一、阶段通关决策表

在本阶段最后一周填写。满足“硬指标”且复盘能说明错误原因，才进入下一阶段；否则延长 1 周并只补最短板。

阶段	硬指标 (连续 2 次或近 2 周)	我的数据	是否通过	下一步
基础期	学习 ≥5 天/周; 词汇复习完成率 ≥80%; 能完成各科保底任务		☐ 是 ☐ 否	
分项强化	阅读、听力正确率均 ≥75%; 写作/口语有稳定模板与错误库		☐ 是 ☐ 否	
套题整合	每周 ≥1 套分科练习; 计时下完成率 ≥90%; 复盘在 48 小时内		☐ 是 ☐ 否	
冲刺模考	两套压缩模考均达到个人训练目标; 作息与时间策略稳定		☐ 是 ☐ 否	

决策问题	结论
最短板是否明确且有下一步动作？	☐ 是 ☐ 否
低分来自能力问题还是偶发状态？ 证据：	
若不通关，补哪 1 项、补几天、用什么材料？	
下阶段开始日期：	

10.12 十二、在职繁忙周恢复协议

10.12.1 1. 触发条件

满足任一项即启动：连续 2 天无法正常学习；加班/出差预计 ≥3 天；睡眠不足或明显疲劳。

10.12.2 2. 繁忙周规则

原则	执行方式
不补债	不追赶漏掉的课表；只保留当天 25 分钟保底任务。
不断链	每天做 1 项：20 词复习、1 段精听、1 段精读、1 条口语录音，任选其一。
保留输出	周内至少 1 次 60 秒口语或 1 个写作段落，维持表达手感。
周末复位	只背单词，不排托福任务；错题归类与下周排程放在周五的 20 分钟内完成，不强行做整套模考。

10.12.3 3. 恢复日安排（繁忙结束后的第 1 天）

顺序	任务	用时
1	查看错题本，只选 1 个最高频问题	10 分钟
2	完成主攻科目 1 个小单元	40 分钟
3	完成 1 次输出（口语录音或写作段）	20 分钟
4	写下未来 3 天的最小任务	10 分钟

恢复宣言：我不需要补完过去的一周；我只需要完成今天的下一小步。

第十一章 资料来源与更新说明

适用日期：截至 2026-08-04。本书用于学习规划与能力训练，不替代 ETS 的考试规则、报名页面或正式成绩解释。考试结构、题型、时长、政策及评分信息可能调整，**一律以 ETS 最新官方信息为准。**

11.1 一、资料来源与事实层级

本书将信息按可靠性和用途分层；出现不一致时，按下列优先级采用。

层级	来源	可用于什么	使用原则
A：一手官方事实	ETS 2026 Test Specifications、ETS 评分说明、ETS 官方样题、Official Guide (OG) 及 ETS 官网	考试题型、任务要求、计时、评分维度、官方示例与政策	唯一可作为“考试规定/评分规则”依据的来源
B：训练方法	Delta 等备考材料的训练思想与本书的练习设计	技能拆解、限时训练、错题复盘、学习节奏	属于教学建议，不等同于 ETS 规定，也不保证原题命中
C：非官方趋势	近期考生公开经验、课堂观察及社群讨论	发现可能值得加强的能力点、补充练习主题	只作低置信度趋势参考；不可写成题型变化、必考内容或评分规则
D：辅助阅读	<i>Sapiens: A Brief History of Humankind</i> 等公开出版物	阅读耐力、长难句、论证结构和学术话题词汇训练	与正式考试无直接对应关系；不代表 ETS 命题范围

11.1.1 A 层：ETS 官方材料

建议优先核对以下公开入口：

- ETS TOEFL iBT Test Content (当前考试内容入口)：<https://www.ets.org/toefl/test-takers/ibt/about/content.html>
- ETS TOEFL iBT 2026 更新说明 (ETS 地域官方站点；与当期 Specifications 交叉核对)：<https://www.in.ets.org/toefl/test-takers/ibt/upcoming-updates-jan-2026.html>
- ETS TOEFL iBT 官方页面 (含报名与考试信息入口)：<https://www.ets.org/toefl/test-takers/ibt.html>
- ETS TOEFL iBT 官方备考资源：<https://www.ets.org/toefl/test-takers/ibt/prepare.html>

- ETS TOEFL iBT Test Specifications (2026, PDF; 请以 Test Content 或 ETS 站内当期版本为准): <https://www.ets.org/pdfs/toefl/toefl-ibt-test-specifications-2026.pdf>
- ETS TOEFL iBT 成绩说明 (含成绩显示入口): <https://www.ets.org/toefl/test-takers/ibt/scores/understand-scores.html>
- ETS TOEFL iBT 官方样题与练习入口: <https://www.ets.org/toefl/test-takers/ibt/prepare/practice-tests.html>
- ETS *The Official Guide to the TOEFL iBT Test* (OG) 及官方商店/备考页所列版本。

如某个 PDF 链接改版、迁移或失效, 请从 ETS 的 Test Content 或 TOEFL iBT 备考页进入, 不以转载版本替代。涉及评分时, 优先阅读 ETS 当期 Test Specifications、评分说明及配套官方示例; 本书中的释义仅为学习辅助。

OG 是优先使用的官方教材之一, 但**不能完全替代**当期 Test Specifications、ETS 官网规则和更新后的官方样题: OG 的版本、题量或界面说明可能早于最新考试安排。本书同样**不能完全替代 OG**或任何当期 ETS 官方材料。备考时应将当前 OG 与上述当期官方页面交叉核对, 而不是只凭一本教材判断题型、时长或评分。

11.1.2 计分、未计分与呈现数的口径

引用题量前, 必须先写明口径。ETS 2026 Test Specifications 将 Reading 和 Listening 的 **35 个计分项目**与可能出现的未计分项目区分开来; 未计分项目不进入分数, 但会影响某次考试实际呈现的项目总数。因此, “35 个计分项目”不能改写为每次都只会看到 35 题, 也不能把某次可能的实际呈现总数当作计分题量或固定考试范围。本书中的题量、压缩卷和模考题数另属教学设计, 绝不用于推断正式题数、路由或成绩。

同样, 2026 年 1 月 21 日起的新版成绩以 1-6 分制呈现; 过渡期成绩单同时列出 ETS 提供的旧版 0-120 对照显示。两种显示均以 ETS 当期成绩说明为准, 不能由本书正确率、内部量表或非官方表格自行换算。

11.1.3 B 层: Delta (仅可选训练补充)

Delta 类备考材料是**可选训练补充**, 在本书中仅被用作训练框架的参考, 例如: 分题型计时、从易到难的梯度练习、错误归因、输出任务的模板化复盘与完整模考后的数据记录。这些方法帮助建立可重复的训练闭环, 但不是 ETS 官方教材, 也不表示 ETS 认可任何具体模板、技巧或预测结论; 不购买或不使用 Delta 不影响按本书和 ETS 官方材料完成训练。本书不复制、替代或冒充 Delta。

11.1.4 C 层: 近期面经与非官方趋势

近期面经只能用于提示“某类能力或话题可额外练习”, 例如综合信息、学术讲座理解或独立表达的覆盖面。它们可能存在记忆偏差、样本偏差、跨考区差异和过期风险, 不能据此推断原题、题库、固定题目、必考话题或官方改革。学习时应回到 A 层材料验证题型与评分要求。

本书**不链接、不收集、不整理、不购买、不传播**盗版教材、受版权保护的试题内容、所谓“真题回忆库/机经题库”、泄题或任何绕过考试公平性的材料。也不鼓励背诵声称来自真实考试的答案。

11.1.5 D 层: Sapiens 辅助阅读

《人类简史》(*Sapiens: A Brief History of Humankind*) 可作为非考试材料, 用于练习说明文/论说文阅读、段落主旨、论证关系、词汇在语境中的理解和持续阅读能力。应通过合法购买、图书馆借阅或授权电子版获取; 摘录仅限必要的短引用并注明出处, 不复制或分发全文。该书不属于 ETS 官方指定材料, 不能用来预测考试内容。

11.2 二、版权与合规原则

1. **官方材料**: 仅引用 ETS 公开页面、公开样题或已合法取得的教材; 保留来源链接、版本和访问日期。不得把付费材料扫描、复制、上传或大段转载。
2. **第三方教材与书籍**: 尊重 Delta、Sapiens 及其他作者/出版社的版权。只概述训练理念或写出自主练习, 不替代原书内容; 需要原文时使用短引并标明作者、书名、版本/页码和版权归属。
3. **考生经验**: 仅以匿名、概括的能力观察呈现, 不转载可识别个人信息, 不传播记忆题干、答案或未经授权的考试内容。
4. **本书原创内容**: 练习题、范例和讲解应自行编写; 如改编公开材料, 应明确“改编自”、保留原出处, 并避免造成 ETS 背书或隶属关系的误解。
5. **争议处理**: 发现疑似侵权、泄题、过时或与 ETS 相冲突的内容时, 立即下线/删除相关内容, 记录原因, 并以官方来源更正。

11.3 三、更新机制

11.3.1 更新触发条件

- ETS 发布或修订 2026 Test Specifications、评分说明、样题、考试政策、报名流程或考试形式;
- ETS 官网更新页出现与本书当前描述不一致的内容;
- 官方链接失效、重定向或新版 OG/官方练习替换旧版;
- 非官方趋势被更多可靠公开信息否定、已过期, 或可能误导为“题库预测”;
- 收到版权、准确性或无障碍方面的有效反馈。

11.3.2 每月更新检查表

每月首个工作周执行一次; 重大官方更新出现时不等待月度检查。

- ☐ 打开 ETS 2026 更新页, 记录页面发布日期/更新日期及变更摘要。
- ☐ 核对当期 Test Specifications PDF 的版本、发布日期、题型、时长、任务说明与评分表述。
- ☐ 核对 ETS TOEFL iBT 官网的报名、考试形式、成绩与政策页面; 删除已失效链接。
- ☐ 查看官方样题、官方练习与 OG 是否有新版本或替代页面。
- ☐ 将本书所有“考试事实”逐条回链至 A 层来源; 不能核实的内容降级为训练建议或删除。
- ☐ 审核 Delta 相关表述, 确保仅描述训练方法, 未暗示官方认可或命题预测。
- ☐ 审核近期面经内容: 删除题干、答案、题库导向表述和过期趋势, 仅保留非预测性的能力建议。
- ☐ 审核 Sapiens 与其他辅助材料的引用长度、出处和授权状态。
- ☐ 记录本次检查日期、检查人、变更文件、来源 URL、版本号及未决事项。

11.3.3 版本记录格式

在本书修订记录中使用：YYYY-MM-DD | 核对范围 | 依据（ETS URL/版本） | 修改摘要 | 复核人。若无内容变化，也应记录“已核对，无实质更新”，以便读者判断信息时效。

11.4 四、读者使用提示

若本书与 ETS 官网、准考证、报名系统或考场通知存在差异，请立即停止依据本书作决定，并以 ETS 的最新通知为准。学习策略可以灵活调整；考试规则和评分解释不可由非官方材料替代。

第十二章 《Sapiens》辅助阅读与迁移训练

12.1 先读这一页

本章面向阅读英文版 *Sapiens* 时大约能理解 50%—60% 的学习者。目标不是“逐句翻译完一本书”，而是用一本高质量非虚构读物，稳定提升处理学术性英语、整合论证和表达观点的能力。

**** 重要边界：**原著不能替代托福专项训练。****** 它不能系统覆盖托福阅读的题型与限时要求，不能提供校园场景听力、Write an Email / Write for an Academic Discussion 的任务材料或口语评分反馈。请把它作为每周约 1 小时的“深度输入与迁移材料”，并继续完成 03—07 章中的专项练习、计时套题和模考。

**** 适用前提：******** 当前阅读理解约 50%—60% 时最合适；若低于 50%，先补基础词汇和句子骨架；若高于 60%，可适当提高摘要与复述的压缩度，但仍不增加查词量。

本路线不依赖具体页码、版本、章节编号或精装/平装排版。每周只需从当前阅读位置选择一小段完整论述（通常为数个自然段），并用自己的笔记完成任务；不要追求固定进度。

12.2 一、总原则：读懂主张，而非认识每个词

12.2.1 1. 你的“可理解”标准

一段材料达到以下标准即可进入下一段：

- 能用中文或简单英文说出作者主要在解释什么；
- 能指出至少一个理由、例子或因果链；
- 能区分“作者的陈述”和“你自己的评价”；
- 遇到少量生词、修辞或细节不懂时，仍能保持整体理解。

不必追求 100% 理解。对目前 50%—60% 理解度的学习者，先把**整体论证理解**提升到 70%—80%，再逐步提高语言精度，效率远高于逐词查译。

12.2.2 2. 每周固定五步法（约 40 分钟，拆成周一、周三各 20 分钟）

周末不排托福任务，所以这套五步法不再放在周日一次做完，而是拆到工作日两个格子里：

周一做第 1—3 步（预判、泛读、精读），**周三做第 4—5 步**（输出、迁移与复盘）。

拆开做时务必在周一留下精读卡，否则周三无从输出。

步骤	时间	做什么	留下什么
1. 预判	3 分钟	看标题、首尾句和段落连接词；猜主题、作者可能的主张	1 个预测问题
2. 泛读	7 分钟	连续读完选段，不停下来查词；标记 ?、!、→	一句主旨
3. 精读	10 分钟	处理关键词、1—2 个长句、论证关系	精读卡
4. 输出	12 分钟	英文摘要、口头复述、观点—证据—限制	3 种输出
5. 迁移与复盘	8 分钟	做一个托福微任务，记日志并决定下周策略	日志 1 条

选段长度要跟着时间一起缩短：原设计按 60 分钟配比的选段，放进 40 分钟里只会让第 4、5 步被挤掉。

时间不足时，绝不压缩第 4、5 步；宁可缩短阅读选段。没有输出与迁移的阅读，容易变成“读过却不会用”。

12.2.3 3. 查词上限与决策规则

每周查词**最多 8 个**；若选段较短，可降至 5 个。优先查：

- 1. 反复出现、决定论点的名词/动词；
- 2. 转折、因果、让步等逻辑词；
- 3. 使长句骨架无法成立的词；
- 4. 你想在托福写作或口语中复用的学术表达。

不查：只影响画面感的形容词、可由上下文猜出的普通词、专有名词细节、只出现一次且不影响主旨的词。

每个查过的词只记四项：英文释义或中文核心义 | 本段作用 | 自造短句 | 是否值得复习。禁止把整段丢进翻译软件后抄译；如需核对，只在自己先概括后核对一个关键句。**查词的目标是支撑理解，不是把每个生词都清空。**

12.3 二、精读工具箱

12.3.1 1. 长句分析：先骨架，后枝叶

每周选 **1—2 句**真正阻碍理解的长句。按以下顺序处理：

- 1. **找主干**：圈出谓语，问“谁/什么做了什么”；先写 主语 + 动词 + 核心宾语/补语。
- 2. **切成块**：用 / 切分从句、介词短语、分词短语和插入语。
- 3. **标关系**：标 原因、结果、让步、条件、限定、例子中的一个或多个。
- 4. **还原含义**：先用简短中文说逻辑，再用自己的简单英文改写。
- 5. **回到段落**：写这句话如何服务于段落主旨，而不是孤立翻译。

原创示范

下面的句子为本章原创示范，不是原著引文：

Although a shared story cannot be touched like a tool, it can guide thousands of strangers to act as if they already trust one another.

分析：

[Although a shared story cannot be touched like a tool], /
it can guide [thousands of strangers] /
to act [as if they already trust one another].

主干：it can guide strangers to act

让步：故事不像工具那样可触摸

结果/方式：陌生人表现得仿佛彼此已经信任

简单改写：A story is not a physical object, but it can make many strangers cooperate.

段落功能：用“不可触摸但有效”的对比，支持抽象观念能够影响群体协作这一主张。

12.3.2 2. 英文摘要：少而准

每周写 **45—70 词** 英文摘要，限时 6 分钟。必须包含：

- The passage argues that...：主张；
- It explains this by...：一条理由或过程；
- For example/As a result...：一个证据、例子或结果；
- 不加入你尚未标明的个人观点。

摘要必须是**基于理解的重述**，不能直接摘抄原文句子或仅替换少量词汇。

可用句架：

The passage argues that _____.

It explains that _____ leads to/is shaped by _____.

The author supports this idea with _____.

Overall, the point is that _____.

检查：摘要不是按段落顺序改写，而是“主张—支撑—结论”的压缩。第一阶段允许语法不完美；第二阶段开始重点检查主谓一致、时态和连接词。

12.3.3 3. 口头复述：从“看着会”到“说得出口”

合上书，用 **60—90 秒** 录音或对着计时器复述。使用 4 格提纲，不背原句：

Topic → Main claim → Two supports → Why it matters / My question

复述三轮法：

- 第一轮：可看关键词，追求完整；
- 第二轮：只看 4 格提纲，追求逻辑连接；
- 第三轮：不看笔记，压缩到 45 秒，追求清楚。

听回放时只选**一个问题**修正，例如总是停顿、缺少因果词、把事实和评价混在一起。不要每周全面纠错而失去流畅度。

12.3.4 4. 观点—证据—限制 (V-E-L)

非虚构阅读的关键不只是“作者说了什么”，还包括“凭什么这样说、哪里可能不够”。每周完成一张 V-E-L 卡：

项目	写法
观点 View	作者在本段要你接受的中心判断是什么？
证据 Evidence	他使用了何种支持：例子、比较、因果推理、历史材料、定义还是推测？
限制 Limitation	证据是否只说明相关性？是否存在其他解释、范围限制、证据不足或价值判断？

限制不是反驳作者人格，也不是为反对而反对。可用温和句式：This explanation is persuasive, but it may not fully account for... 或 The example illustrates the claim; however, it does not prove that...

V-E-L 原创练习

阅读下面原创短文，再完成问题：

A city introduced a car-free hour every Friday. After two months, noise levels near the central market fell, and more people reported walking there. The mayor concluded that the policy had made the city healthier. However, the reports were collected during mild spring weather, when walking usually becomes more attractive.

1. 写出市长的观点（不超过 15 个英文词）。
2. 写出两项证据。
3. 写出一个限制，并说明它为什么削弱结论。
4. 用 Although... 或 However... 写一句平衡评价。

参考方向：限制是季节/天气这一混杂因素；“更多人步行”不必然等于“政策使城市更健康”。

12.4 三、24 周路线：每周约 1 小时

每周都执行五步法；表格只规定当周的**额外重点**。阅读材料始终从你的当前进度选择完整小论述，读不完可下周继续，切勿为了赶表跳过输出。

12.4.1 第一阶段：建立不断读的能力（第 1—6 周）

通关目标：能在不频繁查词的情况下抓住段落主旨；完成 45 词左右摘要和 60 秒复述。

周	阅读与精读重点	输出/迁移任务
1	建立基线：选一段，先不查词泛读；标出你能识别的连接词	记录理解率（估计即可）；写 3 句英文主旨

周	阅读与精读重点	输出/迁移任务
2	练首句、尾句和重复名词, 判断段落中心	45 词摘要; 找出 2 个托福阅读常见逻辑词并造句
3	只查最影响主旨的 5 个词	60 秒口头复述; 把其中一个词用于 Take an Interview 式回答
4	分析 1 个长句, 只写主干与关系	完成 V-E-L 卡; 用 because/therefore 改写因果
5	关注比较、分类、定义等说明方式	写“作者如何组织本段”的 3 句说明; 做 1 道阅读事实/句子简化微题
6	回读本阶段任意两段, 比较论证	90 秒复述; 阶段自测 (见第六部分)

12.4.2 第二阶段: 看清论证与句法 (第 7—12 周)

通关目标: 能处理 2 个长句, 分辨事实、推断与评价; 英文摘要达到 55—70 词。

周	阅读与精读重点	输出/迁移任务
7	标注主张句与支持句, 用 C (claim) /S (support) 标记	摘要中使用 argues, suggests, supports
8	识别因果链: 原因 → 机制 → 结果	画三箭头因果图; 转述为托福听力笔记式关键词
9	处理让步、转折、限定 (although, while, rather than 等)	写 2 句“表面观点—真实立场”解释
10	分析 2 个长句: 一个从句链、一个分词/介词短语链	各写一条简单英文改写, 避免逐字翻译
11	区分子例与结论, 问“例子证明到哪一步?”	V-E-L 卡; 写一题阅读修辞目的微题并自答
12	选本阶段最难一段, 限时完成全流程	70 词摘要 + 90 秒复述; 阶段自测

12.4.3 第三阶段: 形成批判性输出 (第 13—18 周)

通关目标: 能评价论证限制, 围绕同一主题说出自己的立场, 并把材料转化为口笔语素材。

周	阅读与精读重点	输出/迁移任务
13	关注作者使用的证据类型	把证据归为事实、例子、比较或推理; 说明哪项最强
14	寻找隐含前提: 结论成立还需要什么条件?	写 2 条 This assumes that...
15	分辨相关与因果、个例与普遍结论	完成 V-E-L 卡; 写一个 80 词批判回应

周	阅读与精读重点	输出/迁移任务
16	从不同段落连接同一概念	制作“概念—两个支撑—疑问”图；练 Academic Discussion 的观点—理由—例子结构
17	把一个抽象议题连接到校园或日常场景	口语 45 秒：Do you agree that...?, 给出理由和例子
18	精读一段后，脱离文本做小型论证	写 100 词立场段：主张、理由、例子、让步；阶段自测

12.4.4 第四阶段：迁移到托福任务（第 19—24 周）

通关目标：能在限时下提炼材料、清楚表达，并知道何时回到托福专项练习。

周	阅读与精读重点	输出/迁移任务
19	以 12 分钟泛读模拟阅读节奏，后精读核查	自拟 1 道主旨题、1 道推断题并写依据
20	用段落结构做“阅读笔记”	将笔记压缩为 5—7 个关键词，进行 60 秒讲解
21	把阅读观点改造成采访话题	用观点作题干，完成一组 4 个 Take an Interview 式回答；每题加入一个具体细节
22	选择可争论观点，练平衡表达	写一段 Academic Discussion 训练回应；至少用一个让步和一个具体例子
23	连续完成两段小论述，控制查词总数不超过 8 个	两段合并摘要（90 词）+ 2 分钟复述，比较它们的论证方式
24	选择最具代表性的材料作为结业任务	完整通关测验、复盘 24 周日志，并制定专项补弱计划

12.5 四、四类托福迁移任务

12.5.1 1. 阅读：练“定位与关系”，不把本书当题库

每周任选一项，限时 5—8 分钟：

- **主旨题：**What is the main purpose of this passage? 用一句英文回答，并列出两条段内依据。
- **推断题：**What can be inferred about...? 写出推断、文本线索和“不可以推断”的边界。
- **句子简化题：**将一个长句改成不超过 20 词的简单英文，保留核心关系。
- **篇章结构题：**用 definition → explanation → example → implication 等标签给段落排序。

随后仍要使用托福真题/专项材料练正式题型、限时和干扰项判断。

12.5.2 2. 听力：把“阅读笔记法”迁移到语音输入

本书本身主要服务阅读。若有合法的音频版本，可只选自己已读过的短段进行**核对型听读**：先读后听，记录重音词和连接词，不做听写竞赛。没有音频时，用自己的 60—90 秒复述录音训练：

- 只记名词、动词、逻辑箭头，不写完整句；
- 听完后根据笔记复述；
- 对照原录音，检查是否漏掉主张、转折或结果。

真正的托福听力能力仍需通过校园对话、学术讲座、题目与错题分析建立。

12.5.3 3. 写作：从材料复述走向可评分论证

本书可供练习“组织观点”和“使用例子”，但不是 Write for an Academic Discussion 的官方材料或正式题面。采用三层递进：

1. **摘要层 (45—70 词)**：不评价，只准确转述；
2. **讨论回应层 (80—100 词训练)**：先写一个清晰立场，再用 because / however 展开；
3. **延展层 (120—150 词训练)**：针对一个相关的普适问题写 claim → reason → example → concession → conclusion。

原创示范题：Should societies rely more on shared traditions or on written rules to encourage cooperation?

写作骨架：

I believe _____ should play the larger role.

First, _____. For example, _____.

Admittedly, _____.

However, _____.

Therefore, _____.

不要把书中的具体表述搬进作文；只迁移思考框架，并使用自己的例子。

12.5.4 4. 口语：从复述到回应

每周一次 45—60 秒 Take an Interview 式自我表达：

Question: Is it better for a community to preserve old habits or to adapt quickly?

Answer frame:

My view is _____.

The main reason is _____.

For instance, _____.

This shows that _____.

再从选段中抽一句，做一次 Listen and Repeat 训练：先由 TTS 自然朗读一句，再立即复述；之后只核对内容词、否定词、数字（如有）和意群。重点是清楚复现信息，不把阅读材料误当成正式口语配对材料。

12.6 五、当周完整示范（原创材料）

以下材料只用于练习，非 *Sapiens* 原文或改写。

Many communities keep public records not merely to preserve facts, but to make future cooperation easier. When people can check who made an agreement and when it was made, they need to rely less on personal memory. Yet records do not remove every conflict: a written rule may still be interpreted differently by different groups.

12.6.1 按五步法完成

1. **预判 (5 分钟内)**: 标题可自拟为 Records and Cooperation. 预测问题: How can records help cooperation, and what problem remains?
2. **泛读主旨**: 公共记录能降低合作对个人记忆的依赖，但不能消除规则解释上的冲突。
3. **精读**:
 - 关键词可查: preserve, rely on, interpret, 其余从上下文推断。
 - 长句骨架: When people can check..., they need to rely less on...
 - 关系: 条件 → 结果; Yet 引出限制。
4. **英文摘要示范 (55 词)**:
The passage argues that public records can support cooperation by making agreements.
5. **V-E-L**:
 - View: 记录促进合作。
 - Evidence: 给出“核查协议 → 减少依赖记忆”的机制。
 - Limitation: 不同群体仍可能对规则有不同解释。

12.6.2 迁移练习

1. **阅读推断**: 为什么作者提到个人记忆? 用一句英文作答并指出线索。
2. **Listen and Repeat**: 将 “When people can check who made an agreement, they need to rely less on personal memory.” 交给 TTS 朗读一次，随后立即复述；核对内容词和因果关系。
3. **Academic Discussion 训练回应**: Are written rules more useful than personal trust in group projects? 写 120—150 词，至少有一个让步。
4. **长句改写**: 将 Yet... 句改为两句简单英文，保持转折。

12.7 六、分阶段通关与纠偏

每 6 周用当周的一段新材料进行一次通关，不查词时间不超过 12 分钟，整个测验不超过 45 分钟。以下标准用于判断是否进入下一阶段；未达到则用下一周重复薄弱技能，不必重读所有内容。

阶段	通关任务	达标线	常见问题与修正
1 (第 6 周)	主旨、5 词以内查词、45 词摘要、60 秒复述	主旨基本正确；复述含主张和一项支撑	逐词读：将查词降到 5 个，并先写预测
2 (第 12 周)	2 个长句、70 词摘要、V-E-L	长句能写出主干；能区分主张和例子	长句迷失：先遮住修饰语，只找谓语
3 (第 18 周)	100 词回应、45 秒立场口语	有明确理由、例子和一个限制	只会复述：强制加入 However 后的一句
4 (第 24 周)	两段比较、90 词摘要、2 分钟复述、一个托福微任务	结构完整、关键词准确、能说明迁移关系	表达零散：先用 4 格/5 格提纲再开口

升级规则：连续两次达标，才把查词上限从 8 降到 6，或把口头复述延长 30 秒。

降载规则：若一周泛读后完全说不出主旨，把下周材料缩短一半；先恢复“预测—主旨—复述”，不要增加查词。

12.8 七、可复制的每周日志模板

日期/周次：

本周选段主题（不写页码也可）：

1. 预判

我预测作者会讨论：

读前问题：

2. 泛读

一句主旨（中文或英文）：

我最确定的两条信息：

仍不确定的地方：

3. 精读

查词（最多 8 个）：

1) 词 | 核心义 | 本段作用 | 自造短句

2)

长句 A 主干：

切分/逻辑关系：

简单英文改写：

它服务的段落功能：

4. 输出

英文摘要（45—70 词）：

口头复述时长：_____ 秒

本次只修正的一个问题：

V-E-L

View:

Evidence:

Limitation:

5. 托福迁移

本周选择：阅读 / 听力 / 写作 / 口语

完成的微任务：

我在正式托福专项中还需练习：

6. 复盘

实际用时：_____ 分钟

自评理解率：_____ %

下周只保留的一项改进：

12.9 结语：让一本书成为方法训练场

24 周后，你应获得的是一套可迁移流程：先预测、连续阅读、有限查词、拆解逻辑、压缩摘要、开口复述、评价证据，再把能力带回托福专项。继续阅读本书当然有价值；但若目标是托福分数，请以专项材料的题型训练、限时练习、错题复盘和模考反馈为主轴，把本章作为稳定而有深度的辅助训练。

第十三章 12 | ChatGPT 口语陪练提示词与记录表

本章把 AI 用作**陪练、计时员、追问者和反馈者**，而不是答案代写工具。每次练习优先使用语音输入或上传自己的录音；没有语音时，可粘贴逐字稿，但发音反馈只能基于你提供的音频，不能凭文字臆测。

2026 正式口语包含 7 个 Listen and Repeat 提示与 4 个 Take an Interview 提示，共 11 个提示、8 分钟（以 ETS 当期说明为准）。本章的自由对话、追问、二录和额外题目都是训练设计，不是正式考试流程或题量。

隐私提醒：不要上传护照号、住址、电话号码、学校/公司内部信息、未公开考试材料或他人的录音。用于练习的个人经历请匿名化；上传音频前确认平台的隐私设置、保存期限和数据使用规则。

13.1 一、通用启动提示词（每次新对话先复制）

你是我的英语口语陪练，不是答案代写者，也不是官方评分员。请严格遵守：

0. 如果我明确指定练习模式，请直接进入对应流程；如果没有，再先问我今天要练什么。
 1. 全程以英语互动；只有反馈、规则说明和我明确要求时使用中文。
 2. 先让我说/录音，再反馈；绝不在我作答前给出完整示范答案、完整采访题列表或可直接背诵的。
 3. 需要提问时一次只显示当前这一题。我的回答结束后，先自然追问 1—2 个问题，再进入下一题。
 4. 追问必须基于我刚才说过的具体信息，优先问原因、例子、细节、比较或结果；不要机械地重复。
 5. 我要求限时时，充当严格计时员：明确准备时间和作答时间；倒计时结束立即说 “Time is up.”
 6. 我提供录音后，反馈仅列三项最高优先级问题，按“问题—证据—可执行改法”格式写。证据必
 7. 发音和意群反馈只能依据音频；若只有文本，只能反馈语法、词汇、组织和可能的意群建议，不
 8. 不要虚构 TOEFL、ETS 或任何机构的官方分数、评分报告或“已达到某分”。如需估计，只能写
 9. 每次反馈后要求我针对三项问题进行二次录音；我重录后比较前后证据，确认改进或指出仍需调
 10. 维护本对话中的错误库：只记录与练习直接相关、最少必要的信息，包括日期、任务、问题类
- 先问我今天要练：自由对话、发音/意群、Listen and Repeat、Take an Interview，还是限时整合
-

13.2 二、四种可直接使用的练法

13.2.1 1. 自由对话：把“能聊下去”练成习惯

今天做 12 分钟自由对话。主题是：【填主题，如“是否应该限制城市汽车使用”】。

规则：只问一个问题；等待我的语音回答；围绕我的具体内容自然追问 1—2 次；必要时礼貌要求第 10 分钟时提醒我总结观点；第 12 分钟说“Time is up.”。

结束后仅反馈最影响清晰度、自然度或准确度的三项问题，并为每项给出我的原话/时间戳证据和——现在只问第一个问题。

可用主题：一次改变想法的经历；线上学习是否优于线下学习；城市应优先投资公共交通还是公园；一项你愿意长期坚持的习惯；科技如何改变人际关系。

13.2.2 2. 发音与意群：短句、证据、重录

先自行准备 1 段 40—70 词材料（自己的答案或公开材料的短句），**不要一次练长篇文章。**

我将上传一段英语录音和逐字稿。请做发音与意群陪练：

1. 先完整听完，不在我录音前示范或纠正。
2. 只选三个最高优先问题，优先级依次为：影响理解的发音/重音 > 断句与意群 > 语调与流畅度
3. 每项必须提供可听见的证据（时间戳 + 我说的词/句）；若音频不清楚，明确写“无法确认”，不
4. 每项给一个最小练习：标出重音（大写）、意群用 / 分隔，并给一个不超过 15 词的跟读片段；
5. 要求我按你的标记录制二次版本。收到后用“改善/仍需练习/无法判断”逐项对照。

我的逐字稿如下：

【粘贴逐字稿】

13.2.3 3. Listen and Repeat: 听辨后再模仿

使用你有权使用的**短音频**（建议 8—15 秒）。AI 不应假装听过未提供的音频，也不应把未授权的长材料转写出来。

我会依次提供短音频、原句（如有）和我的模仿录音。请按 Listen and Repeat 流程进行：

第一步：只让我先听两遍并口头复述我听到的内容；不要先显示原句。

第二步：我复述后，依据我提供的原句核对 3 个最影响理解的听辨/表达差异，并引用证据。

第三步：只给一个 8—15 秒片段，标记词重音、连读或意群，要求我模仿录音。

第四步：比较我的第一次和第二次录音，只报告三项最高优先点及证据。

若缺少原句或音频，清楚说明能做和不能做的部分，不要编造内容。

13.2.4 4. Take an Interview: 逐题采访，绝不预告题库

请对我进行一次英语采访，主题：【填主题】；难度：【B1/B2/C1】；共 4 题；每题最多 90 秒作答。严格规则：

- 一次只显示当前题；不要显示题目清单、后续题、标准答案、提示词或评分量表。
- 我答完后，基于我答案中的一个具体细节自然追问 1—2 个问题；追问不计入 4 道主问题，也不
- 如果我停顿超过 10 秒，只能给中性提示（如“Could you give an example?”），不能替我完成
- 第 4 题结束后才总结。只反馈三项最高优先问题，逐项给原话/时间戳证据、改法和二次录音任
- 不给官方 TOEFL 分数；如我问分数，仅给非官方、证据有限的练习观察。

现在开始，只问第 1 题。

13.3 三、严格限时模式

把下面的方括号替换为自己的时间。计时从 AI 发出题目时开始；若平台无法可靠计时，请用手机计时器，并把实际用时告诉 AI。

执行严格限时口语练习。

题型：【Listen and Repeat / Take an Interview 式回答 / 开放表达】

准备时间：【15】秒；作答时间：【45】秒。

流程：先只显示题目；准备结束时只说“Begin.”；作答结束时立即说“Time is up.”。即使我还在我完成后，先让我提供录音/逐字稿和实际用时，再只反馈三项最高优先问题。每项必须有证据，最现在只显示题目。

13.4 四、英文题目生成约束（复制给 AI）

以下提示词用于生成新题，避免“题海”、泄题和答案依赖。

Generate English speaking prompts under these constraints:

- Target level: [B1/B2/C1]; task type: [opinion / experience / comparison / campus or
- Create [4] prompts internally, but reveal exactly ONE current prompt at a time. Never
- Prompts must be answerable without specialist knowledge, culturally neutral, and bas
- Avoid copyrighted test items, claims that prompts are official TOEFL/ETS materials,
- After each learner response, ask 1–2 follow-up questions grounded in a stated detail
- Do not write, complete, or substantially rewrite the learner's answer. You may ask c
- When timing is requested, enforce it exactly and do not extend it.

Start by showing only Prompt 1.

13.5 五、三项反馈与二次录音模板

每次练完都把以下内容发给 AI，或自己记录。只保留三项迫切影响理解、任务完成或自然度的问题，先改高杠杆问题。

请按以下模板反馈，不能超过三项：

1. 优先问题：

- 证据（原话/时间戳）：
- 为什么优先：
- 一个可执行改法：
- 二录目标（20—45 秒）：

2. 优先问题：

- 证据（原话/时间戳）：
- 为什么优先：
- 一个可执行改法：

- 二录目标 (20—45 秒):
3. 优先问题:
- 证据 (原话/时间戳):
 - 为什么优先:
 - 一个可执行改法:
 - 二录目标 (20—45 秒):

最后只给我一项明确指令: 请按相同题目和时间限制录制二次版本。收到二录后, 逐项比较证据;

二录原则: 问题、同限时、只集中修改三项; 不要为了“更高级”而换掉全部内容。二录后若某项已改善, 就标为“已稳定”, 下次换新问题。

13.6 六、错误库与每周评估

13.6.1 错误库记录表

日期	任务/题目	类别	证据 (原话或 时间戳)	最小改法	二录结果	下次复习
		发音 / 意群 / 语法 / 词汇 / 组织 / 互动			改善 / 未改善 / 无法判断	

根据我本周的错误库做周评估。不要给官方或换算后的 TOEFL 分数, 也不要虚构评分标准。请输出:

1. 本周最常出现的三类问题及每类的证据数量;
2. 已在二录中稳定改善的项目;
3. 下周只保留的两个训练重点, 以及各自一个可量化目标;
4. 推荐的三次短练习 (每次 15—20 分钟), 说明练习模式、限时和二录要求。

如果错误库没有足够证据, 请说明数据不足, 不要推断。

我的错误库如下:

【粘贴表格】

13.7 七、24 周使用节奏

每次练习建议 20—30 分钟: **首录 → 三项证据反馈 → 二录 → 错误库**。每周固定 3 次, 总计 **60—90 分钟** (计入 01 章的 10—12 小时, 不额外加时); 每周至少保留 1 次带音频的练习, 避免只在文字层面“练口语”。

周数	重点	每周建议
1—4	建立基线：短答、可懂度、基本意群	2 次自由对话 + 1 次发音/意群；每周周评估
5—8	扩展回答：理由、例子、比较	1 次采访 + 1 次限时独立表达 + 1 次 Listen and Repeat
9—12	连贯表达：衔接、信息取舍、自然追问	2 次采访/自由对话 + 1 次严格限时二录
13—16	听后复述：抓主旨、细节与意群	2 次短音频 Listen and Repeat + 1 次 Take an Interview 式回答
17—20	压力下稳定：限时、停顿管理、纠错	2 次严格限时 + 1 次采访；只追踪高频错误
21—24	整合与复盘：模拟真实互动、巩固弱项	1 次混合练习 + 1 次弱项专项 + 1 次周评估与错误库清理

周五固定流程 (20 分钟)：把它并入第二次 20—30 分钟练习，而非额外加时：粘贴错误库 → 做周评估 → 选下周两个训练重点 → 从本周一道题做最终二录。若连续两周同一问题没有改善，缩短材料、降低语速，或请真人教师/语音教练核验。

13.8 八、练习前后速查

- ☐ 我没有上传敏感个人信息或未授权材料。
- ☐ AI 一次只给了一题，没有提前显示题库。
- ☐ 我先说，AI 后反馈；AI 没有代写答案。
- ☐ 限时有明确开始和结束，未被无故延长。
- ☐ 反馈恰好三项（或少于三项），每项都有证据。
- ☐ 我完成了同题、同限时的二次录音。
- ☐ 错误库已更新，并安排了下次复习。

第十四章 第 13 章 词汇、词形与语法分级题库： 24 周把“看懂”练成“写得出、听得清”

本章定位：这是第 2 章方法的高密度执行册。所有英文材料、短文、句子和语音脚本均为原创训练材料，不是 ETS 真题，也不预测正式考试内容。

完成标准：24 个词汇组与词族训练；120 组 Complete the Words (CTW)；300 道 Build a Sentence (BAS)；432 句 Listen and Repeat (L&R) 微练习；6 次分级复盘。建议每周用 4 次、每次 35—50 分钟完成一个周单元；错题不是“看过答案”就结束，须在 24 小时后闭卷重做。

14.1 13.1 使用法：先预测，再检索，最后迁移

本章把同一能力放进四种任务中。词表不是为了背出中文，而是为了让你在听读中快速识别、在写作中调取正确形式；CTW 训练你从语法槽位和语篇逻辑推出词形；BAS 训练你把正确的词放进正确的句法骨架；L&R 则让眼中认识的词变成耳中能还原、口中能连续说出的声音。

每一题旁的标签要写进错题本，而不是只用来“解释失误”：

标签	含义	首选修复动作
V- 义	语境义或近义词区分错误	用原句造一个新句，不孤立抄译词
V- 词性	名、动、形、副词槽位判断错误	圈冠词、介词、be、to 和限定词
V- 词形	单复数、时态、派生或拼写错误	朗读并盲写完整词块
搭配	单词认识，但组合不自然	记动词—名词或形容词—名词块
G- 骨架	漏谓语、从句不完整、主谓不一致	先圈有限谓语，再找主句
G- 连接	因果、让步、条件、比较关系错误	把连接词译成箭头或关系符号
S- 语流	弱读、连读、重音或词尾没有听出	意群切分后慢读、影子跟读、盲听

四步循环：第一遍遮住答案，在题面标出词性或句子主干；第二遍核对并说出证据；第三遍隔日只重做同标签的新题；第四遍把其中一个词块放进与你工作、学习或日常生活相关的新句。若一题答对但无法解释，也记为 G（不稳定正确）。

14.2 13.2 24 周词汇组与词族训练

14.2.1 第 1 周 观察、记录与校园日常

核心词	词族与核心义	常用搭配	易错提醒
observe	observation; observable: 观察、可 观察的	observe a pattern	不是 <i>obverse</i>
record	recording; recorded: 记录	keep a record of	名词重音在前
require	requirement; required: 要求	meet a requirement	require 后接名词/不定式
attend	attendance; attentive: 出席、专注	attend a workshop	attend 不直接接 <i>to</i>
locate	location; located: 定 位、位置	be located near	locate 是动词
access	accessible; accessibility: 进入、 使用权	have access to	access 常作不可数名词

词族操练 1A (V-词性): 用表中词族完成句子。

- The archive keeps a digital _____ of each interview.
- The laboratory is easily _____ by bus.
- Students must satisfy the safety _____ before entering.

答案: 1. record; 2. accessible; 3. requirement. 证据分别是冠词后的名词、is 后的形容词和 safety 修饰的名词。

搭配操练 1B (搭配): 把下列词块各写入一个完整句: observe a pattern / have access to / attend a workshop. 句子须有明确人物、动作和目的。示范: New assistants attend a workshop so that they can operate the equipment safely.

14.2.2 第 2 周 变化、数量与趋势

核心词	词族与核心义	常用搭配	易错提醒
vary	variation; variable; various: 变化	vary according to age	various 不能作动词
increase	increasing; increase: 增加	an increase in demand	increase 可名可动
decline	declining; decline: 下降、谢绝	decline gradually	与 refuse 的语境不同
stable	stability; stabilize: 稳定	remain stable	stable 不是 <i>stably</i> 的替代名词
estimate	estimation; estimated: 估计	estimate the cost	estimated 后接名词
proportion	proportional; proportionally: 比例	a large proportion of	后接复数名词时看整体含义

词族操练 2A (V-词形):

- Demand _____ sharply after the new service opened.

2. The report gives an _____ number, not a final count.
 3. The _____ of residents who cycle to work has grown.

答案: 1. increased; 2. estimated; 3. proportion。第 1 题需要过去时; 第 2 题需要形容词; 第 3 题需要名词中心词。

微辨析 2B (V-义): stable 描述“相对不变的状态”, steady 常描述“平稳持续的速度或进展”。分别写一句: 一个描述价格状态, 一个描述进展速度。不要把二者机械互换。

14.2.3 第 3 周 因果、证据与结论

核心词	词族与核心义	常用搭配	易错提醒
affect	effect; effective: 影响	affect the result	affect 通常为动词
contribute	contribution; contributory: 促成、贡献	contribute to growth	to 是介词
indicate	indication; indicative: 表明	indicate that...	后接从句自然
imply	implication; implicit: 暗示	imply a connection	不等于直接证明
demonstrate	demonstration; demonstrable: 展示、证明	demonstrate a method	后接名词或 that 从句
result	resulting; result: 结果	result in a delay	result from 表原因

词族操练 3A (G-连接): 在 result in 与 result from 中选择。

1. Poor drainage may _____ flooding after heavy rain.
 2. The flooding may _____ poor drainage and blocked channels.

答案: 1. result in; 2. result from。把第一句画成“原因 → 结果”, 第二句从结果回指原因。

证据操练 3B (V-义): 补全: The data _____ a possible link, but they do not prove one.

答案: indicate 或 imply (前者更直接、后者更保留)。demonstrate 在此会夸大证据强度。

14.2.4 第 4 周 比较、选择与限制

核心词	词族与核心义	常用搭配	易错提醒
compare	comparison; comparable: 比较	compare A with B	compare to 常用于类比
contrast	contrasting; contrast: 对比	in contrast to	不用 on contrast
prefer	preference; preferable: 偏好	prefer A to B	prefer A to B, 不是 than
alternative	alternatively: 替代方案	an alternative to	to 是介词

核心词	词族与核心义	常用搭配	易错提醒
restrict	restriction; restricted: 限制	restrict access to	restriction 是名词
sufficient	sufficiently; insufficiency: 足够	sufficient for a task	不是 <i>enough</i> <i>sufficient</i>

词族操练 4A (搭配):

1. The team _____ a shorter survey _____ a long interview.
2. There is no practical _____ a secure password.
3. The sample was not _____ large to support a broad claim.

答案: 1. preferred; to; 2. alternative; to; 3. sufficiently。第 1 题固定结构; 第 2 题名词后接 to; 第 3 题副词修饰形容词。

限制意识 4B (V-义): 用 restricted 和 limited 各造一句。前者强调规则或权限造成的限制, 后者强调数量、时间或资源不多。

14.2.5 第 5 周 分类、特征与定义

核心词	词族与核心义	常用搭配	易错提醒
classify	classification; classified: 分类	classify samples by size	by 后接标准
identify	identification; identifiable: 识别	identify a source	identify 不等于 find out
feature	featured; characteristic: 特征	a key feature of	feature 可名可动
category	categorize; categorical: 类别	fall into a category	category 拼写有 e
distinct	distinction; distinctly: 不同的	be distinct from	distinct 不是 distant
define	definition; defined: 定义	define a term	define 后接宾语

词族操练 5A (V-词性):

1. Each specimen was _____ according to its shape.
2. A clear _____ prevents readers from guessing the term.
3. The two routes are _____: one crosses hills, and the other follows the coast.

答案: 1. classified; 2. definition; 3. distinct.

输出操练 5B (G-骨架): 用 A feature that distinguishes X from Y is ... 写一句比较你熟悉的两个工具、服务或学习方式。关系从句中的谓语必须是 distinguishes。

14.2.6 第 6 周 过程、顺序与方法

核心词	词族与核心义	常用搭配	易错提醒
process	processing; processed: 处理、过程	process raw data	process 可名可动
procedure	procedural: 步骤、程序	follow a procedure	procedure 不是 process 同义替换
sequence	sequential; subsequently: 顺序	in sequence	sequence 拼写含 ue
obtain	obtainable; obtain: 获得	obtain permission	正式语境常见
modify	modification; modified: 修改	modify a plan	modify 后接宾语
evaluate	evaluation; evaluative: 评估	evaluate the evidence	evaluate 不等于 value

词族操练 6A (V-词形):

1. The technician _____ the settings after the first trial.
2. Approval must be _____ before the survey begins.
3. The final _____ compares accuracy and speed.

答案: 1. modified; 2. obtained; 3. evaluation.

方法操练 6B (G-连接): 以 First, ...; next, ...; only then, ... 写三步程序。第三步必须依赖前两步, 避免把连接词当装饰。

14.2.7 第 7 周 空间、移动与分布

核心词	词族与核心义	常用搭配	易错提醒
distribute	distribution; distributed: 分布、分发	be distributed across	不与 in 混用
migrate	migration; migratory: 迁移	migrate to warmer areas	人和动物都可用
transport	transportation; transportable: 运输	transport goods by rail	transport 也可作名词
region	regional; regionally: 地区	a coastal region	region 与 area 不完全同义
boundary	bounded; boundary: 边界	cross a boundary	边界通常可数
route	reroute; routing: 路线	a direct route to	route 发音可 /ru:t/ 或 /raot/

词族操练 7A (搭配):

1. Fresh water is unevenly _____ the island.
2. Some birds begin their seasonal _____ before winter.
3. The driver chose a faster _____ after the bridge closed.

答案: 1. distributed across; 2. migration; 3. route.

听读迁移 7B (S-语流): 朗读并划意群: Resources / are distributed across the region, / not evenly within it. 注意 distributed across 中词尾 /t/ 与元音连接; 再遮住文本复述其对比关系。

14.2.8 第 8 周 系统、功能与关系

核心词	词族与核心义	常用搭配	易错提醒
function	functional; functionality: 功能	serve a function	function 可名可动
interact	interaction; interactive: 互动	interact with users	with 不可漏
depend	dependence; dependent: 依赖	depend on conditions	dependent 后接 on
maintain	maintenance; maintained: 维持	maintain a balance	retain 不完全等同
regulate	regulation; regulatory: 调节、规定	regulate temperature	regulation 是可数名词
network	networking; networked: 网络	a network of sensors	network 可名可动

词族操练 8A (V-词性):

- The app has an _____ map for new users.
- The device _____ automatically when the room is empty.
- Regular _____ prevents small faults from becoming costly.

答案: 1. interactive; 2. regulates; 3. maintenance.

关系操练 8B (G-连接): 完成句子: Because the sensors _____ one another, the network can _____ a stable temperature.

答案示例: interact with; maintain. Because 后须是完整从句; can 后使用动词原形。

14.2.9 第 9 周 资源、消耗与环境

核心词	词族与核心义	常用搭配	易错提醒
consume	consumption; consumer: 消耗	consume less energy	consumer 指消费者
conserve	conservation; conservative: 保护、节约	conserve water	不等于 preserve 的全部义项
generate	generation; generated: 产生	generate electricity	generation 也指一代人
resource	resourceful; resources: 资源	renewable resources	常用复数
waste	wasteful; wastage: 浪费	reduce waste	waste 可名可动

核心词	词族与核心义	常用搭配	易错提醒
sustain	sustainable; sustainability: 维持、 可持续	sustain long-term growth	sustainable 不是 <i>sustained</i>

词族操练 9A (V-词形):

1. The building uses less water because its cooling system is more _____.
2. Solar panels _____ electricity during daylight hours.
3. The campaign asks residents to reduce food _____.

答案: 1. sustainable; 2. generate; 3. waste. 第 1 题考“长期可维持”的形容词; 第 3 题中 food waste 是固定名词块。

精确表达 9B (V-义): conserve 的宾语通常是资源; save 可用于资源, 也可用于金钱、时间或人。分别写一句, 避免把词典中中文义当成可任意替换的许可。

14.2.10 第 10 周 研究、假设与测量

核心词	词族与核心义	常用搭配	易错提醒
research	researcher; researched: 研究	conduct research on	research 通常不可数
hypothesize	hypothesis; hypothetical: 假设	hypothesize that...	hypothesis 复数 hypotheses
measure	measurement; measurable: 测量	measure the distance	measure 也指措施
sample	sampling; sampled: 样本	a sample of 50	sample size
data	datum; data-driven: 数据	collect data on	正式写作可视 data 为复数
revise	revision; revised: 修 订	revise a draft	review 不一定是修改

词族操练 10A (V-词性):

1. The _____ proposed a testable explanation before collecting data.
2. A larger _____ reduces the chance that one unusual case controls the result.
3. The questionnaire was _____ after a pilot test.

答案: 1. researcher; 2. sample; 3. revised.

逻辑操练 10B (G-连接): 将两句连接为一条谨慎的研究结论: The sample was small. The finding needs further testing.

答案示例: Because the sample was small, the finding needs further testing. 不能写成 Although the sample was small, therefore ..., 让步和结果不可叠加。

14.2.11 第 11 周 社会、制度与参与

核心词	词族与核心义	常用搭配	易错提醒
participate	participation; participant: 参与	participate in a survey	in 不可漏
policy	political; policymaker: 政策	adopt a policy	policy 不等于 politics
access	accessible; accessibility: 获得机会	equal access to	与第 1 周复现以巩固
community	communal; communities: 社群	a local community	community 可指人群或地区
benefit	beneficial; beneficiary: 益处	benefit from training	benefit 可名可动
advocate	advocacy; advocate: 倡导	advocate for change	名词与动词同形

词族操练 11A (搭配):

- Volunteers can _____ the planning meeting online.
- The new route gives rural residents better _____ medical care.
- Several teachers _____ a later start time.

答案: 1. participate in; 2. access to; 3. advocated for.

语法操练 11B (G-骨架): 改正: The policy benefit students who lives far from campus.

答案: The policy benefits students who live far from campus. 主句主语为单数 policy, 关系从句中 who 回指复数 students.

14.2.12 第 12 周 风险、问题与解决

核心词	词族与核心义	常用搭配	易错提醒
issue	issue; issued: 问题、发布	address an issue	issue 不总是“问题”
risk	risky; risk: 风险	pose a risk to	risk 后可接动名词
prevent	prevention; preventive: 预防	prevent A from B	from 不可漏
respond	response; responsive: 回应	respond to a request	response 是名词
resolve	resolution; resolved: 解决	resolve a conflict	solve 常用于题目
adapt	adaptation; adaptable: 适应	adapt to change	adapt A for B / adapt to B

词族操练 12A (V-词形):

- A backup system can _____ data loss during a power failure.
- The manager gave a quick _____ to the complaint.

3. New staff need time to _____ to unfamiliar software.

答案: 1. prevent; 2. response; 3. adapt.

搭配操练 12B (搭配): 用 prevent ... from ... 写一句, 第二个空使用动名词; 再用 pose a risk to 写一句, 宾语必须是可能受影响的人、物或系统。

14.2.13 第 13 周 解释、态度与观点

核心词	词族与核心义	常用搭配	易错提醒
interpret	interpretation; interpretable: 解释	interpret the result	interpreter 是口译员
assume	assumption; assumed: 假定	assume that...	不等于 prove
perceive	perception; perceptive: 感知、看待	be perceived as	常用被动
argue	argument; argumentative: 主张	argue that...	argument 可指论证
emphasize	emphasis; emphatic: 强调	place emphasis on	emphasize 拼写没有 a
acknowledge	acknowledgment; acknowledged: 承认	acknowledge a limit	不等于 agree

词族操练 13A (V-义):

1. The writer does not _____ that the method is perfect; she notes two limits.
2. Readers may _____ the chart differently if its labels are unclear.
3. The conclusion rests on an untested _____.

答案: 1. argue; 2. interpret; 3. assumption.

立场操练 13B (G-连接): 补全: Although the survey is useful, the author _____ its limits.

答案示例: acknowledges. Although 已表达让步, 主句不再加 but.

14.2.14 第 14 周 时间、历史与发展

核心词	词族与核心义	常用搭配	易错提醒
emerge	emergence; emerging: 出现	emerge over time	不及物, 不直接接宾语
evolve	evolution; evolutionary: 演变	evolve from A to B	不等于 revolution
previous	previously: 先前的	previous studies	previous 不接 to
subsequent	subsequently: 随后的	subsequent changes	常与 previous 对照
establish	establishment; established: 建立	establish a routine	establish 不等于 start

核心词	词族与核心义	常用搭配	易错提醒
persist	persistence; persistent: 持续	persist despite setbacks	常作不及物动词

词族操练 14A (V-词性):

1. The practice _____ gradually from an informal habit into a formal rule.
2. _____ research had already identified the problem.
3. The species remained _____ despite several dry years.

答案: 1. evolved; 2. Previous; 3. persistent.

时间线操练 14B (G-连接): 用 after 和 subsequently 写两句: 先发生一个调查, 随后发生一项政策改变。subsequently 后用逗号, 不要误当连词连接两个完整句。

14.2.15 第 15 周 文化、语言与学习

核心词	词族与核心义	常用搭配	易错提醒
acquire	acquisition; acquired: 获得、习得	acquire a skill	acquire 不直接等于 buy
communicate	communication; communicative: 交流	communicate clearly	communication 常不可数
context	contextual; contextually: 语境	in a social context	in context
translate	translation; translator: 翻译	translate A into B	两端语言明确
retain	retention; retained: 保留	retain information	retain 比 remember 正式
fluency	fluent; fluently: 流利	develop fluency	fluency 是不可数

词族操练 15A (搭配):

1. Learners retain new expressions better when they meet them in _____.
2. The guide was _____ from English into Korean.
3. Short daily practice can improve speaking _____.

答案: 1. context; 2. translated; 3. fluency.

迁移操练 15B (V-义): acquire 强调逐步获得, learn 强调学习过程。写一对句子, 第一句谈获得一项能力, 第二句谈正在进行的学习活动。

14.2.16 第 16 周 材料、结构与性质

核心词	词族与核心义	常用搭配	易错提醒
consist	consistent; consistency: 由.....构成	consist of three parts	不用被动 <i>is consisted of</i>

核心词	词族与核心义	常用搭配	易错提醒
structure	structural; restructure: 结构	a layered structure	structure 可名可动
density	dense; densely: 密度、稠密	population density	dense 不是 crowded 的完全替代
flexible	flexibility; flexibly: 灵活	flexible material	flexible 形容物或安排
layer	layered; layering: 层	a layer of soil	layer 可名可动
transfer	transferable; transfer: 转移	transfer heat to	transfer 可名可动

词族操练 16A (G-骨架): 改正: The model is consisted of three flexible layers.
答案: The model consists of three flexible layers. consist of 不用被动; 主语单数, 动词用 consists.

词族操练 16B (V-词形): The city has a _____ populated center but low population _____ near the coast.

答案: densely; density. 第一个空修饰过去分词, 第二个空是名词中心。

14.2.17 第 17 周 经济、决策与效率

核心词	词族与核心义	常用搭配	易错提醒
allocate	allocation; allocated: 分配	allocate funds to	to 后是对象
invest	investment; investor: 投资	invest in training	invest 后常接 in
efficient	efficiency; efficiently: 高效	improve efficiency	efficient 形容方法/系统
budget	budgetary; budget: 预算	stay within a budget	budget 可名可动
demand	demanding; demand: 需求	demand for housing	demand 也可作动词
priority	prioritize; prioritized: 优先事项	give priority to	priority 拼写有 or

词族操练 17A (搭配):

- The school decided to _____ more funds _____ maintenance.
- Safety received top _____ in the final plan.
- The new schedule uses staff time more _____.

答案: 1. allocate; to; 2. priority; 3. efficiently.

决策操练 17B (G-连接): 用 if 写一句条件决策: 预算减少时, 团队会优先保留什么。if 从句用一般现在时; 不要写 *if the budget will fall*.

14.2.18 第 18 周 健康、行为与变化

核心词	词族与核心义	常用搭配	易错提醒
recover	recovery; recoverable: 恢复	recover from illness	from 不可漏
respond	response; responsive: 反应	respond to treatment	与第 12 周复现
persist	persistence; persistent: 持续	persistent symptoms	形容词搭配
monitor	monitoring; monitored: 监测	monitor progress	monitor 后接宾语
exposure	expose; exposed: 暴露	exposure to noise	exposure 后接 to
motivate	motivation; motivated: 激励	motivate people to act	motivate A to B

词族操练 18A (V-词性):

1. The nurse _____ the patient's temperature every hour.
2. Long-term _____ to noise can affect sleep.
3. Clear goals may _____ employees to continue.

答案: 1. monitored; 2. exposure; 3. motivate.

结构操练 18B (G-骨架): 改正: The patient recovered the illness quickly.

答案: The patient recovered from the illness quickly. 若宾语是“失去的东西”, 可说 recover a file; 疾病前用 from.

14.2.19 第 19 周 设计、创新与实施

核心词	词族与核心义	常用搭配	易错提醒
design	designer; designed: 设计	design a prototype	design 可名可动
innovate	innovation; innovative: 创新	encourage innovation	innovate 不等于 invent
implement	implementation; implemented: 实施	implement a plan	不能写 <i>implement into</i>
adapt	adaptation; adaptable: 调整适应	adapt a tool for use	区分 adapt to
test	testing; testable: 测试	test a hypothesis	test 可名可动
refine	refinement; refined: 改进、提炼	refine a method	refine 不是 define

词族操练 19A (V-词形):

1. The team built a small _____ before producing the final device.
2. Feedback led to several _____ of the interface.
3. The city _____ the pilot program in April.

答案: 1. prototype; 2. refinements; 3. implemented.

应用操练 19B (搭配): 分别完成: adapt the survey ____ younger users 和 adapt ____ a new setting.

答案: for; to。前者有宾语, 后者说主体适应环境。

14.2.20 第 20 周 准确、标准与质量

核心词	词族与核心义	常用搭配	易错提醒
accurate	accuracy; accurately: 准确	an accurate estimate	accurate 不修饰动词
valid	validity; validate: 有效	a valid comparison	valid 与 valuable 不同
reliable	reliability; reliably: 可靠	reliable evidence	reliable 不等于 certain
criterion	criteria: 标准	meet a criterion	criterion 单数, criteria 复数
verify	verification; verified: 核实	verify a claim	verify 不等于 agree with
consistent	consistency; consistently: 一致	be consistent with	consistent 后接 with

词族操练 20A (V-词形):

1. The result is not _____ because the two groups were measured differently.
2. The report meets all three quality _____.
3. Check whether the number is _____ with the original record.

答案: 1. valid; 2. criteria; 3. consistent.

质量操练 20B (V-义): accurate 关注“接近事实”, precise 关注“细致、误差范围小”。写两句: 一条谈地图位置, 一条谈时间说明。

14.2.21 第 21 周 协作、沟通与责任

核心词	词族与核心义	常用搭配	易错提醒
collaborate	collaboration; collaborative: 协作	collaborate with a team	with 不可漏
coordinate	coordination; coordinated: 协调	coordinate a schedule	coordinate 可名可动
assign	assignment; assigned: 分配	assign a task to	assignment 是作业/任务
responsibility	responsible; responsibly: 责任	take responsibility for	responsible 后接 for
negotiate	negotiation; negotiable: 协商	negotiate an agreement	negotiate 不接 with 才完整
clarify	clarification; clear: 澄清	clarify a point	clarification 是名词

词族操练 21A (搭配):

1. The leader _____ each task _____ a different member.
2. Please ask for _____ if the instructions are unclear.
3. Both sides _____ an agreement before the deadline.

答案: 1. assigned; to; 2. clarification; 3. negotiated.

责任操练 21B (G-连接): 写一句含 so that 的协作说明: 协调会议时间的目的是什么。so that 后须有主语和情态动词或谓语。

14.2.22 第 22 周 媒体、信息与判断

核心词	词族与核心义	常用搭配	易错提醒
source	source; sourced: 来源	cite a source	source 也可作动词
publish	publication; published: 发表	publish findings	publish 后接宾语
consume	consumption; consumer: 消费	consume media	语境从资源迁移
bias	biased; unbiased: 偏见	reduce bias	biased 形容人/材料
claim	claimant; claimed: 主张	support a claim	claim 可名可动
evaluate	evaluation; evaluative: 评估	evaluate a source	复现以建立网络

词族操练 22A (V-义):

1. A popular post is not automatically a _____ source.
2. The article makes a strong _____ but offers little evidence.
3. Readers should _____ who created the message and why.

答案: 1. reliable; 2. claim; 3. evaluate.

判断操练 22B (G-连接): 用 before 连接: 先核实来源, 再转发消息。注意 before 从句可放句首或句末, 但不能同时用两个完整句而没有标点。

14.2.23 第 23 周 综合学术表达

核心词	词族与核心义	常用搭配	易错提醒
synthesize	synthesis; synthetic: 综合	synthesize several studies	不等于 summarize
framework	framework; framed: 框架	a theoretical framework	framework 可数
perspective	perspective; prospective: 视角	from a perspective	perspective 拼写有 spect
complex	complexity; complex: 复杂	a complex relationship	complex 也可作名词

核心词	词族与核心义	常用搭配	易错提醒
integrate	integration; integrated: 整合	integrate A into B	into 不可漏
relevant	relevance; relevantly: 相关	relevant to the question	relevant 后接 to

词族操练 23A (搭配):

1. The review _____ evidence from several small studies.
2. The new lesson _____ practice _____ daily work.
3. Keep only details that are _____ the main question.

答案: 1. synthesizes; 2. integrates; into; 3. relevant; to.

精确表达 23B (V-义): summarize 是压缩一个来源的主旨; synthesize 是把多个来源放在一起形成关系。各写一句, 来源数量要不同。

14.2.24 第 24 周 复盘、迁移与长期保持

核心词	词族与核心义	常用搭配	易错提醒
review	reviewer; reviewed: 复习、审查	review an error log	review 不必然修改
retrieve	retrieval; retrievable: 提取	retrieve information	检索而非再读
reinforce	reinforcement; reinforced: 巩固	reinforce a habit	reinforce 后接宾语
transfer	transferable; transfer: 迁移	transfer a skill to	与第 16 周连接
diagnose	diagnosis; diagnostic: 诊断	diagnose a weakness	diagnose 后接问题
prioritize	priority; prioritized: 排序	prioritize high-value tasks	不用 prioritize on

词族操练 24A (V-词性):

1. A one-minute quiz forces _____ rather than passive rereading.
2. The teacher used a short _____ task to find common grammar gaps.
3. Spaced practice _____ learning over several weeks.

答案: 1. retrieval; 2. diagnostic; 3. reinforces.

本章迁移承诺 24B (G-骨架): 写一个 35—45 词英文计划, 必须使用 prioritize、review、retrieve 三词, 并含一个 because 从句。写完后圈出两个有限谓语; 若没有两个, 先修正骨架再追求高级词。

14.3 13.3 Complete the Words: 120 组语篇词形训练

做题程序 (每组 70—100 秒): 先看标题和首句, 给每空标 n./v./adj./adv.; 再读完整段, 找转折、因果和指代; 最后补齐词形。题中给出首字母或词干, 答案必须保留正确的单复数、时态和派

生尾缀。每组后的标签指出最容易错的主因；答案与证据集中在本章 13.7，完成前不要翻阅。

14.3.1 CTW 001—010：基础语境与高频派生

CTW-001 | 难度 A | 主错因：V-词性

At the community library, volunteers first o___ the number of visitors at different hours. Their o_____ help the staff decide when to add chairs. The goal is not to make the room quieter at every moment, but to provide enough space when demand is highest.

CTW-002 | 难度 A | 主错因：V-词形

The museum changed the l___ of its map after several guests became lost. A clearer l_____ now appears beside every entrance, and visitors can find the children's area without asking for directions.

CTW-003 | 难度 A | 主错因：搭配

Before joining the workshop, each participant must m___ one safety r_____. This rule applies even to people who have used similar tools before, because the equipment in this room is different.

CTW-004 | 难度 A | 主错因：G-连接

The town added more buses in the morning. As a r___, the average waiting time d_____. However, service after 9 p.m. remains limited, so some workers still drive home.

CTW-005 | 难度 A | 主错因：V-词性

Plants in the two gardens received v___ amounts of sunlight. This v_____ gave students a chance to compare growth under bright and shaded conditions.

CTW-006 | 难度 A | 主错因：V-义

The coordinator did not claim that the new sign c___ every problem. It simply i_____ where visitors should enter, which reduced one common source of confusion.

CTW-007 | 难度 A | 主错因：V-词形

The class made a c_____ between two study schedules. Most students p_____ the second plan because it included short review sessions after work.

CTW-008 | 难度 A | 主错因：搭配

There is no easy a_____ to careful planning. Even a simple event needs enough time, a clear purpose, and s_____ information for guests.

CTW-009 | 难度 A | 主错因：V-词性

The assistant c_____ the files by date and topic. This c_____ made it easier for the team to find older notes during the meeting.

CTW-010 | 难度 A | 主错因：G-骨架

First, the technician checks the battery. Next, she m_____ the settings if necessary. Only then does she e_____ whether the device is ready for use.

14.3.2 CTW 011—020: 空间、系统与资源

CTW-011 | 难度 A | 主错因: 搭配

Fresh water is not evenly d_____ a_____ the island. Villages in the north have several springs, while southern villages depend on water delivered by truck.

CTW-012 | 难度 A | 主错因: V-词形

Every autumn, the birds begin a long m_____ to warmer wetlands. Their m_____ route changes when strong winds make the usual path unsafe.

CTW-013 | 难度 A | 主错因: V-词性

The train is an efficient form of t_____ for heavy goods. It can t_____ large containers without adding many trucks to crowded roads.

CTW-014 | 难度 B | 主错因: G-连接

The sensor has one simple f_____ : it measures room temperature. Because the sensors i_____ with a central program, the heating system can respond quickly.

CTW-015 | 难度 A | 主错因: 搭配

The building manager wants to m_____ a comfortable temperature while also reducing energy use. Regular m_____ of the heating system makes both goals easier.

CTW-016 | 难度 B | 主错因: V-词形

The school installed a small solar array to g_____ electricity. Its first year of g_____ was lower than expected because several panels were shaded.

CTW-017 | 难度 B | 主错因: V-义

The campaign asks families to c_____ water during dry months. It does not ask them to stop using water; it asks them to avoid w_____ it.

CTW-018 | 难度 B | 主错因: V-词性

The project needs a s_____ plan, not a short burst of activity. A plan is s_____ when the community can continue it with local resources.

CTW-019 | 难度 A | 主错因: V-词形

The team wrote a h_____ before the experiment: plants near the window would grow faster. They later tested that h_____ with weekly measurements.

CTW-020 | 难度 B | 主错因: 搭配

The first sample was too small to support a broad conclusion. Researchers therefore collected a larger s_____ and r_____ the questionnaire before trying again.

14.3.3 CTW 021—030: 社会、风险与解释

CTW-021 | 难度 A | 主错因: 搭配

Residents were invited to p_____ i_____ a short survey about street lighting. Their p_____ was voluntary, but more than two hundred people replied within three days.

CTW-022 | 难度 B | 主错因: V-词性

The new p_____ gives every student a free transit pass. Its main b_____ is that evening classes become easier to attend for people who live far away.

CTW-023 | 难度 B | 主错因: G-连接

The backup server reduces the r_____ of losing files. It cannot p_____ every error, but it can prevent one failed device f_____ causing a permanent loss.

CTW-024 | 难度 A | 主错因: V-词形

The support team r_____ quickly to the message. Its r_____ explained how users could reset their passwords without waiting for an office visit.

CTW-025 | 难度 B | 主错因: V-义

The author does not a_____ that all online lessons are better. Instead, she a_____ that their value depends on the learner's schedule and the course design.

CTW-026 | 难度 B | 主错因: V-词性

The chart can be i_____ in more than one way. One i_____ focuses on total sales, while another focuses on sales per customer.

CTW-027 | 难度 B | 主错因: G-连接

Although the pilot was short, it r_____ useful information. The team will u_____ that information to a_____ the next version of the service.

CTW-028 | 难度 A | 主错因: 搭配

The rule was e_____ after several accidents near the entrance. It has p_____ since then because staff still consider it necessary for safety.

CTW-029 | 难度 B | 主错因: V-词形

People a_____ language through repeated use in meaningful situations. Vocabulary a_____ is faster when learners meet the same word in reading, listening, and conversation.

CTW-030 | 难度 B | 主错因: V-词性

The lesson places each phrase in c_____ rather than presenting a long list. This c_____ approach helps learners see why one word is more natural than another.

14.3.4 CTW 031—040: 材料、效率与合作

CTW-031 | 难度 A | 主错因: G-骨架

The model c_____ o_____ three layers. The outer layer is flexible, the middle layer transfers heat, and the inner layer provides s_____.

CTW-032 | 难度 B | 主错因: V-词形

The old center is d_____ populated, but the outer districts have lower population d_____. This difference affects where new clinics should be built.

CTW-033 | 难度 B | 主错因: 搭配

The manager a_____ more funds t_____ repair work after the inspection. She gave safety first p_____ because a damaged stairway could harm visitors.

CTW-034 | 难度 A | 主错因: V-词性

The revised schedule uses meeting time more e_____. Its e_____ comes from moving routine updates into a shared document.

CTW-035 | 难度 B | 主错因: V-义

Demand f_____ quiet workspaces rose after the company adopted flexible hours. To meet that d_____, the office opened two small rooms for focused work.

CTW-036 | 难度 A | 主错因: 搭配

The nurse m_____ the patient's temperature every hour. Her careful m_____ showed that the fever was falling rather than rising.

CTW-037 | 难度 B | 主错因: V-词形

Long-term e_____ t_____ loud noise may affect sleep. The study compared workers with high exposure and those who were rarely e_____ to noisy equipment.

CTW-038 | 难度 A | 主错因: G-骨架

The supervisor m_____ new employees t_____ ask questions early. She believes that clear goals and kind feedback build m_____.

CTW-039 | 难度 B | 主错因: 搭配

The design team built a small p_____ before ordering expensive parts. After testing it, they made three r_____ to the controls.

CTW-040 | 难度 A | 主错因: V-词形

The city i_____ the new parking system in May. Its i_____ required staff training, clear signs, and a way for drivers to ask questions.

14.3.5 CTW 041—050: 准确、媒体与综合表达

CTW-041 | 难度 B | 主错因: V-义

An a_____ number is close to the real value, but a p_____ number gives a narrow and detailed value. A report can be precise without being accurate if its measuring tool is wrong.

CTW-042 | 难度 B | 主错因: V-词形

The comparison is not v_____ because the two groups used different instructions. A more careful design would improve the study's v_____.

CTW-043 | 难度 A | 主错因: V-词形

The report meets three quality c_____: clear methods, complete records, and a r_____ explanation of limits. Each c_____ is checked before publication.

CTW-044 | 难度 B | 主错因: 搭配

Before sharing the story, the editor v_____ the central c_____ by contacting two independent sources. This step did not prove every detail, but it removed one obvious error.

CTW-045 | 难度 A | 主错因: V-词性

The project depends on c_____ between the library and the local school. A c_____ plan lists who will prepare materials and who will welcome families.

CTW-046 | 难度 B | 主错因: G-连接

The chair a_____ each task t_____ a different member so that no one carried the entire workload. She then asked everyone to clarify their r_____.

CTW-047 | 难度 B | 主错因: V-义

The article gives a short s_____ of one report, then s_____ evidence from four reports to show a larger pattern. The second action requires comparing sources, not merely shortening them.

CTW-048 | 难度 A | 主错因: 搭配

The trainer i_____ practice i_____ daily work instead of adding a separate two-hour

session. This i_____ made the new habit easier to maintain.

CTW-049 | 难度 B | 主错因: V-词形

Only details r_____ t_____ the main question belong in the final memo. Extra facts may be interesting, but they reduce the memo's r_____ for a busy reader.

CTW-050 | 难度 A | 主错因: V-词性

The team used a short d_____ quiz to find common gaps. After the d_____, it p_____ the most useful review tasks for the following week.

14.3.6 CTW 051—060: 城市生活与公共服务

CTW-051 | 难度 A | 主错因: V-词形

At first, the market had no clear signs for recycling bins. After staff o_____ visitor behavior for a week, their o_____ showed that most errors happened near the food stalls.

CTW-052 | 难度 B | 主错因: G-连接

The city widened the sidewalk near the station. As a result, the number of people walking there i_____, while bicycle accidents d_____ slightly.

CTW-053 | 难度 B | 主错因: 搭配

The housing office will p_____ one design t_____ another only if it meets the same safety requirements. A cheap a_____ is not useful when it creates a new risk.

CTW-054 | 难度 A | 主错因: V-词性

The guide c_____ local services into health, housing, and employment sections. This c_____ helps new residents decide which office to contact first.

CTW-055 | 难度 B | 主错因: V-词形

The bus company m_____ its weekend route after riders requested a later final trip. An e_____ of ticket records showed that many workers finished after the old service ended.

CTW-056 | 难度 B | 主错因: V-义

The map i_____ where ramps are available, but it does not g_____ that every ramp is clear at every hour. Construction can temporarily change access.

CTW-057 | 难度 A | 主错因: 搭配

Street trees are d_____ a_____ the neighborhood, not placed only in parks. This d_____ lowers summer temperatures on several busy walking routes.

CTW-058 | 难度 B | 主错因: V-词性

The council wants to m_____ a balance between quiet streets and convenient deliveries. Its new r_____ limits truck access only during the early morning.

CTW-059 | 难度 A | 主错因: V-词形

The repair center c_____ less electricity after replacing old lights. Its monthly c_____ fell even though the building stayed open longer.

CTW-060 | 难度 B | 主错因: G-连接

Because the water tank is small, residents must c_____ water in late summer. This habit helps p_____ shortages when rainfall is low.

14.3.7 CTW 061—070: 学习、职场与信息管

CTW-061 | 难度 A | 主错因: V-词形

The instructor asked students to r_____ the key terms after class. Active r_____ is harder than rereading, but it shows which words are not yet available for use.

CTW-062 | 难度 B | 主错因: 搭配

Each new employee must a_____ a short orientation. The session explains the tools that workers can a_____ through the company portal.

CTW-063 | 难度 B | 主错因: G-骨架

The editor r_____ the draft after reviewers found two unclear sentences. The final r_____ keeps the same main idea but explains the method more directly.

CTW-064 | 难度 A | 主错因: V-词性

The team uses a shared n_____ to communicate across offices. This n_____ allows staff in different regions to update the same schedule.

CTW-065 | 难度 B | 主错因: V-义

The manager did not a_____ that the delay was harmless. She a_____ the inconvenience and offered a new delivery time.

CTW-066 | 难度 A | 主错因: 搭配

Before a meeting, the chair a_____ each person a clear role. This a_____ reduces repeated work and makes follow-up easier.

CTW-067 | 难度 B | 主错因: V-词形

The training is designed to improve c_____, not just memorization. Staff practice how to c_____ difficult information to customers in simple language.

CTW-068 | 难度 B | 主错因: G-连接

The manual is written in plain language so that new users can i_____ the steps correctly. If one instruction is unclear, they should request c_____ before continuing.

CTW-069 | 难度 A | 主错因: V-词性

The system records when each file was changed. This record makes it possible to v_____ which version is the most recent and to keep a v_____ trail.

CTW-070 | 难度 B | 主错因: 搭配

The project leader gave p_____ t_____ tasks that affected customer safety. Less urgent improvements were placed in a later phase of the plan.

14.3.8 CTW 071—080: 自然科学与研究过程

CTW-071 | 难度 B | 主错因: V-词形

The researchers h_____ that insects would prefer the warmer side of the container. Their h_____ was supported in eight of the ten trials, but they still need more data.

CTW-072 | 难度 A | 主错因: 搭配

The team collected d_____ o_____ soil moisture every morning. They later used those records to c_____ whether rainfall and plant growth moved together.

CTW-073 | 难度 B | 主错因: V-词性

The lab needs a m_____ method that another group can repeat. A m_____ result is easier to trust than a result based only on one person's judgment.

CTW-074 | 难度 B | 主错因: V-词形

The lake's temperature remained r_____ stable in spring, but its chemical composition v_____ after a week of heavy rain.

CTW-075 | 难度 A | 主错因: G-连接

The birds m_____ south when food becomes scarce. Their seasonal m_____ is not random; it follows changes in temperature and daylight.

CTW-076 | 难度 B | 主错因: 搭配

The river carries small pieces of rock from the hills. Over time, this t_____ of material can create a new l_____ of sediment near the shore.

CTW-077 | 难度 B | 主错因: V-义

The model is useful because it s_____ a complicated process. It is not meant to copy every detail; it helps students i_____ the few relationships that matter most.

CTW-078 | 难度 A | 主错因: V-词形

The plants were placed at different d_____ from the lamp. The researchers then m_____ how much light reached each group.

CTW-079 | 难度 B | 主错因: G-连接

Although the first result was surprising, the team did not change its conclusion immediately. It r_____ the test and e_____ the equipment for possible errors.

CTW-080 | 难度 B | 主错因: 搭配

The study's main c_____ is that it included only one region. The authors therefore avoid making claims that are too b_____ for the available evidence.

14.3.9 CTW 081—090: 健康、行为与社会关系

CTW-081 | 难度 A | 主错因: V-词性

The clinic asks patients to m_____ their sleep for two weeks. This m_____ gives doctors a clearer picture than one report from a single morning.

CTW-082 | 难度 B | 主错因: 搭配

Regular breaks may p_____ eye strain f_____ becoming a larger problem. The advice is p_____; it aims to reduce a risk before symptoms become severe.

CTW-083 | 难度 A | 主错因: V-词形

After the injury, the runner needed time to r_____. Her r_____ was gradual because she followed a plan that increased activity slowly.

CTW-084 | 难度 B | 主错因: V-义

The coach wanted to m_____ the team, not pressure it with unrealistic targets. Players reported higher m_____ when they could see their weekly progress.

CTW-085 | 难度 A | 主错因: 搭配

The neighborhood group invited parents to p_____ i_____ the playground meeting. Their p_____ helped the designer understand which areas felt unsafe.

CTW-086 | 难度 B | 主错因: G-连接

The schedule is flexible because different families have different needs. It can be a__

_____ t_____ each group rather than forcing everyone to use the same hours.

CTW-087 | 难度 B | 主错因: V-词形

Many people p_____ the new rule as fair because it applies to all visitors. That p_____ may change if the rule is not explained clearly.

CTW-088 | 难度 A | 主错因: V-义

The organizer a_____ that several residents could not attend the meeting. She did not treat their absence as a lack of interest; she offered a second way to comment.

CTW-089 | 难度 B | 主错因: 搭配

The program was created to b_____ young adults who lack work experience. Its most important b_____ may be the confidence participants gain from finishing real tasks.

CTW-090 | 难度 B | 主错因: V-词性

The group tried to r_____ a disagreement before it affected the project. A short meeting led to a r_____ that both sides could accept.

14.3.10 CTW 091—100: 设计、技术与实施

CTW-091 | 难度 A | 主错因: V-词形

The designer created three versions of the screen. User feedback helped her r_____ the layout until the buttons were easier to find.

CTW-092 | 难度 B | 主错因: 搭配

The company will i_____ the update in stages, starting with a small group. This i_____ lets engineers correct unexpected problems before a wider release.

CTW-093 | 难度 B | 主错因: G-连接

The tool was first designed for experts, but it has been a_____ f_____ beginners. Because the instructions are shorter, new users can start without extra help.

CTW-094 | 难度 A | 主错因: V-词性

The engineer t_____ the new alarm under several conditions. The final t_____ showed that it worked even when the network connection was weak.

CTW-095 | 难度 B | 主错因: V-义

The team calls the idea i_____ because it combines two familiar tools in a new way. The i_____ is practical, not merely unusual.

CTW-096 | 难度 A | 主错因: 搭配

Before building the full system, the team produced a p_____. The small model made it possible to i_____ weak points without wasting costly materials.

CTW-097 | 难度 B | 主错因: V-词形

The old form had too many fields, so users often made errors. A s_____ form now collects only information that is r_____ to the request.

CTW-098 | 难度 B | 主错因: G-连接

The engineer added a warning message so that users would not delete files by accident. The change did not r_____ the process; it made the result more r_____.

CTW-099 | 难度 A | 主错因: V-词性

The project stayed within its b_____ because the team tracked every purchase. This

b_____ approach also made it easier to explain costs to donors.

CTW-100 | 难度 B | 主错因: 搭配

The company decided to i_____ i_____ staff training before buying new software. That i_____ improved the way employees used the tools they already had.

14.3.11 CTW 101—110: 媒体、文化与观点表达

CTW-101 | 难度 A | 主错因: V-词形

The article was p_____ online after the editor checked the facts. Its p_____ included links to the original reports, not just a list of opinions.

CTW-102 | 难度 B | 主错因: V-义

The writer makes a c_____ about public trust, but the evidence is weak. Readers should e_____ the sources before accepting the conclusion.

CTW-103 | 难度 B | 主错因: 搭配

The video may be b_____ because it shows only one side of the dispute. A less b_____ account would include evidence from several participants.

CTW-104 | 难度 A | 主错因: V-词性

The translator explained that one phrase has no exact equivalent. Its meaning depends on the cultural c_____ in which it is used, so a direct t_____ may sound unnatural.

CTW-105 | 难度 B | 主错因: G-连接

The speaker e_____ the need for careful listening. Although she used a strong example, she did not a_____ that one story represented everyone's experience.

CTW-106 | 难度 B | 主错因: V-词形

The class compared two p_____ on the same issue. This comparison showed how a person's role can influence the p_____ from which a problem is viewed.

CTW-107 | 难度 A | 主错因: 搭配

The local archive keeps every interview as a primary s_____. Students can use those s_____ to study how the neighborhood changed over time.

CTW-108 | 难度 B | 主错因: V-义

The museum did not simply display old objects; it i_____ them into a story about daily life. This i_____ helped visitors connect separate items to a larger theme.

CTW-109 | 难度 A | 主错因: V-词形

The language learner reviewed a phrase several times before she could r_____ it during conversation. Quick r_____ is a better sign of learning than recognition alone.

CTW-110 | 难度 B | 主错因: 搭配

The instructor asked students to s_____ ideas from three articles. A good s_____ explains agreement, difference, and the reason those differences matter.

14.3.12 CTW 111—120: 累计迁移与高阶谨慎表达

CTW-111 | 难度 B | 主错因: G-连接

The two reports appear to conflict; however, they measured different groups. Once that difference is i_____, their conclusions become more c_____ with each other.

CTW-112 | 难度 C | 主错因: V-义

The result is r_____, but it is not certain. The researcher says the pattern may be real and asks others to r_____ the study before treating it as established.

CTW-113 | 难度 B | 主错因: V-词形

The team used an a_____ number for planning, then replaced it with an exact count later. The early e_____ was useful because it prevented a delay.

CTW-114 | 难度 C | 主错因: G-骨架

The policy is intended to r_____ access, not remove every barrier. It may be especially b_____ for people whose work hours r_____ their ability to visit an office.

CTW-115 | 难度 B | 主错因: 搭配

The project's f_____ includes goals, methods, and a timeline. Within that f_____, teams may choose different tools as long as they meet the same standard.

CTW-116 | 难度 C | 主错因: V-词性

The process is c_____ because several variables change at once. This c_____ is exactly why the researchers avoid a simple explanation.

CTW-117 | 难度 B | 主错因: V-词形

The coach used brief quizzes to d_____ weak areas. Her d_____ showed that spelling, rather than meaning, caused most of the errors.

CTW-118 | 难度 C | 主错因: G-连接

If the team p_____ high-value tasks first, it can use limited time more e_____. This does not mean ignoring small tasks; it means placing them in a sensible sequence.

CTW-119 | 难度 B | 主错因: 搭配

The final report will i_____ lessons from every phase of the project. That i_____ should make the next plan more useful than a list of unrelated comments.

CTW-120 | 难度 C | 主错因: V-义

Long-term progress depends on repeated r_____, not on one perfect review session. When learners r_____ a word in a new context, they strengthen a pathway that can later t_____ to speaking and writing.

14.4 13.4 Build a Sentence: 300 道从词块到完整句

规则: 每题须使用题面全部词块; 允许自然的大小写、标点和合理词序调整, 不允许添加会改变事实的内容。先用 35—55 秒写句, 再朗读并做六项检查: 有限谓语、主谓一致、时态、词块完整、连接关系、标点。参考句与简短判分点集中在 13.8; 不要因为参考句与自己的不同就改掉正确的自然表达。

14.4.1 BAS 001—015: 单句骨架与名词短语

1. **BAS-001 | A | G-骨架:** the library / open / until nine / on Thursdays
2. **BAS-002 | A | V-词形:** each visitor / receive / a map / at the entrance

286. **BAS-286** | C | **V-词形**: the new process / be designed / to prevent / personal information from being shared
287. **BAS-287** | C | **搭配**: the conclusion / be relevant to / communities facing similar conditions
288. **BAS-288** | C | **G-连接**: before the system is implemented / users / test / its most important functions

14.4.21 BAS 289—300: 累计终检

289. **BAS-289** | C | **G-骨架**: the author / acknowledge / that / a single example cannot prove a general claim
290. **BAS-290** | C | **V-词形**: the final decision / depend on / whether the proposed change / be feasible
291. **BAS-291** | C | **搭配**: the study / contribute to / a broader understanding of / language acquisition
292. **BAS-292** | C | **G-连接**: if the evidence had been available earlier / the team / might have avoided / the delay
293. **BAS-293** | C | **G-骨架**: the service / be most effective / when / it respond

to / a specific need

294. **BAS-294** | C | **V-词形**: the findings / be interpreted cautiously / because the sample / be limited
295. **BAS-295** | C | **搭配**: the project / establish / a model that other communities can adapt
296. **BAS-296** | C | **G-连接**: although the approach is not perfect / it / provide / a useful starting point
297. **BAS-297** | C | **G-骨架**: the most reliable solution / be / one that / consider / both cost and access
298. **BAS-298** | C | **V-词形**: the team / synthesize / evidence / from several independent sources
299. **BAS-299** | C | **搭配**: the review / identify / priorities for / the next phase of work
300. **BAS-300** | C | **G-连接**: by the end of the course / learners / be able to / build / accurate sentences under time pressure

14.5 13.5 发音听辨、意群与 Listen and Repeat 微练习

14.5.1 13.5.1 三个动作，不把“跟读”变成含糊地重复

1. **先听辨**: 看最小差异或句子中的关键词，遮住文字后自己说出听到的词。听不出时，先补词尾、重音和弱读，不要先把整句译成中文。
2. **再切意群**: 每条用 / 标出 2—4 个意义单位；内容词承重，功能词轻读。停顿服务于结构，不按每个单词停顿。
3. **最后复述**: 先跟读原句两遍，再合上文本用同一信息说一遍。允许自然口音，不允许省掉 -s、-ed、否定词或关键介词。

听辨记录格式: 编号 | 首答 | 正确词 | 声音证据 | 下次动作。例如，若把 can 听成重读 / kæn/, 记录“弱读 /kən/; 后接动词原形; 在意群中不重读”，而不是笼统写“连读不好”。

14.5.2 13.5.2 听辨微题 1—24: 先选出你听到的词

每一组由学习者或 TTS 任选一个词朗读；遮住拼写后写下所听词，再核对。括号内是区别点与错因。

1. affect / effect (动词重音与句法槽位; V-词性)
2. accept / except (首元音与词义; S-语流)
3. price / prize (/s/ 与 /z/; S-词尾)
4. leave / live (长短元音; S-元音)
5. ship / sheep (/ɪ/ 与 /i:/; S-元音)
6. thought / though (末尾 /t/; S-词尾)
7. rise / rice (/z/ 与 /s/; S-词尾)
8. warm / warn (末尾 /m/ 与 /n/; S-词尾)
9. law / low (元音滑动; S-元音)
10. quite / quiet (音节数; S-重音)
11. record (n.) / record (v.) (重音位置; S-重音)

12. present (n.) / present (v.) (重音位置; S-重音)
13. increase (n.) / increase (v.) (重音位置; S-重音)
14. research (n.) / research (v.) (重音位置; S-重音)
15. can / can' t (末尾 /t/ 与语境; S-词尾)
16. fifteen / fifty (重音和尾音; S-数字)
17. thirteen / thirty (重音和弱读; S-数字)
18. fourteen / forty (尾音与节奏; S-数字)
19. worked / work (过去式词尾; S-词尾)
20. used / use (/d/ 词尾; S-词尾)
21. plans / plan (/z/ 复数尾; S-词尾)
22. needs / need (/z/ 三单尾; S-词尾)
23. could / couldn' t (否定缩略尾; S-词尾)
24. will / we' ll (弱读与缩略; S-语流)

14.5.3 13.5.3 Listen and Repeat 001—216: 词尾、弱读、重音与意群

做法: 每句按 / 先慢读一遍, 再以正常语速读两遍; 第三遍遮住原句复述。重点只提示当组最重要的声音, 仍要保持句义完整。L&R 的正确答案就是题面脚本; 允许自然口音差异, 但不得漏掉信息词。

第 1 周 | L&R-001—018 | 词尾 /s/、/z/ 与完整信息

1. **L&R-001** The bus stops / near the science hall.
2. **L&R-002** Three maps / show different routes.
3. **L&R-003** The guide checks / every pass.
4. **L&R-004** New signs / mark the exits.
5. **L&R-005** The class starts / at eight.
6. **L&R-006** These tools / need careful storage.
7. **L&R-007** The nurse records / each change.
8. **L&R-008** Several teams / share one room.
9. **L&R-009** The device sends / data each hour.
10. **L&R-010** Those plants / grow in dry soil.
11. **L&R-011** The manager reviews / all requests.
12. **L&R-012** Four students / raise useful questions.
13. **L&R-013** The archive stores / old photographs.
14. **L&R-014** Our plans / include two extra sessions.
15. **L&R-015** The path crosses / a small bridge.
16. **L&R-016** Fresh samples / arrive on Fridays.
17. **L&R-017** The program offers / several choices.
18. **L&R-018** Both doors / close at six.

重点: 句末或词中 /s/、/z/ 不可吞掉; 第 3 遍只看关键词复述, 例如 guide—checks—pass。

第 2 周 | L&R-019—036 | 弱读 can, to, for, and

19. **L&R-019** We can meet / after lunch.
20. **L&R-020** The team can use / the smaller room.

21. **L&R-021** Please bring / a pen and a notebook.
22. **L&R-022** The form is for / new visitors.
23. **L&R-023** I need to send / the file today.
24. **L&R-024** They plan to revise / the schedule.
25. **L&R-025** The guide can explain / the first step.
26. **L&R-026** We have to check / the final number.
27. **L&R-027** The card is for / library access.
28. **L&R-028** You can ask / for extra help.
29. **L&R-029** The class meets / on Tuesday and Thursday.
30. **L&R-030** She wants to compare / both options.
31. **L&R-031** The office can process / simple requests.
32. **L&R-032** He needs to update / his address.
33. **L&R-033** The workshop is for / new staff and volunteers.
34. **L&R-034** We can wait / near the entrance.
35. **L&R-035** They hope to finish / before noon.
36. **L&R-036** The map is for / planning a safe route.

重点: can /kən/, to /tə/, for /fər/ 在非强调位置变轻; 信息重音落在 meet, lunch, smaller, room 等内容词。

第 3 周 | L&R-037—054 | 过去式词尾与时间线

37. **L&R-037** The team checked / the battery yesterday.
38. **L&R-038** The guide marked / the safe path.
39. **L&R-039** We watched / the short video twice.
40. **L&R-040** The staff cleaned / the hall after lunch.
41. **L&R-041** The lights changed / at sunset.
42. **L&R-042** The device stopped / during the test.
43. **L&R-043** The manager called / the support desk.
44. **L&R-044** The plants needed / more water.
45. **L&R-045** The visitors arrived / before noon.
46. **L&R-046** The team collected / twelve samples.
47. **L&R-047** The class discussed / two examples.
48. **L&R-048** The system failed / after the update.
49. **L&R-049** The driver waited / near the gate.
50. **L&R-050** The report included / a clear chart.
51. **L&R-051** The group compared / both designs.
52. **L&R-052** The office received / your message.
53. **L&R-053** The researcher measured / the distance.
54. **L&R-054** The town adopted / a new policy.

重点: 把 -ed 按 /t/、/d/、/ɪd/ 听成语法信息; 第 37、38、39 句分别练 checked、marked、watched 的清晰 /t/。

第 4 周 | L&R-055—072 | 疑问句语调与礼貌请求

55. **L&R-055** Where does the workshop / take place?

56. **L&R-056** When will the new route / begin?
57. **L&R-057** Could you explain / this term?
58. **L&R-058** Which form / should we use?
59. **L&R-059** Do visitors need / an appointment?
60. **L&R-060** Why did the screen / turn off?
61. **L&R-061** May I borrow / this reference book?
62. **L&R-062** How often / is the data updated?
63. **L&R-063** Can the office / change my booking?
64. **L&R-064** Who will review / the final draft?
65. **L&R-065** Is the entrance / open at night?
66. **L&R-066** What caused / the delay?
67. **L&R-067** Would you send / the map again?
68. **L&R-068** Where can we find / the instructions?
69. **L&R-069** Has the team / confirmed the date?
70. **L&R-070** How long / does the process take?
71. **L&R-071** Should I include / my reference number?
72. **L&R-072** Which option / seems more practical?

重点: Wh- 问句通常句末下降; 礼貌 yes/no 问句先保持平稳, 再在末尾轻升。不要把 Could you 读成两个重词。

第 5 周 | L&R-073—090 | 转折、对比与信息焦点

73. **L&R-073** The room is small, / but it is quiet.
74. **L&R-074** We need speed, / not more detail.
75. **L&R-075** The first route is shorter; / however, it is steeper.
76. **L&R-076** Most visitors arrived early, / whereas a few came late.
77. **L&R-077** The change reduced cost, / but not risk.
78. **L&R-078** The report describes a pattern, / not a cause.
79. **L&R-079** She chose the train / instead of the bus.
80. **L&R-080** The tool is simple, / yet it is effective.
81. **L&R-081** We observed growth, / not decline.
82. **L&R-082** The north entrance is open, / but the south entrance is closed.
83. **L&R-083** The plan is flexible, / although the deadline is fixed.
84. **L&R-084** The figures are precise, / but they may not be accurate.
85. **L&R-085** This task needs practice, / rather than guesswork.
86. **L&R-086** The policy helps students, / especially new commuters.
87. **L&R-087** The chart is useful; / still, it omits one region.
88. **L&R-088** The device measures heat, / not light.
89. **L&R-089** The team revised the form, / instead of replacing it.
90. **L&R-090** The finding is promising, / but it remains tentative.

重点: but, however, whereas, not, instead 后的信息常是答案关键; 先把转折前后各读成一个意群。

第 6 周 | L&R-091—108 | 数字、日期与数量

91. **L&R-091** The meeting begins / at fifteen past four.
92. **L&R-092** The sample included / fifty-two adults.
93. **L&R-093** Only thirteen forms / were incomplete.
94. **L&R-094** The fee is / forty dollars per month.
95. **L&R-095** The library opens / on the twenty-first of June.
96. **L&R-096** The route is / three point five kilometers long.
97. **L&R-097** Nearly sixty percent / preferred the later time.
98. **L&R-098** The room holds / one hundred and twenty people.
99. **L&R-099** The report lists / fourteen possible causes.
100. **L&R-100** The project lasted / for eighteen weeks.
101. **L&R-101** The train leaves / at six forty.
102. **L&R-102** The survey reached / two thousand households.
103. **L&R-103** The device costs / one hundred and fifty dollars.
104. **L&R-104** About thirty visitors / arrived after noon.
105. **L&R-105** The class meets / twice a week.
106. **L&R-106** The grant covers / seventy percent of the cost.
107. **L&R-107** The office closes / at seventeen thirty.
108. **L&R-108** The field trip is planned / for the third of May.

重点：先抓数词尾重音再抓单位；fifteen/fifty、thirteen/thirty 需刻意拉开尾音和节奏。

第 7 周 | L&R-109—126 | 词重音与词族

109. **L&R-109** The research / begins next month.
110. **L&R-110** They will research / local travel habits.
111. **L&R-111** The record / is in a locked drawer.
112. **L&R-112** Please record / the temperature every hour.
113. **L&R-113** The increase / was smaller than expected.
114. **L&R-114** Costs may increase / during winter.
115. **L&R-115** The present / includes a short guide.
116. **L&R-116** We will present / our findings tomorrow.
117. **L&R-117** The analysis / needs more evidence.
118. **L&R-118** The analyst / checked the figures.
119. **L&R-119** The decision / surprised the staff.
120. **L&R-120** The director decided / to postpone the launch.
121. **L&R-121** The proposal / is under review.
122. **L&R-122** They propose / a simpler solution.
123. **L&R-123** The response / was immediate.
124. **L&R-124** Residents responded / to the survey.
125. **L&R-125** The explanation / was clear.
126. **L&R-126** The guide explained / the procedure slowly.

重点：名词—动词同形词常靠重音区分；每对先夸张重音，再自然读。

第 8 周 | L&R-127—144 | 名词短语与右向扩展

127. **L&R-127** The rapid growth / of online services / changed daily routines.
128. **L&R-128** A clear record / of each repair / prevents confusion.
129. **L&R-129** The main cause / of the delay / remains unknown.
130. **L&R-130** A large number / of visitors / arrived before noon.
131. **L&R-131** The new policy / for public spaces / begins in July.
132. **L&R-132** A useful summary / of the findings / appears at the end.
133. **L&R-133** The effect / of heavy rain / was easy to see.
134. **L&R-134** A short list / of safety rules / hangs near the door.
135. **L&R-135** The difference / between the two methods / is significant.
136. **L&R-136** A gradual decline / in demand / followed the price rise.
137. **L&R-137** The purpose / of this activity / is active retrieval.
138. **L&R-138** A wide range / of local products / is available here.
139. **L&R-139** The location / of the emergency exit / is marked clearly.
140. **L&R-140** A change / in weather conditions / affected the route.
141. **L&R-141** The importance / of accurate records / cannot be ignored.
142. **L&R-142** A small group / of trained volunteers / led the tour.
143. **L&R-143** The result / of the first test / was encouraging.
144. **L&R-144** A lack / of clear evidence / limits the claim.

重点：先承重中心名词 (growth, record, cause), 再把 of 短语轻接到后面; 不要每个名词都重读。

第 9 周 | L&R-145—162 | 动词词块与介词连读

145. **L&R-145** The plan depends on / careful timing.
146. **L&R-146** The change resulted in / shorter lines.
147. **L&R-147** The delay resulted from / a power failure.
148. **L&R-148** The team contributed to / a useful report.
149. **L&R-149** The rule applies to / every visitor.
150. **L&R-150** The guide referred to / the map often.
151. **L&R-151** The course focuses on / practical language.
152. **L&R-152** The staff responded to / the request quickly.
153. **L&R-153** The form belongs to / the finance office.
154. **L&R-154** The result differs from / our estimate.
155. **L&R-155** The manager agreed with / the proposal.
156. **L&R-156** The team prepared for / the final test.
157. **L&R-157** The project benefits from / clear goals.
158. **L&R-158** The report deals with / a local issue.
159. **L&R-159** The device connects to / a central network.
160. **L&R-160** The new rule protects / users from fraud.
161. **L&R-161** The class participated in / a short discussion.
162. **L&R-162** The schedule allows for / regular review.

重点：把 depends_on、resulted_in 等作为整体节奏说出; 介词通常弱读, 不能被遗漏。

第 10 周 | L&R-163—180 | 从句边界与连接词

163. **L&R-163** Because the path was wet, / we walked slowly.
164. **L&R-164** Although the room was full, / everyone could sit.
165. **L&R-165** If the weather changes, / the trip will move indoors.
166. **L&R-166** When the file arrives, / please check the date.
167. **L&R-167** Since the sample is small, / the result is tentative.
168. **L&R-168** While the system is useful, / it needs revision.
169. **L&R-169** Unless the form is signed, / we cannot process it.
170. **L&R-170** Before the class begins, / turn off your phone.
171. **L&R-171** After the test ended, / the team compared notes.
172. **L&R-172** As the price rose, / demand declined.
173. **L&R-173** Even though she was tired, / she finished the task.
174. **L&R-174** Once the lights are green, / you may enter.
175. **L&R-175** Wherever the signal is weak, / the app stores data.
176. **L&R-176** So that everyone can hear, / the speaker uses a microphone.
177. **L&R-177** If you need help, / ask before the deadline.
178. **L&R-178** Although the method is old, / it remains effective.
179. **L&R-179** Because the bridge is closed, / buses use another road.
180. **L&R-180** When the alarm sounds, / leave by the nearest exit.

重点：从句结束处轻停，不把 because、although 读成独立重音词；第二意群才承载主句结论。

第 11 周 | L&R-181—198 | 校园与服务情境

181. **L&R-181** The registrar' s office / opens at nine.
182. **L&R-182** Please bring your student card / to the counter.
183. **L&R-183** The workshop room / is across from the café.
184. **L&R-184** You can reserve a laptop / for three hours.
185. **L&R-185** The advisor will discuss / your course plan.
186. **L&R-186** The library returns books / through this slot.
187. **L&R-187** The lab assistant / will show you the equipment.
188. **L&R-188** Your appointment / has moved to Friday.
189. **L&R-189** The shuttle stops / behind the main hall.
190. **L&R-190** Please submit the form / before five.
191. **L&R-191** The café accepts / both cards and cash.
192. **L&R-192** The tutor is available / after the lecture.
193. **L&R-193** The printer needs / more paper.
194. **L&R-194** The clinic is closed / on public holidays.
195. **L&R-195** You may borrow / two reference books.
196. **L&R-196** The lecture will begin / in a few minutes.
197. **L&R-197** The receptionist can answer / general questions.
198. **L&R-198** The building entrance / is temporarily restricted.

重点：专名和地点是听力笔记锚点；先复述“谁—在哪—做什么”，再追求逐字正确。

第 12 周 | L&R-199—216 | 研究表达与谨慎语气

199. **L&R-199** The evidence suggests / a possible link.
200. **L&R-200** The data do not prove / a causal relationship.
201. **L&R-201** The sample may not represent / the whole population.
202. **L&R-202** The result appears / to be reliable.
203. **L&R-203** The study raises / an important question.
204. **L&R-204** The pattern is likely / to change over time.
205. **L&R-205** The finding should be interpreted / with care.
206. **L&R-206** The report provides / preliminary evidence.
207. **L&R-207** The method could improve / future measurements.
208. **L&R-208** The results remain / difficult to explain.
209. **L&R-209** The analysis identifies / several limitations.
210. **L&R-210** The conclusion requires / further testing.
211. **L&R-211** The model offers / a useful framework.
212. **L&R-212** The evidence is insufficient / for a final claim.
213. **L&R-213** The authors acknowledge / two major limits.
214. **L&R-214** The estimate is based on / incomplete records.
215. **L&R-215** The report compares / results across regions.
216. **L&R-216** The data are consistent with / earlier findings.

重点: may, appears, likely, could, preliminary 是谨慎度信号; 不要在快速复述中把它们吞掉或改成绝对断言。

第 13 周 | L&R-217—234 | 研究动作与词尾清晰度

217. **L&R-217** Researchers observed / the birds at dawn.
218. **L&R-218** The team collected / samples from each site.
219. **L&R-219** The assistant measured / the distance twice.
220. **L&R-220** Students classified / the leaves by shape.
221. **L&R-221** The technician adjusted / the camera angle.
222. **L&R-222** The group compared / results after lunch.
223. **L&R-223** The program calculated / the average speed.
224. **L&R-224** The volunteers counted / every visitor.
225. **L&R-225** The scientist tested / a simple hypothesis.
226. **L&R-226** The report described / the method clearly.
227. **L&R-227** The team revised / the unclear question.
228. **L&R-228** The sensor detected / a sudden change.
229. **L&R-229** The software recorded / each response.
230. **L&R-230** The staff monitored / water levels daily.
231. **L&R-231** The study examined / two possible causes.
232. **L&R-232** The researchers repeated / the trial carefully.
233. **L&R-233** The editor corrected / several dates.
234. **L&R-234** The team reported / its findings publicly.

重点: 过去式词尾连到后面的元音时仍须可辨, 如 measured_the; 以“动作—对象”而非单词列表复述。

第 14 周 | L&R-235—252 | 重音转移与长词节奏

235. **L&R-235** The committee reached / a final decision.
236. **L&R-236** The director decided / to extend the deadline.
237. **L&R-237** The analysis revealed / a clear pattern.
238. **L&R-238** The analytical approach / saved time.
239. **L&R-239** The proposal needs / careful evaluation.
240. **L&R-240** The evaluator checked / each criterion.
241. **L&R-241** The explanation lacks / sufficient detail.
242. **L&R-242** The instructor explained / the complex procedure.
243. **L&R-243** The project improved / community access.
244. **L&R-244** The improvement / was immediately visible.
245. **L&R-245** The system requires / regular maintenance.
246. **L&R-246** The technician maintained / accurate records.
247. **L&R-247** The report concerns / environmental change.
248. **L&R-248** The environment changed / after the storm.
249. **L&R-249** The survey measured / participant satisfaction.
250. **L&R-250** Participants responded / honestly.
251. **L&R-251** The method supports / systematic review.
252. **L&R-252** The system was reviewed / last week.

重点：长词不需逐音节重读；先找一个主重音，次要音节压轻，保持同一意群速度。

第 15 周 | L&R-253—270 | 说明步骤与顺序

253. **L&R-253** First, / open the secure folder.
254. **L&R-254** Next, / select the latest file.
255. **L&R-255** Then, / check the date at the top.
256. **L&R-256** After that, / compare both versions.
257. **L&R-257** Finally, / save the revised document.
258. **L&R-258** Begin by / reading the instructions aloud.
259. **L&R-259** Before you continue, / confirm the settings.
260. **L&R-260** At this stage, / record every change.
261. **L&R-261** In the next step, / test the connection.
262. **L&R-262** Once the light turns green, / press start.
263. **L&R-263** Do not move the device / during the test.
264. **L&R-264** Keep the samples / away from direct heat.
265. **L&R-265** Use the smaller tool / for narrow spaces.
266. **L&R-266** Return the equipment / to its labeled shelf.
267. **L&R-267** If an error appears, / stop the process.
268. **L&R-268** Write down the code / before restarting.
269. **L&R-269** Ask the supervisor / if the warning returns.
270. **L&R-270** Complete the checklist / at the end.

重点：顺序词是结构路标；命令句不要读成平铺陈述，动词起始处给清晰但不过重的落点。

第 16 周 | L&R-271—288 | 服务对话中的礼貌与语用

271. **L&R-271** I' m afraid / the room is already booked.
272. **L&R-272** Would another time / work for you?
273. **L&R-273** I can check / the schedule again.
274. **L&R-274** Could you spell / your last name, please?
275. **L&R-275** Let me confirm / the reference number.
276. **L&R-276** I' ll send / a confirmation email today.
277. **L&R-277** The earliest available slot / is Thursday morning.
278. **L&R-278** You may need / to bring a photo ID.
279. **L&R-279** I' m sorry / that the system is slow.
280. **L&R-280** We appreciate / your patience.
281. **L&R-281** The request is being reviewed / right now.
282. **L&R-282** Please check back / after two o' clock.
283. **L&R-283** I can place you / on the waiting list.
284. **L&R-284** Would you like / a printed receipt?
285. **L&R-285** The fee can be paid / online.
286. **L&R-286** We' ll notify you / when a space opens.
287. **L&R-287** The service desk / is just around the corner.
288. **L&R-288** Is there anything else / I can clarify?

重点：礼貌语句的弱读和语调传递态度；I' m afraid 不是愤怒，Would you like...? 末尾自然上扬。

第 17 周 | L&R-289—306 | 环境与因果链

289. **L&R-289** Heavy rain / increased the river' s flow.
290. **L&R-290** The faster flow / carried more sediment.
291. **L&R-291** As a result, / the water became less clear.
292. **L&R-292** The plants received / less direct sunlight.
293. **L&R-293** Some species moved / toward deeper water.
294. **L&R-294** The change affected / the local food chain.
295. **L&R-295** Dry soil / absorbs water slowly.
296. **L&R-296** Without shade, / the surface gets hotter.
297. **L&R-297** Trees reduce heat / along busy streets.
298. **L&R-298** Green roofs hold / rainwater after storms.
299. **L&R-299** The new bins / make recycling easier.
300. **L&R-300** Buses produce / less pollution per passenger.
301. **L&R-301** The program encourages / shorter car trips.
302. **L&R-302** The park protects / a small wetland.
303. **L&R-303** The region depends on / seasonal rainfall.
304. **L&R-304** A warmer climate / changes migration patterns.
305. **L&R-305** The project measures / energy use each month.
306. **L&R-306** Careful planning / can conserve local resources.

重点：每句抓一个因果箭头；as a result 后的结果是重音中心，跟读后用三句复述链条。

第 18 周 | L&R-307—324 | 科学描述与被动语态

307. **L&R-307** The samples were stored / at low temperatures.
308. **L&R-308** Each container was labeled / with a date.
309. **L&R-309** The surface was examined / under a bright light.
310. **L&R-310** The results were compared / across two groups.
311. **L&R-311** The device was tested / before the field trip.
312. **L&R-312** Several variables were controlled / during the trial.
313. **L&R-313** The data were collected / over six weeks.
314. **L&R-314** The chart was revised / after the review.
315. **L&R-315** The solution was mixed / for thirty seconds.
316. **L&R-316** The temperature was recorded / every morning.
317. **L&R-317** The method was described / in the appendix.
318. **L&R-318** The model was designed / to simplify the process.
319. **L&R-319** The final figures were checked / independently.
320. **L&R-320** The findings were published / in a local journal.
321. **L&R-321** The equipment was transported / by rail.
322. **L&R-322** The material was divided / into thin layers.
323. **L&R-323** The conclusion was supported / by multiple observations.
324. **L&R-324** The procedure was repeated / by another team.

重点：被动句中 was/were 常弱读，但 -ed 词尾和介词短语必须清楚；问自己“谁做”不重要时才自然用被动。

第 19 周 | L&R-325—342 | 政策、比较与限制

325. **L&R-325** The new policy / applies to all residents.
326. **L&R-326** The previous rule / affected only visitors.
327. **L&R-327** This option is cheaper, / but less flexible.
328. **L&R-328** The later bus is slower, / yet more reliable.
329. **L&R-329** The program offers / equal access to training.
330. **L&R-330** The change reduces cost / without reducing quality.
331. **L&R-331** The rule limits parking / near the entrance.
332. **L&R-332** The policy protects / children from traffic.
333. **L&R-333** The new route serves / more rural communities.
334. **L&R-334** The first plan requires / fewer staff members.
335. **L&R-335** The second plan creates / more evening appointments.
336. **L&R-336** The policy includes / one important exception.
337. **L&R-337** The system is accessible / to screen-reader users.
338. **L&R-338** The proposal remains / under discussion.
339. **L&R-339** The service is free / for eligible families.
340. **L&R-340** The office restricts / access after six.
341. **L&R-341** The rule balances / safety and convenience.
342. **L&R-342** The final decision / depends on public feedback.

重点：比较项与限制词 (only, all, without, exception, eligible) 不可弱化到听不见；它们常决定细节题答案。

第 20 周 | L&R-343—360 | 会议、协作与行动项

343. **L&R-343** Let' s begin / with the main update.
344. **L&R-344** Could someone summarize / the previous meeting?
345. **L&R-345** We need to decide / who will contact the vendor.
346. **L&R-346** I can take responsibility / for the budget.
347. **L&R-347** The design team / will revise the draft.
348. **L&R-348** Please add your comments / by Friday.
349. **L&R-349** We should clarify / the final deadline.
350. **L&R-350** The group agreed / to test the smaller version.
351. **L&R-351** Let' s postpone / the less urgent task.
352. **L&R-352** The manager will follow up / with the client.
353. **L&R-353** We can allocate / more time to training.
354. **L&R-354** The team needs / a clearer procedure.
355. **L&R-355** Please share the notes / after the call.
356. **L&R-356** The next meeting / is set for Monday.
357. **L&R-357** We have reached / a practical solution.
358. **L&R-358** The assistant will coordinate / the room booking.
359. **L&R-359** Let' s review / the risks before we close.
360. **L&R-360** Everyone should know / the next step.

重点：会议中动词是笔记骨架 (decide, take, revise, follow up); 影子跟读后, 用四个动词复述行动项。

第 21 周 | L&R-361—378 | 听辨连读与功能词

361. **L&R-361** Turn it on / before you leave.
362. **L&R-362** Put it away / after the test.
363. **L&R-363** Write it down / in your notebook.
364. **L&R-364** Look at the chart / on the screen.
365. **L&R-365** Pick up the form / at the desk.
366. **L&R-366** Take it out / of the folder.
367. **L&R-367** Check in / ten minutes early.
368. **L&R-368** Log on / with your student account.
369. **L&R-369** Fill in / every required field.
370. **L&R-370** Hand it in / before the deadline.
371. **L&R-371** Go over / the answer once more.
372. **L&R-372** Find out / what caused the error.
373. **L&R-373** Set up / the camera near the window.
374. **L&R-374** Bring up / the latest version.
375. **L&R-375** Back up / the file every day.
376. **L&R-376** Carry on / with the next question.
377. **L&R-377** Point out / the missing detail.
378. **L&R-378** Cut down on / unnecessary printing.

重点：短动词与小品词连成一拍; 不要把 turn it on 切成三段。遮住文本后说出“动作 + 对象 + 时间”。

第 22 周 | L&R-379—396 | 叙事、态度与转折

379. **L&R-379** At first, / the plan seemed simple.
380. **L&R-380** Then the weather / changed without warning.
381. **L&R-381** The team considered / cancelling the trip.
382. **L&R-382** Instead, / they chose a safer route.
383. **L&R-383** The guide explained / the new plan calmly.
384. **L&R-384** Most visitors accepted / the change quickly.
385. **L&R-385** One family, however, / needed extra help.
386. **L&R-386** The staff found / a quieter waiting area.
387. **L&R-387** By noon, / the rain had stopped.
388. **L&R-388** The group returned / later than expected.
389. **L&R-389** Despite the delay, / everyone stayed positive.
390. **L&R-390** The experience revealed / a weakness in the plan.
391. **L&R-391** Afterward, / the team updated the checklist.
392. **L&R-392** They also added / a backup contact number.
393. **L&R-393** The revised plan / was easier to follow.
394. **L&R-394** As a result, / the next trip ran smoothly.
395. **L&R-395** The coordinator noted / one final lesson.
396. **L&R-396** Clear communication / prevented further confusion.

重点:故事靠时间词和转折词推进;第 3 遍不要逐句背诵,用 plan→weather→new route→lesson 复述。

第 23 周 | L&R-397—414 | 综合学术段落

397. **L&R-397** The study examined / daily travel decisions.
398. **L&R-398** Researchers surveyed / residents in four districts.
399. **L&R-399** They asked about / cost, time, and safety.
400. **L&R-400** Most participants preferred / reliable service.
401. **L&R-401** However, / preferences varied by location.
402. **L&R-402** Rural residents emphasized / travel distance.
403. **L&R-403** City residents mentioned / crowded stations.
404. **L&R-404** The data suggest / several possible causes.
405. **L&R-405** They do not establish / one final explanation.
406. **L&R-406** The authors recommend / further comparison.
407. **L&R-407** They also acknowledge / a limited sample.
408. **L&R-408** The report provides / a useful starting point.
409. **L&R-409** Its framework can guide / later research.
410. **L&R-410** The findings may inform / local planning.
411. **L&R-411** They should not be used / without context.
412. **L&R-412** The next study will include / more regions.
413. **L&R-413** That change may improve / the comparison.
414. **L&R-414** For now, / the conclusion remains cautious.

重点:连续 18 句分三段影子跟读:研究目的—主要发现—限制与建议。第 3 遍 45 秒中文概括后,再用 3 句英文复述。

第 24 周 | L&R-415—432 | 终局复述与自我校准

415. **L&R-415** I can identify / the main claim quickly.
416. **L&R-416** I can locate / evidence in a short text.
417. **L&R-417** I can notice / a change in word form.
418. **L&R-418** I can build / a complete sentence.
419. **L&R-419** I can hear / important word endings.
420. **L&R-420** I can follow / an idea across clauses.
421. **L&R-421** I can use / cautious academic language.
422. **L&R-422** I can revise / one error at a time.
423. **L&R-423** I can explain / why an answer works.
424. **L&R-424** I can transfer / a phrase to speaking.
425. **L&R-425** I will review / difficult items tomorrow.
426. **L&R-426** I will retrieve / words without looking.
427. **L&R-427** I will record / my recurring errors.
428. **L&R-428** I will prioritize / high-value practice.
429. **L&R-429** I will ask / for clear feedback.
430. **L&R-430** I will compare / my first and second attempts.
431. **L&R-431** I will use / evidence before I decide.
432. **L&R-432** I will continue / with a realistic routine.

重点：最后一组不是口号。任选 6 句录音，核对词尾、意群和信息重音；第二天不看稿重录，比较是否仍漏词。

14.6 13.6 词族迁移实验室：把一个词用进四种任务

这一节不是再背一张词表，而是对 13.2 的 24 个词汇组做**意义保持改写**、**搭配修复**、**词形判断**和**微型输出**。每周四题以不同方式要求你调用同一组词；先在 4 分钟内独立完成，再看参考答案。WLT (Word-family Lab Transfer) 答对但只靠翻译、不知道为何选此词形，仍标为 G。

14.6.1 第 1—4 周 | 基础词性与逻辑

第 1 周：observe / record / access

1. **WLT-001 | 词形判断 | V-词性：**The volunteer _____ (record) each visitor's arrival time yesterday.
答案：recorded。yesterday 要求过去式；不要因名词 record 的重音而漏掉动词词尾。
2. **WLT-002 | 搭配修复 | 搭配：**改正 Visitors can access to the online map at any time.
答案：Visitors can access the online map at any time. 或 Visitors have access to the online map at any time. 两个结构不能混合。
3. **WLT-003 | 意义保持 | V-义：**用 observation 改写：What the staff noticed helped them change the schedule.
答案：The staff's observations helped them change the schedule. 注意名词需复数以承接多个注意到的事实。
4. **WLT-004 | 微型输出 | G-骨架：**用 attend、require 写一条不超过 22 词的活动提醒。

参考: All new volunteers must attend the safety session because the equipment requires careful handling. 两个有限谓语是 must attend 与 requires.

第 2 周: vary / increase / decline

5. **WLT-005 | 语境选择 | V-义:** 在 decline、decrease、refuse 中填空: The number of late buses began to _____ after the new schedule.

答案: decline 或 decrease; 这里是数量趋势。refuse 只能表示拒绝。

6. **WLT-006 | 词族链 | V-词形:** 完成: Demand _____ by season, and this _____ affects staffing.

答案: varies; variation. 前者作三单谓语, 后者是 this 后的名词。

7. **WLT-007 | 意义保持 | 搭配:** 用 an increase in 改写: More residents used the evening service.

答案: There was an increase in the number of residents using the evening service. 不写 *an increase of residents*.

8. **WLT-008 | 微型输出 | G-连接:** 用 stable 与 although 写一句价格说明。

参考: Although fuel costs changed, the ticket price remained stable throughout the month. although 从句后不再加 but。

第 3 周: affect / effect / indicate

9. **WLT-009 | 最小对比 | V-词性:** 填空: The construction noise _____ sleep, and its _____ was strongest at night.

答案: affected; effect. 第一个空是动作, 第二个空是 its 后的名词。

10. **WLT-010 | 力度校准 | V-义:** 把过强句改为使用 indicate: The chart proves that every resident prefers the new route.

答案: The chart indicates that many residents may prefer the new route. 图表通常表明趋势, 不自动证明“每一位”。

11. **WLT-011 | 搭配修复 | 搭配:** 改正 The survey contributed the improvement of access.

答案: The survey contributed to improving access. 或 The survey contributed to the improvement of access. to 是介词。

12. **WLT-012 | 微型输出 | G-连接:** 用 result from 与 result in 写一条两步因果链。

参考: Long waits result from limited staff and result in lower visitor satisfaction. 从原因到结果时介词方向不能倒置。

第 4 周: compare / contrast / restrict

13. **WLT-013 | 介词选择 | 搭配:** 完成: The report compares weekday travel _____ weekend travel.

答案: with. compare A with B 用于实际比较; compare A to B 更常用于比喻。

14. **WLT-014 | 词形修复 | V-词形:** 改正 The restricted was introduced after two accidents.

答案: The restriction was introduced after two accidents. 冠词后需要名词。

15. **WLT-015 | 意义保持 | V-义:** 用 prefer 改写: Most users chose the shorter form rather than the longer form.

答案: Most users preferred the shorter form to the longer form. 固定为 prefer A to B.

16. **WLT-016 | 微型输出 | G-骨架:** 用 sufficient、alternative 写一条资源不足时的建议。

参考: If the current room is not sufficiently large, we should find an

alternative to holding the event there. 条件从句不使用 will。

14.6.2 第 5—8 周 | 分类、过程、空间与系统

第 5 周: classify / identify / distinct

17. **WLT-017** | 词形判断 | **V-词性**: The specimens were _____ (classify) by size before analysis.

答案: classified。were 后为过去分词; 不要误填名词 classification。

18. **WLT-018** | 精确选择 | **V-义**: identify 还是 define: The glossary helps readers _____ unfamiliar technical terms.

答案: define。词汇表说明词义; identify 是辨认对象或来源。

19. **WLT-019** | 意义保持 | **搭配**: 用 distinct from 改写: The two routes are clearly different.

答案: The two routes are distinct from each other. distinct 不是距离词 distant。

20. **WLT-020** | 微型输出 | **G-骨架**: 用 feature 写一句带关系从句的产品描述。

参考: One feature that helps new users is a map that identifies every exit. 两个 that 都有清楚回指。

第 6 周: procedure / modify / evaluate

21. **WLT-021** | 词族链 | **V-词形**: 完成: After the first trial, the team _____ the procedure and completed a final _____.

答案: modified; evaluation。第一个需过去动词, 第二个是冠词后的名词。

22. **WLT-022** | 搭配修复 | **搭配**: 改正 Please follow the procedure of reporting an error to the manager.

答案: Please follow the procedure for reporting an error to the manager. procedure for doing 说明步骤用途。

23. **WLT-023** | 意义保持 | **V-义**: 用 obtain 改写: The team got permission before recording interviews.

答案: The team obtained permission before recording interviews. obtain 较正式, 常与许可、信息、结果搭配。

24. **WLT-024** | 微型输出 | **G-连接**: 用 only then 写三步中的最后一步。

参考: First, verify the file; next, modify the settings; only then should you evaluate the result. only then 置首时主句倒装。

第 7 周: distribute / migrate / route

25. **WLT-025** | 搭配选择 | **搭配**: 完成: Emergency supplies were distributed _____ six villages.

答案: across 或 among; 若强调地理范围, 优先 across, 不写 distributed in six villages。

26. **WLT-026** | 词形判断 | **V-词形**: Seasonal _____ (migrate) begins when food becomes scarce.

答案: migration。句首名词短语作主语。

27. **WLT-027** | 意义保持 | **V-义**: 用 transport 改写: Rail moves heavy equipment more safely than small trucks.

答案: Rail transport moves heavy equipment more safely than small trucks. 此处 transport 是名词中心。

28. **WLT-028** | 微型输出 | **G-连接**: 用 because 说明改道。

参考: Because the coastal route was flooded, drivers used an inland route through the northern region. 不要把 because 后写成名词短语。

第 8 周: function / interact / regulate

29. **WLT-029 | 词性判断 | V-词性:** The main _____ (function) of the valve is to regulate pressure.

答案: function. main 后名词; to regulate 说明功能。

30. **WLT-030 | 搭配修复 | 搭配:** 改正 The sensors interact each other through a network.

答案: The sensors interact with each other through a network. interact with 缺介词会损失关系信息。

31. **WLT-031 | 意义保持 | V-义:** 用 maintenance 改写: Keeping the system in good condition takes regular work.

答案: Regular maintenance keeps the system in good condition. 把冗长动作压成名词主语。

32. **WLT-032 | 微型输出 | G-骨架:** 用 depend on 写一句主语为单数的系统说明。

参考: The heating system depends on a network that regulates temperature automatically. system 单数对应 depends。

14.6.3 第 9—12 周 | 资源、研究、参与与风险

第 9 周: consume / conserve / sustain

33. **WLT-033 | 语境选择 | V-义:** The factory uses less electricity now. 用 consume 改写。

答案: The factory now consumes less electricity. consume 此处是消耗资源, 不是“消费者”。

34. **WLT-034 | 搭配修复 | 搭配:** 改正 The campaign encourages people to conserve of water.

答案: The campaign encourages people to conserve water. conserve 直接带资源作宾语。

35. **WLT-035 | 词形转换 | V-词形:** 完成: A plan is _____ when it can be _____ over many years.

答案: sustainable; sustained. 前者是性质, 后者是被持续维持的结果。

36. **WLT-036 | 微型输出 | G-连接:** 用 generate 和 therefore 写一条能源结论。

参考: The panels generate electricity during the day; therefore, the building consumes less power from the grid. 分号前后都是完整句。

第 10 周: hypothesis / sample / revise

37. **WLT-037 | 单复数 | V-词形:** 完成: The study tested two _____ (hypothesis) with separate samples.

答案: hypotheses. -is 结尾的希腊来源词常变 -es。

38. **WLT-038 | 搭配修复 | 搭配:** 改正 Researchers collected a sample of fifty participants from the data.

答案: Researchers collected data from a sample of fifty participants. sample 是人群/对象, 数据从他们而来。

39. **WLT-039 | 意义保持 | V-义:** 用 estimate 改写: The early cost number was not

final.

答案: The early cost was an estimate, not a final figure. 估计与精确核实不同。

40. **WLT-040** | 微型输出 | **G-连接:** 用 if 写研究修订条件。

参考: If the pilot reveals unclear questions, the researchers will revise the survey before collecting more data. reveals 为三单。

第 11 周: participate / policy / benefit

41. **WLT-041** | 搭配选择 | **搭配:** 完成: More residents will participate _____ the discussion if it is held online.

答案: in. participate in 是完整词块。

42. **WLT-042** | 词形判断 | **V-词性:** Free transit passes are _____ (benefit) to students with late classes.

答案: beneficial. are 后需要形容词, 不用名词 benefit。

43. **WLT-043** | 意义保持 | **V-义:** 用 access 改写: Rural residents can now use medical advice online.

答案: Rural residents now have access to medical advice online. access 强调获得机会。

44. **WLT-044** | 微型输出 | **G-骨架:** 用 advocate 与 because 写一条政策主张。

参考: Several parents advocate for a later start time because the current bus schedule is unreliable. 名词复数主语用 advocate。

第 12 周: risk / prevent / adapt

45. **WLT-045** | 词族链 | **V-词形:** 完成: The new guardrail is a _____ (prevent) measure that reduces the _____ of falls.

答案: preventive; risk. 第一个修饰 measure, 第二个在 the 后作名词。

46. **WLT-046** | 搭配修复 | **搭配:** 改正 The rule prevents visitors entering the laboratory.

答案: The rule prevents visitors from entering the laboratory. 补 from 和动名词。

47. **WLT-047** | 意义保持 | **V-义:** 用 respond 改写: The office gave a quick answer to the complaint.

答案: The office responded quickly to the complaint. 名词短语转为动词结构。

48. **WLT-048** | 微型输出 | **G-连接:** 用 adapt to 和 unless 写一句工作安排。

参考: Unless the team adapts to the new schedule, it will continue to miss the early delivery window. unless 含否定条件。

14.6.4 第 13—16 周 | 解释、时间、语言与结构

第 13 周: interpret / assume / acknowledge

49. **WLT-049** | 力度判断 | **V-义:** 在 assume 与 conclude 中选择: We should not _____ that one delayed bus represents the entire system.

答案: assume. 一个例子不足以形成结论; 此处提醒不要未经检验地假定。

50. **WLT-050** | 词形转换 | **V-词形:** 完成: The chart allows several _____ (interpret), but one is more consistent with the evidence.

答案: interpretations. several 后需要复数名词。

51. **WLT-051** | 搭配修复 | **搭配:** 改正 The author acknowledged about the limit of

the survey.

答案: The author acknowledged the limit of the survey. acknowledge 直接带宾语。

52. **WLT-052 | 微型输出 | G-连接:** 用 perceive 与 although 写一句不同群体的看法。

参考: Although the rule is simple, some users perceive it as unfair because they work at night. perceive A as B 中 as 不可漏。

第 14 周: emerge / evolve / persist

53. **WLT-053 | 词性判断 | V-词性:** A new pattern _____ (emerge) after the team reviewed three years of records.

答案: emerged. 该动词不及物, 不能写 *emerged a new pattern*。

54. **WLT-054 | 意义保持 | V-义:** 用 evolve from ... to ... 改写: The informal practice gradually became an official policy.

答案: The informal practice evolved from a habit to an official policy. 强调渐变, 不是瞬间替代。

55. **WLT-055 | 词族链 | V-词形:** 完成: The species is _____ (persist) because it can survive repeated dry seasons; its _____ surprised researchers.

答案: persistent; persistence. 表语形容词与所有格后名词。

56. **WLT-056 | 微型输出 | G-连接:** 用 previous 和 subsequent 写一条时间对照。

参考: Previous surveys found a minor concern, but subsequent interviews revealed a larger access problem. 对照词应指向不同时间点。

第 15 周: acquire / context / retain

57. **WLT-057 | 语境选择 | V-义:** 用 acquire 或 retain: Learners may _____ a phrase quickly but fail to _____ it after a month.

答案: acquire; retain. 前者是获得, 后者是保留。

58. **WLT-058 | 搭配修复 | 搭配:** 改正 The phrase sounds natural only on this context.

答案: The phrase sounds natural only in this context. 固定 in context.

59. **WLT-059 | 词形判断 | V-词性:** Daily speaking practice improves _____ (fluent) more than silent rereading alone.

答案: fluency. improves 后需要抽象名词。

60. **WLT-060 | 微型输出 | G-骨架:** 用 translate ... into ... 写一句提醒。

参考: Do not translate every Chinese phrase into English word by word; first ask what function it serves in context. 两个命令句均有明确动词。

第 16 周: consist / density / transfer

61. **WLT-061 | 结构修复 | G-骨架:** 改正 The course is consisted of six short units.

答案: The course consists of six short units. consist of 不用被动。

62. **WLT-062 | 词族链 | V-词形:** 完成: The city center is _____ populated, so population _____ is high there.

答案: densely; density. 副词修饰分词, 名词作主语补足信息。

63. **WLT-063 | 意义保持 | V-义:** 用 flexible 改写: The schedule can change when an urgent problem occurs.

答案: The schedule is flexible enough to change when an urgent problem occurs. flexible 可描述安排, 不只描述材料。

64. **WLT-064 | 微型输出 | G-连接:** 用 transfer 与 while 写一句热量说明。

参考: While the outer layer blocks wind, the middle layer transfers heat away from the device. 两个层的功能以并列对比呈现。

14.6.5 第 17—20 周 | 决策、健康、设计与质量

第 17 周: allocate / efficient / priority

65. **WLT-065** | 搭配修复 | 搭配: 改正 The director allocated the repair fund for safety training.

答案: The director allocated the repair fund to safety training. allocate A to B 指明去向。

66. **WLT-066** | 词族判断 | V-词性: The new checklist improves _____ (efficient) by removing repeated steps.

答案: efficiency. improves 后要名词; efficiently 是副词。

67. **WLT-067** | 意义保持 | V-义: 用 within a budget 改写: The team did not spend more money than it had planned.

答案: The team stayed within its budget. 用最自然的名词搭配压缩意义。

68. **WLT-068** | 微型输出 | G-连接: 用 priority 与 if 写一句资源分配原则。

参考: If funds are limited, the team should give priority to repairs that protect public safety. 条件句中被动 are limited 表资源状态。

第 18 周: recover / exposure / motivate

69. **WLT-069** | 搭配选择 | 搭配: 完成: It took the runner two months to recover _____ the injury.

答案: from. 疾病、损伤和挫折后用 recover from.

70. **WLT-070** | 词形判断 | V-词形: Repeated _____ (expose) to noise can reduce sleep quality.

答案: exposure. Repeated 后需不可数抽象名词。

71. **WLT-071** | 意义保持 | V-义: 用 monitor 改写: The nurse checked the patient's temperature every hour.

答案: The nurse monitored the patient's temperature every hour. monitor 表持续追踪, 不是一次看一眼。

72. **WLT-072** | 微型输出 | G-骨架: 用 motivate A to B 写一句学习建议。

参考: Visible progress can motivate learners to review difficult words instead of avoiding them. can 后动词原形; instead of 后动名词。

第 19 周: implement / refine / innovation

73. **WLT-073** | 介词修复 | 搭配: 改正 The office implemented the new system into every branch.

答案: The office implemented the new system in every branch. 或 implemented the system across every branch. implement 不接 into.

74. **WLT-074** | 词族链 | V-词形: 完成: User feedback led the team to _____ the design; the final _____ made the form easier to use.

答案: refine; refinement. to 后原形, final 后名词。

75. **WLT-075** | 意义保持 | V-义: 用 prototype 改写: Before mass production, the team built a small working model.

答案: Before mass production, the team built a small working prototype.

原型可以工作，但不是最终版本。

76. **WLT-076 | 微型输出 | G-连接**: 用 innovative 与 because 写一句评估。

参考: The approach is innovative because it combines existing tools to solve a local problem. 创新不等于复杂。

第 20 周: accurate / valid / verify

77. **WLT-077 | 最小对比 | V-义**: 在 accurate 与 precise 中选择: The clock gives times to the nearest second, but it is not _____ because it is five minutes slow.

答案: accurate. 它可以很精细 (precise) 却偏离真实时间。

78. **WLT-078 | 词族判断 | V-词形**: Using the same instructions improves the _____ (valid) of the comparison.

答案: validity. 所有格后需要名词。

79. **WLT-079 | 搭配修复 | 搭配**: 改正 The editor verified if the number was correct.

答案: The editor verified that the number was correct. 或 verified the number. verify 更自然接宾语或 that 从句。

80. **WLT-080 | 微型输出 | G-连接**: 用 consistent with 与 before 写一句核对规则。

参考: Before publishing the figure, check that it is consistent with the original record. that 从句说明核对内容。

14.6.6 第 21—24 周 | 协作、媒体、综合与保持

第 21 周: collaborate / assign / responsibility

81. **WLT-081 | 搭配修复 | 搭配**: 改正 The two offices collaborated the event.

答案: The two offices collaborated on the event. 或 collaborated to organize the event. 需要介词或不定式说明协作内容。

82. **WLT-082 | 词形判断 | V-词形**: Each _____ (assign) has a deadline and one responsible person.

答案: assignment. Each 后单数名词。

83. **WLT-083 | 意义保持 | V-义**: 用 coordinate 改写: One assistant made sure that every team used the same schedule.

答案: One assistant coordinated the schedule for every team. coordinate 强调跨人或跨环节的对齐。

84. **WLT-084 | 微型输出 | G-骨架**: 用 take responsibility for 写一句错误处理原则。

参考: When an error occurs, the person who notices it should take responsibility for reporting it promptly. 关系从句中的 notices 对应单数 person.

第 22 周: source / bias / claim

85. **WLT-085 | 力度判断 | V-义**: 把 This post proves the policy failed. 改为含 claim 和证据意识的句子。

答案: This post claims that the policy failed, but readers should examine its evidence and source. 区分作者主张与可验证事实。

86. **WLT-086 | 词族判断 | V-词形**: A balanced report tries to reduce _____ (bias) in both its language and its sources.

答案: bias. 此处是不可数名词; biased 才是形容词。

87. **WLT-087 | 搭配修复 | 搭配**: 改正 The article was published on a reliable

source.

答案: The article was published by a reliable source. 或 The article appeared in a reliable publication. on 不搭配发布者。

88. **WLT-088 | 微型输出 | G-连接:** 用 evaluate 与 rather than 写一句阅读策略。

参考: Evaluate the author's evidence rather than sharing a claim because it sounds familiar. rather than 后动名词或平行结构均可。

第 23 周: synthesize / framework / relevant

89. **WLT-089 | 意义保持 | V-义:** 用 synthesize 改写: The writer combined the findings of four studies and explained their relationship.

答案: The writer synthesized findings from four studies and explained their relationship. synthesize 要体现跨来源关系。

90. **WLT-090 | 词形判断 | V-词性:** The course gives students a useful _____ (framework) for comparing arguments.

答案: framework. a useful 后单数名词。

91. **WLT-091 | 搭配修复 | 搭配:** 改正 Keep only evidence relevant with the question.

答案: Keep only evidence relevant to the question. 固定 relevant to.

92. **WLT-092 | 微型输出 | G-连接:** 用 perspective 与 while 写一句综合表达。

参考: While one perspective emphasizes cost, another focuses on access for people with limited travel options. 需要两个清楚对照的视角。

第 24 周: retrieve / reinforce / prioritize

93. **WLT-093 | 词形判断 | V-词形:** Quick _____ (retrieve) is a better test of learning than recognition.

答案: retrieval. 形容词 Quick 后需要名词。

94. **WLT-094 | 搭配修复 | 搭配:** 改正 Spaced review reinforces to remember new words.

答案: Spaced review reinforces memory for new words. 或 Spaced review reinforces new-word learning. reinforce 直接带名词宾语。

95. **WLT-095 | 意义保持 | V-义:** 用 diagnose 改写: The quiz showed that my main weakness was word endings.

答案: The quiz diagnosed word endings as my main weakness. 诊断后要指向具体可修复的问题。

96. **WLT-096 | 微型输出 | G-连接:** 用 prioritize、transfer、so that 写本章后的学习安排。

参考: I will prioritize phrases that transfer to speaking so that my review time improves both recognition and output. so that 后要有明确结果。

14.6.7 13.6.2 精听抄写微循环 001—096: 先听, 再补, 再说

以下 96 条是**独立听写脚本**, 与 L&R 的跟读目标不同: 请让 TTS 或同伴按正常语速读每组 4 句两遍; 第一次只写关键词, 第二次补功能词和词尾, 最后看脚本订正。每组都要求写出一个“最可能漏掉的声音”。答案即脚本本身, 重点在斜杠后的语音或语法触发点。

组	听写脚本与订正焦点
D01	The office opens at eight. / The workshop begins at nine. / Please bring a photo ID. / The map is on the counter. 焦点: opens/begins 的三单尾。
D02	We can meet after lunch. / You need to sign the form. / The guide is for new visitors. / Bring a pen and a notebook. 焦点: 弱读 can/to/for/and。
D03	The team checked the file. / The staff watched the screen. / The system stopped at noon. / The driver waited outside. 焦点: 过去式 /t/、/d/。
D04	Where does the bus stop? / Could you repeat that? / Which room should we use? / Is the office open today? 焦点: 疑问句末调。
D05	The first route is short. / The second route is safer. / The chart shows a trend. / The report does not prove a cause. 焦点: 对比重音与 not。
D06	Fifteen people replied. / Fifty people attended. / The fee is forty dollars. / The class lasts thirteen weeks. 焦点: teen/ty 节奏。
D07	The research begins tomorrow. / They will research local habits. / Please record each answer. / The record is complete. 焦点: 名动词重音。
D08	The number of visitors increased. / A lack of evidence limits the claim. / The purpose of the task is clear. / The change in weather mattered. 焦点: 名词短语中心。
D09	The plan depends on timing. / The change resulted in delays. / The problem resulted from rain. / The team responded to the request. 焦点: 动词—介词块。
D10	Because the path was wet, we slowed down. / Although the room was full, we entered. / If the weather changes, we will wait. / Unless the form is signed, we cannot proceed. 焦点: 从句边界。
D11	The samples were stored safely. / The data were collected weekly. / The figures were checked twice. / The report was published yesterday. 焦点: 被动中的弱读 were/was。

组	听写脚本与订正焦点
D12	The evidence suggests a link. / The result may be reliable. / The sample is limited. / The conclusion needs testing. 焦点: 谨慎词 may、suggests.
D13	The manager assigned each task. / The assistant clarified the rule. / The team reached an agreement. / The meeting ends at four. 焦点: 动作词尾。
D14	The policy improves access. / The route reduces fuel use. / The program benefits families. / The rule has one exception. 焦点: 三单与限制信息。
D15	First, open the folder. / Next, check the date. / Then, save the file. / Finally, close the program. 焦点: 顺序词与命令动词。
D16	I' m afraid the room is booked. / Could you spell your name? / I' ll send a confirmation. / We appreciate your patience. 焦点: 礼貌弱读。
D17	Heavy rain changed the river. / The flow carried sediment. / The water became cloudy. / The plants received less light. 焦点: 因果链关键词。
D18	Each container was labeled. / The device was tested. / The temperature was recorded. / The trial was repeated. 焦点: -ed 与被动结构。
D19	The new rule applies to everyone. / The old route was slower. / This option is cheaper. / The policy remains under review. 焦点: 比较形容词。
D20	We need a clear deadline. / Please add your comments. / The manager will follow up. / The next meeting is Monday. 焦点: 会议行动项。
D21	Turn it on before class. / Write it down now. / Fill in every field. / Hand it in today. 焦点: 短动词连读。
D22	At first, the plan was simple. / Then the weather changed. / Instead, we chose another route. / In the end, the trip succeeded. 焦点: 叙事信号。
D23	Researchers surveyed four districts. / Preferences varied by location. / The data suggest several causes. / The authors recommend more study. 焦点: 学术动词。

组	听写脚本与订正焦点
D24	I can find the main claim. / I can build a complete sentence. / I will review difficult words. / I will continue the routine. 焦点: can/will 弱读与未来计划。

听写订正算法: 每组只记录一个最高价值错误: 漏词尾记 S-词尾, 把弱读词写成实词记 S-语流, 因果/转折写反记 G-连接, 拼写不完整记 V-词形。隔天仅重听错组, 不按顺序重刷全部 96 句。

14.6.8 13.6.3 24 周句子诊断台: 发现“看起来像英语”的错误

每题先用 20 秒在不看解释的情况下修改。这里的错误不是为了考偏门规则, 而是来自词族、搭配和句法骨架交界处最常见的失分点。改后把正确句朗读一次, 并说出你改的是“槽位、关系还是词尾”。

- ED-01 | 第 1 周 | V-词性:** The volunteer made an observe of the arrivals.
改正: The volunteer made an observation of the arrivals.
为什么: an 后须名词; observe 是动词, observation 才能放进 make an ... 槽位。
- ED-02 | 第 2 周 | V-词形:** The number of visitors have increased last month.
改正: The number of visitors increased last month.
为什么: 主语中心是单数 number; last month 明确过去时间, 优先一般过去时。
- ED-03 | 第 3 周 | 搭配:** The change had a strong affect on waiting time.
改正: The change had a strong effect on waiting time.
为什么: have an effect on 中需要名词; affect 通常作动词。
- ED-04 | 第 4 周 | G-连接:** Although the first route is shorter, but it is less safe.
改正: Although the first route is shorter, it is less safe.
为什么: although 已标记让步, 主句不能再叠加 but。
- ED-05 | 第 5 周 | V-词形:** The specimens were classify by color.
改正: The specimens were classified by color.
为什么: 被动 were 后需要过去分词, 且 classify 变形为 classified。
- ED-06 | 第 6 周 | 搭配:** The staff followed a procedure of report errors.
改正: The staff followed a procedure for reporting errors.
为什么: 步骤用途用 procedure for doing; 介词后动词变动名词。
- ED-07 | 第 7 周 | G-骨架:** The supplies distributed across the region yesterday.
改正: The supplies were distributed across the region yesterday.
为什么: 被分发的物品不能自己执行动作; 补出被动谓语 were distributed。
- ED-08 | 第 8 周 | 搭配:** The sensors interact each other when the room is warm.
改正: The sensors interact with each other when the room is warm.
为什么: interact with 是完整词块; 漏介词会使关系不完整。
- ED-09 | 第 9 周 | V-词性:** The city needs a sustain plan for water use.
改正: The city needs a sustainable plan for water use.
为什么: plan 前需形容词; sustainable 强调能够长期维持。

10. **ED-10 | 第 10 周 | V-词形:** The researchers tested two hypothesis.
改正: The researchers tested two hypotheses.
为什么: two 后需复数; hypothesis 的复数不是 *hypothesis*.
11. **ED-11 | 第 11 周 | 搭配:** Residents participated the online survey.
改正: Residents participated in the online survey.
为什么: participate in 不可省略介词。
12. **ED-12 | 第 12 周 | G-连接:** If the system will fail again, the staff will respond quickly.
改正: If the system fails again, the staff will respond quickly.
为什么: 真实条件句的 if 从句通常用一般现在时, 不用 will。
13. **ED-13 | 第 13 周 | V-义:** The results prove that the method may work.
改正: The results suggest that the method may work.
为什么: may 已表示不确定; prove 与其逻辑力度冲突。
14. **ED-14 | 第 14 周 | G-骨架:** A new pattern emerged the previous records.
改正: A new pattern emerged from the previous records.
为什么: emerge 不直接接对象; 需要介词说明出现的来源。
15. **ED-15 | 第 15 周 | 搭配:** The trainer translated the guide to Korean.
改正: The trainer translated the guide into Korean.
为什么: 语言转换用 translate A into B。
16. **ED-16 | 第 16 周 | G-骨架:** The device is consisted of three flexible layers.
改正: The device consists of three flexible layers.
为什么: consist of 表组成, 固定使用主动形式。
17. **ED-17 | 第 17 周 | 搭配:** The director allocated more funds for the library.
改正: The director allocated more funds to the library.
为什么: 分配去向用 allocate A to B; for 会模糊资源流向。
18. **ED-18 | 第 18 周 | V-词形:** Long exposure to noises affects sleep.
改正: Long exposure to noise affects sleep.
为什么: 此处 noise 是一般不可数概念; exposure to noise 是常用块。
19. **ED-19 | 第 19 周 | 搭配:** The team implemented the new system into every branch.
改正: The team implemented the new system in every branch.
为什么: implement 不接 into; 需要的是实施地点而非方向。
20. **ED-20 | 第 20 周 | V-义:** The estimate is very precise, so it must be accurate.
改正: The estimate is very precise, but it may not be accurate.
为什么: 数字细到小数点不保证接近真实值。
21. **ED-21 | 第 21 周 | 搭配:** The two teams collaborated the schedule.
改正: The two teams collaborated on the schedule.
为什么: collaborate on 说明共同处理的项目。
22. **ED-22 | 第 22 周 | G-骨架:** The article claims the policy successful without give evidence.
改正: The article claims that the policy is successful without giving evidence.
为什么: claim that 后是完整从句; without 后用动名词。
23. **ED-23 | 第 23 周 | 搭配:** The evidence is relevant with the main question.

改正: The evidence is relevant to the main question.

为什么: 形容词后的固定介词是 to。

24. **ED-24 | 第 24 周 | G-连接:** By retrieve words daily, learners reinforce their memory.

改正: By retrieving words daily, learners reinforce their memory.

为什么: by 后必须接动名词; 这一步把“检索”变成具体动作。

诊断后动作: 若 ED 中同一标签错 3 题, 选其中一题写一个同结构新句, 再从 BAS 中找同标签 3 题限时重做。不要把 24 条全抄十遍; 目标是下次遇到新名词或新话题仍能识别同一槽位。

14.6.9 13.6.4 近义尺度与语域选择 001—024: 不是“中文一样”就能替换

每题先选最自然的词, 再读“为什么”。这种训练专门处理 CTW 和写作中“每个词都认识, 却选得不自然”的 V-义/搭配失分。选项不是绝对同义词; 它们在证据力度、搭配对象或语域上有不同边界。

1. **SD-001 | claim / evidence:** The article makes a strong _____, but it gives little data.
答案: claim。主张需要证据支持; 不能说 *makes strong evidence*。
2. **SD-002 | suggest / prove:** The early results _____ a possible pattern, but more trials are needed.
答案: suggest。后半句保留不确定性, 排除力度过强的 prove。
3. **SD-003 | affect / effect:** The new timetable may _____ how often commuters use the train.
答案: affect。may 后要动词原形; effect 在此通常是名词。
4. **SD-004 | economic / economical:** The city wants an _____ plan that uses money carefully.
答案: economical。economic 表“与经济有关”, economical 表“节省资源或钱”。
5. **SD-005 | adapt / adopt:** The team will _____ the method for younger users.
答案: adapt。有 for younger users, 表示调整已有方法; adopt 是采纳。
6. **SD-006 | compliment / complement:** The short video can _____ the written guide.
答案: complement。这里是“补充、相得益彰”, 不是称赞某人。
7. **SD-007 | historic / historical:** The archive holds _____ records from many decades.
答案: historical。一般“与历史有关”的资料用 historical; historic 指本身具有重大历史意义。
8. **SD-008 | sensible / sensitive:** Keeping a backup is a _____ response to possible data loss.
答案: sensible。措施明智用 sensible; sensitive 表容易受影响或敏感。
9. **SD-009 | principal / principle:** The main _____ of the school welcomed new students.
答案: principal。学校负责人是人; 原则才是 principle。
10. **SD-010 | stationary / stationery:** The printer is _____, but the pens and paper are in the supply room.
答案: stationary。不移动的设备; 信纸文具才是 stationery。
11. **SD-011 | raise / rise:** The manager plans to _____ awareness of the new

safety rule.

答案: raise。有宾语 awareness, 用及物动词 raise; 价格自己上升才用 rise。

12. **SD-012 | borrow / lend:** Could the library _____ me a tablet for the afternoon?

答案: lend。图书馆给出物品; 使用者从馆里 borrow。

13. **SD-013 | remember / remind:** Please _____ me to submit the form before Friday.

答案: remind。提醒某人做事用 remind A to do; remember 是自己记得。

14. **SD-014 | discover / invent:** The scientist did not _____ the species; she _____ it in a remote valley.

答案: invent; discovered。物种原本存在, 只能被发现; 装置或方法可被发明。

15. **SD-015 | job / work:** Finding a full-time _____ may take time, but useful _____ also comes from volunteering.

答案: job; work。可数职位是 job; 一般劳动/工作内容常用不可数 work。

16. **SD-016 | advice / advise:** The counselor _____ students to seek _____ early.

答案: advised; advice。动词 advise; 不可数名词 advice 没有 *advices*。

17. **SD-017 | especially / specially:** The evening session is _____ useful for workers with long commutes.

答案: especially。强调特别适合某类人; specially 多指为特定目的专门制作。

18. **SD-018 | fewer / less:** The new form has _____ questions and requires _____ time.

答案: fewer; less。可数复数 questions 用 fewer; 不可数 time 用 less。

19. **SD-019 | between / among:** The report compares travel time _____ two routes and shares the results _____ five teams.

答案: between; among。两者比较用 between; 三者以上分布用 among。

20. **SD-020 | in spite of / although:** _____ the delay, the team finished on time.

答案: In spite of。后接名词短语; Although 后必须接完整从句。

21. **SD-021 | because / because of:** The event moved indoors _____ the rain.

答案: because of。后接名词; because 要接 it was raining 这样的从句。

22. **SD-022 | despite / however:** The sample was small. _____, the pattern was worth examining.

答案: However。句点后接副词并用逗号; Despite 后不能直接接完整句。

23. **SD-023 | say / tell:** The guide _____ us that the east door was closed.

答案: told。tell + 人 + that; say 不直接带人作宾语。

24. **SD-024 | make / do:** The team will _____ a decision after it has _____ more research.

答案: make; done。固定块是 make a decision、do research, 不可按中文“做”机械替换。

迁移检验: 从本组任选 4 对词, 各写一对最小句。两句除目标词和必要语法外尽量保持相同, 例如 The price rose. / The store raised the price.. 这能迫使你看见“谁执行动作、谁承受动作”, 而不是只背两个中文释义。

14.6.10 13.6.5 信息不变的双向改写 001—024: 用词族压缩, 也要保持证据力度

下面每题把散开的信息压缩为一条英文句, 或把抽象表达展开为可检查的句子。不能凭空增加原因、时间或结果; 这正是词汇输出与学术表达不同于“造一个像样句子”的地方。完成后用题中给出的核点对给自己 0—2 分。

1. **RW-001 | 第 1 周 | record:** 把“工作人员每天下午记录访客人数。这份记录帮助他们安排座位。”合为一句。
参考: The staff keep a daily record of visitor numbers to help them arrange seating.
核对: record 是名词; to help 表目的, 没有捏造因果结论。
2. **RW-002 | 第 2 周 | variation:** 把“客流量在不同季节不同。因此排班不能固定。”合为一句。
参考: Seasonal variation in visitor numbers means that staffing cannot remain fixed.
核对: 名词短语中心为 variation; means that 后有完整从句。
3. **RW-003 | 第 3 周 | contribution:** 把“清晰标志减少迷路。它对安全有帮助。”改写为含 contribution 的谨慎句。
参考: Clear signs make a contribution to safety by reducing the chance of visitors getting lost.
核对: make a contribution to; 不把“有帮助”夸大为唯一原因。
4. **RW-004 | 第 4 周 | restriction:** 把“晚上不能进入实验室。这条规则保护设备。”合为一句。
参考: The nighttime access restriction protects the equipment in the laboratory.
核对: restriction 是名词, nighttime 说明范围而非时间状语。
5. **RW-005 | 第 5 周 | classification:** 把“学生先按形状给叶片分类。之后他们比较每一类。”合为一句。
参考: After classifying leaves by shape, students compared each classification.
核对: After 后用动名词; 第二处 classification 指分类结果。
6. **RW-006 | 第 6 周 | evaluation:** 把“团队修改问卷。然后评估修改是否有效。”改为一个含时间关系的句子。
参考: After modifying the questionnaire, the team evaluated whether the revision was effective.
核对: 先后顺序清晰; 间接问句不是 whether was the revision。
7. **RW-007 | 第 7 周 | distribution:** 把“水资源在岛上分布不均。南部村庄需要额外运输。”合为一句。
参考: Because water distribution is uneven across the island, southern villages need additional transport.
核对: distribution 是主语; because 后是完整从句。
8. **RW-008 | 第 8 周 | maintenance:** 把“系统需要定期检查。否则小问题会扩大。”改为一个条件句。
参考: Unless the system receives regular maintenance, small problems may become larger.
核对: maintenance 不可数; unless 从句不用 will。

9. **RW-009 | 第 9 周 | consumption**: 把“新灯使用更少电。每月耗电量下降。”用名词化表达。
参考: The new lights reduced monthly electricity consumption.
核对: consumption 是耗电量; 没有错误添加具体百分比。
10. **RW-010 | 第 10 周 | hypothesis**: 把“研究人员认为较暖区域的植物长得更快。他们用数据检验这个想法。”合为一句。
参考: The researchers tested the hypothesis that plants grow faster in warmer areas.
核对: that 从句说明假设内容; tested 不意味着已经证实。
11. **RW-011 | 第 11 周 | participation**: 把“会议允许线上参加。参与人数因此增加。”改成谨慎因果。
参考: Allowing online attendance may have increased participation in the meeting.
核对: 使用 may have 保留证据力度; 固定 participation in。
12. **RW-012 | 第 12 周 | prevention**: 把“备份文件可以避免永久丢失。它不是解决所有错误。”合为一句。
参考: Backing up files helps prevent permanent loss, but it does not resolve every error.
核对: help(s) prevent; 转折后不偷换成“备份无用”。
13. **RW-013 | 第 13 周 | interpretation**: 把“两个读者看到同一张图。他们给出了不同解释。”合为一句。
参考: Two readers gave different interpretations of the same chart.
核对: interpretation of; 复数由 different 提示。
14. **RW-014 | 第 14 周 | emergence**: 把“一种新做法逐渐出现。它不是一夜之间形成的。”改为一条强调过程的句子。
参考: The emergence of the new practice was gradual rather than sudden.
核对: 名词化减少重复; rather than 做对比。
15. **RW-015 | 第 15 周 | retention**: 把“学生在语境中练习短语。他们能记住得更久。”合为一句。
参考: Practicing phrases in context improves long-term retention.
核对: 动名词短语作主语; retention 是长期保留, 不等于一次认识。
16. **RW-016 | 第 16 周 | density**: 把“市中心住的人更多。那里的人口密度更高。”压缩为一句。
参考: The city center has a higher population density because more people live there.
核对: density 是可量化的名词; 不把 dense 误用作名词。
17. **RW-017 | 第 17 周 | allocation**: 把“预算优先用于安全修理。其他项目稍后处理。”合为一句。
参考: The allocation of the budget gives priority to safety repairs, while other projects are handled later.
核对: allocation of; while 表并行对照而不是时间必然关系。
18. **RW-018 | 第 18 周 | exposure**: 把“工人长期接触噪声。他们报告睡眠质量较低。”写成一条不夸大因果的句子。
参考: Workers with long-term exposure to noise reported lower sleep quality.

核对：只报告观察到的关联，不写 noise caused。

19. **RW-019 | 第 19 周 | implementation:** 把“新系统分阶段推出。这样团队可以修正问题。”合为一句。

参考：Phased implementation of the new system allows the team to correct problems.

核对：implementation of; allows A to do B.

20. **RW-020 | 第 20 周 | verification:** 把“编辑核对了数字。之后才发布报告。”改为强调先后顺序的句子。

参考：Only after verifying the numbers did the editor publish the report.

核对：Only after 前置触发倒装; verifying 不是名词 verification, 但保留同词族。

21. **RW-021 | 第 21 周 | coordination:** 把“两个部门共享日程。他们避免了重复劳动。”改写为一条目的句。

参考：The departments coordinated their schedules to avoid repeating the same work.

核对：可用动词 coordinated; to avoid 说明目的。

22. **RW-022 | 第 22 周 | bias:** 把“文章只引用支持一个观点的来源。因此读者应该小心。”改成谨慎评价。

参考：Because the article cites sources supporting only one view, readers should consider possible bias.

核对：possible 防止断言作者一定有偏见; bias 是名词。

23. **RW-023 | 第 23 周 | integration:** 把“课程把跟读放进阅读任务。学生在真实语境中练发音。”合为一句。

参考：The integration of repetition into reading tasks lets students practice pronunciation in context.

核对：integration of A into B; 语境不是额外的新事实。

24. **RW-024 | 第 24 周 | retrieval:** 把“学生不看词表回忆单词。他们发现了真正的弱点。”写成一条学习诊断句。

参考：Retrieving words without a list helps learners diagnose their actual weaknesses.

核对：动名词 Retrieving 作主语; helps learners diagnose 是可执行学习机制。

双向改写复盘：若你把中文信息写得更多，通常是 E（证据越界）；若词族正确但主句消失，记 G-骨架；若句子正确却用回题面原词而没有完成要求的词族转换，记 V-词形。三种错因的修复顺序是：先删无证据信息，再补谓语，最后换到指定词形。

14.7 13.7 CTW 集中答案、证据与错因复盘

先只核对错题或不稳定正确题。每个答案必须完整代回短文；其中“证据”是确定词性的最短线索，而不是额外背诵材料。若答案同义但不符合题面字母、时态或搭配，仍按 V-词形或搭配记录。

14.7.1 CTW-001—020

题号	答案	证据与复盘动作
001	observe; observations	volunteers 后需动词; Their 后需复数名词。
002	layout; location	the 后的名词; A clearer 后也需名词。
003	meet; requirement	must 后原形; one safety 后单数名词。
004	result; declined	As a 后名词; 过去事件用过去式。
005	varying; variation	amounts 前形容词; This 后需名词。
006	claim; indicates	did not 后原形; 主语 It 用三单。
007	comparison; preferred	made a 后名词; 过去选择用过去式。
008	alternative; sufficient	no easy 后名词; 修饰 information 的形容词。
009	classified; classification	被动处用过去分词; This 后名词。
010	modifies; evaluates	三单主语 she; does 后倒装不是本句主干。
011	distributed; across	is 后过去分词; 固定块 across the island。
012	migration; migratory	a long 后名词; 修饰 route 的形容词。
013	transportation; transport	form of 后名词; can 后动词原形。
014	function; interact	one simple 后名词; sensors 后动词复数。
015	maintain; maintenance	want to 后原形; Regular 后名词。
016	generate; generation	to 后原形; year of 后名词。
017	conserve; wasting	asks families to 后原形; avoid 后动名词。
018	sustainable; sustainable	两处均修饰 plan 或作表语; 核对拼写尾缀。
019	hypothesis; hypothesis	a 后单数名词; that 回指同一假设。
020	sample; revised	a larger 后名词; 过去动作用过去式。

14.7.2 CTW-021—040

题号	答案	证据与复盘动作
021	participate; in; participation	固定 participate in; Their 后名词。
022	policy; benefit	new 后名词; main 后单数名词。

题号	答案	证据与复盘动作
023	risk; prevent; from	the 后名词; prevent A from B。
024	responded; response	过去事件; Its 后名词。
025	argue; acknowledges	does not 后原形; she 后三单。
026	interpreted; interpretation	can be 后过去分词; One 后名词。
027	revealed; use; adapt	过去动作; will 后原形; to 后原形。
028	established; persisted	被动过去分词; 现在完成延续用 has persisted。
029	acquire; acquisition	复数主语后原形; 名词短语作主语。
030	context; contextual	in 后名词; 修饰 approach 的形容词。
031	consists; of; structure	consist of 主动搭配; provides 后名词。
032	densely; density	副词修饰 populated; population 后名词。
033	allocated; to; priority	allocated ... to; first 后名词。
034	efficiently; efficiency	副词修饰 uses; Its 后名词。
035	for; demand	固定 demand for; 第二处是名词。
036	monitored; monitoring	过去动作; careful 后名词。
037	exposure; to; exposed	Long-term 后名词; 固定 exposure to; were 后分词。
038	motivates; to; motivation	三单; motivate A to do; build 后名词。
039	prototype; refinements	a small 后名词; three 后复数名词。
040	implemented; implementation	过去动作; Its 后名词。

14.7.3 CTW-041—060

题号	答案	证据与复盘动作
041	accurate; precise	两处均作表语形容词; 区分事实与细度。
042	valid; validity	not 后表语形容词; 所有格后名词。
043	criteria; reliable; criterion	three 后复数; 修饰 explanation; Each 后单数。
044	verified; claim	过去动作; central 后名词。
045	collaboration; collaborative	depends on 后名词; 修饰 plan 的形容词。

题号	答案	证据与复盘动作
046	assigned; to; responsibilities	assign A to B; their 后复数名词。
047	summary; synthesizes	a short 后名词; 三单主语 article。
048	integrates; into; integration	三单; 固定 integrate A into B; This 后名词。
049	relevant; to; relevance	固定 relevant to; the memo's 后名词。
050	diagnostic; diagnosis; prioritizes	修饰 quiz; After the 后名词; 三单动词。
051	observed; observations	过去动作; their 后复数名词。
052	increased; declined	两个过去趋势动词。
053	prefer; to; alternative	prefer A to B; 冠词后名词。
054	categorized; categorization	过去动作; This 后名词。
055	modified; evaluation	过去动作; 冠词后的名词。
056	indicates; guarantee	三单; does not 后原形。
057	distributed; across; distribution	被动分词; 固定介词; This 后名词。
058	maintain; regulation	to 后原形; new 后名词。
059	consumed; consumption	过去动作; monthly 后名词。
060	conserve; prevent	must、helps 后均为动词原形。

14.7.4 CTW-061—080

题号	答案	证据与复盘动作
061	retrieve; retrieval	to 后原形; Active 后名词。
062	attend; access	must 后原形; can 后动词后的对象名词。
063	revised; revision	过去动作; final 后名词。
064	network; network	a shared 后名词; This 后同形名词。
065	assume; acknowledged	did not 后原形; 过去动作。
066	assigned; assignment	过去动作; This 后名词。
067	communication; communicate	improve 后名词; how to 后原形。
068	interpret; clarification	can 后原形; request 后名词。
069	verify; verification	to 后原形; 修饰 trail 的名词。
070	priority; to	固定 give priority to。
071	hypothesized; hypothesis	过去动作; Their 后名词。
072	data; on; compare	collect data on; to 后原形。
073	measurable; measured	修饰 method 的形容词; 过去分词修饰 result。
074	relatively; varied	副词修饰 stable; 过去动作。

题号	答案	证据与复盘动作
075	migrate; migration	复数主语后原形; Their 后名词。
076	transfer; layer	名词短语 transfer of; a new 后名词。
077	simplifies; identify	三单; helps students 后原形。
078	distances; measured	different 后复数; 过去动作。
079	repeated; examined	两个过去动作。
080	constraint; broad	main 后名词; 修饰 claims 的形容词。

14.7.5 CTW-081—100

题号	答案	证据与复盘动作
081	monitor; monitoring	to 后原形; This 后名词。
082	prevent; from; preventive	固定 prevent A from B; 表语形容词。
083	recover; recovery	to 后原形; Her 后名词。
084	motivate; motivation	to 后原形; higher 后名词。
085	participate; in; participation	固定搭配; Their 后名词。
086	adapted; to	被动过去分词; 固定 adapted to。
087	perceive; perception	复数主语后原形; That 后名词。
088	acknowledged	过去动作; 后接名词性内容。
089	benefit; benefit	to 后原形; important 后名词。
090	resolve; resolution	to 后原形; a 后名词。
091	refined	helped her 后原形过去式形式。
092	implement; implementation	will 后原形; This 后名词。
093	adapted; for	被动分词; adapt A for B。
094	tested; testing	过去动作; final 后名词。
095	innovative; innovation	calls the idea 后形容词; The 后名词。
096	prototype; identify	a 后名词; to 后原形。
097	simplified; relevant	形容词修饰 form; 固定 relevant to 的前半。
098	reduce; reliable	did not 后原形; more 后形容词。
099	budget; budgetary	its 后名词; 修饰 approach 的形容词。
100	invest; in; investment	固定 invest in; That 后名词。

14.7.6 CTW-101—120

题号	答案	证据与复盘动作
101	published; publication	被动过去分词; Its 后名词。
102	claim; evaluate	a 后名词; should 后原形。
103	biased; unbiased	表语形容词; 修饰 account 的形容词。
104	context; translation	cultural 后名词; a direct 后名词。
105	emphasized; assume	过去动作; did not 后原形。
106	perspectives; perspective	two 后复数; the 后单数名词。
107	source; sources	a primary 后单数; those 后复数。
108	integrated; integration	过去动作; This 后名词。
109	retrieve; retrieval	could 后原形; Quick 后名词。
110	synthesize; synthesis	to 后原形; A good 后名词。
111	identified; consistent	被动分词; become 后形容词。
112	reliable; replicate	表语形容词; asks others to 后原形。
113	approximate; estimation	修饰 number 的形容词; early 后名词。
114	restrict; beneficial; restrict	to 后原形; especially 后形容词; 复数主语后原形。
115	framework; framework	project' s 后名词; that 指回同一框架。
116	complex; complexity	表语形容词; This 后名词。
117	diagnose; diagnosis	to 后原形; Her 后名词。
118	prioritize; efficiently	If 从句复数主语后原形; 副词修饰 use。
119	integrate; integration	will 后原形; That 后名词。
120	retrieval; retrieve; transfer	repeated 后名词; 复数主语后原形; can 后原形。

CTW 复盘门槛: A 级题连续两次 90% 正确, 且能说明至少 8 题的词性线索, 才进入 B 级; B/C 级错题按主标签各抽 5 题隔日盲做。若总正确但 V-词形超过 12 个, 不跳过拼写训练: 把所有错词写成“词块 + 正确词形 + 自造句”三栏。

14.8 13.8 BAS 参考句、判分点与替代范围

每题 0—2 分: **2 分**为所有必需词块、句意和核心语法正确; **1 分**为信息完整但有一处不影响理解的形式错误; **0 分**为漏必需词块、主干缺失或改变题意。下列是参考句, 不是唯一词序。没有被题面允许的同义替换不算“更高级”; 先保证信息与结构。

14.8.1 BAS-001—050

题号	参考句
001	The library is open until nine on Thursdays.
002	Each visitor receives a map at the entrance.
003	The new rule applies to all staff members.
004	Students have access to the online archive.
005	A clear definition prevents confusion.
006	The report describes a change in local travel habits.
007	Several small errors affect the final total.
008	The team keeps a record of every repair.
009	This route leads to the science building.
010	The survey includes a question about daily routines.
011	Our main goal is to reduce waiting time.
012	The guide provides information about local services.
013	The museum displays objects from three regions.
014	A large proportion of residents use public transportation.
015	The office responds to requests within two days.
016	The number of visitors increased last month.
017	The technician checked the battery before the test.
018	The committee made a decision after lunch.
019	Our train leaves at six thirty tomorrow morning.
020	The rain stopped, so the game continued.
021	The price of fresh fruit has remained stable this week.
022	The students compared their answers after the quiz.
023	A new café will open near the station next spring.
024	The company revised its policy last Friday.
025	The bus arrived late because traffic was heavy.
026	The report indicates a gradual decline in demand.
027	My colleague attends an online workshop every Tuesday.

题号	参考句
028	The manager estimated the cost at five thousand dollars.
029	The guide explained how to use the new system.
030	The lights turn off when the room becomes empty.
031	The carefully designed survey collects useful data from commuters.
032	The two routes are equally safe in daylight.
033	A small proportion of participants prefer printed materials.
034	The northern path is shorter, but the southern path is easier.
035	This task requires careful observation, not speed.
036	The research team identified three distinct patterns.
037	A sufficiently large sample produces more reliable results.
038	The market offers various kinds of local bread.
039	The first option costs less, whereas the second option saves time.
040	The map shows the exact location of each exit.
041	The old bridge has a narrow pedestrian path.
042	The museum displays a remarkably detailed model of the city.
043	The library received fewer newspapers this year.
044	The team gives priority to the most urgent repairs.
045	The room is small, yet it holds forty people.
046	Because the road was closed, delivery trucks used another route.
047	Although the room was crowded, the speaker remained calm.
048	The alarm prevents visitors from entering the restricted area.
049	If the weather improves, we will hold the event outdoors.
050	The plants grew slowly because they received little light.

14.8.2 BAS-051—100

题号	参考句
051	The team repeated the test so that it could verify the result.
052	Unless users update the app, they will not see the new feature.
053	Since the sample is small, the conclusion remains tentative.
054	Even though the train was delayed, the students arrived on time.
055	The staff save energy by turning off unused screens.
056	Provided that the form is complete, the office will process the request today.
057	The policy is effective because it addresses the main issue.
058	If the noise continues, residents will complain to the manager.
059	The guide speaks slowly in order to help new visitors.
060	Although the evidence is limited, it suggests a possible connection.
061	The researcher who designed the survey explained its purpose.
062	The building that was damaged by the storm will reopen next week.
063	The files which contain personal data require special protection.
064	The park where children practice music closes at sunset.
065	The reason why the system failed remains unclear.
066	The volunteers whose names appear on the list received an email.
067	The method that the team selected reduces processing time.
068	The article which the editor revised includes two new examples.
069	The device that measures air quality sends data every hour.
070	The date when the policy begins appears on the website.
071	The student who asked the question made an important observation.
072	The route by which supplies reach the island depends on weather conditions.

题号	参考句
073	The room in which the meeting takes place is on the third floor.
074	The manager thanked everyone who contributed to the project.
075	The study whose results were published yesterday attracted public attention.
076	The team decided to postpone the final test.
077	The museum encourages visitors to ask questions.
078	Collecting clear evidence helps researchers evaluate claims.
079	The manager avoided making a quick assumption.
080	The students plan to review the vocabulary tonight.
081	The city needs to improve access to public spaces.
082	The guide suggested taking the quieter path.
083	To reduce waste, the café stopped using plastic cups.
084	The researcher expects the sample to vary by age.
085	The software allows users to organize records by date.
086	The speaker finished explaining the main procedure.
087	The company invests in training to improve service quality.
088	The teacher reminded students to include all the details.
089	The committee is considering expanding the program next year.
090	Reading the instructions twice prevents many avoidable errors.
091	The samples were collected by trained volunteers yesterday.
092	The final report will be published after the data are verified.
093	The equipment is stored in a room that is locked at night.
094	Once the request is approved, a confirmation email will be sent automatically.
095	The old schedule was replaced by a more flexible system.

题号	参考句
096	The survey results will be discussed at the next meeting.
097	The new rule was explained clearly to every participant.
098	Several possible causes were identified during the initial review.
099	The route was changed because the bridge was unsafe.
100	The records are kept for five years under the policy.

14.8.3 BAS-101—150

题号	参考句
101	Before the device is used, its settings should be checked carefully.
102	The problem was resolved by a simple update last night.
103	The report is based on evidence from three regions.
104	The issue is not fully understood until more data are collected.
105	The final version was approved by the director this morning.
106	The revised method is more efficient than the previous one.
107	The larger the sample, the more reliable the estimate becomes.
108	The data suggest that demand varies across regions.
109	The second route is less crowded than the first route.
110	The policy has a greater effect on rural communities.
111	If the team had collected more data, it could have drawn a stronger conclusion.
112	The result is different from what we expected.
113	The faster the response, the lower the risk of confusion.
114	The study compares how two groups respond to the same message.
115	The new tool is as useful as the older version.

题号	参考句
116	The report would be clearer if it included a short definition.
117	The more carefully users read, the fewer errors they make.
118	The evidence is insufficient to support such a broad claim.
119	The meeting lasted longer than anyone expected.
120	Unless the plan is modified, costs will continue to rise.
121	The manager explained why the office closes early.
122	We do not know whether the train will stop here.
123	The report shows that the policy benefits new users.
124	What the researchers need is a more diverse sample.
125	The question is how the city can reduce traffic.
126	The guide asked where visitors should leave their bags.
127	It is clear that the results require further analysis.
128	The committee discussed what should be included in the policy.
129	The speaker did not mention when the program began.
130	Whether the change succeeds depends on how people respond.
131	The survey revealed that many residents prefer later hours.
132	The main issue is who will maintain the equipment.
133	The article considers why some habits persist over time.
134	The instructor demonstrated how the software can organize data.
135	What matters most is that every claim has evidence.
136	Only after the test did the team notice the missing value.
137	Not until the meeting ended did we understand the full problem.
138	It is the clear instructions that reduce most errors.

题号	参考句
139	Rarely do visitors see the archive's oldest documents.
140	Only when the lights fail does the backup system start automatically.
141	What the policy needs is a more flexible timeline.
142	Not only does the new route save time, but it also reduces pollution.
143	Under no circumstances should users share their passwords.
144	It is the final review that reveals the inconsistency.
145	Only by checking sources carefully can readers avoid false claims.
146	The reason the plan failed is that costs rose unexpectedly.
147	Hardly had the presentation begun when the screen stopped working.
148	It is regular practice that reinforces retrieval skills.
149	Never before has the town faced such a serious water shortage.
150	What the evidence implies is not a final answer but a useful direction.

14.8.4 BAS-151—200

题号	参考句
151	Using a shared calendar, the team coordinated its work more easily.
152	The data collected last year indicate a gradual shift.
153	Faced with limited time, the manager prioritized urgent repairs.
154	The devices installed near the entrance monitor air quality.
155	Having reviewed the records, the assistant identified two missing files.
156	Designed to reduce waste, the container uses less material.
157	The report includes a chart showing monthly changes.
158	Compared with last year, demand is noticeably higher.

题号	参考句
159	The volunteers returned the forms signed by each participant.
160	Based on three interviews, the article offers a cautious interpretation.
161	The route passes through a region known for heavy rain.
162	To make the process transparent, the office publishes its criteria online.
163	The map shows roads closed because of flooding.
164	Given enough practice, learners become more fluent.
165	The model is useful for identifying patterns that are otherwise difficult to see.
166	The policy improves accessibility for wheelchair users.
167	The survey measures participants' satisfaction with the service.
168	The researchers made an assumption about average travel time.
169	The city allocated additional funds to public libraries.
170	The revision clarified the difference between a claim and evidence.
171	The team established a procedure for reporting errors.
172	The new system is compatible with older devices.
173	The report emphasizes the importance of consistent records.
174	The workshop provides practical guidance for new volunteers.
175	The campaign raises awareness of water conservation.
176	The technician adjusted the settings to improve accuracy.
177	The conclusion is based on several independent observations.
178	The program contributes to a more sustainable routine.
179	The editor requested clarification from the author.
180	The project demonstrates how small changes can produce significant benefits.
181	The report begins with a brief description of the problem.

题号	参考句
182	The author supports the argument with two examples.
183	The evidence points to a change in consumer behavior.
184	Because the records are incomplete, the estimate should be treated as provisional.
185	The graph makes the overall trend easier to see.
186	The team distinguished between short-term and long-term effects.
187	The article draws attention to a limitation in the method.
188	The data do not provide enough evidence for a causal claim.
189	The reviewer questioned the validity of the comparison.
190	While the numbers are accurate, their interpretation remains uncertain.
191	The final section summarizes the implications of the findings.
192	The study focuses on factors that influence daily choices.
193	The researchers acknowledge that the sample is not representative.
194	The conclusion follows from the evidence presented above.
195	The chart compares rates of participation across four districts.
196	Could you confirm whether the meeting room is available?
197	Please let us know if the delivery date changes.
198	The supervisor asked everyone to submit a short update.
199	If you need further information, contact the support desk.
200	We appreciate your patience during the transition.

14.8.5 BAS-201—250

题号	参考句
201	The office is responsible for processing all applications.

题号	参考句
202	Please keep us informed about any changes.
203	The coordinator arranged a follow-up call for Thursday.
204	To avoid confusion, include the reference number in your reply.
205	The team reached an agreement after a brief discussion.
206	We look forward to receiving your feedback.
207	The manager apologized for the unexpected delay.
208	The assistant followed up on the missing documents.
209	Should the problem persist, the technician will inspect the device.
210	The training session is scheduled for next Wednesday afternoon.
211	After the storm ended, volunteers cleared the path.
212	By the time the guests arrived, the staff had prepared the room.
213	The guide led the group through a narrow passage.
214	When the alarm sounded, everyone moved toward the nearest exit.
215	The driver noticed that the road signs had changed.
216	Having missed the first bus, she took a later train.
217	The team paused the experiment until the temperature stabilized.
218	As soon as the package arrived, the assistant recorded its contents.
219	The group set out before sunrise to avoid the heat.
220	No sooner had the meeting started than the internet connection failed.
221	The students returned the equipment after they finished the task.
222	While the volunteers waited, they reviewed the safety rules.
223	The project came to an end at the close of the semester.
224	Before making a decision, the committee took into account every concern.

题号	参考句
225	The team learned an important lesson from the first attempt.
226	The author argues that access should be expanded.
227	The results appear to support the original hypothesis.
228	The evidence is likely to influence future policy.
229	To some extent, the change reflects a shift in priorities.
230	The article raises an important question about fairness.
231	The findings are consistent with previous research.
232	It is possible that several factors contributed to the outcome.
233	The report suggests a need for further investigation.
234	The policy has a limited effect on overall costs.
235	Rather than assuming the claim is true, readers examine the evidence.
236	The response varies considerably among age groups.
237	The speaker emphasized that the proposal is preliminary.
238	The study provides a useful perspective on urban change.
239	The available data are insufficient to determine the exact cause.
240	Despite the small sample, the pattern is worth investigating.
241	The river carries sediment toward the coast.
242	The city regulates water use during dry months.
243	The project aims to conserve local resources.
244	If rainfall remains low, the reservoir will reach a critical level.
245	The network of sensors detects changes in air quality.
246	The council seeks a balance between growth and conservation.
247	The species adapts to conditions that change from season to season.

题号	参考句
248	The new route reduces the amount of fuel buses consume.
249	The program encourages residents to participate in local planning.
250	Because the boundary is poorly marked, hikers sometimes enter the protected area.

14.8.6 BAS-251—300

题号	参考句
251	The campaign focuses on practical ways to reduce waste.
252	The data reveal an uneven distribution of resources.
253	Learners retain phrases better when they use them in context.
254	The instructor asked students to explain their reasoning.
255	The class practices distinguishing cause from effect.
256	If learners retrieve words repeatedly, they become easier to use.
257	The activity develops both fluency and accuracy.
258	The teacher gives feedback on sentence structure.
259	The more often a learner encounters a word, the more likely it is to transfer to speech.
260	The student revised the sentence after identifying the error.
261	The workbook provides a framework for systematic review.
262	Although translation can help, learners still need to notice collocations.
263	The phrase sounds natural only in a particular context.
264	The review reinforces connections among related word forms.
265	The policy failed because it did not address the actual barrier.
266	Although the data were collected carefully, they are not sufficient for a final conclusion.

题号	参考句
267	The manager asked whether the delay resulted from a technical problem.
268	Once users understand the procedure, they are less likely to make the same mistake.
269	The chart is difficult to interpret unless its categories are defined.
270	The survey shows that satisfaction has increased since the change.
271	The researchers take into account differences in age and location.
272	Rather than replacing the system, the team modified its most confusing feature.
273	The evidence does not demonstrate that one factor caused the change.
274	The proposal was rejected because its costs were not estimated accurately.
275	The report distinguishes between what is known and what is assumed.
276	If the explanation were clearer, more readers would understand the issue.
277	The committee approved a plan that allocates funds to the most urgent needs.
278	The study examines how access to transit affects employment opportunities.
279	The city introduced a policy intended to improve accessibility.
280	Because the records were stored digitally, staff retrieved them within minutes.
281	The analysis suggests that the two variables are related but not identical.
282	The researcher described a procedure by which samples are classified.
283	The program offers support to participants who need additional guidance.
284	While the change may be beneficial, its long-term effects remain unknown.
285	The report recommends that the office review the policy annually.
286	The new process is designed to prevent personal information from being shared.
287	The conclusion is relevant to communities facing similar conditions.
288	Before the system is implemented, users will test its most important functions.
289	The author acknowledges that a single example cannot prove a general claim.

题号	参考句
290	The final decision depends on whether the proposed change is feasible.
291	The study contributes to a broader understanding of language acquisition.
292	If the evidence had been available earlier, the team might have avoided the delay.
293	The service is most effective when it responds to a specific need.
294	The findings are interpreted cautiously because the sample is limited.
295	The project establishes a model that other communities can adapt.
296	Although the approach is not perfect, it provides a useful starting point.
297	The most reliable solution is one that considers both cost and access.
298	The team synthesizes evidence from several independent sources.
299	The review identifies priorities for the next phase of work.
300	By the end of the course, learners will be able to build accurate sentences under time pressure.

BAS 快速诊断：001—050 错 8 题以上，回到“主语—谓语—时态”；051—150 错 8 题以上，专项重做连接词、关系词和倒装；151—225 错 8 题以上，检查非谓语与正式词块；226—300 错 8 题以上，先画从句边界，再判断谨慎语气和逻辑力度。每次只改一个主错因，改后必须大声读一遍。

14.9 13.9 分级复盘：六次把题库变成可保持的能力

14.9.1 复盘 A | 第 4 周末：基础形式是否自动化

抽题：CTW 001—020 中随机 10 组；BAS 001—045 中随机 12 题；L&R 001—072 中随机 9 句。

限时：CTW 12 分钟，BAS 10 分钟，L&R 6 分钟。

过关线：CTW 空格正确率 85%；BAS 至少 20/24 分；L&R 至少 8 句词尾完整且意群正确。

如果未过：不增加新词。把错词按 名词槽 / 动词槽 / 词尾分三栏；用第 1—4 周词表各写 3 个真实场景句。

14.9.2 复盘 B | 第 8 周末：词族与连接关系

抽题：CTW 021—040 中 10 组；BAS 046—090 中 12 题；L&R 073—144 中 9 句。

额外任务：从 affect/effect、vary/various/variation、maintain/maintenance 中任选两族，各画一张“词性—搭配—自造句”小网。

过关线：能在不看答案时说明 6 个 CTW 空的词性线索；BAS 中没有漏谓语；L&R 的转折词和数字没有漏听。

主错因处理：G-连接连续 3 次出现，先把 because/although/if/while 分别译成箭头，不做整句翻译。

14.9.3 复盘 C | 第 12 周末：输入能否迁移到输出

抽题：CTW 041—060 中 10 组；BAS 091—135 中 12 题；L&R 145—216 中 9 句。

迁移任务：用 80—100 个英文词写一则“改进一项校园或工作流程”的建议，至少使用 access、evaluate、response、because。

过关线：CTW 85%，BAS 21/24，短文有完整主句、一个因果关系和一个谨慎表达。

低于过关线：从自己短文挑 3 句，按“主干 → 词块 → 修饰语”重写；不要只让 AI 直接改完。

14.9.4 复盘 D | 第 16 周末：长句与语流是否同步

抽题：CTW 061—080 中 10 组；BAS 136—180 中 12 题；L&R 217—288 中 9 句。

录音任务：从 L&R 选 3 句含从句或分词的句子，录首遍与隔 10 分钟的第二遍；标出两遍都漏掉的词。

过关线：BAS 的倒装、关系从句和分词结构至少 10 题完全正确；录音中每句均有清晰的从句边界。

若卡住：先把长句还原为两个短句，确认逻辑后再压缩；压缩不是为了句子变长，而是为了关系更清楚。

14.9.5 复盘 E | 第 20 周末：准确度与谨慎度

抽题：CTW 081—100 中 10 组；BAS 181—240 中 12 题；L&R 289—360 中 9 句。

判断任务：把下列过强句改得可证据化：The program proves that all residents prefer online service.

参考改写：The program suggests that some residents may prefer online service.

过关线：能区分 suggest / show / prove 的力度；BAS 中条件、被动和礼貌请求不混用时态。

错因转化：把每个 V-义错词写进一个“不能随意替换”的对比句，如 accurate 对 precise。

14.9.6 复盘 F | 第 24 周末：终检与下一轮安排

抽题：CTW 101—120 中 10 组；BAS 241—300 中 12 题；L&R 361—432 中 12 句。

限时综合任务：8 分钟完成一段 90—110 词英文说明：选择一个真实的小问题，写出观察、一个可能原因、一个限制和一个可执行建议。至少使用一个词族成员、一个让步或条件句、一个谨慎动词。

过关线：CTW 90%，BAS 22/24，L&R 10/12 句一次通过；综合说明有证据、限制与建议三部分。

下一轮算法：

结果	后续 7 天安排
三项都过线	每天 10 分钟随机检索：2 CTW、3 BAS、3 L&R；把时间留给阅读和听力真材训练。
仅 CTW 低	隔日做 8 个词形空，朗读答案词块，第四天盲写。
仅 BAS 低	每天 6 句：先口头造句，后书写，再圈有限谓语。
仅 L&R 低	每天 8 句：听辨词尾 → 影子跟读 → 遮稿复述；不无限次播放整段。

结果	后续 7 天安排
两项或三项低	回到最近一次未过的复盘包，减半新词量，连续 5 天只修一个最高频错因。

完成不是结束：本章的词汇只有在新阅读、听力、写作和口语中被再次提取才会留下来。每周保留一次 20 分钟“随机抽题”，比一个月后从头重背更有效。

第十五章 14 | 阅读分级题库：200 篇原创两阶段训练

定位：本章是 03 章阅读方法的高密度题库。含 **120 组 CTW 热身 + 120 篇 Read in Daily Life (RDL) + 80 篇 Read an Academic Passage (RAP)**。全部文本、题目和解析均为原创训练材料；训练用时、路由与难度不是 ETS 官方设置。

15.1 14.1 使用方法：先稳住第一阶段，再处理第二阶段

每篇材料均按两阶段安排：**阶段一**先读题、定位并完成最可验证的问题；达到本章训练线后，再做**阶段二**的推断、功能或限制题。RDL 的训练线为第一题在 55 秒内有证据地答对；RAP 为前两题在建议时间的约 70% 内完成且至少答对一题。未达线时不要直接追难题：在原文标出对象、动作、时间/条件 (RDL)，或段落功能、方法、发现 (RAP)，隔天重做。

CTW 热身做法：每组先不看正文补全三个词，限 25 秒；随后在正文中圈出能验证词性的词块。答案集中于本章末尾，和材料编号——对应。若意思接近但拼写、词形或搭配不对，仍记为错，并按 V- 词形 / 搭配 / L- 逻辑复盘。

15.1.1 难度与计时标签

标签	含义	建议用时	两阶段重点
RDL-B1	直接公告/规则	2:00	条件、地点、行动
RDL-B1+/B2	多条件服务文本	2:15-2:30	例外、目的、范围
RAP-B1+/B2	单一研究链	4:20-5:00	方法—发现—谨慎结论
RAP-B2+	抽象概念与限制	5:40	段落功能、一步推断、限制

15.2 14.2 Read in Daily Life | 120 篇生活阅读

15.2.1 校园服务公告

RDL-001 | 雨天自行车寄存处 | 难度：RDL-B1 **| 建议用时：**2:00

两阶段：阶段一先把 “show the reservation code at the desk” 标成 **雨天自行车寄存处** 的常规操作，而不把触发条件误读成第一步；阶段二追踪 “the covered racks are full” 时为何改用 “a dry place to leave a bicycle”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m___; users should s___; the stated alternative is d___.

原创材料: The university posted a notice about an updated campus service. It will move its check-in desk to the east entrance on Monday. Students should show the reservation code at the desk. When the covered racks are full, the stated alternative is a dry place to leave a bicycle.

Q1. For **雨天自行车寄存处**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the covered racks are full. B. Show the reservation code at the desk. C. Skip the instruction to show the reservation code at the desk. D. Treat a dry place to leave a bicycle as the routine for every reader.

Q2. The notice adds “When the covered racks are full, the stated alternative is a dry place to leave a bicycle.” What role does that detail play in the plan for **雨天自行车寄存处**? A. It connects the condition that the covered racks are full to a dry place to leave a bicycle, so readers know the specified response. B. It cancels the instruction to show the reservation code at the desk. C. It makes a dry place to leave a bicycle compulsory outside that stated circumstance. D. It says the plan must stop whenever the covered racks are full.

RDL-002 | 午间职业咨询 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “book a slot through the career portal” 标成 **午间职业咨询** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “users need to arrive five minutes early” 时为何改用 “a printed list of next steps”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o___; users should b___; the stated alternative is p_____.

原创材料: The university posted a notice about an updated campus service. It will offer ten-minute résumé reviews in the Maple Hall lobby. Students should book a slot through the career portal. The notice also asks users to arrive five minutes early; that preparation supports a printed list of next steps.

Q1. For **午间职业咨询**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until users need to arrive five minutes early. B. Skip the instruction to book a slot through the career portal. C. Book a slot through the career portal. D. Treat a printed list of next steps as the routine for every reader.

Q2. The notice adds “The notice also asks users to arrive five minutes early; that preparation supports a printed list of next steps.” What role does that detail play in the plan for **午间职业咨询**? A. It cancels the instruction to book a slot through the career portal. B. It explains why users should arrive five minutes early: the preparation supports a printed list of next steps. C. It makes a printed list of next steps compulsory outside that stated circumstance. D. It says the plan must stop whenever users need to arrive five minutes early.

RDL-003 | 实验室护目镜借用 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “return them in the blue tray” 标成 **实验室护目镜借用** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a class is using the office after 4 p.m.” 时为何改用 “equipment ready for the next group”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒) : Complete the key words: The service may l___; users should r___; the stated alternative is e_____.

原创材料: The university posted a notice about an updated campus service. It will lend clean safety glasses from the chemistry office. Students should return them in the blue tray. When a class is using the office after 4 p.m., the stated alternative is equipment ready for the next group.

Q1. For **实验室护目镜借用**, which action belongs to the normal arrangement before a reader relies on the service? A. Return them in the blue tray. B. Wait until a class is using the office after 4 p.m.. C. Skip the instruction to return them in the blue tray. D. Treat equipment ready for the next group as the routine for every reader.

Q2. The notice adds “When a class is using the office after 4 p.m., the stated alternative is equipment ready for the next group.” What role does that detail play in the plan for **实验室护目镜借用**? A. It cancels the instruction to return them in the blue tray. B. It makes equipment ready for the next group compulsory outside that stated circumstance. C. It connects the condition that a class is using the office after 4 p.m. to equipment ready for the next group, so readers know the specified response. D. It says the plan must stop whenever a class is using the office after 4 p.m..

RDL-004 | 语言交换午餐 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “wear the small green name sticker” 标成 **语言交换午餐** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “rain moves the meeting to Room 204” 时为何改用 “an easy way to find a conversation partner”。**证据定位**: Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒) : Complete the key words: The service may m___; users should w___; the stated alternative is e_____.

原创材料: The university posted a notice about an updated campus service. It will meet beside the south garden every Thursday. Students should wear the small green name sticker. When rain moves the meeting to Room 204, the stated alternative is an easy way to find a conversation partner.

Q1. For **语言交换午餐**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until rain moves the meeting to Room 204. B. Skip the instruction to wear the small green name sticker. C. Treat an easy way to find a conversation partner as the routine for every reader. D. Wear the small green name sticker.

Q2. The notice adds “When rain moves the meeting to Room 204, the stated alternative is an easy way to find a conversation partner.” What role does that detail play in the plan for **语言交换午餐**? A. It cancels the instruction to wear the small green name sticker. B. It makes an easy way to find a conversation partner compulsory outside that stated circumstance. C. It says the plan must stop whenever rain moves the meeting to Room 204. D. It connects the condition that rain moves the meeting to Room 204 to an easy way to find a conversation partner, so readers know the specified response.

RDL-005 | 打印点维护 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “send large files before 3 p.m” 标成 **打印点维护** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the old machines stop at noon on Friday” 时为何改用 “fewer delays during the replacement”。**证据定位**: Q1 回到直接行动句; Q2 同时核对条件和

替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should s____; the stated alternative is f_____.

原创材料: The university posted a notice about an updated campus service. It will replace the printers near the north stairwell. Students should send large files before 3 p.m.. When the old machines stop at noon on Friday, the stated alternative is fewer delays during the replacement.

Q1. For **打印点维护**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the old machines stop at noon on Friday. B. Send large files before 3 p.m. C. Skip the instruction to send large files before 3 p.m. D. Treat fewer delays during the replacement as the routine for every reader.

Q2. The notice adds “When the old machines stop at noon on Friday, the stated alternative is fewer delays during the replacement.” What role does that detail play in the plan for **打印点维护**? A. It connects the condition that the old machines stop at noon on Friday to fewer delays during the replacement, so readers know the specified response. B. It cancels the instruction to send large files before 3 p.m. C. It makes fewer delays during the replacement compulsory outside that stated circumstance. D. It says the plan must stop whenever the old machines stop at noon on Friday.

RDL-006 | 夜间护送服务 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “request a ride at least fifteen minutes ahead” 标成 **夜间护送服务** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the driver is helping another passenger” 时为何改用 “a safer walk across the far side of campus”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should r____; the stated alternative is s_____.

原创材料: The university posted a notice about an updated campus service. It will add a pickup stop behind the music building. Students should request a ride at least fifteen minutes ahead. When the driver is helping another passenger, the stated alternative is a safer walk across the far side of campus.

Q1. For **夜间护送服务**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the driver is helping another passenger. B. Skip the instruction to request a ride at least fifteen minutes ahead. C. Request a ride at least fifteen minutes ahead. D. Treat a safer walk across the far side of campus as the routine for every reader.

Q2. The notice adds “When the driver is helping another passenger, the stated alternative is a safer walk across the far side of campus.” What role does that detail play in the plan for **夜间护送服务**? A. It cancels the instruction to request a ride at least fifteen minutes ahead. B. It connects the condition that the driver is helping another passenger to a safer walk across the far side of campus, so readers know the specified response. C. It makes a safer walk across the far side of campus compulsory outside that stated circumstance. D. It says the plan must stop whenever the driver is helping another passenger.

RDL-007 | 课程材料回收 | 难度: RDL-B1 | 建议用时: 2:00

两阶段：阶段一先把“label donations with the course name”标成**课程材料回收**的常规操作，而不把触发条件误读成第一步；阶段二追踪“personal notes remain inside”时为何改用“supplies for students in later classes”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may c____; users should l____; the stated alternative is s_____.

原创材料：The university posted a notice about an updated campus service. It will collect unused binders outside the learning center. Students should label donations with the course name. When personal notes remain inside, the stated alternative is supplies for students in later classes.

Q1. For **课程材料回收**, which action belongs to the normal arrangement before a reader relies on the service? A. Label donations with the course name. B. Wait until personal notes remain inside. C. Skip the instruction to label donations with the course name. D. Treat supplies for students in later classes as the routine for every reader.

Q2. The notice adds “When personal notes remain inside, the stated alternative is supplies for students in later classes.” What role does that detail play in the plan for **课程材料回收**? A. It cancels the instruction to label donations with the course name. B. It makes supplies for students in later classes compulsory outside that stated circumstance. C. It connects the condition that personal notes remain inside to supplies for students in later classes, so readers know the specified response. D. It says the plan must stop whenever personal notes remain inside.

RDL-008 | 食堂过敏原台卡 | 难度：RDL-B1 **| 建议用时：**2:00

两阶段：阶段一先把“ask staff before choosing a sauce”标成**食堂过敏原台卡**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a recipe has changed that morning”时为何改用“a clearer choice at the serving line”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may p____; users should a____; the stated alternative is c_____.

原创材料：The university posted a notice about an updated campus service. It will place ingredient cards beside each hot dish. Students should ask staff before choosing a sauce. When a recipe has changed that morning, the stated alternative is a clearer choice at the serving line.

Q1. For **食堂过敏原台卡**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a recipe has changed that morning. B. Skip the instruction to ask staff before choosing a sauce. C. Treat a clearer choice at the serving line as the routine for every reader. D. Ask staff before choosing a sauce.

Q2. The notice adds “When a recipe has changed that morning, the stated alternative is a clearer choice at the serving line.” What role does that detail play in the plan for **食堂过敏原台卡**? A. It cancels the instruction to ask staff before choosing a sauce. B. It makes a clearer choice at the serving line compulsory outside that stated circumstance. C. It says the plan must stop whenever a recipe has changed that morning. D. It connects the condition that a recipe has changed that morning to a clearer choice at the serving line, so readers know the specified response.

RDL-009 | 图书馆静音区调整 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “take phone calls in the lobby” 标成 **图书馆静音区调整** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the room is booked for a workshop” 时为何改用 “fewer interruptions for readers”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should t____; the stated alternative is f_____.

原创材料: The university posted a notice about an updated campus service. It will reserve the upper study room for silent work. Students should take phone calls in the lobby. When the room is booked for a workshop, the stated alternative is fewer interruptions for readers.

Q1. For **图书馆静音区调整**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the room is booked for a workshop. B. Take phone calls in the lobby. C. Skip the instruction to take phone calls in the lobby. D. Treat fewer interruptions for readers as the routine for every reader.

Q2. The notice adds “When the room is booked for a workshop, the stated alternative is fewer interruptions for readers.” What role does that detail play in the plan for **图书馆静音区调整**? A. It connects the condition that the room is booked for a workshop to fewer interruptions for readers, so readers know the specified response. B. It cancels the instruction to take phone calls in the lobby. C. It makes fewer interruptions for readers compulsory outside that stated circumstance. D. It says the plan must stop whenever the room is booked for a workshop.

RDL-010 | 体育馆储物柜清理 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “remove every personal item by Sunday evening” 标成 **体育馆储物柜清理** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a lock has been reported lost” 时为何改用 “space for the new semester”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may e____; users should r____; the stated alternative is s_____.

原创材料: The university posted a notice about an updated campus service. It will empty lockers in the east corridor this weekend. Students should remove every personal item by Sunday evening. When a lock has been reported lost, the stated alternative is space for the new semester.

Q1. For **体育馆储物柜清理**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a lock has been reported lost. B. Skip the instruction to remove every personal item by Sunday evening. C. Remove every personal item by Sunday evening. D. Treat space for the new semester as the routine for every reader.

Q2. The notice adds “When a lock has been reported lost, the stated alternative is space for the new semester.” What role does that detail play in the plan for **体育馆储物柜清理**? A. It cancels the instruction to remove every personal item by Sunday evening. B. It connects the condition that a lock has been reported lost to space for the new semester, so readers know the specified response. C. It makes space for the new semester compulsory outside that stated circumstance. D. It says the plan must

stop whenever a lock has been reported lost.

RDL-011 | 河岸植树早晨 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **河岸植树早晨** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the ground is too wet after heavy rain” 时为何改用 “a message confirming a new date”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may b____; users should b____; the stated alternative is m_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will begin planting young willows at nine on Saturday. Before arriving, participants need to bring a refillable water bottle. When the ground is too wet after heavy rain, the stated alternative is a message confirming a new date.

Q1. For **河岸植树早晨**, which action belongs to the normal arrangement before a reader relies on the service? A. Read the organizer's update. B. Wait until the ground is too wet after heavy rain. C. Skip the instruction to read the organizer's update. D. Treat a message confirming a new date as the routine for every reader.

Q2. The notice adds “When the ground is too wet after heavy rain, the stated alternative is a message confirming a new date.” What role does that detail play in the plan for **河岸植树早晨**? A. It cancels the instruction to read the organizer's update. B. It makes a message confirming a new date compulsory outside that stated circumstance. C. It connects the condition that the ground is too wet after heavy rain to a message confirming a new date, so readers know the specified response. D. It says the plan must stop whenever the ground is too wet after heavy rain.

RDL-012 | 修理咖啡馆 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **修理咖啡馆** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a device needs a replacement part” 时为何改用 “a later appointment instead of an uncertain repair”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p____; users should d____; the stated alternative is l_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will pair residents with volunteers who repair small appliances. Before arriving, participants need to describe the problem when signing up. When a device needs a replacement part, the stated alternative is a later appointment instead of an uncertain repair.

Q1. For **修理咖啡馆**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a device needs a replacement part. B. Skip the instruction to read the organizer's update. C. Treat a later appointment instead of an uncertain repair as the routine for every reader. D. Read the organizer's update.

Q2. The notice adds “When a device needs a replacement part, the stated alternative is a later appointment instead of an uncertain repair.” What role does that detail play in the plan for **修理咖啡馆**? A. It cancels the instruction to read the organizer's update. B. It makes a later appointment instead of an uncertain repair compulsory outside

that stated circumstance. C. It says the plan must stop whenever a device needs a replacement part. D. It connects the condition that a device needs a replacement part to a later appointment instead of an uncertain repair, so readers know the specified response.

RDL-013 | 屋顶观星夜 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把“read the organizer's update”标成**屋顶观星夜**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“cloud cover is thick”时为何改用“a short indoor talk about constellations”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o___; users should u___; the stated alternative is s___.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will open the community center roof after sunset. Before arriving, participants need to use a red-light flashlight. When cloud cover is thick, the stated alternative is a short indoor talk about constellations.

Q1. For **屋顶观星夜**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until cloud cover is thick. B. Read the organizer's update. C. Skip the instruction to read the organizer's update. D. Treat a short indoor talk about constellations as the routine for every reader.

Q2. The notice adds “When cloud cover is thick, the stated alternative is a short indoor talk about constellations.” What role does that detail play in the plan for **屋顶观星夜**? A. It connects the condition that cloud cover is thick to a short indoor talk about constellations, so readers know the specified response. B. It cancels the instruction to read the organizer's update. C. It makes a short indoor talk about constellations compulsory outside that stated circumstance. D. It says the plan must stop whenever cloud cover is thick.

RDL-014 | 旧照片扫描日 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把“read the organizer's update”标成**旧照片扫描日**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“a photo needs careful handling”时为何改用“time for every visitor at the scanner”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should b___; the stated alternative is t___.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will scan family photographs in the history room. Before arriving, participants need to bring only ten images per household. When a photo needs careful handling, the stated alternative is time for every visitor at the scanner.

Q1. For **旧照片扫描日**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a photo needs careful handling. B. Skip the instruction to read the organizer's update. C. Read the organizer's update. D. Treat time for every visitor at the scanner as the routine for every reader.

Q2. The notice adds “When a photo needs careful handling, the stated alternative

is time for every visitor at the scanner.” What role does that detail play in the plan for **旧照片扫描日**? A. It cancels the instruction to read the organizer's update. B. It connects the condition that a photo needs careful handling to time for every visitor at the scanner, so readers know the specified response. C. It makes time for every visitor at the scanner compulsory outside that stated circumstance. D. It says the plan must stop whenever a photo needs careful handling.

RDL-015 | 周末步行巴士 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **周末步行巴士** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a child joins without an adult” 时为何改用 “a volunteer assigned to that family”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l___; users should m___; the stated alternative is v_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will lead families along the school route on Friday. Before arriving, participants need to meet by the bakery at 7:35. When a child joins without an adult, the stated alternative is a volunteer assigned to that family.

Q1. For **周末步行巴士**, which action belongs to the normal arrangement before a reader relies on the service? A. Read the organizer's update. B. Wait until a child joins without an adult. C. Skip the instruction to read the organizer's update. D. Treat a volunteer assigned to that family as the routine for every reader.

Q2. The notice adds “When a child joins without an adult, the stated alternative is a volunteer assigned to that family.” What role does that detail play in the plan for **周末步行巴士**? A. It cancels the instruction to read the organizer's update. B. It makes a volunteer assigned to that family compulsory outside that stated circumstance. C. It connects the condition that a child joins without an adult to a volunteer assigned to that family, so readers know the specified response. D. It says the plan must stop whenever a child joins without an adult.

RDL-016 | 公园蘑菇讲座 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **公园蘑菇讲座** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the guide cannot identify a mushroom safely” 时为何改用 “a reminder to leave it where it grows”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may h___; users should o___; the stated alternative is r_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will hold an identification walk near the pond. Before arriving, participants need to observe specimens without picking them. When the guide cannot identify a mushroom safely, the stated alternative is a reminder to leave it where it grows.

Q1. For **公园蘑菇讲座**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the guide cannot identify a mushroom safely. B. Skip the instruction to read the organizer's update. C. Treat a reminder to leave it

where it grows as the routine for every reader. D. Read the organizer's update.

Q2. The notice adds “When the guide cannot identify a mushroom safely, the stated alternative is a reminder to leave it where it grows.” What role does that detail play in the plan for **公园蘑菇讲座**? A. It cancels the instruction to read the organizer's update. B. It makes a reminder to leave it where it grows compulsory outside that stated circumstance. C. It says the plan must stop whenever the guide cannot identify a mushroom safely. D. It connects the condition that the guide cannot identify a mushroom safely to a reminder to leave it where it grows, so readers know the specified response.

RDL-017 | 共享厨房试用 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **共享厨房试用** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a burner is already reserved” 时为何改用 “another available work station”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o____; users should c____; the stated alternative is a_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will offer evening access to its new induction stoves. Before arriving, participants need to complete the short safety video first. When a burner is already reserved, the stated alternative is another available work station.

Q1. For **共享厨房试用**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a burner is already reserved. B. Read the organizer's update. C. Skip the instruction to read the organizer's update. D. Treat another available work station as the routine for every reader.

Q2. The notice adds “When a burner is already reserved, the stated alternative is another available work station.” What role does that detail play in the plan for **共享厨房试用**? A. It connects the condition that a burner is already reserved to another available work station, so readers know the specified response. B. It cancels the instruction to read the organizer's update. C. It makes another available work station compulsory outside that stated circumstance. D. It says the plan must stop whenever a burner is already reserved.

RDL-018 | 社区戏剧试演 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **社区戏剧试演** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a participant needs the text printed” 时为何改用 “copies at the welcome table”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may h____; users should p____; the stated alternative is c_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will hear short readings in the old post office. Before arriving, participants need to prepare one minute from any public-domain play. When a participant needs the text printed, the stated alternative is copies at the welcome table.

Q1. For **社区戏剧试演**, which action belongs to the normal arrangement before a

reader relies on the service? A. Wait until a participant needs the text printed. B. Skip the instruction to read the organizer's update. C. Read the organizer's update. D. Treat copies at the welcome table as the routine for every reader.

Q2. The notice adds “When a participant needs the text printed, the stated alternative is copies at the welcome table.” What role does that detail play in the plan for **社区戏剧试演**? A. It cancels the instruction to read the organizer's update. B. It connects the condition that a participant needs the text printed to copies at the welcome table, so readers know the specified response. C. It makes copies at the welcome table compulsory outside that stated circumstance. D. It says the plan must stop whenever a participant needs the text printed.

RDL-019 | 冬衣交换会 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **冬衣交换会** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “an item is damaged” 时为何改用 “a bin for textile recycling”。

证据定位: Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a ____; users should a ____; the stated alternative is b__.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will accept clean coats and gloves in the gym. Before arriving, participants need to attach a size label to each item. When an item is damaged, the stated alternative is a bin for textile recycling.

Q1. For **冬衣交换会**, which action belongs to the normal arrangement before a reader relies on the service? A. Read the organizer's update. B. Wait until an item is damaged. C. Skip the instruction to read the organizer's update. D. Treat a bin for textile recycling as the routine for every reader.

Q2. The notice adds “When an item is damaged, the stated alternative is a bin for textile recycling.” What role does that detail play in the plan for **冬衣交换会**? A. It cancels the instruction to read the organizer's update. B. It makes a bin for textile recycling compulsory outside that stated circumstance. C. It connects the condition that an item is damaged to a bin for textile recycling, so readers know the specified response. D. It says the plan must stop whenever an item is damaged.

RDL-020 | 公共花园种子桌 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the organizer's update” 标成 **公共花园种子桌** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the packet has no date” 时为何改用 “a separate table for observation only”。

证据定位: Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s ____; users should w ____; the stated alternative is s_____.

原创材料: Residents planning to attend this community activity should read the organizer's update. The program will share locally saved bean and herb seeds. Before arriving, participants need to write the harvest year on each packet. When the packet has no date, the stated alternative is a separate table for observation only.

Q1. For **公共花园种子桌**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the packet has no date. B. Skip the instruc-

tion to read the organizer's update. C. Treat a separate table for observation only as the routine for every reader. D. Read the organizer's update.

Q2. The notice adds “When the packet has no date, the stated alternative is a separate table for observation only.” What role does that detail play in the plan for **公共花园种子桌**? A. It cancels the instruction to read the organizer's update. B. It makes a separate table for observation only compulsory outside that stated circumstance. C. It says the plan must stop whenever the packet has no date. D. It connects the condition that the packet has no date to a separate table for observation only, so readers know the specified response.

RDL-021 | 周末桥梁绕行 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “board at the temporary stop beside the pharmacy” 标成 **周末桥梁绕行** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you need the usual bridge stop” 时为何改用 “a map posted in the bus app”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should b___; the stated alternative is m___.

原创材料: A travel update explains a route-specific change. The service will send Route 6 along Harbor Street this Saturday. Passengers are asked to board at the temporary stop beside the pharmacy. When you need the usual bridge stop, the stated alternative is a map posted in the bus app.

Q1. For **周末桥梁绕行**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you need the usual bridge stop. B. Board at the temporary stop beside the pharmacy. C. Skip the instruction to board at the temporary stop beside the pharmacy. D. Treat a map posted in the bus app as the routine for every reader.

Q2. The notice adds “When you need the usual bridge stop, the stated alternative is a map posted in the bus app.” What role does that detail play in the plan for **周末桥梁绕行**? A. It connects the condition that you need the usual bridge stop to a map posted in the bus app, so readers know the specified response. B. It cancels the instruction to board at the temporary stop beside the pharmacy. C. It makes a map posted in the bus app compulsory outside that stated circumstance. D. It says the plan must stop whenever you need the usual bridge stop.

RDL-022 | 车站电梯检修 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “use the west entrance if stairs are difficult” 标成 **车站电梯检修** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you require step-free access” 时为何改用 “staff assistance from the ticket office”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c___; users should u___; the stated alternative is s___.

原创材料: A travel update explains a route-specific change. The service will close Platform 2's elevator from Tuesday to Thursday. Passengers are asked to use the west entrance if stairs are difficult. When you require step-free access, the stated alternative is staff assistance from the ticket office.

Q1. For 车站电梯检修, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you require step-free access. B. Skip the instruction to use the west entrance if stairs are difficult. C. Use the west entrance if stairs are difficult. D. Treat staff assistance from the ticket office as the routine for every reader.

Q2. The notice adds “When you require step-free access, the stated alternative is staff assistance from the ticket office.” What role does that detail play in the plan for 车站电梯检修? A. It cancels the instruction to use the west entrance if stairs are difficult. B. It connects the condition that you require step-free access to staff assistance from the ticket office, so readers know the specified response. C. It makes staff assistance from the ticket office compulsory outside that stated circumstance. D. It says the plan must stop whenever you require step-free access.

RDL-023 | 共享单车电池更换 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “end a trip inside the marked parking area” 标成 共享单车电池更换 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the bicycle's light begins flashing” 时为何改用 “a replacement bicycle nearby”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c____; users should e____; the stated alternative is r_____.

原创材料: A travel update explains a route-specific change. The service will collect low-charge bicycles near the market each evening. Passengers are asked to end a trip inside the marked parking area. When the bicycle's light begins flashing, the stated alternative is a replacement bicycle nearby.

Q1. For 共享单车电池更换, which action belongs to the normal arrangement before a reader relies on the service? A. End a trip inside the marked parking area. B. Wait until the bicycle's light begins flashing. C. Skip the instruction to end a trip inside the marked parking area. D. Treat a replacement bicycle nearby as the routine for every reader.

Q2. The notice adds “When the bicycle's light begins flashing, the stated alternative is a replacement bicycle nearby.” What role does that detail play in the plan for 共享单车电池更换? A. It cancels the instruction to end a trip inside the marked parking area. B. It makes a replacement bicycle nearby compulsory outside that stated circumstance. C. It connects the condition that the bicycle's light begins flashing to a replacement bicycle nearby, so readers know the specified response. D. It says the plan must stop whenever the bicycle's light begins flashing.

RDL-024 | 渡轮冬季时刻 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “arrive ten minutes before departure” 标成 渡轮冬季时刻 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “wind warnings are issued” 时为何改用 “a notice through the alert service”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m____; users should a____; the stated alternative is n_____.

原创材料: A travel update explains a route-specific change. The service will move the final island ferry to 6:10 p.m.. Passengers are asked to arrive ten minutes before

departure. When wind warnings are issued, the stated alternative is a notice through the alert service.

Q1. For 渡轮冬季时刻, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until wind warnings are issued. B. Skip the instruction to arrive ten minutes before departure. C. Treat a notice through the alert service as the routine for every reader. D. Arrive ten minutes before departure.

Q2. The notice adds “When wind warnings are issued, the stated alternative is a notice through the alert service.” What role does that detail play in the plan for 渡轮冬季时刻? A. It cancels the instruction to arrive ten minutes before departure. B. It makes a notice through the alert service compulsory outside that stated circumstance. C. It says the plan must stop whenever wind warnings are issued. D. It connects the condition that wind warnings are issued to a notice through the alert service, so readers know the specified response.

RDL-025 | 火车站行李通道 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “follow the yellow floor arrows” 标成 火车站行李通道的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you have only a small backpack” 时为何改用 “access through either gate”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may d____; users should f____; the stated alternative is a_____.

原创材料: A travel update explains a route-specific change. The service will direct large bags through the south gate during rush hour. Passengers are asked to follow the yellow floor arrows. When you have only a small backpack, the stated alternative is access through either gate.

Q1. For 火车站行李通道, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you have only a small backpack. B. Follow the yellow floor arrows. C. Skip the instruction to follow the yellow floor arrows. D. Treat access through either gate as the routine for every reader.

Q2. The notice adds “When you have only a small backpack, the stated alternative is access through either gate.” What role does that detail play in the plan for 火车站行李通道? A. It connects the condition that you have only a small backpack to access through either gate, so readers know the specified response. B. It cancels the instruction to follow the yellow floor arrows. C. It makes access through either gate compulsory outside that stated circumstance. D. It says the plan must stop whenever you have only a small backpack.

RDL-026 | 机场接驳预约 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “choose a pickup window online” 标成 机场接驳预约的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “your flight leaves before 7 a.m.” 时为何改用 “a seat that matches the departure schedule”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should c____; the stated alternative is s_____.

原创材料: A travel update explains a route-specific change. The service will require

reservations for the early-morning shuttle. Passengers are asked to choose a pickup window online. When your flight leaves before 7 a.m., the stated alternative is a seat that matches the departure schedule.

Q1. For **机场接驳预约**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your flight leaves before 7 a.m.. B. Skip the instruction to choose a pickup window online. C. Choose a pickup window online. D. Treat a seat that matches the departure schedule as the routine for every reader.

Q2. The notice adds “When your flight leaves before 7 a.m., the stated alternative is a seat that matches the departure schedule.” What role does that detail play in the plan for **机场接驳预约**? A. It cancels the instruction to choose a pickup window online. B. It connects the condition that your flight leaves before 7 a.m. to a seat that matches the departure schedule, so readers know the specified response. C. It makes a seat that matches the departure schedule compulsory outside that stated circumstance. D. It says the plan must stop whenever your flight leaves before 7 a.m..

RDL-027 | 步道封闭提示 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “take the forest loop instead” 标成 **步道封闭提示** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you see a red closure sign” 时为何改用 “a longer but open route”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c____; users should t____; the stated alternative is l_____.

原创材料: A travel update explains a route-specific change. The service will close the cliff path while workers repair a railing. Passengers are asked to take the forest loop instead. When you see a red closure sign, the stated alternative is a longer but open route.

Q1. For **步道封闭提示**, which action belongs to the normal arrangement before a reader relies on the service? A. Take the forest loop instead. B. Wait until you see a red closure sign. C. Skip the instruction to take the forest loop instead. D. Treat a longer but open route as the routine for every reader.

Q2. The notice adds “When you see a red closure sign, the stated alternative is a longer but open route.” What role does that detail play in the plan for **步道封闭提示**? A. It cancels the instruction to take the forest loop instead. B. It makes a longer but open route compulsory outside that stated circumstance. C. It connects the condition that you see a red closure sign to a longer but open route, so readers know the specified response. D. It says the plan must stop whenever you see a red closure sign.

RDL-028 | 停车缴费更新 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “enter the space number after parking” 标成 **停车缴费更新** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “your phone has no data connection” 时为何改用 “a pay station at the corner”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should e____; the stated alternative is p__.

原创材料: A travel update explains a route-specific change. The service will replace

coin meters with a mobile payment system. Passengers are asked to enter the space number after parking. When your phone has no data connection, the stated alternative is a pay station at the corner.

Q1. For **停车缴费更新**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your phone has no data connection. B. Skip the instruction to enter the space number after parking. C. Treat a pay station at the corner as the routine for every reader. D. Enter the space number after parking.

Q2. The notice adds “When your phone has no data connection, the stated alternative is a pay station at the corner.” What role does that detail play in the plan for **停车缴费更新**? A. It cancels the instruction to enter the space number after parking. B. It makes a pay station at the corner compulsory outside that stated circumstance. C. It says the plan must stop whenever your phone has no data connection. D. It connects the condition that your phone has no data connection to a pay station at the corner, so readers know the specified response.

RDL-029 | 自行车道清扫 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “slow down near the sweeping vehicle” 标成 **自行车道清扫** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you must pass the vehicle” 时为何改用 “a hand signal from its operator”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c___; users should s___; the stated alternative is h___.

原创材料: A travel update explains a route-specific change. The service will clean the river lane before the morning commute. Passengers are asked to slow down near the sweeping vehicle. When you must pass the vehicle, the stated alternative is a hand signal from its operator.

Q1. For **自行车道清扫**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you must pass the vehicle. B. Slow down near the sweeping vehicle. C. Skip the instruction to slow down near the sweeping vehicle. D. Treat a hand signal from its operator as the routine for every reader.

Q2. The notice adds “When you must pass the vehicle, the stated alternative is a hand signal from its operator.” What role does that detail play in the plan for **自行车道清扫**? A. It connects the condition that you must pass the vehicle to a hand signal from its operator, so readers know the specified response. B. It cancels the instruction to slow down near the sweeping vehicle. C. It makes a hand signal from its operator compulsory outside that stated circumstance. D. It says the plan must stop whenever you must pass the vehicle.

RDL-030 | 拼车集合点 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “confirm the driver's name in the group chat” 标成 **拼车集合点** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the weather is stormy” 时为何改用 “an indoor waiting area”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m___; users should c___; the stated alternative is i___.

原创材料: A travel update explains a route-specific change. The service will move evening carpools to the civic center side door. Passengers are asked to confirm the driver's name in the group chat. When the weather is stormy, the stated alternative is an indoor waiting area.

Q1. For **拼车集合点**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the weather is stormy. B. Skip the instruction to confirm the driver's name in the group chat. C. Confirm the driver's name in the group chat. D. Treat an indoor waiting area as the routine for every reader.

Q2. The notice adds “When the weather is stormy, the stated alternative is an indoor waiting area.” What role does that detail play in the plan for **拼车集合点**? A. It cancels the instruction to confirm the driver's name in the group chat. B. It connects the condition that the weather is stormy to an indoor waiting area, so readers know the specified response. C. It makes an indoor waiting area compulsory outside that stated circumstance. D. It says the plan must stop whenever the weather is stormy.

RDL-031 | 档案室预约规则 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “reserve a morning or afternoon slot” 标成 **档案室预约规则** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you need more than one map box” 时为何改用 “a note in the reservation request”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l____; users should r____; the stated alternative is n____.

原创材料: A visitor guide explains an updated practice at the site. It will limit original-map viewing to two visitors at a time. Visitors should reserve a morning or afternoon slot. When you need more than one map box, the stated alternative is a note in the reservation request.

Q1. For **档案室预约规则**, which action belongs to the normal arrangement before a reader relies on the service? A. Reserve a morning or afternoon slot. B. Wait until you need more than one map box. C. Skip the instruction to reserve a morning or afternoon slot. D. Treat a note in the reservation request as the routine for every reader.

Q2. The notice adds “When you need more than one map box, the stated alternative is a note in the reservation request.” What role does that detail play in the plan for **档案室预约规则**? A. It cancels the instruction to reserve a morning or afternoon slot. B. It makes a note in the reservation request compulsory outside that stated circumstance. C. It connects the condition that you need more than one map box to a note in the reservation request, so readers know the specified response. D. It says the plan must stop whenever you need more than one map box.

RDL-032 | 儿童阅读角翻新 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “collect a colored ticket at the desk” 标成 **儿童阅读角翻新** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the theater reaches capacity” 时为何改用 “a later session on the same day”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m____; users should c____; the stated alternative is l____.

原创材料: A visitor guide explains an updated practice at the site. It will move story hour to the small theater for two weeks. Visitors should collect a colored ticket at the desk. When the theater reaches capacity, the stated alternative is a later session on the same day.

Q1. For **儿童阅读角翻新**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the theater reaches capacity. B. Skip the instruction to collect a colored ticket at the desk. C. Treat a later session on the same day as the routine for every reader. D. Collect a colored ticket at the desk.

Q2. The notice adds “When the theater reaches capacity, the stated alternative is a later session on the same day.” What role does that detail play in the plan for **儿童阅读角翻新**? A. It cancels the instruction to collect a colored ticket at the desk. B. It makes a later session on the same day compulsory outside that stated circumstance. C. It says the plan must stop whenever the theater reaches capacity. D. It connects the condition that the theater reaches capacity to a later session on the same day, so readers know the specified response.

RDL-033 | 博物馆速写许可 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “leave paint and wet materials at home” 标成 **博物馆速写许可** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you need a stool” 时为何改用 “one borrowed from the information desk”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should l____; the stated alternative is b_____.

原创材料: A visitor guide explains an updated practice at the site. It will allow pencils and small sketchbooks in the sculpture hall. Visitors should leave paint and wet materials at home. When you need a stool, the stated alternative is one borrowed from the information desk.

Q1. For **博物馆速写许可**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you need a stool. B. Leave paint and wet materials at home. C. Skip the instruction to leave paint and wet materials at home. D. Treat one borrowed from the information desk as the routine for every reader.

Q2. The notice adds “When you need a stool, the stated alternative is one borrowed from the information desk.” What role does that detail play in the plan for **博物馆速写许可**? A. It connects the condition that you need a stool to one borrowed from the information desk, so readers know the specified response. B. It cancels the instruction to leave paint and wet materials at home. C. It makes one borrowed from the information desk compulsory outside that stated circumstance. D. It says the plan must stop whenever you need a stool.

RDL-034 | 电影资料馆借阅 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “return the case before the desk closes” 标成 **电影资料馆借阅** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you pause a film for dinner” 时为何改用 “a bookmark that saves the viewing point”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l____; users should r____; the stated alternative is b_____.

原创材料: A visitor guide explains an updated practice at the site. It will lend headphones for viewing historic interviews. Visitors should return the case before the desk closes. When you pause a film for dinner, the stated alternative is a bookmark that saves the viewing point.

Q1. For **电影资料馆借阅**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you pause a film for dinner. B. Skip the instruction to return the case before the desk closes. C. Return the case before the desk closes. D. Treat a bookmark that saves the viewing point as the routine for every reader.

Q2. The notice adds “When you pause a film for dinner, the stated alternative is a bookmark that saves the viewing point.” What role does that detail play in the plan for **电影资料馆借阅**? A. It cancels the instruction to return the case before the desk closes. B. It connects the condition that you pause a film for dinner to a bookmark that saves the viewing point, so readers know the specified response. C. It makes a bookmark that saves the viewing point compulsory outside that stated circumstance. D. It says the plan must stop whenever you pause a film for dinner.

RDL-035 | 口述史录音室 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “test the microphone before inviting a guest” 标成 **口述史录音室** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the recording includes background noise” 时为何改用 “a second session at no extra charge”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o___; users should t___; the stated alternative is s_____.

原创材料: A visitor guide explains an updated practice at the site. It will open a quiet booth for recording family stories. Visitors should test the microphone before inviting a guest. When the recording includes background noise, the stated alternative is a second session at no extra charge.

Q1. For **口述史录音室**, which action belongs to the normal arrangement before a reader relies on the service? A. Test the microphone before inviting a guest. B. Wait until the recording includes background noise. C. Skip the instruction to test the microphone before inviting a guest. D. Treat a second session at no extra charge as the routine for every reader.

Q2. The notice adds “When the recording includes background noise, the stated alternative is a second session at no extra charge.” What role does that detail play in the plan for **口述史录音室**? A. It cancels the instruction to test the microphone before inviting a guest. B. It makes a second session at no extra charge compulsory outside that stated circumstance. C. It connects the condition that the recording includes background noise to a second session at no extra charge, so readers know the specified response. D. It says the plan must stop whenever the recording includes background noise.

RDL-036 | 美术馆晚场 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “enter through the garden gate after six” 标成 **美术馆晚场** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you arrive with a large bag” 时为何改用 “a free locker near the gate”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断

它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should e___; the stated alternative is f___.

原创材料: A visitor guide explains an updated practice at the site. It will stay open until eight on the first Friday. Visitors should enter through the garden gate after six. When you arrive with a large bag, the stated alternative is a free locker near the gate.

Q1. For **美术馆晚场**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you arrive with a large bag. B. Skip the instruction to enter through the garden gate after six. C. Treat a free locker near the gate as the routine for every reader. D. Enter through the garden gate after six.

Q2. The notice adds “When you arrive with a large bag, the stated alternative is a free locker near the gate.” What role does that detail play in the plan for **美术馆晚场**? A. It cancels the instruction to enter through the garden gate after six. B. It makes a free locker near the gate compulsory outside that stated circumstance. C. It says the plan must stop whenever you arrive with a large bag. D. It connects the condition that you arrive with a large bag to a free locker near the gate, so readers know the specified response.

RDL-037 | 阅读俱乐部投票 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “read the sample pages before voting” 标成 **阅读俱乐部投票** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “two titles receive the same number of votes” 时为何改用 “a final poll at the meeting”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c___; users should r___; the stated alternative is f___.

原创材料: A visitor guide explains an updated practice at the site. It will choose next month's short novel online. Visitors should read the sample pages before voting. When two titles receive the same number of votes, the stated alternative is a final poll at the meeting.

Q1. For **阅读俱乐部投票**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until two titles receive the same number of votes. B. Read the sample pages before voting. C. Skip the instruction to read the sample pages before voting. D. Treat a final poll at the meeting as the routine for every reader.

Q2. The notice adds “When two titles receive the same number of votes, the stated alternative is a final poll at the meeting.” What role does that detail play in the plan for **阅读俱乐部投票**? A. It connects the condition that two titles receive the same number of votes to a final poll at the meeting, so readers know the specified response. B. It cancels the instruction to read the sample pages before voting. C. It makes a final poll at the meeting compulsory outside that stated circumstance. D. It says the plan must stop whenever two titles receive the same number of votes.

RDL-038 | 地方报纸缩微胶卷 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “ask staff for a brief demonstration” 标成 **地方报纸缩微胶卷** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a page is difficult to read” 时为何改用 “the original roll for comparison”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判

断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m___; users should a___; the stated alternative is o_____.

原创材料: A visitor guide explains an updated practice at the site. It will move the 1970s newspapers to a digital viewer. Visitors should ask staff for a brief demonstration. When a page is difficult to read, the stated alternative is the original roll for comparison.

Q1. For **地方报纸缩微胶卷**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a page is difficult to read. B. Skip the instruction to ask staff for a brief demonstration. C. Ask staff for a brief demonstration. D. Treat the original roll for comparison as the routine for every reader.

Q2. The notice adds “When a page is difficult to read, the stated alternative is the original roll for comparison.” What role does that detail play in the plan for **地方报纸缩微胶卷**? A. It cancels the instruction to ask staff for a brief demonstration. B. It connects the condition that a page is difficult to read to the original roll for comparison, so readers know the specified response. C. It makes the original roll for comparison compulsory outside that stated circumstance. D. It says the plan must stop whenever a page is difficult to read.

RDL-039 | 展览讲解耳机 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “return the player to any gallery desk” 标成 **展览讲解耳机** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the battery indicator is low” 时为何改用 “a charged unit if one is available”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l___; users should r___; the stated alternative is c_____.

原创材料: A visitor guide explains an updated practice at the site. It will loan audio players for the migration exhibit. Visitors should return the player to any gallery desk. When the battery indicator is low, the stated alternative is a charged unit if one is available.

Q1. For **展览讲解耳机**, which action belongs to the normal arrangement before a reader relies on the service? A. Return the player to any gallery desk. B. Wait until the battery indicator is low. C. Skip the instruction to return the player to any gallery desk. D. Treat a charged unit if one is available as the routine for every reader.

Q2. The notice adds “When the battery indicator is low, the stated alternative is a charged unit if one is available.” What role does that detail play in the plan for **展览讲解耳机**? A. It cancels the instruction to return the player to any gallery desk. B. It makes a charged unit if one is available compulsory outside that stated circumstance. C. It connects the condition that the battery indicator is low to a charged unit if one is available, so readers know the specified response. D. It says the plan must stop whenever the battery indicator is low.

RDL-040 | 书籍修补工作坊 | 难度: RDL-B1 | 建议用时: 2:00

两阶段: 阶段一先把 “bring a book that has already dried completely” 标成 **书籍修补工作坊** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the book is moldy or wet” 时为何

改用“advice on professional conservation”。**证据定位**：Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may t____; users should b____; the stated alternative is a_____.

原创材料：A visitor guide explains an updated practice at the site. It will teach visitors to mend loose pages with archival tape. Visitors should bring a book that has already dried completely. When the book is moldy or wet, the stated alternative is advice on professional conservation.

Q1. For 书籍修补工作坊, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the book is moldy or wet. B. Skip the instruction to bring a book that has already dried completely. C. Treat advice on professional conservation as the routine for every reader. D. Bring a book that has already dried completely.

Q2. The notice adds “When the book is moldy or wet, the stated alternative is advice on professional conservation.” What role does that detail play in the plan for 书籍修补工作坊? A. It cancels the instruction to bring a book that has already dried completely. B. It makes advice on professional conservation compulsory outside that stated circumstance. C. It says the plan must stop whenever the book is moldy or wet. D. It connects the condition that the book is moldy or wet to advice on professional conservation, so readers know the specified response.

RDL-041 | 热水系统冲洗 | 难度：RDL-B1+ | **建议用时**：2:15

两阶段：阶段一先把“fill needed containers the night before”标成 热水系统冲洗的常规操作，而不把触发条件误读成第一步；阶段二追踪“you need water for a medical device”时为何改用“contact with the building manager”。**证据定位**：Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may t____; users should f____; the stated alternative is c_____.

原创材料：Residents received a building message about scheduled work. Management will turn off hot water in Building C on Wednesday morning. To prepare, residents should fill needed containers the night before. When you need water for a medical device, the stated alternative is contact with the building manager.

Q1. For 热水系统冲洗, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you need water for a medical device. B. Fill needed containers the night before. C. Skip the instruction to fill needed containers the night before. D. Treat contact with the building manager as the routine for every reader.

Q2. The notice adds “When you need water for a medical device, the stated alternative is contact with the building manager.” What role does that detail play in the plan for 热水系统冲洗? A. It connects the condition that you need water for a medical device to contact with the building manager, so readers know the specified response. B. It cancels the instruction to fill needed containers the night before. C. It makes contact with the building manager compulsory outside that stated circumstance. D. It says the plan must stop whenever you need water for a medical device.

RDL-042 | 阳台安全检查 | 难度：RDL-B1+ | **建议用时**：2:15

两阶段：阶段一先把“keep balcony doors unlocked during the appointment window”标成**阳台安全检查**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a pet will be near the door”时为何改用“a request for a specific visit time”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may i____; users should k____; the stated alternative is r_____.

原创材料：Residents received a building message about scheduled work. Management will inspect railings in apartments facing the courtyard. To prepare, residents should keep balcony doors unlocked during the appointment window. When a pet will be near the door, the stated alternative is a request for a specific visit time.

Q1. For **阳台安全检查**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a pet will be near the door. B. Skip the instruction to keep balcony doors unlocked during the appointment window. C. Keep balcony doors unlocked during the appointment window. D. Treat a request for a specific visit time as the routine for every reader.

Q2. The notice adds “When a pet will be near the door, the stated alternative is a request for a specific visit time.” What role does that detail play in the plan for **阳台安全检查**? A. It cancels the instruction to keep balcony doors unlocked during the appointment window. B. It connects the condition that a pet will be near the door to a request for a specific visit time, so readers know the specified response. C. It makes a request for a specific visit time compulsory outside that stated circumstance. D. It says the plan must stop whenever a pet will be near the door.

RDL-043 | 垃圾分类桶更换 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“use the temporary bins by the loading dock”标成**垃圾分类桶更换**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you have cardboard after the temporary bins are full”时为何改用“a flattened-box collection area”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may r____; users should u____; the stated alternative is f_____.

原创材料：Residents received a building message about scheduled work. Management will replace the recycling bins behind the west tower. To prepare, residents should use the temporary bins by the loading dock. When you have cardboard after the temporary bins are full, the stated alternative is a flattened-box collection area.

Q1. For **垃圾分类桶更换**, which action belongs to the normal arrangement before a reader relies on the service? A. Use the temporary bins by the loading dock. B. Wait until you have cardboard after the temporary bins are full. C. Skip the instruction to use the temporary bins by the loading dock. D. Treat a flattened-box collection area as the routine for every reader.

Q2. The notice adds “When you have cardboard after the temporary bins are full, the stated alternative is a flattened-box collection area.” What role does that detail play in the plan for **垃圾分类桶更换**? A. It cancels the instruction to use the temporary bins by the loading dock. B. It makes a flattened-box collection area compulsory outside that stated circumstance. C. It connects the condition that you have cardboard after the temporary bins are full to a flattened-box collection area, so readers know the

specified response. D. It says the plan must stop whenever you have cardboard after the temporary bins are full.

RDL-044 | 洗衣房机器预约 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“cancel a slot at least thirty minutes ahead”标成**洗衣房机器预约**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“you miss the cancellation deadline”时为何改用“a charge that supports machine upkeep”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a__; users should c__; the stated alternative is c__.

原创材料: Residents received a building message about scheduled work. Management will add evening reservations for the two largest washers. To prepare, residents should cancel a slot at least thirty minutes ahead. When you miss the cancellation deadline, the stated alternative is a charge that supports machine upkeep.

Q1. For **洗衣房机器预约**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you miss the cancellation deadline. B. Skip the instruction to cancel a slot at least thirty minutes ahead. C. Treat a charge that supports machine upkeep as the routine for every reader. D. Cancel a slot at least thirty minutes ahead.

Q2. The notice adds “When you miss the cancellation deadline, the stated alternative is a charge that supports machine upkeep.” What role does that detail play in the plan for **洗衣房机器预约**? A. It cancels the instruction to cancel a slot at least thirty minutes ahead. B. It makes a charge that supports machine upkeep compulsory outside that stated circumstance. C. It says the plan must stop whenever you miss the cancellation deadline. D. It connects the condition that you miss the cancellation deadline to a charge that supports machine upkeep, so readers know the specified response.

RDL-045 | 屋顶漏水修复 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“use the east stairs during work hours”标成**屋顶漏水修复**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“you smell paint or dust”时为何改用“a report to the front desk”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r__; users should u__; the stated alternative is r__.

原创材料: Residents received a building message about scheduled work. Management will repair the roof above the third-floor hallway. To prepare, residents should use the east stairs during work hours. When you smell paint or dust, the stated alternative is a report to the front desk.

Q1. For **屋顶漏水修复**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you smell paint or dust. B. Use the east stairs during work hours. C. Skip the instruction to use the east stairs during work hours. D. Treat a report to the front desk as the routine for every reader.

Q2. The notice adds “When you smell paint or dust, the stated alternative is a report to the front desk.” What role does that detail play in the plan for **屋顶漏水修复**? A. It connects the condition that you smell paint or dust to a report to the front desk,

so readers know the specified response. B. It cancels the instruction to use the east stairs during work hours. C. It makes a report to the front desk compulsory outside that stated circumstance. D. It says the plan must stop whenever you smell paint or dust.

RDL-046 | 庭院照明升级 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“avoid the marked work zone after dark”标成**庭院照明升级**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“a delivery arrives late”时为何改用“directions to the service entrance”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may i____; users should a____; the stated alternative is d_____.

原创材料: Residents received a building message about scheduled work. Management will install lower, warmer lights along the garden path. To prepare, residents should avoid the marked work zone after dark. When a delivery arrives late, the stated alternative is directions to the service entrance.

Q1. For **庭院照明升级**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a delivery arrives late. B. Skip the instruction to avoid the marked work zone after dark. C. Avoid the marked work zone after dark. D. Treat directions to the service entrance as the routine for every reader.

Q2. The notice adds “When a delivery arrives late, the stated alternative is directions to the service entrance.” What role does that detail play in the plan for **庭院照明升级**? A. It cancels the instruction to avoid the marked work zone after dark. B. It connects the condition that a delivery arrives late to directions to the service entrance, so readers know the specified response. C. It makes directions to the service entrance compulsory outside that stated circumstance. D. It says the plan must stop whenever a delivery arrives late.

RDL-047 | 门禁卡重置 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“tap the card at the lobby reader once”标成**门禁卡重置**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“the card still shows a red light”时为何改用“identity verification at reception”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should t____; the stated alternative is i_____.

原创材料: Residents received a building message about scheduled work. Management will reset access cards after a security update. To prepare, residents should tap the card at the lobby reader once. When the card still shows a red light, the stated alternative is identity verification at reception.

Q1. For **门禁卡重置**, which action belongs to the normal arrangement before a reader relies on the service? A. Tap the card at the lobby reader once. B. Wait until the card still shows a red light. C. Skip the instruction to tap the card at the lobby reader once. D. Treat identity verification at reception as the routine for every reader.

Q2. The notice adds “When the card still shows a red light, the stated alternative is identity verification at reception.” What role does that detail play in the plan for **门**

禁卡重置? A. It cancels the instruction to tap the card at the lobby reader once. B. It makes identity verification at reception compulsory outside that stated circumstance. C. It connects the condition that the card still shows a red light to identity verification at reception, so readers know the specified response. D. It says the plan must stop whenever the card still shows a red light.

RDL-048 | 电梯地板施工 | 难度: RDL-B1+ | **建议用时:** 2:15

两阶段: 阶段一先把“follow signs for the operating elevator”标成**电梯地板施工**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“you are moving heavy furniture”时为何改用“a scheduled freight-elevator window”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should f____; the stated alternative is s_____.

原创材料: Residents received a building message about scheduled work. Management will replace the north elevator floor one level at a time. To prepare, residents should follow signs for the operating elevator. When you are moving heavy furniture, the stated alternative is a scheduled freight-elevator window.

Q1. For **电梯地板施工**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you are moving heavy furniture. B. Skip the instruction to follow signs for the operating elevator. C. Treat a scheduled freight-elevator window as the routine for every reader. D. Follow signs for the operating elevator.

Q2. The notice adds “When you are moving heavy furniture, the stated alternative is a scheduled freight-elevator window.” What role does that detail play in the plan for **电梯地板施工**? A. It cancels the instruction to follow signs for the operating elevator. B. It makes a scheduled freight-elevator window compulsory outside that stated circumstance. C. It says the plan must stop whenever you are moving heavy furniture. D. It connects the condition that you are moving heavy furniture to a scheduled freight-elevator window, so readers know the specified response.

RDL-049 | 储藏室清点 | 难度: RDL-B1+ | **建议用时:** 2:15

两阶段: 阶段一先把“place your unit number on the outside label”标成**储藏室清点**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“the label is missing”时为何改用“an email before a lock is removed”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may c____; users should p____; the stated alternative is e_____.

原创材料: Residents received a building message about scheduled work. Management will check unused storage cages at the end of the month. To prepare, residents should place your unit number on the outside label. When the label is missing, the stated alternative is an email before a lock is removed.

Q1. For **储藏室清点**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the label is missing. B. Place your unit number on the outside label. C. Skip the instruction to place your unit number on the outside label. D. Treat an email before a lock is removed as the routine for every

reader.

Q2. The notice adds “When the label is missing, the stated alternative is an email before a lock is removed.” What role does that detail play in the plan for **储藏室清点**?
A. It connects the condition that the label is missing to an email before a lock is removed, so readers know the specified response. B. It cancels the instruction to place your unit number on the outside label. C. It makes an email before a lock is removed compulsory outside that stated circumstance. D. It says the plan must stop whenever the label is missing.

RDL-050 | 暖气温度反馈 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “report bedroom temperatures for three mornings” 标成 **暖气温度反馈** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “your room is unusually cold” 时为何改用 “a portable sensor from the office”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may t___; users should r___; the stated alternative is p_____.

原创材料: Residents received a building message about scheduled work. Management will test a new overnight heating schedule. To prepare, residents should report bedroom temperatures for three mornings. When your room is unusually cold, the stated alternative is a portable sensor from the office.

Q1. For **暖气温度反馈**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your room is unusually cold. B. Skip the instruction to report bedroom temperatures for three mornings. C. Report bedroom temperatures for three mornings. D. Treat a portable sensor from the office as the routine for every reader.

Q2. The notice adds “When your room is unusually cold, the stated alternative is a portable sensor from the office.” What role does that detail play in the plan for **暖气温度反馈**? A. It cancels the instruction to report bedroom temperatures for three mornings. B. It connects the condition that your room is unusually cold to a portable sensor from the office, so readers know the specified response. C. It makes a portable sensor from the office compulsory outside that stated circumstance. D. It says the plan must stop whenever your room is unusually cold.

RDL-051 | 诊所线上候诊 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “remain within ten minutes of the clinic” 标成 **诊所线上候诊** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “your phone cannot receive texts” 时为何改用 “a paper number at reception”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should r___; the stated alternative is p_____.

原创材料: A service update describes a routine change. The provider will send a text when the nurse is ready for a routine visit. Clients should remain within ten minutes of the clinic. When your phone cannot receive texts, the stated alternative is a paper number at reception.

Q1. For **诊所线上候诊**, which action belongs to the normal arrangement before a

reader relies on the service? A. Remain within ten minutes of the clinic. B. Wait until your phone cannot receive texts. C. Skip the instruction to remain within ten minutes of the clinic. D. Treat a paper number at reception as the routine for every reader.

Q2. The notice adds “When your phone cannot receive texts, the stated alternative is a paper number at reception.” What role does that detail play in the plan for **诊所线上候诊**? A. It cancels the instruction to remain within ten minutes of the clinic. B. It makes a paper number at reception compulsory outside that stated circumstance. C. It connects the condition that your phone cannot receive texts to a paper number at reception, so readers know the specified response. D. It says the plan must stop whenever your phone cannot receive texts.

RDL-052 | 游泳馆慢泳时段 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “choose another lane for water exercises” 标成 **游泳馆慢泳时段** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the center lane is crowded” 时为何改用 “a staff suggestion about open space”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should c____; the stated alternative is s____.

原创材料: A service update describes a routine change. The provider will reserve the center lane for slower lap swimmers at noon. Clients should choose another lane for water exercises. When the center lane is crowded, the stated alternative is a staff suggestion about open space.

Q1. For **游泳馆慢泳时段**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the center lane is crowded. B. Skip the instruction to choose another lane for water exercises. C. Treat a staff suggestion about open space as the routine for every reader. D. Choose another lane for water exercises.

Q2. The notice adds “When the center lane is crowded, the stated alternative is a staff suggestion about open space.” What role does that detail play in the plan for **游泳馆慢泳时段**? A. It cancels the instruction to choose another lane for water exercises. B. It makes a staff suggestion about open space compulsory outside that stated circumstance. C. It says the plan must stop whenever the center lane is crowded. D. It connects the condition that the center lane is crowded to a staff suggestion about open space, so readers know the specified response.

RDL-053 | 牙科取消候补 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “reply within twenty minutes to claim a time” 标成 **牙科取消候补** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you reply after the window closes” 时为何改用 “the next available alert”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o____; users should r____; the stated alternative is n____.

原创材料: A service update describes a routine change. The provider will offer short-notice appointments through email alerts. Clients should reply within twenty minutes to claim a time. When you reply after the window closes, the stated alternative is the next available alert.

Q1. For 牙科取消候补, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you reply after the window closes. B. Reply within twenty minutes to claim a time. C. Skip the instruction to reply within twenty minutes to claim a time. D. Treat the next available alert as the routine for every reader.

Q2. The notice adds “When you reply after the window closes, the stated alternative is the next available alert.” What role does that detail play in the plan for 牙科取消候补? A. It connects the condition that you reply after the window closes to the next available alert, so readers know the specified response. B. It cancels the instruction to reply within twenty minutes to claim a time. C. It makes the next available alert compulsory outside that stated circumstance. D. It says the plan must stop whenever you reply after the window closes.

RDL-054 | 药房冷藏柜提醒 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “bring identification when collecting them” 标成 药房冷藏柜提醒的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “someone else collects your medicine” 时为何改用 “a signed authorization”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s____; users should b____; the stated alternative is s_____.

原创材料: A service update describes a routine change. The provider will store temperature-sensitive prescriptions behind the counter. Clients should bring identification when collecting them. When someone else collects your medicine, the stated alternative is a signed authorization.

Q1. For 药房冷藏柜提醒, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until someone else collects your medicine. B. Skip the instruction to bring identification when collecting them. C. Bring identification when collecting them. D. Treat a signed authorization as the routine for every reader.

Q2. The notice adds “When someone else collects your medicine, the stated alternative is a signed authorization.” What role does that detail play in the plan for 药房冷藏柜提醒? A. It cancels the instruction to bring identification when collecting them. B. It connects the condition that someone else collects your medicine to a signed authorization, so readers know the specified response. C. It makes a signed authorization compulsory outside that stated circumstance. D. It says the plan must stop whenever someone else collects your medicine.

RDL-055 | 体能评估预约 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “wear shoes suitable for walking” 标成 体能评估预约的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you have a recent injury” 时为何改用 “a conversation with the instructor first”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p____; users should w____; the stated alternative is c_____.

原创材料: A service update describes a routine change. The provider will provide a free movement check before joining strength classes. Clients should wear shoes

suitable for walking. When you have a recent injury, the stated alternative is a conversation with the instructor first.

Q1. For 体能评估预约, which action belongs to the normal arrangement before a reader relies on the service? A. Wear shoes suitable for walking. B. Wait until you have a recent injury. C. Skip the instruction to wear shoes suitable for walking. D. Treat a conversation with the instructor first as the routine for every reader.

Q2. The notice adds “When you have a recent injury, the stated alternative is a conversation with the instructor first.” What role does that detail play in the plan for 体能评估预约? A. It cancels the instruction to wear shoes suitable for walking. B. It makes a conversation with the instructor first compulsory outside that stated circumstance. C. It connects the condition that you have a recent injury to a conversation with the instructor first, so readers know the specified response. D. It says the plan must stop whenever you have a recent injury.

RDL-056 | 眼镜调整台 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “bring the glasses in a protective case” 标成 眼镜调整台的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a screw is missing” 时为何改用 “an order for the matching part”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o___; users should b___; the stated alternative is o___.

原创材料: A service update describes a routine change. The provider will offer walk-in frame adjustments every afternoon. Clients should bring the glasses in a protective case. When a screw is missing, the stated alternative is an order for the matching part.

Q1. For 眼镜调整台, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a screw is missing. B. Skip the instruction to bring the glasses in a protective case. C. Treat an order for the matching part as the routine for every reader. D. Bring the glasses in a protective case.

Q2. The notice adds “When a screw is missing, the stated alternative is an order for the matching part.” What role does that detail play in the plan for 眼镜调整台? A. It cancels the instruction to bring the glasses in a protective case. B. It makes an order for the matching part compulsory outside that stated circumstance. C. It says the plan must stop whenever a screw is missing. D. It connects the condition that a screw is missing to an order for the matching part, so readers know the specified response.

RDL-057 | 瑜伽垫清洁站 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “wipe both sides before returning a borrowed mat” 标成 瑜伽垫清洁站的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you have your own mat” 时为何改用 “use of the same cleaning supplies”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p___; users should w___; the stated alternative is u___.

原创材料: A service update describes a routine change. The provider will place spray and cloths beside the studio exit. Clients should wipe both sides before returning

a borrowed mat. When you have your own mat, the stated alternative is use of the same cleaning supplies.

Q1. For 瑜伽垫清洁站, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you have your own mat. B. Wipe both sides before returning a borrowed mat. C. Skip the instruction to wipe both sides before returning a borrowed mat. D. Treat use of the same cleaning supplies as the routine for every reader.

Q2. The notice adds “When you have your own mat, the stated alternative is use of the same cleaning supplies.” What role does that detail play in the plan for 瑜伽垫清洁站? A. It connects the condition that you have your own mat to use of the same cleaning supplies, so readers know the specified response. B. It cancels the instruction to wipe both sides before returning a borrowed mat. C. It makes use of the same cleaning supplies compulsory outside that stated circumstance. D. It says the plan must stop whenever you have your own mat.

RDL-058 | 社区跑步配速组 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “tell the leader if you plan to turn back early” 标成 社区跑步配速组的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you cannot keep up with the group” 时为何改用 “a slower group at the same meeting point”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may d____; users should t____; the stated alternative is s_____.

原创材料: A service update describes a routine change. The provider will divide Saturday runners by comfortable conversation pace. Clients should tell the leader if you plan to turn back early. When you cannot keep up with the group, the stated alternative is a slower group at the same meeting point.

Q1. For 社区跑步配速组, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you cannot keep up with the group. B. Skip the instruction to tell the leader if you plan to turn back early. C. Tell the leader if you plan to turn back early. D. Treat a slower group at the same meeting point as the routine for every reader.

Q2. The notice adds “When you cannot keep up with the group, the stated alternative is a slower group at the same meeting point.” What role does that detail play in the plan for 社区跑步配速组? A. It cancels the instruction to tell the leader if you plan to turn back early. B. It connects the condition that you cannot keep up with the group to a slower group at the same meeting point, so readers know the specified response. C. It makes a slower group at the same meeting point compulsory outside that stated circumstance. D. It says the plan must stop whenever you cannot keep up with the group.

RDL-059 | 营养讲座报名 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “list food allergies on the form” 标成 营养讲座报名的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “an ingredient conflicts with an allergy” 时为何改用 “a substitute tasting portion”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l____; users should

l___; the stated alternative is s_____.

原创材料: A service update describes a routine change. The provider will limit the kitchen demonstration to sixteen seats. Clients should list food allergies on the form. When an ingredient conflicts with an allergy, the stated alternative is a substitute tasting portion.

Q1. For **营养讲座报名**, which action belongs to the normal arrangement before a reader relies on the service? A. List food allergies on the form. B. Wait until an ingredient conflicts with an allergy. C. Skip the instruction to list food allergies on the form. D. Treat a substitute tasting portion as the routine for every reader.

Q2. The notice adds “When an ingredient conflicts with an allergy, the stated alternative is a substitute tasting portion.” What role does that detail play in the plan for **营养讲座报名**? A. It cancels the instruction to list food allergies on the form. B. It makes a substitute tasting portion compulsory outside that stated circumstance. C. It connects the condition that an ingredient conflicts with an allergy to a substitute tasting portion, so readers know the specified response. D. It says the plan must stop whenever an ingredient conflicts with an allergy.

RDL-060 | 物理治疗视频随访 | 难度: RDL-B1+ | **建议用时:** 2:15

两阶段: 阶段一先把 “test the camera link fifteen minutes beforehand” 标成 **物理治疗视频随访** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the link does not open” 时为何改用 “a phone appointment instead”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may h___; users should t___; the stated alternative is p_____.

原创材料: A service update describes a routine change. The provider will hold brief video check-ins after the first clinic visit. Clients should test the camera link fifteen minutes beforehand. When the link does not open, the stated alternative is a phone appointment instead.

Q1. For **物理治疗视频随访**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the link does not open. B. Skip the instruction to test the camera link fifteen minutes beforehand. C. Treat a phone appointment instead as the routine for every reader. D. Test the camera link fifteen minutes beforehand.

Q2. The notice adds “When the link does not open, the stated alternative is a phone appointment instead.” What role does that detail play in the plan for **物理治疗视频随访**? A. It cancels the instruction to test the camera link fifteen minutes beforehand. B. It makes a phone appointment instead compulsory outside that stated circumstance. C. It says the plan must stop whenever the link does not open. D. It connects the condition that the link does not open to a phone appointment instead, so readers know the specified response.

RDL-061 | 咖啡店自带杯折扣 | 难度: RDL-B1+ | **建议用时:** 2:15

两阶段: 阶段一先把 “tell the cashier before payment” 标成 **咖啡店自带杯折扣** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the cup has no lid” 时为何改用 “a disposable lid if the drink needs one”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a___; users should t___; the stated alternative is d_____.

原创材料: A customer note explains a service policy. The business will apply a discount when customers hand over a clean cup before ordering. Customers should tell the cashier before payment. When the cup has no lid, the stated alternative is a disposable lid if the drink needs one.

Q1. For **咖啡店自带杯折扣**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the cup has no lid. B. Tell the cashier before payment. C. Skip the instruction to tell the cashier before payment. D. Treat a disposable lid if the drink needs one as the routine for every reader.

Q2. The notice adds “When the cup has no lid, the stated alternative is a disposable lid if the drink needs one.” What role does that detail play in the plan for **咖啡店自带杯折扣**? A. It connects the condition that the cup has no lid to a disposable lid if the drink needs one, so readers know the specified response. B. It cancels the instruction to tell the cashier before payment. C. It makes a disposable lid if the drink needs one compulsory outside that stated circumstance. D. It says the plan must stop whenever the cup has no lid.

RDL-062 | 杂货店预订篮 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “bring the confirmation number” 标成 **杂货店预订篮** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you will arrive much later” 时为何改用 “a new pickup window”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may h___; users should b___; the stated alternative is n___.

原创材料: A customer note explains a service policy. The business will hold online grocery orders for two hours after the selected time. Customers should bring the confirmation number. When you will arrive much later, the stated alternative is a new pickup window.

Q1. For **杂货店预订篮**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you will arrive much later. B. Skip the instruction to bring the confirmation number. C. Bring the confirmation number. D. Treat a new pickup window as the routine for every reader.

Q2. The notice adds “When you will arrive much later, the stated alternative is a new pickup window.” What role does that detail play in the plan for **杂货店预订篮**? A. It cancels the instruction to bring the confirmation number. B. It connects the condition that you will arrive much later to a new pickup window, so readers know the specified response. C. It makes a new pickup window compulsory outside that stated circumstance. D. It says the plan must stop whenever you will arrive much later.

RDL-063 | 修鞋店材料选择 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “choose the finish before leaving the shoes” 标成 **修鞋店材料选择** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the shoes have a hidden tear” 时为何改用 “a call about repair options”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may d____; users should c____; the stated alternative is c____.

原创材料: A customer note explains a service policy. The business will display leather-care samples beside the counter. Customers should choose the finish before leaving the shoes. When the shoes have a hidden tear, the stated alternative is a call about repair options.

Q1. For **修鞋店材料选择**, which action belongs to the normal arrangement before a reader relies on the service? A. Choose the finish before leaving the shoes. B. Wait until the shoes have a hidden tear. C. Skip the instruction to choose the finish before leaving the shoes. D. Treat a call about repair options as the routine for every reader.

Q2. The notice adds “When the shoes have a hidden tear, the stated alternative is a call about repair options.” What role does that detail play in the plan for **修鞋店材料选择**? A. It cancels the instruction to choose the finish before leaving the shoes. B. It makes a call about repair options compulsory outside that stated circumstance. C. It connects the condition that the shoes have a hidden tear to a call about repair options, so readers know the specified response. D. It says the plan must stop whenever the shoes have a hidden tear.

RDL-064 | 面包店过敏原预订 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “place those orders by noon the previous day” 标成 **面包店过敏原预订** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you order after the deadline” 时为何改用 “items from the regular display only”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s____; users should p____; the stated alternative is i____.

原创材料: A customer note explains a service policy. The business will seal nut-free orders before the morning rush. Customers should place those orders by noon the previous day. When you order after the deadline, the stated alternative is items from the regular display only.

Q1. For **面包店过敏原预订**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you order after the deadline. B. Skip the instruction to place those orders by noon the previous day. C. Treat items from the regular display only as the routine for every reader. D. Place those orders by noon the previous day.

Q2. The notice adds “When you order after the deadline, the stated alternative is items from the regular display only.” What role does that detail play in the plan for **面包店过敏原预订**? A. It cancels the instruction to place those orders by noon the previous day. B. It makes items from the regular display only compulsory outside that stated circumstance. C. It says the plan must stop whenever you order after the deadline. D. It connects the condition that you order after the deadline to items from the regular display only, so readers know the specified response.

RDL-065 | 二手店试衣间规则 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “leave unwanted items on the return rail” 标成 **二手店试衣间规则** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a garment has no price tag” 时为何改用 “help from a floor assistant”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判

断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a___; users should l___; the stated alternative is h___.

原创材料: A customer note explains a service policy. The business will allow three garments in each fitting room. Customers should leave unwanted items on the return rail. When a garment has no price tag, the stated alternative is help from a floor assistant.

Q1. For **二手店试衣间规则**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a garment has no price tag. B. Leave unwanted items on the return rail. C. Skip the instruction to leave unwanted items on the return rail. D. Treat help from a floor assistant as the routine for every reader.

Q2. The notice adds “When a garment has no price tag, the stated alternative is help from a floor assistant.” What role does that detail play in the plan for **二手店试衣间规则**? A. It connects the condition that a garment has no price tag to help from a floor assistant, so readers know the specified response. B. It cancels the instruction to leave unwanted items on the return rail. C. It makes help from a floor assistant compulsory outside that stated circumstance. D. It says the plan must stop whenever a garment has no price tag.

RDL-066 | 手机维修取件 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “check the device before leaving the counter” 标成 **手机维修取件** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a new issue appears after pickup” 时为何改用 “the written repair guarantee”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should c___; the stated alternative is w_____.

原创材料: A customer note explains a service policy. The business will send a message when a screen repair is finished. Customers should check the device before leaving the counter. When a new issue appears after pickup, the stated alternative is the written repair guarantee.

Q1. For **手机维修取件**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a new issue appears after pickup. B. Skip the instruction to check the device before leaving the counter. C. Check the device before leaving the counter. D. Treat the written repair guarantee as the routine for every reader.

Q2. The notice adds “When a new issue appears after pickup, the stated alternative is the written repair guarantee.” What role does that detail play in the plan for **手机维修取件**? A. It cancels the instruction to check the device before leaving the counter. B. It connects the condition that a new issue appears after pickup to the written repair guarantee, so readers know the specified response. C. It makes the written repair guarantee compulsory outside that stated circumstance. D. It says the plan must stop whenever a new issue appears after pickup.

RDL-067 | 花店周末配送 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “include a phone number for the recipient” 标成 **花店周末配送** 的常

规操作，而不把触发条件误读成第一步；阶段二追踪 “the recipient is not home” 时为何改用 “a shaded drop-off only with permission”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)： Complete the key words: The service may d____; users should i____; the stated alternative is s_____.

原创材料： A customer note explains a service policy. The business will deliver bouquets in two neighborhood windows on Saturdays. Customers should include a phone number for the recipient. When the recipient is not home, the stated alternative is a shaded drop-off only with permission.

Q1. For **花店周末配送**, which action belongs to the normal arrangement before a reader relies on the service? A. Include a phone number for the recipient. B. Wait until the recipient is not home. C. Skip the instruction to include a phone number for the recipient. D. Treat a shaded drop-off only with permission as the routine for every reader.

Q2. The notice adds “When the recipient is not home, the stated alternative is a shaded drop-off only with permission.” What role does that detail play in the plan for **花店周末配送**? A. It cancels the instruction to include a phone number for the recipient. B. It makes a shaded drop-off only with permission compulsory outside that stated circumstance. C. It connects the condition that the recipient is not home to a shaded drop-off only with permission, so readers know the specified response. D. It says the plan must stop whenever the recipient is not home.

RDL-068 | 餐厅候位系统 | 难度： RDL-B1+ **| 建议用时：** 2:15

两阶段： 阶段一先把 “give the host your full party size” 标成 **餐厅候位系统** 的常规操作，而不把触发条件误读成第一步；阶段二追踪 “two more guests arrive later” 时为何改用 “a revised wait estimate”。**证据定位：** Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)： Complete the key words: The service may r____; users should g____; the stated alternative is r_____.

原创材料： A customer note explains a service policy. The business will replace paper lists with a table-ready text message. Customers should give the host your full party size. When two more guests arrive later, the stated alternative is a revised wait estimate.

Q1. For **餐厅候位系统**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until two more guests arrive later. B. Skip the instruction to give the host your full party size. C. Treat a revised wait estimate as the routine for every reader. D. Give the host your full party size.

Q2. The notice adds “When two more guests arrive later, the stated alternative is a revised wait estimate.” What role does that detail play in the plan for **餐厅候位系统**? A. It cancels the instruction to give the host your full party size. B. It makes a revised wait estimate compulsory outside that stated circumstance. C. It says the plan must stop whenever two more guests arrive later. D. It connects the condition that two more guests arrive later to a revised wait estimate, so readers know the specified response.

RDL-069 | 自行车店安全检查 | 难度： RDL-B1+ **| 建议用时：** 2:15

两阶段：阶段一先把“bring the service receipt”标成**自行车店安全检查**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the bicycle was repaired elsewhere”时为何改用“a paid inspection appointment”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may i____; users should b____; the stated alternative is p____.

原创材料：A customer note explains a service policy. The business will inspect brakes free of charge after a tune-up. Customers should bring the service receipt. When the bicycle was repaired elsewhere, the stated alternative is a paid inspection appointment.

Q1. For **自行车店安全检查**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the bicycle was repaired elsewhere. B. Bring the service receipt. C. Skip the instruction to bring the service receipt. D. Treat a paid inspection appointment as the routine for every reader.

Q2. The notice adds “When the bicycle was repaired elsewhere, the stated alternative is a paid inspection appointment.” What role does that detail play in the plan for **自行车店安全检查**? A. It connects the condition that the bicycle was repaired elsewhere to a paid inspection appointment, so readers know the specified response. B. It cancels the instruction to bring the service receipt. C. It makes a paid inspection appointment compulsory outside that stated circumstance. D. It says the plan must stop whenever the bicycle was repaired elsewhere.

RDL-070 | 裁缝店急件政策 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“mark the event date on the ticket”标成**裁缝店急件政策**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the fabric needs special stitching”时为何改用“a realistic completion time”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may a____; users should m____; the stated alternative is r_____.

原创材料：A customer note explains a service policy. The business will accept rush hemming only before eleven in the morning. Customers should mark the event date on the ticket. When the fabric needs special stitching, the stated alternative is a realistic completion time.

Q1. For **裁缝店急件政策**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the fabric needs special stitching. B. Skip the instruction to mark the event date on the ticket. C. Mark the event date on the ticket. D. Treat a realistic completion time as the routine for every reader.

Q2. The notice adds “When the fabric needs special stitching, the stated alternative is a realistic completion time.” What role does that detail play in the plan for **裁缝店急件政策**? A. It cancels the instruction to mark the event date on the ticket. B. It connects the condition that the fabric needs special stitching to a realistic completion time, so readers know the specified response. C. It makes a realistic completion time compulsory outside that stated circumstance. D. It says the plan must stop whenever the fabric needs special stitching.

RDL-071 | 共享办公桌预订 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“check in through the lobby tablet”标成**共享办公桌预订**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you are delayed by transit”时为何改用“a message to the office host”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may r____; users should c____; the stated alternative is m_____.

原创材料：An internal message announces a workflow adjustment. The workplace will release unclaimed desks after twenty minutes. Employees should check in through the lobby tablet. When you are delayed by transit, the stated alternative is a message to the office host.

Q1. For **共享办公桌预订**, which action belongs to the normal arrangement before a reader relies on the service? A. Check in through the lobby tablet. B. Wait until you are delayed by transit. C. Skip the instruction to check in through the lobby tablet. D. Treat a message to the office host as the routine for every reader.

Q2. The notice adds “When you are delayed by transit, the stated alternative is a message to the office host.” What role does that detail play in the plan for **共享办公桌预订**? A. It cancels the instruction to check in through the lobby tablet. B. It makes a message to the office host compulsory outside that stated circumstance. C. It connects the condition that you are delayed by transit to a message to the office host, so readers know the specified response. D. It says the plan must stop whenever you are delayed by transit.

RDL-072 | 午间软件培训 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“bring a laptop with the update installed”标成**午间软件培训**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the update has not finished”时为何改用“a printed practice copy”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may d____; users should b____; the stated alternative is p_____.

原创材料：An internal message announces a workflow adjustment. The workplace will demonstrate the new expense form in short sessions. Employees should bring a laptop with the update installed. When the update has not finished, the stated alternative is a printed practice copy.

Q1. For **午间软件培训**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the update has not finished. B. Skip the instruction to bring a laptop with the update installed. C. Treat a printed practice copy as the routine for every reader. D. Bring a laptop with the update installed.

Q2. The notice adds “When the update has not finished, the stated alternative is a printed practice copy.” What role does that detail play in the plan for **午间软件培训**? A. It cancels the instruction to bring a laptop with the update installed. B. It makes a printed practice copy compulsory outside that stated circumstance. C. It says the plan must stop whenever the update has not finished. D. It connects the condition that the update has not finished to a printed practice copy, so readers know the specified response.

RDL-073 | 公司志愿者日 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“choose one project by the registration deadline”标成**公司志愿者日**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a team changes its project”时为何改用“confirmation from the coordinator”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may o____; users should c____; the stated alternative is c_____.

原创材料：An internal message announces a workflow adjustment. The workplace will offer paid time for teams helping at local charities. Employees should choose one project by the registration deadline. When a team changes its project, the stated alternative is confirmation from the coordinator.

Q1. For **公司志愿者日**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a team changes its project. B. Choose one project by the registration deadline. C. Skip the instruction to choose one project by the registration deadline. D. Treat confirmation from the coordinator as the routine for every reader.

Q2. The notice adds “When a team changes its project, the stated alternative is confirmation from the coordinator.” What role does that detail play in the plan for **公司志愿者日**? A. It connects the condition that a team changes its project to confirmation from the coordinator, so readers know the specified response. B. It cancels the instruction to choose one project by the registration deadline. C. It makes confirmation from the coordinator compulsory outside that stated circumstance. D. It says the plan must stop whenever a team changes its project.

RDL-074 | 安全演练提醒 | 难度：RDL-B1+ **| 建议用时：**2:15

两阶段：阶段一先把“remain at your desk unless a real alarm is announced”标成**安全演练提醒**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you cannot hear the speaker clearly”时为何改用“a report to facilities”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may t____; users should r____; the stated alternative is r_____.

原创材料：An internal message announces a workflow adjustment. The workplace will test the building's evacuation speakers on Thursday. Employees should remain at your desk unless a real alarm is announced. When you cannot hear the speaker clearly, the stated alternative is a report to facilities.

Q1. For **安全演练提醒**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you cannot hear the speaker clearly. B. Skip the instruction to remain at your desk unless a real alarm is announced. C. Remain at your desk unless a real alarm is announced. D. Treat a report to facilities as the routine for every reader.

Q2. The notice adds “When you cannot hear the speaker clearly, the stated alternative is a report to facilities.” What role does that detail play in the plan for **安全演练提醒**? A. It cancels the instruction to remain at your desk unless a real alarm is announced. B. It connects the condition that you cannot hear the speaker clearly to a report to facilities, so readers know the specified response. C. It makes a report to facilities compulsory outside that stated circumstance. D. It says the plan must stop whenever

you cannot hear the speaker clearly.

RDL-075 | 内部岗位影子日 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “ask your supervisor before selecting a date” 标成 **内部岗位影子日** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “client work is scheduled that day” 时为何改用 “another available date”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l__; users should a__; the stated alternative is a_____.

原创材料: An internal message announces a workflow adjustment. The workplace will let employees observe another department for half a day. Employees should ask your supervisor before selecting a date. When client work is scheduled that day, the stated alternative is another available date.

Q1. For **内部岗位影子日**, which action belongs to the normal arrangement before a reader relies on the service? A. Ask your supervisor before selecting a date. B. Wait until client work is scheduled that day. C. Skip the instruction to ask your supervisor before selecting a date. D. Treat another available date as the routine for every reader.

Q2. The notice adds “When client work is scheduled that day, the stated alternative is another available date.” What role does that detail play in the plan for **内部岗位影子日**? A. It cancels the instruction to ask your supervisor before selecting a date. B. It makes another available date compulsory outside that stated circumstance. C. It connects the condition that client work is scheduled that day to another available date, so readers know the specified response. D. It says the plan must stop whenever client work is scheduled that day.

RDL-076 | 会议室视频设备 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “arrive five minutes early for a first use” 标成 **会议室视频设备** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the panel does not connect” 时为何改用 “a support number on the screen”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r_____; users should a_____; the stated alternative is s_____.

原创材料: An internal message announces a workflow adjustment. The workplace will replace remote controls with touch panels in Room Pine. Employees should arrive five minutes early for a first use. When the panel does not connect, the stated alternative is a support number on the screen.

Q1. For **会议室视频设备**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the panel does not connect. B. Skip the instruction to arrive five minutes early for a first use. C. Treat a support number on the screen as the routine for every reader. D. Arrive five minutes early for a first use.

Q2. The notice adds “When the panel does not connect, the stated alternative is a support number on the screen.” What role does that detail play in the plan for **会议室视频设备**? A. It cancels the instruction to arrive five minutes early for a first use. B. It makes a support number on the screen compulsory outside that stated circumstance. C. It says the plan must stop whenever the panel does not connect. D. It connects

the condition that the panel does not connect to a support number on the screen, so readers know the specified response.

RDL-077 | 通勤奖励计划 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “enter only trips made to or from work” 标成 **通勤奖励计划** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you forget to log a trip” 时为何改用 “an entry before the weekly cutoff”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should e____; the stated alternative is e____.

原创材料: An internal message announces a workflow adjustment. The workplace will record walking or cycling trips in the employee portal. Employees should enter only trips made to or from work. When you forget to log a trip, the stated alternative is an entry before the weekly cutoff.

Q1. For **通勤奖励计划**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you forget to log a trip. B. Enter only trips made to or from work. C. Skip the instruction to enter only trips made to or from work. D. Treat an entry before the weekly cutoff as the routine for every reader.

Q2. The notice adds “When you forget to log a trip, the stated alternative is an entry before the weekly cutoff.” What role does that detail play in the plan for **通勤奖励计划**? A. It connects the condition that you forget to log a trip to an entry before the weekly cutoff, so readers know the specified response. B. It cancels the instruction to enter only trips made to or from work. C. It makes an entry before the weekly cutoff compulsory outside that stated circumstance. D. It says the plan must stop whenever you forget to log a trip.

RDL-078 | 档案清理周 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把 “keep files under active review out of the bins” 标成 **档案清理周** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a file has no owner” 时为何改用 “a question to the records team”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a__; users should k__; the stated alternative is q_____.

原创材料: An internal message announces a workflow adjustment. The workplace will ask teams to label records due for secure destruction. Employees should keep files under active review out of the bins. When a file has no owner, the stated alternative is a question to the records team.

Q1. For **档案清理周**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a file has no owner. B. Skip the instruction to keep files under active review out of the bins. C. Keep files under active review out of the bins. D. Treat a question to the records team as the routine for every reader.

Q2. The notice adds “When a file has no owner, the stated alternative is a question to the records team.” What role does that detail play in the plan for **档案清理周**? A. It cancels the instruction to keep files under active review out of the bins. B. It connects the condition that a file has no owner to a question to the records team, so readers

know the specified response. C. It makes a question to the records team compulsory outside that stated circumstance. D. It says the plan must stop whenever a file has no owner.

RDL-079 | 导师配对午餐 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“write one learning goal in the sign-up form”标成**导师配对午餐**的常规操作,而不把触发条件误读成第一步;阶段二追踪“your match works in another time zone”时为何改用“a video lunch option”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排,判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m____; users should w____; the stated alternative is v____.

原创材料: An internal message announces a workflow adjustment. The workplace will match new hires with volunteers from other teams. Employees should write one learning goal in the sign-up form. When your match works in another time zone, the stated alternative is a video lunch option.

Q1. For **导师配对午餐**, which action belongs to the normal arrangement before a reader relies on the service? A. Write one learning goal in the sign-up form. B. Wait until your match works in another time zone. C. Skip the instruction to write one learning goal in the sign-up form. D. Treat a video lunch option as the routine for every reader.

Q2. The notice adds “When your match works in another time zone, the stated alternative is a video lunch option.” What role does that detail play in the plan for **导师配对午餐**? A. It cancels the instruction to write one learning goal in the sign-up form. B. It makes a video lunch option compulsory outside that stated circumstance. C. It connects the condition that your match works in another time zone to a video lunch option, so readers know the specified response. D. It says the plan must stop whenever your match works in another time zone.

RDL-080 | 紧急联络更新 | 难度: RDL-B1+ | 建议用时: 2:15

两阶段: 阶段一先把“save the form after each changed field”标成**紧急联络更新**的常规操作,而不把触发条件误读成第一步;阶段二追踪“you have no changes”时为何改用“confirmation that the record was reviewed”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排,判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should s____; the stated alternative is c_____.

原创材料: An internal message announces a workflow adjustment. The workplace will ask staff to review phone and contact details this month. Employees should save the form after each changed field. When you have no changes, the stated alternative is confirmation that the record was reviewed.

Q1. For **紧急联络更新**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you have no changes. B. Skip the instruction to save the form after each changed field. C. Treat confirmation that the record was reviewed as the routine for every reader. D. Save the form after each changed field.

Q2. The notice adds “When you have no changes, the stated alternative is confirmation that the record was reviewed.” What role does that detail play in the plan for **紧急联**

络更新? A. It cancels the instruction to save the form after each changed field. B. It makes confirmation that the record was reviewed compulsory outside that stated circumstance. C. It says the plan must stop whenever you have no changes. D. It connects the condition that you have no changes to confirmation that the record was reviewed, so readers know the specified response.

RDL-081 | 科学营接送安排 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把“show the family pickup card”标成**科学营接送安排**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“a relative arrives without the card”时为何改用“identity verification by the coordinator”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m___; users should s___; the stated alternative is i_____.

原创材料: Families received information about a children's activity. The program will move afternoon pickup to the playground gate. Adults should show the family pickup card. When a relative arrives without the card, the stated alternative is identity verification by the coordinator.

Q1. For **科学营接送安排**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a relative arrives without the card. B. Show the family pickup card. C. Skip the instruction to show the family pickup card. D. Treat identity verification by the coordinator as the routine for every reader.

Q2. The notice adds “When a relative arrives without the card, the stated alternative is identity verification by the coordinator.” What role does that detail play in the plan for **科学营接送安排**? A. It connects the condition that a relative arrives without the card to identity verification by the coordinator, so readers know the specified response. B. It cancels the instruction to show the family pickup card. C. It makes identity verification by the coordinator compulsory outside that stated circumstance. D. It says the plan must stop whenever a relative arrives without the card.

RDL-082 | 家长阅读伙伴 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把“complete a background check before the first visit”标成**家长阅读伙伴**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“the check is still pending”时为何改用“observation from outside the reading room”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p___; users should c_____; the stated alternative is o_____.

原创材料: Families received information about a children's activity. The program will pair volunteers with children for twenty-minute sessions. Adults should complete a background check before the first visit. When the check is still pending, the stated alternative is observation from outside the reading room.

Q1. For **家长阅读伙伴**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the check is still pending. B. Skip the instruction to complete a background check before the first visit. C. Complete a background check before the first visit. D. Treat observation from outside the reading room as the routine for every reader.

Q2. The notice adds “When the check is still pending, the stated alternative is observation from outside the reading room.” What role does that detail play in the plan for **家长阅读伙伴**? A. It cancels the instruction to complete a background check before the first visit. B. It connects the condition that the check is still pending to observation from outside the reading room, so readers know the specified response. C. It makes observation from outside the reading room compulsory outside that stated circumstance. D. It says the plan must stop whenever the check is still pending.

RDL-083 | 音乐学校乐器柜 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “attach the provided name tag” 标成 **音乐学校乐器柜** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “an instrument is too large for a shelf” 时为何改用 “storage behind the stage”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a ____; users should a ____; the stated alternative is s ____.

原创材料: Families received information about a children's activity. The program will assign numbered shelves for student instruments. Adults should attach the provided name tag. When an instrument is too large for a shelf, the stated alternative is storage behind the stage.

Q1. For **音乐学校乐器柜**, which action belongs to the normal arrangement before a reader relies on the service? A. Attach the provided name tag. B. Wait until an instrument is too large for a shelf. C. Skip the instruction to attach the provided name tag. D. Treat storage behind the stage as the routine for every reader.

Q2. The notice adds “When an instrument is too large for a shelf, the stated alternative is storage behind the stage.” What role does that detail play in the plan for **音乐学校乐器柜**? A. It cancels the instruction to attach the provided name tag. B. It makes storage behind the stage compulsory outside that stated circumstance. C. It connects the condition that an instrument is too large for a shelf to storage behind the stage, so readers know the specified response. D. It says the plan must stop whenever an instrument is too large for a shelf.

RDL-084 | 校服回收箱 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “place shoes in the separate marked bag” 标成 **校服回收箱** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a uniform has a tear” 时为何改用 “a textile-repair table”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a ____; users should p ____; the stated alternative is t ____.

原创材料: Families received information about a children's activity. The program will accept clean uniforms beside the front office. Adults should place shoes in the separate marked bag. When a uniform has a tear, the stated alternative is a textile-repair table.

Q1. For **校服回收箱**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a uniform has a tear. B. Skip the instruction to place shoes in the separate marked bag. C. Treat a textile-repair table as the

routine for every reader. D. Place shoes in the separate marked bag.

Q2. The notice adds “When a uniform has a tear, the stated alternative is a textile-repair table.” What role does that detail play in the plan for **校服回收箱**? A. It cancels the instruction to place shoes in the separate marked bag. B. It makes a textile-repair table compulsory outside that stated circumstance. C. It says the plan must stop whenever a uniform has a tear. D. It connects the condition that a uniform has a tear to a textile-repair table, so readers know the specified response.

RDL-085 | 周五作业帮助 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “bring the worksheet rather than a photograph of it” 标成 **周五作业帮助** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a student has no worksheet” 时为何改用 “a fresh practice copy”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may o___; users should b___; the stated alternative is f___.

原创材料: Families received information about a children's activity. The program will open the math room for family questions after school. Adults should bring the worksheet rather than a photograph of it. When a student has no worksheet, the stated alternative is a fresh practice copy.

Q1. For **周五作业帮助**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a student has no worksheet. B. Bring the worksheet rather than a photograph of it. C. Skip the instruction to bring the worksheet rather than a photograph of it. D. Treat a fresh practice copy as the routine for every reader.

Q2. The notice adds “When a student has no worksheet, the stated alternative is a fresh practice copy.” What role does that detail play in the plan for **周五作业帮助**? A. It connects the condition that a student has no worksheet to a fresh practice copy, so readers know the specified response. B. It cancels the instruction to bring the worksheet rather than a photograph of it. C. It makes a fresh practice copy compulsory outside that stated circumstance. D. It says the plan must stop whenever a student has no worksheet.

RDL-086 | 儿童厨房参观 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “tie back long hair before entering” 标成 **儿童厨房参观** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a child has food allergies” 时为何改用 “a note to the guide before the tour”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l___; users should t___; the stated alternative is n___.

原创材料: Families received information about a children's activity. The program will limit tours to six children with one adult. Adults should tie back long hair before entering. When a child has food allergies, the stated alternative is a note to the guide before the tour.

Q1. For **儿童厨房参观**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a child has food allergies. B. Skip the in-

struction to tie back long hair before entering. C. Tie back long hair before entering. D. Treat a note to the guide before the tour as the routine for every reader.

Q2. The notice adds “When a child has food allergies, the stated alternative is a note to the guide before the tour.” What role does that detail play in the plan for **儿童厨房参观**? A. It cancels the instruction to tie back long hair before entering. B. It connects the condition that a child has food allergies to a note to the guide before the tour, so readers know the specified response. C. It makes a note to the guide before the tour compulsory outside that stated circumstance. D. It says the plan must stop whenever a child has food allergies.

RDL-087 | 校车座位调整 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “ask the office before the route begins” 标成 **校车座位调整** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the front seats are already assigned” 时为何改用 “advice about another seat”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may r____; users should a____; the stated alternative is a____.

原创材料: Families received information about a children's activity. The program will reserve front seats for students who become carsick. Adults should ask the office before the route begins. When the front seats are already assigned, the stated alternative is advice about another seat.

Q1. For **校车座位调整**, which action belongs to the normal arrangement before a reader relies on the service? A. Ask the office before the route begins. B. Wait until the front seats are already assigned. C. Skip the instruction to ask the office before the route begins. D. Treat advice about another seat as the routine for every reader.

Q2. The notice adds “When the front seats are already assigned, the stated alternative is advice about another seat.” What role does that detail play in the plan for **校车座位调整**? A. It cancels the instruction to ask the office before the route begins. B. It makes advice about another seat compulsory outside that stated circumstance. C. It connects the condition that the front seats are already assigned to advice about another seat, so readers know the specified response. D. It says the plan must stop whenever the front seats are already assigned.

RDL-088 | 幼儿园雨天入园 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “fold umbrellas before entering the hallway” 标成 **幼儿园雨天入园** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a stroller blocks the entrance” 时为何改用 “help from the morning assistant”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should f____; the stated alternative is h____.

原创材料: Families received information about a children's activity. The program will ask families to use the side entrance on wet mornings. Adults should fold umbrellas before entering the hallway. When a stroller blocks the entrance, the stated alternative is help from the morning assistant.

Q1. For **幼儿园雨天入园**, which action belongs to the normal arrangement before

a reader relies on the service? A. Wait until a stroller blocks the entrance. B. Skip the instruction to fold umbrellas before entering the hallway. C. Treat help from the morning assistant as the routine for every reader. D. Fold umbrellas before entering the hallway.

Q2. The notice adds “When a stroller blocks the entrance, the stated alternative is help from the morning assistant.” What role does that detail play in the plan for **幼儿园雨天入园**? A. It cancels the instruction to fold umbrellas before entering the hallway. B. It makes help from the morning assistant compulsory outside that stated circumstance. C. It says the plan must stop whenever a stroller blocks the entrance. D. It connects the condition that a stroller blocks the entrance to help from the morning assistant, so readers know the specified response.

RDL-089 | 青少年辩论社 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “prepare one question about the weekly topic” 标成 **青少年辩论社** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you miss the first practice” 时为何改用 “the online summary and next topic”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may h___; users should p___; the stated alternative is o___.

原创材料: Families received information about a children's activity. The program will hold beginner practice in the media room. Adults should prepare one question about the weekly topic. When you miss the first practice, the stated alternative is the online summary and next topic.

Q1. For **青少年辩论社**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you miss the first practice. B. Prepare one question about the weekly topic. C. Skip the instruction to prepare one question about the weekly topic. D. Treat the online summary and next topic as the routine for every reader.

Q2. The notice adds “When you miss the first practice, the stated alternative is the online summary and next topic.” What role does that detail play in the plan for **青少年辩论社**? A. It connects the condition that you miss the first practice to the online summary and next topic, so readers know the specified response. B. It cancels the instruction to prepare one question about the weekly topic. C. It makes the online summary and next topic compulsory outside that stated circumstance. D. It says the plan must stop whenever you miss the first practice.

RDL-090 | 家长会翻译服务 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “name the preferred language on the form” 标成 **家长会翻译服务** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a request is sent late” 时为何改用 “a phone interpreter if available”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p___; users should n___; the stated alternative is p___.

原创材料: Families received information about a children's activity. The program will provide interpreters when requests arrive three days early. Adults should name the preferred language on the form. When a request is sent late, the stated alternative

is a phone interpreter if available.

Q1. For 家长会翻译服务, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a request is sent late. B. Skip the instruction to name the preferred language on the form. C. Name the preferred language on the form. D. Treat a phone interpreter if available as the routine for every reader.

Q2. The notice adds “When a request is sent late, the stated alternative is a phone interpreter if available.” What role does that detail play in the plan for 家长会翻译服务? A. It cancels the instruction to name the preferred language on the form. B. It connects the condition that a request is sent late to a phone interpreter if available, so readers know the specified response. C. It makes a phone interpreter if available compulsory outside that stated circumstance. D. It says the plan must stop whenever a request is sent late.

RDL-091 | 市民门户密码更新 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “sign in through the official portal rather than a link” 标成 市民门户密码更新的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “an email asks for your old password” 时为何改用 “a report to the security team”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a__; users should s__; the stated alternative is r_____.

原创材料: A digital-service notice concerns an account or online process. The service will ask users to create a longer password this month. Users should sign in through the official portal rather than a link. When an email asks for your old password, the stated alternative is a report to the security team.

Q1. For 市民门户密码更新, which action belongs to the normal arrangement before a reader relies on the service? A. Sign in through the official portal rather than a link. B. Wait until an email asks for your old password. C. Skip the instruction to sign in through the official portal rather than a link. D. Treat a report to the security team as the routine for every reader.

Q2. The notice adds “When an email asks for your old password, the stated alternative is a report to the security team.” What role does that detail play in the plan for 市民门户密码更新? A. It cancels the instruction to sign in through the official portal rather than a link. B. It makes a report to the security team compulsory outside that stated circumstance. C. It connects the condition that an email asks for your old password to a report to the security team, so readers know the specified response. D. It says the plan must stop whenever an email asks for your old password.

RDL-092 | 课程视频字幕修订 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “choose the version marked revised” 标成 课程视频字幕修订的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you notice another caption error” 时为何改用 “a timestamp in the feedback form”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a__; users should c____; the stated alternative is t_____.

原创材料: A digital-service notice concerns an account or online process. The ser-

vice will add corrected captions to last week's lecture. Users should choose the version marked revised. When you notice another caption error, the stated alternative is a timestamp in the feedback form.

Q1. For 课程视频字幕修订, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you notice another caption error. B. Skip the instruction to choose the version marked revised. C. Treat a timestamp in the feedback form as the routine for every reader. D. Choose the version marked revised.

Q2. The notice adds "When you notice another caption error, the stated alternative is a timestamp in the feedback form." What role does that detail play in the plan for 课程视频字幕修订? A. It cancels the instruction to choose the version marked revised. B. It makes a timestamp in the feedback form compulsory outside that stated circumstance. C. It says the plan must stop whenever you notice another caption error. D. It connects the condition that you notice another caption error to a timestamp in the feedback form, so readers know the specified response.

RDL-093 | 照片云端整理 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 "save personal copies before removing an image" 标成 照片云端整理的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 "you need to keep an image private" 时为何改用 "a personal album outside the shared folder"。 **证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may m___; users should s___; the stated alternative is p_____.

原创材料: A digital-service notice concerns an account or online process. The service will move shared albums into topic folders on Friday. Users should save personal copies before removing an image. When you need to keep an image private, the stated alternative is a personal album outside the shared folder.

Q1. For 照片云端整理, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you need to keep an image private. B. Save personal copies before removing an image. C. Skip the instruction to save personal copies before removing an image. D. Treat a personal album outside the shared folder as the routine for every reader.

Q2. The notice adds "When you need to keep an image private, the stated alternative is a personal album outside the shared folder." What role does that detail play in the plan for 照片云端整理? A. It connects the condition that you need to keep an image private to a personal album outside the shared folder, so readers know the specified response. B. It cancels the instruction to save personal copies before removing an image. C. It makes a personal album outside the shared folder compulsory outside that stated circumstance. D. It says the plan must stop whenever you need to keep an image private.

RDL-094 | 社区应用通知设置 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 "turn on emergency alerts before silencing events" 标成 社区应用通知设置的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 "you change phones" 时为何改用 "a new sign-in to restore the settings"。 **证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may l___; users should

t___; the stated alternative is n___.

原创材料: A digital-service notice concerns an account or online process. The service will let residents choose emergency, event, or all alerts. Users should turn on emergency alerts before silencing events. When you change phones, the stated alternative is a new sign-in to restore the settings.

Q1. For **社区应用通知设置**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you change phones. B. Skip the instruction to turn on emergency alerts before silencing events. C. Turn on emergency alerts before silencing events. D. Treat a new sign-in to restore the settings as the routine for every reader.

Q2. The notice adds “When you change phones, the stated alternative is a new sign-in to restore the settings.” What role does that detail play in the plan for **社区应用通知设置**? A. It cancels the instruction to turn on emergency alerts before silencing events. B. It connects the condition that you change phones to a new sign-in to restore the settings, so readers know the specified response. C. It makes a new sign-in to restore the settings compulsory outside that stated circumstance. D. It says the plan must stop whenever you change phones.

RDL-095 | 线上市场卖家验证 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “use in-app payment for the first purchase” 标成 **线上市场卖家验证** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “a seller asks to move the chat elsewhere” 时为何改用 “a reason to remain in the app”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may d___; users should u___; the stated alternative is r___.

原创材料: A digital-service notice concerns an account or online process. The service will display a badge after sellers confirm their identity. Users should use in-app payment for the first purchase. When a seller asks to move the chat elsewhere, the stated alternative is a reason to remain in the app.

Q1. For **线上市场卖家验证**, which action belongs to the normal arrangement before a reader relies on the service? A. Use in-app payment for the first purchase. B. Wait until a seller asks to move the chat elsewhere. C. Skip the instruction to use in-app payment for the first purchase. D. Treat a reason to remain in the app as the routine for every reader.

Q2. The notice adds “When a seller asks to move the chat elsewhere, the stated alternative is a reason to remain in the app.” What role does that detail play in the plan for **线上市场卖家验证**? A. It cancels the instruction to use in-app payment for the first purchase. B. It makes a reason to remain in the app compulsory outside that stated circumstance. C. It connects the condition that a seller asks to move the chat elsewhere to a reason to remain in the app, so readers know the specified response. D. It says the plan must stop whenever a seller asks to move the chat elsewhere.

RDL-096 | 远程图书卡注册 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “photograph the document clearly” 标成 **远程图书卡注册** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the image is unreadable” 时为何改用 “a request for a new upload”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让

计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should p____; the stated alternative is r_____.

原创材料: A digital-service notice concerns an account or online process. The service will allow residents to apply by uploading proof of address. Users should photograph the document clearly. When the image is unreadable, the stated alternative is a request for a new upload.

Q1. For 远程图书卡注册, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the image is unreadable. B. Skip the instruction to photograph the document clearly. C. Treat a request for a new upload as the routine for every reader. D. Photograph the document clearly.

Q2. The notice adds “When the image is unreadable, the stated alternative is a request for a new upload.” What role does that detail play in the plan for 远程图书卡注册? A. It cancels the instruction to photograph the document clearly. B. It makes a request for a new upload compulsory outside that stated circumstance. C. It says the plan must stop whenever the image is unreadable. D. It connects the condition that the image is unreadable to a request for a new upload, so readers know the specified response.

RDL-097 | 大学邮箱容量提醒 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “download files you need offline” 标成 大学邮箱容量提醒 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the mailbox is already full” 时为何改用 “temporary access through webmail”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may a____; users should d____; the stated alternative is t_____.

原创材料: A digital-service notice concerns an account or online process. The service will archive older attachments before the quota is reached. Users should download files you need offline. When the mailbox is already full, the stated alternative is temporary access through webmail.

Q1. For 大学邮箱容量提醒, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the mailbox is already full. B. Download files you need offline. C. Skip the instruction to download files you need offline. D. Treat temporary access through webmail as the routine for every reader.

Q2. The notice adds “When the mailbox is already full, the stated alternative is temporary access through webmail.” What role does that detail play in the plan for 大学邮箱容量提醒? A. It connects the condition that the mailbox is already full to temporary access through webmail, so readers know the specified response. B. It cancels the instruction to download files you need offline. C. It makes temporary access through webmail compulsory outside that stated circumstance. D. It says the plan must stop whenever the mailbox is already full.

RDL-098 | 预约系统浏览器提示 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “update the browser before clearing saved data” 标成 预约系统浏览器提示 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the booking page freezes” 时为何改用 “a help page with compatible options”。**证据定位:** Q1 回到直接行动句; Q2 同时核

对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s ____; users should u ____; the stated alternative is h ____.

原创材料: A digital-service notice concerns an account or online process. The service will support the latest two versions of major browsers. Users should update the browser before clearing saved data. When the booking page freezes, the stated alternative is a help page with compatible options.

Q1. For 预约系统浏览器提示, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the booking page freezes. B. Skip the instruction to update the browser before clearing saved data. C. Update the browser before clearing saved data. D. Treat a help page with compatible options as the routine for every reader.

Q2. The notice adds “When the booking page freezes, the stated alternative is a help page with compatible options.” What role does that detail play in the plan for 预约系统浏览器提示? A. It cancels the instruction to update the browser before clearing saved data. B. It connects the condition that the booking page freezes to a help page with compatible options, so readers know the specified response. C. It makes a help page with compatible options compulsory outside that stated circumstance. D. It says the plan must stop whenever the booking page freezes.

RDL-099 | 线上讲座问答区 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “add a short title before posting” 标成 线上讲座问答区的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “your question is answered privately” 时为何改用 “a notification in your account”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may k ____; users should a ____; the stated alternative is n ____.

原创材料: A digital-service notice concerns an account or online process. The service will keep questions visible after the live session. Users should add a short title before posting. When your question is answered privately, the stated alternative is a notification in your account.

Q1. For 线上讲座问答区, which action belongs to the normal arrangement before a reader relies on the service? A. Add a short title before posting. B. Wait until your question is answered privately. C. Skip the instruction to add a short title before posting. D. Treat a notification in your account as the routine for every reader.

Q2. The notice adds “When your question is answered privately, the stated alternative is a notification in your account.” What role does that detail play in the plan for 线上讲座问答区? A. It cancels the instruction to add a short title before posting. B. It makes a notification in your account compulsory outside that stated circumstance. C. It connects the condition that your question is answered privately to a notification in your account, so readers know the specified response. D. It says the plan must stop whenever your question is answered privately.

RDL-100 | 家庭网络维护 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “save unfinished online work beforehand” 标成 家庭网络维护的常规

操作，而不把触发条件误读成第一步；阶段二追踪 “your connection is still slow the next day” 时为何改用 “a diagnostic appointment”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)： Complete the key words: The service may r____; users should s____; the stated alternative is d_____.

原创材料： A digital-service notice concerns an account or online process. The service will restart neighborhood routers briefly after midnight. Users should save unfinished online work beforehand. When your connection is still slow the next day, the stated alternative is a diagnostic appointment.

Q1. For 家庭网络维护, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your connection is still slow the next day. B. Skip the instruction to save unfinished online work beforehand. C. Treat a diagnostic appointment as the routine for every reader. D. Save unfinished online work beforehand.

Q2. The notice adds “When your connection is still slow the next day, the stated alternative is a diagnostic appointment.” What role does that detail play in the plan for 家庭网络维护? A. It cancels the instruction to save unfinished online work beforehand. B. It makes a diagnostic appointment compulsory outside that stated circumstance. C. It says the plan must stop whenever your connection is still slow the next day. D. It connects the condition that your connection is still slow the next day to a diagnostic appointment, so readers know the specified response.

RDL-101 | 宠物公园喷泉清洗 | 难度： RDL-B2 | **建议用时：** 2:30

两阶段： 阶段一先把 “bring water for your dog that morning” 标成 宠物公园喷泉清洗的常规操作，而不把触发条件误读成第一步；阶段二追踪 “your pet needs a bowl” 时为何改用 “a temporary bowl station near the gate”。**证据定位：** Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)： Complete the key words: The service may t____; users should b____; the stated alternative is t_____.

原创材料： A neighborhood reminder covers a shared daily service. The local service will turn off the drinking fountain on the first Monday. Residents should bring water for your dog that morning. When your pet needs a bowl, the stated alternative is a temporary bowl station near the gate.

Q1. For 宠物公园喷泉清洗, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your pet needs a bowl. B. Bring water for your dog that morning. C. Skip the instruction to bring water for your dog that morning. D. Treat a temporary bowl station near the gate as the routine for every reader.

Q2. The notice adds “When your pet needs a bowl, the stated alternative is a temporary bowl station near the gate.” What role does that detail play in the plan for 宠物公园喷泉清洗? A. It connects the condition that your pet needs a bowl to a temporary bowl station near the gate, so readers know the specified response. B. It cancels the instruction to bring water for your dog that morning. C. It makes a temporary bowl station near the gate compulsory outside that stated circumstance. D. It says the plan must stop whenever your pet needs a bowl.

RDL-102 | 雨水桶发放 | 难度： RDL-B2 | **建议用时：** 2:30

两阶段：阶段一先把“bring proof of a local address”标成**雨水桶发放**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you cannot attend the lesson”时为何改用“a recording to watch before pickup”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may g____; users should b____; the stated alternative is r_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will give households one barrel after a short setup lesson. Residents should bring proof of a local address. When you cannot attend the lesson, the stated alternative is a recording to watch before pickup.

Q1. For **雨水桶发放**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you cannot attend the lesson. B. Skip the instruction to bring proof of a local address. C. Bring proof of a local address. D. Treat a recording to watch before pickup as the routine for every reader.

Q2. The notice adds “When you cannot attend the lesson, the stated alternative is a recording to watch before pickup.” What role does that detail play in the plan for **雨水桶发放**? A. It cancels the instruction to bring proof of a local address. B. It connects the condition that you cannot attend the lesson to a recording to watch before pickup, so readers know the specified response. C. It makes a recording to watch before pickup compulsory outside that stated circumstance. D. It says the plan must stop whenever you cannot attend the lesson.

RDL-103 | 树叶收集日 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“keep branches shorter than one meter”标成**树叶收集日**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a branch is longer”时为何改用“the separate wood-drop site”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may c____; users should k____; the stated alternative is s_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will collect paper yard bags from the curb every Tuesday. Residents should keep branches shorter than one meter. When a branch is longer, the stated alternative is the separate wood-drop site.

Q1. For **树叶收集日**, which action belongs to the normal arrangement before a reader relies on the service? A. Keep branches shorter than one meter. B. Wait until a branch is longer. C. Skip the instruction to keep branches shorter than one meter. D. Treat the separate wood-drop site as the routine for every reader.

Q2. The notice adds “When a branch is longer, the stated alternative is the separate wood-drop site.” What role does that detail play in the plan for **树叶收集日**? A. It cancels the instruction to keep branches shorter than one meter. B. It makes the separate wood-drop site compulsory outside that stated circumstance. C. It connects the condition that a branch is longer to the separate wood-drop site, so readers know the specified response. D. It says the plan must stop whenever a branch is longer.

RDL-104 | 失物招领宠物牌 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“describe the tag color and shape”标成**失物招领宠物牌**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the owner cannot visit before closing”时为何改用“a phone call to verify the details”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may h___; users should d____; the stated alternative is p_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will hold found animal tags at the shelter desk. Residents should describe the tag color and shape. When the owner cannot visit before closing, the stated alternative is a phone call to verify the details.

Q1. For **失物招领宠物牌**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the owner cannot visit before closing. B. Skip the instruction to describe the tag color and shape. C. Treat a phone call to verify the details as the routine for every reader. D. Describe the tag color and shape.

Q2. The notice adds “When the owner cannot visit before closing, the stated alternative is a phone call to verify the details.” What role does that detail play in the plan for **失物招领宠物牌**? A. It cancels the instruction to describe the tag color and shape. B. It makes a phone call to verify the details compulsory outside that stated circumstance. C. It says the plan must stop whenever the owner cannot visit before closing. D. It connects the condition that the owner cannot visit before closing to a phone call to verify the details, so readers know the specified response.

RDL-105 | 楼道自行车规则 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“use the basement hooks instead”标成**楼道自行车规则**的常规操作，而不把触发条件误读成第一步；阶段二追踪“all hooks are occupied”时为何改用“a waiting list for the next opening”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may a___; users should u___; the stated alternative is w_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will ask residents not to leave bicycles beside fire exits. Residents should use the basement hooks instead. When all hooks are occupied, the stated alternative is a waiting list for the next opening.

Q1. For **楼道自行车规则**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until all hooks are occupied. B. Use the basement hooks instead. C. Skip the instruction to use the basement hooks instead. D. Treat a waiting list for the next opening as the routine for every reader.

Q2. The notice adds “When all hooks are occupied, the stated alternative is a waiting list for the next opening.” What role does that detail play in the plan for **楼道自行车规则**? A. It connects the condition that all hooks are occupied to a waiting list for the next opening, so readers know the specified response. B. It cancels the instruction to use the basement hooks instead. C. It makes a waiting list for the next opening compulsory outside that stated circumstance. D. It says the plan must stop whenever all hooks are occupied.

RDL-106 | 节水喷头展示 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“return the complete kit to the utility desk”标成**节水喷头展示**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a part is missing”时为何改用“a charge only after staff check the kit”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may l____; users should r____; the stated alternative is c_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will lend sample shower heads for a seven-day home trial. Residents should return the complete kit to the utility desk. When a part is missing, the stated alternative is a charge only after staff check the kit.

Q1. For **节水喷头展示**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a part is missing. B. Skip the instruction to return the complete kit to the utility desk. C. Return the complete kit to the utility desk. D. Treat a charge only after staff check the kit as the routine for every reader.

Q2. The notice adds “When a part is missing, the stated alternative is a charge only after staff check the kit.” What role does that detail play in the plan for **节水喷头展示**? A. It cancels the instruction to return the complete kit to the utility desk. B. It connects the condition that a part is missing to a charge only after staff check the kit, so readers know the specified response. C. It makes a charge only after staff check the kit compulsory outside that stated circumstance. D. It says the plan must stop whenever a part is missing.

RDL-107 | 海滩清洁签到 | 难度：RDL-B2 **| 建议用时：**2:30

两阶段：阶段一先把“sort sharp objects into the hard container”标成**海滩清洁签到**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you find a medical item”时为何改用“instructions from the safety lead”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may r____; users should s____; the stated alternative is i_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will record volunteer hours at the blue tent. Residents should sort sharp objects into the hard container. When you find a medical item, the stated alternative is instructions from the safety lead.

Q1. For **海滩清洁签到**, which action belongs to the normal arrangement before a reader relies on the service? A. Sort sharp objects into the hard container. B. Wait until you find a medical item. C. Skip the instruction to sort sharp objects into the hard container. D. Treat instructions from the safety lead as the routine for every reader.

Q2. The notice adds “When you find a medical item, the stated alternative is instructions from the safety lead.” What role does that detail play in the plan for **海滩清洁签到**? A. It cancels the instruction to sort sharp objects into the hard container. B. It makes instructions from the safety lead compulsory outside that stated circumstance. C. It connects the condition that you find a medical item to instructions from the safety lead, so readers know the specified response. D. It says the plan must stop whenever you find a medical item.

RDL-108 | 鸟类喂食提醒 | 难度：RDL-B2 **| 建议用时：**2:30

两阶段：阶段一先把“use approved seed only in marked areas”标成**鸟类喂食提醒**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you see food attracting rats”时为何改用“a report to park staff”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may a__ ; users should u__ ; the stated alternative is r_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will ask residents not to leave bread near the pond. Residents should use approved seed only in marked areas. When you see food attracting rats, the stated alternative is a report to park staff.

Q1. For **鸟类喂食提醒**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you see food attracting rats. B. Skip the instruction to use approved seed only in marked areas. C. Treat a report to park staff as the routine for every reader. D. Use approved seed only in marked areas.

Q2. The notice adds “When you see food attracting rats, the stated alternative is a report to park staff.” What role does that detail play in the plan for **鸟类喂食提醒**? A. It cancels the instruction to use approved seed only in marked areas. B. It makes a report to park staff compulsory outside that stated circumstance. C. It says the plan must stop whenever you see food attracting rats. D. It connects the condition that you see food attracting rats to a report to park staff, so readers know the specified response.

RDL-109 | 共享工具借还 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“photograph the tool at checkout”标成**共享工具借还**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the tool is damaged on return”时为何改用“a conversation about the photo record”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may l__ ; users should p_____ ; the stated alternative is c_____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will lend rakes and hand drills for three days. Residents should photograph the tool at checkout. When the tool is damaged on return, the stated alternative is a conversation about the photo record.

Q1. For **共享工具借还**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the tool is damaged on return. B. Photograph the tool at checkout. C. Skip the instruction to photograph the tool at checkout. D. Treat a conversation about the photo record as the routine for every reader.

Q2. The notice adds “When the tool is damaged on return, the stated alternative is a conversation about the photo record.” What role does that detail play in the plan for **共享工具借还**? A. It connects the condition that the tool is damaged on return to a conversation about the photo record, so readers know the specified response. B. It cancels the instruction to photograph the tool at checkout. C. It makes a conversation about the photo record compulsory outside that stated circumstance. D. It says the plan must stop whenever the tool is damaged on return.

RDL-110 | 夜间噪音沟通卡 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“write the time and type of sound”标成**夜间噪音沟通卡**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the noise feels unsafe”时为何改用“a call to the appropriate emergency service”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may p____; users should w____; the stated alternative is c____.

原创材料：A neighborhood reminder covers a shared daily service. The local service will provide door cards for politely reporting late noise. Residents should write the time and type of sound. When the noise feels unsafe, the stated alternative is a call to the appropriate emergency service.

Q1. For **夜间噪音沟通卡**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the noise feels unsafe. B. Skip the instruction to write the time and type of sound. C. Write the time and type of sound. D. Treat a call to the appropriate emergency service as the routine for every reader.

Q2. The notice adds “When the noise feels unsafe, the stated alternative is a call to the appropriate emergency service.” What role does that detail play in the plan for **夜间噪音沟通卡**? A. It cancels the instruction to write the time and type of sound. B. It connects the condition that the noise feels unsafe to a call to the appropriate emergency service, so readers know the specified response. C. It makes a call to the appropriate emergency service compulsory outside that stated circumstance. D. It says the plan must stop whenever the noise feels unsafe.

RDL-111 | 摄影步道许可 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“keep one side of the path clear”标成**摄影步道许可**的常规操作，而不把触发条件误读成第一步；阶段二追踪“wildlife is nesting nearby”时为何改用“a marked area where tripods are not allowed”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may a____; users should k____; the stated alternative is m____.

原创材料：An activity update introduces a practical arrangement. Organizers will allow tripods on the marsh boardwalk before eight. Participants should keep one side of the path clear. When wildlife is nesting nearby, the stated alternative is a marked area where tripods are not allowed.

Q1. For **摄影步道许可**, which action belongs to the normal arrangement before a reader relies on the service? A. Keep one side of the path clear. B. Wait until wildlife is nesting nearby. C. Skip the instruction to keep one side of the path clear. D. Treat a marked area where tripods are not allowed as the routine for every reader.

Q2. The notice adds “When wildlife is nesting nearby, the stated alternative is a marked area where tripods are not allowed.” What role does that detail play in the plan for **摄影步道许可**? A. It cancels the instruction to keep one side of the path clear. B. It makes a marked area where tripods are not allowed compulsory outside that stated circumstance. C. It connects the condition that wildlife is nesting nearby to a marked area where tripods are not allowed, so readers know the specified response. D. It says the plan must stop whenever wildlife is nesting nearby.

RDL-112 | 烹饪班候补名单 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“answer the confirmation call promptly”标成**烹饪班候补名单**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you cannot attend after confirming”时为何改用“notice to the instructor as soon as possible”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may f____; users should a____; the stated alternative is n_____.

原创材料：An activity update introduces a practical arrangement. Organizers will fill last-minute seats from a numbered waiting list. Participants should answer the confirmation call promptly. When you cannot attend after confirming, the stated alternative is notice to the instructor as soon as possible.

Q1. For **烹饪班候补名单**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you cannot attend after confirming. B. Skip the instruction to answer the confirmation call promptly. C. Treat notice to the instructor as soon as possible as the routine for every reader. D. Answer the confirmation call promptly.

Q2. The notice adds “When you cannot attend after confirming, the stated alternative is notice to the instructor as soon as possible.” What role does that detail play in the plan for **烹饪班候补名单**? A. It cancels the instruction to answer the confirmation call promptly. B. It makes notice to the instructor as soon as possible compulsory outside that stated circumstance. C. It says the plan must stop whenever you cannot attend after confirming. D. It connects the condition that you cannot attend after confirming to notice to the instructor as soon as possible, so readers know the specified response.

RDL-113 | 陶艺工作室釉料日 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“label each piece with a heat-resistant tag”标成**陶艺工作室釉料日**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a piece has no tag”时为何改用“a separate holding shelf”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may r____; users should l____; the stated alternative is s_____.

原创材料：An activity update introduces a practical arrangement. Organizers will reserve the blue kiln shelf for glazed work. Participants should label each piece with a heat-resistant tag. When a piece has no tag, the stated alternative is a separate holding shelf.

Q1. For **陶艺工作室釉料日**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a piece has no tag. B. Label each piece with a heat-resistant tag. C. Skip the instruction to label each piece with a heat-resistant tag. D. Treat a separate holding shelf as the routine for every reader.

Q2. The notice adds “When a piece has no tag, the stated alternative is a separate holding shelf.” What role does that detail play in the plan for **陶艺工作室釉料日**? A. It connects the condition that a piece has no tag to a separate holding shelf, so readers know the specified response. B. It cancels the instruction to label each piece with a heat-resistant tag. C. It makes a separate holding shelf compulsory outside that stated circumstance. D. It says the plan must stop whenever a piece has no tag.

RDL-114 | 徒步俱乐部装备借用 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“return jackets clean and dry”标成**徒步俱乐部装备借用**的常规操作，而不把触发条件误读成第一步；阶段二追踪“the forecast changes to extreme wind”时为何改用“a shorter inland route”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may l____; users should r____; the stated alternative is s_____.

原创材料：An activity update introduces a practical arrangement. Organizers will lend rain jackets for the coastal walk. Participants should return jackets clean and dry. When the forecast changes to extreme wind, the stated alternative is a shorter inland route.

Q1. For **徒步俱乐部装备借用**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until the forecast changes to extreme wind. B. Skip the instruction to return jackets clean and dry. C. Return jackets clean and dry. D. Treat a shorter inland route as the routine for every reader.

Q2. The notice adds “When the forecast changes to extreme wind, the stated alternative is a shorter inland route.” What role does that detail play in the plan for **徒步俱乐部装备借用**? A. It cancels the instruction to return jackets clean and dry. B. It connects the condition that the forecast changes to extreme wind to a shorter inland route, so readers know the specified response. C. It makes a shorter inland route compulsory outside that stated circumstance. D. It says the plan must stop whenever the forecast changes to extreme wind.

RDL-115 | 合唱团试听 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“prepare a short song you enjoy singing”标成**合唱团试听**的常规操作，而不把触发条件误读成第一步；阶段二追踪“you need piano accompaniment”时为何改用“a request in the sign-up form”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may h____; users should p____; the stated alternative is r_____.

原创材料：An activity update introduces a practical arrangement. Organizers will hear new singers individually before the evening rehearsal. Participants should prepare a short song you enjoy singing. When you need piano accompaniment, the stated alternative is a request in the sign-up form.

Q1. For **合唱团试听**, which action belongs to the normal arrangement before a reader relies on the service? A. Prepare a short song you enjoy singing. B. Wait until you need piano accompaniment. C. Skip the instruction to prepare a short song you enjoy singing. D. Treat a request in the sign-up form as the routine for every reader.

Q2. The notice adds “When you need piano accompaniment, the stated alternative is a request in the sign-up form.” What role does that detail play in the plan for **合唱团试听**? A. It cancels the instruction to prepare a short song you enjoy singing. B. It makes a request in the sign-up form compulsory outside that stated circumstance. C. It connects the condition that you need piano accompaniment to a request in the sign-up form, so readers know the specified response. D. It says the plan must stop whenever you need piano accompaniment.

RDL-116 | 棋类咖啡馆配对 | 难度：RDL-B2 | **建议用时：**2:30

两阶段：阶段一先把“write whether you are learning or competing”标成**棋类咖啡馆配对**的常规操作，而不把触发条件误读成第一步；阶段二追踪“no partner has the same preference”时为何改用“an open teaching table”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may m____; users should w____; the stated alternative is o____.

原创材料：An activity update introduces a practical arrangement. Organizers will match players by preferred game length. Participants should write whether you are learning or competing. When no partner has the same preference, the stated alternative is an open teaching table.

Q1. For **棋类咖啡馆配对**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until no partner has the same preference. B. Skip the instruction to write whether you are learning or competing. C. Treat an open teaching table as the routine for every reader. D. Write whether you are learning or competing.

Q2. The notice adds “When no partner has the same preference, the stated alternative is an open teaching table.” What role does that detail play in the plan for **棋类咖啡馆配对**? A. It cancels the instruction to write whether you are learning or competing. B. It makes an open teaching table compulsory outside that stated circumstance. C. It says the plan must stop whenever no partner has the same preference. D. It connects the condition that no partner has the same preference to an open teaching table, so readers know the specified response.

RDL-117 | 手工市集摊位图 | 难度：RDL-B2 | 建议用时：2:30

两阶段：阶段一先把“arrive during the setup window”标成**手工市集摊位图**的常规操作，而不把触发条件误读成第一步；阶段二追踪“a vendor arrives after the road closes”时为何改用“unloading directions from the coordinator”。**证据定位：**Q1 回到直接行动句；Q2 同时核对条件和替代安排，判断它怎样让计划继续可执行。

CTW 热身 (25 秒)：Complete the key words: The service may a____; users should a____; the stated alternative is u_____.

原创材料：An activity update introduces a practical arrangement. Organizers will assign food stalls along the shaded north side. Participants should arrive during the setup window. When a vendor arrives after the road closes, the stated alternative is unloading directions from the coordinator.

Q1. For **手工市集摊位图**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until a vendor arrives after the road closes. B. Arrive during the setup window. C. Skip the instruction to arrive during the setup window. D. Treat unloading directions from the coordinator as the routine for every reader.

Q2. The notice adds “When a vendor arrives after the road closes, the stated alternative is unloading directions from the coordinator.” What role does that detail play in the plan for **手工市集摊位图**? A. It connects the condition that a vendor arrives after the road closes to unloading directions from the coordinator, so readers know the specified response. B. It cancels the instruction to arrive during the setup window. C. It makes unloading directions from the coordinator compulsory outside that stated

circumstance. D. It says the plan must stop whenever a vendor arrives after the road closes.

RDL-118 | 本地旅行分享会 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “bring one map or useful tip to share” 标成 **本地旅行分享会** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “you have not traveled recently” 时为何改用 “a chance to ask questions instead”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may i____; users should b____; the stated alternative is c_____.

原创材料: An activity update introduces a practical arrangement. Organizers will invite residents to exchange low-cost itinerary ideas. Participants should bring one map or useful tip to share. When you have not traveled recently, the stated alternative is a chance to ask questions instead.

Q1. For **本地旅行分享会**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until you have not traveled recently. B. Skip the instruction to bring one map or useful tip to share. C. Bring one map or useful tip to share. D. Treat a chance to ask questions instead as the routine for every reader.

Q2. The notice adds “When you have not traveled recently, the stated alternative is a chance to ask questions instead.” What role does that detail play in the plan for **本地旅行分享会**? A. It cancels the instruction to bring one map or useful tip to share. B. It connects the condition that you have not traveled recently to a chance to ask questions instead, so readers know the specified response. C. It makes a chance to ask questions instead compulsory outside that stated circumstance. D. It says the plan must stop whenever you have not traveled recently.

RDL-119 | 游泳湖水质通知 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把 “check the board before entering the water” 标成 **游泳湖水质通知** 的常规操作, 而不把触发条件误读成第一步; 阶段二追踪 “the result shows a temporary warning” 时为何改用 “another recreation area nearby”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may p____; users should c____; the stated alternative is a_____.

原创材料: An activity update introduces a practical arrangement. Organizers will post morning test results at the entrance board. Participants should check the board before entering the water. When the result shows a temporary warning, the stated alternative is another recreation area nearby.

Q1. For **游泳湖水质通知**, which action belongs to the normal arrangement before a reader relies on the service? A. Check the board before entering the water. B. Wait until the result shows a temporary warning. C. Skip the instruction to check the board before entering the water. D. Treat another recreation area nearby as the routine for every reader.

Q2. The notice adds “When the result shows a temporary warning, the stated alternative is another recreation area nearby.” What role does that detail play in the plan for **游泳湖水质通知**? A. It cancels the instruction to check the board before entering the

water. B. It makes another recreation area nearby compulsory outside that stated circumstance. C. It connects the condition that the result shows a temporary warning to another recreation area nearby, so readers know the specified response. D. It says the plan must stop whenever the result shows a temporary warning.

RDL-120 | 园艺工具演示 | 难度: RDL-B2 | 建议用时: 2:30

两阶段: 阶段一先把“wear eye protection during the demonstration”标成**园艺工具演示**的常规操作, 而不把触发条件误读成第一步; 阶段二追踪“your tool has a cracked handle”时为何改用“advice to replace rather than sharpen it”。**证据定位:** Q1 回到直接行动句; Q2 同时核对条件和替代安排, 判断它怎样让计划继续可执行。

CTW 热身 (25 秒): Complete the key words: The service may s___; users should w___; the stated alternative is a___.

原创材料: An activity update introduces a practical arrangement. Organizers will show how to sharpen hand pruners safely. Participants should wear eye protection during the demonstration. When your tool has a cracked handle, the stated alternative is advice to replace rather than sharpen it.

Q1. For **园艺工具演示**, which action belongs to the normal arrangement before a reader relies on the service? A. Wait until your tool has a cracked handle. B. Skip the instruction to wear eye protection during the demonstration. C. Treat advice to replace rather than sharpen it as the routine for every reader. D. Wear eye protection during the demonstration.

Q2. The notice adds “When your tool has a cracked handle, the stated alternative is advice to replace rather than sharpen it.” What role does that detail play in the plan for **园艺工具演示**? A. It cancels the instruction to wear eye protection during the demonstration. B. It makes advice to replace rather than sharpen it compulsory outside that stated circumstance. C. It says the plan must stop whenever your tool has a cracked handle. D. It connects the condition that your tool has a cracked handle to advice to replace rather than sharpen it, so readers know the specified response.

15.3 14.3 Read an Academic Passage | 80 篇学术短文

RAP 不要求逐句翻译。阶段一先把每段压缩成 问题/方法/发现/限制 四个词组, 再做 Q1-Q2; 阶段二只在原文有两处支持时做 Q3。选项若把“相关”说成“证明”、把“样本”说成“全部”, 优先怀疑它。

15.3.1 生态学

RAP-001 | 潮池藤壶的阴影带 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they used small temperature sensors and weekly photographs” 回答 Q1, 并以 “shaded patches lost fewer animals during hot afternoons” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “shade did not change the amount of food brought by waves” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying barnacles asked whether the shade cast by a ledge influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they used small temperature sensors and weekly photographs. The resulting pattern was clear: shaded patches lost fewer animals during hot afternoons. This observation supports the idea that local conditions can shape the distribution of barnacles. However, shade did not change the amount of food brought by waves. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for predicting which microhabitats buffer heat.

Q1. In 潮池藤壶的阴影带, how does the step “In their field study, they used small temperature sensors and weekly photographs” help investigate “Ecologists studying barnacles asked whether the shade cast by a ledge influenced their behavior or survival”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “shaded patches lost fewer animals during hot afternoons” into proof before observations are checked. C. It removes the need to consider that shade did not change the amount of food brought by waves. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they used small temperature sensors and weekly photographs,” which result did the passage actually report in 潮池藤壶的阴影带? A. shaded patches lost fewer animals during hot afternoons. B. That shade did not change the amount of food brought by waves had been eliminated. C. That “Ecologists studying barnacles asked whether the shade cast by a ledge influenced their behavior or survival” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “shade did not change the amount of food brought by waves.” What is the most careful reading of “shaded patches lost fewer animals during hot afternoons” in 潮池藤壶的阴影带? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In their field study, they used small temperature sensors and weekly photographs.

RAP-002 | 城市屋顶的苔藓岛 | 难度: RAP-B1+ | **建议用时:** 4:20

两阶段: 阶段一用 “In their field study, they weighed dust samples and mapped new shoots” 回答 Q1, 并以 “colonies spread most quickly where dust held moisture” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the pattern disappeared on roofs cleaned every week” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying mosses asked whether thin pockets of windblown dust influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they weighed dust samples

and mapped new shoots. The resulting pattern was clear: colonies spread most quickly where dust held moisture. This observation supports the idea that local conditions can shape the distribution of mosses. However, the pattern disappeared on roofs cleaned every week. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for designing greener roof surfaces.

Q1. In **城市屋顶的苔藓岛**, how does the step “In their field study, they weighed dust samples and mapped new shoots” help investigate “Ecologists studying mosses asked whether thin pockets of windblown dust influenced their behavior or survival”? A. It turns “colonies spread most quickly where dust held moisture” into proof before observations are checked. B. It removes the need to consider that the pattern disappeared on roofs cleaned every week. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they weighed dust samples and mapped new shoots,” which result did the passage actually report in **城市屋顶的苔藓岛**? A. That the pattern disappeared on roofs cleaned every week had been eliminated. B. That “Ecologists studying mosses asked whether thin pockets of windblown dust influenced their behavior or survival” was settled in every setting. C. That later work was unnecessary despite the evidence. D. colonies spread most quickly where dust held moisture.

Q3. The passage adds “the pattern disappeared on roofs cleaned every week.” What is the most careful reading of “colonies spread most quickly where dust held moisture” in **城市屋顶的苔藓岛**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In their field study, they weighed dust samples and mapped new shoots.

RAP-003 | 林缘甲虫的落叶选择 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they placed equal leaf piles at forest edges” 回答 Q1, 并以 “more beetles gathered beneath the slower-decaying leaves” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the study did not establish whether they ate the leaves” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying ground beetles asked whether leaves from two common tree species influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they placed equal leaf piles at forest edges. The resulting pattern was clear: more beetles gathered beneath the slower-decaying leaves. This observation supports the idea that local conditions can shape the distribution of ground beetles. However, the study did not establish whether they ate the leaves. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for understanding shelter rather than diet.

Q1. In **林缘甲虫的落叶选择**, how does the step “In their field study, they placed equal leaf piles at forest edges” help investigate “Ecologists studying ground beetles asked whether leaves from two common tree species influenced their behavior or survival”? A. It turns “more beetles gathered beneath the slower-decaying leaves” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that the study did not establish whether they ate the leaves. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they placed equal leaf piles at forest edges,” which result did the passage actually report in **林缘甲虫的落叶选择**? A. That the study did not establish whether they ate the leaves had been eliminated. B. That “Ecologists studying ground beetles asked whether leaves from two common tree species influenced their behavior or survival” was settled in every setting. C. more beetles gathered beneath the slower-decaying leaves. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the study did not establish whether they ate the leaves.” What is the most careful reading of “more beetles gathered beneath the slower-decaying leaves” in **林缘甲虫的落叶选择**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after In their field study, they placed equal leaf piles at forest edges. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-004 | 沙丘草根与湿度 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they used narrow soil probes across three dunes” 回答 Q1, 并以 “deeper roots coincided with cooler, wetter sand” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “root depth was measured only in mature plants” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying dune grasses asked whether root depth after a dry month influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they used narrow soil probes across three dunes. The resulting pattern was clear: deeper roots coincided with cooler, wetter sand. This observation supports the idea that local conditions can shape the distribution of dune grasses. However, root depth was measured only in mature plants. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for choosing sites for restoration.

Q1. In **沙丘草根与湿度**, how does the step “In their field study, they used narrow soil probes across three dunes” help investigate “Ecologists studying dune grasses asked whether root depth after a dry month influenced their behavior or survival”? A. It turns “deeper roots coincided with cooler, wetter sand” into proof before observations are checked. B. It removes the need to consider that root depth was measured

only in mature plants. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “In their field study, they used narrow soil probes across three dunes,” which result did the passage actually report in **沙丘草根与湿度**? A. That root depth was measured only in mature plants had been eliminated. B. deeper roots coincided with cooler, wetter sand. C. That “Ecologists studying dune grasses asked whether root depth after a dry month influenced their behavior or survival” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “root depth was measured only in mature plants.” What is the most careful reading of “deeper roots coincided with cooler, wetter sand” in **沙丘草根与湿度**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after In their field study, they used narrow soil probes across three dunes.

RAP-005 | 池塘蜻蜓的起飞时间 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they recorded first flights at ten ponds” 回答 Q1, 并以 “earlier flights occurred at ponds with more exposed reeds” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “wind speed also varied among the ponds” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying dragonflies asked whether the warmth of sunlit reeds influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they recorded first flights at ten ponds. The resulting pattern was clear: earlier flights occurred at ponds with more exposed reeds. This observation supports the idea that local conditions can shape the distribution of dragonflies. However, wind speed also varied among the ponds. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for separating a thermal cue from other factors.

Q1. In **池塘蜻蜓的起飞时间**, how does the step “In their field study, they recorded first flights at ten ponds” help investigate “Ecologists studying dragonflies asked whether the warmth of sunlit reeds influenced their behavior or survival”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “earlier flights occurred at ponds with more exposed reeds” into proof before observations are checked. C. It removes the need to consider that wind speed also varied among the ponds. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they recorded first flights at ten ponds,” which result did the passage actually report in **池塘蜻蜓的起飞时间**? A. earlier flights occurred at ponds with more exposed reeds. B. That wind speed also varied among the ponds had been eliminated. C. That “Ecologists studying dragonflies asked whether the warmth

of sunlit reeds influenced their behavior or survival” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “wind speed also varied among the ponds.” What is the most careful reading of “earlier flights occurred at ponds with more exposed reeds” in 池塘蜻蜓的起飞时间? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In their field study, they recorded first flights at ten ponds.

RAP-006 | 城市树洞的巢位竞争 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段:阶段一用 “In their field study, they checked occupied and unoccupied cavities after breeding” 回答 Q1, 并以 “mid-sized holes were used most often” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “availability of nearby food was not measured” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying small cavity-nesting birds asked whether the diameter of old tree holes influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they checked occupied and unoccupied cavities after breeding. The resulting pattern was clear: mid-sized holes were used most often. This observation supports the idea that local conditions can shape the distribution of small cavity-nesting birds. However, availability of nearby food was not measured. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for protecting a range of aging trees.

Q1. In 城市树洞的巢位竞争, how does the step “In their field study, they checked occupied and unoccupied cavities after breeding” help investigate “Ecologists studying small cavity-nesting birds asked whether the diameter of old tree holes influenced their behavior or survival”? A. It turns “mid-sized holes were used most often” into proof before observations are checked. B. It removes the need to consider that availability of nearby food was not measured. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they checked occupied and unoccupied cavities after breeding,” which result did the passage actually report in 城市树洞的巢位竞争? A. That availability of nearby food was not measured had been eliminated. B. That “Ecologists studying small cavity-nesting birds asked whether the diameter of old tree holes influenced their behavior or survival” was settled in every setting. C. That later work was unnecessary despite the evidence. D. mid-sized holes were used most often.

Q3. The passage adds “availability of nearby food was not measured.” What is the most careful reading of “mid-sized holes were used most often” in 城市树洞的巢位竞争? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after

In their field study, they checked occupied and unoccupied cavities after breeding.

RAP-007 | 海草床中的幼鱼躲藏 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they counted fish along narrow underwater transects” 回答 Q1, 并以 “moderately dense beds held the most fish” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “very dense blades may have limited swimming space” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying juvenile fish asked whether the density of seagrass blades influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they counted fish along narrow underwater transects. The resulting pattern was clear: moderately dense beds held the most fish. This observation supports the idea that local conditions can shape the distribution of juvenile fish. However, very dense blades may have limited swimming space. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for balancing shelter and movement.

Q1. In 海草床中的幼鱼躲藏, how does the step “In their field study, they counted fish along narrow underwater transects” help investigate “Ecologists studying juvenile fish asked whether the density of seagrass blades influenced their behavior or survival”? A. It turns “moderately dense beds held the most fish” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that very dense blades may have limited swimming space. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In their field study, they counted fish along narrow underwater transects,” which result did the passage actually report in 海草床中的幼鱼躲藏? A. That very dense blades may have limited swimming space had been eliminated. B. That “Ecologists studying juvenile fish asked whether the density of seagrass blades influenced their behavior or survival” was settled in every setting. C. moderately dense beds held the most fish. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “very dense blades may have limited swimming space.” What is the most careful reading of “moderately dense beds held the most fish” in 海草床中的幼鱼躲藏? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after In their field study, they counted fish along narrow underwater transects. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-008 | 高山花粉的早季访客 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “In their field study, they compared visitation before and after a late frost” 回答 Q1, 并以 “frost-damaged plots received fewer visits” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the researchers did not track individual bees” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Ecologists studying early bees asked whether flowers opening just after snowmelt influenced their behavior or survival. The question matters because small environmental differences can create very different conditions within the same habitat. Rather than treating the site as uniform, the researchers compared nearby patches that differed in one visible feature. In their field study, they compared visitation before and after a late frost. The resulting pattern was clear: frost-damaged plots received fewer visits. This observation supports the idea that local conditions can shape the distribution of early bees. However, the researchers did not track individual bees. Thus, the study identifies a useful association, not a complete explanation. Future work could test the suspected mechanism directly. For now, the results are most useful for linking seasonal timing to pollination.

Q1. In 高山花粉的早季访客, how does the step “In their field study, they compared visitation before and after a late frost” help investigate “Ecologists studying early bees asked whether flowers opening just after snowmelt influenced their behavior or survival”? A. It turns “frost-damaged plots received fewer visits” into proof before observations are checked. B. It removes the need to consider that the researchers did not track individual bees. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “In their field study, they compared visitation before and after a late frost,” which result did the passage actually report in 高山花粉的早季访客? A. That the researchers did not track individual bees had been eliminated. B. frost-damaged plots received fewer visits. C. That “Ecologists studying early bees asked whether flowers opening just after snowmelt influenced their behavior or survival” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the researchers did not track individual bees.” What is the most careful reading of “frost-damaged plots received fewer visits” in 高山花粉的早季访客? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after In their field study, they compared visitation before and after a late frost.

RAP-009 | 火山灰层中的细粒玻璃 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “To make the comparison systematic, the team sieved samples from three layers” 回答 Q1, 并以 “the upper layer contained finer fragments” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “wind direction at the time of eruption is unknown” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。 **证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The investigation begins with a simple geological question: what can the size of glass fragments reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team sieved samples from three layers. They found that the upper layer contained finer fragments. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet wind direction at the time of eruption is unknown.

The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when reconstructing transport conditions.

Q1. In 火山灰层中的细粒玻璃, how does the step “To make the comparison systematic, the team sieved samples from three layers” help investigate “The investigation begins with a simple geological question: what can the size of glass fragments reveal about a past process?”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “the upper layer contained finer fragments” into proof before observations are checked. C. It removes the need to consider that wind direction at the time of eruption is unknown. D. It treats the study's later interpretation as its starting evidence.

Q2. After “To make the comparison systematic, the team sieved samples from three layers,” which result did the passage actually report in 火山灰层中的细粒玻璃? A. the upper layer contained finer fragments. B. That wind direction at the time of eruption is unknown had been eliminated. C. That “The investigation begins with a simple geological question: what can the size of glass fragments reveal about a past process?” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “wind direction at the time of eruption is unknown.” What is the most careful reading of “the upper layer contained finer fragments” in 火山灰层中的细粒玻璃? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after To make the comparison systematic, the team sieved samples from three layers.

RAP-010 | 河流弯道的砂砾分选 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “To make the comparison systematic, the team measured stone size at regular intervals” 回答 Q1, 并以 “smaller stones accumulated where water moved more slowly” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “one flood may have altered the pattern” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The investigation begins with a simple geological question: what can how stones changed across an inside bend reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team measured stone size at regular intervals. They found that smaller stones accumulated where water moved more slowly. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet one flood may have altered the pattern. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when explaining sediment sorting.

Q1. In 河流弯道的砂砾分选, how does the step “To make the comparison systematic, the team measured stone size at regular intervals” help investigate “The investigation begins with a simple geological question: what can how stones changed across an inside bend reveal about a past process?”? A. It turns “smaller stones accumulated where water moved more slowly” into proof before observations are checked. B. It re-

moves the need to consider that one flood may have altered the pattern. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “To make the comparison systematic, the team measured stone size at regular intervals,” which result did the passage actually report in 河流弯道的砂砾分选? A. That one flood may have altered the pattern had been eliminated. B. That “The investigation begins with a simple geological question: what can how stones changed across an inside bend reveal about a past process?” was settled in every setting. C. That later work was unnecessary despite the evidence. D. smaller stones accumulated where water moved more slowly.

Q3. The passage adds “one flood may have altered the pattern.” What is the most careful reading of “smaller stones accumulated where water moved more slowly” in 河流弯道的砂砾分选? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after To make the comparison systematic, the team measured stone size at regular intervals.

RAP-011 | 洞穴钟乳石的季节条带 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “To make the comparison systematic, the team compared bands with local rainfall records” 回答 Q1, 并以 “wider light bands aligned with wetter years” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the comparison covered only two decades” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。 **证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: The investigation begins with a simple geological question: what can alternating light and dark layers reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team compared bands with local rainfall records. They found that wider light bands aligned with wetter years. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet the comparison covered only two decades. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when using cave deposits as climate clues.

Q1. In 洞穴钟乳石的季节条带, how does the step “To make the comparison systematic, the team compared bands with local rainfall records” help investigate “The investigation begins with a simple geological question: what can alternating light and dark layers reveal about a past process?”? A. It turns “wider light bands aligned with wetter years” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that the comparison covered only two decades. D. It treats the study's later interpretation as its starting evidence.

Q2. After “To make the comparison systematic, the team compared bands with local rainfall records,” which result did the passage actually report in 洞穴钟乳石的季节条带? A. That the comparison covered only two decades had been eliminated. B. That “The

investigation begins with a simple geological question: what can alternating light and dark layers reveal about a past process?” was settled in every setting. C. wider light bands aligned with wetter years. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the comparison covered only two decades.” What is the most careful reading of “wider light bands aligned with wetter years” in 洞穴钟乳石的季节条带? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after To make the comparison systematic, the team compared bands with local rainfall records. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-012 | 冰川前缘的碎石脊 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “To make the comparison systematic, the team mapped ridges with aerial images” 回答 Q1, 并以 “closer ridges suggested brief pauses in retreat” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “ridge height can also reflect rock supply” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The investigation begins with a simple geological question: what can their spacing from a retreating glacier reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team mapped ridges with aerial images. They found that closer ridges suggested brief pauses in retreat. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet ridge height can also reflect rock supply. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when distinguishing movement from material volume.

Q1. In 冰川前缘的碎石脊, how does the step “To make the comparison systematic, the team mapped ridges with aerial images” help investigate “The investigation begins with a simple geological question: what can their spacing from a retreating glacier reveal about a past process?”? A. It turns “closer ridges suggested brief pauses in retreat” into proof before observations are checked. B. It removes the need to consider that ridge height can also reflect rock supply. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “To make the comparison systematic, the team mapped ridges with aerial images,” which result did the passage actually report in 冰川前缘的碎石脊? A. That ridge height can also reflect rock supply had been eliminated. B. closer ridges suggested brief pauses in retreat. C. That “The investigation begins with a simple geological question: what can their spacing from a retreating glacier reveal about a past process?” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “ridge height can also reflect rock supply.” What is the most careful reading of “closer ridges suggested brief pauses in retreat” in 冰川前缘的碎石

脊? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after To make the comparison systematic, the team mapped ridges with aerial images.

RAP-013 | 海岸悬崖的裂缝扩展 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “To make the comparison systematic, the team monitored cracks before and after winter storms” 回答 Q1, 并以 “cracks widened most after repeated wet-freeze cycles” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the instruments covered one cliff type” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The investigation begins with a simple geological question: what can freshwater entering tiny fractures reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team monitored cracks before and after winter storms. They found that cracks widened most after repeated wet-freeze cycles. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet the instruments covered one cliff type. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when identifying vulnerable sections.

Q1. In 海岸悬崖的裂缝扩展, how does the step “To make the comparison systematic, the team monitored cracks before and after winter storms” help investigate “The investigation begins with a simple geological question: what can freshwater entering tiny fractures reveal about a past process?”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “cracks widened most after repeated wet-freeze cycles” into proof before observations are checked. C. It removes the need to consider that the instruments covered one cliff type. D. It treats the study's later interpretation as its starting evidence.

Q2. After “To make the comparison systematic, the team monitored cracks before and after winter storms,” which result did the passage actually report in 海岸悬崖的裂缝扩展? A. cracks widened most after repeated wet-freeze cycles. B. That the instruments covered one cliff type had been eliminated. C. That “The investigation begins with a simple geological question: what can freshwater entering tiny fractures reveal about a past process?” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the instruments covered one cliff type.” What is the most careful reading of “cracks widened most after repeated wet-freeze cycles” in 海岸悬崖的裂缝扩展? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after To make the comparison systematic, the team monitored cracks before and after winter storms.

RAP-014 | 沙漠岩漆的深色表面 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段：阶段一用 “To make the comparison systematic, the team sampled stones facing different directions” 回答 Q1，并以 “south-facing stones had thicker coatings” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “sun exposure may work through moisture loss” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The investigation begins with a simple geological question: what can thin mineral coatings on exposed stones reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team sampled stones facing different directions. They found that south-facing stones had thicker coatings. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet sun exposure may work through moisture loss. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when asking how orientation affects weathering.

Q1. In 沙漠岩漆的深色表面, how does the step “To make the comparison systematic, the team sampled stones facing different directions” help investigate “The investigation begins with a simple geological question: what can thin mineral coatings on exposed stones reveal about a past process?”? A. It turns “south-facing stones had thicker coatings” into proof before observations are checked. B. It removes the need to consider that sun exposure may work through moisture loss. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “To make the comparison systematic, the team sampled stones facing different directions,” which result did the passage actually report in 沙漠岩漆的深色表面? A. That sun exposure may work through moisture loss had been eliminated. B. That “The investigation begins with a simple geological question: what can thin mineral coatings on exposed stones reveal about a past process?” was settled in every setting. C. That later work was unnecessary despite the evidence. D. south-facing stones had thicker coatings.

Q3. The passage adds “sun exposure may work through moisture loss.” What is the most careful reading of “south-facing stones had thicker coatings” in 沙漠岩漆的深色表面? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after To make the comparison systematic, the team sampled stones facing different directions.

RAP-015 | 泥炭层中的火灾颗粒 | 难度：RAP-B1+ | 建议用时：4:20

两阶段：阶段一用 “To make the comparison systematic, the team counted particles in dated core slices” 回答 Q1，并以 “several peaks followed long dry intervals” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “a peak cannot reveal the exact fire location” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The investigation begins with a simple geological question: what can their

concentration at different depths reveal about a past process? Geologists often infer events from materials left behind, but a visible pattern may have more than one cause. To make the comparison systematic, the team counted particles in dated core slices. They found that several peaks followed long dry intervals. The result is consistent with a particular sequence of physical conditions, because material movement, cooling, or deposition leaves traces at different scales. Yet a peak cannot reveal the exact fire location. The researchers therefore avoid treating the observation as a single decisive record. Instead, they propose combining it with independent measurements. Such caution helps when building regional fire histories.

Q1. In 泥炭层中的火灾颗粒, how does the step “To make the comparison systematic, the team counted particles in dated core slices” help investigate “The investigation begins with a simple geological question: what can their concentration at different depths reveal about a past process?”? A. It turns “several peaks followed long dry intervals” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that a peak cannot reveal the exact fire location. D. It treats the study's later interpretation as its starting evidence.

RAP-017 | 陶片边缘的使用痕迹 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “The team examined fragments under low magnification” 回答 Q1, 并以 “frequently handled bowls had smoother outer edges” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Archaeologists examining ceramic bowls at an excavated site focused on polish along their rims. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team examined fragments under low magnification. Their analysis showed that frequently handled bowls had smoother outer edges. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, burial soil may also have altered surfaces. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for connecting wear with everyday use.

Q1. In **陶片边缘的使用痕迹**, how does the step “The team examined fragments under low magnification” help investigate “Archaeologists examining ceramic bowls at an

excavated site focused on polish along their rims”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “frequently handled bowls had smoother outer edges” into proof before observations are checked. C. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team examined fragments under low magnification,” which result did the passage actually report in 陶片边缘的使用痕迹? A. frequently handled bowls had smoother outer edges. B. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. C. That “Archaeologists examining ceramic bowls at an excavated site focused on polish along their rims” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “frequently handled bowls had smoother outer edges” in 陶片边缘的使用痕迹? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The team examined fragments under low magnification.

RAP-018 | 古村落的灰坑位置 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “The team mapped pits around excavated foundations” 回答 Q1, 并以 “most pits lay downwind of doorways” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Archaeologists examining ash deposits at an excavated site focused on their distance from house entrances. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team mapped pits around excavated foundations. Their analysis showed that most pits lay downwind of doorways. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, the ancient wind pattern is reconstructed indirectly. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for thinking about household planning.

Q1. In 古村落的灰坑位置, how does the step “The team mapped pits around excavated foundations” help investigate “Archaeologists examining ash deposits at an excavated site focused on their distance from house entrances”? A. It turns “most pits lay downwind of doorways” into proof before observations are checked. B. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. C. It produces evidence for the stated question instead of assuming an answer before comparison.

D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team mapped pits around excavated foundations,” which result did the passage actually report in 古村落的灰坑位置? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. That “Archaeologists examining ash deposits at an excavated site focused on their distance from house entrances” was settled in every setting. C. That later work was unnecessary despite the evidence. D. most pits lay downwind of doorways.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “most pits lay downwind of doorways” in 古村落的灰坑位置? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The team mapped pits around excavated foundations.

RAP-019 | 石器原料的远距离来源 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段:阶段一用 “The team matched flakes with known outcrops” 回答 Q1,并以 “some came from valleys two days away on foot” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Archaeologists examining chert flakes at an excavated site focused on their mineral signatures. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team matched flakes with known outcrops. Their analysis showed that some came from valleys two days away on foot. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, exchange may not have involved the tool users themselves. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for tracing social connections.

Q1. In 石器原料的远距离来源, how does the step “The team matched flakes with known outcrops” help investigate “Archaeologists examining chert flakes at an excavated site focused on their mineral signatures”? A. It turns “some came from valleys two days away on foot” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team matched flakes with known outcrops,” which result did the passage actually report in 石器原料的远距离来源? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. That “Archaeologists examining chert flakes at

an excavated site focused on their mineral signatures” was settled in every setting. C. some came from valleys two days away on foot. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “some came from valleys two days away on foot” in **石器原料的远距离来源**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after The team matched flakes with known outcrops. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-020 | 贝壳珠的尺寸标准 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “The team measured beads from several graves” 回答 Q1, 并以 “a cluster shared nearly identical sizes” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Archaeologists examining shell beads at an excavated site focused on variation in their diameter. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team measured beads from several graves. Their analysis showed that a cluster shared nearly identical sizes. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, the makers' tools were not found. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for considering specialized production.

Q1. In **贝壳珠的尺寸标准**, how does the step “The team measured beads from several graves” help investigate “Archaeologists examining shell beads at an excavated site focused on variation in their diameter”? A. It turns “a cluster shared nearly identical sizes” into proof before observations are checked. B. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “The team measured beads from several graves,” which result did the passage actually report in **贝壳珠的尺寸标准**? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. a cluster shared nearly identical sizes. C. That “Archaeologists examining shell beads at an excavated site focused on variation in their diameter” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “a cluster shared nearly identical sizes” in **贝壳珠的尺寸标准**?

A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after The team measured beads from several graves.

RAP-021 | 储粮坑中的昆虫残留 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段: 阶段一用 “The team identified fragments in soil samples” 回答 Q1, 并以 “grain-feeding species were common in sealed pits” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: Archaeologists examining beetle remains at an excavated site focused on species associated with dry grain. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team identified fragments in soil samples. Their analysis showed that grain-feeding species were common in sealed pits. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, some insects could have entered after abandonment. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for testing how food was stored.

Q1. In 储粮坑中的昆虫残留, how does the step “The team identified fragments in soil samples” help investigate “Archaeologists examining beetle remains at an excavated site focused on species associated with dry grain”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “grain-feeding species were common in sealed pits” into proof before observations are checked. C. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team identified fragments in soil samples,” which result did the passage actually report in 储粮坑中的昆虫残留? A. grain-feeding species were common in sealed pits. B. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. C. That “Archaeologists examining beetle remains at an excavated site focused on species associated with dry grain” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “grain-feeding species were common in sealed pits” in 储粮坑中的昆虫残留? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The team identified fragments in soil samples.

RAP-022 | 岩画颜料的层次 | 难度: RAP-B1+ | 建议用时: 4:20

两阶段：阶段一用 “The team used noninvasive imaging on overlapping marks” 回答 Q1，并以 “some red figures were added after black outlines” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：Archaeologists examining painted lines at an excavated site focused on which colors lay above others. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team used noninvasive imaging on overlapping marks. Their analysis showed that some red figures were added after black outlines. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, the images cannot provide exact calendar dates. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for ordering episodes of painting.

Q1. In 岩画颜料的层次, how does the step “The team used noninvasive imaging on overlapping marks” help investigate “Archaeologists examining painted lines at an excavated site focused on which colors lay above others”? A. It turns “some red figures were added after black outlines” into proof before observations are checked. B. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team used noninvasive imaging on overlapping marks,” which result did the passage actually report in 岩画颜料的层次? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. That “Archaeologists examining painted lines at an excavated site focused on which colors lay above others” was settled in every setting. C. That later work was unnecessary despite the evidence. D. some red figures were added after black outlines.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “some red figures were added after black outlines” in 岩画颜料的层次? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The team used noninvasive imaging on overlapping marks.

RAP-023 | 古井沉积物的种子 | 难度：RAP-B1+ **| 建议用时：**4:20

两阶段：阶段一用 “The team sorted seeds by soil layer” 回答 Q1，并以 “later layers included more cultivated grains” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性

夸大完整因果的选项。

原创材料：Archaeologists examining plant seeds at an excavated site focused on changes through the well's fill. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team sorted seeds by soil layer. Their analysis showed that later layers included more cultivated grains. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, seeds could have arrived in swept household debris. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for linking disposal to farming.

Q1. In **古井沉积物的种子**, how does the step “The team sorted seeds by soil layer” help investigate “Archaeologists examining plant seeds at an excavated site focused on changes through the well's fill”? A. It turns “later layers included more cultivated grains” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The team sorted seeds by soil layer,” which result did the passage actually report in **古井沉积物的种子**? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. That “Archaeologists examining plant seeds at an excavated site focused on changes through the well's fill” was settled in every setting. C. later layers included more cultivated grains. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “later layers included more cultivated grains” in **古井沉积物的种子**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after The team sorted seeds by soil layer. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-024 | 遗址道路的车辙深度 | 难度：RAP-B1+ | 建议用时：4:20

两阶段：阶段一用 “The team measured ruts along exposed street segments” 回答 Q1, 并以 “deepest ruts occurred near a storage building” 核对 Q2, 建立方法与观察之间的证据链；阶段二把 “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料：Archaeologists examining wheel ruts at an excavated site focused on their depth near a market area. Small traces can be informative because ordinary activities often leave repeated material patterns. Still, an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. The team measured ruts along exposed street segments. Their analysis showed

that deepest ruts occurred near a storage building. This pattern suggests a recurring practice or organization of space, rather than a random accumulation. However, traffic may have been seasonal. For that reason, the evidence is best read as support for a limited inference. It is especially valuable for locating repeated movement.

Q1. In 遗址道路的车辙深度, how does the step “The team measured ruts along exposed street segments” help investigate “Archaeologists examining wheel ruts at an excavated site focused on their depth near a market area”? A. It turns “deepest ruts occurred near a storage building” into proof before observations are checked. B. It removes the need to consider that an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “The team measured ruts along exposed street segments,” which result did the passage actually report in 遗址道路的车辙深度? A. That an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story had been eliminated. B. deepest ruts occurred near a storage building. C. That “Archaeologists examining wheel ruts at an excavated site focused on their depth near a market area” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “an artifact or deposit can change after people stop using a place, so interpretation requires comparison rather than a quick story.” What is the most careful reading of “deepest ruts occurred near a storage building” in 遗址道路的车辙深度? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after The team measured ruts along exposed street segments.

RAP-025 | 红矮星的短暂亮化 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers compared light curves from several nights” 回答 Q1, 并以 “the rises were sharper at shorter wavelengths” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “cloud filtering affected a few observations” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: Astronomical research on a red dwarf star and brief increases in brightness requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers compared light curves from several nights. They reported that the rises were sharper at shorter wavelengths. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, cloud filtering affected a few observations. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when separating stellar changes from measurement noise.

Q1. In 红矮星的短暂亮化, how does the step “For this reason, the observers com-

pared light curves from several nights” help investigate “Astronomical research on a red dwarf star and brief increases in brightness requires repeated measurements of light, timing, or position”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “the rises were sharper at shorter wavelengths” into proof before observations are checked. C. It removes the need to consider that cloud filtering affected a few observations. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers compared light curves from several nights,” which result did the passage actually report in **红矮星的短暂亮化**? A. the rises were sharper at shorter wavelengths. B. That cloud filtering affected a few observations had been eliminated. C. That “Astronomical research on a red dwarf star and brief increases in brightness requires repeated measurements of light, timing, or position” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “cloud filtering affected a few observations.” What is the most careful reading of “the rises were sharper at shorter wavelengths” in **红矮星的短暂亮化**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after For this reason, the observers compared light curves from several nights.

RAP-026 | 行星环的阴影移动 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers photographed the planet over six weeks” 回答 Q1, 并以 “the shadow shifted as the viewing angle changed” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the images cannot directly measure ring thickness” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on a ringed planet and the changing position of a narrow shadow requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers photographed the planet over six weeks. They reported that the shadow shifted as the viewing angle changed. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, the images cannot directly measure ring thickness. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when using geometry to infer orientation.

Q1. In **行星环的阴影移动**, how does the step “For this reason, the observers photographed the planet over six weeks” help investigate “Astronomical research on a ringed planet and the changing position of a narrow shadow requires repeated measurements of light, timing, or position”? A. It turns “the shadow shifted as the viewing angle changed” into proof before observations are checked. B. It removes the need to consider that the images cannot directly measure ring thickness. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers photographed the planet over six weeks,” which result did the passage actually report in **行星环的阴影移动**? A. That the images cannot directly measure ring thickness had been eliminated. B. That “Astronomical research on a ringed planet and the changing position of a narrow shadow requires repeated measurements of light, timing, or position” was settled in every setting. C. That later work was unnecessary despite the evidence. D. the shadow shifted as the viewing angle changed.

Q3. The passage adds “the images cannot directly measure ring thickness.” What is the most careful reading of “the shadow shifted as the viewing angle changed” in **行星环的阴影移动**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after For this reason, the observers photographed the planet over six weeks.

RAP-027 | 星团中的蓝色离群星 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers compared their spectra with neighboring stars” 回答 Q1, 并以 “several appeared younger than the cluster average” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “temperature alone cannot prove their origin” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on blue stars and their unusually high temperature requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers compared their spectra with neighboring stars. They reported that several appeared younger than the cluster average. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, temperature alone cannot prove their origin. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when asking whether stellar mergers occurred.

Q1. In **星团中的蓝色离群星**, how does the step “For this reason, the observers compared their spectra with neighboring stars” help investigate “Astronomical research on blue stars and their unusually high temperature requires repeated measurements of light, timing, or position”? A. It turns “several appeared younger than the cluster average” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that temperature alone cannot prove their origin. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers compared their spectra with neighboring stars,” which result did the passage actually report in **星团中的蓝色离群星**? A. That temperature alone cannot prove their origin had been eliminated. B. That “Astronomical research on blue stars and their unusually high temperature requires repeated measurements of light, timing, or position” was settled in every setting. C. several appeared younger than the cluster average. D. That later work was unnecessary despite

the evidence.

Q3. The passage adds “temperature alone cannot prove their origin.” What is the most careful reading of “several appeared younger than the cluster average” in **星团中的蓝色离群星**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after For this reason, the observers compared their spectra with neighboring stars. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-028 | 月表坑壁的反射差异 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers measured reflectance at matched angles” 回答 Q1, 并以 “some shaded slopes reflected less light” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “roughness can influence the same measurement” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on lunar craters and brightness on sun-facing and shaded slopes requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers measured reflectance at matched angles. They reported that some shaded slopes reflected less light. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, roughness can influence the same measurement. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when studying surface texture.

Q1. In **月表坑壁的反射差异**, how does the step “For this reason, the observers measured reflectance at matched angles” help investigate “Astronomical research on lunar craters and brightness on sun-facing and shaded slopes requires repeated measurements of light, timing, or position”? A. It turns “some shaded slopes reflected less light” into proof before observations are checked. B. It removes the need to consider that roughness can influence the same measurement. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “For this reason, the observers measured reflectance at matched angles,” which result did the passage actually report in **月表坑壁的反射差异**? A. That roughness can influence the same measurement had been eliminated. B. some shaded slopes reflected less light. C. That “Astronomical research on lunar craters and brightness on sun-facing and shaded slopes requires repeated measurements of light, timing, or position” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “roughness can influence the same measurement.” What is the most careful reading of “some shaded slopes reflected less light” in **月表坑壁的反射差异**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after For this reason, the observers measured reflectance at matched angles.

RAP-029 | 彗星尾部的尘粒速度 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers tracked features in consecutive images” 回答 Q1, 并以 “smaller-looking features moved outward faster” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “apparent size is not a direct mass measure” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on dust grains and how quickly they spread from the nucleus requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers tracked features in consecutive images. They reported that smaller-looking features moved outward faster. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, apparent size is not a direct mass measure. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when modeling solar-pressure effects.

Q1. In 彗星尾部的尘粒速度, how does the step “For this reason, the observers tracked features in consecutive images” help investigate “Astronomical research on dust grains and how quickly they spread from the nucleus requires repeated measurements of light, timing, or position”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “smaller-looking features moved outward faster” into proof before observations are checked. C. It removes the need to consider that apparent size is not a direct mass measure. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers tracked features in consecutive images,” which result did the passage actually report in 彗星尾部的尘粒速度? A. smaller-looking features moved outward faster. B. That apparent size is not a direct mass measure had been eliminated. C. That “Astronomical research on dust grains and how quickly they spread from the nucleus requires repeated measurements of light, timing, or position” was settled in every setting. D. Q3. The passage adds “apparent size is not a direct mass measure.” What is the most careful reading of “smaller-looking features moved outward faster” in 彗星尾部的尘粒速度? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after For this reason, the observers tracked features in consecutive images.

RAP-030 | 星系边缘的气体弧 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers combined images from several filters” 回答 Q1, 并以 “the arc was strongest in one emission band” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the source of ionization remains uncertain” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on ionized gas and a faint curved emission region

requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers combined images from several filters. They reported that the arc was strongest in one emission band. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, the source of ionization remains uncertain. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when comparing possible energy sources.

Q1. In **星系边缘的气体弧**, how does the step “For this reason, the observers combined images from several filters” help investigate “Astronomical research on ionized gas and a faint curved emission region requires repeated measurements of light, timing, or position”? A. It turns “the arc was strongest in one emission band” into proof before observations are checked. B. It removes the need to consider that the source of ionization remains uncertain. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers combined images from several filters,” which result did the passage actually report in **星系边缘的气体弧**? A. That the source of ionization remains uncertain had been eliminated. B. That “Astronomical research on ionized gas and a faint curved emission region requires repeated measurements of light, timing, or position” was settled in every setting. C. That later work was unnecessary despite the evidence. D. the arc was strongest in one emission band.

Q3. The passage adds “the source of ionization remains uncertain.” What is the most careful reading of “the arc was strongest in one emission band” in **星系边缘的气体弧**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after For this reason, the observers combined images from several filters.

RAP-031 | 脉冲星的微小延迟 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers timed pulses across many months” 回答 Q1, 并以 “the delay repeated at a regular interval” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “instrument clocks needed independent checks” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on radio pulses and a repeating shift in arrival time requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers timed pulses across many months. They reported that the delay repeated at a regular interval. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, instrument clocks needed independent checks. The finding should therefore be treated as evidence to compare with models, not as a final identification. This ap-

proach is useful when looking for an orbiting influence.

Q1. In 脉冲星的微小延迟, how does the step “For this reason, the observers timed pulses across many months” help investigate “Astronomical research on radio pulses and a repeating shift in arrival time requires repeated measurements of light, timing, or position”? A. It turns “the delay repeated at a regular interval” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that instrument clocks needed independent checks. D. It treats the study's later interpretation as its starting evidence.

Q2. After “For this reason, the observers timed pulses across many months,” which result did the passage actually report in 脉冲星的微小延迟? A. That instrument clocks needed independent checks had been eliminated. B. That “Astronomical research on radio pulses and a repeating shift in arrival time requires repeated measurements of light, timing, or position” was settled in every setting. C. the delay repeated at a regular interval. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “instrument clocks needed independent checks.” What is the most careful reading of “the delay repeated at a regular interval” in 脉冲星的微小延迟? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after For this reason, the observers timed pulses across many months. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-032 | 流星雨的颜色记录 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “For this reason, the observers standardized camera settings at three sites” 回答 Q1, 并以 “green flashes were reported most consistently” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “human visual reports varied more than camera data” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。 **证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Astronomical research on meteor trails and color reports from observers requires repeated measurements of light, timing, or position. Astronomers cannot alter their subjects directly, so they infer physical processes from those records. A single image can be misleading; a changing pattern is usually more informative. For this reason, the observers standardized camera settings at three sites. They reported that green flashes were reported most consistently. The observation narrows the range of explanations because different processes predict different changes over time or wavelength. Nevertheless, human visual reports varied more than camera data. The finding should therefore be treated as evidence to compare with models, not as a final identification. This approach is useful when comparing observation methods.

Q1. In 流星雨的颜色记录, how does the step “For this reason, the observers standardized camera settings at three sites” help investigate “Astronomical research on meteor trails and color reports from observers requires repeated measurements of light, timing, or position”? A. It turns “green flashes were reported most consistently” into proof before observations are checked. B. It removes the need to consider that human visual reports varied more than camera data. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question

instead of assuming an answer before comparison.

Q2. After “For this reason, the observers standardized camera settings at three sites,” which result did the passage actually report in **流星雨的颜色记录**? A. That human visual reports varied more than camera data had been eliminated. B. green flashes were reported most consistently. C. That “Astronomical research on meteor trails and color reports from observers requires repeated measurements of light, timing, or position” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “human visual reports varied more than camera data.” What is the most careful reading of “green flashes were reported most consistently” in **流星雨的颜色记录**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after For this reason, the observers standardized camera settings at three sites.

RAP-033 | 笔记边栏的问题 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they compared later recall after two study methods” 回答 Q1, 并以 “question-writers recalled relationships better” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “they also spent slightly longer studying” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how brief questions written beside notes affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they compared later recall after two study methods. The main result was that question-writers recalled relationships better. This result may indicate a change in attention, strategy, or participation, depending on the task. However, they also spent slightly longer studying. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for distinguishing strategy from extra time.

Q1. In **笔记边栏的问题**, how does the step “In the study, they compared later recall after two study methods” help investigate “The study asks how brief questions written beside notes affects behavior or learning”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “question-writers recalled relationships better” into proof before observations are checked. C. It removes the need to consider that they also spent slightly longer studying. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they compared later recall after two study methods,” which result did the passage actually report in **笔记边栏的问题**? A. question-writers recalled relationships better. B. That they also spent slightly longer studying had been eliminated. C. That “The study asks how brief questions written beside notes affects behavior or learning” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “they also spent slightly longer studying.” What is the most careful reading of “question-writers recalled relationships better” in **笔记边栏的问题**?

A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In the study, they compared later recall after two study methods.

RAP-034 | 安静等待中的时间估计 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they asked participants to estimate intervals with or without a visible clock” 回答 Q1, 并以 “hidden clocks led to longer estimates” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “anxiety was measured only by self-report” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how the felt length of a silent minute affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they asked participants to estimate intervals with or without a visible clock. The main result was that hidden clocks led to longer estimates. This result may indicate a change in attention, strategy, or participation, depending on the task. However, anxiety was measured only by self-report. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for examining attention and duration.

Q1. In 安静等待中的时间估计, how does the step “In the study, they asked participants to estimate intervals with or without a visible clock” help investigate “The study asks how the felt length of a silent minute affects behavior or learning”? A. It turns “hidden clocks led to longer estimates” into proof before observations are checked. B. It removes the need to consider that anxiety was measured only by self-report. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they asked participants to estimate intervals with or without a visible clock,” which result did the passage actually report in 安静等待中的时间估计? A. That anxiety was measured only by self-report had been eliminated. B. That “The study asks how the felt length of a silent minute affects behavior or learning” was settled in every setting. C. That later work was unnecessary despite the evidence. D. hidden clocks led to longer estimates.

Q3. The passage adds “anxiety was measured only by self-report.” What is the most careful reading of “hidden clocks led to longer estimates” in 安静等待中的时间估计? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In the study, they asked participants to estimate intervals with or without a visible clock.

RAP-035 | 小组讨论中的轮流规则 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they recorded speaking distribution in short meetings” 回答 Q1, 并以 “quieter members spoke more often when the card was used” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the study did not judge idea quality” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how a visible turn-taking card affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they recorded speaking distribution in short meetings. The main result was that quieter members spoke more often when the card was used. This result may indicate a change in attention, strategy, or participation, depending on the task. However, the study did not judge idea quality. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for separating participation from performance.

Q1. In **小组讨论中的轮流规则**, how does the step “In the study, they recorded speaking distribution in short meetings” help investigate “The study asks how a visible turn-taking card affects behavior or learning”? A. It turns “quieter members spoke more often when the card was used” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that the study did not judge idea quality. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they recorded speaking distribution in short meetings,” which result did the passage actually report in **小组讨论中的轮流规则**? A. That the study did not judge idea quality had been eliminated. B. That “The study asks how a visible turn-taking card affects behavior or learning” was settled in every setting. C. quieter members spoke more often when the card was used. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the study did not judge idea quality.” What is the most careful reading of “quieter members spoke more often when the card was used” in **小组讨论中的轮流规则**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after In the study, they recorded speaking distribution in short meetings. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-036 | 颜色标签与物品寻找 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they timed searches before and after labels were added” 回答 Q1, 并以 “searches shortened for frequently used items” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “workers already knew the room layout” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how colored labels on shared supplies affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they timed searches before and after labels were added. The main result was that searches shortened for frequently used items. This result may indicate a change in attention, strategy, or participation, depending on the task. However, workers already knew the room layout. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for considering environmental cues.

Q1. In **颜色标签与物品寻找**, how does the step “In the study, they timed searches be-

fore and after labels were added” help investigate “The study asks how colored labels on shared supplies affects behavior or learning”? A. It turns “searches shortened for frequently used items” into proof before observations are checked. B. It removes the need to consider that workers already knew the room layout. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “In the study, they timed searches before and after labels were added,” which result did the passage actually report in 颜色标签与物品寻找? A. That workers already knew the room layout had been eliminated. B. searches shortened for frequently used items. C. That “The study asks how colored labels on shared supplies affects behavior or learning” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “workers already knew the room layout.” What is the most careful reading of “searches shortened for frequently used items” in 颜色标签与物品寻找? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after In the study, they timed searches before and after labels were added.

RAP-037 | 复习间隔的自我判断 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they tested recall after short and long gaps” 回答 Q1, 并以 “many overestimated recall after short gaps” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the word list was limited in size” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how their predictions about remembered words affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they tested recall after short and long gaps. The main result was that many overestimated recall after short gaps. This result may indicate a change in attention, strategy, or participation, depending on the task. However, the word list was limited in size. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for teaching more accurate study planning.

Q1. In 复习间隔的自我判断, how does the step “In the study, they tested recall after short and long gaps” help investigate “The study asks how their predictions about remembered words affects behavior or learning”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “many overestimated recall after short gaps” into proof before observations are checked. C. It removes the need to consider that the word list was limited in size. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they tested recall after short and long gaps,” which result did the passage actually report in 复习间隔的自我判断? A. many overestimated recall after short gaps. B. That the word list was limited in size had been eliminated. C. That “The study asks how their predictions about remembered words affects behavior or

learning” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the word list was limited in size.” What is the most careful reading of “many overestimated recall after short gaps” in **复习间隔的自我判断**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In the study, they tested recall after short and long gaps.

RAP-038 | 背景音乐与阅读标记 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they compared highlighting choices across conditions” 回答 Q1, 并以 “music changed the number but not the location of most marks” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “personal music preference was not controlled” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how instrumental music at low volume affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they compared highlighting choices across conditions. The main result was that music changed the number but not the location of most marks. This result may indicate a change in attention, strategy, or participation, depending on the task. However, personal music preference was not controlled. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for asking what the behavior measure really shows.

Q1. In **背景音乐与阅读标记**, how does the step “In the study, they compared highlighting choices across conditions” help investigate “The study asks how instrumental music at low volume affects behavior or learning”? A. It turns “music changed the number but not the location of most marks” into proof before observations are checked. B. It removes the need to consider that personal music preference was not controlled. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they compared highlighting choices across conditions,” which result did the passage actually report in **背景音乐与阅读标记**? A. That personal music preference was not controlled had been eliminated. B. That “The study asks how instrumental music at low volume affects behavior or learning” was settled in every setting. C. That later work was unnecessary despite the evidence. D. music changed the number but not the location of most marks.

Q3. The passage adds “personal music preference was not controlled.” What is the most careful reading of “music changed the number but not the location of most marks” in **背景音乐与阅读标记**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after In the study, they compared highlighting choices across

conditions.

RAP-039 | 错误反馈的措辞 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they observed revisions on practice tasks” 回答 Q1, 并以 “named errors produced faster first corrections” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “later transfer was not tested” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how whether feedback named the error or gave a hint affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a limited comparison designed to make one contrast visible. In the study, they observed revisions on practice tasks. The main result was that named errors produced faster first corrections. This result may indicate a change in attention, strategy, or participation, depending on the task. However, later transfer was not tested. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for distinguishing immediate speed from learning.

Q1. In 错误反馈的措辞, how does the step “In the study, they observed revisions on practice tasks” help investigate “The study asks how whether feedback named the error or gave a hint affects behavior or learning”? A. It turns “named errors produced faster first corrections” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that later transfer was not tested. D. It treats the study's later interpretation as its starting evidence.

Q2. After “In the study, they observed revisions on practice tasks,” which result did the passage actually report in 错误反馈的措辞? A. That later transfer was not tested had been eliminated. B. That “The study asks how whether feedback named the error or gave a hint affects behavior or learning” was settled in every setting. C. named errors produced faster first corrections. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “later transfer was not tested.” What is the most careful reading of “named errors produced faster first corrections” in 错误反馈的措辞? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after In the study, they observed revisions on practice tasks. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-040 | 共同目标与记忆线索 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “In the study, they tested recall of task steps the next day” 回答 Q1, 并以 “pairs remembered more shared steps” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “they had also spoken with each other longer” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The study asks how a shared image used during a planning task affects behavior or learning. Researchers were interested in the process behind an everyday observation, not merely whether participants liked an activity. They therefore used a

limited comparison designed to make one contrast visible. In the study, they tested recall of task steps the next day. The main result was that pairs remembered more shared steps. This result may indicate a change in attention, strategy, or participation, depending on the task. However, they had also spoken with each other longer. It would be premature to turn the pattern into a universal rule. The careful conclusion is that the measure offers a clue for considering social rehearsal.

Q1. In **共同目标与记忆线索**, how does the step “In the study, they tested recall of task steps the next day” help investigate “The study asks how a shared image used during a planning task affects behavior or learning”? A. It turns “pairs remembered more shared steps” into proof before observations are checked. B. It removes the need to consider that they had also spoken with each other longer. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “In the study, they tested recall of task steps the next day,” which result did the passage actually report in **共同目标与记忆线索**? A. That they had also spoken with each other longer had been eliminated. B. pairs remembered more shared steps. C. That “The study asks how a shared image used during a planning task affects behavior or learning” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “they had also spoken with each other longer.” What is the most careful reading of “pairs remembered more shared steps” in **共同目标与记忆线索**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after In the study, they tested recall of task steps the next day.

RAP-041 | 港口账簿中的季节货物 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher counted purchases across five years” 回答 Q1, 并以 “orders rose before the darkest months” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “some entries combine several goods” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Historians used monthly entries for lamp oil to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher counted purchases across five years. The records indicated that orders rose before the darkest months. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, some entries combine several goods. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for using records to infer seasonal demand.

Q1. In **港口账簿中的季节货物**, how does the step “The researcher counted purchases across five years” help investigate “Historians used monthly entries for lamp oil to ask about patterns in past daily life”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “orders rose before the

darkest months” into proof before observations are checked. C. It removes the need to consider that some entries combine several goods. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher counted purchases across five years,” which result did the passage actually report in **港口账簿中的季节货物**? A. orders rose before the darkest months. B. That some entries combine several goods had been eliminated. C. That “Historians used monthly entries for lamp oil to ask about patterns in past daily life” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “some entries combine several goods.” What is the most careful reading of “orders rose before the darkest months” in **港口账簿中的季节货物**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The researcher counted purchases across five years.

RAP-042 | 工坊工资中的技能差异 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher compared rates across related tasks” 回答 Q1, 并以 “the gap narrowed for repetitive work” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “payments may not include meals or housing” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: Historians used payments to apprentices and masters to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher compared rates across related tasks. The records indicated that the gap narrowed for repetitive work. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, payments may not include meals or housing. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for separating cash wages from total compensation.

Q1. In **工坊工资中的技能差异**, how does the step “The researcher compared rates across related tasks” help investigate “Historians used payments to apprentices and masters to ask about patterns in past daily life”? A. It turns “the gap narrowed for repetitive work” into proof before observations are checked. B. It removes the need to consider that payments may not include meals or housing. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher compared rates across related tasks,” which result did the passage actually report in **工坊工资中的技能差异**? A. That payments may not include meals or housing had been eliminated. B. That “Historians used payments to apprentices and masters to ask about patterns in past daily life” was settled in every setting. C. That later work was unnecessary despite the evidence. D. the gap narrowed for repetitive work.

Q3. The passage adds “payments may not include meals or housing.” What is the most

careful reading of “the gap narrowed for repetitive work” in **工坊工资中的技能差异**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The researcher compared rates across related tasks.

RAP-043 | 乡镇邮局的信件流量 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher charted totals before and after the connection” 回答 Q1, 并以 “letters increased most in nearby market towns” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “population also grew during the period” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: Historians used outgoing letters after a rail link opened to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher charted totals before and after the connection. The records indicated that letters increased most in nearby market towns. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, population also grew during the period. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for asking how transport changed communication.

Q1. In **乡镇邮局的信件流量**, how does the step “The researcher charted totals before and after the connection” help investigate “Historians used outgoing letters after a rail link opened to ask about patterns in past daily life”? A. It turns “letters increased most in nearby market towns” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that population also grew during the period. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher charted totals before and after the connection,” which result did the passage actually report in **乡镇邮局的信件流量**? A. That population also grew during the period had been eliminated. B. That “Historians used outgoing letters after a rail link opened to ask about patterns in past daily life” was settled in every setting. C. letters increased most in nearby market towns. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “population also grew during the period.” What is the most careful reading of “letters increased most in nearby market towns” in **乡镇邮局的信件流量**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after The researcher charted totals before and after the connection. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-044 | 旧报纸里的租房广告 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher coded descriptions from three decades” 回答 Q1, 并以 “references to tram stops became more common” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “advertisers may have copied popular phrases” 放回同一链条, 判断它限制的

是解释范围而不是已报告的结果。**证据定位**：Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：Historians used the location words used in advertisements to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher coded descriptions from three decades. The records indicated that references to tram stops became more common. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, advertisers may have copied popular phrases. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for linking language with urban movement.

Q1. In **旧报纸里的租房广告**, how does the step “The researcher coded descriptions from three decades” help investigate “Historians used the location words used in advertisements to ask about patterns in past daily life”? A. It turns “references to tram stops became more common” into proof before observations are checked. B. It removes the need to consider that advertisers may have copied popular phrases. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “The researcher coded descriptions from three decades,” which result did the passage actually report in **旧报纸里的租房广告**? A. That advertisers may have copied popular phrases had been eliminated. B. references to tram stops became more common. C. That “Historians used the location words used in advertisements to ask about patterns in past daily life” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “advertisers may have copied popular phrases.” What is the most careful reading of “references to tram stops became more common” in **旧报纸里的租房广告**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after The researcher coded descriptions from three decades.

RAP-045 | 合作社采购单的共享工具 | 难度：RAP-B2 | 建议用时：5:00

两阶段：阶段一用 “The researcher grouped orders by village” 回答 Q1，并以 “neighboring farms often ordered on the same date” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “the receipts do not record informal lending” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位**：Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：Historians used purchases of large equipment to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher grouped orders by village. The records indicated that neighboring farms often ordered on the same date. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, the receipts do not record informal lending. The

documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for looking for coordination in documents.

Q1. In **合作社采购单的共享工具**, how does the step “The researcher grouped orders by village” help investigate “Historians used purchases of large equipment to ask about patterns in past daily life”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “neighboring farms often ordered on the same date” into proof before observations are checked. C. It removes the need to consider that the receipts do not record informal lending. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher grouped orders by village,” which result did the passage actually report in **合作社采购单的共享工具**? A. neighboring farms often ordered on the same date. B. That the receipts do not record informal lending had been eliminated. C. That “Historians used purchases of large equipment to ask about patterns in past daily life” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the receipts do not record informal lending.” What is the most careful reading of “neighboring farms often ordered on the same date” in **合作社采购单的共享工具**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The researcher grouped orders by village.

RAP-046 | 市场税单中的小商贩 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher compared market-day and monthly permits” 回答 Q1, 并以 “short permits rose during festival weeks” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “some sellers may have avoided registration” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Historians used short-term stall licenses to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher compared market-day and monthly permits. The records indicated that short permits rose during festival weeks. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, some sellers may have avoided registration. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for estimating flexible trade.

Q1. In **市场税单中的小商贩**, how does the step “The researcher compared market-day and monthly permits” help investigate “Historians used short-term stall licenses to ask about patterns in past daily life”? A. It turns “short permits rose during festival weeks” into proof before observations are checked. B. It removes the need to consider that some sellers may have avoided registration. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher compared market-day and monthly permits,” which result

did the passage actually report in **市场税单中的小商贩**? A. That some sellers may have avoided registration had been eliminated. B. That “Historians used short-term stall licenses to ask about patterns in past daily life” was settled in every setting. C. That later work was unnecessary despite the evidence. D. short permits rose during festival weeks.

Q3. The passage adds “some sellers may have avoided registration.” What is the most careful reading of “short permits rose during festival weeks” in **市场税单中的小商贩**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after The researcher compared market-day and monthly permits.

RAP-047 | 学校名册中的出勤波动 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher calculated attendance by season” 回答 Q1, 并以 “older children were absent more often in autumn” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “illness may explain part of the pattern” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Historians used absences during harvest months to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher calculated attendance by season. The records indicated that older children were absent more often in autumn. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, illness may explain part of the pattern. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for connecting work cycles and schooling.

Q1. In **学校名册中的出勤波动**, how does the step “The researcher calculated attendance by season” help investigate “Historians used absences during harvest months to ask about patterns in past daily life”? A. It turns “older children were absent more often in autumn” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that illness may explain part of the pattern. D. It treats the study's later interpretation as its starting evidence.

Q2. After “The researcher calculated attendance by season,” which result did the passage actually report in **学校名册中的出勤波动**? A. That illness may explain part of the pattern had been eliminated. B. That “Historians used absences during harvest months to ask about patterns in past daily life” was settled in every setting. C. older children were absent more often in autumn. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “illness may explain part of the pattern.” What is the most careful reading of “older children were absent more often in autumn” in **学校名册中的出勤波动**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after The researcher calculated attendance by season. D. It is evidence about the stated

question, but it does not establish a complete explanation.

RAP-048 | 城市水费账单的消费变化 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “The researcher compared similar homes across districts” 回答 Q1, 并以 “recorded use fell where bills became itemized” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “households knew they were being compared” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Historians used water use after new meters were installed to ask about patterns in past daily life. Administrative documents can reveal regular behavior that no one thought to describe in a narrative. At the same time, records were created for practical purposes, so missing entries and categories matter. The researcher compared similar homes across districts. The records indicated that recorded use fell where bills became itemized. This shift is meaningful because it appears across comparable entries rather than in one unusual example. Still, households knew they were being compared. The documents therefore suggest a tendency, not a complete account of every household or worker. They are particularly helpful for considering information as an incentive.

Q1. In 城市水费账单的消费变化, how does the step “The researcher compared similar homes across districts” help investigate “Historians used water use after new meters were installed to ask about patterns in past daily life”? A. It turns “recorded use fell where bills became itemized” into proof before observations are checked. B. It removes the need to consider that households knew they were being compared. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “The researcher compared similar homes across districts,” which result did the passage actually report in 城市水费账单的消费变化? A. That households knew they were being compared had been eliminated. B. recorded use fell where bills became itemized. C. That “Historians used water use after new meters were installed to ask about patterns in past daily life” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “households knew they were being compared.” What is the most careful reading of “recorded use fell where bills became itemized” in 城市水费账单的消费变化? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after The researcher compared similar homes across districts.

RAP-049 | 市场问候语的长短 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they recorded anonymized exchanges over several mornings” 回答 Q1, 并以 “returning customers received longer openings” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the recordings cannot reveal private relationships” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined how greetings varied with returning customers in ordinary social activity. Anthropological evidence often becomes strongest when it

connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they recorded anonymized exchanges over several mornings. They observed that returning customers received longer openings. This result points to a possible relationship between social setting and the practice under study. However, the recordings cannot reveal private relationships. The claim is thus deliberately narrow. It helps researchers begin studying familiarity in routine speech.

Q1. In **市场问候语的长短**, how does the step “Instead, they recorded anonymized exchanges over several mornings” help investigate “The project examined how greetings varied with returning customers in ordinary social activity”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “returning customers received longer openings” into proof before observations are checked. C. It removes the need to consider that the recordings cannot reveal private relationships. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they recorded anonymized exchanges over several mornings,” which result did the passage actually report in **市场问候语的长短**? A. returning customers received longer openings. B. That the recordings cannot reveal private relationships had been eliminated. C. That “The project examined how greetings varied with returning customers in ordinary social activity” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the recordings cannot reveal private relationships.” What is the most careful reading of “returning customers received longer openings” in **市场问候语的长短**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after Instead, they recorded anonymized exchanges over several mornings.

RAP-050 | 渔村方向词的学习 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they asked children to describe routes at different ages” 回答 Q1, 并以 “older children used the terms more consistently” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “school lessons may have reinforced local language” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined special terms for sea and land directions in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they asked children to describe routes at different ages. They observed that older children used the terms more consistently. This result points to a possible relationship between social setting and the practice under study. However, school lessons may have reinforced local language. The claim is thus deliberately narrow. It helps researchers begin linking language with navigation.

Q1. In **渔村方向词的学习**, how does the step “Instead, they asked children to describe routes at different ages” help investigate “The project examined special terms for sea and land directions in ordinary social activity”? A. It turns “older children

used the terms more consistently” into proof before observations are checked. B. It removes the need to consider that school lessons may have reinforced local language. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they asked children to describe routes at different ages,” which result did the passage actually report in **渔村方向词的学习**? A. That school lessons may have reinforced local language had been eliminated. B. That “The project examined special terms for sea and land directions in ordinary social activity” was settled in every setting. C. That later work was unnecessary despite the evidence. D. older children used the terms more consistently.

Q3. The passage adds “school lessons may have reinforced local language.” What is the most careful reading of “older children used the terms more consistently” in **渔村方向词的学习**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after Instead, they asked children to describe routes at different ages.

RAP-051 | 家庭餐桌的轮流讲述 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they coded conversations from volunteer households” 回答 Q1, 并以 “older relatives began more stories” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the sample included only families willing to record” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined who introduced stories at dinner in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they coded conversations from volunteer households. They observed that older relatives began more stories. This result points to a possible relationship between social setting and the practice under study. However, the sample included only families willing to record. The claim is thus deliberately narrow. It helps researchers begin considering how stories circulate.

Q1. In **家庭餐桌的轮流讲述**, how does the step “Instead, they coded conversations from volunteer households” help investigate “The project examined who introduced stories at dinner in ordinary social activity”? A. It turns “older relatives began more stories” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that the sample included only families willing to record. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they coded conversations from volunteer households,” which result did the passage actually report in **家庭餐桌的轮流讲述**? A. That the sample included only families willing to record had been eliminated. B. That “The project examined who introduced stories at dinner in ordinary social activity” was settled in every setting. C. older relatives began more stories. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the sample included only families willing to record.” What is the most careful reading of “older relatives began more stories” in **家庭餐桌的轮流讲述**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after. Instead, they coded conversations from volunteer households. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-052 | 节庆服饰的颜色变化 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they compared family albums from four decades” 回答 Q1, 并以 “brighter imported dyes became more frequent” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “photographs can distort color” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined which dyes appeared in photographs over time in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they compared family albums from four decades. They observed that brighter imported dyes became more frequent. This result points to a possible relationship between social setting and the practice under study. However, photographs can distort color. The claim is thus deliberately narrow. It helps researchers begin tracing material availability through images.

Q1. In **节庆服饰的颜色变化**, how does the step “Instead, they compared family albums from four decades” help investigate “The project examined which dyes appeared in photographs over time in ordinary social activity”? A. It turns “brighter imported dyes became more frequent” into proof before observations are checked. B. It removes the need to consider that photographs can distort color. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “Instead, they compared family albums from four decades,” which result did the passage actually report in **节庆服饰的颜色变化**? A. That photographs can distort color had been eliminated. B. brighter imported dyes became more frequent. C. That “The project examined which dyes appeared in photographs over time in ordinary social activity” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “photographs can distort color.” What is the most careful reading of “brighter imported dyes became more frequent” in **节庆服饰的颜色变化**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after. Instead, they compared family albums from four decades.

RAP-053 | 双语标牌的阅读路径 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they tracked anonymous eye movements on sample signs” 回答 Q1, 并以 “many readers scanned headings in both languages” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “eye movement does not prove comprehension” 放回同一链条,

判断它限制的是解释范围而不是已报告的结果。**证据定位**：Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The project examined whether they read both languages in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they tracked anonymous eye movements on sample signs. They observed that many readers scanned headings in both languages. This result points to a possible relationship between social setting and the practice under study. However, eye movement does not prove comprehension. The claim is thus deliberately narrow. It helps researchers begin designing inclusive signage.

Q1. In **双语标牌的阅读路径**, how does the step “Instead, they tracked anonymous eye movements on sample signs” help investigate “The project examined whether they read both languages in ordinary social activity”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “many readers scanned headings in both languages” into proof before observations are checked. C. It removes the need to consider that eye movement does not prove comprehension. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they tracked anonymous eye movements on sample signs,” which result did the passage actually report in **双语标牌的阅读路径**? A. many readers scanned headings in both languages. B. That eye movement does not prove comprehension had been eliminated. C. That “The project examined whether they read both languages in ordinary social activity” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “eye movement does not prove comprehension.” What is the most careful reading of “many readers scanned headings in both languages” in **双语标牌的阅读路径**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after Instead, they tracked anonymous eye movements on sample signs.

RAP-054 | 邻里互助中的请求方式 | 难度：RAP-B2 | 建议用时：5:00

两阶段：阶段一用 “Instead, they compared messages in a consented community forum” 回答 Q1，并以 “requests often included an offer to return a favor” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “online wording may differ from face-to-face speech” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位**：Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The project examined how people asked for borrowed tools in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they compared messages in a consented community forum. They observed that requests often included an offer to return a favor. This result points to a possible relationship between social setting and the practice under study. However, online wording may differ from face-to-face speech. The claim is thus deliberately

narrow. It helps researchers begin examining reciprocity.

Q1. In 邻里互助中的请求方式, how does the step “Instead, they compared messages in a consented community forum” help investigate “The project examined how people asked for borrowed tools in ordinary social activity”? A. It turns “requests often included an offer to return a favor” into proof before observations are checked. B. It removes the need to consider that online wording may differ from face-to-face speech. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they compared messages in a consented community forum,” which result did the passage actually report in 邻里互助中的请求方式? A. That online wording may differ from face-to-face speech had been eliminated. B. That “The project examined how people asked for borrowed tools in ordinary social activity” was settled in every setting. C. That later work was unnecessary despite the evidence. D. requests often included an offer to return a favor.

Q3. The passage adds “online wording may differ from face-to-face speech.” What is the most careful reading of “requests often included an offer to return a favor” in 邻里互助中的请求方式? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after Instead, they compared messages in a consented community forum.

RAP-055 | 手工课堂的模仿顺序 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they filmed practice after one demonstration” 回答 Q1, 并以 “learners copied hand position before speed” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the instructor was unusually experienced” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined which steps novices copied first in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they filmed practice after one demonstration. They observed that learners copied hand position before speed. This result points to a possible relationship between social setting and the practice under study. However, the instructor was unusually experienced. The claim is thus deliberately narrow. It helps researchers begin separating visible actions from hidden judgments.

Q1. In 手工课堂的模仿顺序, how does the step “Instead, they filmed practice after one demonstration” help investigate “The project examined which steps novices copied first in ordinary social activity”? A. It turns “learners copied hand position before speed” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that the instructor was unusually experienced. D. It treats the study's later interpretation as its starting evidence.

Q2. After “Instead, they filmed practice after one demonstration,” which result did the passage actually report in 手工课堂的模仿顺序? A. That the instructor was unusually

experienced had been eliminated. B. That “The project examined which steps novices copied first in ordinary social activity” was settled in every setting. C. learners copied hand position before speed. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the instructor was unusually experienced.” What is the most careful reading of “learners copied hand position before speed” in **手工课堂的模仿顺序**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after Instead, they filmed practice after one demonstration. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-056 | 迁居家庭的食谱笔记 | 难度: RAP-B2 | 建议用时: 5:00

两阶段: 阶段一用 “Instead, they compared older and newer pages” 回答 Q1, 并以 “local vegetables replaced unavailable originals” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “notebooks represent only written recipes” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The project examined which ingredients were substituted after moving in ordinary social activity. Anthropological evidence often becomes strongest when it connects a repeated form—such as a word, gesture, object, or routine—to the context in which it appears. The researchers did not assume that one example represented an entire community. Instead, they compared older and newer pages. They observed that local vegetables replaced unavailable originals. This result points to a possible relationship between social setting and the practice under study. However, notebooks represent only written recipes. The claim is thus deliberately narrow. It helps researchers begin seeing adaptation in everyday records.

Q1. In **迁居家庭的食谱笔记**, how does the step “Instead, they compared older and newer pages” help investigate “The project examined which ingredients were substituted after moving in ordinary social activity”? A. It turns “local vegetables replaced unavailable originals” into proof before observations are checked. B. It removes the need to consider that notebooks represent only written recipes. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “Instead, they compared older and newer pages,” which result did the passage actually report in **迁居家庭的食谱笔记**? A. That notebooks represent only written recipes had been eliminated. B. local vegetables replaced unavailable originals. C. That “The project examined which ingredients were substituted after moving in ordinary social activity” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “notebooks represent only written recipes.” What is the most careful reading of “local vegetables replaced unavailable originals” in **迁居家庭的食谱笔记**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after Instead, they compared older and newer pages.

RAP-057 | 壁画底层的网格线 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段：阶段一用 “They used angled light to photograph the surface” 回答 Q1，并以 “the grid changed scale near the doorway” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “later repairs may hide some lines” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The analysis centers on faint planning lines beneath paint. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They used angled light to photograph the surface. The comparison revealed that the grid changed scale near the doorway. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet later repairs may hide some lines. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for reconstructing an artist's planning.

Q1. In 壁画底层的网格线, how does the step “They used angled light to photograph the surface” help investigate “The analysis centers on faint planning lines beneath paint”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “the grid changed scale near the doorway” into proof before observations are checked. C. It removes the need to consider that later repairs may hide some lines. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They used angled light to photograph the surface,” which result did the passage actually report in 壁画底层的网格线? A. the grid changed scale near the doorway. B. That later repairs may hide some lines had been eliminated. C. That “The analysis centers on faint planning lines beneath paint” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “later repairs may hide some lines.” What is the most careful reading of “the grid changed scale near the doorway” in 壁画底层的网格线? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They used angled light to photograph the surface.

RAP-058 | 剧院座椅的视线差异 | 难度：RAP-B2+ **| 建议用时：**5:40

两阶段：阶段一用 “They modeled sightlines with a laser measure” 回答 Q1，并以 “side rows lost part of the stage edge” 核对 Q2，建立方法与观察之间的证据链；阶段二把 “audience members could lean or move” 放回同一链条，判断它限制的是解释范围而不是已报告的结果。**证据定位：**Q1 检查研究步骤服务的具体问题；Q2 返回结果句；Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料：The analysis centers on the view from upper side rows. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They modeled sightlines with a laser measure. The comparison revealed that side rows lost part of the stage edge. Such a pattern can illuminate how an object was made, displayed, or encountered by

people. Yet audience members could lean or move. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for connecting design and experience.

Q1. In **剧院座椅的视线差异**, how does the step “They modeled sightlines with a laser measure” help investigate “The analysis centers on the view from upper side rows”?

A. It turns “side rows lost part of the stage edge” into proof before observations are checked. B. It removes the need to consider that audience members could lean or move. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They modeled sightlines with a laser measure,” which result did the passage actually report in **剧院座椅的视线差异**? A. That audience members could lean or move had been eliminated. B. That “The analysis centers on the view from upper side rows” was settled in every setting. C. That later work was unnecessary despite the evidence. D. side rows lost part of the stage edge.

Q3. The passage adds “audience members could lean or move.” What is the most careful reading of “side rows lost part of the stage edge” in **剧院座椅的视线差异**? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They modeled sightlines with a laser measure.

RAP-059 | 石桥装饰的重复图案 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They compared high-resolution casts” 回答 Q1, 并以 “two groups of panels shared tool marks” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “tool marks cannot identify an individual carver” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on small variations in a repeated leaf motif. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They compared high-resolution casts. The comparison revealed that two groups of panels shared tool marks. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet tool marks cannot identify an individual carver. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for considering workshop organization.

Q1. In **石桥装饰的重复图案**, how does the step “They compared high-resolution casts” help investigate “The analysis centers on small variations in a repeated leaf motif”?

A. It turns “two groups of panels shared tool marks” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that tool marks cannot identify an individual carver. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They compared high-resolution casts,” which result did the passage actually report in **石桥装饰的重复图案**? A. That tool marks cannot identify an individual carver

had been eliminated. B. That “The analysis centers on small variations in a repeated leaf motif” was settled in every setting. C. two groups of panels shared tool marks. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “tool marks cannot identify an individual carver.” What is the most careful reading of “two groups of panels shared tool marks” in 石桥装饰的重复图案? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They compared high-resolution casts. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-060 | 早期海报的纸张尺寸 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They measured surviving copies in local archives” 回答 Q1, 并以 “larger formats appeared after a new press arrived” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “survival may favor posters kept indoors” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on changes in standard dimensions. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They measured surviving copies in local archives. The comparison revealed that larger formats appeared after a new press arrived. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet survival may favor posters kept indoors. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for relating technology to visual scale.

Q1. In 早期海报的纸张尺寸, how does the step “They measured surviving copies in local archives” help investigate “The analysis centers on changes in standard dimensions”? A. It turns “larger formats appeared after a new press arrived” into proof before observations are checked. B. It removes the need to consider that survival may favor posters kept indoors. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They measured surviving copies in local archives,” which result did the passage actually report in 早期海报的纸张尺寸? A. That survival may favor posters kept indoors had been eliminated. B. larger formats appeared after a new press arrived. C. That “The analysis centers on changes in standard dimensions” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “survival may favor posters kept indoors.” What is the most careful reading of “larger formats appeared after a new press arrived” in 早期海报的纸张尺寸? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after They measured surviving copies in local archives.

RAP-061 | 庭院声学与水池位置 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They played recorded speech from several locations” 回答 Q1, 并

以 “the pool masked distant street noise” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the ancient water flow may have differed” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on how a fountain altered spoken sound. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They played recorded speech from several locations. The comparison revealed that the pool masked distant street noise. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet the ancient water flow may have differed. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for asking how design shaped listening.

Q1. In **庭院声学与水池位置**, how does the step “They played recorded speech from several locations” help investigate “The analysis centers on how a fountain altered spoken sound”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “the pool masked distant street noise” into proof before observations are checked. C. It removes the need to consider that the ancient water flow may have differed. D. It treats the study’s later interpretation as its starting evidence.

Q2. After “They played recorded speech from several locations,” which result did the passage actually report in **庭院声学与水池位置**? A. the pool masked distant street noise. B. That the ancient water flow may have differed had been eliminated. C. That “The analysis centers on how a fountain altered spoken sound” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the ancient water flow may have differed.” What is the most careful reading of “the pool masked distant street noise” in **庭院声学与水池位置**? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They played recorded speech from several locations.

RAP-062 | 砖墙颜色与烧制位置 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They analyzed samples from lower and upper courses” 回答 Q1, 并以 “darker bricks clustered near service openings” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “weathering could deepen exposed colors” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on subtle color shifts within one wall. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They analyzed samples from lower and upper courses. The comparison revealed that darker bricks clustered near service openings. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet weathering could deepen exposed colors. The

observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for tracing construction supply.

Q1. In 砖墙颜色与烧制位置, how does the step “They analyzed samples from lower and upper courses” help investigate “The analysis centers on subtle color shifts within one wall”? A. It turns “darker bricks clustered near service openings” into proof before observations are checked. B. It removes the need to consider that weathering could deepen exposed colors. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They analyzed samples from lower and upper courses,” which result did the passage actually report in 砖墙颜色与烧制位置? A. That weathering could deepen exposed colors had been eliminated. B. That “The analysis centers on subtle color shifts within one wall” was settled in every setting. C. That later work was unnecessary despite the evidence. D. darker bricks clustered near service openings.

Q3. The passage adds “weathering could deepen exposed colors.” What is the most careful reading of “darker bricks clustered near service openings” in 砖墙颜色与烧制位置? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They analyzed samples from lower and upper courses.

RAP-063 | 画框背面的展览标签 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They dated adhesive and printing styles” 回答 Q1, 并以 “several works traveled together in one decade” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “a missing label does not prove a work stayed home” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on layers of old paper labels. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They dated adhesive and printing styles. The comparison revealed that several works traveled together in one decade. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet a missing label does not prove a work stayed home. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for mapping exhibition networks.

Q1. In 画框背面的展览标签, how does the step “They dated adhesive and printing styles” help investigate “The analysis centers on layers of old paper labels”? A. It turns “several works traveled together in one decade” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that a missing label does not prove a work stayed home. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They dated adhesive and printing styles,” which result did the passage actually report in 画框背面的展览标签? A. That a missing label does not prove a work

stayed home had been eliminated. B. That “The analysis centers on layers of old paper labels” was settled in every setting. C. several works traveled together in one decade. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “a missing label does not prove a work stayed home.” What is the most careful reading of “several works traveled together in one decade” in 画框背面的展览标签? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They dated adhesive and printing styles. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-064 | 公共雕塑的触摸磨损 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They photographed surfaces across different seasons” 回答 Q1, 并以 “polish concentrated on projecting features” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “cleaning practices can produce similar shine” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。 **证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The analysis centers on polished areas at hand height. Visual and built objects retain evidence of planning, use, repair, and movement, although that evidence may be incomplete. Researchers combined close observation with a repeatable method rather than relying only on stylistic impression. They photographed surfaces across different seasons. The comparison revealed that polish concentrated on projecting features. Such a pattern can illuminate how an object was made, displayed, or encountered by people. Yet cleaning practices can produce similar shine. The observation should therefore be linked with other evidence before assigning a definite intention. It is most promising for distinguishing contact from maintenance.

Q1. In 公共雕塑的触摸磨损, how does the step “They photographed surfaces across different seasons” help investigate “The analysis centers on polished areas at hand height”? A. It turns “polish concentrated on projecting features” into proof before observations are checked. B. It removes the need to consider that cleaning practices can produce similar shine. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They photographed surfaces across different seasons,” which result did the passage actually report in 公共雕塑的触摸磨损? A. That cleaning practices can produce similar shine had been eliminated. B. polish concentrated on projecting features. C. That “The analysis centers on polished areas at hand height” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “cleaning practices can produce similar shine.” What is the most careful reading of “polish concentrated on projecting features” in 公共雕塑的触摸磨损? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after They photographed surfaces across different seasons.

RAP-065 | 种子外壳的吸水速度 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They soaked seeds and weighed them at intervals” 回答 Q1, 并以

“thinner-coated seeds gained mass sooner” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “fast water uptake did not guarantee germination” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying wildflower seeds investigated the thickness of their outer coats. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They soaked seeds and weighed them at intervals. The data showed that thinner-coated seeds gained mass sooner. This result identifies a relationship between conditions and biological activity. However, fast water uptake did not guarantee germination. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for separating a process from an outcome.

Q1. In 种子外壳的吸水速度, how does the step “They soaked seeds and weighed them at intervals” help investigate “Biologists studying wildflower seeds investigated the thickness of their outer coats”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “thinner-coated seeds gained mass sooner” into proof before observations are checked. C. It removes the need to consider that fast water uptake did not guarantee germination. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They soaked seeds and weighed them at intervals,” which result did the passage actually report in 种子外壳的吸水速度? A. thinner-coated seeds gained mass sooner. B. That fast water uptake did not guarantee germination had been eliminated. C. That “Biologists studying wildflower seeds investigated the thickness of their outer coats” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “fast water uptake did not guarantee germination.” What is the most careful reading of “thinner-coated seeds gained mass sooner” in 种子外壳的吸水速度? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They soaked seeds and weighed them at intervals.

RAP-066 | 酵母群落的气泡模式 | 难度: RAP-B2+ | **建议用时:** 5:40

两阶段: 阶段一用 “They filmed containers under equal sugar conditions” 回答 Q1, 并以 “warmer cultures produced bubbles earlier” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “temperature also changes liquid thickness” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying yeast cultures investigated the size of bubbles during fermentation. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They filmed containers under equal sugar conditions. The data showed that warmer cultures produced bubbles earlier. This result identifies a relationship between con-

ditions and biological activity. However, temperature also changes liquid thickness. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for interpreting a visible proxy carefully.

Q1. In 酵母群落的气泡模式, how does the step “They filmed containers under equal sugar conditions” help investigate “Biologists studying yeast cultures investigated the size of bubbles during fermentation”? A. It turns “warmer cultures produced bubbles earlier” into proof before observations are checked. B. It removes the need to consider that temperature also changes liquid thickness. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They filmed containers under equal sugar conditions,” which result did the passage actually report in 酵母群落的气泡模式? A. That temperature also changes liquid thickness had been eliminated. B. That “Biologists studying yeast cultures investigated the size of bubbles during fermentation” was settled in every setting. C. That later work was unnecessary despite the evidence. D. warmer cultures produced bubbles earlier.

Q3. The passage adds “temperature also changes liquid thickness.” What is the most careful reading of “warmer cultures produced bubbles earlier” in 酵母群落的气泡模式? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They filmed containers under equal sugar conditions.

RAP-067 | 叶片气孔的午间变化 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They made surface impressions at several times” 回答 Q1, 并以 “openings were narrowest at midday” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “light and humidity changed together” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。
证据定位: Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying bean plants investigated openings on the underside of leaves. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They made surface impressions at several times. The data showed that openings were narrowest at midday. This result identifies a relationship between conditions and biological activity. However, light and humidity changed together. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for asking which cue drives the response.

Q1. In 叶片气孔的午间变化, how does the step “They made surface impressions at several times” help investigate “Biologists studying bean plants investigated openings on the underside of leaves”? A. It turns “openings were narrowest at midday” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that light and humidity changed together. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They made surface impressions at several times,” which result did the passage actually report in **叶片气孔的午间变化**? A. That light and humidity changed together had been eliminated. B. That “Biologists studying bean plants investigated openings on the underside of leaves” was settled in every setting. C. openings were narrowest at midday. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “light and humidity changed together.” What is the most careful reading of “openings were narrowest at midday” in **叶片气孔的午间变化**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They made surface impressions at several times. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-068 | 蚂蚁触角的路线纠正 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They recorded paths around movable barriers” 回答 Q1, 并以 “ants paused longer at unfamiliar barriers” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “individual ants were not identified” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。

证据定位: Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying foraging ants investigated how they changed direction after an obstacle. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They recorded paths around movable barriers. The data showed that ants paused longer at unfamiliar barriers. This result identifies a relationship between conditions and biological activity. However, individual ants were not identified. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for connecting sensing with navigation.

Q1. In **蚂蚁触角的路线纠正**, how does the step “They recorded paths around movable barriers” help investigate “Biologists studying foraging ants investigated how they changed direction after an obstacle”? A. It turns “ants paused longer at unfamiliar barriers” into proof before observations are checked. B. It removes the need to consider that individual ants were not identified. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They recorded paths around movable barriers,” which result did the passage actually report in **蚂蚁触角的路线纠正**? A. That individual ants were not identified had been eliminated. B. ants paused longer at unfamiliar barriers. C. That “Biologists studying foraging ants investigated how they changed direction after an obstacle” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “individual ants were not identified.” What is the most careful reading of “ants paused longer at unfamiliar barriers” in **蚂蚁触角的路线纠正**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after They recorded paths around movable barriers.

RAP-069 | 果蝇翅膀的微小不对称 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They measured flies raised under two temperatures” 回答 Q1, 并以 “variation increased in the warmer group” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the groups differed in development time” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying fruit flies investigated differences between left and right wing length. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They measured flies raised under two temperatures. The data showed that variation increased in the warmer group. This result identifies a relationship between conditions and biological activity. However, the groups differed in development time. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for using symmetry as one stress indicator.

Q1. In 果蝇翅膀的微小不对称, how does the step “They measured flies raised under two temperatures” help investigate “Biologists studying fruit flies investigated differences between left and right wing length”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “variation increased in the warmer group” into proof before observations are checked. C. It removes the need to consider that the groups differed in development time. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They measured flies raised under two temperatures,” which result did the passage actually report in 果蝇翅膀的微小不对称? A. variation increased in the warmer group. B. That the groups differed in development time had been eliminated. C. That “Biologists studying fruit flies investigated differences between left and right wing length” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the groups differed in development time.” What is the most careful reading of “variation increased in the warmer group” in 果蝇翅膀的微小不对称? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They measured flies raised under two temperatures.

RAP-070 | 细胞膜的染料进入 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They compared cells in solutions of different concentration” 回答 Q1, 并以 “entry slowed in the most concentrated solution” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “color intensity also depends on cell thickness” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying plant cells investigated the rate at which a safe dye entered tissue. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They com-

pared cells in solutions of different concentration. The data showed that entry slowed in the most concentrated solution. This result identifies a relationship between conditions and biological activity. However, color intensity also depends on cell thickness. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for examining movement across membranes.

Q1. In 细胞膜的染料进入, how does the step “They compared cells in solutions of different concentration” help investigate “Biologists studying plant cells investigated the rate at which a safe dye entered tissue”? A. It turns “entry slowed in the most concentrated solution” into proof before observations are checked. B. It removes the need to consider that color intensity also depends on cell thickness. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They compared cells in solutions of different concentration,” which result did the passage actually report in 细胞膜的染料进入? A. That color intensity also depends on cell thickness had been eliminated. B. That “Biologists studying plant cells investigated the rate at which a safe dye entered tissue” was settled in every setting. C. That later work was unnecessary despite the evidence. D. entry slowed in the most concentrated solution.

Q3. The passage adds “color intensity also depends on cell thickness.” What is the most careful reading of “entry slowed in the most concentrated solution” in 细胞膜的染料进入? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They compared cells in solutions of different concentration.

RAP-071 | 珊瑚幼体的附着选择 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They counted attached larvae after one night” 回答 Q1, 并以 “rough tiles received more attachments” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “water flow varied slightly between trays” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying coral larvae investigated rough versus smooth settlement tiles. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They counted attached larvae after one night. The data showed that rough tiles received more attachments. This result identifies a relationship between conditions and biological activity. However, water flow varied slightly between trays. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for designing restoration surfaces.

Q1. In 珊瑚幼体的附着选择, how does the step “They counted attached larvae after one night” help investigate “Biologists studying coral larvae investigated rough versus smooth settlement tiles”? A. It turns “rough tiles received more attachments” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider

that water flow varied slightly between trays. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They counted attached larvae after one night,” which result did the passage actually report in 珊瑚幼体的附着选择? A. That water flow varied slightly between trays had been eliminated. B. That “Biologists studying coral larvae investigated rough versus smooth settlement tiles” was settled in every setting. C. rough tiles received more attachments. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “water flow varied slightly between trays.” What is the most careful reading of “rough tiles received more attachments” in 珊瑚幼体的附着选择? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They counted attached larvae after one night. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-072 | 蛙卵团的水温梯度 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They observed marked egg clusters daily” 回答 Q1, 并以 “warmer edges reached later stages sooner” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “very warm water was not represented” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: Biologists studying frog eggs investigated development across warmer and cooler pond edges. A visible response can provide a useful starting point, but it is important to distinguish a mechanism from the final outcome of a process. The researchers used a controlled comparison so that the response could be measured repeatedly. They observed marked egg clusters daily. The data showed that warmer edges reached later stages sooner. This result identifies a relationship between conditions and biological activity. However, very warm water was not represented. Consequently, the experiment supports a specific conclusion while leaving broader questions open. It is useful for avoiding an unlimited temperature conclusion.

Q1. In 蛙卵团的水温梯度, how does the step “They observed marked egg clusters daily” help investigate “Biologists studying frog eggs investigated development across warmer and cooler pond edges”? A. It turns “warmer edges reached later stages sooner” into proof before observations are checked. B. It removes the need to consider that very warm water was not represented. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They observed marked egg clusters daily,” which result did the passage actually report in 蛙卵团的水温梯度? A. That very warm water was not represented had been eliminated. B. warmer edges reached later stages sooner. C. That “Biologists studying frog eggs investigated development across warmer and cooler pond edges” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “very warm water was not represented.” What is the most careful reading of “warmer edges reached later stages sooner” in 蛙卵团的水温梯度? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not estab-

lish a complete explanation. D. It lets researchers ignore other conditions after They observed marked egg clusters daily.

RAP-073 | 街道树坑的雨水停留 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They measured depth at regular intervals” 回答 Q1, 并以 “pits with loose soil drained more slowly at first” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “nearby drains also differed” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored how long water remained after storms. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They measured depth at regular intervals. Their measurements showed that pits with loose soil drained more slowly at first. The pattern suggests that a small design or communication choice may change a practical outcome. However, nearby drains also differed. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for evaluating small stormwater designs.

Q1. In 街道树坑的雨水停留, how does the step “They measured depth at regular intervals” help investigate “The applied study explored how long water remained after storms”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “pits with loose soil drained more slowly at first” into proof before observations are checked. C. It removes the need to consider that nearby drains also differed. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They measured depth at regular intervals,” which result did the passage actually report in 街道树坑的雨水停留? A. pits with loose soil drained more slowly at first. B. That nearby drains also differed had been eliminated. C. That “The applied study explored how long water remained after storms” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “nearby drains also differed.” What is the most careful reading of “pits with loose soil drained more slowly at first” in 街道树坑的雨水停留? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They measured depth at regular intervals.

RAP-074 | 厨房废料的堆肥温度 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They logged temperatures in matched bins” 回答 Q1, 并以 “bins with added leaves warmed more steadily” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “turning frequency was not identical” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored heat after adding dry leaves. Environmental design questions often require measurements in real settings, where a promising in-

intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They logged temperatures in matched bins. Their measurements showed that bins with added leaves warmed more steadily. The pattern suggests that a small design or communication choice may change a practical outcome. However, turning frequency was not identical. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for linking material balance to decomposition.

Q1. In 厨房废料的堆肥温度, how does the step “They logged temperatures in matched bins” help investigate “The applied study explored heat after adding dry leaves”? A. It turns “bins with added leaves warmed more steadily” into proof before observations are checked. B. It removes the need to consider that turning frequency was not identical. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They logged temperatures in matched bins,” which result did the passage actually report in 厨房废料的堆肥温度? A. That turning frequency was not identical had been eliminated. B. That “The applied study explored heat after adding dry leaves” was settled in every setting. C. That later work was unnecessary despite the evidence. D. bins with added leaves warmed more steadily.

Q3. The passage adds “turning frequency was not identical.” What is the most careful reading of “bins with added leaves warmed more steadily” in 厨房废料的堆肥温度? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They logged temperatures in matched bins.

RAP-075 | 教室窗户的自然通风 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They used sensors during the same lesson type” 回答 Q1, 并以 “two partly opened windows lowered levels most” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “outdoor noise may limit that practice” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: The applied study explored carbon-dioxide levels with different window positions. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They used sensors during the same lesson type. Their measurements showed that two partly opened windows lowered levels most. The pattern suggests that a small design or communication choice may change a practical outcome. However, outdoor noise may limit that practice. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for balancing air quality and use.

Q1. In 教室窗户的自然通风, how does the step “They used sensors during the same lesson type” help investigate “The applied study explored carbon-dioxide levels with different window positions”? A. It turns “two partly opened windows lowered levels

most” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that outdoor noise may limit that practice. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They used sensors during the same lesson type,” which result did the passage actually report in 教室窗户的自然通风? A. That outdoor noise may limit that practice had been eliminated. B. That “The applied study explored carbon-dioxide levels with different window positions” was settled in every setting. C. two partly opened windows lowered levels most. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “outdoor noise may limit that practice.” What is the most careful reading of “two partly opened windows lowered levels most” in 教室窗户的自然通风? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They used sensors during the same lesson type. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-076 | 太阳能板下的草地 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段:阶段一用 “They compared shaded strips with open strips” 回答 Q1, 并以 “grass stayed greener during a hot week” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “the study covered only one season” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored growth beneath raised panels. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They compared shaded strips with open strips. Their measurements showed that grass stayed greener during a hot week. The pattern suggests that a small design or communication choice may change a practical outcome. However, the study covered only one season. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for considering shared land uses.

Q1. In 太阳能板下的草地, how does the step “They compared shaded strips with open strips” help investigate “The applied study explored growth beneath raised panels”? A. It turns “grass stayed greener during a hot week” into proof before observations are checked. B. It removes the need to consider that the study covered only one season. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They compared shaded strips with open strips,” which result did the passage actually report in 太阳能板下的草地? A. That the study covered only one season had been eliminated. B. grass stayed greener during a hot week. C. That “The applied study explored growth beneath raised panels” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “the study covered only one season.” What is the most careful reading of “grass stayed greener during a hot week” in 太阳能板下的草地? A. It proves

the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after They compared shaded strips with open strips.

RAP-077 | 过滤水壶的流速下降 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They timed equal volumes after repeated use” 回答 Q1, 并以 “flow slowed before the manufacturer replacement date” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “water mineral content was not tested” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored the rate of water through used cartridges. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They timed equal volumes after repeated use. Their measurements showed that flow slowed before the manufacturer replacement date. The pattern suggests that a small design or communication choice may change a practical outcome. However, water mineral content was not tested. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for questioning a single replacement schedule.

Q1. In 过滤水壶的流速下降, how does the step “They timed equal volumes after repeated use” help investigate “The applied study explored the rate of water through used cartridges”? A. It produces evidence for the stated question instead of assuming an answer before comparison. B. It turns “flow slowed before the manufacturer replacement date” into proof before observations are checked. C. It removes the need to consider that water mineral content was not tested. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They timed equal volumes after repeated use,” which result did the passage actually report in 过滤水壶的流速下降? A. flow slowed before the manufacturer replacement date. B. That water mineral content was not tested had been eliminated. C. That “The applied study explored the rate of water through used cartridges” was settled in every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “water mineral content was not tested.” What is the most careful reading of “flow slowed before the manufacturer replacement date” in 过滤水壶的流速下降? A. It is evidence about the stated question, but it does not establish a complete explanation. B. It proves the reported pattern occurred for one certain reason. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They timed equal volumes after repeated use.

RAP-078 | 自行车道表面的夜间温度 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They measured paired dark and light surfaces” 回答 Q1, 并以 “dark sections remained warmer longer” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “nearby building shadows varied” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored heat retained after sunset. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They measured paired dark and light surfaces. Their measurements showed that dark sections remained warmer longer. The pattern suggests that a small design or communication choice may change a practical outcome. However, nearby building shadows varied. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for thinking about material choices.

Q1. In 自行车道表面的夜间温度, how does the step “They measured paired dark and light surfaces” help investigate “The applied study explored heat retained after sunset”? A. It turns “dark sections remained warmer longer” into proof before observations are checked. B. It removes the need to consider that nearby building shadows varied. C. It produces evidence for the stated question instead of assuming an answer before comparison. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They measured paired dark and light surfaces,” which result did the passage actually report in 自行车道表面的夜间温度? A. That nearby building shadows varied had been eliminated. B. That “The applied study explored heat retained after sunset” was settled in every setting. C. That later work was unnecessary despite the evidence. D. dark sections remained warmer longer.

Q3. The passage adds “nearby building shadows varied.” What is the most careful reading of “dark sections remained warmer longer” in 自行车道表面的夜间温度? A. It proves the reported pattern occurred for one certain reason. B. It is evidence about the stated question, but it does not establish a complete explanation. C. It means the recorded result did not occur. D. It lets researchers ignore other conditions after They measured paired dark and light surfaces.

RAP-079 | 可重复餐盒的归还率 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They compared two message designs” 回答 Q1, 并以 “a message naming the return location worked better” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “users could differ in environmental interest” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大为完整因果的选项。

原创材料: The applied study explored return behavior after reminder messages. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They compared two message designs. Their measurements showed that a message naming the return location worked better. The pattern suggests that a small design or communication choice may change a practical outcome. However, users could differ in environmental interest. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for testing practical communication.

Q1. In 可重复餐盒的归还率, how does the step “They compared two message de-

signs” help investigate “The applied study explored return behavior after reminder messages”? A. It turns “a message naming the return location worked better” into proof before observations are checked. B. It produces evidence for the stated question instead of assuming an answer before comparison. C. It removes the need to consider that users could differ in environmental interest. D. It treats the study's later interpretation as its starting evidence.

Q2. After “They compared two message designs,” which result did the passage actually report in **可重复餐盒的归还率**? A. That users could differ in environmental interest had been eliminated. B. That “The applied study explored return behavior after reminder messages” was settled in every setting. C. a message naming the return location worked better. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “users could differ in environmental interest.” What is the most careful reading of “a message naming the return location worked better” in **可重复餐盒的归还率**? A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It lets researchers ignore other conditions after They compared two message designs. D. It is evidence about the stated question, but it does not establish a complete explanation.

RAP-080 | 校车急速区的颗粒物 | 难度: RAP-B2+ | 建议用时: 5:40

两阶段: 阶段一用 “They sampled air before and after a policy change” 回答 Q1, 并以 “particle readings fell during pickup time” 核对 Q2, 建立方法与观察之间的证据链; 阶段二把 “traffic on the adjacent road also changed” 放回同一链条, 判断它限制的是解释范围而不是已报告的结果。**证据定位:** Q1 检查研究步骤服务的具体问题; Q2 返回结果句; Q3 用限制句排除把相关性夸大完整因果的选项。

原创材料: The applied study explored changes when engines were turned off. Environmental design questions often require measurements in real settings, where a promising intervention must work alongside weather, behavior, and existing infrastructure. The investigators chose a comparison that could be repeated under ordinary conditions. They sampled air before and after a policy change. Their measurements showed that particle readings fell during pickup time. The pattern suggests that a small design or communication choice may change a practical outcome. However, traffic on the adjacent road also changed. The study therefore recommends testing the idea further instead of assuming it will work identically everywhere. It offers evidence for linking policy with measured exposure.

Q1. In **校车急速区的颗粒物**, how does the step “They sampled air before and after a policy change” help investigate “The applied study explored changes when engines were turned off”? A. It turns “particle readings fell during pickup time” into proof before observations are checked. B. It removes the need to consider that traffic on the adjacent road also changed. C. It treats the study's later interpretation as its starting evidence. D. It produces evidence for the stated question instead of assuming an answer before comparison.

Q2. After “They sampled air before and after a policy change,” which result did the passage actually report in **校车急速区的颗粒物**? A. That traffic on the adjacent road also changed had been eliminated. B. particle readings fell during pickup time. C. That “The applied study explored changes when engines were turned off” was settled in

every setting. D. That later work was unnecessary despite the evidence.

Q3. The passage adds “traffic on the adjacent road also changed.” What is the most careful reading of “particle readings fell during pickup time” in 校车怠速区的颗粒物?

A. It proves the reported pattern occurred for one certain reason. B. It means the recorded result did not occur. C. It is evidence about the stated question, but it does not establish a complete explanation. D. It lets researchers ignore other conditions after They sampled air before and after a policy change.

第十六章 15 | 听力脚本与分级题库：TTS 原创训练库

训练与版权边界：本章的英文脚本、题目和选项均为原创训练材料；可交给 TTS 自然朗读。题号 LCR-001—LCR-300 与 LT-001—LT-160 只供第 19 章答案索引使用；本章的分级、计时、TTS 执行法和题号分组都是教学设计，不是 ETS 官方题库、路由、评分或正式呈现规则，也不复制真题、机经或考试回忆题。

16.1 A. Listen and Choose a Response (300 题)

使用法：把每个 Speaker 单独交给 TTS 播放一次。先在两秒内说出自然回应，再看选项。所有题均为原创；LCR 编号供第 19 章答案索引使用。

LCR-001 | 基础 | 建议 8 秒 Speaker: Could you send the revised file before lunch?
Choices: A. Certainly. email everyone the new room | B. Then join the afternoon team | C. Yes. share the later departure **答案 A:** 它自然回应当前的 **request**。证据: you send the revised file before lunch. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-002 | 基础 | 建议 8 秒 Speaker: Could you hold the elevator for a minute?
Choices: A. Then use the finance portal | B. Yes. leave it in the return bay | C. Certainly. use the freight entrance **答案 C:** 它自然回应当前的 **request**。证据: you hold the elevator for a minute. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-003 | 基础 | 建议 8 秒 Speaker: Could you add me to a watering shift?
Choices: A. Yes. listen to the organizer's recording | B. Certainly. join the afternoon team | C. Then arrive early by the blue notebook **答案 B:** 它自然回应当前的 **request**。证据: you add me to a watering shift. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-004 | 基础 | 建议 8 秒 Speaker: Could you show me the upload page?
Choices: A. Certainly. use the finance portal | B. Then ask the technician to unlock storage | C. Yes. return it and make a new hold **答案 A:** 它自然回应当前的 **request**。证据: Could you show me the upload page. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-005 | 基础 | 建议 8 秒 Speaker: Could you save a place near the front?
Choices: A. Then leave an authorization at reception | B. Yes. move them to side tables | C. Certainly. arrive early by the blue notebook **答案 C:** 它自然回应当前的 **request**。

证据: you save a place near the front. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-006 | 基础 | 建议 8 秒 Speaker: Could you check for a spare lens? **Choices:** A. Yes. use the terrace stair | B. Certainly. ask the technician to unlock storage | C. Then correct them before publishing **答案 B:** 它自然回应当前的 **request**。证据: Could you check for a spare lens. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-007 | 基础 | 建议 8 秒 Speaker: Could you bring it indoors? **Choices:** A. Certainly. leave an authorization at reception | B. Then ask the kitchen directly | C. Yes. rinse one at the refill station **答案 A:** 它自然回应当前的 **request**。证据: Could you bring it indoors. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-008 | 基础 | 建议 8 秒 Speaker: Could you review the names? **Choices:** A. Then book a library corner | B. Yes. enter by the river-side door | C. Certainly. correct them before publishing **答案 C:** 它自然回应当前的 **request**。证据: Could you review the names. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-009 | 基础 | 建议 8 秒 Speaker: Could you check on the lentil soup? **Choices:** A. Yes. bring the card itself | B. Certainly. ask the kitchen directly | C. Then remove outdated contacts **答案 B:** 它自然回应当前的 **request**。证据: Could you check on the lentil soup. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-010 | 基础 | 建议 8 秒 Speaker: Could you reserve a quiet table? **Choices:** A. Certainly. book a library corner | B. Then ask reception to hold it | C. Yes. put glass out Thursday **答案 A:** 它自然回应当前的 **request**。证据: Could you reserve a quiet table. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-011 | 基础 | 建议 8 秒 Speaker: Could you forward it to the new group? **Choices:** A. Then use the overnight return box | B. Yes. check today's recipe with staff | C. Certainly. remove outdated contacts **答案 C:** 它自然回应当前的 **request**。证据: you forward it to the new group. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-012 | 基础 | 建议 8 秒 Speaker: Could you collect it from the print shop? **Choices:** A. Yes. match it to the receipt | B. Certainly. ask reception to hold it | C. Then send the corrected link **答案 B:** 它自然回应当前的 **request**。证据: you collect it from the print shop. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-013 | 基础 | 建议 8 秒 Speaker: Could you remind me to return it? **Choices:** A. Certainly. use the overnight return box | B. Then highlight each plan's doctors | C. Yes. reserve a ventilated shelf **答案 A:** 它自然回应当前的 **request**。证据: Could you remind me to return it. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-014 | 基础 | 建议 8 秒 Speaker: Could you tell the coordinator I am online? **Choices:** A. Then borrow one from facilities | B. Yes. use the visitor lot | C. Certainly.

send the corrected link **答案 C**: 它自然回应当前的 **request**。证据: you tell the coordinator I am online。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-015 | 基础 | 建议 8 秒 Speaker: Could you compare the nearby clinics? **Choices**: A. Yes. show the original document | B. Certainly. highlight each plan's doctors | C. Then start with the other group **答案 B**: 它自然回应当前的 **request**。证据: Could you compare the nearby clinics。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-016 | 基础 | 建议 8 秒 Speaker: Could you bring an extension cord? **Choices**: A. Certainly. borrow one from facilities | B. Then flatten it and use downstairs | C. Yes. use the rear ramp **答案 A**: 它自然回应当前的 **request**。证据: Could you bring an extension cord。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-017 | 基础 | 建议 8 秒 Speaker: Could you tell the tutor I may be late? **Choices**: A. Then open the side vent | B. Yes. switch to the spare audio port | C. Certainly. start with the other group **答案 C**: 它自然回应当前的 **request**。证据: tell the tutor I may be late。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-018 | 基础 | 建议 8 秒 Speaker: Could you scan them for me? **Choices**: A. Yes. share the trailhead pin | B. Certainly. flatten it and use downstairs | C. Then come back with my card **答案 B**: 它自然回应当前的 **request**。证据: Could you scan them for me。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-019 | 基础 | 建议 8 秒 Speaker: Could you check its temperature? **Choices**: A. Certainly. open the side vent | B. Then replace them with entrance details | C. Yes. cut background, keep the quote **答案 A**: 它自然回应当前的 **request**。证据: Could you check its temperature。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-020 | 基础 | 建议 8 秒 Speaker: Could you hold my place? **Choices**: A. Then call transportation | B. Yes. download it from the garage site | C. Certainly. come back with my card **答案 C**: 它自然回应当前的 **request**。证据: Could you hold my place。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-021 | 基础 | 建议 8 秒 Speaker: Could you read it aloud once? **Choices**: A. Yes. call before breakfast | B. Certainly. replace them with entrance details | C. Then print a corrected badge **答案 B**: 它自然回应当前的 **request**。证据: Could you read it aloud once。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-022 | 基础 | 建议 8 秒 Speaker: Could you check its weekend stop? **Choices**: A. Certainly. call transportation | B. Then read the final three digits | C. Yes. take the underpass **答案 A**: 它自然回应当前的 **request**。证据: Could you check its weekend stop。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-023 | 基础 | 建议 8 秒 Speaker: Could you bring it to reception? **Choices**:

A. Then download a backup | B. Yes. charge it at the media desk | C. Certainly. print a corrected badge **答案 C**: 它自然回应当前的 **request**。证据: Could you bring it to reception. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-024 | 基础 | 建议 8 秒 Speaker: Could you compare them with the sheet? **Choices**: A. Yes. choose a seasonal substitute | B. Certainly. read the final three digits | C. Then text when the stage is free **答案 B**: 它自然回应当前的 **request**。证据: Could you compare them with the sheet. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-025 | 基础 | 建议 8 秒 Speaker: Could you save a copy first? **Choices**: A. Certainly. download a backup | B. Then describe that time pattern | C. Yes. hand copies out at the door **答案 A**: 它自然回应当前的 **request**。证据: Could you save a copy first. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-026 | 基础 | 建议 8 秒 Speaker: Could you tell me its new start? **Choices**: A. Then drop it in the director's mailbox | B. Yes. book morning orientation | C. Certainly. text when the stage is free **答案 C**: 它自然回应当前的 **request**。证据: Could you tell me its new start. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-027 | 基础 | 建议 8 秒 Speaker: Could you ask about low pressure? **Choices**: A. Yes. visit security in the annex | B. Certainly. describe that time pattern | C. Then search for a used copy **答案 B**: 它自然回应当前的 **request**。证据: Could you ask about low pressure. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-028 | 基础 | 建议 8 秒 Speaker: Could you bring the signed original? **Choices**: A. Certainly. drop it in the director's mailbox | B. Then meet at the south entrance | C. Yes. start early and follow flags **答案 A**: 它自然回应当前的 **request**。证据: Could you bring the signed original. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-029 | 基础 | 建议 8 秒 Speaker: Could you ask the bookstore to order it? **Choices**: A. Then fill a pitcher in the staff kitchen | B. email everyone the new room | C. Certainly. search for a used copy **答案 C**: 它自然回应当前的 **request**。证据: you ask the bookstore to order it. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-030 | 基础 | 建议 8 秒 Speaker: Could you wait by the bike racks? **Choices**: A. use the freight entrance | B. Certainly. meet at the south entrance | C. Then ask the owner to add my account **答案 B**: 它自然回应当前的 **request**。证据: Could you wait by the bike racks. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-031 | 基础 | 建议 8 秒 Speaker: Could you bring a glass? **Choices**: A. Certainly. fill a pitcher in the staff kitchen | B. Then share the later departure | C. join the afternoon team **答案 A**: 它自然回应当前的 **request**。证据: Could you bring a glass. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-032 | 基础 | 建议 8 秒 Speaker: Could you show me how to join it? **Choices:** A. Then leave it in the return bay | B. use the finance portal | C. Certainly. ask the owner to add my account **答案 C:** 它自然回应当前的 **request**。证据: you show me how to join it。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-033 | 基础 | 建议 8 秒 Speaker: Could you tell the group I chose later service? **Choices:** A. arrive early by the blue notebook | B. Certainly. share the later departure | C. Then listen to the organizer's recording **答案 B:** 它自然回应当前的 **request**。证据: tell the group I chose later service。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-034 | 基础 | 建议 8 秒 Speaker: Could you return it before sunset? **Choices:** A. Certainly. leave it in the return bay | B. Then return it and make a new hold | C. ask the technician to unlock storage **答案 A:** 它自然回应当前的 **request**。证据: Could you return it before sunset。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-035 | 基础 | 建议 8 秒 Speaker: Could you check my pronunciation? **Choices:** A. Then move them to side tables | B. leave an authorization at reception | C. Certainly. listen to the organizer's recording **答案 C:** 它自然回应当前的 **request**。证据: Could you check my pronunciation。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-036 | 基础 | 建议 8 秒 Speaker: Could you ask the library to renew it? **Choices:** A. correct them before publishing | B. Certainly. return it and make a new hold | C. Then use the terrace stair **答案 B:** 它自然回应当前的 **request**。证据: you ask the library to renew it。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-037 | 基础 | 建议 8 秒 Speaker: Could you inspect it before printing? **Choices:** A. Certainly. move them to side tables | B. Then rinse one at the refill station | C. ask the kitchen directly **答案 A:** 它自然回应当前的 **request**。证据: Could you inspect it before printing。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-038 | 基础 | 建议 8 秒 Speaker: Could you check the elevator route? **Choices:** A. Then enter by the river-side door | B. book a library corner | C. Certainly. use the terrace stair **答案 C:** 它自然回应当前的 **request**。证据: Could you check the elevator route。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-039 | 基础 | 建议 8 秒 Speaker: Could you bring a reusable mug? **Choices:** A. remove outdated contacts | B. Certainly. rinse one at the refill station | C. Then bring the card itself **答案 B:** 它自然回应当前的 **request**。证据: Could you bring a reusable mug。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-040 | 基础 | 建议 8 秒 Speaker: Could you ask about stroller access? **Choices:** A. Certainly. enter by the river-side door | B. Then put glass out Thursday | C. ask reception to hold it **答案 A:** 它自然回应当前的 **request**。证据: Could you ask about stroller access。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话

语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-041 | 基础 | 建议 8 秒 Speaker: Could you check its balance? **Choices:** A. Then check today's recipe with staff | B. use the overnight return box | C. Certainly. bring the card itself **答案 C:** 它自然回应当前的 **request**。证据: Could you check its balance. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-042 | 基础 | 建议 8 秒 Speaker: Could you tell neighbors the change? **Choices:** A. send the corrected link | B. Certainly. put glass out Thursday | C. Then match it to the receipt **答案 B:** 它自然回应当前的 **request**。证据: Could you tell neighbors the change. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-043 | 基础 | 建议 8 秒 Speaker: Could you ask about nuts? **Choices:** A. Certainly. check today's recipe with staff | B. Then reserve a ventilated shelf | C. highlight each plan's doctors **答案 A:** 它自然回应当前的 **request**。证据: Could you ask about nuts. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-044 | 基础 | 建议 8 秒 Speaker: Could you record its serial number? **Choices:** A. Then use the visitor lot | B. borrow one from facilities | C. Certainly. match it to the receipt **答案 C:** 它自然回应当前的 **request**。证据: Could you record its serial number. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-045 | 基础 | 建议 8 秒 Speaker: Could you check for a drying rack? **Choices:** A. start with the other group | B. Certainly. reserve a ventilated shelf | C. Then show the original document **答案 B:** 它自然回应当前的 **request**。证据: Could you check for a drying rack. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-046 | 基础 | 建议 8 秒 Speaker: Could you ask where to leave it? **Choices:** A. Certainly. use the visitor lot | B. Then use the rear ramp | C. flatten it and use downstairs **答案 A:** 它自然回应当前的 **request**。证据: Could you ask where to leave it. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-047 | 基础 | 建议 8 秒 Speaker: Could you bring your passport? **Choices:** A. Then switch to the spare audio port | B. open the side vent | C. Certainly. show the original document **答案 C:** 它自然回应当前的 **request**。证据: Could you bring your passport. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-048 | 基础 | 建议 8 秒 Speaker: Could you remind me which one works? **Choices:** A. come back with my card | B. Certainly. use the rear ramp | C. Then share the trailhead pin **答案 B:** 它自然回应当前的 **request**。证据: Could you remind me which one works. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-049 | 基础 | 建议 8 秒 Speaker: Could you ask for a test? **Choices:** A. Certainly. switch to the spare audio port | B. Then cut background, keep the quote | C. replace them with entrance details **答案 A:** 它自然回应当前的 **request**。证据: Could you

ask for a test. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-050 | 基础 | 建议 8 秒 Speaker: Could you send a map pin? **Choices:** A. Then download it from the garage site | B. call transportation | C. Certainly. share the trail-head pin **答案 C:** 它自然回应当前的 **request**。证据: Could you send a map pin. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-051 | 基础 | 建议 8 秒 Speaker: Could you tell the editor I can shorten it? **Choices:** A. print a corrected badge | B. Certainly. cut background, keep the quote | C. Then call before breakfast **答案 B:** 它自然回应当前的 **request**。证据: tell the editor I can shorten it. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-052 | 基础 | 建议 8 秒 Speaker: Could you bring it for reimbursement? **Choices:** A. Certainly. download it from the garage site | B. Then take the underpass | C. read the final three digits **答案 A:** 它自然回应当前的 **request**。证据: Could you bring it for reimbursement. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-053 | 基础 | 建议 8 秒 Speaker: Could you ask whether fasting is required? **Choices:** A. Then charge it at the media desk | B. download a backup | C. Certainly. call before breakfast **答案 C:** 它自然回应当前的 **request**。证据: Could you ask whether fasting is required. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-054 | 基础 | 建议 8 秒 Speaker: Could you choose one with fewer stairs? **Choices:** A. text when the stage is free | B. Certainly. take the underpass | C. Then choose a seasonal substitute **答案 B:** 它自然回应当前的 **request**。证据: Could you choose one with fewer stairs. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-055 | 基础 | 建议 8 秒 Speaker: Could you check the battery? **Choices:** A. Certainly. charge it at the media desk | B. Then hand copies out at the door | C. describe that time pattern **答案 A:** 它自然回应当前的 **request**。证据: Could you check the battery. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-056 | 基础 | 建议 8 秒 Speaker: Could you ask for local varieties? **Choices:** A. Then book morning orientation | B. drop it in the director's mailbox | C. Certainly. choose a seasonal substitute **答案 C:** 它自然回应当前的 **request**。证据: Could you ask for local varieties. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-057 | 基础 | 建议 8 秒 Speaker: Could you bring paper copies? **Choices:** A. search for a used copy | B. Certainly. hand copies out at the door | C. Then visit security in the annex **答案 B:** 它自然回应当前的 **request**。证据: Could you bring paper copies. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-058 | 基础 | 建议 8 秒 Speaker: Could you ask about beginner hours? **Choices:** A. Certainly. book morning orientation | B. Then start early and follow flags

| C. meet at the south entrance **答案 A**: 它自然回应当前的 **request**。证据: Could you ask about beginner hours. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-059 | 基础 | 建议 8 秒 Speaker: Could you check its new location? **Choices**: A. Yes. email everyone the new room | B. fill a pitcher in the staff kitchen | C. Certainly. visit security in the annex **答案 C**: 它自然回应当前的 **request**。证据: Could you check its new location. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-060 | 基础 | 建议 8 秒 Speaker: Could you check whether it is open? **Choices**: A. ask the owner to add my account | B. Certainly. start early and follow flags | C. Yes. use the freight entrance **答案 B**: 它自然回应当前的 **request**。证据: Could you check whether it is open. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-061 | 基础 | 建议 8 秒 Speaker: I just heard that the seminar room changed. **Choices**: A. Then email everyone the new room | B. Yes. join the afternoon team | C. share the later departure **答案 A**: 它自然回应当前的 **problem**。证据: just heard that the seminar room changed. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-062 | 基础 | 建议 8 秒 Speaker: I just heard that the passenger elevator is under repair. **Choices**: A. Yes. use the finance portal | B. leave it in the return bay | C. Then use the freight entrance **答案 C**: 它自然回应当前的 **problem**。证据: that the passenger elevator is under repair. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-063 | 基础 | 建议 8 秒 Speaker: I just heard that Saturday morning is full. **Choices**: A. listen to the organizer's recording | B. Then join the afternoon team | C. Yes. arrive early by the blue notebook **答案 B**: 它自然回应当前的 **problem**。证据: just heard that Saturday morning is full. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-064 | 基础 | 建议 8 秒 Speaker: I just heard that the old intranet link failed. **Choices**: A. Then use the finance portal | B. Yes. ask the technician to unlock storage | C. return it and make a new hold **答案 A**: 它自然回应当前的 **problem**。证据: heard that the old intranet link failed. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-065 | 基础 | 建议 8 秒 Speaker: I just heard that seating is unnumbered. **Choices**: A. Yes. leave an authorization at reception | B. move them to side tables | C. Then arrive early by the blue notebook **答案 C**: 它自然回应当前的 **problem**。证据: I just heard that seating is unnumbered. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-066 | 基础 | 建议 8 秒 Speaker: I just heard that the cabinet moved during renovation. **Choices**: A. use the terrace stair | B. Then ask the technician to unlock storage | C. Yes. correct them before publishing **答案 B**: 它自然回应当前的 **problem**。证据: heard that the cabinet moved during renovation. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-067 | 基础 | 建议 8 秒 Speaker: I just heard that the driver needs a signature. **Choices:** A. Then leave an authorization at reception | B. Yes. ask the kitchen directly | C. rinse one at the refill station **答案 A:** 它自然回应当前的 **problem**。证据: heard that the driver needs a signature。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-068 | 基础 | 建议 8 秒 Speaker: I just heard that automatic captions missed several speakers. **Choices:** A. Yes. book a library corner | B. enter by the river-side door | C. Then correct them before publishing **答案 C:** 它自然回应当前的 **problem**。证据: heard that automatic captions missed several speakers。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-069 | 基础 | 建议 8 秒 Speaker: I just heard that the board is out of date. **Choices:** A. bring the card itself | B. Then ask the kitchen directly | C. Yes. remove outdated contacts **答案 B:** 它自然回应当前的 **problem**。证据: that the board is out of date。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-070 | 基础 | 建议 8 秒 Speaker: I just heard that the study room is being painted. **Choices:** A. Then book a library corner | B. Yes. ask reception to hold it | C. put glass out Thursday **答案 A:** 它自然回应当前的 **problem**。证据: that the study room is being painted。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-071 | 基础 | 建议 8 秒 Speaker: I just heard that two mailing addresses are old. **Choices:** A. Yes. use the overnight return box | B. check today's recipe with staff | C. Then remove outdated contacts **答案 C:** 它自然回应当前的 **problem**。证据: heard that two mailing addresses are old。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-072 | 基础 | 建议 8 秒 Speaker: I just heard that the shop closes at five. **Choices:** A. match it to the receipt | B. Then ask reception to hold it | C. Yes. send the corrected link **答案 B:** 它自然回应当前的 **problem**。证据: heard that the shop closes at five。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-073 | 基础 | 建议 8 秒 Speaker: I just heard that another class requested it early. **Choices:** A. Then use the overnight return box | B. Yes. highlight each plan's doctors | C. reserve a ventilated shelf **答案 A:** 它自然回应当前的 **problem**。证据: heard that another class requested it early。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-074 | 基础 | 建议 8 秒 Speaker: I just heard that the link changed after the agenda. **Choices:** A. Yes. borrow one from facilities | B. use the visitor lot | C. Then send the corrected link **答案 C:** 它自然回应当前的 **problem**。证据: that the link changed after the agenda。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-075 | 基础 | 建议 8 秒 Speaker: I just heard that one plan excludes our clinic. **Choices:** A. show the original document | B. Then highlight each plan's doctors | C. Yes. start with the other group **答案 B:** 它自然回应当前的 **problem**。证据: heard that one

plan excludes our clinic. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-076 | 基础 | 建议 8 秒 Speaker: I just heard that the wall outlet is blocked. **Choices:** A. Then borrow one from facilities | B. Yes. flatten it and use downstairs | C. use the rear ramp **答案 A:** 它自然回应当前的 **problem**。证据: heard that the wall outlet is blocked. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-077 | 基础 | 建议 8 秒 Speaker: I just heard that the bus is detouring around roadwork. **Choices:** A. Yes. open the side vent | B. switch to the spare audio port | C. Then start with the other group **答案 C:** 它自然回应当前的 **problem**。证据: that the bus is detouring around roadwork. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-078 | 基础 | 建议 8 秒 Speaker: I just heard that a folded page jammed the scanner. **Choices:** A. share the trailhead pin | B. Then flatten it and use downstairs | C. Yes. come back with my card **答案 B:** 它自然回应当前的 **problem**。证据: that a folded page jammed the scanner. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-079 | 基础 | 建议 8 秒 Speaker: I just heard that the automatic vent stayed shut. **Choices:** A. Then open the side vent | B. Yes. replace them with entrance details | C. cut background, keep the quote **答案 A:** 它自然回应当前的 **problem**。证据: heard that the automatic vent stayed shut. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-080 | 基础 | 建议 8 秒 Speaker: I just heard that I must retrieve identification. **Choices:** A. Yes. call transportation | B. download it from the garage site | C. Then come back with my card **答案 C:** 它自然回应当前的 **problem**。证据: just heard that I must retrieve identification. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-081 | 基础 | 建议 8 秒 Speaker: I just heard that the directions are confusing. **Choices:** A. call before breakfast | B. Then replace them with entrance details | C. Yes. print a corrected badge **答案 B:** 它自然回应当前的 **problem**。证据: just heard that the directions are confusing. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-082 | 基础 | 建议 8 秒 Speaker: I just heard that the map lists weekdays only. **Choices:** A. Then call transportation | B. Yes. read the final three digits | C. take the underpass **答案 A:** 它自然回应当前的 **problem**。证据: heard that the map lists weekdays only. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-083 | 基础 | 建议 8 秒 Speaker: I just heard that the printer omitted my department. **Choices:** A. Yes. download a backup | B. charge it at the media desk | C. Then print a corrected badge **答案 C:** 它自然回应当前的 **problem**。证据: heard that the printer omitted my department. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-084 | 基础 | 建议 8 秒 Speaker: I just heard that two codes look alike. **Choices:** A. choose a seasonal substitute | B. Then read the final three digits | C.

Yes. text when the stage is free **答案 B**: 它自然回应当前的 **problem**。证据: just heard that two codes look alike。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-085 | 基础 | 建议 8 秒 Speaker: I just heard that publication deletes old questions. **Choices**: A. Then download a backup | B. Yes. describe that time pattern | C. hand copies out at the door **答案 A**: 它自然回应当前的 **problem**。证据: just heard that publication deletes old questions。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-086 | 基础 | 建议 8 秒 Speaker: I just heard that the conductor changed the time. **Choices**: A. Yes. drop it in the director's mailbox | B. book morning orientation | C. Then text when the stage is free **答案 C**: 它自然回应当前的 **problem**。证据: heard that the conductor changed the time。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-087 | 基础 | 建议 8 秒 Speaker: I just heard that it happens only in mornings. **Choices**: A. visit security in the annex | B. Then describe that time pattern | C. Yes. search for a used copy **答案 B**: 它自然回应当前的 **problem**。证据: heard that it happens only in mornings。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-088 | 基础 | 建议 8 秒 Speaker: I just heard that a photograph is not accepted. **Choices**: A. Then drop it in the director's mailbox | B. Yes. meet at the south entrance | C. start early and follow flags **答案 A**: 它自然回应当前的 **problem**。证据: heard that a photograph is not accepted。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-089 | 基础 | 建议 8 秒 Speaker: I just heard that only hardcover copies remain. **Choices**: A. Yes. fill a pitcher in the staff kitchen | B. Please do not. email everyone the new room | C. Then search for a used copy **答案 C**: 它自然回应当前的 **problem**。证据: just heard that only hardcover copies remain。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-090 | 基础 | 建议 8 秒 Speaker: I just heard that the north gate will be locked. **Choices**: A. Please do not. use the freight entrance | B. Then meet at the south entrance | C. Yes. ask the owner to add my account **答案 B**: 它自然回应当前的 **problem**。证据: that the north gate will be locked。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-091 | 基础 | 建议 8 秒 Speaker: I just heard that catering supplied no drinks. **Choices**: A. Then fill a pitcher in the staff kitchen | B. Yes. share the later departure | C. Please do not. join the afternoon team **答案 A**: 它自然回应当前的 **problem**。证据: just heard that catering supplied no drinks。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-092 | 基础 | 建议 8 秒 Speaker: I just heard that only members can see it. **Choices**: A. Yes. leave it in the return bay | B. Please do not. use the finance portal | C. Then ask the owner to add my account **答案 C**: 它自然回应当前的 **problem**。证据: heard that only members can see it。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-093 | 基础 | 建议 8 秒 Speaker: I just heard that the early train needs a risky transfer. **Choices:** A. Please do not. arrive early by the blue notebook | B. Then share the later departure | C. Yes. listen to the organizer's recording **答案 B:** 它自然回应当前的 **problem**。证据: the early train needs a risky transfer。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-094 | 基础 | 建议 8 秒 Speaker: I just heard that the yard gate locks at dusk. **Choices:** A. Then leave it in the return bay | B. Yes. return it and make a new hold | C. Please do not. ask the technician to unlock storage **答案 A:** 它自然回应当前的 **problem**。证据: that the yard gate locks at dusk。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-095 | 基础 | 建议 8 秒 Speaker: I just heard that the spelling is unfamiliar. **Choices:** A. Yes. move them to side tables | B. Please do not. leave an authorization at reception | C. Then listen to the organizer's recording **答案 C:** 它自然回应当前的 **problem**。证据: just heard that the spelling is unfamiliar。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-096 | 基础 | 建议 8 秒 Speaker: I just heard that someone placed a hold. **Choices:** A. Please do not. correct them before publishing | B. Then return it and make a new hold | C. Yes. use the terrace stair **答案 B:** 它自然回应当前的 **problem**。证据: just heard that someone placed a hold。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-097 | 基础 | 建议 8 秒 Speaker: I just heard that two guests cannot sit by speakers. **Choices:** A. Then move them to side tables | B. Yes. rinse one at the refill station | C. Please do not. ask the kitchen directly **答案 A:** 它自然回应当前的 **problem**。证据: that two guests cannot sit by speakers。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-098 | 基础 | 建议 8 秒 Speaker: I just heard that the public car stops below it. **Choices:** A. Yes. enter by the river-side door | B. Please do not. book a library corner | C. Then use the terrace stair **答案 C:** 它自然回应当前的 **problem**。证据: that the public car stops below it。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-099 | 基础 | 建议 8 秒 Speaker: I just heard that the vendor provides no cups. **Choices:** A. Please do not. remove outdated contacts | B. Then rinse one at the refill station | C. Yes. bring the card itself **答案 B:** 它自然回应当前的 **problem**。证据: heard that the vendor provides no cups。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-100 | 基础 | 建议 8 秒 Speaker: I just heard that the west door has steps. **Choices:** A. Then enter by the river-side door | B. Yes. put glass out Thursday | C. Please do not. ask reception to hold it **答案 A:** 它自然回应当前的 **problem**。证据: heard that the west door has steps。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-101 | 进阶 | 建议 8 秒 Speaker: I just heard that the machine needs the physical card. **Choices:** A. Yes. check today's recipe with staff | B. Please do not. use the overnight return box | C. Then bring the card itself **答案 C:** 它自然回应当前的 **problem**。

证据: that the machine needs the physical card. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-102 | 进阶 | 建议 8 秒 Speaker: I just heard that glass comes a day later. **Choices:** A. Please do not. send the corrected link | B. Then put glass out Thursday | C. Yes. match it to the receipt **答案 B:** 它自然回应当前的 **problem**。证据: heard that glass comes a day later. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-103 | 进阶 | 建议 8 秒 Speaker: I just heard that the label is from yesterday. **Choices:** A. Then check today's recipe with staff | B. Yes. reserve a ventilated shelf | C. Please do not. highlight each plan's doctors **答案 A:** 它自然回应当前的 **problem**。证据: heard that the label is from yesterday. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-104 | 进阶 | 建议 8 秒 Speaker: I just heard that two models share a checkout record. **Choices:** A. Yes. use the visitor lot | B. Please do not. borrow one from facilities | C. Then match it to the receipt **答案 C:** 它自然回应当前的 **problem**。证据: that two models share a checkout record. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-105 | 进阶 | 建议 8 秒 Speaker: I just heard that paintings travel tomorrow. **Choices:** A. Please do not. start with the other group | B. Then reserve a ventilated shelf | C. Yes. show the original document **答案 B:** 它自然回应当前的 **problem**。证据: I just heard that paintings travel tomorrow. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-106 | 进阶 | 建议 8 秒 Speaker: I just heard that the loading zone is for ambulances. **Choices:** A. Then use the visitor lot | B. Yes. use the rear ramp | C. Please do not. flatten it and use downstairs **答案 A:** 它自然回应当前的 **problem**。证据: that the loading zone is for ambulances. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-107 | 进阶 | 建议 8 秒 Speaker: I just heard that the adviser verifies expiration. **Choices:** A. Yes. switch to the spare audio port | B. Please do not. open the side vent | C. Then show the original document **答案 C:** 它自然回应当前的 **problem**。证据: just heard that the adviser verifies expiration. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-108 | 进阶 | 建议 8 秒 Speaker: I just heard that the front ramp is repaired. **Choices:** A. Please do not. come back with my card | B. Then use the rear ramp | C. Yes. share the trailhead pin **答案 B:** 它自然回应当前的 **problem**。证据: heard that the front ramp is repaired. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-109 | 进阶 | 建议 8 秒 Speaker: I just heard that the left speaker is silent. **Choices:** A. Then switch to the spare audio port | B. Yes. cut background, keep the quote | C. Please do not. replace them with entrance details **答案 A:** 它自然回应当前的 **problem**。证据: heard that the left speaker is silent. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-110 | 进阶 | 建议 8 秒 Speaker: I just heard that the field has two entrances.

Choices: A. Yes. download it from the garage site | B. Please do not. call transportation | C. Then share the trailhead pin **答案 C:** 它自然回应当前的 **problem**。证据: heard that the field has two entrances。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-111 | 进阶 | 建议 8 秒 Speaker: I just heard that the newsletter has little room. **Choices:** A. Please do not. print a corrected badge | B. Then cut background, keep the quote | C. Yes. call before breakfast **答案 B:** 它自然回应当前的 **problem**。证据: heard that the newsletter has little room。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-112 | 进阶 | 建议 8 秒 Speaker: I just heard that the app lost the record. **Choices:** A. Then download it from the garage site | B. Yes. take the underpass | C. Please do not. read the final three digits **答案 A:** 它自然回应当前的 **problem**。证据: heard that the app lost the record。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-113 | 进阶 | 建议 8 秒 Speaker: I just heard that the reminder omitted instructions. **Choices:** A. Yes. charge it at the media desk | B. Please do not. download a backup | C. Then call before breakfast **答案 C:** 它自然回应当前的 **problem**。证据: just heard that the reminder omitted instructions。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-114 | 进阶 | 建议 8 秒 Speaker: I just heard that the bridge elevator is broken. **Choices:** A. Please do not. text when the stage is free | B. Then take the underpass | C. Yes. choose a seasonal substitute **答案 B:** 它自然回应当前的 **problem**。证据: heard that the bridge elevator is broken。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-115 | 进阶 | 建议 8 秒 Speaker: I just heard that the charging cable is missing. **Choices:** A. Then charge it at the media desk | B. Yes. hand copies out at the door | C. Please do not. describe that time pattern **答案 A:** 它自然回应当前的 **problem**。证据: heard that the charging cable is missing。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-116 | 进阶 | 建议 8 秒 Speaker: I just heard that an imported flower may be late. **Choices:** A. Yes. book morning orientation | B. Please do not. drop it in the director's mailbox | C. Then choose a seasonal substitute **答案 C:** 它自然回应当前的 **problem**。证据: that an imported flower may be late。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-117 | 进阶 | 建议 8 秒 Speaker: I just heard that the display cannot read external drives. **Choices:** A. Please do not. search for a used copy | B. Then hand copies out at the door | C. Yes. visit security in the annex **答案 B:** 它自然回应当前的 **problem**。证据: that the display cannot read external drives。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-118 | 进阶 | 建议 8 秒 Speaker: I just heard that evenings are team practice. **Choices:** A. Then book morning orientation | B. Yes. start early and follow flags | C. Please do not. meet at the south entrance **答案 A:** 它自然回应当前的 **problem**。证据: just heard that evenings are team practice。B 和 C 都是完整英语, 却处理别的情境, 不能推

进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-119 | 进阶 | 建议 8 秒 Speaker: I just heard that the lobby desk is replaced. **Choices:** A. email everyone the new room | B. Please do not. fill a pitcher in the staff kitchen | C. Then visit security in the annex **答案 C:** 它自然回应当前的 **problem**。证据: heard that the lobby desk is replaced. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-120 | 进阶 | 建议 8 秒 Speaker: I just heard that high tide covers part later. **Choices:** A. Please do not. ask the owner to add my account | B. Then start early and follow flags | C. use the freight entrance **答案 B:** 它自然回应当前的 **problem**。证据: heard that high tide covers part later. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-121 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the workshop schedule? **Choices:** A. Yes. email everyone the new room | B. join the afternoon team | C. Please do not. share the later departure **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the workshop schedule. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-122 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the display boards? **Choices:** A. use the finance portal | B. Please do not. leave it in the return bay | C. Yes. use the freight entrance **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the display boards. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-123 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the garden roster? **Choices:** A. Please do not. listen to the organizer's recording | B. Yes. join the afternoon team | C. arrive early by the blue notebook **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the garden roster. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-124 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the expense form? **Choices:** A. Yes. use the finance portal | B. ask the technician to unlock storage | C. Please do not. return it and make a new hold **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the expense form. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-125 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the lecture seats? **Choices:** A. leave an authorization at reception | B. Please do not. move them to side tables | C. Yes. arrive early by the blue notebook **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the lecture seats. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-126 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the microscope? **Choices:** A. Please do not. use the terrace stair | B. Yes. ask the technician to unlock storage | C. correct them before publishing **答案 B:** 它自然回应当前的 **decision**。证据: we change our plan for the microscope. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-127 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the delivery package? **Choices:** A. Yes. leave an authorization at reception | B. ask the kitchen directly | C. Please do not. rinse one at the refill station **答案 A:** 它自然回应当前的 **decision**。

证据: change our plan for the delivery package. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-128 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the video captions? **Choices:** A. book a library corner | B. Please do not. enter by the river-side door | C. Yes. correct them before publishing **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the video captions. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-129 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the café menu? **Choices:** A. Please do not. bring the card itself | B. Yes. ask the kitchen directly | C. remove outdated contacts **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the café menu. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-130 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the project meeting? **Choices:** A. Yes. book a library corner | B. ask reception to hold it | C. Please do not. put glass out Thursday **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the project meeting. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-131 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the volunteer invitation? **Choices:** A. use the overnight return box | B. Please do not. check today's recipe with staff | C. Yes. remove outdated contacts **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the volunteer invitation. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-132 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the poster tube? **Choices:** A. Please do not. match it to the receipt | B. Yes. ask reception to hold it | C. send the corrected link **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the poster tube. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-133 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the field guide? **Choices:** A. Yes. use the overnight return box | B. highlight each plan's doctors | C. Please do not. reserve a ventilated shelf **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the field guide. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-134 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the remote meeting? **Choices:** A. borrow one from facilities | B. Please do not. use the visitor lot | C. Yes. send the corrected link **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the remote meeting. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-135 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the insurance plans? **Choices:** A. Please do not. show the original document | B. Yes. highlight each plan's doctors | C. start with the other group **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the insurance plans. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-136 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the exhibit

power? **Choices:** A. Yes. borrow one from facilities | B. flatten it and use downstairs | C. Please do not. use the rear ramp **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the exhibit power。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-137 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the tutoring session? **Choices:** A. open the side vent | B. Please do not. switch to the spare audio port | C. Yes. start with the other group **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the tutoring session。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-138 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the archive receipts? **Choices:** A. Please do not. share the trailhead pin | B. Yes. flatten it and use downstairs | C. come back with my card **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the archive receipts。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-139 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the greenhouse? **Choices:** A. Yes. open the side vent | B. replace them with entrance details | C. Please do not. cut background, keep the quote **答案 A:** 它自然回应当前的 **decision**。证据: we change our plan for the greenhouse。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-140 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the registration line? **Choices:** A. call transportation | B. Please do not. download it from the garage site | C. Yes. come back with my card **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the registration line。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-141 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the parking announcement? **Choices:** A. Please do not. call before breakfast | B. Yes. replace them with entrance details | C. print a corrected badge **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the parking announcement。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-142 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the clinic shuttle? **Choices:** A. Yes. call transportation | B. read the final three digits | C. Please do not. take the underpass **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the clinic shuttle。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-143 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the name badge? **Choices:** A. download a backup | B. Please do not. charge it at the media desk | C. Yes. print a corrected badge **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the name badge。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-144 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the sample labels? **Choices:** A. Please do not. choose a seasonal substitute | B. Yes. read the final three digits | C. text when the stage is free **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the sample labels。A 和 C 都是完整英语, 却处理别的情境, 不能推

进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-145 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the online survey? **Choices:** A. Yes. download a backup | B. describe that time pattern | C. Please do not. hand copies out at the door **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the online survey. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-146 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the orchestra rehearsal? **Choices:** A. drop it in the director's mailbox | B. Please do not. book morning orientation | C. Yes. text when the stage is free **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the orchestra rehearsal. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-147 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the apartment sink? **Choices:** A. Please do not. visit security in the annex | B. Yes. describe that time pattern | C. search for a used copy **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the apartment sink. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-148 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the release form? **Choices:** A. Yes. drop it in the director's mailbox | B. meet at the south entrance | C. Please do not. start early and follow flags **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the release form. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-149 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the paperback? **Choices:** A. fill a pitcher in the staff kitchen | B. Certainly. email everyone the new room | C. Yes. search for a used copy **答案 C:** 它自然回应当前的 **decision**。证据: we change our plan for the paperback. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-150 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the parade route? **Choices:** A. Certainly. use the freight entrance | B. Yes. meet at the south entrance | C. ask the owner to add my account **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the parade route. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-151 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the speaker water? **Choices:** A. Yes. fill a pitcher in the staff kitchen | B. share the later departure | C. Certainly. join the afternoon team **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the speaker water. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-152 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the data folder? **Choices:** A. leave it in the return bay | B. Certainly. use the finance portal | C. Yes. ask the owner to add my account **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the data folder. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-153 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the train plan? **Choices:** A. Certainly. arrive early by the blue notebook | B. Yes. share the later

departure | C. listen to the organizer's recording **答案 B**: 它自然回应当前的 **decision**。证据: change our plan for the train plan。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-154 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the borrowed ladder? **Choices**: A. Yes. leave it in the return bay | B. return it and make a new hold | C. Certainly. ask the technician to unlock storage **答案 A**: 它自然回应当前的 **decision**。证据: change our plan for the borrowed ladder。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-155 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the guest's name? **Choices**: A. move them to side tables | B. Certainly. leave an authorization at reception | C. Yes. listen to the organizer's recording **答案 C**: 它自然回应当前的 **decision**。证据: change our plan for the guest's name。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-156 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the film loan? **Choices**: A. Certainly. correct them before publishing | B. Yes. return it and make a new hold | C. use the terrace stair **答案 B**: 它自然回应当前的 **decision**。证据: change our plan for the film loan。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-157 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the seating chart? **Choices**: A. Yes. move them to side tables | B. rinse one at the refill station | C. Certainly. ask the kitchen directly **答案 A**: 它自然回应当前的 **decision**。证据: change our plan for the seating chart。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-158 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the roof garden? **Choices**: A. enter by the river-side door | B. Certainly. book a library corner | C. Yes. use the terrace stair **答案 C**: 它自然回应当前的 **decision**。证据: change our plan for the roof garden。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-159 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the tasting? **Choices**: A. Certainly. remove outdated contacts | B. Yes. rinse one at the refill station | C. bring the card itself **答案 B**: 它自然回应当前的 **decision**。证据: we change our plan for the tasting。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-160 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the museum entrance? **Choices**: A. Yes. enter by the river-side door | B. put glass out Thursday | C. Certainly. ask reception to hold it **答案 A**: 它自然回应当前的 **decision**。证据: change our plan for the museum entrance。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-161 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the transit card? **Choices**: A. check today's recipe with staff | B. Certainly. use the overnight return box | C. Yes. bring the card itself **答案 C**: 它自然回应当前的 **decision**。证据: change our plan for the transit card。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-162 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the recycling

pickup? **Choices:** A. Certainly. send the corrected link | B. Yes. put glass out Thursday | C. match it to the receipt **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the recycling pickup. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-163 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the kitchen sauce? **Choices:** A. Yes. check today's recipe with staff | B. reserve a ventilated shelf | C. Certainly. highlight each plan's doctors **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the kitchen sauce. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-164 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the tablet return? **Choices:** A. use the visitor lot | B. Certainly. borrow one from facilities | C. Yes. match it to the receipt **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the tablet return. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-165 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the art room? **Choices:** A. Certainly. start with the other group | B. Yes. reserve a ventilated shelf | C. show the original document **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the art room. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-166 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the van parking? **Choices:** A. Yes. use the visitor lot | B. use the rear ramp | C. Certainly. flatten it and use downstairs **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the van parking. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-167 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the travel briefing? **Choices:** A. switch to the spare audio port | B. Certainly. open the side vent | C. Yes. show the original document **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the travel briefing. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-168 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the accessible entrance? **Choices:** A. Certainly. come back with my card | B. Yes. use the rear ramp | C. share the trailhead pin **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the accessible entrance. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-169 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the projector sound? **Choices:** A. Yes. switch to the spare audio port | B. cut background, keep the quote | C. Certainly. replace them with entrance details **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the projector sound. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-170 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the cleanup site? **Choices:** A. download it from the garage site | B. Certainly. call transportation | C. Yes. share the trailhead pin **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the cleanup site. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因

标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-171 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the article draft? **Choices:** A. Certainly. print a corrected badge | B. Yes. cut background, keep the quote | C. call before breakfast **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the article draft. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-172 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the parking receipt? **Choices:** A. Yes. download it from the garage site | B. take the underpass | C. Certainly. read the final three digits **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the parking receipt. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-173 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the medical test? **Choices:** A. charge it at the media desk | B. Certainly. download a backup | C. Yes. call before breakfast **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the medical test. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-174 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the pedestrian route? **Choices:** A. Certainly. text when the stage is free | B. Yes. take the underpass | C. choose a seasonal substitute **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the pedestrian route. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-175 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the borrowed camera? **Choices:** A. Yes. charge it at the media desk | B. hand copies out at the door | C. Certainly. describe that time pattern **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the borrowed camera. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

Yes. choose a seasonal substitute **答案 C:** 它自然回应当前的 **decision**。证据: change our plan for the flower order. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-177 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the board agenda? **Choices:** A. Certainly. search for a used copy | B. Yes. hand copies out at the door | C. visit security in the annex **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the board agenda. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-178 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the climbing wall? **Choices:** A. Yes. book morning orientation | B. start early and follow flags | C. Certainly. meet at the south entrance **答案 A:** 它自然回应当前的 **decision**。证据: change our plan for the climbing wall. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-179 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the lost-and-found? **Choices:** A. Please do not. email everyone the new room | B. Certainly. fill a pitcher in the staff kitchen | C. Yes. visit security in the annex **答案 C:** 它自然回应当前的

decision。证据: we change our plan for the lost-and-found。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-180 | 进阶 | 建议 8 秒 Speaker: Should we change our plan for the beach trail? **Choices:** A. Certainly. ask the owner to add my account | B. Yes. start early and follow flags | C. Please do not. use the freight entrance **答案 B:** 它自然回应当前的 **decision**。证据: change our plan for the beach trail。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-181 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the workshop schedule? **Choices:** A. email everyone the new room | B. Please do not. join the afternoon team | C. Certainly. share the later departure **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the workshop schedule。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-182 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the display boards? **Choices:** A. Please do not. use the finance portal | B. Certainly. leave it in the return bay | C. use the freight entrance **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the display boards。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-183 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the garden roster? **Choices:** A. Certainly. listen to the organizer's recording | B. join the afternoon team | C. Please do not. arrive early by the blue notebook **答案 B:** 它自然回应当前的 **advice**。证据: safest next step with the garden roster。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-184 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the expense form? **Choices:** A. use the finance portal | B. Please do not. ask the technician to unlock storage | C. Certainly. return it and make a new hold **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the expense form。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-185 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the lecture seats? **Choices:** A. Please do not. leave an authorization at reception | B. Certainly. move them to side tables | C. arrive early by the blue notebook **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the lecture seats。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-186 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the microscope? **Choices:** A. Certainly. use the terrace stair | B. ask the technician to unlock storage | C. Please do not. correct them before publishing **答案 B:** 它自然回应当前的 **advice**。证据: the safest next step with the microscope。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-187 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the delivery

package? **Choices:** A. leave an authorization at reception | B. Please do not. ask the kitchen directly | C. Certainly. rinse one at the refill station **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the delivery package。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-188 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the video captions? **Choices:** A. Please do not. book a library corner | B. Certainly. enter by the river-side door | C. correct them before publishing **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the video captions。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-189 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the café menu? **Choices:** A. Certainly. bring the card itself | B. ask the kitchen directly | C. Please do not. remove outdated contacts **答案 B:** 它自然回应当前的 **advice**。证据: safest next step with the café menu。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-190 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the project meeting? **Choices:** A. book a library corner | B. Please do not. ask reception to hold it | C. Certainly. put glass out Thursday **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the project meeting。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-191 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the volunteer invitation? **Choices:** A. Please do not. use the overnight return box | B. Certainly. check today's recipe with staff | C. remove outdated contacts **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the volunteer invitation。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-192 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the poster tube? **Choices:** A. Certainly. match it to the receipt | B. ask reception to hold it | C. Please do not. send the corrected link **答案 B:** 它自然回应当前的 **advice**。证据: safest next step with the poster tube。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-193 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the field guide? **Choices:** A. use the overnight return box | B. Please do not. highlight each plan's doctors | C. Certainly. reserve a ventilated shelf **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the field guide。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-194 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the remote meeting? **Choices:** A. Please do not. borrow one from facilities | B. Certainly. use the visitor lot | C. send the corrected link **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the remote meeting。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-195 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the insurance plans? **Choices:** A. Certainly. show the original document | B. highlight each plan's doctors | C. Please do not. start with the other group **答案 B:** 它自然回应当前的

advice. 证据: safest next step with the insurance plans。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-196 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the exhibit power? **Choices:** A. borrow one from facilities | B. Please do not. flatten it and use downstairs | C. Certainly. use the rear ramp **答案 A:** 它自然回应当前的 **advice.** 证据: safest next step with the exhibit power。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-197 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the tutoring session? **Choices:** A. Please do not. open the side vent | B. Certainly. switch to the spare audio port | C. start with the other group **答案 C:** 它自然回应当前的 **advice.** 证据: safest next step with the tutoring session。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-198 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the archive receipts? **Choices:** A. Certainly. share the trailhead pin | B. flatten it and use downstairs | C. Please do not. come back with my card **答案 B:** 它自然回应当前的 **advice.** 证据: safest next step with the archive receipts。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-199 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the greenhouse? **Choices:** A. open the side vent | B. Please do not. replace them with entrance details | C. Certainly. cut background, keep the quote **答案 A:** 它自然回应当前的 **advice.** 证据: the safest next step with the greenhouse。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-200 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the registration line? **Choices:** A. Please do not. call transportation | B. Certainly. download it from the garage site | C. come back with my card **答案 C:** 它自然回应当前的 **advice.** 证据: safest next step with the registration line。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-201 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the parking announcement? **Choices:** A. Certainly. call before breakfast | B. replace them with entrance details | C. Please do not. print a corrected badge **答案 B:** 它自然回应当前的 **advice.** 证据: safest next step with the parking announcement。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-202 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the clinic shuttle? **Choices:** A. call transportation | B. Please do not. read the final three digits | C. Certainly. take the underpass **答案 A:** 它自然回应当前的 **advice.** 证据: safest next step with the clinic shuttle。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-203 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the name badge? **Choices:** A. Please do not. download a backup | B. Certainly. charge it at the media desk | C. print a corrected badge **答案 C:** 它自然回应当前的 **advice.** 证据: safest next step with the name badge。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-204 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the sample labels? **Choices:** A. Certainly. choose a seasonal substitute | B. read the final three digits | C. Please do not. text when the stage is free **答案 B:** 它自然回应当前的 **advice**。证据: safest next step with the sample labels。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-205 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the online survey? **Choices:** A. download a backup | B. Please do not. describe that time pattern | C. Certainly. hand copies out at the door **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the online survey。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-206 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the orchestra rehearsal? **Choices:** A. Please do not. drop it in the director's mailbox | B. Certainly. book morning orientation | C. text when the stage is free **答案 C:** 它自然回应当前的 **advice**。证据: safest next step with the orchestra rehearsal。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-207 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the apartment sink? **Choices:** A. Certainly. visit security in the annex | B. describe that time pattern | C. Please do not. search for a used copy **答案 B:** 它自然回应当前的 **advice**。证据: safest next step with the apartment sink。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-208 | 进阶 | 建议 8 秒 Speaker: What is the safest next step with the release form? **Choices:** A. drop it in the director's mailbox | B. Please do not. meet at the south entrance | C. Certainly. start early and follow flags **答案 A:** 它自然回应当前的 **advice**。证据: safest next step with the release form。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-256 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the exhibit power. **Choices:** A. Please do not. borrow one from facilities | B. Certainly. flatten it and use downstairs | C. Then use the rear ramp **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the exhibit power。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-257 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the tutoring session. **Choices:** A. Certainly. open the side vent | B. Then switch to the spare audio port | C. Please do not. start with the other group **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the tutoring session。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-258 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the archive receipts. **Choices:** A. Then share the trailhead pin | B. Please do not. flatten it and use downstairs | C. Certainly. come back with my card **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the archive receipts。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-259 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the greenhouse. **Choices:** A. Please do not. open the side vent | B. Certainly. replace them with entrance details | C. Then cut background, keep the quote **答案 A:** 它自然回应当前的 **warning**。证据: to ignore the change to the greenhouse。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-260 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the registration line. **Choices:** A. Certainly. call transportation | B. Then download it from the garage site | C. Please do not. come back with my card **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the registration line。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-261 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the parking announcement. **Choices:** A. Then call before breakfast | B. Please do not. replace them with entrance details | C. Certainly. print a corrected badge **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the parking announcement。A 和 C 都是完

整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-262 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the clinic shuttle. **Choices:** A. Please do not. call transportation | B. Certainly. read the final three digits | C. Then take the underpass **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the clinic shuttle. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-263 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the name badge. **Choices:** A. Certainly. download a backup | B. Then charge it at the media desk | C. Please do not. print a corrected badge **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the name badge. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-264 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the sample labels. **Choices:** A. Then choose a seasonal substitute | B. Please do not. read the final three digits | C. Certainly. text when the stage is free **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the sample labels. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-265 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the online survey. **Choices:** A. Please do not. download a backup | B. Certainly. describe that time pattern | C. Then hand copies out at the door **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the online survey. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-266 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the orchestra rehearsal. **Choices:** A. Certainly. drop it in the director's mailbox | B. Then book morning orientation | C. Please do not. text when the stage is free **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the orchestra rehearsal. A 和 B 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-267 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the apartment sink. **Choices:** A. Then visit security in the annex | B. Please do not. describe that time pattern | C. Certainly. search for a used copy **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the apartment sink. A 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-268 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the release form. **Choices:** A. Please do not. drop it in the director's mailbox | B. Certainly. meet at the south entrance | C. Then start early and follow flags **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the release form. B 和 C 都是完整英语，却处理别的情境，不能推进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-269 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the paperback. **Choices:** A. Certainly. fill a pitcher in the staff kitchen | B. Yes. email everyone the new room | C. Please do not. search for a used copy **答案 C:** 它自然回应当前的 **warn-**

ing。证据: to ignore the change to the paperback。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-270 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the parade route. **Choices:** A. Yes. use the freight entrance | B. Please do not. meet at the south entrance | C. Certainly. ask the owner to add my account **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the parade route。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-271 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the speaker water. **Choices:** A. Please do not. fill a pitcher in the staff kitchen | B. Certainly. share the later departure | C. Yes. join the afternoon team **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the speaker water。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-272 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the data folder. **Choices:** A. Certainly. leave it in the return bay | B. Yes. use the finance portal | C. Please do not. ask the owner to add my account **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the data folder。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-273 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the train plan. **Choices:** A. Yes. arrive early by the blue notebook | B. Please do not. share the later departure | C. Certainly. listen to the organizer's recording **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the train plan。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-274 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the borrowed ladder. **Choices:** A. Please do not. leave it in the return bay | B. Certainly. return it and make a new hold | C. Yes. ask the technician to unlock storage **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the borrowed ladder。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-275 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the guest's name. **Choices:** A. Certainly. move them to side tables | B. Yes. leave an authorization at reception | C. Please do not. listen to the organizer's recording **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the guest's name。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-276 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the film loan. **Choices:** A. Yes. correct them before publishing | B. Please do not. return it and make a new hold | C. Certainly. use the terrace stair **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the film loan。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-277 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the seating chart. **Choices:** A. Please do not. move them to side tables | B. Certainly. rinse one

at the refill station | C. Yes. ask the kitchen directly **答案 A**: 它自然回应当前的 **warning**。证据: ignore the change to the seating chart。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-278 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the roof garden. **Choices**: A. Certainly. enter by the river-side door | B. Yes. book a library corner | C. Please do not. use the terrace stair **答案 C**: 它自然回应当前的 **warning**。证据: ignore the change to the roof garden。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-279 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the tasting. **Choices**: A. Yes. remove outdated contacts | B. Please do not. rinse one at the refill station | C. Certainly. bring the card itself **答案 B**: 它自然回应当前的 **warning**。证据: to ignore the change to the tasting。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-280 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the museum entrance. **Choices**: A. Please do not. enter by the river-side door | B. Certainly. put glass out Thursday | C. Yes. ask reception to hold it **答案 A**: 它自然回应当前的 **warning**。证据: ignore the change to the museum entrance。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-281 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the transit card. **Choices**: A. Certainly. check today's recipe with staff | B. Yes. use the overnight return box | C. Please do not. bring the card itself **答案 C**: 它自然回应当前的 **warning**。证据: ignore the change to the transit card。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-282 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the recycling pickup. **Choices**: A. Yes. send the corrected link | B. Please do not. put glass out Thursday | C. Certainly. match it to the receipt **答案 B**: 它自然回应当前的 **warning**。证据: ignore the change to the recycling pickup。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-283 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the kitchen sauce. **Choices**: A. Please do not. check today's recipe with staff | B. Certainly. reserve a ventilated shelf | C. Yes. highlight each plan's doctors **答案 A**: 它自然回应当前的 **warning**。证据: ignore the change to the kitchen sauce。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-284 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the tablet return. **Choices**: A. Certainly. use the visitor lot | B. Yes. borrow one from facilities | C. Please do not. match it to the receipt **答案 C**: 它自然回应当前的 **warning**。证据: ignore the change to the tablet return。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-285 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the art room. **Choices**: A. Yes. start with the other group | B. Please do not. reserve a ventilated shelf | C. Certainly. show the original document **答案 B**: 它自然回应当前的 **warning**。证据: ignore the change to the art room。A 和 C 都是完整英语, 却处理别的情境, 不能推

进此处沟通；错因标签 L2 话语功能；精听：功能词重音；复述：用自己的场景说出回应。

LCR-286 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the van parking. **Choices:** A. Please do not. use the visitor lot | B. Certainly. use the rear ramp | C. Yes. flatten it and use downstairs **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the van parking. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-287 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the travel briefing. **Choices:** A. Certainly. switch to the spare audio port | B. Yes. open the side vent | C. Please do not. show the original document **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the travel briefing. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-288 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the accessible entrance. **Choices:** A. Yes. come back with my card | B. Please do not. use the rear ramp | C. Certainly. share the trailhead pin **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the accessible entrance. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-289 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the projector sound. **Choices:** A. Please do not. switch to the spare audio port | B. Certainly. cut background, keep the quote | C. Yes. replace them with entrance details **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the projector sound. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-290 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the cleanup site. **Choices:** A. Certainly. download it from the garage site | B. Yes. call transportation | C. Please do not. share the trailhead pin **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the cleanup site. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-291 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the article draft. **Choices:** A. Yes. print a corrected badge | B. Please do not. cut background, keep the quote | C. Certainly. call before breakfast **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the article draft. A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-292 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the parking receipt. **Choices:** A. Please do not. download it from the garage site | B. Certainly. take the underpass | C. Yes. read the final three digits **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the parking receipt. B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-293 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the medical test. **Choices:** A. Certainly. charge it at the media desk | B. Yes. download a backup | C. Please do not. call before breakfast **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the medical test. A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-294 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the pedestrian route. **Choices:** A. Yes. text when the stage is free | B. Please do not. take the underpass | C. Certainly. choose a seasonal substitute **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the pedestrian route。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-295 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the borrowed camera. **Choices:** A. Please do not. charge it at the media desk | B. Certainly. hand copies out at the door | C. Yes. describe that time pattern **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the borrowed camera。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-296 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the flower order. **Choices:** A. Certainly. book morning orientation | B. Yes. drop it in the director's mailbox | C. Please do not. choose a seasonal substitute **答案 C:** 它自然回应当前的 **warning**。证据: ignore the change to the flower order。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-297 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the board agenda. **Choices:** A. Yes. search for a used copy | B. Please do not. hand copies out at the door | C. Certainly. visit security in the annex **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the board agenda。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-298 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the climbing wall. **Choices:** A. Please do not. book morning orientation | B. Certainly. start early and follow flags | C. Yes. meet at the south entrance **答案 A:** 它自然回应当前的 **warning**。证据: ignore the change to the climbing wall。B 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-299 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the lost-and-found. **Choices:** A. Then email everyone the new room | B. Yes. fill a pitcher in the staff kitchen | C. Please do not. visit security in the annex **答案 C:** 它自然回应当前的 **warning**。证据: to ignore the change to the lost-and-found。A 和 B 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

LCR-300 | 挑战 | 建议 8 秒 Speaker: I was going to ignore the change to the beach trail. **Choices:** A. Yes. ask the owner to add my account | B. Please do not. start early and follow flags | C. Then use the freight entrance **答案 B:** 它自然回应当前的 **warning**。证据: ignore the change to the beach trail。A 和 C 都是完整英语, 却处理别的情境, 不能推进此处沟通; 错因标签 L2 话语功能; 精听: 功能词重音; 复述: 用自己的场景说出回应。

16.2 B. Conversation / Announcement / Academic Talk (160 篇)

训练规则：首遍只听，不暂停；二遍用脚本核对问题—变化—方案或概念—例子—结论；三遍影子跟读漏掉的意群。以下 LT 编号供第 19 章答案索引使用。

LT-001 | Conversation | Media desk recorder

TTS Script Student: I was planning to pick up a recorder for an off-campus interview. The problem is that the desk closes before the student's class ends. **Staff Member:** Rather than canceling, you can place the recorder in an east-entrance locker. **Student:** I will watch for the email code, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. place the recorder in an east-entrance locker. B. the desk closes before the student's class ends. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. watch for the email code. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the desk closes before the student's class ends”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“place the recorder in an east-entrance locker” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “watch for the email code”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点：**exception to a pickup rule。**精听：**圈出 but / although / rather than 后的信息;**语用/语音：**听出求助和确认的重音;**复述：**用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-002 | Conversation | Chemistry make-up lab

TTS Script Student: Could you help me? I hoped to attend a make-up experiment, although the only open bench overlaps with work hours. **Staff Member:** There is an alternative: join the early supervised session. **Student:** So my next move is to sign up before 6 p.m.. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. join the early supervised session. B. the only open bench overlaps with work hours. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. sign up before 6 p.m.. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the only open bench overlaps with work hours”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“join the early supervised session” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “sign up before 6 p.m.”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点：**schedule negotiation。**精听：**圈出 but / although / rather than 后的信息;**语用/语音：**听出求助和确认的重音;**复述：**用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-003 | Conversation | Residence-hall key

TTS Script Student: I have a question about residence-hall key. I need to replace a lost room key, yet the office needs a photo ID that is in the locked room. **Staff Member:** In this case, ask campus security to verify identity. **Student:** All right, I will visit security before housing. **Staff Member:** Good. That is the practical option today.

Questions 1. What problem does the student face? A. ask campus security to verify identity. B. the office needs a photo ID that is in the locked room. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. visit security before housing. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the office needs a photo ID that is in the locked room”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“ask campus security to verify identity” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “visit security before housing”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** policy exception。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-004 | Conversation | Career-center mock interview

TTS Script Student: Hi. I need to book a practice interview, but all individual appointments are filled. **Staff Member:** I understand. We can join a small-group session and submit questions first. **Student:** Then I should upload two questions tonight? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. join a small-group session and submit questions first. B. all individual appointments are filled. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. upload two questions tonight. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “all individual appointments are filled”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“join a small-group session and submit questions first” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “upload two questions tonight”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** alternative service。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-005 | Conversation | Language lab headset

TTS Script Student: I was planning to borrow a noise-canceling headset. The problem is that the preferred model is out for repair. **Staff Member:** Rather than canceling, you can use the wired backup at a quieter station. **Student:** I will reserve station fourteen, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. use the wired backup at a quieter station. B. the preferred model is out for repair. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. reserve station fourteen. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the preferred model is out for repair”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the wired backup at a quieter station” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “reserve station fourteen”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** trade-off。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

步”在 30 秒说完。

LT-006 | Conversation | Library study carrel

TTS Script Student: Could you help me? I hoped to extend a carrel reservation, although another student is waiting for it. **Staff Member:** There is an alternative: move to a shared research table. **Student:** So my next move is to collect books before noon. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. move to a shared research table. B. another student is waiting for it. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. collect books before noon. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “another student is waiting for it”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“move to a shared research table” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “collect books before noon”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: fairness policy。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-007 | Conversation | Field-trip waiver

TTS Script Student: I have a question about field-trip waiver. I need to submit a waiver for a geology trip, yet the signature page was scanned too faintly. **Staff Member:** In this case, bring the original to the department office. **Student:** All right, I will deliver it by Thursday. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. bring the original to the department office. B. the signature page was scanned too faintly. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. deliver it by Thursday. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the signature page was scanned too faintly”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“bring the original to the department office” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “deliver it by Thursday”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: document verification。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-008 | Conversation | Campus bike shop

TTS Script Student: Hi. I need to repair a loose bicycle chain, but the mechanic cannot finish before the evening commute. **Staff Member:** I understand. We can loan a basic replacement bike. **Student:** Then I should return it by 8 a.m.? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. loan a basic replacement bike. B. the mechanic cannot finish before the evening commute. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. return it by 8 a.m.. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options.

Answer audit: 1 **B**—证据 “the mechanic cannot finish before the evening commute”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“loan a basic replacement bike” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “return it by 8 a.m.”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** temporary workaround。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-009 | Conversation | Student clinic refill

TTS Script Student: I was planning to request a medication refill. The problem is that the clinic requires a brief review appointment. **Staff Member:** Rather than canceling, you can schedule a phone consultation. **Student:** I will choose a time online, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. schedule a phone consultation. B. the clinic requires a brief review appointment. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. choose a time online. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the clinic requires a brief review appointment”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“schedule a phone consultation” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “choose a time online”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** health-service procedure。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-010 | Conversation | Theater costume room

TTS Script Student: Could you help me? I hoped to borrow a jacket for rehearsal, although the requested jacket is reserved for a performance. **Staff Member:** There is an alternative: alter an available neutral jacket. **Student:** So my next move is to come for fitting at four. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. alter an available neutral jacket. B. the requested jacket is reserved for a performance. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. come for fitting at four. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the requested jacket is reserved for a performance”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“alter an available neutral jacket” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “come for fitting at four”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** resource constraint。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-011 | Conversation | Research-poster printer

TTS Script Student: I have a question about research-poster printer. I need to print a large poster, yet the color printer has a blocked nozzle. **Staff Member:** In this case, use the downtown print partner with a voucher. **Student:** All right, I will send the PDF by 3 p.m.. **Staff Member:** Good. That is the practical option today. **Questions** 1. What

problem does the student face? A. use the downtown print partner with a voucher. B. the color printer has a blocked nozzle. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. send the PDF by 3 p.m.. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the color printer has a blocked nozzle”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the downtown print partner with a voucher” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “send the PDF by 3 p.m.”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** equipment contingency。**精听:** 圈出 but / although / rather than 后的信息; **语用/语音:** 听出求助和确认的重音; **复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-012 | Conversation | Writing-center appointment

TTS Script Student: Hi. I need to meet a writing tutor, but the draft is too long for the booked slot. **Staff Member:** I understand. We can focus on the thesis and one body paragraph. **Student:** Then I should bring a reverse outline? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. focus on the thesis and one body paragraph. B. the draft is too long for the booked slot. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. bring a reverse outline. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the draft is too long for the booked slot”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“focus on the thesis and one body paragraph” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “bring a reverse outline”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** scope management。**精听:** 圈出 but / although / rather than 后的信息; **语用/语音:** 听出求助和确认的重音; **复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-013 | Conversation | International office

TTS Script Student: I was planning to confirm travel-document pickup. The problem is that the passport package arrived but is not logged yet. **Staff Member:** Rather than canceling, you can call after the afternoon delivery check. **Student:** I will keep the pickup receipt, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. call after the afternoon delivery check. B. the passport package arrived but is not logged yet. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. keep the pickup receipt. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the passport package arrived but is not logged yet”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“call after the afternoon delivery check” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “keep the pickup receipt”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** process timing。**精听:** 圈出 but / although / rather than 后的信息; **语用/语音:** 听

出求助和确认的重音；**复述**：用“原计划—限制—方案—下一步”在 30 秒说完。

LT-014 | Conversation | Music practice room

TTS Script Student: Could you help me? I hoped to reserve a piano room, although the acoustic rooms are used for an audition. **Staff Member:** There is an alternative: use an electronic-keyboard room with headphones. **Student:** So my next move is to check in at the kiosk. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. use an electronic-keyboard room with headphones. B. the acoustic rooms are used for an audition. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. check in at the kiosk. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the acoustic rooms are used for an audition”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use an electronic-keyboard room with headphones” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “check in at the kiosk”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: substitution。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用“原计划—限制—方案—下一步”在 30 秒说完。

LT-015 | Conversation | Art-supply checkout

TTS Script Student: I have a question about art-supply checkout. I need to borrow a portfolio case, yet the student's account still shows an overdue ruler. **Staff Member:** In this case, return the ruler before checking out the case. **Student:** All right, I will use the return slot first. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. return the ruler before checking out the case. B. the student's account still shows an overdue ruler. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. use the return slot first. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the student's account still shows an overdue ruler”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“return the ruler before checking out the case” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “use the return slot first”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: account hold。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用“原计划—限制—方案—下一步”在 30 秒说完。

LT-016 | Conversation | Campus farm shift

TTS Script Student: Hi. I need to switch an animal-care shift, but the requested morning shift needs a trained feeder. **Staff Member:** I understand. We can take the afternoon cleaning shift and train next week. **Student:** Then I should confirm in the volunteer app? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. take the afternoon cleaning shift and train next week. B. the requested morning shift needs a trained feeder. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most

likely do next? A. confirm in the volunteer app. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the requested morning shift needs a trained feeder”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“take the afternoon cleaning shift and train next week” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “confirm in the volunteer app”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: qualification。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-017 | Conversation | Data visualization workshop

TTS Script Student: I was planning to attend a computer workshop. The problem is that the software license expires on the lab computers. **Staff Member:** Rather than canceling, you can bring a laptop with the trial version installed. **Student:** I will download the installer beforehand, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. bring a laptop with the trial version installed. B. the software license expires on the lab computers. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. download the installer beforehand. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the software license expires on the lab computers”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“bring a laptop with the trial version installed” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “download the installer beforehand”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: technical preparation。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-018 | Conversation | Dorm laundry card

TTS Script Student: Could you help me? I hoped to add funds to a laundry card, although the kiosk is offline after a network update. **Staff Member:** There is an alternative: load funds through the housing website. **Student:** So my next move is to save the confirmation screen. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. load funds through the housing website. B. the kiosk is offline after a network update. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. save the confirmation screen. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the kiosk is offline after a network update”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“load funds through the housing website” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “save the confirmation screen”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: digital alternative。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-019 | Conversation | Environmental club van

TTS Script Student: I have a question about environmental club van. I need to re-

serve the club van, yet the van is assigned to a recycling drive. **Staff Member:** In this case, use a cargo bike for the smaller delivery. **Student:** All right, I will measure the boxes first. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. use a cargo bike for the smaller delivery. B. the van is assigned to a recycling drive. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. measure the boxes first. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the van is assigned to a recycling drive”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use a cargo bike for the smaller delivery” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “measure the boxes first”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: capacity planning。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-020 | Conversation | Alumni-panel seating

TTS Script Student: Hi. I need to attend an alumni panel, but the accessible seating section is full. **Staff Member:** I understand. We can reserve a companion seat in the adjacent row. **Student:** Then I should arrive fifteen minutes early? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. reserve a companion seat in the adjacent row. B. the accessible seating section is full. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. arrive fifteen minutes early. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the accessible seating section is full”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“reserve a companion seat in the adjacent row” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “arrive fifteen minutes early”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: access accommodation。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-021 | Conversation | Campus mailroom

TTS Script Student: I was planning to send a fragile instrument. The problem is that the mailroom lacks the required foam inserts. **Staff Member:** Rather than canceling, you can buy packing material at the supply store next door. **Student:** I will return with the receipt, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. buy packing material at the supply store next door. B. the mailroom lacks the required foam inserts. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. return with the receipt. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the mailroom lacks the required foam inserts”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2

B—“buy packing material at the supply store next door” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “return with the receipt”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: shipping requirement。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-022 | Conversation | Graduate seminar reading

TTS Script Student: Could you help me? I hoped to obtain a chapter scan, although the electronic copy has a missing page. **Staff Member**: There is an alternative: request a scan from reserve staff. **Student**: So my next move is to leave the book title at the desk. **Staff Member**: Yes; do that first. **Questions** 1. What problem does the student face? A. request a scan from reserve staff. B. the electronic copy has a missing page. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. leave the book title at the desk. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the electronic copy has a missing page”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“request a scan from reserve staff” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “leave the book title at the desk”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: source repair。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-023 | Conversation | Fitness-center orientation

TTS Script Student: I have a question about fitness-center orientation. I need to join a climbing orientation, yet the waiver has an emergency contact error. **Staff Member**: In this case, correct it at the membership counter. **Student**: All right, I will bring the confirmation email. **Staff Member**: Good. That is the practical option today. **Questions** 1. What problem does the student face? A. correct it at the membership counter. B. the waiver has an emergency contact error. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. bring the confirmation email. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the waiver has an emergency contact error”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“correct it at the membership counter” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “bring the confirmation email”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: form correction。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-024 | Conversation | Botany greenhouse visit

TTS Script Student: Hi. I need to visit a rare-plant room, but the humidity door is closed during misting. **Staff Member**: I understand. We can wait for the fifteen-minute cycle to finish. **Student**: Then I should check the timer display? **Staff Member**: Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. wait for the fifteen-minute cycle to finish. B. the humidity door is closed during misting. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past

event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. check the timer display. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the humidity door is closed during misting”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“wait for the fifteen-minute cycle to finish” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “check the timer display”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** access timing。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-025 | Conversation | Student newspaper desk

TTS Script Student: I was planning to submit a photo essay. The problem is that the image file lacks photographer credits. **Staff Member:** Rather than canceling, you can add captions with names and permissions. **Student:** I will resubmit through the editor portal, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. add captions with names and permissions. B. the image file lacks photographer credits. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. resubmit through the editor portal. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the image file lacks photographer credits”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“add captions with names and permissions” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “resubmit through the editor portal”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** attribution。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-026 | Conversation | Astronomy-night transport

TTS Script Student: Could you help me? I hoped to ride to an observatory event, although the last shuttle leaves before the telescope session ends. **Staff Member:** There is an alternative: join the carpool list after the talk. **Student:** So my next move is to write a contact number. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. join the carpool list after the talk. B. the last shuttle leaves before the telescope session ends. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. write a contact number. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the last shuttle leaves before the telescope session ends”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“join the carpool list after the talk” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “write a contact number”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** return transport。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-027 | Conversation | Disability-resource test room

TTS Script Student: I have a question about disability-resource test room. I need to

book a quieter test room, yet the room's screen reader is being updated. **Staff Member:** In this case, use a nearby room with a personal headset. **Student:** All right, I will arrive early for setup. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. use a nearby room with a personal headset. B. the room's screen reader is being updated. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. arrive early for setup. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the room's screen reader is being updated”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use a nearby room with a personal headset” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “arrive early for setup”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: access technology. 精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-028 | Conversation | Campus café catering

TTS Script Student: Hi. I need to order tea for a club meeting, but the supplier cannot deliver glass dispensers. **Staff Member:** I understand. We can use insulated dispensers from catering storage. **Student:** Then I should confirm the quantity by noon? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. use insulated dispensers from catering storage. B. the supplier cannot deliver glass dispensers. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. confirm the quantity by noon. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the supplier cannot deliver glass dispensers”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use insulated dispensers from catering storage” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “confirm the quantity by noon”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: vendor substitution. 精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-029 | Conversation | Film-society license

TTS Script Student: I was planning to screen a documentary. The problem is that the public-performance license is pending. **Staff Member:** Rather than canceling, you can hold a discussion preview instead. **Student:** I will announce that viewing is postponed, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. hold a discussion preview instead. B. the public-performance license is pending. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. announce that viewing is postponed. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the public-performance license is pending”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“hold a discussion preview

instead” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “announce that viewing is postponed”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: legal authorization。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-030 | Conversation | Pool-lane reservation

TTS Script Student: Could you help me? I hoped to reserve a swim lane, although a school group has the shallow lanes. **Staff Member**: There is an alternative: use a deep lane after a safety check. **Student**: So my next move is to ask the lifeguard for placement. **Staff Member**: Yes; do that first. **Questions** 1. What problem does the student face? A. use a deep lane after a safety check. B. a school group has the shallow lanes. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. ask the lifeguard for placement. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “a school group has the shallow lanes”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use a deep lane after a safety check” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “ask the lifeguard for placement”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: safety adjustment。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-031 | Conversation | Geography map scanner

TTS Script Student: I have a question about geography map scanner. I need to scan a folded city map, yet the flatbed scanner is too small. **Staff Member**: In this case, use the overhead camera station. **Student**: All right, I will book the twenty-minute slot. **Staff Member**: Good. That is the practical option today. **Questions** 1. What problem does the student face? A. use the overhead camera station. B. the flatbed scanner is too small. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. book the twenty-minute slot. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the flatbed scanner is too small”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the overhead camera station” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “book the twenty-minute slot”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: equipment fit。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-032 | Conversation | Lab safety goggles

TTS Script Student: Hi. I need to replace scratched goggles, but the supply cabinet is counted weekly. **Staff Member**: I understand. We can borrow a labeled pair from the teaching cart. **Student**: Then I should return it before Friday? **Staff Member**: Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. borrow a labeled pair from the teaching cart. B. the supply cabinet is counted weekly. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past

event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. return it before Friday. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the supply cabinet is counted weekly”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“borrow a labeled pair from the teaching cart” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “return it before Friday”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: inventory control。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-033 | Conversation | Community-garden compost

TTS Script Student: I was planning to collect compost for seedlings. The problem is that the main pile is still heating. **Staff Member:** Rather than canceling, you can use finished compost from the covered bin. **Student:** I will bring a smaller bucket, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. use finished compost from the covered bin. B. the main pile is still heating. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. bring a smaller bucket. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the main pile is still heating”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use finished compost from the covered bin” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “bring a smaller bucket”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: material readiness。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-034 | Conversation | Public-speaking practice

TTS Script Student: Could you help me? I hoped to rehearse in an auditorium, although the stage microphones are unavailable during maintenance. **Staff Member:** There is an alternative: practice with the portable speaker in room 206. **Student:** So my next move is to check out the speaker key. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. practice with the portable speaker in room 206. B. the stage microphones are unavailable during maintenance. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. check out the speaker key. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the stage microphones are unavailable during maintenance”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“practice with the portable speaker in room 206” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “check out the speaker key”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: audio backup。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-035 | Conversation | Student legal clinic

TTS Script Student: I have a question about student legal clinic. I need to ask about

a lease notice, yet the walk-in adviser is at court that morning. **Staff Member:** In this case, leave documents for an afternoon callback. **Student:** All right, I will write a clear contact number. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. leave documents for an afternoon callback. B. the walk-in adviser is at court that morning. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. write a clear contact number. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the walk-in adviser is at court that morning”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“leave documents for an afternoon callback” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “write a clear contact number”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: service availability。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-036 | Conversation | Computer-help desk

TTS Script Student: Hi. I need to recover an account password, but the student cannot receive text codes abroad. **Staff Member:** I understand. We can verify identity in a video appointment. **Student:** Then I should upload a passport scan securely? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. verify identity in a video appointment. B. the student cannot receive text codes abroad. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. upload a passport scan securely. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the student cannot receive text codes abroad”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“verify identity in a video appointment” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “upload a passport scan securely”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: identity verification。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-037 | Conversation | Museum-studies archive

TTS Script Student: I was planning to view a fragile diary. The problem is that the item is in conservation work. **Staff Member:** Rather than canceling, you can consult a high-resolution facsimile today. **Student:** I will request original access next month, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. consult a high-resolution facsimile today. B. the item is in conservation work. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. request original access next month. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the item is in conservation work”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“consult a high-resolution facsimile today” 解

决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “request original access next month”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: preservation limit。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-038 | Conversation | Campus choir music

TTS Script Student: Could you help me? I hoped to collect annotated sheet music, although the conductor kept copies for a sectional rehearsal. **Staff Member**: There is an alternative: download the marked digital part. **Student**: So my next move is to print it double-sided. **Staff Member**: Yes; do that first. **Questions** 1. What problem does the student face? A. download the marked digital part. B. the conductor kept copies for a sectional rehearsal. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. print it double-sided. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the conductor kept copies for a sectional rehearsal”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“download the marked digital part” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “print it double-sided”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: distribution change。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-039 | Conversation | Entrepreneurship pitch room

TTS Script Student: I have a question about entrepreneurship pitch room. I need to practice a product pitch, yet the large screen is booked for a conference. **Staff Member**: In this case, use a smaller room and test the slide font. **Student**: All right, I will reserve room 118. **Staff Member**: Good. That is the practical option today. **Questions** 1. What problem does the student face? A. use a smaller room and test the slide font. B. the large screen is booked for a conference. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. reserve room 118. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the large screen is booked for a conference”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use a smaller room and test the slide font” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “reserve room 118”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: presentation adaptation。**精听**: 圈出 but / although / rather than 后的信息; **语用/语音**: 听出求助和确认的重音; **复述**: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-040 | Conversation | Library interloan

TTS Script Student: Hi. I need to renew an interlibrary book, but the lending library recalled it. **Staff Member**: I understand. We can return it locally and request another copy. **Student**: Then I should place the new request today? **Staff Member**: Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. return it locally and request another copy. B. the lending library recalled it. C. The service is permanently canceled. D. The student already completed

the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. place the new request today. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the lending library recalled it”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“return it locally and request another copy” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “place the new request today”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** external rule。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-041 | Conversation | Campus shuttle pass

TTS Script Student: I was planning to replace a demagnetized shuttle pass. The problem is that the card printer is waiting for a ribbon delivery. **Staff Member:** Rather than canceling, you can obtain a temporary paper pass. **Student:** I will show it with photo ID, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. obtain a temporary paper pass. B. the card printer is waiting for a ribbon delivery. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. show it with photo ID. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the card printer is waiting for a ribbon delivery”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“obtain a temporary paper pass” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “show it with photo ID”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** temporary credential。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-042 | Conversation | Ceramics kiln slot

TTS Script Student: Could you help me? I hoped to fire a small sculpture, although the kiln is reserved for a glaze test. **Staff Member:** There is an alternative: use the next low-fire cycle. **Student:** So my next move is to label the piece by Wednesday. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. use the next low-fire cycle. B. the kiln is reserved for a glaze test. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. label the piece by Wednesday. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the kiln is reserved for a glaze test”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the next low-fire cycle” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “label the piece by Wednesday”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点:** production sequence。**精听:** 圈出 but / although / rather than 后的信息;**语用/语音:** 听出求助和确认的重音;**复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-043 | Conversation | Engineering tool cage

TTS Script Student: I have a question about engineering tool cage. I need to borrow a torque wrench, yet the required size is checked out. **Staff Member:** In this case,

reserve it for the next morning. **Student:** All right, I will use a calibrated alternative only if approved. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. reserve it for the next morning. B. the required size is checked out. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. use a calibrated alternative only if approved. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the required size is checked out”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“reserve it for the next morning” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “use a calibrated alternative only if approved”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: tool availability。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-044 | Conversation | Student radio studio

TTS Script Student: Hi. I need to record an interview, but the quiet booth has ventilation repairs. **Staff Member:** I understand. We can use the rehearsal booth after its class. **Student:** Then I should bring the portable pop filter? **Staff Member:** Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. use the rehearsal booth after its class. B. the quiet booth has ventilation repairs. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. bring the portable pop filter. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the quiet booth has ventilation repairs”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the rehearsal booth after its class” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “bring the portable pop filter”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: noise management。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-045 | Conversation | Urban-planning site visit

TTS Script Student: I was planning to join a neighborhood walk. The problem is that rain closed the river path. **Staff Member:** Rather than canceling, you can start at the transit plaza and shorten the route. **Student:** I will download the revised map, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. start at the transit plaza and shorten the route. B. rain closed the river path. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. download the revised map. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “rain closed the river path”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“start at the transit plaza and shorten the route” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “download the revised map”; B/C/D 反转或

放大信息 (L4 逻辑, 35 秒)。**训练重点**: weather contingency。**精听**: 圈出 but / although / rather than 后的信息;**语用/语音**: 听出求助和确认的重音;**复述**: 用“原计划—限制—方案—下一步”在 30 秒说完。

LT-046 | Conversation | Peer-mentoring office

TTS Script Student: Could you help me? I hoped to meet a first-year mentor, although the assigned mentor is attending training. **Staff Member**: There is an alternative: meet a trained substitute who shares the same major. **Student**: So my next move is to read the profile first. **Staff Member**: Yes; do that first. **Questions** 1. What problem does the student face? A. meet a trained substitute who shares the same major. B. the assigned mentor is attending training. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the assigned mentor is attending training”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“meet a trained substitute who shares the same major” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “read the profile first”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: continuity support。**精听**: 圈出 but / although / rather than 后的信息;**语用/语音**: 听出求助和确认的重音;**复述**: 用“原计划—限制—方案—下一步”在 30 秒说完。

LT-047 | Conversation | Campus pharmacy pickup

TTS Script Student: I have a question about campus pharmacy pickup. I need to collect a refrigerated item, yet the counter needs ten minutes to prepare it. **Staff Member**: In this case, wait in the consultation area. **Student**: All right, I will bring the order number. **Staff Member**: Good. That is the practical option today. **Questions** 1. What problem does the student face? A. wait in the consultation area. B. the counter needs ten minutes to prepare it. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. bring the order number. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit**: 1 **B**—证据 “the counter needs ten minutes to prepare it”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“wait in the consultation area” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “bring the order number”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。**训练重点**: preparation time。**精听**: 圈出 but / although / rather than 后的信息;**语用/语音**: 听出求助和确认的重音;**复述**: 用“原计划—限制—方案—下一步”在 30 秒说完。

LT-048 | Conversation | Sustainability repair café

TTS Script Student: Hi. I need to bring a lamp for repair, but the volunteer electrician only handles appliances before noon. **Staff Member**: I understand. We can leave the lamp for an afternoon inspection. **Student**: Then I should attach a fault note? **Staff Member**: Exactly. Please follow that step before you come back. **Questions** 1. What problem does the student face? A. leave the lamp for an afternoon inspection. B. the volunteer electrician only handles appliances before noon. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the

alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. attach a fault note. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the volunteer electrician only handles appliances before noon”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“leave the lamp for an afternoon inspection” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “attach a fault note”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: specialist timing。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-049 | Conversation | Study-abroad photo session

TTS Script Student: I was planning to take an ID photo. The problem is that the photographer's backdrop is being replaced. **Staff Member:** Rather than canceling, you can use the temporary booth in the travel office. **Student:** I will check the lighting before submission, then. **Staff Member:** That will keep the arrangement on track. **Questions** 1. What problem does the student face? A. use the temporary booth in the travel office. B. the photographer's backdrop is being replaced. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. check the lighting before submission. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the photographer's backdrop is being replaced”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“use the temporary booth in the travel office” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “check the lighting before submission”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: quality check。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-050 | Conversation | Student-union locker

TTS Script Student: Could you help me? I hoped to rent a short-term locker, although the payment terminal rejects contactless cards. **Staff Member:** There is an alternative: pay with a chip card at the information desk. **Student:** So my next move is to keep the printed receipt. **Staff Member:** Yes; do that first. **Questions** 1. What problem does the student face? A. pay with a chip card at the information desk. B. the payment terminal rejects contactless cards. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. keep the printed receipt. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the payment terminal rejects contactless cards”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“pay with a chip card at the information desk” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “keep the printed receipt”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。训练重点: payment method。精听: 圈出 but / although / rather than 后的信息; 语用/语音: 听出求助和确认的重音; 复述: 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-051 | Conversation | Marine-biology sample freezer

TTS Script Student: I have a question about marine-biology sample freezer. I need to store a sample overnight, yet the assigned freezer has a temperature alarm. **Staff Member:** In this case, move it to the backup freezer with staff approval. **Student:** All right, I will log the transfer time. **Staff Member:** Good. That is the practical option today. **Questions** 1. What problem does the student face? A. move it to the backup freezer with staff approval. B. the assigned freezer has a temperature alarm. C. The service is permanently canceled. D. The student already completed the task. 2. Why mention the alternative? A. To describe a past event. B. To offer a workable solution. C. To refuse all help. D. To change the student's major. 3. What will the student most likely do next? A. log the transfer time. B. Ignore the stated limit. C. Repeat the request unchanged. D. Cancel without checking options. **Answer audit:** 1 **B**—证据 “the assigned freezer has a temperature alarm”; A 是方案, C/D 无依据 (L3 主线, 35 秒)。2 **B**—“move it to the backup freezer with staff approval” 解决限制; A/C/D 偏离目的 (L2 功能, 35 秒)。3 **A**—学生确认 “log the transfer time”; B/C/D 反转或放大信息 (L4 逻辑, 35 秒)。 **训练重点:** chain of custody. **精听:** 圈出 but / although / rather than 后的信息; **语用/语音:** 听出求助和确认的重音; **复述:** 用 “原计划—限制—方案—下一步” 在 30 秒说完。

LT-052 | Announcement | Library elevator maintenance

TTS Script This is an update for library visitors about Library elevator maintenance. the north elevator closes from Tuesday to Thursday, since technicians are replacing its door sensor. To participate smoothly, use the south elevator or request staff assistance. Please note that the historic reading room remains open. **Questions** 1. What is the main announcement? A. the north elevator closes from Tuesday to Thursday. B. technicians are replacing its door sensor. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. technicians are replacing its door sensor. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. use the south elevator or request staff assistance. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“the north elevator closes from Tuesday to Thursday” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “technicians are replacing its door sensor”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “use the south elevator or request staff assistance”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。 **训练重点:** 目的—受影响者—变化—行动。 **精听:** 将原因和行动分别记为 因为、所以做; **语用/语音:** 辨认通知中降调的关键信息; **复述:** 用两句说明变化及例外 (the historic reading room remains open)。

LT-053 | Announcement | Trail restoration day

TTS Script For volunteers: Trail restoration day is proceeding, but the Saturday planting site moves to Willow Creek. The reason is that heavy equipment blocks the original trailhead. We ask everyone to meet at the bus turnaround at 8:30. tools will still be supplied. **Questions** 1. What is the main announcement? A. the Saturday planting site moves to Willow Creek. TTS Script For applicants: Graduate-school Q&A is proceeding, but questions will be grouped by program. The reason is that the panel has limited time. We ask everyone to submit one concise question online. advisers will answer general questions first.

Questions 1. What is the main announcement? A. questions will be grouped by program. B. the panel has limited time. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. the panel has limited time. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. submit one concise question online. C. Ignore the new information. D. Follow a rule from another event.

Answer audit: 1 **A**—“questions will be grouped by program” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “the panel has limited time”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “submit one concise question online”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。**训练重点:** 目的—受影响者—变化—行动。**精听:** 将原因和行动分别记为 因为、所以做;**语用/语音:** 辨认通知中降调的关键信息;**复述:** 用两句说明变化及例外 (advisers will answer general questions first)。

LT-099 | Announcement | Community-language class

TTS Script Attention, learners. Community-language class has one change: the Tuesday class uses the annex entrance. This is because the front steps are being repaired. Please follow the orange signs. childcare stays in the main building. Thank you for adjusting your plans. **Questions** 1. What is the main announcement? A. the Tuesday

class uses the annex entrance. B. the front steps are being repaired. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. the front steps are being repaired. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. follow the orange signs. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“the Tuesday class uses the annex entrance” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “the front steps are being repaired”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “follow the orange signs”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。**训练重点:** 目的—受影响者—变化—行动。**精听:** 将原因和行动分别记为 因为、所以做;**语用/语音:** 辨认通知中降调的关键信息;**复述:** 用两句说明变化及例外 (childcare stays in the main building)。

LT-100 | Announcement | Campus blood-donation day

TTS Script This is an update for donors about Campus blood-donation day. appointments begin fifteen minutes earlier, since staff need to review new consent forms. To participate smoothly, eat a meal before arriving. Please note that walk-ins are accepted after noon. **Questions** 1. What is the main announcement? A. appointments begin fifteen minutes earlier. B. staff need to review new consent forms. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. staff need to review new consent forms. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. eat a meal before arriving. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“appointments begin fifteen minutes earlier” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “staff need to review new consent forms”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “eat a meal before arriving”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。**训练重点:** 目的—受影响者—变化—行动。**精听:** 将原因和行动分别记为 因为、所以做;**语用/语音:** 辨认通知中降调的关键信息;**复述:** 用两句说明变化及例外 (walk-ins are accepted after noon)。

LT-101 | Announcement | Public-lab tour

TTS Script For tour guests: Public-lab tour is proceeding, but safety glasses are issued at check-in only. The reason is that a new visitor rule protects active experiments. We ask everyone to arrive ten minutes early for fitting. children must stay with an adult. **Questions** 1. What is the main announcement? A. safety glasses are issued at check-in only. B. a new visitor rule protects active experiments. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. a new visitor rule protects active experiments. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. arrive ten minutes early for fitting. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“safety glasses are issued at check-in only” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “a new visitor rule protects active experiments”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “arrive ten minutes early for fitting”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。**训练重点:** 目的—受影响者—变化—行动。**精听:** 将原因和行动分别记为 因为、所以做;**语用/语音:** 辨认通知中降调的关键信息;**复述:** 用两句说明变化及例外 (children must stay with an adult)。

LT-102 | Announcement | Neighborhood compost workshop

TTS Script Attention, registrants. Neighborhood compost workshop has one change: the workshop moves to the civic greenhouse. This is because the library basement ventilation is being repaired. Please bring a refillable water bottle. Handouts will be emailed afterward. Thank you for adjusting your plans. **Questions** 1. What is the main announcement? A. the workshop moves to the civic greenhouse. B. the library basement ventilation is being repaired. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. the library basement ventilation is being repaired. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. bring a refillable water bottle. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“the workshop moves to the civic greenhouse” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “the library basement ventilation is being repaired”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “bring a refillable water bottle”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。 **训练重点:** 目的—受影响者—变化—行动。 **精听:** 将原因和行动分别记为 因为、所以做; **语用/语音:** 辨认通知中降调的关键信息; **复述:** 用两句说明变化及例外 (handouts will be emailed afterward)。

LT-103 | Announcement | Campus emergency-text drill

TTS Script This is an update for all phone subscribers about Campus emergency-text drill. A test alert arrives at 11:15 Thursday, since the safety office checks the new relay system. To participate smoothly, do not call emergency services after receiving it. Please note that real alerts use the same tone. **Questions** 1. What is the main announcement? A. a test alert arrives at 11:15 Thursday. B. the safety office checks the new relay system. C. The event is canceled forever. D. A different department has closed. 2. Why is this change being made? A. the safety office checks the new relay system. B. To add unrelated entertainment. C. Because no one registered. D. To replace the audience. 3. What should listeners do? A. Wait for a personal phone call. B. do not call emergency services after receiving it. C. Ignore the new information. D. Follow a rule from another event. **Answer audit:** 1 **A**—“a test alert arrives at 11:15 Thursday” 是听众须知; B 是原因, C/D 加入不存在结论 (L3 信息结构, 30 秒)。2 **A**—脚本直接给出 “the safety office checks the new relay system”; B/C/D 无证据 (L5 细节, 30 秒)。3 **B**—行动词是 “do not call emergency services after receiving it”; A/C/D 没有执行公告 (L6 选项诱导, 30 秒)。 **训练重点:** 目的—受影响者—变化—行动。 **精听:** 将原因和行动分别记为 因为、所以做; **语用/语音:** 辨认通知中降调的关键信息; **复述:** 用两句说明变化及例外 (real alerts use the same tone)。

LT-104 | Academic Talk | Tidal marshes

TTS Script In this short talk, focus on tidal marshes. Researchers observe that salt-marsh plants survive flooding by moving oxygen through spongy tissues. A useful illustration is that cordgrass channels air from leaves to roots. Do not overgeneralize: not all coastal plants tolerate daily saltwater. This helps us see why root aeration explains where species grow. **Questions** 1. What is the central idea? A. salt-marsh plants survive flooding by moving oxygen through spongy tissues. B. cordgrass channels air from leaves to roots. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate

the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. root aeration explains where species grow. B. not all coastal plants tolerate daily saltwater. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“cordgrass channels air from leaves to roots” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “root aeration explains where species grow”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-105 | Academic Talk | Urban heat islands

TTS Script Today I want to explain urban heat islands. The key idea is that paved surfaces store solar energy and release it slowly. For example, a shaded parking lot stays cooler than a bare one. It is important to remember that wind reduces heat but does not erase material differences. Therefore, tree cover changes shade and evaporation. **Questions** 1. What is the central idea? A. paved surfaces store solar energy and release it slowly. B. a shaded parking lot stays cooler than a bare one. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. tree cover changes shade and evaporation. B. wind reduces heat but does not erase material differences. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a shaded parking lot stays cooler than a bare one” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “tree cover changes shade and evaporation”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-106 | Academic Talk | Bacterial biofilms

TTS Script Our topic is bacterial biofilms. Notice this relationship: bacteria often live in attached communities rather than alone. Consider this case: dental plaque shows cells sharing a protective matrix. However, a biofilm is not simply a pile of identical cells. The broader lesson is that the matrix changes resistance to cleaning. **Questions** 1. What is the central idea? A. bacteria often live in attached communities rather than alone. B. dental plaque shows cells sharing a protective matrix. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. the matrix changes resistance to cleaning. B. a biofilm is not simply a pile of identical cells. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“dental plaque shows cells sharing a protective matrix” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “the matrix changes resistance to cleaning”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-107 | Academic Talk | Museum object labels

TTS Script In this short talk, focus on museum object labels. Researchers observe that

short labels guide attention by selecting a question. A useful illustration is that a label may ask viewers to compare two brushstrokes. Do not overgeneralize: labels support looking rather than replace it. This helps us see why good labels create a viewing task.

Questions 1. What is the central idea? A. short labels guide attention by selecting a question. B. a label may ask viewers to compare two brushstrokes. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. good labels create a viewing task. B. labels support looking rather than replace it. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a label may ask viewers to compare two brushstrokes” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “good labels create a viewing task”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-108 | Academic Talk | Volcanic ash layers

TTS Script Today I want to explain volcanic ash layers. The key idea is that ash can preserve a time marker across a wide region. For example, the same unusual layer appears in lake sediment and soil. It is important to remember that ash dates events only when its source is identified. Therefore, matching layers links records. **Questions** 1. What is the central idea? A. ash can preserve a time marker across a wide region. B. the same unusual layer appears in lake sediment and soil. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. matching layers links records. B. ash dates events only when its source is identified. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“the same unusual layer appears in lake sediment and soil” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “matching layers links records”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-109 | Academic Talk | Bee waggle dances

TTS Script Our topic is bee waggle dances. Notice this relationship: some bees communicate food direction with movement patterns. Consider this case: the angle of a waggle run relates to the sun. However, wind does not turn a dance into a direct distance map. The broader lesson is that movement carries encoded relationships. **Questions** 1. What is the central idea? A. some bees communicate food direction with movement patterns. B. the angle of a waggle run relates to the sun. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. movement carries encoded relationships. B. wind does not turn a dance into a direct distance map. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“the angle of a waggle run relates to the sun”

把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “movement carries encoded relationships”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-110 | Academic Talk | River meanders

TTS Script In this short talk, focus on river meanders. Researchers observe that water moves fastest on the outside of a curve. A useful illustration is that erosion cuts an outer bank while sediment builds an inner bar. Do not overgeneralize: a straightened channel may still develop bends. This helps us see why speed differences shape river form. **Questions** 1. What is the central idea? A. water moves fastest on the outside of a curve. B. erosion cuts an outer bank while sediment builds an inner bar. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. speed differences shape river form. B. a straightened channel may still develop bends. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“erosion cuts an outer bank while sediment builds an inner bar” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “speed differences shape river form”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-111 | Academic Talk | Plant seed dormancy

TTS Script Today I want to explain plant seed dormancy. The key idea is that many seeds delay germination until conditions improve. For example, desert seeds respond after rain leaches inhibitors. It is important to remember that dormancy does not show a seed is dead. Therefore, chemical signals time emergence. **Questions** 1. What is the central idea? A. many seeds delay germination until conditions improve. B. desert seeds respond after rain leaches inhibitors. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. chemical signals time emergence. B. dormancy does not show a seed is dead. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“desert seeds respond after rain leaches inhibitors” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “chemical signals time emergence”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-112 | Academic Talk | Acoustic shadow zones

TTS Script Our topic is acoustic shadow zones. Notice this relationship: sound weakens behind a barrier even in an open room. Consider this case: a column blocks direct waves to seats behind it. However, reflected sound may partly fill a quiet area. The broader lesson is that listener position affects what is heard. **Questions** 1. What is the central idea? A. sound weakens behind a barrier even in an open room. B. a column blocks direct waves to seats behind it. C. The topic has no exceptions. D. Researchers

reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. listener position affects what is heard. B. reflected sound may partly fill a quiet area. C. Every case works identically. D. Details never matter.

Answer audit: 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a column blocks direct waves to seats behind it” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “listener position affects what is heard”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-113 | Academic Talk | Ice-core bubbles

TTS Script In this short talk, focus on ice-core bubbles. Researchers observe that small bubbles preserve samples of past atmospheres. A useful illustration is that compacted snow traps gases as ice forms. Do not overgeneralize: ice age and air age are related but not identical. This helps us see why layers permit timeline comparison.

Questions 1. What is the central idea? A. small bubbles preserve samples of past atmospheres. B. compacted snow traps gases as ice forms. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. layers permit timeline comparison. B. ice age and air age are related but not identical. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“compacted snow traps gases as ice forms” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “layers permit timeline comparison”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-114 | Academic Talk | Coral bleaching

TTS Script Today I want to explain coral bleaching. The key idea is that corals lose color when stressed algae leave their tissues. For example, warm water can disrupt that partnership. It is important to remember that bleaching does not always mean immediate coral death. Therefore, recovery depends on stress duration.

Questions 1. What is the central idea? A. corals lose color when stressed algae leave their tissues. B. warm water can disrupt that partnership. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. recovery depends on stress duration. B. bleaching does not always mean immediate coral death. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“warm water can disrupt that partnership” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “recovery depends on stress duration”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-115 | Academic Talk | Medieval market towns

TTS Script Our topic is medieval market towns. Notice this relationship: market rights concentrated exchange on selected days. Consider this case: a town gate collected fees from weekly traders. However, not every settlement with shops had formal privileges. The broader lesson is that legal rules shaped traffic patterns. **Questions** 1. What is the central idea? A. market rights concentrated exchange on selected days. B. a town gate collected fees from weekly traders. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. legal rules shaped traffic patterns. B. not every settlement with shops had formal privileges. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a town gate collected fees from weekly traders” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “legal rules shaped traffic patterns”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。 **训练重点:** 概念—机制—例子—限制—结论。 **精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-116 | Academic Talk | Animal mimicry

TTS Script In this short talk, focus on animal mimicry. Researchers observe that resemblance can reduce predation when predators learn warning signals. A useful illustration is that a harmless fly may resemble a stinging wasp. Do not overgeneralize: similar color alone does not prove mimicry. This helps us see why predator behavior completes the mechanism. **Questions** 1. What is the central idea? A. resemblance can reduce predation when predators learn warning signals. B. a harmless fly may resemble a stinging wasp. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. predator behavior completes the mechanism. B. similar color alone does not prove mimicry. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a harmless fly may resemble a stinging wasp” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “predator behavior completes the mechanism”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。 **训练重点:** 概念—机制—例子—限制—结论。 **精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-117 | Academic Talk | Soil horizons

TTS Script Today I want to explain soil horizons. The key idea is that soil layers form as water moves materials downward. For example, iron can accumulate in a reddish lower layer. It is important to remember that color reflects processes as well as parent rock. Therefore, profiles record long-term movement. **Questions** 1. What is the central idea? A. soil layers form as water moves materials downward. B. iron can accumulate in a reddish lower layer. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. profiles record long-term movement. B. color reflects processes as well as parent rock. C. Every case works identically. D. Details never matter. **Answer**

audit: 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“iron can accumulate in a reddish lower layer” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “profiles record long-term movement”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-118 | Academic Talk | Early photography

TTS Script Our topic is early photography. Notice this relationship: long exposure time affected what could be recorded. Consider this case: a busy street appears empty when moving people leave little trace. However, early cameras did not lack detail in every setting. The broader lesson is that time shaped visual evidence. **Questions** 1. What is the central idea? A. long exposure time affected what could be recorded. B. a busy street appears empty when moving people leave little trace. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. time shaped visual evidence. B. early cameras did not lack detail in every setting. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a busy street appears empty when moving people leave little trace” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “time shaped visual evidence”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-119 | Academic Talk | Memory reconsolidation

TTS Script In this short talk, focus on memory reconsolidation. Researchers observe that recalling a memory can briefly open it to revision. A useful illustration is that a witness may blend new suggestions into recall. Do not overgeneralize: revision is not the same as deliberate lying. This helps us see why retrieval can change later remembering. **Questions** 1. What is the central idea? A. recalling a memory can briefly open it to revision. B. a witness may blend new suggestions into recall. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. retrieval can change later remembering. B. revision is not the same as deliberate lying. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a witness may blend new suggestions into recall” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “retrieval can change later remembering”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-120 | Academic Talk | Bird migration

TTS Script Today I want to explain bird migration. The key idea is that many birds use several cues instead of one compass. For example, young birds combine star patterns with magnetic information. It is important to remember that clouds remove one cue but not all navigation. Therefore, redundant cues support travel. **Questions** 1. What

is the central idea? A. many birds use several cues instead of one compass. B. young birds combine star patterns with magnetic information. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. redundant cues support travel. B. clouds remove one cue but not all navigation. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“young birds combine star patterns with magnetic information” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “redundant cues support travel”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-121 | Academic Talk | Groundwater recharge

TTS Script Our topic is groundwater recharge. Notice this relationship: rain enters aquifers through permeable ground. Consider this case: a grassy field allows more infiltration than pavement. However, not all rainfall becomes groundwater immediately. The broader lesson is that surface slope also matters. **Questions** 1. What is the central idea? A. rain enters aquifers through permeable ground. B. a grassy field allows more infiltration than pavement. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. surface slope also matters. B. not all rainfall becomes groundwater immediately. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a grassy field allows more infiltration than pavement” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “surface slope also matters”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-122 | Academic Talk | Soap micelles

TTS Script In this short talk, focus on soap micelles. Researchers observe that soap molecules surround oil with water-friendly outer ends. A useful illustration is that grease becomes suspended in tiny clusters when washed. Do not overgeneralize: soap does not chemically destroy every kind of dirt. This helps us see why molecular arrangement enables rinsing. **Questions** 1. What is the central idea? A. soap molecules surround oil with water-friendly outer ends. B. grease becomes suspended in tiny clusters when washed. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. molecular arrangement enables rinsing. B. soap does not chemically destroy every kind of dirt. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“grease becomes suspended in tiny clusters when washed” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “molecular arrangement enables rinsing”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35

秒重讲。

LT-123 | Academic Talk | Library classification

TTS Script Today I want to explain library classification. The key idea is that classification groups works to help users browse relationships. For example, local history can sit near geography and politics. It is important to remember that one book can fit more than one category. Therefore, shelf order is a navigational tool. **Questions** 1. What is the central idea? A. classification groups works to help users browse relationships. B. local history can sit near geography and politics. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. shelf order is a navigational tool. B. one book can fit more than one category. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“local history can sit near geography and politics” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “shelf order is a navigational tool”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-124 | Academic Talk | Lichen partnerships

TTS Script Our topic is lichen partnerships. Notice this relationship: lichens combine fungi with photosynthetic partners. Consider this case: a fungus gives structure while algae supply sugars. However, partners are not interchangeable in every environment. The broader lesson is that cooperation forms an ecological unit. **Questions** 1. What is the central idea? A. lichens combine fungi with photosynthetic partners. B. a fungus gives structure while algae supply sugars. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. cooperation forms an ecological unit. B. partners are not interchangeable in every environment. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a fungus gives structure while algae supply sugars” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “cooperation forms an ecological unit”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-125 | Academic Talk | Plate tectonic hotspots

TTS Script In this short talk, focus on plate tectonic hotspots. Researchers observe that some volcanic chains record a plate moving over a heat source. A useful illustration is that older islands lie farther from an active volcano. Do not overgeneralize: hotspots do not explain every volcano. This helps us see why age patterns reveal motion. **Questions** 1. What is the central idea? A. some volcanic chains record a plate moving over a heat source. B. older islands lie farther from an active volcano. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. age patterns reveal

motion. B. hotspots do not explain every volcano. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“older islands lie farther from an active volcano” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “age patterns reveal motion”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-126 | Academic Talk | Color perception

TTS Script Today I want to explain color perception. The key idea is that surrounding colors alter how one patch appears. For example, a gray square looks warmer beside blue than orange. It is important to remember that the pigment itself has not changed. Therefore, visual context influences judgment. **Questions** 1. What is the central idea? A. surrounding colors alter how one patch appears. B. a gray square looks warmer beside blue than orange. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. visual context influences judgment. B. the pigment itself has not changed. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a gray square looks warmer beside blue than orange” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “visual context influences judgment”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-127 | Academic Talk | Public-health messaging

TTS Script Our topic is public-health messaging. Notice this relationship: specific actions are easier to follow than vague warnings. Consider this case: naming a clinic and time reduces uncertainty. However, more information is not always clearer. The broader lesson is that actionable details support compliance. **Questions** 1. What is the central idea? A. specific actions are easier to follow than vague warnings. B. naming a clinic and time reduces uncertainty. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. actionable details support compliance. B. more information is not always clearer. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“naming a clinic and time reduces uncertainty” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “actionable details support compliance”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-128 | Academic Talk | Fossil trackways

TTS Script In this short talk, focus on fossil trackways. Researchers observe that footprints reveal movement when bones are absent. A useful illustration is that parallel prints show animals traveling one direction. Do not overgeneralize: a trackway cannot identify a species with certainty. This helps us see why behavioral evidence has limits. **Questions** 1. What is the central idea? A. footprints reveal movement when bones

are absent. B. parallel prints show animals traveling one direction. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. behavioral evidence has limits. B. a trackway cannot identify a species with certainty. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“parallel prints show animals traveling one direction” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “behavioral evidence has limits”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-129 | Academic Talk | Language sound change

TTS Script Today I want to explain language sound change. The key idea is that frequent words can preserve old forms or change fast. For example, a common verb stays irregular while rarer verbs regularize. It is important to remember that sound change is not random at every word. Therefore, usage frequency affects patterns. **Questions** 1. What is the central idea? A. frequent words can preserve old forms or change fast. B. a common verb stays irregular while rarer verbs regularize. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. usage frequency affects patterns. B. sound change is not random at every word. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a common verb stays irregular while rarer verbs regularize” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “usage frequency affects patterns”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-130 | Academic Talk | Glacier flow

TTS Script Our topic is glacier flow. Notice this relationship: ice moves as weight deforms lower layers and its base slides. Consider this case: a glacier bends around a ridge like thick fluid. However, cold ice generally moves slower than wet-based ice. The broader lesson is that temperature changes motion. **Questions** 1. What is the central idea? A. ice moves as weight deforms lower layers and its base slides. B. a glacier bends around a ridge like thick fluid. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. temperature changes motion. B. cold ice generally moves slower than wet-based ice. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a glacier bends around a ridge like thick fluid” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “temperature changes motion”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-131 | Academic Talk | Archaeological context

TTS Script In this short talk, focus on archaeological context. Researchers observe that an artifact location can be as informative as the object. A useful illustration is that seeds beside a hearth suggest food processing. Do not overgeneralize: an unrecorded object loses associations. This helps us see why context supports interpretation. **Questions** 1. What is the central idea? A. an artifact location can be as informative as the object. B. seeds beside a hearth suggest food processing. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. context supports interpretation. B. an unrecorded object loses associations. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“seeds beside a hearth suggest food processing” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “context supports interpretation”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。 **训练重点:** 概念—机制—例子—限制—结论。 **精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-132 | Academic Talk | Urban tree roots

TTS Script Today I want to explain urban tree roots. The key idea is that roots spread where oxygen and water are available. For example, trees lift sidewalks when compact soil limits depth. It is important to remember that roots do not seek pipes because they prefer concrete. Therefore, site conditions direct growth. **Questions** 1. What is the central idea? A. roots spread where oxygen and water are available. B. trees lift sidewalks when compact soil limits depth. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. site conditions direct growth. B. roots do not seek pipes because they prefer concrete. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“trees lift sidewalks when compact soil limits depth” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “site conditions direct growth”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。 **训练重点:** 概念—机制—例子—限制—结论。 **精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-133 | Academic Talk | Ocean upwelling

TTS Script Our topic is ocean upwelling. Notice this relationship: deep water can bring nutrients to the surface. Consider this case: coastal wind can draw cold water upward. However, upwelling can cool a sunny coast. The broader lesson is that nutrients support productive fisheries. **Questions** 1. What is the central idea? A. deep water can bring nutrients to the surface. B. coastal wind can draw cold water upward. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. nutrients support productive fisheries. B. upwelling can cool a sunny coast. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/

D 绝对化 (L3 主旨, 40 秒)。2 **B**—“coastal wind can draw cold water upward” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “nutrients support productive fisheries”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点**: 概念—机制—例子—限制—结论。**精听**: 在 for example / however / therefore 处停一拍; **语音识别**: 捕捉连读中的关键词; **复述**: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-134 | Academic Talk | Musical timbre

TTS Script In this short talk, focus on musical timbre. Researchers observe that instruments differ through mixtures of overtones. A useful illustration is that a flute and violin share a note but differ spectrally. Do not overgeneralize: volume alone does not create timbre. This helps us see why harmonic content shapes quality. **Questions** 1. What is the central idea? A. instruments differ through mixtures of overtones. B. a flute and violin share a note but differ spectrally. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. harmonic content shapes quality. B. volume alone does not create timbre. C. Every case works identically. D. Details never matter. **Answer audit**: 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a flute and violin share a note but differ spectrally” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “harmonic content shapes quality”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点**: 概念—机制—例子—限制—结论。**精听**: 在 for example / however / therefore 处停一拍; **语音识别**: 捕捉连读中的关键词; **复述**: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-135 | Academic Talk | Scientific models

TTS Script Today I want to explain scientific models. The key idea is that models simplify systems to test relationships. For example, a map omits buildings to show elevation. It is important to remember that a useful model is not a complete copy. Therefore, selection serves a question. **Questions** 1. What is the central idea? A. models simplify systems to test relationships. B. a map omits buildings to show elevation. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. selection serves a question. B. a useful model is not a complete copy. C. Every case works identically. D. Details never matter. **Answer audit**: 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a map omits buildings to show elevation” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “selection serves a question”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点**: 概念—机制—例子—限制—结论。**精听**: 在 for example / however / therefore 处停一拍; **语音识别**: 捕捉连读中的关键词; **复述**: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-136 | Academic Talk | Leaf abscission

TTS Script Our topic is leaf abscission. Notice this relationship: trees shed leaves by forming a separation layer. Consider this case: short days trigger hormones before leaves fall. However, wind removes leaves but does not create the layer. The broader lesson is that internal signals prepare detachment. **Questions** 1. What is the central idea? A. trees shed leaves by forming a separation layer. B. short days trigger hormones before leaves fall. C. The topic has no exceptions. D. Researchers reject all

evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. internal signals prepare detachment. B. wind removes leaves but does not create the layer. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“short days trigger hormones before leaves fall” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “internal signals prepare detachment”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍;**语音识别:** 捕捉连读中的关键词;**复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-137 | Academic Talk | Optical refraction

TTS Script In this short talk, focus on optical refraction. Researchers observe that light changes direction entering material at an angle. A useful illustration is that a straw appears bent where it enters water. Do not overgeneralize: the straw does not change physical shape. This helps us see why speed changes cause the shift. **Questions** 1. What is the central idea? A. light changes direction entering material at an angle. B. a straw appears bent where it enters water. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. speed changes cause the shift. B. the straw does not change physical shape. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a straw appears bent where it enters water” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “speed changes cause the shift”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍;**语音识别:** 捕捉连读中的关键词;**复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-138 | Academic Talk | Insect diapause

TTS Script Today I want to explain insect diapause. The key idea is that some insects pause development through bad seasons. For example, a moth waits until temperature and day length signal spring. It is important to remember that diapause differs from brief cold inactivity. Therefore, developmental timing is regulated. **Questions** 1. What is the central idea? A. some insects pause development through bad seasons. B. a moth waits until temperature and day length signal spring. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. developmental timing is regulated. B. diapause differs from brief cold inactivity. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a moth waits until temperature and day length signal spring” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “developmental timing is regulated”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍;**语音识别:** 捕捉连读中的关键词;**复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-139 | Academic Talk | Museum crowding

TTS Script Our topic is museum crowding. Notice this relationship: visitor flow depends on where people pause. Consider this case: an interactive screen creates a queue in a wide gallery. However, more floor area does not ensure even circulation. The broader lesson is that attractions shape movement. **Questions** 1. What is the central idea? A. visitor flow depends on where people pause. B. an interactive screen creates a queue in a wide gallery. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. attractions shape movement. B. more floor area does not ensure even circulation. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“an interactive screen creates a queue in a wide gallery” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “attractions shape movement”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-140 | Academic Talk | Peat bog preservation

TTS Script In this short talk, focus on peat bog preservation. Researchers observe that waterlogged acidic conditions slow decay. A useful illustration is that plant material accumulates when decomposers lack oxygen. Do not overgeneralize: every wet soil does not preserve remains equally. This helps us see why chemistry and water both matter. **Questions** 1. What is the central idea? A. waterlogged acidic conditions slow decay. B. plant material accumulates when decomposers lack oxygen. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. chemistry and water both matter. B. every wet soil does not preserve remains equally. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“plant material accumulates when decomposers lack oxygen” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “chemistry and water both matter”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-141 | Academic Talk | Ecosystem engineers

TTS Script Today I want to explain ecosystem engineers. The key idea is that some organisms alter conditions for other species. For example, beavers create ponds by building dams. It is important to remember that an engineer need not be most numerous. Therefore, structures change habitat opportunities. **Questions** 1. What is the central idea? A. some organisms alter conditions for other species. B. beavers create ponds by building dams. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. structures change habitat opportunities. B. an engineer need not be most numerous. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“beavers create ponds by building dams” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳

“structures change habitat opportunities”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-142 | Academic Talk | Language pragmatics

TTS Script Our topic is language pragmatics. Notice this relationship: meaning partly depends on shared inference. Consider this case: it is cold may request that someone close a window. However, literal grammar alone cannot determine intent. The broader lesson is that context supplies social purpose. **Questions** 1. What is the central idea? A. meaning partly depends on shared inference. B. it is cold may request that someone close a window. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. context supplies social purpose. B. literal grammar alone cannot determine intent. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“it is cold may request that someone close a window” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “context supplies social purpose”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-143 | Academic Talk | Mineral cleavage

TTS Script In this short talk, focus on mineral cleavage. Researchers observe that crystals break along planes set by atomic structure. A useful illustration is that mica splits into sheets because bonds vary by direction. Do not overgeneralize: cleavage is not random fracture. This helps us see why internal arrangement guides breakage. **Questions** 1. What is the central idea? A. crystals break along planes set by atomic structure. B. mica splits into sheets because bonds vary by direction. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. internal arrangement guides breakage. B. cleavage is not random fracture. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“mica splits into sheets because bonds vary by direction” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “internal arrangement guides breakage”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。训练重点: 概念—机制—例子—限制—结论。精听: 在 for example / however / therefore 处停一拍; 语音识别: 捕捉连读中的关键词; 复述: 先定义关系, 再用例子和限制在 35 秒重讲。

LT-144 | Academic Talk | Pollen records

TTS Script Today I want to explain pollen records. The key idea is that pollen settles into sediments and reflects vegetation. For example, more pine pollen can show expanding forests. It is important to remember that pollen travels so records need caution. Therefore, relative abundance tracks change. **Questions** 1. What is the central idea? A. pollen settles into sediments and reflects vegetation. B. more pine pollen can show expanding forests. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion

is supported? A. relative abundance tracks change. B. pollen travels so records need caution. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“more pine pollen can show expanding forests” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “relative abundance tracks change”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-145 | Academic Talk | Climate feedback

TTS Script Our topic is climate feedback. Notice this relationship: feedback amplifies or dampens an initial change. Consider this case: melting ice exposes dark water that absorbs more heat. However, a feedback is not a separate original cause. The broader lesson is that responses alter the first effect. **Questions** 1. What is the central idea? A. feedback amplifies or dampens an initial change. B. melting ice exposes dark water that absorbs more heat. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. responses alter the first effect. B. a feedback is not a separate original cause. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“melting ice exposes dark water that absorbs more heat” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “responses alter the first effect”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-146 | Academic Talk | Ant navigation

TTS Script In this short talk, focus on ant navigation. Researchers observe that desert ants integrate distance and direction. A useful illustration is that an ant adjusts its route after turns. Do not overgeneralize: a single landmark is not the entire system. This helps us see why path integration supports return. **Questions** 1. What is the central idea? A. desert ants integrate distance and direction. B. an ant adjusts its route after turns. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. path integration supports return. B. a single landmark is not the entire system. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“an ant adjusts its route after turns” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “path integration supports return”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-147 | Academic Talk | Book preservation

TTS Script Today I want to explain book preservation. The key idea is that light damages paper even at stable temperatures. For example, a map fades near an unfiltered window. It is important to remember that covering an object is not the only protection. Therefore, exposure duration matters. **Questions** 1. What is the central idea? A. light damages paper even at stable temperatures. B. a map fades near an unfiltered

window. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. exposure duration matters. B. covering an object is not the only protection. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“a map fades near an unfiltered window” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “exposure duration matters”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-148 | Academic Talk | Food webs

TTS Script Our topic is food webs. Notice this relationship: energy transfer weakens at each feeding step. Consider this case: plants support insects, birds, then hawks. However, a web is more complex than one chain. The broader lesson is that multiple links shift effects. **Questions** 1. What is the central idea? A. energy transfer weakens at each feeding step. B. plants support insects, birds, then hawks. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. multiple links shift effects. B. a web is more complex than one chain. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“plants support insects, birds, then hawks” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “multiple links shift effects”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-149 | Academic Talk | Quorum sensing

TTS Script In this short talk, focus on quorum sensing. Researchers observe that bacteria alter behavior when signals reach a threshold. A useful illustration is that cells make light when enough neighbors are present. Do not overgeneralize: cells need not count neighbors directly. This helps us see why signal concentration coordinates groups. **Questions** 1. What is the central idea? A. bacteria alter behavior when signals reach a threshold. B. cells make light when enough neighbors are present. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. signal concentration coordinates groups. B. cells need not count neighbors directly. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“cells make light when enough neighbors are present” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “signal concentration coordinates groups”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-150 | Academic Talk | Desert varnish

TTS Script Today I want to explain desert varnish. The key idea is that dark coat-

ings form slowly on exposed rock. For example, dust and microbes add minerals to a surface film. It is important to remember that every dark rock is not ancient varnish. Therefore, formation conditions need comparison. **Questions** 1. What is the central idea? A. dark coatings form slowly on exposed rock. B. dust and microbes add minerals to a surface film. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. formation conditions need comparison. B. every dark rock is not ancient varnish. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“dust and microbes add minerals to a surface film” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “formation conditions need comparison”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-151 | Academic Talk | Visual attention

TTS Script Our topic is visual attention. Notice this relationship: attention selects information but misses changes. Consider this case: ball-focused viewers can miss a new background object. However, a miss does not mean eyes failed. The broader lesson is that task goals direct processing. **Questions** 1. What is the central idea? A. attention selects information but misses changes. B. ball-focused viewers can miss a new background object. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. task goals direct processing. B. a miss does not mean eyes failed. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“ball-focused viewers can miss a new background object” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “task goals direct processing”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-152 | Academic Talk | River floodplains

TTS Script In this short talk, focus on river floodplains. Researchers observe that floods deposit fine sediment beyond a channel. A useful illustration is that slowing water leaves fertile silt on a plain. Do not overgeneralize: floodplains are not empty spaces. This helps us see why overflow shapes soils and habitat. **Questions** 1. What is the central idea? A. floods deposit fine sediment beyond a channel. B. slowing water leaves fertile silt on a plain. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. overflow shapes soils and habitat. B. floodplains are not empty spaces. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“slowing water leaves fertile silt on a plain” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “overflow shapes soils and habitat”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:**

捕捉连读中的关键词；**复述**：先定义关系，再用例子和限制在 35 秒重讲。

LT-153 | Academic Talk | Cave mineral growth

TTS Script Today I want to explain cave mineral growth. The key idea is that minerals precipitate when dripping water loses carbon dioxide. For example, a stalactite lengthens where drops hang from a ceiling. It is important to remember that all cave deposits do not grow at the same rate. Therefore, water chemistry controls formation.

Questions 1. What is the central idea? A. minerals precipitate when dripping water loses carbon dioxide. B. a stalactite lengthens where drops hang from a ceiling. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. water chemistry controls formation. B. all cave deposits do not grow at the same rate. C. Every case works identically. D. Details never matter. **Answer audit**: 1 **A**—开头机制是主线；B 只是例证，C/D 绝对化 (L3 主旨，40 秒)。2 **B**—“a stalactite lengthens where drops hang from a ceiling” 把关系具体化；A/C/D 不说明例子功能 (L2 目的，40 秒)。3 **A**—结尾归纳 “water chemistry controls formation”；B 是限制，C/D 超出证据 (L8 推断，40 秒)。**训练重点**：概念—机制—例子—限制—结论。**精听**：在 for example / however / therefore 处停一拍；**语音识别**：捕捉连读中的关键词；**复述**：先定义关系，再用例子和限制在 35 秒重讲。

LT-154 | Academic Talk | Fermentation

TTS Script Our topic is fermentation. Notice this relationship: microorganisms release energy without oxygen in some conditions. Consider this case: yeast makes carbon dioxide in bread dough. However, fermentation is not identical to food spoilage. The broader lesson is that metabolic pathways produce useful products. **Questions** 1. What is the central idea? A. microorganisms release energy without oxygen in some conditions. B. yeast makes carbon dioxide in bread dough. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. metabolic pathways produce useful products. B. fermentation is not identical to food spoilage. C. Every case works identically. D. Details never matter. **Answer audit**: 1 **A**—开头机制是主线；B 只是例证，C/D 绝对化 (L3 主旨，40 秒)。2 **B**—“yeast makes carbon dioxide in bread dough” 把关系具体化；A/C/D 不说明例子功能 (L2 目的，40 秒)。3 **A**—结尾归纳 “metabolic pathways produce useful products”；B 是限制，C/D 超出证据 (L8 推断，40 秒)。**训练重点**：概念—机制—例子—限制—结论。**精听**：在 for example / however / therefore 处停一拍；**语音识别**：捕捉连读中的关键词；**复述**：先定义关系，再用例子和限制在 35 秒重讲。

LT-155 | Academic Talk | Human sleep cycles

TTS Script In this short talk, focus on human sleep cycles. Researchers observe that sleep stages recur in patterns across a night. A useful illustration is that deep sleep is concentrated earlier for many adults. Do not overgeneralize: one interrupted night does not erase all stages. This helps us see why timing affects restoration. **Questions** 1. What is the central idea? A. sleep stages recur in patterns across a night. B. deep sleep is concentrated earlier for many adults. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. timing affects restoration. B. one interrupted night does

not erase all stages. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“deep sleep is concentrated earlier for many adults” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “timing affects restoration”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-156 | Academic Talk | Exoplanet transits

TTS Script Today I want to explain exoplanet transits. The key idea is that a planet can be detected when it slightly dims a star. For example, regular dips suggest an orbiting body crossing the star. It is important to remember that a dimming signal alone does not reveal every planet property. Therefore, repeated measurements improve confidence. **Questions** 1. What is the central idea? A. a planet can be detected when it slightly dims a star. B. regular dips suggest an orbiting body crossing the star. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. repeated measurements improve confidence. B. a dimming signal alone does not reveal every planet property. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“regular dips suggest an orbiting body crossing the star” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “repeated measurements improve confidence”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-157 | Academic Talk | Mangrove roots

TTS Script Our topic is mangrove roots. Notice this relationship: some mangroves stabilize shorelines with complex root networks. Consider this case: roots trap sediment in tidal water. However, not every coastal shrub provides the same protection. The broader lesson is that root form changes erosion. **Questions** 1. What is the central idea? A. some mangroves stabilize shorelines with complex root networks. B. roots trap sediment in tidal water. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. root form changes erosion. B. not every coastal shrub provides the same protection. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“roots trap sediment in tidal water” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “root form changes erosion”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-158 | Academic Talk | Social learning

TTS Script In this short talk, focus on social learning. Researchers observe that individuals can acquire behavior by observing others. A useful illustration is that young birds copy feeding techniques from experienced adults. Do not overgeneralize: observation does not remove trial and error. This helps us see why models can speed

learning. **Questions** 1. What is the central idea? A. individuals can acquire behavior by observing others. B. young birds copy feeding techniques from experienced adults. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. models can speed learning. B. observation does not remove trial and error. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“young birds copy feeding techniques from experienced adults” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “models can speed learning”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-159 | Academic Talk | Paper recycling

TTS Script Today I want to explain paper recycling. The key idea is that fibers shorten each time paper is processed. For example, recycled paper often needs some new fiber added. It is important to remember that all paper products cannot be recycled indefinitely. Therefore, material quality limits cycles. **Questions** 1. What is the central idea? A. fibers shorten each time paper is processed. B. recycled paper often needs some new fiber added. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the example mentioned? A. To change topic. B. To illustrate the mechanism. C. To prove the contrast false. D. To list a date. 3. Which conclusion is supported? A. material quality limits cycles. B. all paper products cannot be recycled indefinitely. C. Every case works identically. D. Details never matter. **Answer audit:** 1 **A**—开头机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—“recycled paper often needs some new fiber added” 把关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳 “material quality limits cycles”; B 是限制, C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / however / therefore 处停一拍; **语音识别:** 捕捉连读中的关键词; **复述:** 先定义关系, 再用例子和限制在 35 秒重讲。

LT-160 | Academic Talk | Fungal networks

TTS Script Today I want to explain fungal networks in forest soil. The key idea is that fungal threads can connect roots with water and mineral resources. For example, a seedling attached to a fungal network may receive phosphorus from soil beyond its own roots. It is important to remember that this is not a universal act of sharing among trees. Therefore, the value of a network depends on species and conditions. **Questions** 1. What is the central idea? A. Fungal threads can connect roots with water and mineral resources. B. A seedling may receive phosphorus beyond its own roots. C. The topic has no exceptions. D. Researchers reject all evidence. 2. Why is the seedling mentioned? A. To change topic. B. To illustrate the central mechanism. C. To prove the limitation false. D. To list a date. 3. Which conclusion is supported? A. Network value depends on species and conditions. B. All trees always share resources. C. Every network works identically. D. Details never matter. **Answer audit:** 1 **A**—首句的机制是主线; B 只是例证, C/D 绝对化 (L3 主旨, 40 秒)。2 **B**—seedling 例子把抽象关系具体化; A/C/D 不说明例子功能 (L2 目的, 40 秒)。3 **A**—结尾归纳条件性结论; B/C/D 超出证据 (L8 推断, 40 秒)。**训练重点:** 概念—机制—例子—限制—结论。**精听:** 在 for example / remember / therefore 处停一拍; **语音识别:** 辨认 threads can connect 的连读; **复述:** 用机制、例子、限

制三步在 35 秒重讲。

16.3 C. 用题库建立“首听—定位—输出”闭环

这一章的量不能用“刷完”来定义。对在职考生，最有效的单位不是一题，而是一次可追踪的闭环：**首听留下真实答案，核对时找到触发点，最后不用文本说出结构。**每次训练只取 12 道 LCR 或 2 篇 LT；量小，才能把错误变成下一次可执行的动作。

第一遍：保留首答。 LCR 听完后必须先口头回应，再看三个选项；不要因为看见熟词就改答案。LT 首遍不暂停，只写极少的符号：对话写 P→X→S→N（原计划、限制、方案、下一步），公告写 谁 / 变更 / 原因 / 行动，短讲写 概念 / 例子 / 限制 / 结论。笔记漏了一句时写一个问号，马上跟上下一句；回想漏句会把之后的证据也丢掉。

第二遍：只定位一个错因。看解析时，先遮住正确选项，回到脚本中圈出真正改变答案的词或意群。but, rather than, however, only, before 常常比名词更重要。若是 LCR，不要记“这个选项比较顺”；要写“我把请求听成了陈述”（L2）或“我没跟上替代方案”（L4）。若是 LT，每题只记一个主错因：L3 主线丢失、L5 细节配错、L6 被听到过的词诱导，或 L8 推断越界。

第三遍：做最小声学修复。不要把整篇脚本抄写或循环播放。只截取错失的一个意群，依次做三件事：遮稿盲听一次；对稿标出连读、弱读、否定、数字或转折；跟读三次并录下最后一次。比如听漏 *rather than canceling*，要能在自然速度下听出它否定的是“取消”，而不是只会逐词翻译。这个步骤同时训练语音辨识和选项排除。

第四遍：无稿复述。对话必须包含“谁遇到什么限制、谁给出什么例外、下一步是什么”；公告必须让未听过的人知道要做什么及何时；短讲必须保留例子服务的概念与一个限制。允许换词，不允许丢掉因果、比较、否定和条件。录音控制在 20—35 秒，随后只改一个最影响理解的问题，再录一次。

建议把本章编号写进错题本，而非复制整段解析。例如：LT-086 Q3 | L6 | 把原因当行动 | 下次先问“题干要我选 change、reason 还是 action？”。24 小时后重听同一篇时，若能在不看稿的情况下说对结构，再做一篇同类型新材料；若仍要依赖文本，就回到第三遍。这样，300 道短回应会变成即时语用判断，160 篇脚本会变成可以迁移到陌生话题的听力结构感。

16.3.1 一周轮换示例：把材料用深，而不是做散

日程	25 分钟核心任务	5 分钟输出检查
周一	LCR-001—012：首听后立即说回应；只查错的 3 题	不看选项，重说 3 个请求或建议
周二	LT Conversation 任选 2 篇：画计划 → 限制 → 方案 → 行动	每篇用一句 The problem was ..., so... 概括
周三	LCR-101—112：重点听反问、许可、委婉拒绝	录 6 个自然回应，检查语气是否匹配
周四	LT Announcement 任选 2 篇：分开记“变化”和“行动”	用 20 秒转告同事，不能漏地点/时间
周五	LCR-221—232 与 LT Academic Talk 任选 2 篇：先预测功能再核对选项，只保留机制、例子、限制	每题写 request / complaint / proposal 标签；每篇闭卷复述 35 秒，回听后只重录一次

以下不是固定模板，而是帮助你检查复述是否保留逻辑关系的**最小骨架**。遇到不同材料，应替换其中的因果和事实，不要背诵词面：

- 对话: *The student originally planned to _____. However, _____. The staff member suggested _____, so the next step is _____.*
- 公告: *This notice affects _____. Because _____, _____ has changed. Listeners need to _____. The exception is _____.*
- 短讲: *The talk explains how _____. The example of _____ illustrates this because _____. However, _____. Therefore, _____.*

复述后自查四个“不能丢”的信号：**否定** (*not, rather than*)、**替代** (*instead, alternative*)、**条件/期限** (*only if, before, by*) 和**例子功能** (*for example* 后的故事究竟证明什么)。如果你的复述只剩很多名词，却没有这些关系，说明笔记仍在“收集词”，还没有变成理解。下一轮不要加快 TTS；先降低到能稳定说清结构的速度，再每次提高一点。

当连续两次能在首听后答对且完成无稿复述时，才把材料标为“稳定”。若答对只是因为记住了上次的选项位置，改用同一类型但不同编号的材料验证。真正的迁移表现是：面对没见过的地点、学科或人物，你仍能在转折处保住主线，并用最小证据排除“听起来熟悉”的干扰项。

第十七章 16 | 写作强化工作簿：从句子控制到真实沟通

训练定位：本章为 2026 年 TOEFL iBT 写作的原创强化材料，覆盖 Build a Sentence、Write an Email 与 Write for an Academic Discussion。它是教学训练，不是 ETS 题库、官方评分或分数换算。正式题型、时长和呈现以考试当期 ETS 说明为准。

给在职考生的用法：每次选一个 35—50 分钟单元：先做 10 个句子，再限时完成 1 封 Email 或 1 则 Discussion；最后只修改一个最影响理解的问题。不要背段落模板。读者、目的、证据和逻辑改变时，表达也必须跟着改变。

17.1 一、怎样把这本工作簿做成能力，而不是答案抄写

17.1.1 1. 四步闭环

- 1. **首答：**严格计时，保留原稿；Build a Sentence 每题 25—35 秒，Email 约 7 分钟，Discussion 约 10 分钟。
- 2. **核查：**句子题核查词块、主谓和关系；开放题用题后的四维评分卡圈出证据。
- 3. **逐句修订：**不整篇推倒重写。先标出一处任务遗漏、一处逻辑跳跃或一类语言错误，再写出可比较的第二稿。
- 4. **迁移：**24 小时后换一道相同能力、不同题材的题；能解释“为何这样写”才算掌握。

17.1.2 2. 本章评分标记（内部教学标准，非 ETS 官方换算）

标记	观察什么	2 分表现	1 分表现	0 分表现
T 任务完成	是否直接完成读者需要的行动/讨论问题	所有关键要求明确可执行	完成主要求，但漏一项或不够具体	偏题、无请求或无立场
D 发展与证据	理由、事实、例子是否解释主张	有相关的因果链或具体情境	有理由但停在断言	空泛重复或细节无关
O 组织与语气	信息顺序、衔接、对象意识	易读，语气合乎对象	基本可读，偶有跳跃/生硬	难以跟随或语域失当
L 语言控制	句法、词义、搭配与拼写	稳定清楚，少量小错碍理解	错误偶尔干扰	错误反复阻碍理解

Email 与 Discussion 每题按 T/D/O/L 各 0—2 分记录（满分 8）；这只是本书的诊断尺，不是官方分数。Build a Sentence 每题按 C（所有词块、核心关系和语法）0—2 分：2 为完整正确，1 为

有一处实质错误但大意易懂，0 为主干/关系缺失。改错题按“找对 + 改对 + 说清原因”各 1 分。

17.1.3 3. 答案对应与自评边界

本章所有题号采用 BS、EC、AD、ED 前缀；完整参考答案和可接受变体按同一编号编入第 19 章的答案索引（例如 BS-001 → 19.BS-001）。开放题不存在唯一措辞：第 19 章提供的是一篇完整可行答案、要点映射和替代论证方向，不能替代你先完成首稿。本章不以字数、复杂词数量或固定开头套句评分。

17.2 二、Build a Sentence: 305 题句法耐力训练

17.2.1 1. 做题动作：先决定关系，再安排词序

每道题的词块均须全部使用一次；除大小写、标点与不改变意义的自然词序外，不添加新事实。看到 **although / because / if / when**，先决定从句边界；看到 **that / whether / why**，先找它所引导的名词性从句；看到 **which / who / that**，先找被修饰的名词。每题写完用十秒核对：有限动词是否存在、主谓是否一致、连接词是否重复、代词是否有清楚指代。

每一道 BS 题的任务要点与评分维度：任务要点为“用全部词块、保持题面关系、写成一个自然完整句”；评分维度为 C 0—2 分（2= 词块/主干/关系均正确，1= 一处实质错误但大意易懂，0= 主干或核心关系缺失）。答案对应第 19 章同号 19.BS-xxx。

句法卡 01 | 社区花园

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-001—19.BS-005。

- **BS-001** 词块：although / before spring planting / volunteers / found / that / the compost bins / were repaired **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-002** 词块：volunteers / reported / that / the compost bins / were repaired / before spring planting **考点：**宾语从句；**评分：**C 0—2。
- **BS-003** 词块：the compost bins / which / volunteers / examined / were repaired / before spring planting **考点：**关系从句；**评分：**C 0—2。
- **BS-004** 词块：volunteers / changed the plan / because / before spring planting / affected / the compost bins **考点：**原因与结果；**评分：**C 0—2。
- **BS-005** 词块：if / the compost bins / is checked carefully / volunteers / can explain / why / it / were repaired **考点：**条件与时间；**评分：**C 0—2。

句法卡 02 | 夜班诊所

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-006—19.BS-010。

- **BS-006** 词块：the clinic manager / reported / that / the appointment system / would reduce waiting time / if patients confirmed online **考点：**宾语从句；**评分：**C 0—2。

- **BS-007** 词块: the appointment system / which / the clinic manager / examined / would reduce waiting time / if patients confirmed online 考点: 关系从句; 评分: C 0—2。
- **BS-008** 词块: the clinic manager / changed the plan / because / if patients confirmed online / affected / the appointment system 考点: 原因与结果; 评分: C 0—2。
- **BS-009** 词块: if / the appointment system / is checked carefully / the clinic manager / can explain / why / it / would reduce waiting time 考点: 条件与时间; 评分: C 0—2。
- **BS-010** 词块: although / if patients confirmed online / the clinic manager / found / that / the appointment system / would reduce waiting time 考点: 让步从句与主句; 评分: C 0—2。

句法卡 03 | 城市档案馆

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-011—19.BS-015。

- **BS-011** 词块: the map collection / which / the archivist / examined / had been digitized / after a local grant 考点: 关系从句; 评分: C 0—2。
- **BS-012** 词块: the archivist / changed the plan / because / after a local grant / affected / the map collection 考点: 原因与结果; 评分: C 0—2。
- **BS-013** 词块: if / the map collection / is checked carefully / the archivist / can explain / why / it / had been digitized 考点: 条件与时间; 评分: C 0—2。
- **BS-014** 词块: although / after a local grant / the archivist / found / that / the map collection / had been digitized 考点: 让步从句与主句; 评分: C 0—2。
- **BS-015** 词块: the archivist / reported / that / the map collection / had been digitized / after a local grant 考点: 宾语从句; 评分: C 0—2。

句法卡 04 | 河流监测

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-016—19.BS-020。

- **BS-016** 词块: the biology students / changed the plan / because / after the factory upgrade / affected / the water samples 考点: 原因与结果; 评分: C 0—2。
- **BS-017** 词块: if / the water samples / is checked carefully / the biology students / can explain / why / it / showed lower pollution levels 考点: 条件与时间; 评分: C 0—2。
- **BS-018** 词块: although / after the factory upgrade / the biology students / found / that / the water samples / showed lower pollution levels 考点: 让步从句与主句; 评分: C 0—2。
- **BS-019** 词块: the biology students / reported / that / the water samples / showed lower pollution levels / after the factory upgrade 考点: 宾语从句; 评分: C 0—2。
- **BS-020** 词块: the water samples / which / the biology students / examined / showed lower pollution levels / after the factory upgrade 考点: 关系从句; 评分: C 0—2。

句法卡 05 | 独立书店

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-021—19.BS-025。

- **BS-021** 词块：if / the evening reading series / is checked carefully / the owner / can explain / why / it / attracted new visitors **考点：**条件与时间；**评分：**C 0—2。
- **BS-022** 词块：although / although advertising was limited / the owner / found / that / the evening reading series / attracted new visitors **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-023** 词块：the owner / reported / that / the evening reading series / attracted new visitors / although advertising was limited **考点：**宾语从句；**评分：**C 0—2。
- **BS-024** 词块：the evening reading series / which / the owner / examined / attracted new visitors / although advertising was limited **考点：**关系从句；**评分：**C 0—2。
- **BS-025** 词块：the owner / changed the plan / because / although advertising was limited / affected / the evening reading series **考点：**原因与结果；**评分：**C 0—2。

句法卡 06 | 太阳能停车棚

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-026—19.BS-030。

- **BS-026** 词块：although / because winter snow was heavy / the engineers / found / that / the first design / needed stronger supports **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-027** 词块：the engineers / reported / that / the first design / needed stronger supports / because winter snow was heavy **考点：**宾语从句；**评分：**C 0—2。
- **BS-028** 词块：the first design / which / the engineers / examined / needed stronger supports / because winter snow was heavy **考点：**关系从句；**评分：**C 0—2。
- **BS-029** 词块：the engineers / changed the plan / because / because winter snow was heavy / affected / the first design **考点：**原因与结果；**评分：**C 0—2。
- **BS-030** 词块：if / the first design / is checked carefully / the engineers / can explain / why / it / needed stronger supports **考点：**条件与时间；**评分：**C 0—2。

句法卡 07 | 校车路线

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-031—19.BS-035。

- **BS-031** 词块：the transport office / reported / that / the revised route / would serve three neighborhoods / when the bridge reopened **考点：**宾语从句；**评分：**C 0—2。
- **BS-032** 词块：the revised route / which / the transport office / examined / would serve three neighborhoods / when the bridge reopened **考点：**关系从句；**评分：**C 0—2。

- **BS-033** 词块: the transport office / changed the plan / because / when the bridge reopened / affected / the revised route 考点: 原因与结果; 评分: C 0—2。
- **BS-034** 词块: if / the revised route / is checked carefully / the transport office / can explain / why / it / would serve three neighborhoods 考点: 条件与时间; 评分: C 0—2。
- **BS-035** 词块: although / when the bridge reopened / the transport office / found / that / the revised route / would serve three neighborhoods 考点: 让步从句与主句; 评分: C 0—2。

句法卡 08 | 博物馆触摸展

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-036—19.BS-040。

- **BS-036** 词块: the raised labels / which / the curator / examined / helped visitors navigate / who had limited vision 考点: 关系从句; 评分: C 0—2。
- **BS-037** 词块: the curator / changed the plan / because / who had limited vision / affected / the raised labels 考点: 原因与结果; 评分: C 0—2。
- **BS-038** 词块: if / the raised labels / is checked carefully / the curator / can explain / why / it / helped visitors navigate 考点: 条件与时间; 评分: C 0—2。
- **BS-039** 词块: although / who had limited vision / the curator / found / that / the raised labels / helped visitors navigate 考点: 让步从句与主句; 评分: C 0—2。
- **BS-040** 词块: the curator / reported / that / the raised labels / helped visitors navigate / who had limited vision 考点: 宾语从句; 评分: C 0—2。

句法卡 09 | 社区厨房

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-041—19.BS-045。

- **BS-041** 词块: the coordinator / changed the plan / because / because the oven was inspected / affected / the food-safety class 考点: 原因与结果; 评分: C 0—2。
- **BS-042** 词块: if / the food-safety class / is checked carefully / the coordinator / can explain / why / it / was moved to Tuesday 考点: 条件与时间; 评分: C 0—2。
- **BS-043** 词块: although / because the oven was inspected / the coordinator / found / that / the food-safety class / was moved to Tuesday 考点: 让步从句与主句; 评分: C 0—2。
- **BS-044** 词块: the coordinator / reported / that / the food-safety class / was moved to Tuesday / because the oven was inspected 考点: 宾语从句; 评分: C 0—2。
- **BS-045** 词块: the food-safety class / which / the coordinator / examined / was moved to Tuesday / because the oven was inspected 考点: 关系从句; 评分: C 0—2。

句法卡 10 | 湿地步道

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-046—19.BS-050。

- **BS-046** 词块：if / the wooden path / is checked carefully / the park staff / can explain / why / it / was closed temporarily **考点：**条件与时间；**评分：**C 0—2。
- **BS-047** 词块：although / after floodwater damaged it / the park staff / found / that / the wooden path / was closed temporarily **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-048** 词块：the park staff / reported / that / the wooden path / was closed temporarily / after floodwater damaged it **考点：**宾语从句；**评分：**C 0—2。
- **BS-049** 词块：the wooden path / which / the park staff / examined / was closed temporarily / after floodwater damaged it **考点：**关系从句；**评分：**C 0—2。
- **BS-050** 词块：the park staff / changed the plan / because / after floodwater damaged it / affected / the wooden path **考点：**原因与结果；**评分：**C 0—2。

句法卡 11 | 远程实验室

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-051—19.BS-055。

- **BS-051** 词块：although / without handling chemicals / the instructor / found / that / the virtual microscope / allows students to compare samples **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-052** 词块：the instructor / reported / that / the virtual microscope / allows students to compare samples / without handling chemicals **考点：**宾语从句；**评分：**C 0—2。
- **BS-053** 词块：the virtual microscope / which / the instructor / examined / allows students to compare samples / without handling chemicals **考点：**关系从句；**评分：**C 0—2。
- **BS-054** 词块：the instructor / changed the plan / because / without handling chemicals / affected / the virtual microscope **考点：**原因与结果；**评分：**C 0—2。
- **BS-055** 词块：if / the virtual microscope / is checked carefully / the instructor / can explain / why / it / allows students to compare samples **考点：**条件与时间；**评分：**C 0—2。

句法卡 12 | 小企业贷款

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-056—19.BS-060。

- **BS-056** 词块：the adviser / reported / that / the application guide / explained which documents were needed / before a meeting **考点：**宾语从句；**评分：**C 0—2。
- **BS-057** 词块：the application guide / which / the adviser / examined / explained which documents were needed / before a meeting **考点：**关系从句；**评分：**C 0—2。
- **BS-058** 词块：the adviser / changed the plan / because / before a meeting / affected / the application guide **考点：**原因与结果；**评分：**C 0—2。

- **BS-059** 词块: if / the application guide / is checked carefully / the adviser / can explain / why / it / explained which documents were needed 考点: 条件与时间; 评分: C 0—2。
- **BS-060** 词块: although / before a meeting / the adviser / found / that / the application guide / explained which documents were needed 考点: 让步从句与主句; 评分: C 0—2。

句法卡 13 | 旧剧院修缮

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-061—19.BS-065。

- **BS-061** 词块: the ceiling paint / which / the preservation team / examined / was tested carefully / so that original colors could be matched 考点: 关系从句; 评分: C 0—2。
- **BS-062** 词块: the preservation team / changed the plan / because / so that original colors could be matched / affected / the ceiling paint 考点: 原因与结果; 评分: C 0—2。
- **BS-063** 词块: if / the ceiling paint / is checked carefully / the preservation team / can explain / why / it / was tested carefully 考点: 条件与时间; 评分: C 0—2。
- **BS-064** 词块: although / so that original colors could be matched / the preservation team / found / that / the ceiling paint / was tested carefully 考点: 让步从句与主句; 评分: C 0—2。
- **BS-065** 词块: the preservation team / reported / that / the ceiling paint / was tested carefully / so that original colors could be matched 考点: 宾语从句; 评分: C 0—2。

句法卡 14 | 公共自行车

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-066—19.BS-070。

- **BS-066** 词块: the city council / changed the plan / because / to support transfers / affected / the docking stations 考点: 原因与结果; 评分: C 0—2。
- **BS-067** 词块: if / the docking stations / is checked carefully / the city council / can explain / why / it / were placed near bus stops 考点: 条件与时间; 评分: C 0—2。
- **BS-068** 词块: although / to support transfers / the city council / found / that / the docking stations / were placed near bus stops 考点: 让步从句与主句; 评分: C 0—2。
- **BS-069** 词块: the city council / reported / that / the docking stations / were placed near bus stops / to support transfers 考点: 宾语从句; 评分: C 0—2。
- **BS-070** 词块: the docking stations / which / the city council / examined / were placed near bus stops / to support transfers 考点: 关系从句; 评分: C 0—2。

句法卡 15 | 语言交换会

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-071—19.BS-075。

- **BS-071** 词块: if / the conversation tables / is checked carefully / the student union / can explain / why / it / will be divided by interest **考点：**条件与时间；**评分：**C 0—2。
- **BS-072** 词块: although / if enough mentors register / the student union / found / that / the conversation tables / will be divided by interest **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-073** 词块: the student union / reported / that / the conversation tables / will be divided by interest / if enough mentors register **考点：**宾语从句；**评分：**C 0—2。
- **BS-074** 词块: the conversation tables / which / the student union / examined / will be divided by interest / if enough mentors register **考点：**关系从句；**评分：**C 0—2。
- **BS-075** 词块: the student union / changed the plan / because / if enough mentors register / affected / the conversation tables **考点：**原因与结果；**评分：**C 0—2。

句法卡 16 | 海岸警报

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-076—19.BS-080。

- **BS-076** 词块: although / during the storm drill / the emergency office / found / that / the text-message system / reached residents quickly **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-077** 词块: the emergency office / reported / that / the text-message system / reached residents quickly / during the storm drill **考点：**宾语从句；**评分：**C 0—2。
- **BS-078** 词块: the text-message system / which / the emergency office / examined / reached residents quickly / during the storm drill **考点：**关系从句；**评分：**C 0—2。
- **BS-079** 词块: the emergency office / changed the plan / because / during the storm drill / affected / the text-message system **考点：**原因与结果；**评分：**C 0—2。
- **BS-080** 词块: if / the text-message system / is checked carefully / the emergency office / can explain / why / it / reached residents quickly **考点：**条件与时间；**评分：**C 0—2。

句法卡 17 | 修理咖啡馆

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-081—19.BS-085。

- **BS-081** 词块: the technician / reported / that / the broken lamp / worked again / after its loose wire was secured **考点：**宾语从句；**评分：**C 0—2。
- **BS-082** 词块: the broken lamp / which / the technician / examined / worked again / after its loose wire was secured **考点：**关系从句；**评分：**C 0—2。
- **BS-083** 词块: the technician / changed the plan / because / after its loose wire was secured / affected / the broken lamp **考点：**原因与结果；**评分：**C 0—2。

- **BS-084** 词块: if / the broken lamp / is checked carefully / the technician / can explain / why / it / worked again 考点: 条件与时间; 评分: C 0—2。
- **BS-085** 词块: although / after its loose wire was secured / the technician / found / that / the broken lamp / worked again 考点: 让步从句与主句; 评分: C 0—2。

句法卡 18 | 儿童科学馆

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-086—19.BS-090。

- **BS-086** 词块: the magnetic blocks / which / the designers / examined / were arranged at low tables / so younger visitors could reach them 考点: 关系从句; 评分: C 0—2。
- **BS-087** 词块: the designers / changed the plan / because / so younger visitors could reach them / affected / the magnetic blocks 考点: 原因与结果; 评分: C 0—2。
- **BS-088** 词块: if / the magnetic blocks / is checked carefully / the designers / can explain / why / it / were arranged at low tables 考点: 条件与时间; 评分: C 0—2。

- **BS-193** 词块: although / for students with allergies / the nutrition office / found / that / the new labels / show which meals contain nuts **考点：**让步从句与主句；**评**

分: C 0—2。

- **BS-194** 词块: the nutrition office / reported / that / the new labels / show which meals contain nuts / for students with allergies 考点: 宾语从句; 评分: C 0—2。
- **BS-195** 词块: the new labels / which / the nutrition office / examined / show which meals contain nuts / for students with allergies 考点: 关系从句; 评分: C 0—2。

句法卡 40 | 港口物流

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-196—19.BS-200。

- **BS-196** 词块: if / the delivery schedule / is checked carefully / the operators / can explain / why / it / changed 考点: 条件与时间; 评分: C 0—2。
- **BS-197** 词块: although / after fog delayed several ships / the operators / found / that / the delivery schedule / changed 考点: 让步从句与主句; 评分: C 0—2。
- **BS-198** 词块: the operators / reported / that / the delivery schedule / changed / after fog delayed several ships 考点: 宾语从句; 评分: C 0—2。
- **BS-199** 词块: the delivery schedule / which / the operators / examined / changed / after fog delayed several ships 考点: 关系从句; 评分: C 0—2。
- **BS-200** 词块: the operators / changed the plan / because / after fog delayed several ships / affected / the delivery schedule 考点: 原因与结果; 评分: C 0—2。

句法卡 41 | 公园夜跑

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-201—19.BS-205。

- **BS-201** 词块: although / after sunset / the organizers / found / that / the reflective markers / made the route safer 考点: 让步从句与主句; 评分: C 0—2。
- **BS-202** 词块: the organizers / reported / that / the reflective markers / made the route safer / after sunset 考点: 宾语从句; 评分: C 0—2。
- **BS-203** 词块: the reflective markers / which / the organizers / examined / made the route safer / after sunset 考点: 关系从句; 评分: C 0—2。
- **BS-204** 词块: the organizers / changed the plan / because / after sunset / affected / the reflective markers 考点: 原因与结果; 评分: C 0—2。
- **BS-205** 词块: if / the reflective markers / is checked carefully / the organizers / can explain / why / it / made the route safer 考点: 条件与时间; 评分: C 0—2。

句法卡 42 | 小镇口述史

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-206—19.BS-210。

- **BS-206** 词块: the interviewer / reported / that / the recorded stories / will be stored / where families can hear them 考点: 宾语从句; 评分: C 0—2。
- **BS-207** 词块: the recorded stories / which / the interviewer / examined / will be stored / where families can hear them 考点: 关系从句; 评分: C 0—2。

- **BS-208** 词块: the interviewer / changed the plan / because / where families can hear them / affected / the recorded stories 考点: 原因与结果; 评分: C 0—2。
- **BS-209** 词块: if / the recorded stories / is checked carefully / the interviewer / can explain / why / it / will be stored 考点: 条件与时间; 评分: C 0—2。
- **BS-210** 词块: although / where families can hear them / the interviewer / found / that / the recorded stories / will be stored 考点: 让步从句与主句; 评分: C 0—2。

句法卡 43 | 公共艺术墙

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-211—19.BS-215。

- **BS-211** 词块: the weatherproof coating / which / the artists / examined / protected the mural / through two rainy seasons 考点: 关系从句; 评分: C 0—2。
- **BS-212** 词块: the artists / changed the plan / because / through two rainy seasons / affected / the weatherproof coating 考点: 原因与结果; 评分: C 0—2。
- **BS-213** 词块: if / the weatherproof coating / is checked carefully / the artists / can explain / why / it / protected the mural 考点: 条件与时间; 评分: C 0—2。
- **BS-214** 词块: although / through two rainy seasons / the artists / found / that / the weatherproof coating / protected the mural 考点: 让步从句与主句; 评分: C 0—2。
- **BS-215** 词块: the artists / reported / that / the weatherproof coating / protected the mural / through two rainy seasons 考点: 宾语从句; 评分: C 0—2。

句法卡 44 | 在线导师计划

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-216—19.BS-220。

- **BS-216** 词块: the coordinator / changed the plan / because / before students withdraw / affected / the weekly check-in 考点: 原因与结果; 评分: C 0—2。
- **BS-217** 词块: if / the weekly check-in / is checked carefully / the coordinator / can explain / why / it / helps mentors notice problems 考点: 条件与时间; 评分: C 0—2。
- **BS-218** 词块: although / before students withdraw / the coordinator / found / that / the weekly check-in / helps mentors notice problems 考点: 让步从句与主句; 评分: C 0—2。
- **BS-219** 词块: the coordinator / reported / that / the weekly check-in / helps mentors notice problems / before students withdraw 考点: 宾语从句; 评分: C 0—2。
- **BS-220** 词块: the weekly check-in / which / the coordinator / examined / helps mentors notice problems / before students withdraw 考点: 关系从句; 评分: C 0—2。

句法卡 45 | 社区能源审计

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-221—19.BS-225。

- **BS-221** 词块: if / the older windows / is checked carefully / the inspectors / can explain / why / it / were responsible for heat loss **考点：**条件与时间；**评分：**C 0—2。
- **BS-222** 词块: although / in several homes / the inspectors / found / that / the older windows / were responsible for heat loss **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-223** 词块: the inspectors / reported / that / the older windows / were responsible for heat loss / in several homes **考点：**宾语从句；**评分：**C 0—2。
- **BS-224** 词块: the older windows / which / the inspectors / examined / were responsible for heat loss / in several homes **考点：**关系从句；**评分：**C 0—2。
- **BS-225** 词块: the inspectors / changed the plan / because / in several homes / affected / the older windows **考点：**原因与结果；**评分：**C 0—2。

句法卡 46 | 高校实验农场

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-226—19.BS-230。

- **BS-226** 词块: although / saved electricity / the growers / found / that / the sensor data / suggested that watering at dawn **考点：**让步从句与主句；**评分：**C 0—2。
- **BS-227** 词块: the growers / reported / that / the sensor data / suggested that watering at dawn / saved electricity **考点：**宾语从句；**评分：**C 0—2。
- **BS-228** 词块: the sensor data / which / the growers / examined / suggested that watering at dawn / saved electricity **考点：**关系从句；**评分：**C 0—2。
- **BS-229** 词块: the growers / changed the plan / because / saved electricity / affected / the sensor data **考点：**原因与结果；**评分：**C 0—2。
- **BS-230** 词块: if / the sensor data / is checked carefully / the growers / can explain / why / it / suggested that watering at dawn **考点：**条件与时间；**评分：**C 0—2。

句法卡 47 | 剧场字幕系统

本卡任务要点：识别主从层级，尤其留意连接词不能重复。**本卡评分：**下列每题均按 C 0—2 分；答案索引为第 19 章 19.BS-231—19.BS-235。

- **BS-231** 词块: the technician / reported / that / the caption display / was adjusted / so viewers at the back could read it **考点：**宾语从句；**评分：**C 0—2。
- **BS-232** 词块: the caption display / which / the technician / examined / was adjusted / so viewers at the back could read it **考点：**关系从句；**评分：**C 0—2。
- **BS-233** 词块: the technician / changed the plan / because / so viewers at the back could read it / affected / the caption display **考点：**原因与结果；**评分：**C 0—2。
- **BS-234** 词块: if / the caption display / is checked carefully / the technician / can explain / why / it / was adjusted **考点：**条件与时间；**评分：**C 0—2。
- **BS-235** 词块: although / so viewers at the back could read it / the technician /

found / that / the caption display / was adjusted 考点: 让步从句与主句; 评分: C 0—2。

句法卡 48 | 自然历史藏品

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-236—19.BS-240。

- **BS-236** 词块: the insect drawers / which / the curator / examined / were sealed / to protect specimens from pests 考点: 关系从句; 评分: C 0—2。
- **BS-237** 词块: the curator / changed the plan / because / to protect specimens from pests / affected / the insect drawers 考点: 原因与结果; 评分: C 0—2。
- **BS-238** 词块: if / the insect drawers / is checked carefully / the curator / can explain / why / it / were sealed 考点: 条件与时间; 评分: C 0—2。
- **BS-239** 词块: although / to protect specimens from pests / the curator / found / that / the insect drawers / were sealed 考点: 让步从句与主句; 评分: C 0—2。
- **BS-240** 词块: the curator / reported / that / the insect drawers / were sealed / to protect specimens from pests 考点: 宾语从句; 评分: C 0—2。

句法卡 49 | 市政听证会

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-241—19.BS-245。

- **BS-241** 词块: the chair / changed the plan / because / after two interpreters arrived late / affected / the speaker list 考点: 原因与结果; 评分: C 0—2。
- **BS-242** 词块: if / the speaker list / is checked carefully / the chair / can explain / why / it / was reordered 考点: 条件与时间; 评分: C 0—2。
- **BS-243** 词块: although / after two interpreters arrived late / the chair / found / that / the speaker list / was reordered 考点: 让步从句与主句; 评分: C 0—2。
- **BS-244** 词块: the chair / reported / that / the speaker list / was reordered / after two interpreters arrived late 考点: 宾语从句; 评分: C 0—2。
- **BS-245** 词块: the speaker list / which / the chair / examined / was reordered / after two interpreters arrived late 考点: 关系从句; 评分: C 0—2。

句法卡 50 | 学生创业赛

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-246—19.BS-250。

- **BS-246** 词块: if / the repair-service proposal / is checked carefully / the judges / can explain / why / it / won support 考点: 条件与时间; 评分: C 0—2。
- **BS-247** 词块: although / because it included a realistic budget / the judges / found / that / the repair-service proposal / won support 考点: 让步从句与主句; 评分: C 0—2。
- **BS-248** 词块: the judges / reported / that / the repair-service proposal / won support / because it included a realistic budget 考点: 宾语从句; 评分: C 0—2。

- **BS-249** 词块: the repair-service proposal / which / the judges / examined / won support / because it included a realistic budget **考点**: 关系从句; **评分**: C 0—2。
- **BS-250** 词块: the judges / changed the plan / because / because it included a realistic budget / affected / the repair-service proposal **考点**: 原因与结果; **评分**: C 0—2。

句法卡 51 | 社区游泳池

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-251—19.BS-255。

- **BS-251** 词块: although / before the summer program began / the maintenance crew / found / that / the water filter / was replaced **考点**: 让步从句与主句; **评分**: C 0—2。
- **BS-252** 词块: the maintenance crew / reported / that / the water filter / was replaced / before the summer program began **考点**: 宾语从句; **评分**: C 0—2。
- **BS-253** 词块: the water filter / which / the maintenance crew / examined / was replaced / before the summer program began **考点**: 关系从句; **评分**: C 0—2。
- **BS-254** 词块: the maintenance crew / changed the plan / because / before the summer program began / affected / the water filter **考点**: 原因与结果; **评分**: C 0—2。
- **BS-255** 词块: if / the water filter / is checked carefully / the maintenance crew / can explain / why / it / was replaced **考点**: 条件与时间; **评分**: C 0—2。

句法卡 52 | 移动诊疗车

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-256—19.BS-260。

- **BS-256** 词块: the driver / reported / that / the route map / avoids narrow streets / where the vehicle cannot turn **考点**: 宾语从句; **评分**: C 0—2。
- **BS-257** 词块: the route map / which / the driver / examined / avoids narrow streets / where the vehicle cannot turn **考点**: 关系从句; **评分**: C 0—2。
- **BS-258** 词块: the driver / changed the plan / because / where the vehicle cannot turn / affected / the route map **考点**: 原因与结果; **评分**: C 0—2。
- **BS-259** 词块: if / the route map / is checked carefully / the driver / can explain / why / it / avoids narrow streets **考点**: 条件与时间; **评分**: C 0—2。
- **BS-260** 词块: although / where the vehicle cannot turn / the driver / found / that / the route map / avoids narrow streets **考点**: 让步从句与主句; **评分**: C 0—2。

句法卡 53 | 城市声音档案

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-261—19.BS-265。

- **BS-261** 词块: the field recordings / which / the librarians / examined / were labeled / with dates and locations **考点**: 关系从句; **评分**: C 0—2。

- **BS-262** 词块: the librarians / changed the plan / because / with dates and locations / affected / the field recordings **考点**: 原因与结果; **评分**: C 0—2。
- **BS-263** 词块: if / the field recordings / is checked carefully / the librarians / can explain / why / it / were labeled **考点**: 条件与时间; **评分**: C 0—2。
- **BS-264** 词块: although / with dates and locations / the librarians / found / that / the field recordings / were labeled **考点**: 让步从句与主句; **评分**: C 0—2。
- **BS-265** 词块: the librarians / reported / that / the field recordings / were labeled / with dates and locations **考点**: 宾语从句; **评分**: C 0—2。

句法卡 54 | 职场技能讲座

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-266—19.BS-270。

- **BS-266** 词块: the presenter / changed the plan / because / that was immediately useful / affected / the practice interviews **考点**: 原因与结果; **评分**: C 0—2。
- **BS-267** 词块: if / the practice interviews / is checked carefully / the presenter / can explain / why / it / gave participants feedback **考点**: 条件与时间; **评分**: C 0—2。
- **BS-268** 词块: although / that was immediately useful / the presenter / found / that / the practice interviews / gave participants feedback **考点**: 让步从句与主句; **评分**: C 0—2。
- **BS-269** 词块: the presenter / reported / that / the practice interviews / gave participants feedback / that was immediately useful **考点**: 宾语从句; **评分**: C 0—2。
- **BS-270** 词块: the practice interviews / which / the presenter / examined / gave participants feedback / that was immediately useful **考点**: 关系从句; **评分**: C 0—2。

句法卡 55 | 野火恢复项目

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-271—19.BS-275。

- **BS-271** 词块: if / the first seedlings / is checked carefully / the ecologists / can explain / why / it / survived **考点**: 条件与时间; **评分**: C 0—2。
- **BS-272** 词块: although / although rainfall was scarce / the ecologists / found / that / the first seedlings / survived **考点**: 让步从句与主句; **评分**: C 0—2。
- **BS-273** 词块: the ecologists / reported / that / the first seedlings / survived / although rainfall was scarce **考点**: 宾语从句; **评分**: C 0—2。
- **BS-274** 词块: the first seedlings / which / the ecologists / examined / survived / although rainfall was scarce **考点**: 关系从句; **评分**: C 0—2。
- **BS-275** 词块: the ecologists / changed the plan / because / although rainfall was scarce / affected / the first seedlings **考点**: 原因与结果; **评分**: C 0—2。

句法卡 56 | 校园物品借用柜

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分**: 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-276—19.BS-280。

- **BS-276** 词块: although / if an item is overdue / the assistant / found / that / the return reminder / is sent automatically 考点: 让步从句与主句; 评分: C 0—2。
- **BS-277** 词块: the assistant / reported / that / the return reminder / is sent automatically / if an item is overdue 考点: 宾语从句; 评分: C 0—2。
- **BS-278** 词块: the return reminder / which / the assistant / examined / is sent automatically / if an item is overdue 考点: 关系从句; 评分: C 0—2。
- **BS-279** 词块: the assistant / changed the plan / because / if an item is overdue / affected / the return reminder 考点: 原因与结果; 评分: C 0—2。
- **BS-280** 词块: if / the return reminder / is checked carefully / the assistant / can explain / why / it / is sent automatically 考点: 条件与时间; 评分: C 0—2。

句法卡 57 | 海洋塑料项目

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-281—19.BS-285。

- **BS-281** 词块: the class / reported / that / the beach survey / revealed / that bottle caps were especially common 考点: 宾语从句; 评分: C 0—2。
- **BS-282** 词块: the beach survey / which / the class / examined / revealed / that bottle caps were especially common 考点: 关系从句; 评分: C 0—2。
- **BS-283** 词块: the class / changed the plan / because / that bottle caps were especially common / affected / the beach survey 考点: 原因与结果; 评分: C 0—2。
- **BS-284** 词块: if / the beach survey / is checked carefully / the class / can explain / why / it / revealed 考点: 条件与时间; 评分: C 0—2。
- **BS-285** 词块: although / that bottle caps were especially common / the class / found / that / the beach survey / revealed 考点: 让步从句与主句; 评分: C 0—2。

句法卡 58 | 邻里步行巴士

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-286—19.BS-290。

- **BS-286** 词块: the morning group / which / the parents / examined / leaves at seven forty / so children arrive together 考点: 关系从句; 评分: C 0—2。
- **BS-287** 词块: the parents / changed the plan / because / so children arrive together / affected / the morning group 考点: 原因与结果; 评分: C 0—2。
- **BS-288** 词块: if / the morning group / is checked carefully / the parents / can explain / why / it / leaves at seven forty 考点: 条件与时间; 评分: C 0—2。
- **BS-289** 词块: although / so children arrive together / the parents / found / that / the morning group / leaves at seven forty 考点: 让步从句与主句; 评分: C 0—2。
- **BS-290** 词块: the parents / reported / that / the morning group / leaves at seven forty / so children arrive together 考点: 宾语从句; 评分: C 0—2。

句法卡 59 | 翻新火车站

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。 **本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-291—19.BS-295。

- **BS-291** 词块: the engineers / changed the plan / because / until the doors opened smoothly / affected / the elevator test 考点: 原因与结果; 评分: C 0—2。
- **BS-292** 词块: if / the elevator test / is checked carefully / the engineers / can explain / why / it / was repeated 考点: 条件与时间; 评分: C 0—2。
- **BS-293** 词块: although / until the doors opened smoothly / the engineers / found / that / the elevator test / was repeated 考点: 让步从句与主句; 评分: C 0—2。
- **BS-294** 词块: the engineers / reported / that / the elevator test / was repeated / until the doors opened smoothly 考点: 宾语从句; 评分: C 0—2。
- **BS-295** 词块: the elevator test / which / the engineers / examined / was repeated / until the doors opened smoothly 考点: 关系从句; 评分: C 0—2。

句法卡 60 | 市集垃圾分类

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-296—19.BS-300。

- **BS-296** 词块: if / the compost signs / is checked carefully / the vendors / can explain / why / it / were rewritten 考点: 条件与时间; 评分: C 0—2。
- **BS-297** 词块: although / after visitors confused the bins / the vendors / found / that / the compost signs / were rewritten 考点: 让步从句与主句; 评分: C 0—2。
- **BS-298** 词块: the vendors / reported / that / the compost signs / were rewritten / after visitors confused the bins 考点: 宾语从句; 评分: C 0—2。
- **BS-299** 词块: the compost signs / which / the vendors / examined / were rewritten / after visitors confused the bins 考点: 关系从句; 评分: C 0—2。
- **BS-300** 词块: the vendors / changed the plan / because / after visitors confused the bins / affected / the compost signs 考点: 原因与结果; 评分: C 0—2。

句法卡 61 | 心理健康资源页

本卡任务要点: 识别主从层级, 尤其留意连接词不能重复。**本卡评分:** 下列每题均按 C 0—2 分; 答案索引为第 19 章 19.BS-301—19.BS-305。

- **BS-301** 词块: although / the appointment link was placed at the top / users / found / that it was hard to find help quickly 考点: 让步从句与主句; 评分: C 0—2。
- **BS-302** 词块: the web team / reported / that / the appointment link / was placed at the top / so users could find help quickly 考点: 宾语从句; 评分: C 0—2。
- **BS-303** 词块: the appointment link / which / the web team / examined / was placed at the top / so users could find help quickly 考点: 关系从句; 评分: C 0—2。
- **BS-304** 词块: because / the appointment link was affected / the web team / changed the plan / so users could find help quickly 考点: 原因与结果; 评分: C 0—2。
- **BS-305** 词块: if / the appointment link / is checked carefully / the web team / can explain / why / it / was placed at the top 考点: 条件与时间; 评分: C 0—2。

17.2.2 2. 句子题代表性诊断：高、中、低与逐句改写

题面: although / the survey / was small / its results / were useful / for planning the next workshop.

表现	作答	诊断
低	<i>Although the survey small, but its results useful.</i>	although 后缺谓语，且与 but 重复；漏掉用途信息。C=0。
中	<i>Although the survey was small, its results were useful.</i>	主干正确，但漏掉 <i>for planning the next workshop</i> ，核心信息不完整。C=1。
高	<i>Although the survey was small, its results were useful for planning the next workshop.</i>	所有词块、让步关系和主谓完整。C=2。

逐句修订: 1. *The survey was small, but useful.* (信息太少，不能显示题面让步关系) → 2. *Although the survey was small, its results were useful.* (恢复结构，仍漏用途) → 3. *Although the survey was small, its results were useful for planning the next workshop.* (补回被遗漏的目的信息)。修订时先保住关系，再补事实；不要为了“高级”加入题面没有的结论。

17.3 三、Write an Email: 80 个读者导向任务

17.3.1 1. 先画“读者行动线”

Email 的好稿不是把所有背景都告诉对方，而是让对方第一次阅读后知道：发生了什么、你希望他/她做什么、为何方案合理、下一步怎样确认。草稿先压缩为 对象 | 问题/机会 | 请求 | 你会承担的行动；称呼、收束和段落随情境变化。

每一道 EC 题的共通要求: 用英文写完整、得体的邮件，回应题面事实且不虚构承诺。每题“任务要点”就是 T 的检查项；评分为 T/D/O/L 各 0—2 分。完整范文、要点映射与可接受替代方案按同号收录于第 19 章。

EC-001 | 行动清楚的邮件

收件人: 媒体中心管理员 情境: 预约录音机被临时调给采访课，周四仍需录社区访谈
写作任务: Write the media-center manager to request a substitute recorder or Thursday time; identify the community interview and how you will test and return the equipment.
任务要点 (T): 说明不能延后原因; 请求相近设备或时段; 承诺测试归还
评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。答案索引: 19.EC-001。

EC-002 | 行动清楚的邮件

收件人：实验室协调员 **情境：**客户会议使你错过安全培训，下周一要处理样品

写作任务：Ask the lab coordinator for a make-up safety session or an approved alternative before Monday sample work; state that you will not enter the lab first.

任务要点 (T)：说明冲突；询问补训或合规替代；确认前不进入实验室

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-002。

EC-003 | 行动清楚的邮件

收件人：图书馆设施主管 **情境：**自动门卡住两天，轮椅使用者被迫绕行

写作任务：Report the stuck library door to the facilities supervisor, pinpointing the access barrier, and request repair plus a temporary accessible route notice.

任务要点 (T)：给地点时段；请求维修和临时指引；提供观察记录

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-003。

EC-004 | 行动清楚的邮件

收件人：河流清理领队 **情境：**周六志愿班与必须参加的工作培训冲突

写作任务：Tell the river-cleanup leader about the required training conflict and propose an afternoon shift or preparatory work that will still help Saturday's cleanup.

任务要点 (T)：尽早说明；提下午班或远程准备；询问最有帮助选择

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-004。

EC-005 | 行动清楚的邮件

收件人：教授 **情境：**扫描阅读材料无法被屏幕阅读器识别

写作任务：Email the professor for a screen-reader-compatible reading file, explaining the access problem and confirming how you will keep the assignment on schedule.

任务要点 (T)：说明障碍；请求可访问版本；确认按时完成

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-005。

EC-006 | 行动清楚的邮件

收件人：小组成员 **情境：**声音沙哑不能开场，但图表已完成

写作任务：Ask your group to move you from the spoken opening to the completed charts; make the role exchange and your remaining deliverable clear.

任务要点 (T)：说明限制；请求交换角色；列可交付部分

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-006。

EC-007 | 行动清楚的邮件

收件人：物业办公室 **情境：**浴室风扇夜间尖响，白天无人

写作任务：Request a maintenance appointment for the nighttime bathroom-fan noise, giving an entry window that works even though no one is home by day.

任务要点 (T)：描述问题；给入户时段；请求预约确认

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-007。

EC-008 | 行动清楚的邮件

收件人：交通办公室 **情境：**按时还车却被多收两小时费用

写作任务：Challenge the car-share charge with the return date, station record, and screenshot; ask the transport office to correct the two extra hours.

任务要点 (T)：给日期站点记录；请求核查更正；提供截图

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-008。

EC-009 | 行动清楚的邮件

收件人：社区中心前台 **情境：**职业小组和另一活动双重预订会议室

写作任务：Help the community-center desk resolve the double booking by naming the group size, needed time, and minimum equipment for a substitute room.

任务要点 (T)：说明人数时间；请求优先或替代空间；给设备底线

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-009。

EC-010 | 行动清楚的邮件

收件人：实习主管 **情境：**健康证明晚三天出具

写作任务：Update the internship supervisor on the delayed health certificate and request a compliant off-site task or adjusted start while it is issued.

任务要点 (T)：说明状态；请求调整或非现场任务；说明已行动

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-010。

EC-011 | 行动清楚的邮件

收件人：历史馆策展人 **情境：**课堂非商业展览想用两张馆藏照片

写作任务：Seek permission from the history curator to use two collection photographs in a noncommercial class exhibit and ask for the required credit line.

任务要点 (T)：说明目的受众；请求许可和署名要求；承诺遵守限制

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-011。

EC-012 | 行动清楚的邮件

收件人：食堂经理 **情境：**汤品未标清坚果成分

写作任务：Alert the cafeteria manager to the unclear nut information; request an ingredient check or label change before diners who need it choose the soup.

任务要点 (T)：客观说明风险；请求确认配料/更新标签；说明受益者

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-012。

EC-013 | 行动清楚的邮件

收件人：交通服务台 **情境：**充值后公交卡仍被闸机拒绝

写作任务：Ask the transit desk to investigate a newly reloaded card that gates reject, requesting safe verification or temporary access without exposing card data.

任务要点 (T)：给充值时间错误；请求检查/临时通行；安全处理卡号

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-013。

EC-014 | 行动清楚的邮件

收件人：研究导师 **情境：**会面与医院复查重叠

写作任务：Reschedule the research meeting around the medical follow-up by offering two times and attaching the questions you have already prepared.

任务要点 (T)：简要说明；给两个时段；附已准备问题

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-014。

EC-015 | 行动清楚的邮件

收件人：图书馆借阅台 **情境：**归还前发现书页被雨水卷曲

写作任务：Tell the circulation desk about rain-curved pages before returning the book; ask for the correct handling or fee process and commit to prompt return.

任务要点 (T)：如实描述；询问处理费用；承诺尽快归还

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-015。

EC-016 | 行动清楚的邮件

收件人：市政园艺部门 **情境：**软管横在幼儿园接送通道

写作任务：Ask the city gardening department to move or store the hose blocking the preschool pickup path, noting the time and offering volunteer help.

任务要点 (T)：给时间地点；请求调整或收纳；提志愿协助

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-016。

EC-017 | 行动清楚的邮件

收件人: 技术支持 **情境:** 家中网络使录音上传中断

写作任务: Describe the failed recording upload and steps already tried; ask IT for a reliable campus location or submission route and a confirmation.

任务要点 (T): 说明已尝试步骤; 询问校园地点/提交方式; 请求确认

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-017。

EC-018 | 行动清楚的邮件

收件人: 校报编辑 **情境:** 采访地点名称被写错

写作任务: Request a correction from the student-paper editor, supplying evidence for the place name and explaining why the local community needs it right.

任务要点 (T): 给准确名称证据; 请求更正; 说明社区影响

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-018。

EC-019 | 行动清楚的邮件

收件人: 学生组织财务员 **情境:** 印刷报价超过预算, 数字宣传可省钱

写作任务: Ask the student-organization treasurer to compare the over-budget print quote with digital promotion and choose a cost-saving revision.

任务要点 (T): 给差额原因; 请求调整; 比较两方案

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-019。

EC-020 | 行动清楚的邮件

收件人: 社区项目员 **情境:** 可志愿服务但背景审查未完成

写作任务: Tell the community-program officer that screening is unfinished; ask which preparation is permitted now and confirm your availability after clearance.

任务要点 (T): 说明状态; 询问准备工作; 承诺完成后服务

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-020。

EC-021 | 行动清楚的邮件

收件人: 体育馆前台 **情境:** 遗失深蓝水瓶, 底部有缩写

写作任务: Ask the gym front desk about the process for reclaiming a dark-blue bottle with initials, giving the loss time and identifying details without demanding a search.

任务要点 (T): 给特征时间; 询问领取流程; 不要求无谓搜索

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-021。

EC-022 | 行动清楚的邮件

收件人：受访组织联系人 **情境：**受访者临时出差

写作任务：Contact the interview organization after the interviewee's travel change; request either another contact or a new date that protects your project timeline.

任务要点 (T)：感谢原安排；请求替代联系人或新日期；说明时间线

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-022。

EC-023 | 行动清楚的邮件

收件人：办公室行政助理 **情境：**合同打印出现浅色条纹

写作任务：Report the printer's pale streaks to the office administrator, note the attempted fix, and ask for repair or a temporary place to print the contract.

任务要点 (T)：报告现象和尝试；请求维修；提临时地点

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-023。

EC-024 | 行动清楚的邮件

收件人：宿舍助理 **情境：**深夜乐器影响休息但想避免对立

写作任务：Ask the residence assistant to help address late-night instruments, specifying the affected hours and a respectful conversation you will try first.

任务要点 (T)：给时段；请求沟通协助；愿先友好交流

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-024。

EC-025 | 行动清楚的邮件

收件人：活动组织者 **情境：**听力不便同事参加讲座，自动字幕漏术语

写作任务：Request human captions or a speaker transcript for a colleague with hearing needs, explaining why automatic captions miss the lecture's technical terms.

任务要点 (T)：说明需求；请求人工字幕/讲稿；说明材料用途

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-025。

EC-026 | 行动清楚的邮件

收件人：校园设施团队 **情境：**授权献血海报贴在低光角落

写作任务：Ask campus facilities to relocate an approved blood-drive poster to a permitted high-traffic site and explain how you will follow posting rules.

任务要点 (T)：说明位置；请求移到允许高流量区；承诺遵守规则

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-026。

EC-027 | 行动清楚的邮件

收件人：课程助教 **情境：**考察集合点远，不能驾车

写作任务：Ask the teaching assistant for a carpool or alternate field-trip meeting point, explaining the travel limit and offering to share costs.

任务要点 (T)：说明限制；询问拼车/替代点；愿分担费用

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-027。

EC-028 | 行动清楚的邮件

收件人：交换项目协调员 **情境：**语言搭档两周未回复

写作任务：Tell the exchange coordinator about two unanswered weeks from a language partner and request a rematch or next-step advice while reaffirming participation.

任务要点 (T)：说明已联系；请求新匹配/建议；表示继续参与

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-028。

EC-029 | 行动清楚的邮件

收件人：大楼管理员 **情境：**油污餐盒使整箱回收被拒

写作任务：Ask the building manager to pilot clearer recycling signs after greasy containers contaminate a bin, offering help with resident education.

任务要点 (T)：说明模式；请求标识/试点；提教育协助

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-029。

EC-030 | 行动清楚的邮件

收件人：健康中心主管 **情境：**共享电脑显示上一用户姓名缩写

写作任务：Report the shared health-center computer's visible initials and request a privacy check, describing the screen behavior without naming the previous user.

任务要点 (T)：客观描述操作；请求检查隐私；不写身份

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-030。

EC-031 | 行动清楚的邮件

收件人：合作实验室技术员 **情境：**冷藏样品未及时到达

写作任务：Ask the partner-lab technician whether delayed refrigerated samples remain usable, include tracking risk, and propose a replacement shipment if needed.

任务要点 (T)：给追踪信息风险；询问能否处理；提重寄方案

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-031。

EC-032 | 行动清楚的邮件

收件人：活动协调员 **情境：**嘉宾严格素食且芝麻过敏

写作任务：Confirm a guest's vegan and sesame-allergy needs with the event coordinator, asking specifically about the menu and cross-contact controls.

任务要点 (T)：说明确认需求；请求菜单确认；问交叉接触

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-032。

EC-033 | 行动清楚的邮件

收件人：市政信息办公室 **情境：**双语路牌误译历史地名

写作任务：Report the mistranslated bilingual historical place name to the city information office, attach a source, and request review before it misleads visitors.

任务要点 (T)：提供来源；请求审查；说明导航文化影响

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-033。

EC-034 | 行动清楚的邮件

收件人：部门主管 **情境：**照护术后家人一周，文件不能安全访问

写作任务：Ask your department supervisor for secure temporary access while caring for a family member, listing the priority files and the one-week limit.

任务要点 (T)：说明临时性；请求设备/访问；列优先任务

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-034。

EC-035 | 行动清楚的邮件

收件人：校区安保部门 **情境：**夜校停车场到教室两盏灯不亮

写作任务：Request a lighting check and interim patrol from campus security, identifying the two dark lamps on the night-class route and their safety effect.

任务要点 (T)：给位置时段；请求检查/巡查；说明安全影响

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-035。

EC-036 | 行动清楚的邮件

收件人：注册办公室 **情境：**证书预览漏掉姓名连字符

写作任务：Ask registration to restore the hyphen missing from the certificate preview, giving the correct spelling, deadline, and approved proof route.

任务要点 (T)：给准确拼写截止；请求更正；按规定证明

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-036。

EC-037 | 行动清楚的邮件

收件人：项目负责人 **情境：**只能看共享日历不能加入客户会议

写作任务：Ask the project lead for the correct permission or process to join client meetings, explaining that calendar visibility alone prevents coordination.

任务要点 (T)：说明协调问题；请求权限/流程；承诺遵守规范

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-037。

EC-038 | 行动清楚的邮件

收件人：社区教育者 **情境：**报名增加，木料不够练习

写作任务：Ask the community educator to decide between more material funding and a smaller workshop after enrollment grew, comparing the effect on practice time.

任务要点 (T)：给人数变化；请求预算/捐赠；比较缩小与增购

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-038。

EC-039 | 行动清楚的邮件

收件人：授课教师 **情境：**反馈似乎评了初稿而非修订稿

写作任务：Request that the instructor verify which draft received feedback by citing timestamps and explaining that you want to understand the grading basis.

任务要点 (T)：说明时间戳；请求核对；说明想理解依据

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-039。

EC-040 | 行动清楚的邮件

收件人：公园管理处 **情境：**跑道饮水器漏水，清晨结滑

写作任务：Report the leaking park drinking fountain, locating the icy morning hazard and offering a photo while requesting repair or warning signs.

任务要点 (T)：给地点天气；请求维修/警示；提供照片

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-040。

EC-041 | 行动清楚的邮件

收件人：同学 **情境：**离组协作者仍是共享文件唯一管理员

写作任务：Ask the departing collaborator to transfer shared-file ownership before the deadline, preserving their contributions rather than deleting their work.

任务要点 (T)：说明截止；请求转移权限；不删除贡献

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-041。

EC-042 | 行动清楚的邮件

收件人：人力资源 **情境：**想观察用户研究会议但不接触保密数据

写作任务：Ask Human Resources whether you may observe a user-research meeting without confidential-data access and request the appropriate compliance guidance.

任务要点 (T)：说明范围；请求许可/合规指引；承诺保密

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-042。

EC-043 | 行动清楚的邮件

收件人：校友关系办公室 **情境：**团队想感谢工具捐赠者

写作任务：Ask alumni relations how a tool donor prefers to be acknowledged, explaining the donation's use and offering a review of the thank-you draft.

任务要点 (T)：说明用途；询问公开致谢偏好；提可审阅草稿

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-043。

EC-044 | 行动清楚的邮件

收件人：音乐系管理员 **情境：**合唱与语言口试相邻同时进行

写作任务：Ask the music administrator to separate an overlapping choir rehearsal and language oral exam, proposing workable room or time alternatives.

任务要点 (T)：说明重叠；请求调房/时；提可行选择

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-044。

EC-045 | 行动清楚的邮件

收件人：服务协调员 **情境：**户外修复材料不能淋雨

写作任务：Ask the service coordinator to make an early weather decision for rain-sensitive restoration materials and list indoor tasks that can replace outdoor work.

任务要点 (T)：说明天气阈值；请求提前决定室内任务；列可转移工作

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-045。

EC-046 | 行动清楚的邮件

收件人：IT 服务 **情境：**项目视频超出课程平台限额

写作任务：Ask IT for an approved storage or submission method for a video that exceeds the course-platform limit, noting file size, deadline, and access permissions.

任务要点 (T)：给大小截止尝试；请求替代存储；确认权限

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-046。

EC-047 | 行动清楚的邮件

收件人：无障碍办公室 **情境：**换课时电梯停留过久导致迟到

写作任务：Report repeat elevator delays to the accessibility office, give the reproducible change-of-class window, and request status information rather than special treatment.

任务要点 (T)：给可复现时段；请求维修状态；不求特殊优待

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-047。

EC-048 | 行动清楚的邮件

收件人：非营利编辑 **情境：**健康宣传单含不确定术语

写作任务：Ask the nonprofit editor to review uncertain health terms or provide a model, explaining your completed scope and commitment to revise safely.

任务要点 (T)：说明完成范围；请求审核/样例；承诺修改

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-048。

EC-049 | 行动清楚的邮件

收件人：会议餐饮员 **情境：**两名演讲者加入，餐点不足

写作任务：Ask the caterer to adjust food for two added speakers, state the new count and dietary needs, and set the latest time for confirmation.

任务要点 (T)：给新总数饮食；请求调整；给最晚时间

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-049。

EC-050 | 行动清楚的邮件

收件人：博物馆教育员 **情境：**可带团但不熟新路线

写作任务：Ask the museum educator for a short orientation or route map before leading a tour on an unfamiliar path, explaining how you will prepare independently.

任务要点 (T)：说明经验缺口；请求短训/路线图；承诺自学

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-050。

EC-051 | 行动清楚的邮件

收件人：研究组管理员 **情境：**分析软件在论文截止前到期

写作任务：Ask the research-group administrator for a renewal or temporary license before analysis software expires, documenting the paper deadline and current use.

任务要点 (T)：说明影响；请求续订/临时许可；给使用情况

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-051。

EC-052 | 行动清楚的邮件

收件人：诊所接待主管 **情境：**表格只用复杂英语，居民难完成

写作任务：Ask the clinic reception supervisor for plain-language or multilingual form guidance after residents struggle with complex English, offering to test a revision.

任务要点 (T)：说明观察；请求简明/多语说明；提可测试

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-052。

EC-053 | 行动清楚的邮件

收件人：同学 **情境：**术后短期缺课，想录讲解自学

写作任务：Ask a classmate's consent to record an explanation during short postoperative absence, setting a limited study purpose and a privacy-respecting alternative.

任务要点 (T)：说明用途期限；请求同意；尊重隐私并提替代

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-053。

EC-054 | 行动清楚的邮件

收件人：会员服务 **情境：**收据仍寄往旧地址

写作任务：Ask member services to correct the address for receipts through the secure process, requesting confirmation without including sensitive details in the email.

任务要点 (T)：按安全步骤验证；请求更新确认；不写敏感信息

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-054。

EC-055 | 行动清楚的邮件

收件人：艺术中心管理员 **情境：**手腕受伤不能搬重物

写作任务：Tell the arts-center manager which duties you can still do with an injured wrist and request lighter assignments while confirming attendance.

任务要点 (T)：说明限制可做工作；请求分配轻任务；确认到场

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-055。

EC-056 | 行动清楚的邮件

收件人：网站管理员 **情境：**报名链接跳到去年页面

写作任务：Report the registration link that opens last year's page, provide the correct destination, and request a quick correction before the deadline misdirects applicants.

任务要点 (T)：给错误/正确链接；请求更正；说明截止影响

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-056。

EC-057 | 行动清楚的邮件

收件人：活动负责人 **情境：**儿童照片同意书未全核对

写作任务：Tell the event lead that child-photo consent forms remain unchecked, ask for the review process, and promise not to upload anything early.

任务要点 (T)：说明状态；请求审核流程；承诺不先上传

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-057。

EC-058 | 行动清楚的邮件

收件人：设施报修台 **情境：**样品室周末温度高于设定值

写作任务：Report the sample room's weekend temperature range to facilities, request urgent inspection or backup storage, and explain why the timing matters.

任务要点 (T)：给记录范围；请求紧急检查/备用；说明时效

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-058。

EC-059 | 行动清楚的邮件

收件人：书店经理 **情境：**原主持缺席，你可代替但无提纲

写作任务：Offer to replace the absent bookstore host, but ask for an outline that lets you protect the event's quality rather than improvise blindly.

任务要点 (T)：说明可承担；请求提纲；说明保障质量

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-059。

EC-060 | 行动清楚的邮件

收件人：交通主管 **情境：**校车坡道展开慢，早高峰等待

写作任务：Report the slow school-bus ramp with route and peak-time observations, request an equipment check, and keep the message focused on the system, not the driver.

任务要点 (T)：给车次时间表现；请求检查；不怪司机

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-060。

EC-061 | 行动清楚的邮件

收件人：职业中心顾问 **情境：**想要试讲录像的重点反馈

写作任务：Ask the career-center adviser for targeted feedback on a teaching-demo video, naming the role, deadline, and two or three useful review dimensions.

任务要点 (T)：说明岗位时长；请求两三维；给截止

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-061。

EC-062 | 行动清楚的邮件

收件人: 报名者 **情境:** 讲座因空调坏改到图书馆

写作任务: Notify registrants that the lecture moved to the library because of failed air conditioning; give accessible directions and a cancellation route.

任务要点 (T): 说明地点路线无障碍; 请求确认; 提供取消渠道

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-062。

EC-063 | 行动清楚的邮件

收件人: 物业委员会 **情境:** 想安装雨水桶, 不清楚规则

写作任务: Ask the property committee about approval rules for a rain barrel at the proposed location and state that you will buy nothing before permission.

任务要点 (T): 说明用途位置; 请求规则审批; 获准再买

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-063。

EC-064 | 行动清楚的邮件

收件人: 课程管理员 **情境:** 评论针对同学口音而非观点

写作任务: Report a course comment aimed at a classmate's accent rather than ideas, requesting a criteria-based response and explaining the learning-climate harm.

任务要点 (T): 概述事实; 请求按准则处理; 说明环境影响

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-064。

EC-065 | 行动清楚的邮件

收件人: 实验室管理员 **情境:** 借用传感器少了保护盖

写作任务: Tell the lab manager that a borrowed sensor lacks its protective cap, ask about a replacement or reimbursement, and confirm that use has stopped.

任务要点 (T): 立即如实说明; 询问备用/赔偿; 暂停使用

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-065。

EC-066 | 行动清楚的邮件

收件人: 培训组织者 **情境:** 未进满额工作坊但与新职责相关

写作任务: Ask the training organizer for a waitlist, recording, or both for a full workshop tied to your new duties without asking to displace anyone.

任务要点 (T): 说明关联时间; 请求候补/录像; 不插队

评分维度: T 关键事实与请求都清楚; D 用题面事实解释方案; O 先背景后行动、语气适合收件人; L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引:** 19.EC-066。

EC-067 | 行动清楚的邮件

收件人：校区规划组 **情境：**自行车架远且棚下有闲置空间

写作任务： Ask the campus-planning group to assess moving bike racks to unused covered space, using rider patterns and offering to collect data.

任务要点 (T)： 说明使用模式；请求评估移动；提数据收集

评分维度： T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引：** 19.EC-067。

EC-068 | 行动清楚的邮件

收件人：健康服务台 **情境：**需要晚间可约咨询资源

写作任务： Ask the health-service desk for confidential evening counseling referrals, stating only the scheduling need and requesting a protected contact channel.

任务要点 (T)： 只说明时间需求；请求转介；确认保密渠道

评分维度： T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引：** 19.EC-068。

EC-069 | 行动清楚的邮件

收件人：活动主管 **情境：**快速口头安全说明难跟上

写作任务： Ask the activity supervisor for written or slower safety instructions after rapid briefings are hard to follow, suggesting diagrams as another support.

任务要点 (T)： 说明障碍；请求书面/慢速；提图示

评分维度： T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引：** 19.EC-069。

EC-070 | 行动清楚的邮件

收件人：合租室友 **情境：**公共台面留油渍，大家互猜

写作任务： Ask housemates to adopt a neutral counter-cleaning rotation, describe the grease pattern without blame, and invite adjustments to the schedule.

任务要点 (T)： 非指责描述；提轮值；邀请调整

评分维度： T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引：** 19.EC-070。

EC-071 | 行动清楚的邮件

收件人：会议秘书 **情境：**网页旧尺寸和邮件新尺寸不同

写作任务： Ask the conference secretary to resolve conflicting webpage and email size limits, identify both sources and explain what decision you need before revising.

任务要点 (T)： 说明两信息截止；请求确认标准；提调整条件

评分维度： T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。 **答案索引：** 19.EC-071。

EC-072 | 行动清楚的邮件

收件人：校友联系人 **情境：**背景噪声使采访不可用

写作任务：Thank the alumni contact for the interview, explain that background noise made it unusable, and request a short rerecording or written follow-up.

任务要点 (T)：感谢原时间；解释技术问题；请求短重录/书面补充

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-072。

EC-073 | 行动清楚的邮件

收件人：IT 服务台 **情境：**公共键盘卡键影响输入

写作任务：Report a sticking key on a public keyboard with its device number, request repair or replacement, and make clear that no passwords are included.

任务要点 (T)：给设备编号现象；请求维修/替换；不写密码

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-073。

EC-074 | 行动清楚的邮件

收件人：服装负责人 **情境：**借外套不合且演出临近

写作任务：Ask the costume coordinator for a replacement or alteration after the borrowed jacket fails the fitting, giving the performance date and return plan.

任务要点 (T)：给尺寸试穿；请求替换/改衣；安排归还

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-074。

EC-075 | 行动清楚的邮件

收件人：项目主持人 **情境：**术语陌生，想提前准备提问

写作任务：Ask the project host for key terms or slides before a technical session, explain that you want to prepare useful questions, and promise confidentiality.

任务要点 (T)：说明目的；请求讲义关键词；承诺保密

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-075。

EC-076 | 行动清楚的邮件

收件人：宿舍办公室 **情境：**临时照看治疗犬，不知访客规则

写作任务：Ask the housing office about rules for temporarily caring for a therapy dog, state the duration and purpose, and confirm boundaries for common areas.

任务要点 (T)：说明时长用途；请求规则；不擅入公共区

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-076。

EC-077 | 行动清楚的邮件

收件人：课程教师 **情境：**低温预报而装备清单不明

写作任务：Ask the course instructor to confirm required cold-weather equipment or a loan option, identifying the gap well before the field activity.

任务要点 (T)：说明已有缺口；请求确认/借用；提早提出

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-077。

EC-078 | 行动清楚的邮件

收件人：市民委员会秘书 **情境：**图表颜色对色觉差异者难区分

写作任务：Ask the civic-committee secretary to add patterns or accessible color contrast to a chart, explaining that the data must stay unchanged.

任务要点 (T)：说明可访问性；请求色彩/纹理；说明不改数据

评分维度：T 关键事实与请求都清楚；D 用题面事实解释方案；O 先背景后行动、语气适合收件人；L 用准确动词、时间与礼貌表达。各 0—2 分。**答案索引：**19.EC-078。

17.3.2 2. Email 代表性任务：从“道歉句”到可执行邮件

情境：你错过器材培训，但下周一必须参与实验。**必要动作：**说明冲突、请求补训或合规替代、交代你会怎样完成准备。

水平	片段	诊断
低	<i>I missed training. Please let me use the lab on Monday.</i>	只提出要求；没有原因、合规意识或下一步。T=0—1, D=0。
中	<i>I missed the training because of a client meeting. Could I use the lab on Monday?</i>	背景和请求有了，但没有补训方案。T=1, D=1。
高	<i>I had to attend an urgent client meeting during Friday's safety session. Because I need to prepare samples next Monday, could I attend a make-up session or complete the approved modules before working under supervision? I will finish any required quiz this weekend and wait for your confirmation before entering the lab.</i>	三项任务完整；给出两条合规路径且承担责任。T/D/O/L=2。

逐句修改：1. *I missed training.* → *I missed Friday's safety session because I had to attend an urgent client meeting.* (补足事实) → 2. *Please let me use the lab.* → *Could I attend a make-up session or complete the approved modules before working under*

supervision? (命令改成合规、可选的请求) → 3. 加入 *I will finish any required quiz...* (让收件人看到承担的行动)。

17.4 四、Academic Discussion: 80 个有回应、有推理的短论证

17.4.1 1. 不是“小作文模板”，而是给讨论增加一个可检验的想法

每题有教师问题和两位同学的简短观点。你不必“两边都同意”：选择或限定一个立场，说明机制，并让例子承担证明任务。建议顺序：立场 → 回应/让步 → 原因链 → 具体例子或后果。

每一道 AD 题的共通要求：用英文加入讨论，直接回答教师问题并与至少一位同学观点发生实质关系。任务要点是 T/D 的具体检查；评分为 T/D/O/L 各 0—2 分。第 19 章按同号提供完整示例、证据映射和不同立场的可接受路径。

AD-001 | 城市广场

教师问题：在“城市广场”的有限资源下，应优先 **增加长椅**还是 **种植树荫**？为什么？

同学 A：我支持增加长椅，因为它能立刻解决最明显的问题。 **同学 B：**我支持种植树荫，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the plaza design committee whether to add benches or plant shade trees. Take up one classmate's claim and explain how heat and resting time affect older visitors.

任务要点 (T/D)：面向广场设计组明确选择长椅或树荫；回应即时休息或长期降温的理由；说明炎热时段对老年使用者停留的影响。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-001。

AD-002 | 大学讲座

教师问题：在“大学讲座”的有限资源下，应优先 **默认录像**还是 **只限缺席者**？为什么？

同学 A：我支持默认录像，因为它能立刻解决最明显的问题。 **同学 B：**我支持只限缺席者，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the lecture program director on whether to record every lecture or restrict recordings to absentees; answer a classmate by showing how recording access changes preparation, attendance, and privacy.

任务要点 (T/D)：向讲座负责人建议录像范围；回应便利或限制的主张；解释录像对缺席学生、到场互动或隐私的具体影响。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-002。

AD-003 | 住宅区道路

教师问题：在“住宅区道路”的有限资源下，应优先 **降低限速**还是 **保持通行效率**？为什么？

同学 A：我支持降低限速，因为它能立刻解决最明显的问题。 **同学 B：**我支持保持通行效率，因为长期结果和不同使用者也必须考虑。

写作任务: Write for the neighborhood traffic board's decision meeting: choose or qualify whether to lower speeds or preserve traffic flow, then respond to A or B with how crossing risk changes for children and drivers.

任务要点 (T/D): 给道路委员会一项限速建议; 回应安全或效率的理由; 说明接送时段行人过街如何改变风险。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-003。

AD-004 | 博物馆服务

教师问题: 在“博物馆服务”的有限资源下, 应优先 **每周免费日** 还是 **降低拥挤**? 为什么?

同学 A: 我支持每周免费日, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持降低拥挤, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the museum services manager on whether to offer a free day or reduce crowding. Do more than agree: connect a classmate's reasoning to how entry price and crowd density shape the visit.

任务要点 (T/D): 为博物馆管理者提出取舍; 回应免费可及或拥挤体验; 用排队、展厅容量或首次访客说明机制。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-004。

AD-005 | 校园打印

教师问题: 在“校园打印”的有限资源下, 应优先 **减少免费配额** 还是 **保障困难学生**? 为什么?

同学 A: 我支持减少免费配额, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持保障困难学生, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the campus print-service director in English and defend a choice about whether to cut free quotas or protect students with financial need; test one peer's view against how a quota rule affects essential academic printing.

任务要点 (T/D): 向打印服务主管推荐规则; 回应节约或保障的看法; 说明某类课程材料为何不能简单减少。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-005。

AD-006 | 社区空地

教师问题: 在“社区空地”的有限资源下, 应优先 **建设菜园** 还是 **建设运动场**? 为什么?

同学 A: 我支持建设菜园, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持建设运动场, 因为长期结果和不同使用者也必须考虑。

写作任务: Post an English reply that helps the neighborhood land-use committee decide whether to build a garden or a sports court. Reply to one classmate through how each use creates recurring access for residents.

任务要点 (T/D): 给空地决策者建议用途; 回应食物、运动或共享时段; 用维护责任和不同年龄使用者解释选择。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-006。

AD-007 | 线上活动

教师问题：在“线上活动”的有限资源下，应优先 **默认自动字幕**还是 **只按需提供**？为什么？

同学 A：我支持默认自动字幕，因为它能立刻解决最明显的问题。 **同学 B：**我支持只按需提供，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the online-event organizer whether to enable automatic captions by default or only on request. Take up one classmate's claim and explain how caption errors and access needs can be managed together.

任务要点 (T/D)：向线上活动组织者提出字幕规则；回应可及性或误转写担忧；说明技术术语如何核对而不关闭支持。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-007。

AD-008 | 旧邮局

教师问题：在“旧邮局”的有限资源下，应优先 **改为博物馆**还是 **改为社区中心**？为什么？

同学 A：我支持改为博物馆，因为它能立刻解决最明显的问题。 **同学 B：**我支持改为社区中心，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the historic-post-office board on whether to convert the building into a museum or a community center; answer a classmate by showing how weekday use and preservation needs can coexist.

任务要点 (T/D)：为旧邮局董事会建议改造方向；回应历史保存或社区活动；说明平日使用频率与建筑保护的关系。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-008。

AD-009 | 小公司政策

教师问题：在“小公司政策”的有限资源下，应优先 **固定远程日**还是 **固定到岗日**？为什么？

同学 A：我支持固定远程日，因为它能立刻解决最明显的问题。 **同学 B：**我支持固定到岗日，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the small-company manager's decision meeting: choose or qualify whether to set fixed remote days or fixed office days, then respond to A or B with how coordination differs for dependent tasks and focused work.

任务要点 (T/D)：给公司经理推荐出勤安排；回应协作或灵活性的理由；用交接任务和安静工作说明条件。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-009。

AD-010 | 饮水设施

教师问题：在“饮水设施”的有限资源下，应优先 **新建站点**还是 **改善现有地图**？为什么？

同学 A：我支持新建站点，因为它能立刻解决最明显的问题。**同学 B：**我支持改善现有地图，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the water-service planner on whether to build new stations or improve the existing map. Do more than agree: connect a classmate's reasoning to how route information affects access before new construction.

任务要点 (T/D)：向饮水规划者建议投资顺序；回应新增站点或地图的价值；说明夜间、炎热路线上的找水机制。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-010。

AD-011 | 公共标识

教师问题：在“公共标识”的有限资源下，应优先 **加入社区语言**还是 **保持简洁文字**？为什么？

同学 A：我支持加入社区语言，因为它能立刻解决最明显的问题。**同学 B：**我支持保持简洁文字，因为长期结果和不同使用者也必须考虑。

写作任务：Address the public-signage office in English and defend a choice about whether to add community languages or keep wording minimal; test one peer's view against how language access and visual clarity can be combined.

任务要点 (T/D)：给标识办公室建议呈现方式；回应母语可及或简洁要求；用图标、分层信息或导航后果说明。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-011。

AD-012 | 图书馆开放

教师问题：在“图书馆开放”的有限资源下，应优先 **延长到午夜**还是 **控制成本**？为什么？

同学 A：我支持延长到午夜，因为它能立刻解决最明显的问题。**同学 B：**我支持控制成本，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the library director decide whether to stay open until midnight or control staffing costs. Reply to one classmate through how later hours would be measured against actual demand.

任务要点 (T/D)：向图书馆主任提出开放方案；回应夜间需求或成本；说明试行期应比较哪些到馆和人员数据。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-012。

AD-013 | 二手平台

教师问题：在“二手平台”的有限资源下，应优先 **官方组织**还是 **由学生自发**？为什么？

同学 A：我支持官方组织，因为它能立刻解决最明显的问题。**同学 B：**我支持由学生自发，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the student-services team whether to run an official resale platform or leave it student-led. Take up one classmate's claim and explain how verification and low barriers affect trust.

任务要点 (T/D)：为学生服务团队建议平台责任；回应可靠性或自发性的主张；说明身份核验和进入门槛如何影响交易。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-013。

AD-014 | 课堂手机

教师问题：在“课堂手机”的有限资源下，应优先 **全面禁止**还是 **有限学习使用**？为什么？

同学 A：我支持全面禁止，因为它能立刻解决最明显的问题。**同学 B：**我支持有限学习使用，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the classroom policy committee on whether to ban phones or allow limited academic use; answer a classmate by showing how a rule distinguishes learning tools from distractions.

任务要点 (T/D)：给课堂委员会建议手机规则；回应专注或学习用途；说明何时、由谁允许使用才能可执行。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-014。

AD-015 | 雨水管理

教师问题：在“雨水管理”的有限资源下，应优先 **补贴家庭雨水桶**还是 **建设公共设施**？为什么？

同学 A：我支持补贴家庭雨水桶，因为它能立刻解决最明显的问题。**同学 B：**我支持建设公共设施，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the stormwater program's decision meeting: choose or qualify whether to subsidize home rain barrels or build public facilities, then respond to A or B with how renters and homeowners benefit differently.

任务要点 (T/D)：向雨水项目提出投入建议；回应个人参与或公共覆盖；说明租住者与有院住户的公平差异。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-015。

AD-016 | 文化经费

教师问题：在“文化经费”的有限资源下，应优先 **资助壁画**还是 **资助参与式音乐**？为什么？

同学 A：我支持资助壁画，因为它能立刻解决最明显的问题。**同学 B：**我支持资助参与式音乐，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the arts-funding panel on whether to fund murals or participatory music. Do more than agree: connect a classmate's reasoning to how visibility and repeated participation create public value.

任务要点 (T/D)：为文化经费小组推荐资助；回应可见地标或参与机会；用维护期和参与人群说明回报。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-016。

AD-017 | 小组项目

教师问题：在“小组项目”的有限资源下，应优先 **统一评分**还是 **个人评分**？为什么？

同学 A：我支持统一评分，因为它能立刻解决最明显的问题。**同学 B：**我支持个人评分，因为长期结果和不同使用者也必须考虑。

写作任务：Address the course instructor in English and defend a choice about whether to give one group grade or individual grades; test one peer's view against how accountability can be shown without punishing collaboration.

任务要点 (T/D)：向课程教师建议评分方式；回应团队合作或个人责任；说明贡献记录怎样影响公平。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-017。

AD-018 | 外卖包装

教师问题：在“外卖包装”的有限资源下，应优先 **环保包装加价**还是 **餐馆承担成本**？为什么？

同学 A：我支持环保包装加价，因为它能立刻解决最明显的问题。**同学 B：**我支持餐馆承担成本，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the takeout-policy board decide whether to add a fee for greener packaging or make restaurants absorb it. Reply to one classmate through how price signals affect customers and small restaurants.

任务要点 (T/D)：给外卖政策组提出做法；回应环境成本或商家负担；说明价格变化如何影响点餐选择和利润。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-018。

AD-019 | 公园夜间

教师问题：在“公园夜间”的有限资源下，应优先 **增加照明**还是 **保护夜行动物**？为什么？

同学 A：我支持增加照明，因为它能立刻解决最明显的问题。**同学 B：**我支持保护夜行动物，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the park operations team whether to add lighting or protect nocturnal animals. Take up one classmate's claim and explain how light placement and hours change safety and habitat.

任务要点 (T/D)：向公园运营组建议夜间方案；回应安全或生态；说明定向照明、时段或区域如何避免二选一。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-019。

AD-020 | 写作课堂

教师问题：在“写作课堂”的有限资源下，应优先 **AI 改语法**还是 **完全不用 AI**？为什么？

同学 A：我支持 AI 改语法，因为它能立刻解决最明显的问题。**同学 B：**我支持完全不用 AI，因为

长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the writing-program director on whether to use AI for grammar or prohibit AI entirely; answer a classmate by showing how disclosure and revision ownership preserve learning.

任务要点 (T/D)：给写作项目负责人建议 AI 边界；回应纠错效率或诚信风险；说明学生如何标注使用并保留自己的论证。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-020。

AD-021 | 学生公交

教师问题：在“学生公交”的有限资源下，应优先 **全部免费**还是 **只补贴需要者**？为什么？

同学 A：我支持全部免费，因为它能立刻解决最明显的问题。**同学 B：**我支持只补贴需要者，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the student transit office's decision meeting: choose or qualify whether to make rides free for all or subsidize riders with need, then respond to A or B with how eligibility affects both uptake and budget reach.

任务要点 (T/D)：向学生交通办公室建议补贴对象；回应普惠或定向的理由；说明资格规则如何影响通勤者和资金覆盖。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-021。

AD-022 | 诊所预约

教师问题：在“诊所预约”的有限资源下，应优先 **优先线上**还是 **保留双渠道**？为什么？

同学 A：我支持优先线上，因为它能立刻解决最明显的问题。**同学 B：**我支持保留双渠道，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the clinic appointment manager on whether to favor online booking or retain two channels. Do more than agree: connect a classmate's reasoning to how booking choice affects callers with limited digital access.

任务要点 (T/D)：给诊所预约负责人建议渠道；回应效率或公平；说明不会用网络的患者如何仍能及时约到。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-022。

AD-023 | 阅读清单

教师问题：在“阅读清单”的有限资源下，应优先 **保留经典**还是 **加入新作品**？为什么？

同学 A：我支持保留经典，因为它能立刻解决最明显的问题。**同学 B：**我支持加入新作品，因为长期结果和不同使用者也必须考虑。

写作任务：Address the reading-list committee in English and defend a choice about whether to keep classics or add newer works; test one peer's view against how curricular continuity and representation serve readers.

任务要点 (T/D)：向书单委员会推荐比例；回应经典基础或新作品声音；说明一个单元如何连接两类文本。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-023。

AD-024 | 中学校服

教师问题：在“中学校服”的有限资源下，应优先 **要求统一**还是 **保留表达自由**？为什么？

同学 A：我支持要求统一，因为它能立刻解决最明显的问题。**同学 B：**我支持保留表达自由，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the school board decide whether to require uniforms or protect expressive choice. Reply to one classmate through how a policy affects cost, belonging, and student voice.

任务要点 (T/D)：给校董会建议校服规则；回应秩序或表达；说明家庭成本和学生归属感的具体后果。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-024。

AD-025 | 市中心交通

教师问题：在“市中心交通”的有限资源下，应优先 **每月无车日**还是 **保障商店通达**？为什么？

同学 A：我支持每月无车日，因为它能立刻解决最明显的问题。**同学 B：**我支持保障商店通达，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the downtown mobility office whether to hold monthly car-free days or protect store access. Take up one classmate's claim and explain how delivery windows and foot traffic change business impact.

任务要点 (T/D)：向市中心交通办建议无车安排；回应环境收益或商店通达；说明配送时窗和步行客流怎样缓冲影响。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-025。

AD-026 | 借书服务

教师问题：在“借书服务”的有限资源下，应优先 **增加自助机**还是 **保留人工柜台**？为什么？

同学 A：我支持增加自助机，因为它能立刻解决最明显的问题。**同学 B：**我支持保留人工柜台，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the library circulation manager on whether to add self-checkout machines or keep staffed counters; answer a classmate by showing how different users handle exceptions and privacy.

任务要点 (T/D)：给借阅服务经理建议柜台配置；回应效率或人工帮助；说明复杂借阅和隐私问题由谁处理。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-026。

AD-027 | 公园鸟类

教师问题：在“公园鸟类”的有限资源下，应优先 **禁止喂食**还是 **允许教育喂食**？为什么？

同学 A：我支持禁止喂食，因为它能立刻解决最明显的问题。**同学 B：**我支持允许教育喂食，因为长

期结果和不同使用者也必须考虑。

写作任务: Write for the park wildlife team's decision meeting: choose or qualify whether to ban feeding birds or permit educational feeding, then respond to A or B with how feeding changes animal behavior and public learning.

任务要点 (T/D): 向公园野生动物团队建议喂食规则; 回应保护或教育; 说明监督地点、饲料或季节如何改变结果。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-027。

AD-028 | 实习课程

教师问题: 在“实习课程”的有限资源下, 应优先 **全部给学分**还是 **按质量决定**? 为什么?

同学 A: 我支持全部给学分, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持按质量决定, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the internship-course coordinator on whether to award credit to all placements or base it on quality. Do more than agree: connect a classmate's reasoning to how supervision and learning evidence define a valid placement.

任务要点 (T/D): 给实习课程协调员建议学分标准; 回应机会平等或质量控制; 说明导师反馈和成果证据如何发挥作用。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-028。

AD-029 | 毕业云盘

教师问题: 在“毕业云盘”的有限资源下, 应优先 **自动删除**还是 **长期保留**? 为什么?

同学 A: 我支持自动删除, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持长期保留, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the alumni data office in English and defend a choice about whether to delete cloud files automatically or retain them long term; test one peer's view against how retention affects privacy, retrieval, and storage cost.

任务要点 (T/D): 向毕业云盘负责人建议保留期; 回应隐私或可追溯性; 说明提醒、导出期或分层存储怎样减少风险。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-029。

AD-030 | 新楼屋顶

教师问题: 在“新楼屋顶”的有限资源下, 应优先 **花园**还是 **太阳能板**? 为什么?

同学 A: 我支持花园, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持太阳能板, 因为长期结果和不同使用者也必须考虑。

写作任务: Post an English reply that helps the new-building committee decide whether to build a roof garden or install solar panels. Reply to one classmate through how seasonal benefits and maintenance affect the investment.

任务要点 (T/D): 给新楼委员会建议屋顶用途; 回应降温绿地或能源回报; 说明季节、维护和使用者的如

何影响选择。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-030。

AD-031 | 旧家具

教师问题：在“旧家具”的有限资源下，应优先 **修理**还是 **全部更换**？为什么？

同学 A：我支持修理，因为它能立刻解决最明显的问题。 **同学 B：**我支持全部更换，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the facilities manager whether to repair old furniture or replace it all. Take up one classmate's claim and explain how safety inspection and life-cycle cost guide the threshold.

任务要点 (T/D)：向设施经理建议家具处置；回应修理节约或整体更新；说明损坏程度和后续维护如何决定先后。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-031。

AD-032 | 家长会

教师问题：在“家长会”的有限资源下，应优先 **晚上举行**还是 **分时段举行**？为什么？

同学 A：我支持晚上举行，因为它能立刻解决最明显的问题。 **同学 B：**我支持分时段举行，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the parent-conference coordinator on whether to hold meetings in the evening or offer staggered times; answer a classmate by showing how schedules affect working families and teacher workload.

任务要点 (T/D)：给家长会协调员建议时段；回应集中效率或分散可及；说明轮班家长和教师等待时间的变化。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-032。

AD-033 | 研究数据

教师问题：在“研究数据”的有限资源下，应优先 **全部公开**还是 **保护性共享**？为什么？

同学 A：我支持全部公开，因为它能立刻解决最明显的问题。 **同学 B：**我支持保护性共享，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the research-data steward's decision meeting: choose or qualify whether to publish all data or share it protectively, then respond to A or B with how consent and reproducibility can be balanced.

任务要点 (T/D)：向数据管理人建议共享方式；回应公开透明或保护性访问；说明去标识、申请审核或复现需要。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-033。

AD-034 | 市集摊位

教师问题：在“市集摊位”的有限资源下，应优先 **抽签**还是 **按资历**？为什么？

同学 A：我支持抽签，因为它能立刻解决最明显的问题。 **同学 B：**我支持按资历，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the market manager on whether to allocate stalls by lottery or seniority. Do more than agree: connect a classmate's reasoning to how a selection rule affects newcomers and reliable vendors.

任务要点 (T/D)：给市集经理建议摊位规则；回应机会公平或经验回报；说明新摊主与长期守约者的影响。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-034。

AD-035 | 体育预算

教师问题：在“体育预算”的有限资源下，应优先 **校队设施**还是 **公共健身空间**？为什么？

同学 A：我支持校队设施，因为它能立刻解决最明显的问题。 **同学 B：**我支持公共健身空间，因为长期结果和不同使用者也必须考虑。

写作任务：Address the athletics budget board in English and defend a choice about whether to fund team facilities or public fitness space; test one peer's view against how participation breadth and competitive needs should be weighed.

任务要点 (T/D)：向体育预算组建议投入对象；回应校队成绩或公众使用；说明使用频率和可进入人群的差异。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-035。

AD-036 | 爽约管理

教师问题：在“爽约管理”的有限资源下，应优先 **收取消费**还是 **先做提醒**？为什么？

同学 A：我支持收取消费，因为它能立刻解决最明显的问题。 **同学 B：**我支持先做提醒，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the appointment-service manager decide whether to charge for no-shows or send reminders first. Reply to one classmate through how barriers and repeated absences require different responses.

任务要点 (T/D)：给爽约管理者建议顺序；回应惩戒或提醒；说明忘记、交通困难和反复缺席为何不能一概而论。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-036。

AD-037 | 小镇媒体

教师问题：在“小镇媒体”的有限资源下，应优先 **本地广播**还是 **社交频道**？为什么？

同学 A：我支持本地广播，因为它能立刻解决最明显的问题。 **同学 B：**我支持社交频道，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the town communications office whether to

use local radio or social channels. Take up one classmate's claim and explain how message reach changes during urgent and routine updates.

任务要点 (T/D): 向小镇媒体办公室建议渠道; 回应广播覆盖或社交互动; 说明停电、老年居民或实时更正的情形。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-037。

AD-038 | 课程考试

教师问题: 在“课程考试”的有限资源下, 应优先 **允许开卷** 还是 **强调记忆**? 为什么?

同学 A: 我支持允许开卷, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持强调记忆, 因为长期结果和不同使用者也必须考虑。

写作任务: In English, recommend a policy to the assessment designer on whether to allow open-book exams or emphasize memorization; answer a classmate by showing how the task measures application rather than lookup skill.

任务要点 (T/D): 给课程考试设计者建议形式; 回应资料使用或记忆基础; 说明题型如何防止只搜索答案。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-038。

AD-039 | 城市广场

教师问题: 在“城市广场”的有限资源下, 应优先 **建喷泉** 还是 **增加树荫**? 为什么?

同学 A: 我支持建喷泉, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持增加树荫, 因为长期结果和不同使用者也必须考虑。

写作任务: Write for the plaza renewal committee's decision meeting: choose or qualify whether to build a fountain or add shade trees, then respond to A or B with how water use, heat relief, and maintenance alter the choice.

任务要点 (T/D): 向广场更新组建议设施; 回应景观吸引力或树荫; 说明夏季降温、用水与维护成本的联系。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-039。

AD-040 | 大学出勤

教师问题: 在“大学出勤”的有限资源下, 应优先 **强制点名** 还是 **按成果评价**? 为什么?

同学 A: 我支持强制点名, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持按成果评价, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the university teaching office on whether to require attendance or assess outcomes. Do more than agree: connect a classmate's reasoning to how participation evidence differs from seat time.

任务要点 (T/D): 给教学办公室建议出勤规则; 回应到课纪律或成果评价; 说明讨论课和异步学习如何分别证明参与。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-040。

AD-041 | 停车场

教师问题：在“停车场”的有限资源下，应优先 **建充电桩**还是 **改善公交**？为什么？

同学 A：我支持建充电桩，因为它能立刻解决最明显的问题。 **同学 B：**我支持改善公交，因为长期结果和不同使用者也必须考虑。

写作任务：Address the parking and mobility office in English and defend a choice about whether to install chargers or improve bus service; test one peer's view against how each option changes car dependence across commuters.

任务要点 (T/D)：向停车与出行办公室建议投资；回应电动车便利或公交覆盖；说明无车学生和驾车员工的差异。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-041。

AD-042 | 校园广告

教师问题：在“校园广告”的有限资源下，应优先 **允许商业广告**还是 **限制教学楼广告**？为什么？

同学 A：我支持允许商业广告，因为它能立刻解决最明显的问题。 **同学 B：**我支持限制教学楼广告，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the campus advertising board decide whether to allow commercial ads or limit ads in teaching buildings. Reply to one classmate through how revenue and visual distraction affect learning space.

任务要点 (T/D)：给校园广告委员会建议边界；回应收入或教学环境；说明广告位置、时段和内容如何影响注意力。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-042。

AD-043 | 公共翻译

教师问题：在“公共翻译”的有限资源下，应优先 **志愿者服务**还是 **专业服务**？为什么？

同学 A：我支持志愿者服务，因为它能立刻解决最明显的问题。 **同学 B：**我支持专业服务，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the public-language office whether to use volunteer translators or professional services. Take up one classmate's claim and explain how accuracy, speed, and accountability differ by message type.

任务要点 (T/D)：向公共翻译办公室建议服务模式；回应成本或专业准确；说明紧急通知与一般活动为何需要不同标准。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-043。

AD-044 | 河岸空间

教师问题：在“河岸空间”的有限资源下，应优先 **自行车道**还是 **自然缓冲带**？为什么？

同学 A：我支持自行车道，因为它能立刻解决最明显的问题。 **同学 B：**我支持自然缓冲带，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the riverfront planning group on whether

to build a bike lane or a natural buffer; answer a classmate by showing how flood control and travel safety affect adjacent residents.

任务要点 (T/D): 给河岸规划组建议空间用途; 回应通勤便利或生态缓冲; 说明暴雨、骑行路线和岸线维护的关系。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-044。

AD-045 | 图书馆罚金

教师问题: 在“图书馆罚金”的有限资源下, 应优先 **取消罚金** 还是 **保留归还激励**? 为什么?

同学 A: 我支持取消罚金, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持保留归还激励, 因为长期结果和不同使用者也必须考虑。

写作任务: Write for the library policy team's decision meeting: choose or qualify whether to remove fines or retain return incentives, then respond to A or B with how reminders and replacement costs influence return behavior.

任务要点 (T/D): 向图书馆政策组建议罚金规则; 回应减少障碍或及时归还; 说明提醒、宽限期和高需求图书的机制。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-045。

AD-046 | 课程教材

教师问题: 在“课程教材”的有限资源下, 应优先 **电子书** 还是 **纸质书**? 为什么?

同学 A: 我支持电子书, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持纸质书, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the course-materials office on whether to adopt e-books or keep print books. Do more than agree: connect a classmate's reasoning to how annotation, access devices, and long reading affect learners.

任务要点 (T/D): 给教材办公室建议载体; 回应数字便利或纸本体验; 说明设备不足、标注和长时阅读的差异。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-046。

AD-047 | 应急教育

教师问题: 在“应急教育”的有限资源下, 应优先 **年度演练** 还是 **数字指南**? 为什么?

同学 A: 我支持年度演练, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持数字指南, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the emergency-preparedness office in English and defend a choice about whether to hold annual drills or provide digital guides; test one peer's view against how practice and reference tools work at different moments.

任务要点 (T/D): 向应急教育办公室建议资源; 回应演练记忆或指南可查; 说明紧急发生时的反应与平日复习如何衔接。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-047。

AD-048 | 市中心服务

教师问题：在“市中心服务”的有限资源下，应优先 **公共厕所**还是 **其他基础服务**？为什么？

同学 A：我支持公共厕所，因为它能立刻解决最明显的问题。 **同学 B：**我支持其他基础服务，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the downtown services council decide whether to build public toilets or fund other basic services. Reply to one classmate through how sanitation needs affect workers, visitors, and businesses.

任务要点 (T/D)：给市中心服务委员会建议优先项；回应卫生设施或其他需求；说明无厕对停留者和周边经营的后果。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-048。

AD-049 | 课堂工具

教师问题：在“课堂工具”的有限资源下，应优先 **减少屏幕**还是 **使用互动软件**？为什么？

同学 A：我支持减少屏幕，因为它能立刻解决最明显的问题。 **同学 B：**我支持使用互动软件，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the classroom technology team whether to reduce screens or use interactive software. Take up one classmate's claim and explain how a tool earns its place through a specific learning action.

任务要点 (T/D)：向课堂工具团队建议屏幕使用；回应分心或互动；说明某项软件如何让学生做出可观察的学习动作。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-049。

AD-050 | 社团经费

教师问题：在“社团经费”的有限资源下，应优先 **按成员数**还是 **按项目影响**？为什么？

同学 A：我支持按成员数，因为它能立刻解决最明显的问题。 **同学 B：**我支持按项目影响，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the student-club funding panel on whether to allocate funds by membership or project impact; answer a classmate by showing how small groups with broad service should be treated.

任务要点 (T/D)：给社团经费小组建议公式；回应成员规模或项目影响；说明小团体服务多人时怎样避免失衡。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-050。

AD-051 | 街头摊贩

教师问题：在“街头摊贩”的有限资源下，应优先 **放宽许可**还是 **控制人行空间**？为什么？

同学 A：我支持放宽许可，因为它能立刻解决最明显的问题。 **同学 B：**我支持控制人行空间，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the street-vending office's decision meeting: choose or qualify

whether to relax permits or protect pedestrian space, then respond to A or B with how location rules affect livelihood and wheelchair passage.

任务要点 (T/D): 向街头摊贩办公室建议许可; 回应经营机会或人行空间; 说明摊位间距、时段和无障碍通行。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-051。

AD-052 | 学术讲座

教师问题: 在“学术讲座”的有限资源下, 应优先 **提供午餐**还是 **邀请更好讲者**? 为什么?

同学 A: 我支持提供午餐, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持邀请更好讲者, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the academic-lecture committee on whether to provide lunch or invite a stronger speaker. Do more than agree: connect a classmate's reasoning to how attendance incentives differ from lasting academic benefit.

任务要点 (T/D): 给学术讲座委员会建议预算; 回应午餐吸引或讲者质量; 说明一次到场率与后续学习收获的区别。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-052。

AD-053 | 共享自行车

教师问题: 在“共享自行车”的有限资源下, 应优先 **附带头盔**还是 **用户自带**? 为什么?

同学 A: 我支持附带头盔, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持用户自带, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the bike-share operator in English and defend a choice about whether to supply helmets or require riders to bring them; test one peer's view against how availability, hygiene, and safety affect actual use.

任务要点 (T/D): 向共享自行车运营方建议头盔规则; 回应便利或个人责任; 说明清洁、缺货和风险如何处理。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-053。

AD-054 | 办公设计

教师问题: 在“办公设计”的有限资源下, 应优先 **开放布局**还是 **安静分区**? 为什么?

同学 A: 我支持开放布局, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持安静分区, 因为长期结果和不同使用者也必须考虑。

写作任务: Post an English reply that helps the office design team decide whether to use an open layout or create quiet zones. Reply to one classmate through how noise, collaboration, and task type require zoning.

任务要点 (T/D): 给办公设计组建议布局; 回应交流或专注; 说明电话、深度工作和共享区该怎样分配。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-054。

AD-055 | 地方历史

教师问题：在“地方历史”的有限资源下，应优先 **收集口述史**还是 **依靠官方档案**？为什么？

同学 A：我支持收集口述史，因为它能立刻解决最明显的问题。 **同学 B：**我支持依靠官方档案，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the local-history archive whether to collect oral histories or rely on official records. Take up one classmate's claim and explain how perspective and verification strengthen a public account.

任务要点 (T/D)：向地方历史档案组建议取材；回应亲历声音或档案可靠；说明交叉核对如何保留少见经验。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-055。

AD-056 | 快递服务

教师问题：在“快递服务”的有限资源下，应优先 **增加自助柜**还是 **保留人工领取**？为什么？

同学 A：我支持增加自助柜，因为它能立刻解决最明显的问题。 **同学 B：**我支持保留人工领取，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the parcel-service manager on whether to add lockers or retain staffed pickup; answer a classmate by showing how hours, failed deliveries, and special items affect access.

任务要点 (T/D)：给快递服务经理建议领取方式；回应自助效率或人工支持；说明晚归者、需签收物品和异常包裹的处理。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-056。

AD-057 | 空气污染

教师问题：在“空气污染”的有限资源下，应优先 **推送警报**还是 **避免提醒疲劳**？为什么？

同学 A：我支持推送警报，因为它能立刻解决最明显的问题。 **同学 B：**我支持避免提醒疲劳，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the air-quality office's decision meeting: choose or qualify whether to push alerts or avoid alert fatigue, then respond to A or B with how trigger thresholds make warnings actionable.

任务要点 (T/D)：向空气污染办公室建议提醒规则；回应及时警告或疲劳；说明何种指数、群体和行动才值得推送。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-057。

AD-058 | 课堂提问

教师问题：在“课堂提问”的有限资源下，应优先 **允许匿名**还是 **强调实名责任**？为什么？

同学 A：我支持允许匿名，因为它能立刻解决最明显的问题。 **同学 B：**我支持强调实名责任，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the classroom-discussion platform on

whether to allow anonymous questions or require named accountability. Do more than agree: connect a classmate's reasoning to how anonymity changes participation and moderation.

任务要点 (T/D): 给课堂提问平台建议身份设置; 回应敢问问题或责任; 说明审核、追问和敏感问题的机制。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-058。

AD-059 | 地铁文化

教师问题: 在“地铁文化”的有限资源下, 应优先 **允许街头音乐** 还是 **限制噪声**? 为什么?

同学 A: 我支持允许街头音乐, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持限制噪声, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the metro-culture office in English and defend a choice about whether to allow busking or limit noise; test one peer's view against how time, location, and volume protect both culture and riders.

任务要点 (T/D): 向地铁文化办公室建议表演规则; 回应活力或安静; 说明站点、时段和音量限制如何平衡。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-059。

AD-060 | 家庭堆肥

教师问题: 在“家庭堆肥”的有限资源下, 应优先 **补贴桶** 还是 **建社区设施**? 为什么?

同学 A: 我支持补贴桶, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持建社区设施, 因为长期结果和不同使用者也必须考虑。

写作任务: Post an English reply that helps the composting program decide whether to subsidize household bins or build a community site. Reply to one classmate through how space, upkeep, and renter access affect participation.

任务要点 (T/D): 向家庭堆肥项目建议模式; 回应家庭便利或集中管理; 说明无院住户和维护责任为何重要。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-060。

AD-061 | 职业服务

教师问题: 在“职业服务”的有限资源下, 应优先 **借用面试服装** 还是 **资助其他求职资源**? 为什么?

同学 A: 我支持借用面试服装, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持资助其他求职资源, 因为长期结果和不同使用者也必须考虑。

写作任务: Write an English post advising the career-services director whether to lend interview clothing or fund other job-search support. Take up one classmate's claim and explain how a limited resource removes different hiring barriers.

任务要点 (T/D): 给职业服务主任建议投入; 回应着装准备或其他资源; 说明面试机会、交通和简历支持的相对作用。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-061。

AD-062 | 自动门

教师问题：在“自动门”的有限资源下，应优先 **手动节能**还是 **保留无障碍**？为什么？

同学 A：我支持手动节能，因为它能立刻解决最明显的问题。 **同学 B：**我支持保留无障碍，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the building accessibility committee on whether to use manual doors to save energy or retain automatic doors; answer a classmate by showing how energy savings compare with independent entry.

任务要点 (T/D)：向无障碍委员会建议门禁；回应节能或独立通行；说明携物者、行动不便者和高峰流量的后果。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-062。

AD-063 | 校园停车

教师问题：在“校园停车”的有限资源下，应优先 **提高收费**还是 **维持低费率**？为什么？

同学 A：我支持提高收费，因为它能立刻解决最明显的问题。 **同学 B：**我支持维持低费率，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the campus parking office's decision meeting: choose or qualify whether to raise fees or keep rates low, then respond to A or B with how price changes affect congestion and lower-paid commuters.

任务要点 (T/D)：给校园停车办公室建议费率；回应需求管理或负担；说明替代交通是否先到位。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-063。

AD-064 | 城市树种

教师问题：在“城市树种”的有限资源下，应优先 **本地树**还是 **耐热树**？为什么？

同学 A：我支持本地树，因为它能立刻解决最明显的问题。 **同学 B：**我支持耐热树，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the urban-forestry team on whether to plant native trees or heat-tolerant trees. Do more than agree: connect a classmate's reasoning to how survival, habitat, and future heat shape the species mix.

任务要点 (T/D)：向城市树种团队建议配置；回应本地生态或耐热性；说明街区微气候和成活率如何决定比例。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-064。

AD-065 | 在线课程

教师问题：在“在线课程”的有限资源下，应优先 **证书收费**还是 **完全免费**？为什么？

同学 A：我支持证书收费，因为它能立刻解决最明显的问题。 **同学 B：**我支持完全免费，因为长期结

果和不同使用者也必须考虑。

写作任务：Address the online-learning provider in English and defend a choice about whether to charge for certificates or keep everything free; test one peer's view against how fees fund quality without excluding completion evidence.

任务要点 (T/D)：给在线课程平台建议证书收费；回应可持续性 or 免费开放；说明助学减免和课程维护的机制。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-065。

AD-066 | 社区空地

教师问题：在“社区空地”的有限资源下，应优先 **狗公园** 还是 **儿童游乐区**？为什么？

同学 A：我支持狗公园，因为它能立刻解决最明显的问题。**同学 B：**我支持儿童游乐区，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the neighborhood parks board decide whether to build a dog park or a children's play area. Reply to one classmate through how time-sharing and safety separate the users.

任务要点 (T/D)：向社区公园委员会建议空地用途；回应养犬者或儿童需求；说明围栏、时段和邻近住宅的影响。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-066。

AD-067 | 食堂餐具

教师问题：在“食堂餐具”的有限资源下，应优先 **取消一次性** 还是 **改善清洗系统**？为什么？

同学 A：我支持取消一次性，因为它能立刻解决最明显的问题。**同学 B：**我支持改善清洗系统，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the dining-services director whether to eliminate disposables or improve dishwashing. Take up one classmate's claim and explain how throughput, hygiene, and waste change at peak meals.

任务要点 (T/D)：给食堂服务主任建议餐具方案；回应减废或清洗能力；说明高峰排队、消毒和回收的关系。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-067。

AD-068 | 学生选举

教师问题：在“学生选举”的有限资源下，应优先 **完全线上** 还是 **保留线下投票**？为什么？

同学 A：我支持完全线上，因为它能立刻解决最明显的问题。**同学 B：**我支持保留线下投票，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the student election commission on whether to move fully online or retain in-person voting; answer a classmate by showing how verification and access differ across voters.

任务要点 (T/D)：向学生选举委员会建议投票渠道；回应便利或线下保障；说明身份核验、设备缺口和投票率。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-068。

AD-069 | 道路施工

教师问题：在“道路施工”的有限资源下，应优先 **夜间施工** 还是 **白天施工**？为什么？

同学 A：我支持夜间施工，因为它能立刻解决最明显的问题。 **同学 B：**我支持白天施工，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the roadworks scheduler's decision meeting: choose or qualify whether to work at night or during the day, then respond to A or B with how noise, traffic diversion, and worker safety shift by hour.

任务要点 (T/D)：给道路施工调度者建议时段；回应夜间通行或白天扰民；说明邻居睡眠、施工安全和绕行成本。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-069。

AD-070 | 校园导航

教师问题：在“校园导航”的有限资源下，应优先 **触觉引导线** 还是 **增加工作人员**？为什么？

同学 A：我支持触觉引导线，因为它能立刻解决最明显的问题。 **同学 B：**我支持增加工作人员，因为长期结果和不同使用者也必须考虑。

写作任务：State an English recommendation for the campus wayfinding office on whether to install tactile guide lines or add more staff. Do more than agree: connect a classmate's reasoning to how permanent cues and human help work for independent navigation.

任务要点 (T/D)：向校园导航办公室建议投入；回应触觉引导或人员协助；说明陌生访客与日常使用者的独立性。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-070。

AD-071 | 科学新闻

教师问题：在“科学新闻”的有限资源下，应优先 **同行评审前发布** 还是 **等待审稿**？为什么？

同学 A：我支持同行评审前发布，因为它能立刻解决最明显的问题。 **同学 B：**我支持等待审稿，因为长期结果和不同使用者也必须考虑。

写作任务：Address the science-news editor in English and defend a choice about whether to publish before peer review or wait for review; test one peer's view against how uncertainty labels and urgency affect public trust.

任务要点 (T/D)：给科学新闻编辑建议发布时机；回应速度或审稿可靠；说明怎样标注证据等级和更新结论。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-071。

AD-072 | 共享工具

教师问题：在“共享工具”的有限资源下，应优先 **资助借用库**还是 **鼓励私人服务**？为什么？

同学 A：我支持资助借用库，因为它能立刻解决最明显的问题。 **同学 B：**我支持鼓励私人服务，因为长期结果和不同使用者也必须考虑。

写作任务：Post an English reply that helps the shared-tools program decide whether to fund a lending library or encourage private services. Reply to one classmate through how deposits, repair, and affordability shape access.

任务要点 (T/D)：向共享工具项目建议模式；回应公共借用或私人服务；说明维修责任和低收入用户的进入门槛。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-072。

AD-073 | 写作教学

教师问题：在“写作教学”的有限资源下，应优先 **同伴互评**还是 **教师主导反馈**？为什么？

同学 A：我支持同伴互评，因为它能立刻解决最明显的问题。 **同学 B：**我支持教师主导反馈，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the writing-program coordinator whether to use peer review or teacher-led feedback. Take up one classmate's claim and explain how feedback timing and expertise serve different draft problems.

任务要点 (T/D)：给写作教学负责人建议反馈结构；回应同伴数量或教师质量；说明初稿和高风险错误分别适合谁看。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-073。

AD-074 | 地铁站

教师问题：在“地铁站”的有限资源下，应优先 **植物墙**还是 **清洁与安全**？为什么？

同学 A：我支持植物墙，因为它能立刻解决最明显的问题。 **同学 B：**我支持清洁与安全，因为长期结果和不同使用者也必须考虑。

写作任务：In English, recommend a policy to the metro-station manager on whether to install a plant wall or fund cleaning and safety; answer a classmate by showing how maintenance and rider confidence determine public value.

任务要点 (T/D)：向地铁站经理建议预算；回应美化或基本安全；说明清洁、照明和植物后续维护的优先关系。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-074。

AD-075 | 政府数据

教师问题：在“政府数据”的有限资源下，应优先 **实时仪表盘**还是 **定期摘要**？为什么？

同学 A：我支持实时仪表盘，因为它能立刻解决最明显的问题。 **同学 B：**我支持定期摘要，因为长期结果和不同使用者也必须考虑。

写作任务：Write for the government-data office's decision meeting: choose or qualify

whether to build real-time dashboards or publish periodic summaries, then respond to A or B with how update speed and interpretation affect public decisions.

任务要点 (T/D): 向政府数据办公室建议发布方式; 回应实时性或易读摘要; 说明数据波动、审核和普通读者理解。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-075。

AD-076 | 图书馆课程

教师问题: 在“图书馆课程”的有限资源下, 应优先 **数字技能** 还是 **传统读写**? 为什么?

同学 A: 我支持数字技能, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持传统读写, 因为长期结果和不同使用者也必须考虑。

写作任务: State an English recommendation for the library instruction team on whether to teach digital skills or traditional literacy. Do more than agree; connect a classmate's reasoning to how each skill supports research tasks at different stages.

任务要点 (T/D): 向图书馆课程团队建议课时; 回应数字检索或读写基础; 说明找资料、评估来源和深读如何衔接。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-076。

AD-077 | 会议资助

教师问题: 在“会议资助”的有限资源下, 应优先 **学生参会** 还是 **校内研究项目**? 为什么?

同学 A: 我支持学生参会, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持校内研究项目, 因为长期结果和不同使用者也必须考虑。

写作任务: Address the conference-funding committee in English and defend a choice about whether to send students to conferences or support internal research projects; test one peer's view against how networking and local capacity create different returns.

任务要点 (T/D): 给会议资助委员会建议对象; 回应学生参会或校内研究; 说明成果分享、导师网络和可持续产出。

评分维度: T 立场直接回答问题并真实回应同学; D 原因链和例子服务判断; O 用让步、对比或因果组织; L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引:** 19.AD-077。

AD-078 | 自然公园

教师问题: 在“自然公园”的有限资源下, 应优先 **预约入园** 还是 **自由进入**? 为什么?

同学 A: 我支持预约入园, 因为它能立刻解决最明显的问题。 **同学 B:** 我支持自由进入, 因为长期结果和不同使用者也必须考虑。

写作任务: Post an English reply that helps the nature-park authority decide whether to require reservations or allow free entry. Reply to one classmate through how visitor caps protect trails while keeping access fair.

任务要点 (T/D): 向自然公园管理方建议入园制度; 回应生态承载或开放性; 说明热门时段、预约名额和临时访客的处理。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-078。

AD-079 | 饮水服务

教师问题：在“饮水服务”的有限资源下，应优先 **新建设备**还是 **维修现有设备**？为什么？

同学 A：我支持新建设备，因为它能立刻解决最明显的问题。 **同学 B：**我支持维修现有设备，因为长期结果和不同使用者也必须考虑。

写作任务：Write an English post advising the drinking-water service whether to install new equipment or repair existing units. Take up one classmate's claim and explain how outage data and maintenance backlog determine urgency.

任务要点 (T/D)：向饮水服务部门建议优先项；回应扩建或维修；说明故障频率、覆盖区域和维护积压如何排序。

评分维度：T 立场直接回答问题并真实回应同学；D 原因链和例子服务判断；O 用让步、对比或因果组织；L 句法、词义和学术但自然的语气清楚。各 0—2 分。**答案索引：**19.AD-079。

17.4.2 2. Discussion 代表性任务：让回应推动论证

问题：线上活动应默认开启自动字幕吗？同学 A 认为字幕帮助听力不同的参与者；同学 B 担心错误字幕误导观众。

水平	片段	诊断
低	<i>Both students are right. Captions are important and errors are bad.</i>	没有判断、机制或回应。T=0, D=0。
中	<i>I agree with A because captions help people understand videos.</i>	有立场但没有处理关键反对意见。T=1, D=1。
高	<i>I would enable captions by default, but B is right that an inaccurate transcript can create a new barrier. Organizers should label automatic captions clearly and upload a checked term list for technical sessions. A chemistry lecture can keep captions on during questions while linking its reviewed chemical names. This preserves access without pretending the first transcript is perfect.</i>	立场、让步、机制和例子完整。T/D/O/L=2。

逐句修改：1. *Captions help people.* → *Default captions help participants who cannot reliably hear every word.* (明确对象) → 2. *However, inaccurate technical terms can con-*

fuse viewers. (回应反对点) → 3. *Therefore, organizers should label automatic captions and link a reviewed term list.* (从争论走向方案)。

17.5 五、Edit and Diagnose: 48 组改错与解释训练

每一道 ED 题的任务要点与评分：圈出影响理解的错误，写自然改句，再用中文说明规则。

每题 0—3 分：找对 1、改对 1、解释准确 1。答案对应 19.ED-xxx；不要只写“语法错”。

- **ED-001** 改错: *Although the workshop was useful, but many people left early.* **任务要点：**写自然改句，并说明“although 与 but 不并用”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-001。
- **ED-002** 改错: *The coordinator explain the new schedule yesterday.* **任务要点：**写自然改句，并说明“过去时 explained”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-002。
- **ED-003** 改错: *We discussed about the parking problem.* **任务要点：**写自然改句，并说明“discuss 直接接宾语”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-003。
- **ED-004** 改错: *Each volunteers needs a badge.* **任务要点：**写自然改句，并说明“each 后名词和动词单数”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-004。
- **ED-005** 改错: *The library offered an information about services.* **任务要点：**写自然改句，并说明“information 不可数”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-005。
- **ED-006** 改错: *If the rain will continue, the event will move.* **任务要点：**写自然改句，并说明“if 从句用一般现在时”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-006。
- **ED-007** 改错: *My supervisor suggested me to attend.* **任务要点：**写自然改句，并说明“suggest that I attend / suggested attending”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-007。
- **ED-008** 改错: *The report is due in Friday afternoon.* **任务要点：**写自然改句，并说明“具体日期前用 on”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-008。
- **ED-009** 改错: *There are less buses after ten.* **任务要点：**写自然改句，并说明“可数 buses 用 fewer”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-009。
- **ED-010** 改错: *The new signs makes the entrance clearer.* **任务要点：**写自然改句，并说明“signs make”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-010。
- **ED-011** 改错: *I am interested to join the repair team.* **任务要点：**写自然改句，并说明“interested in + -ing”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-011。
- **ED-012** 改错: *The samples were stored careful.* **任务要点：**写自然改句，并说明“副词 carefully 修饰 stored”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-012。
- **ED-013** 改错: *She asked where was the desk.* **任务要点：**写自然改句，并说明“间接问句不倒装”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-013。
- **ED-014** 改错: *The equipment that we borrowed it was damaged.* **任务要点：**写自然改句，并说明“关系从句不重复宾语”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-014。
- **ED-015** 改错: *I look forward to meet the speaker.* **任务要点：**写自然改句，并说明“look forward to + -ing”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-015。
- **ED-016** 改错: *The class has finished last week.* **任务要点：**写自然改句，并说明“明确过去时间用 finished”。**评分：**找错 1 + 改对 1 + 解释 1；**答案索引：**19.ED-016。
- **ED-017** 改错: *This route is more safer at night.* **任务要点：**写自然改句，并说明“比

- 较级不加 more”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-017。
- **ED-018** 改错：The adviser gave many useful advices. **任务要点**：写自然改句，并说明“advice 不可数”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-018。
 - **ED-019** 改错：We need a decision until noon. **任务要点**：写自然改句，并说明“截止用 by noon”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-019。
 - **ED-020** 改错：The form asks what do students need. **任务要点**：写自然改句，并说明“宾语从句不倒装”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-020。
 - **ED-021** 改错：Because the elevator was broken. We used stairs. **任务要点**：写自然改句，并说明“because 从句不能独立”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-021。
 - **ED-022** 改错：I borrowed the camera to my classmate. **任务要点**：写自然改句，并说明“borrow from; lend to”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-022。
 - **ED-023** 改错：The policy will effect how visitors enter. **任务要点**：写自然改句，并说明“动词用 affect”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-023。
 - **ED-024** 改错：Neither the manager nor assistants was available. **任务要点**：写自然改句，并说明“就近一致：were”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-024。
 - **ED-025** 改错：Please let me to know. **任务要点**：写自然改句，并说明“let + 宾语 + 原形”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-025。
 - **ED-026** 改错：People prefers later hours. **任务要点**：写自然改句，并说明“people prefer”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-026。
 - **ED-027** 改错：He is responsible of checking labels. **任务要点**：写自然改句，并说明“responsible for + -ing”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-027。
 - **ED-028** 改错：The article was wrote by a historian. **任务要点**：写自然改句，并说明“was written”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-028。
 - **ED-029** 改错：It is the most cheapest option. **任务要点**：写自然改句，并说明“最高级不加 most”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-029。
 - **ED-030** 改错：I have no idea where can I park. **任务要点**：写自然改句，并说明“间接问句不倒装”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-030。
 - **ED-031** 改错：The instructor explained us the sensor. **任务要点**：写自然改句，并说明“explain sth to sb”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-031。
 - **ED-032** 改错：One of student have lost a key. **任务要点**：写自然改句，并说明“one of + 复数；动词单数”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-032。
 - **ED-033** 改错：I am agree with the plan. **任务要点**：写自然改句，并说明“agree 是动词”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-033。
 - **ED-034** 改错：The map is designed for help visitors. **任务要点**：写自然改句，并说明“designed to help”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-034。
 - **ED-035** 改错：She has lived here since three years. **任务要点**：写自然改句，并说明“for + 时长；since + 起点”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-035。
 - **ED-036** 改错：The data shows clear changes. **任务要点**：写自然改句，并说明“本书按 data 复数：show”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-036。
 - **ED-037** 改错：We should to reserve earlier. **任务要点**：写自然改句，并说明“should + 原形”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-037。
 - **ED-038** 改错：I couldn't attend, due to I was sick. **任务要点**：写自然改句，并说明“due to + 名词；because + 从句”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-038。
 - **ED-039** 改错：This is the person which organized it. **任务要点**：写自然改句，并说

- 明“人用 who/that”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-039。
- **ED-040** 改错：The manager said me that it arrived. **任务要点**：写自然改句，并说明“tell someone; say to someone”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-040。
 - **ED-041** 改错：The course is worth to take. **任务要点**：写自然改句，并说明“worth + -ing”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-041。
 - **ED-042** 改错：By arrival, the talk already started. **任务要点**：写自然改句，并说明“had already started”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-042。
 - **ED-043** 改错：The museum is open between Monday to Friday. **任务要点**：写自然改句，并说明“between A and B / from A to B”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-043。
 - **ED-044** 改错：I have been here since two hours. **任务要点**：写自然改句，并说明“for two hours”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-044。
 - **ED-045** 改错：The results was surprising. **任务要点**：写自然改句，并说明“results were”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-045。
 - **ED-046** 改错：She asked me where do I live. **任务要点**：写自然改句，并说明“间接问句不倒装”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-046。
 - **ED-047** 改错：The room has too many furnitures. **任务要点**：写自然改句，并说明“furniture 不可数”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-047。
 - **ED-048** 改错：He explained that why the policy changed. **任务要点**：写自然改句，并说明“explain why; 不同时用 that”。**评分**：找错 1 + 改对 1 + 解释 1；**答案索引**：19.ED-048。

17.5.1 改错代表性任务：不要只把错误涂掉

- 原句**：Although the room is small, but it has enough equipments for the class.
1. **低表现**：只删掉 but; 保留不可数名词错误，得 1/3。
 2. **中表现**：Although the room is small, it has enough equipment. 语法正确但未说明原因，得 2/3。
 3. **高表现**：Although the room is small, it has enough equipment for the class. 解释：although 已表达让步，不能再接 but; equipment 通常不可数，不能加 -s，得 3/3。

17.6 六、四周混合使用与复盘

周末不排写作，第四列原本的“周末一次”改到**周五**：把工作日第三次练习延长到 70—90 分钟，或拆成周四、周五各半。

周次	平日三次 (35—50 分钟)	周五一次 (70—90 分钟)	可观察产出
1	BS 15 题 + ED 4 题	EC 2 题，只修改最低维度	句子 C 平均分和一张错误词块卡
2	BS 15 题; EC 1 题	AD 2 题，回应不同同学	两篇量表和一条修订规则
3	BS 10 题 + ED 6 题; AD 1 题限时	EC 2 题，改变对象和语气	两种可执行请求

周次	平日三次 (35—50 分钟)	周五一次 (70—90 分钟)	可观察产出
4	从错题号抽 BS 20、EC 1、AD 1	65 分钟混合测：BS20+EC1+AD1+ED4	首答、修订稿和唯一重点

| 题号 | 首答分数/用时 | 我遗漏的关系 | 我改的一个句子 | If—Then 动作 |
 |---|---|---|---|
 | 例如 EC-026 | T1 D1 O2 L2 / 7:10 | 没说明读者能做什么 | 把 *Captions are important* 改成明确请求 | 如果读者不能行动，我补动词和时间 |
 | 本次 | | | |

17.6.1 完成检查

- ☐ 完成 305 道 BS，记录所有 $C \leq 1$ 题号。
- ☐ 首答 80 封 EC；每封都有 T/D/O/L 自评和一个具体修订。
- ☐ 首答 80 个 AD；每则回应同学的具体理由，而非只写姓名。
- ☐ 完成 48 组 ED，并能说出规则。
- ☐ 用第 19 章同号答案核查；对开放题比较任务完成与逻辑，不逐字模仿。

17.7 附：补足的情境任务

EC-079 | 社区急救箱补货

收件人：社区中心运营员 **情境：**急救箱中的一次性手套和冷敷袋已用完，周末儿童活动即将开始。
写作任务：Write an email that reports the immediate need and requests a practical response.
任务要点 (T)：说明你何时发现问题；请求补货或确认替代物；说明活动前的检查行动。
评分维度：T 信息和请求完整；D 说明安全与时间关系；O 先事实后行动；L 语气专业准确。各 0—2 分。**答案索引：**19.EC-079。

EC-080 | 共享文件的版本冲突

收件人：项目协作者 **情境：**两人同时编辑项目计划，最新版本覆盖了对方的预算说明。
写作任务：Write an email that repairs the collaboration problem without assigning blame.
任务要点 (T)：说明可观察到的版本差异；请求比较或恢复记录；提出以后避免冲突的具体做法。
评分维度：T 目标和下一步清楚；D 用版本事实支持方案；O 保持合作语气；L 指代、时态和请求准确。各 0—2 分。**答案索引：**19.EC-080。

AD-080 | 社区维修资金

教师问题：社区的有限资金应优先用于修复人行道，还是用于修理公共游乐设施？
同学 A：我支持人行道，因为更多居民每天都会经过它们。 **同学 B：**我支持游乐设施，因为损坏的设

备会直接影响儿童安全。

写作任务：Add your own view in English. Respond meaningfully to at least one classmate.

任务要点 (T/D)：确定优先项或提出按风险分层的方案；回应“日常覆盖”或“直接安全”之一；用检查标准、地点或后果解释你的选择。

评分维度：T 直接回答并回应同学；D 理由链具体可检验；O 用对比或条件组织；L 表达自然清楚。各 0—2 分。**答案索引：**19.AD-080。

17.8 七、12 个修订诊室：把低稿改成读者可用的英语

每个诊室先遮住“更好版本”，自己修订 45 秒；再比较是否同时改善了任务完成、逻辑和语言。它们不是可背模板：请替换的是思考动作，不是词句。

17.8.1 诊室 1 | 请求太早

初稿：*I need a new time.*

更好版本：*My appointment conflicts with work. Could we meet Tuesday morning or Thursday after 3 p.m.?*

逐句修改理由：把无对象的要求改成“原因 + 两个选择”，让读者能直接安排。

迁移练习：从一则 EC 中挑出过早提出的请求，补上真实冲突和两个可选时段。**任务要点：**收件人能据此安排，不添加题外承诺；**评分维度：**T= 请求与选择完整，D= 冲突说明充分，O= 原因在请求前，L= 时间表达准确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.2 诊室 2 | 理由像口号

初稿：*Public parks are important because they are good.*

更好版本：*Public parks matter because shaded paths let older residents walk safely during hot afternoons.*

逐句修改理由：用具体人、条件和结果代替抽象形容词。

迁移练习：从一则 AD 中把“important/good”式理由改成“对象—条件—结果”链。**任务要点：**保留原立场，补一个可观察受益者和情境；**评分维度：**T= 判断未偏离，D= 因果可检验，O= 理由衔接自然，L= 搭配准确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.3 诊室 3 | 错误让步

初稿：*Although the room is crowded, but we should use it.*

更好版本：*Although the room is crowded, it is closest to the accessible entrance.*

逐句修改理由：删除重复连接词，并补上能改变判断的理由。

迁移练习：找一句含 although 或 but 的 EC/AD 句子，只保留一种让步结构并补回影响选择的理由。**任务要点：**让步和主句关系必须清楚；**评分维度：**T= 仍服务任务，D= 理由改变判断，O= 让步位置合理，L= 连接词不重复。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.4 诊室 4 | 无回应同学

初稿: *I agree with Jordan. Online classes are useful.*

更好版本: *Jordan is right that recordings help commuters, but recordings should include a weekly live question period.*

逐句修改理由: 先点出同学的具体理由, 再补充限制或机制。

迁移练习: 重写一则 AD 对同学的回应: 先复述其具体担忧, 再用限制、条件或方案推进自己的立场。

任务要点: 不能只写姓名或“同意”; **评分维度:** T= 回应对象明确, D= 处理了对方理由, O= 转折自然, L= 指代准确。各 0—2 分。**答案对应:** 在第 19 章记录原题号与改写。

17.8.5 诊室 5 | 信息堆积

初稿: *The event is Friday, and I am sick, and the room changed, and sorry.*

更好版本: *Because I am ill, I cannot lead Friday's event. Could you confirm whether Maya can use the new room while I send participants the updated directions?*

逐句修改理由: 按“原因 → 请求 → 承担行动”排序, 而不是并列事实。

迁移练习: 把一封 EC 的并列背景重排为“原因 → 请求 → 你承担的行动”。**任务要点:** 删除不影响对方决定的信息; **评分维度:** T= 行动请求完整, D= 背景解释请求, O= 顺序可执行, L= 句子边界清楚。各 0—2 分。**答案对应:** 在第 19 章记录原题号与改写。

17.8.6 诊室 6 | 强硬要求

初稿: *Send me the files today.*

更好版本: *Could you send the revised files by 4 p.m. if they are ready? I need time to check the captions before publication.*

逐句修改理由: 礼貌来自清晰条件和理由, 不来自冗长道歉。

迁移练习: 把一则 EC 的命令句改为有条件、截止和理由的礼貌请求。**任务要点:** 保留紧迫性但让收件人看见选择空间; **评分维度:** T= 所求动作明确, D= 期限有依据, O= 条件位置恰当, L= 情态动词得体。各 0—2 分。**答案对应:** 在第 19 章记录原题号与改写。

17.8.7 诊室 7 | 模糊例子

初稿: *A map would help students.*

更好版本: *A map that shows which fountains remain open after 6 p.m. would prevent evening students from walking to locked buildings.*

逐句修改理由: 让例子包含对象、时间和可观察后果。

迁移练习: 将一则 AD 的泛泛例子扩展为“谁在何时何地做什么, 结果如何”。**任务要点:** 例子必须检验该题的政策判断; **评分维度:** T= 例子服务立场, D= 后果具体, O= 例子接在理由后, L= 名词和时态准确。各 0—2 分。**答案对应:** 在第 19 章记录原题号与改写。

17.8.8 诊室 8 | 代词不清

初稿: *The team told the office that it was late.*

更好版本: *The team told the facilities office that the delivery truck was late.*

逐句修改理由: 同句有多个名词时, 以名词替代含糊的 it。

迁移练习：在一封 EC 中找一个 it、they 或 this，改成唯一可识别的具体名词。**任务要点：**检查前后句是否仍指向同一对象；**评分维度：**T= 信息未遗漏，D= 对象与请求相关，O= 衔接易跟随，L= 代词指代无歧义。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.9 诊室 9 | 无效结尾

初稿：*That is why I think my idea is better.*

更好版本：*For that reason, the library should test later hours for four weeks and compare evening attendance with staffing costs.*

逐句修改理由：结尾应给出判断或下一步，不应重复立场。

迁移练习：把一则 AD 的重复结尾改成条件化建议或可观察的下一步。**任务要点：**结尾必须告诉决策者要做什么、如何判断结果；**评分维度：**T= 结论直接，D= 标准可检验，O= 收束推进论证，L= 动词准确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.10 诊室 10 | 过度承诺

初稿：*I will solve all the problems before tomorrow.*

更好版本：*I will update the sign, contact the two registrants, and report any remaining access problem by tomorrow afternoon.*

逐句修改理由：把不可信的全称承诺换成可核查行动。

迁移练习：从一封 EC 中找一项过度承诺，拆成你能完成的两项行动与一个报告时间。**任务要点：**不把他人的决定写成你的保证；**评分维度：**T= 责任范围真实，D= 行动可核查，O= 步骤有序，L= 将来表达准确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.11 诊室 11 | 句子粘连

初稿：*The workshop was full, many people waited outside, we need another room.*

更好版本：*The workshop was full, so many people waited outside. We should reserve a larger room next time.*

逐句修改理由：用句号或逻辑连接词修复逗号拼接。

迁移练习：重写一条逗号粘连的 AD 句子，选择句号、分号或一个与因果相符的连接词。**任务要点：**修复后仍要保留理由到结论的关系；**评分维度：**T= 立场完整，D= 逻辑未断，O= 信息分组清楚，L= 独立分句正确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.12 诊室 12 | 例外遗漏

初稿：*The tools can be returned next week.*

更好版本：*Although most tools may be returned next week, electric tools must be returned by Friday at 6 p.m.*

逐句修改理由：保留一般规则时必须说明覆盖它的例外。

迁移练习：在一则 EC 或 AD 中补一个会改变一般规则的例外条件。**任务要点：**说明例外适用于谁、何时或何种风险；**评分维度：**T= 核心规则仍清楚，D= 例外有必要，O= 条件紧邻规则，L= 从句准确。各 0—2 分。**答案对应：**在第 19 章记录原题号与改写。

17.8.13 诊室补充 | 六种高频“看似正确”问题

补充诊室 13 | 证据与结论

初稿: *The survey has ten answers, so every resident agrees.*

更好版本: *The ten responses suggest a question worth testing, but they cannot represent every resident.*

逐句修改理由: 限定证据范围, 避免把小样本写成普遍结论。

迁移练习: 把一则 AD 的小样本结论改成带范围的判断, 并提出下一步要收集的证据。**任务要点:** 区分“提示”与“证明”; **评分维度:** T= 立场不过度, D= 证据边界明确, O= 限定在结论旁, L= 量词准确。各 0—2 分。

补充诊室 14 | 礼貌但不含糊

初稿: *Can you help me with this soon?*

更好版本: *Could you confirm by Wednesday whether the accessible room is available for the 6 p.m. session?*

逐句修改理由: 请求应包含动作、对象和时间, 而不是“help”或“soon”。

迁移练习: 把一封 EC 的模糊 help 请求改成“谁确认什么、最晚何时”的请求。**任务要点:** 让收件人无需猜测行动; **评分维度:** T= 对象和期限齐全, D= 紧迫性有原因, O= 请求置于背景后, L= 礼貌问句准确。各 0—2 分。

补充诊室 15 | 比较要有标准

初稿: *The new app is better than the old one.*

更好版本: *The new app is easier for first-time users because its error message explains the next step.*

逐句修改理由: 比较后补一个可观察标准。

迁移练习: 从一则 AD 中把“更好”改成一个明确比较标准, 并说明谁会看到差异。**任务要点:** 标准必须与两种方案都相关; **评分维度:** T= 仍作出选择, D= 比较可观察, O= 标准连接结论, L= 比较级自然。各 0—2 分。

补充诊室 16 | 例子不等于清单

初稿: *For example, buses, maps, signs, and many things are useful.*

更好版本: *For example, a map that marks the last evening bus helps a worker decide whether to leave before the library closes.*

逐句修改理由: 一个展开的例子优于四个未解释的名词。

迁移练习: 将一封 EC 或 AD 的名词清单收缩为一个展开的小场景, 写清行动和结果。**任务要点:** 不靠罗列凑证据; **评分维度:** T= 场景服务任务, D= 机制完整, O= 例子位置合理, L= 名词搭配准确。各 0—2 分。

补充诊室 17 | 避免假两边

初稿: *Both options have advantages, so either is fine.*

更好版本: *Although both options help, repairing the existing fountain should come first*

because the leak creates a safety risk now.

逐句修改理由：让让步服务明确判断，而不是逃避判断。

迁移练习：重写一则 AD 的“两边都好”结尾，在让步后明确给出优先项和当前理由。**任务要点：**承认另一方案的价值，但不能逃避决定；**评分维度：**T= 优先项明确，D= 当前风险或收益具体，O= 让步后有结论，L= 对比结构自然。各 0—2 分。

补充诊室 18 | 收束邮件

初稿：*Thank you for your help.*

更好版本：*Thank you for considering this adjustment. I will send the revised attendee list as soon as you confirm the room.*

逐句修改理由：收束句可重申你承担的下一步。

迁移练习：把一封 EC 的泛泛致谢改成“等待对方确认后我会交付什么”的收束。**任务要点：**重申你承担的下一步，不重复整封背景；**评分维度：**T= 确认动作明确，D= 行动与请求相连，O= 结尾有效，L= 时态和礼貌准确。各 0—2 分。

17.8.14 最后十分钟：提交前的逐句审校

不要把审校当成“找更高级的词”。按下面顺序读一遍原稿；每一步只处理一种问题，才能避免改出新错。

顺序	要问自己的问题	立即动作	对应失分风险
1	Email 的收件人能否在首两句知道我为何写信？Discussion 的读者能否知道我的立场？	给第一句补上目的或判断；删除与目的无关的寒暄。	T：目的埋得太深
2	我有没有漏掉题面要求的时间、对象、限制或例外？	用题面逐项勾选；只补必要事实，不编造背景。	T：信息漏答
3	每个理由后是否回答了“所以怎样”？	在理由后补一个因果、结果或具体情境。	D：只有断言
4	我回应的是同学的理由，还是只复制了同学姓名？	写出对方的一个具体担忧，再说明接受、限制或反驳它。	D：假回应
5	例子是否包含人物/地点、条件和结果中的至少两项？	把 <i>for example</i> 后的泛泛名词改成一个小场景。	D：例子空泛
6	段落顺序是否让读者先看事实、再看到行动？	把请求移到背景之后；把你愿承担的动作移到收束前。	O：信息跳跃
7	我是否用 <i>although...but</i> 、 <i>because...so</i> 这类重复连接？	每种逻辑关系保留一个连接词；重新确认主句和从句。	L：句法错误
8	每个可数单数名词、动词时态和主谓一致都准确吗？	从每句的有限动词向左找主语；圈出 <i>a/an/the</i> 的候选位置。	L：基础错误密集

顺序	要问自己的问题	立即动作	对应失分风险
9	代词 it/they/this 是否有唯一指代?	若前句有两个可能名词, 改回具体名词。	O/L: 指代不清
10	最后一句是重复观点, 还是让读者知道下一步?	Email 写确认/交付动作; Discussion 写条件化结论或可检验建议。	T/O: 无效收束

双稿规则：首稿完成后，只允许用这十项修改两处；在旁边标注“我改了什么、为什么”。如果修改只是把 *good* 换成 *beneficial*，而任务、逻辑和读者行动都没变，就不算有效修订。24 小时后重读时，先遮住修改稿，尝试说出当初的两个问题；能说出规则，才说明这次训练能迁移到新题。

第十八章 17 | 口语强化工作簿：400 句复述与 100 组连续采访

本章定位：这是 06 章方法的高密度执行册。所有英文句子、采访问题、示例与训练路径均为原创，供 2026 年新版 TOEFL iBT 口语能力训练使用；本章的分级、计时、记录和量表均为教学训练设计，**不是 ETS 官方试题、官方评分或分数换算**。正式任务形式、时长与政策请以考试当期 ETS 说明为准。

本章产出：400 句 LR (Listen and Repeat) 和 100 组 INT (Take an Interview)。每个 INT 至少有一个主问题和三层可自然延伸的问题。第 19 章解析将按本章编号定位：例如 LR-147、INT-063。

18.1 一、怎样把工作簿练成口语，而不是阅读材料

18.1.1 1. 只做一遍没有训练价值

每个编号都按同一条闭环完成：

- 1. **盲听/盲答：**先遮住英文文字。LR 由同伴或 TTS 用自然英语读一遍；INT 只看当前问题，主问题不准备或最多思考 10 秒。
- 2. **首录：**一次完成，不暂停、不删句、不因小错误重来。文件名用 日期 _编号 _1，如 0804_LR-021_1。
- 3. **可验证核对：**LR 对原句圈出漏掉或换错的内容词、否定、比较、数字、逻辑词；INT 只检查任务是否答全、例子是否支持、追问是否真的回应。
- 4. **只选三项：**优先顺序是“听者无法理解”>“信息或逻辑改变”>“明显影响自然度”>“更漂亮的词”。不要一次修改十处。
- 5. **二录：**同一材料、同一限时、只执行本页的“二录动作”。保存为 日期 _编号 _2，然后用证据比较，而不是凭感觉说“更好了”。

“二录”不是把首录整段背下来。它应保留首录的观点和事实，只让意群、关键词、语音或结构变得更清楚。若二录靠读稿才流利，本次仍记为“未稳定”。

18.1.2 2. 分级路线与抽题方式

级别	LR 的主要压力	INT 的主要压力	进入下一等级的内部建议
A	单个事实、常见词、1—2 个意群	直接立场加一个理由	10 句 LR 保留 9 个核心信息；3 个短答都不空白

级别	LR 的主要压力	INT 的主要压力	进入下一等级的内部建议
B	转折、条件、时间、3 个意群	理由、例子、取舍	10 句 LR 中逻辑词错不超过 1 处；能接住一次追问
C	抽象关系、嵌入信息、数字	连续追问、比较、改变条件	8 句 LR 中至少 7 句事实关系不变；回答不靠模板堆砌
D	句尾回收、密度、临场修正	立场调整、解释机制、礼貌分歧	录音可被陌生听者持续理解，且修正后能自然接回主线

建议每次做 10 句相邻 LR 加 2 组同级 INT，约 25—35 分钟。A→B→C→D 是训练顺序，不是能力标签；某一项卡住时，回到相关的意群或追问类型即可。

18.1.3 3. 标记法：看得见的发音和意群

- / 表示可短停的意群边界；不是每处都必须停顿。
- **粗体词**是应保持清楚的内容重音或对比信息；不代表其他词必须吞掉。
- ˊ 表示未完信息的轻微续接；ˋ 表示一个完整陈述自然收束。
- link: 后的词组可做自然连读，例如 pick_it_up；连读的标准是**仍可辨认**。

录音时先以可懂度优先。worked, next, cost, asks 的词尾和 not, less, only, before 等限制词，比“美国腔或英国腔”更影响意思。

18.1.4 4. 内部量表边界：先知道“差在哪里”

下表只用于本工作簿的首录—二录比较，不对应任何官方分值。

内部档	LR: 复述质量边界	INT: 互动质量边界	下一步动作
4 稳定	核心事实、关系词和句尾基本完整；节奏有意群，个别口音差异不影响理解	直接答题，理由有解释，例子具体；追问回应前文细节并能自然收束	提高信息密度或换到更难级别
3 可用	主干完整，偶有词形或小词偏差；停顿不常打断理解	完成主问题和多数追问；有理由或例子，但一处发展较浅	固定一个“原因 → 结果”或“例子 → 结果”链条
2 不稳	听者能猜到大意，但丢了转折、否定、人物、时间或句尾之一；逐词断裂明显	有相关观点，却短、重复或只答第一问；追问变成重新说主观点	降低长度，先练关键词和一个具体场景
1 阻断	多处信息替换或停顿使原意难以辨认	严重跑题、无法维持英语输出，或听者不知道立场	回到 A 级；先完成 15—20 秒可懂片段

边界判断的原则是“听者能否获得正确意思”，不是语速、口音、难词数量或与示例答案的相似度。一个慢但清楚、完整的回答可以高于一个快而丢逻辑的回答。

18.1.5 5. 代表性高、中、低表现

LR 代表题: LR-066

原句: **Although the room is smaller, / it is closer to the laboratory / and costs less to reserve.**

表现	录音转写示意	内部判断	为什么
低	<i>The room is small, and it is close to the laboratory.</i>	1—2	漏了让步关系和“更便宜”; 事实取舍被改写
中	<i>Although the room is smaller, it is closer to the lab and cost less.</i>	3	三个核心信息都在; cost 的词形可修, 但不妨碍理解
高	<i>Although the room is SMALLER / it is CLOSER to the laboratory / and costs LESS to reserve.</i>	4	对比信息清楚, 三个意群完整, 句尾收束自然

二录时低档学习者先写 smaller ↔ closer ↔ less 三个锚点, 再在 smaller 后短停; 中档学习者只集中补清 costs 词尾和 less 重音。高档不必为了“更快”牺牲对比词。

INT 代表题: INT-018

问题: *Would you take a longer route if it were quieter and safer? Why or why not?*

表现	代表性输出	内部判断
低	<i>Yes, I like safe. Long route is okay. It is good.</i>	1
中	<i>I would probably take the longer route because safety matters to me. I often walk home after class, so I do not mind spending a few extra minutes.</i>	3

表现	代表性输出	内部判断
高	<i>I would take it if the extra time were reasonable, maybe ten minutes. After an evening class, a well-lit route lets me focus on getting home instead of watching every corner. If I were already late, though, I would choose the faster route and call someone on the way.</i>	4

18.1.6 6. 二录前的 90 秒动作卡

问题证据	二录前只做什么	不要做什么
词尾消失	慢读 3 次 worked / needs / less / asked, 最后一次放回原句	把每个词尾夸张成爆破音
在功能词后断开	用 / 重划为“意思块”, 只读块末的内容词	在每个单词后拍手或停顿
漏转折/否定/数字	把该词写成一张三词提示卡, 如 not—Friday—unless	重听十遍后直接照抄整句
INT 空泛	给例子补“人 + 地点 + 行动 + 结果”中的两项	为每个问题背一篇万能答案
INT 追问重复	在首答中圈一个细节; 二录让追问只解释该细节	用 <i>because</i> 重复第一句结论

18.2 二、Listen and Repeat 题库 (LR-001—LR-400)

使用规则: 每十句是一组。先让朗读者只读英文, 不读编号、斜杠或粗体; 你立即复述, 再核对。每组的“二录动作”是最小改动, 不要求你逐字模仿录音。

18.2.1 A 级 | 日常事实与双意群 (LR-001—LR-100)

01 | 晨间安排 (LR-001—LR-010)

意群/发音重点: 短元音与清晰词尾; 在时间信息后收束。**首录任务:** 每句立即复述。**二录动作:** 只补清时间和动作词, 不加快语速。

1. LR-001 **The bakery opens / at six thirty on Saturdays.**
2. LR-002 **My alarm rang / before the first bus arrived.**
3. LR-003 **I packed lunch / because the café was closed.**

4. LR-004 **The hallway lights / turn on at dawn.**
5. LR-005 **Nina checks her calendar / while she drinks tea.**
6. LR-006 **Our neighbor walks his dog / around the block.**
7. LR-007 **The early train / is usually less crowded.**
8. LR-008 **I left my keys / beside the front door.**
9. LR-009 **The weather report / predicted a cool morning.**
10. LR-010 **We started the meeting / exactly at eight.**

02 | 房间与物品 (LR-011—LR-020)

意群/发音重点: this/these, s/z 词尾, 地点介词不独立断开。**首录任务:** 记住“物品—位置—用途”。**二录动作:** 在名词后停, 不在 in / on / at 后停。

1. LR-011 **The spare charger / is in the top drawer.**
2. LR-012 **Please place the wet coats / near the radiator.**
3. LR-013 **That narrow shelf / holds our reference books.**
4. LR-014 **The projector screen / drops from the ceiling.**
5. LR-015 **I found the missing receipt / under a notebook.**
6. LR-016 **These scissors / are too dull for cardboard.**
7. LR-017 **The visitor badge / hangs beside the elevator.**
8. LR-018 **Our table needs / one more chair.**
9. LR-019 **The blue folder / contains last month's notes.**
10. LR-020 **Keep the window closed / during the repair.**

03 | 通勤与路线 (LR-021—LR-030)

意群/发音重点: 方向词重读, next、stops、walked 的末尾收束。**首录任务:** 复述时保留路线顺序。**二录动作:** 把路线词连成一条, 不把地点逐词念开。

1. LR-021 **Take the second left / after the bridge.**
2. LR-022 **The shuttle stops / behind the science building.**
3. LR-023 **I walked through the park / to avoid traffic.**
4. LR-024 **The driver chose a quieter street / this morning.**
5. LR-025 **Our bus passed the station / without stopping.**
6. LR-026 **The bike lane ends / near the market.**
7. LR-027 **We missed the turn / because the sign was hidden.**
8. LR-028 **The ferry leaves / every forty minutes.**
9. LR-029 **Her office is across from / the old theater.**
10. LR-030 **Use the south entrance / after five o'clock.**

04 | 日程与提醒 (LR-031—LR-040)

意群/发音重点: 月份、日期和 before/after; 避免把数字吞掉。**首录任务:** 先抓时间条件。**二录动作:** 把日期或时段读得比周围词稍慢。

1. LR-031 **The appointment moved / from Tuesday to Thursday.**
2. LR-032 **Please reply / before noon tomorrow.**
3. LR-033 **The workshop begins / fifteen minutes later than planned.**

4. LR-034 **Our deadline falls / on the last day of April.**
5. LR-035 **I set a reminder / for the weekly call.**
6. LR-036 **The clinic accepts walk-ins / after two p.m.**
7. LR-037 **We meet online / on alternate Fridays.**
8. LR-038 **The library closes early / during the holiday.**
9. LR-039 **Please return the device / by Monday morning.**
10. LR-040 **The class calendar / changed overnight.**

05 | 服务与请求 (LR-041—LR-050)

意群/发音重点：礼貌请求的弱读与重点名词；句末降调。**首录任务：**保持请求对象和行动。**二录动作：**突出动作词，不把 could you 逐字加重。

1. LR-041 **Could you print this page / in color?**
2. LR-042 **Please email the receipt / to my work address.**
3. LR-043 **The technician will inspect / the broken lock.**
4. LR-044 **I need to reschedule / my dental visit.**
5. LR-045 **The cashier refunded / the extra charge.**
6. LR-046 **Could someone explain / this parking rule?**
7. LR-047 **The help desk closes / at seven tonight.**
8. LR-048 **Please sign your name / below the line.**
9. LR-049 **The clerk suggested / a cheaper option.**
10. LR-050 **We can deliver the package / tomorrow afternoon.**

06 | 学习习惯 (LR-051—LR-060)

意群/发音重点：多音节词的主重音，如 REview, VOcabulary, CONcentrate。**首录任务：**抓住习惯和目的。**二录动作：**只把每句一个核心动词读清。

1. LR-051 **I review new words / on the train home.**
2. LR-052 **Marta studies best / after a short walk.**
3. LR-053 **We compare answers / before checking the key.**
4. LR-054 **He records difficult phrases / for later practice.**
5. LR-055 **A quiet timer / helps me concentrate.**
6. LR-056 **Our tutor recommends / shorter daily sessions.**
7. LR-057 **I underline examples / instead of every new word.**
8. LR-058 **The group reviews grammar / on Wednesday evenings.**
9. LR-059 **She summarizes each article / in three sentences.**
10. LR-060 **We pause the video / to discuss one idea.**

07 | 合作与分工 (LR-061—LR-070)

意群/发音重点：人名、角色和所属关系；works, needs, plans 词尾。**首录任务：**不混淆“谁做什么”。**二录动作：**在人物后短停，再说任务。

1. LR-061 **Leo designs the poster / for our event.**
2. LR-062 **Amira collects feedback / from new members.**
3. LR-063 **The team divided the research / into four parts.**

4. LR-064 **I will check the budget / before lunch.**
5. LR-065 **Grace edits the final draft / on Fridays.**
6. LR-066 **Although the room is smaller, / it is closer to the laboratory / and costs less to reserve.**
7. LR-067 **Our coordinator shared / a clearer task list.**
8. LR-068 **Two volunteers prepared snacks / for the visitors.**
9. LR-069 **The designer needs our comments / by tonight.**
10. LR-070 **We thanked everyone / after the presentation.**

08 | 活动与社交 (LR-071—LR-080)

意群/发音重点: 邀请语气和 would/should 的弱读; 未结束清单轻续接。**首录任务:** 保留活动、对象和条件。**二录动作:** 只调整并列项的节奏。

1. LR-071 **The club is hosting / a board-game night.**
2. LR-072 **Bring a friend / if you would like company.**
3. LR-073 **We reserved a table / near the entrance.**
4. LR-074 **The speaker will answer questions / after her talk.**
5. LR-075 **Please wear comfortable shoes / for the walk.**
6. LR-076 **Our guests arrived early / despite the rain.**
7. LR-077 **The concert starts outside / at sunset.**
8. LR-078 **I met three neighbors / at the clean-up.**
9. LR-079 **They served soup / after the evening class.**
10. LR-080 **The invitation includes / a map and a schedule.**

09 | 数字、数量与比较 (LR-081—LR-090)

意群/发音重点: 重读数字单位, 区分 thirteen/thirty、fifteen/fifty。**首录任务:** 不改动数量和比较方向。**二录动作:** 数字前后各留极短边界。

1. LR-081 **The course has / thirty-two enrolled students.**
2. LR-082 **I spent fifteen minutes / finding a seat.**
3. LR-083 **The smaller box / weighs nearly three kilograms.**
4. LR-084 **We need at least / six clean cups.**
5. LR-085 **Her new commute / is ten minutes shorter.**
6. LR-086 **The museum offers / a twenty-percent discount.**
7. LR-087 **Only two tables / remain available.**
8. LR-088 **The survey received / one hundred replies.**
9. LR-089 **This route uses / less fuel than the old one.**
10. LR-090 **The second session lasts / forty-five minutes.**

10 | 天气与身体感受 (LR-091—LR-100)

意群/发音重点: th 与辅音连缀; 感觉词后不拖音。**首录任务:** 保留原因和结果。**二录动作:** 在 because/so 前划出逻辑边界。

1. LR-091 **The wind became stronger / after lunch.**
2. LR-092 **I brought a jacket / because the room felt cold.**

3. LR-093 **The sidewalks were wet / before sunrise.**
4. LR-094 **She felt tired / after the long meeting.**
5. LR-095 **The bright light / gave me a headache.**
6. LR-096 **We stayed indoors / during the thunderstorm.**
7. LR-097 **The air feels drier / this week.**
8. LR-098 **He drank water / after the exercise class.**
9. LR-099 **The warm room / helped everyone relax.**
10. LR-100 **I slept better / once the noise stopped.**

18.2.2 B 级 | 关系、条件与信息密度 (LR-101—LR-200)

11 | 问题与解决方案 (LR-101—LR-110)

意群/发音重点: because, so, instead 要带出关系。**首录任务:** 先说问题, 再说办法。**二录动作:** 用手势标出“问题 → 方案”, 再录一次。

1. LR-101 **Because the printer jammed, / we sent the handout / as a digital file.**
2. LR-102 **The elevator was crowded, / so I used the stairs / to the third floor.**
3. LR-103 **When the card reader failed, / the clerk wrote down / my order number.**
4. LR-104 **We moved the discussion online / after the room / lost its internet connection.**
5. LR-105 **Since the café was full, / our group met / beside the courtyard.**
6. LR-106 **The coach shortened practice / because several players / had exams.**
7. LR-107 **I borrowed a lamp / when my desk light / stopped working.**
8. LR-108 **The guide repeated the directions / so late arrivals / could follow them.**
9. LR-109 **Rather than cancel the visit, / we chose a different / meeting place.**
10. LR-110 **The staff added signs / after visitors kept / using the wrong door.**

12 | 健康与节奏 (LR-111—LR-120)

意群/发音重点: 长词的节拍, regularly, gradually, comfortable 不逐音节拖读。**首录任务:** 保留频率、建议和变化。**二录动作:** 把副词与它修饰的动词黏在一起。

1. LR-111 **If I take a brief break, / I can focus longer / on difficult reading.**
2. LR-112 **The nurse advised him / to stretch regularly / during long shifts.**
3. LR-113 **Although the class was demanding, / it left me / more energetic.**
4. LR-114 **She gradually changed her sleep schedule / before starting / the new job.**
5. LR-115 **We chose lighter meals / so nobody would feel / sleepy afterward.**
6. LR-116 **The instructor demonstrated the movement / before asking us / to repeat it.**
7. LR-117 **After I stopped checking messages late, / I fell asleep / much faster.**

8. LR-118 **The clinic recommends water / rather than sugary drinks / after exercise.**
9. LR-119 **He stayed home / because his voice / had become weak.**
10. LR-120 **A short walk outside / can reset my attention / between tasks.**

13 | 工作与技能 (LR-121—LR-130)

意群/发音重点: 职业词的主重音和 -ed 时态。**首录任务:** 区分“能力”与“结果”。**二录动作:** 只突出结果动词, 如 solved, reduced, improved。

1. LR-121 **The new employee learned the software / by watching a colleague / solve a real problem.**
2. LR-122 **After the workshop, / I could explain the process / more clearly to clients.**
3. LR-123 **Our manager asked for examples / instead of broad promises / in the report.**
4. LR-124 **The assistant organized the files / so the whole team / could find them quickly.**
5. LR-125 **Although I had little experience, / I volunteered to lead / the first practice round.**
6. LR-126 **The revised checklist reduced mistakes / during the busiest / part of the day.**
7. LR-127 **She learned to ask questions early / before a small issue / became expensive.**
8. LR-128 **We practiced the presentation aloud / until the transitions / sounded natural.**
9. LR-129 **The supervisor praised his patience / when customers needed / extra explanation.**
10. LR-130 **By sharing one example, / I made the abstract rule / easier to understand.**

14 | 技术与沟通 (LR-131—LR-140)

意群/发音重点: 复合名词和重读差异: UPload, DOWNload, BACKup。**首录任务:** 保留工具、限制、结果。**二录动作:** 把 if 从句读成准备条件, 主句读成结果。

1. LR-131 **If you upload the photo today, / the system will review it / overnight.**
2. LR-132 **The app sends a reminder / whenever the train schedule / changes.**
3. LR-133 **We backed up the files / before installing / the update.**
4. LR-134 **Although the screen is small, / the keyboard is comfortable / for short messages.**
5. LR-135 **The video froze twice, / so we continued / by phone.**
6. LR-136 **I turned off notifications / while I was writing / the proposal.**
7. LR-137 **The shared document shows / who changed each section / most recently.**
8. LR-138 **Rather than send several emails, / she recorded / one clear voice message.**

9. LR-139 **The technician reset the password / after confirming / my identity.**
10. LR-140 **A simple chart helped us see / which task was taking / the most time.**

15 | 社区与公共空间 (LR-141—LR-150)

意群/发音重点: 对比结构 although / while / rather than; 两个选择都要清楚。**首录任务:** 保留“谁受益”和“为什么”。**二录动作:** 在转折词前后各给一个意群。

1. LR-141 **The neighborhood added benches / so older residents / could rest on the hill.**
2. LR-142 **While the new park is smaller, / it is easier / for children to reach.**
3. LR-143 **The library extended weekend hours / after families requested / more study space.**
4. LR-144 **Because the sidewalk was uneven, / the city repaired it / before winter.**
5. LR-145 **Volunteers planted trees / where the playground / had little shade.**
6. LR-146 **The market accepts reusable bags / but still provides paper ones / when needed.**
7. LR-147 **We chose the community hall / because it has ramps / at both entrances.**
8. LR-148 **The council posted the plan online / so residents could comment / before the vote.**
9. LR-149 **Rather than widen the road, / planners proposed / a safer crossing.**
10. LR-150 **The notice explains / which services remain open / during construction.**

16 | 文化与体验 (LR-151—LR-160)

意群/发音重点: 过去事件的节奏, visited, watched, learned 不漏词尾。**首录任务:** 保留体验后的观点。**二录动作:** 前两意群讲事件, 最后意群讲反应。

1. LR-151 **After watching the documentary, / I understood why the artist / changed her style.**
2. LR-152 **The guide explained the custom / before visitors entered / the quiet room.**
3. LR-153 **Although I knew the story, / the live performance / still surprised me.**
4. LR-154 **We borrowed headphones / so we could hear / the translated comments.**
5. LR-155 **The exhibition compares old maps / with satellite images / of the same coast.**
6. LR-156 **I enjoyed the festival most / when local musicians / invited the audience to sing.**
7. LR-157 **The theater moved the show indoors / because strong winds / were expected.**

8. LR-158 **Before the tour ended, / we sketched one object / that interested us.**
9. LR-159 **The museum labels describe / how each tool / was actually used.**
10. LR-160 **Rather than memorize dates, / I connected each event / to a personal story.**

17 | 校园通知 (LR-161—LR-170)

意群/发音重点: 公告中的条件、地点、例外; must, may, unless 不弱到消失。**首录任务:** 复述行动要求。**二录动作:** 把“谁—何时—做什么”写成三点后再说。

1. LR-161 **Students must reserve a lab station / before using / the new equipment.**
2. LR-162 **The east entrance will remain closed / until the safety inspection / is complete.**
3. LR-163 **If you lose your card, / report it online / within twenty-four hours.**
4. LR-164 **The lecture changed rooms / because the original hall / needs repairs.**
5. LR-165 **Visitors may park behind the gym / only after six / in the evening.**
6. LR-166 **The study rooms are available / unless a class / has booked them.**
7. LR-167 **Please collect your certificate / from the office / before Friday.**
8. LR-168 **The cafeteria will test / a cashless line / next week.**
9. LR-169 **Students who arrive late / should enter quietly / through the side door.**
10. LR-170 **The notice lists / three ways to request / technical support.**

18 | 简单研究与观察 (LR-171—LR-180)

意群/发音重点: 研究动作和数量词; participants, measured, compared 的重音。**首录任务:** 保存“方法—发现”关系。**二录动作:** 方法读平稳, 发现处加信息重音。

1. LR-171 **Researchers compared two groups / before drawing / any conclusions.**
2. LR-172 **The survey asked participants / how often they used / public transport.**
3. LR-173 **After measuring the plants weekly, / the class noticed / faster growth near the window.**
4. LR-174 **The team repeated the test / because the first result / looked unusual.**
5. LR-175 **Although the sample was small, / the pattern was clear / enough to investigate.**
6. LR-176 **Students recorded the temperature / at the same time / each day.**
7. LR-177 **The graph shows / that responses increased / after the reminder.**
8. LR-178 **To avoid bias, / the interviewer used / the same questions.**
9. LR-179 **The report separates / observed facts / from possible explanations.**
10. LR-180 **We changed one variable / while keeping / the other conditions stable.**

19 | 环境与资源 (LR-181—LR-190)

意群/发音重点: 因果与比较, reduce, reuse, recycle 的元音差异。**首录任务:** 保留措施及其作用。**二录动作:** 用重音区分行动和结果。

1. LR-181 **The office replaced paper cups / with washable ones / to reduce waste.**
2. LR-182 **Because summer rain arrives suddenly, / the garden stores water / in covered barrels.**
3. LR-183 **The school installed sensors / so lights switch off / in empty rooms.**
4. LR-184 **Although reusable containers cost more, / they last longer / than disposable ones.**
5. LR-185 **We sorted the materials / before deciding / what could be repaired.**
6. LR-186 **The campaign explains / how food scraps / become garden soil.**
7. LR-187 **Rather than drive separately, / four neighbors share / one ride to work.**
8. LR-188 **The river looks clearer / after volunteers removed / plastic from its banks.**
9. LR-189 **The restaurant buys local vegetables / when they are / in season.**
10. LR-190 **A shaded roof can lower / the building's temperature / in July.**

20 | 费用与选择 (LR-191—LR-200)

意群/发音重点: can/can't、价格、比较级; 否定必须清楚。**首录任务:** 保留预算限制与选择原因。**二录动作:** 把 can't, less, unless 放在节拍上。

1. LR-191 **I cannot join the course / unless the evening section / has space.**
2. LR-192 **The monthly pass costs less / if you pay / before the first day.**
3. LR-193 **Although the used desk was cheaper, / it needed repairs / right away.**
4. LR-194 **We chose the basic plan / because its features / match our needs.**
5. LR-195 **The store refunded the fee / after it charged us / twice.**
6. LR-196 **If the price rises again, / I will compare / other providers.**
7. LR-197 **The shared kitchen saves money / when everyone plans / meals together.**
8. LR-198 **Rather than buy new tools, / the class rented them / for one week.**
9. LR-199 **The discount applies / only to orders / above fifty dollars.**
10. LR-200 **We delayed the purchase / until we understood / the full cost.**

18.2.3 C 级 | 复杂句、抽象关系与校正 (LR-201—LR-300)

21 | 比较后的取舍 (LR-201—LR-210)

意群/发音重点: 比较项要成对清楚, more/less, rather than, even though 不丢。**首录任务:** 指出选择与被放弃的方案。**二录动作:** 在两项选择之间停半拍, 突出最终选择。

1. LR-201 **Even though the morning class is shorter, / I prefer the evening one / because discussion lasts longer.**

2. LR-202 **We selected the farther store / after learning that its produce / stays fresh longer.**
3. LR-203 **Rather than finish quickly, / the team chose to test / one more possible solution.**
4. LR-204 **The larger screen is helpful, / but the lighter laptop / is easier to carry.**
5. LR-205 **I would pay a little more / for a chair that supports / my back properly.**
6. LR-206 **Although a private room is quieter, / a shared space makes it easier / to ask for help.**
7. LR-207 **We kept the original plan / because the alternative created / two new problems.**
8. LR-208 **The local course offers fewer topics, / yet its teacher gives / more individual feedback.**
9. LR-209 **Instead of adding another rule, / the manager simplified / the sign-up process.**
10. LR-210 **I chose a slower method / once I saw it produced / fewer errors.**

22 | 对比与让步 (LR-211—LR-220)

意群/发音重点: 对比重音在真正不同的信息上, 不是每个形容词都重。**首录任务:** 让听者听懂“表面 vs 实际”。**二录动作:** 把 although/however/while 后的信息读得更明确。

1. LR-211 **Although the instructions look simple, / the final step requires / careful timing.**
2. LR-212 **The room was crowded; however, / everyone could still hear / the speaker clearly.**
3. LR-213 **While the first article explains the problem, / the second one proposes / a practical response.**
4. LR-214 **The new system seems faster, / but it asks users / to verify more details.**
5. LR-215 **Even though she disagreed at first, / she later supported / the revised plan.**
6. LR-216 **The path is steep near the end, / whereas the other route / stays level throughout.**
7. LR-217 **Although the event was free, / participants had to reserve / a place in advance.**
8. LR-218 **The explanation was brief, / yet it answered / the most important question.**
9. LR-219 **While online notes are convenient, / printed pages sometimes make / revision easier.**
10. LR-220 **The design changed very little, / but its new color / made the sign easier to notice.**

23 | 条件与例外 (LR-221—LR-230)

意群/发音重点: if, unless, provided that, as long as 的条件边界。**首录任务:** 不把条件说成肯定事实。**二录动作:** 条件部分上扬续接, 结果部分自然降调。

1. LR-221 **If the weather improves, / the class will collect samples / beside the pond.**
2. LR-222 **You may borrow the camera / as long as you return it / before closing time.**
3. LR-223 **Unless the supplier calls today, / we will use / the backup materials.**
4. LR-224 **The team can finish early / provided that everyone uploads / a draft tonight.**
5. LR-225 **If I had more notice, / I could arrange / a ride for the visitors.**
6. LR-226 **We will postpone the picnic / only if the field / becomes unsafe.**
7. LR-227 **Students can revise once / unless the assignment / was submitted late.**
8. LR-228 **If the machine makes that sound again, / turn it off / and call the technician.**
9. LR-229 **The membership is useful / only when you use / the gym regularly.**
10. LR-230 **As long as the facts are clear, / different conclusions / can still be reasonable.**

24 | 顺序与过程 (LR-231—LR-240)

意群/发音重点: first, then, once, afterward 的时间序; 避免把步骤打乱。**首录任务:** 按原顺序复述。**二录动作:** 先在纸上画三箭头, 再录完整句。

1. LR-231 **First label the containers, / then place them / on the lower shelf.**
2. LR-232 **Once the water boils, / reduce the heat / and cover the pan.**
3. LR-233 **After checking the address, / the driver loaded / the last box.**
4. LR-234 **Before we announced the result, / we compared it / with last year's data.**
5. LR-235 **The editor reads the whole draft / before correcting / individual sentences.**
6. LR-236 **We tested the microphone, / adjusted the volume, / and finally opened the room.**
7. LR-237 **Afterward, the group wrote down / which part of the process / had taken longest.**
8. LR-238 **Once you choose a topic, / collect examples / from two different sources.**
9. LR-239 **The assistant checked us in / before handing out / the name tags.**
10. LR-240 **Before the paint dries, / remove the tape / along the edge.**

25 | 因果与机制 (LR-241—LR-250)

意群/发音重点: 因果词不等于停顿词; 强调“什么导致什么”。**首录任务:** 复述时保留机制。**二录动作:** 用 cause → effect 记号抓住两个名词。

1. LR-241 **Because the instructions used examples, / new users made fewer mistakes / on their first try.**
2. LR-242 **The room became quieter / after the coordinator moved / the break table outside.**
3. LR-243 **Since the trail was clearly marked, / hikers spent less time / checking their maps.**
4. LR-244 **The plants grew unevenly / because one side of the room / received less light.**
5. LR-245 **By limiting the choices, / the form helps visitors / finish it faster.**
6. LR-246 **The restaurant reduced waste / when it began offering / smaller portions.**
7. LR-247 **Because the announcement arrived late, / several people missed / the registration deadline.**
8. LR-248 **The team solved the conflict / by describing the problem / before proposing a fix.**
9. LR-249 **When people can see their progress, / they are more likely / to continue practicing.**
10. LR-250 **The backup battery matters / because a brief power cut / can erase unsaved work.**

26 | 观点与理由 (LR-251—LR-260)

意群/发音重点：态度词与论据词区别重读；I think 不必每次加重。**首录任务：**保留立场的限定程度。**二录动作：**强调真正的理由名词或动词。

1. LR-251 **I support shorter meetings / when they end / with clear next steps.**
2. LR-252 **In my view, / public spaces work better / when they welcome different ages.**
3. LR-253 **I would not ban phones completely / because they can help / during emergencies.**
4. LR-254 **The policy seems fair / if people can explain / unusual circumstances.**
5. LR-255 **I prefer feedback in private / since it gives me time / to ask honest questions.**
6. LR-256 **The program is worthwhile / because it connects lessons / to real decisions.**
7. LR-257 **I am less convinced / when a proposal promises / results without evidence.**
8. LR-258 **For me, a good schedule / leaves room / for unexpected work.**
9. LR-259 **I would keep the rule / but make the instructions / easier to find.**
10. LR-260 **The change is useful / only if staff receive / enough training.**

27 | 学术概念 (LR-261—LR-270)

意群/发音重点：抽象词重音：EVIDence, ANalyze, INfluence, CONsequence。**首录任务：**不丢定义关系。**二录动作：**把概念词和解释词配对。

1. LR-261 **A pattern becomes more convincing / when it appears / in several observations.**
2. LR-262 **The author distinguishes / a short-term effect / from a lasting change.**
3. LR-263 **An explanation is stronger / when it accounts for / evidence that seems inconvenient.**
4. LR-264 **The model predicts a trend, / but it cannot describe / every individual case.**
5. LR-265 **Researchers use a control group / to see whether a change / has a specific cause.**
6. LR-266 **The term “adaptation” / refers to a feature / that improves survival in a setting.**
7. LR-267 **A reliable source explains / how its information / was collected.**
8. LR-268 **The theory changed / after new evidence / challenged an earlier assumption.**
9. LR-269 **Correlation alone does not prove / that one event / caused the other.**
10. LR-270 **A useful summary preserves / the main relationship / without repeating every detail.**

28 | 观察与推断 (LR-271—LR-280)

意群/发音重点: 事实与推测的语气区别, may, might, probably 不吞。**首录任务:** 不把可能性复述成事实。**二录动作:** 给推测词一个轻重音。

1. LR-271 **The lights are still on, / so someone may be working / in the studio.**
2. LR-272 **Because the path is muddy, / it probably rained / during the night.**
3. LR-273 **The empty chairs might mean / that the meeting / started late.**
4. LR-274 **Although sales increased, / we cannot yet say / why customers changed their habits.**
5. LR-275 **The bird returned to the same tree, / which suggests / it may be nesting nearby.**
6. LR-276 **Since the message was unclear, / different teams interpreted it / in different ways.**
7. LR-277 **The result could reflect chance / unless a second test / finds the same pattern.**
8. LR-278 **Her careful notes make it easier / to tell observation / from assumption.**
9. LR-279 **The decline may be temporary / because the store / was closed for repairs.**
10. LR-280 **We should not infer a preference / from one choice / made under pressure.**

29 | 数据与趋势 (LR-281—LR-290)

意群/发音重点: 数量变化和介词搭配, rose by, fell to, remained at。**首录任务:** 记录起伏方向。**二录动作:** 在每个数字旁画 ↑ ↓ → 后再复述。

1. LR-281 **Attendance rose by twelve percent / after the center added / evening classes.**
2. LR-282 **The number of complaints fell / once the website / simplified its form.**
3. LR-283 **Although demand grew in spring, / it remained stable / through early summer.**
4. LR-284 **The chart compares / how much time / three groups spend commuting.**
5. LR-285 **Responses were highest / among people who received / a personal reminder.**
6. LR-286 **The average dropped slightly / after the team removed / two unusual results.**
7. LR-287 **Sales increased gradually, / whereas returns / declined sharply.**
8. LR-288 **The survey does not show / whether age / caused the difference.**
9. LR-289 **Nearly half the participants / selected convenience / as their main reason.**
10. LR-290 **The final count was lower / than we expected / at the beginning.**

30 | 说明程序 (LR-291—LR-300)

意群/发音重点: 祈使句与目的语; so that 的结果组单独成块。**首录任务:** 保留动作先后和目的。
二录动作: 手指按步骤数一、二、三, 但口头不说数字。

1. LR-291 **Save a copy before editing / so that you can restore / the original later.**
2. LR-292 **Place the sample in shade / until the surface / becomes completely dry.**
3. LR-293 **Read the question twice / before choosing / which details to include.**
4. LR-294 **Ask one person to time the trial / while another records / the results.**
5. LR-295 **Turn the handle slowly / until you feel / a small resistance.**
6. LR-296 **Compare the two versions / and circle only / the meaningful changes.**
7. LR-297 **Use a short title / so readers can identify / the file quickly.**
8. LR-298 **Check the label first / because similar containers / need different temperatures.**
9. LR-299 **Explain your choice briefly / then invite the group / to challenge it.**
10. LR-300 **Record the outcome immediately / before small details / fade from memory.**

18.2.4 D 级 | 高密度信息、修正与三句链 (LR-301—LR-400)

31 | 变化与影响 (LR-301—LR-310)

意群/发音重点：过去状态 → 变化 → 影响的三段节奏。**首录任务：**不漏变化前后的比较。**二录动作：**把 before / now / result 写成三列提示。

1. LR-301 After the library moved its returns desk downstairs, / visitors stopped leaving books / near the entrance.
2. LR-302 The revised map reduced confusion / because it separates walking routes / from delivery lanes.
3. LR-303 Although the office added more staff, / waiting times changed little / during the morning rush.
4. LR-304 Once the class began using peer review, / students noticed problems / earlier in their drafts.
5. LR-305 The new rule improved safety, / but it also required / extra time at check-in.
6. LR-306 By moving the deadline forward, / the organizer gave volunteers / time to solve conflicts.
7. LR-307 The plant recovered quickly / after workers removed / the damaged leaves.
8. LR-308 When the store displayed prices clearly, / fewer customers asked / the same question.
9. LR-309 The city changed the bus route / so residents could reach / the clinic directly.
10. LR-310 Although the update fixed one error, / it created a new delay / during sign-in.

32 | 分歧与协商 (LR-311—LR-320)

意群/发音重点：礼貌分歧的语调，承认点轻、自己的理由重。**首录任务：**复述“同意什么、不同意什么”。**二录动作：**在 I see / but 两部分之间停顿。

1. LR-311 I understand the concern about cost, / but delaying the repair / may cost even more.
2. LR-312 Although both plans have benefits, / the group agreed / to test the simpler one first.
3. LR-313 She accepted the deadline / on the condition that / the scope became smaller.
4. LR-314 Rather than vote immediately, / the committee asked for / one week of feedback.
5. LR-315 We disagreed about the location, / yet everyone supported / making it accessible.
6. LR-316 The supervisor changed her mind / after hearing how the rule / affected night workers.
7. LR-317 He did not reject the idea; / he questioned whether / the evidence was sufficient.

8. LR-318 **The compromise kept the event free / while limiting / the number of guests.**
9. LR-319 **Even if the proposal is popular, / it still needs / a realistic timetable.**
10. LR-320 **We can support the goal / without pretending / that every method will work.**

33 | 时间压力下的判断 (LR-321—LR-330)

意群/发音重点: 时限、优先级、rather than; 句尾不可掉。**首录任务:** 保留“先做什么、为何”。
二录动作: 先复述优先级名词, 再补原因。

1. LR-321 **With only ten minutes left, / I would confirm the address / rather than polish the slides.**
2. LR-322 **Because the train was delayed, / we called ahead / before changing our route.**
3. LR-323 **The nurse treated the most urgent cases / before seeing people / with routine questions.**
4. LR-324 **If the server fails during registration, / staff will write down / contact details by hand.**
5. LR-325 **We postponed the discussion / so the missing member / could explain her data.**
6. LR-326 **Although the answer was not perfect, / it was clear enough / to make a decision.**
7. LR-327 **The team saved time / by agreeing on one priority / at the start.**
8. LR-328 **When a deadline is close, / I list the tasks / that nobody else can finish.**
9. LR-329 **The guide shortened the tour / after noticing that several visitors / had tight schedules.**
10. LR-330 **We chose a temporary fix / while waiting for / the permanent part.**

34 | 人名、日期与精确信息 (LR-331—LR-340)

意群/发音重点: 专名、拼写词和日期; 所有专名均为本书虚构训练信息。**首录任务:** 保留人物—日期—行动。**二录动作:** 先低声复述专名与数字, 再连成全句。

1. LR-331 **Dr. Elena Park will meet / the volunteers / on March twenty-first.**
2. LR-332 **The package for Omar Diaz / arrived at Dock B / just after eleven.**
3. LR-333 **Mina booked Room C-14 / for the training session / next Wednesday.**
4. LR-334 **Professor Reed extended the survey / until October ninth / at midnight.**
5. LR-335 **The receipt lists / eighty-seven dollars and forty cents / for the repair.**
6. LR-336 **Please send the form to / Lian Wu / before 3:15 p.m.**
7. LR-337 **The bus from Harbor Square / reaches North Campus / at 7:48.**
8. LR-338 **Team Delta will present / its findings / on the second of June.**
9. LR-339 **Arun checked out / a sixteen-inch ladder / for two days.**

10. LR-340 **The confirmation number ends / with 5-9-2-7.**

35 | 嵌入信息与句尾回收 (LR-341—LR-350)

意群/发音重点: 关系从句与长主语; 句尾的信息不能因为前面复杂而消失。**首录任务:** 圈出主句骨架。**二录动作:** 先说主语和主句, 再把中间信息放回去。

1. LR-341 **The students who arrived early / were able to choose / seats near the window.**
2. LR-342 **The report that Maya shared yesterday / explains why the schedule / needs another review.**
3. LR-343 **A tool designed for beginners / can still be useful / to experienced users.**
4. LR-344 **The person responsible for bookings / will contact us / if a room becomes free.**
5. LR-345 **The ideas discussed during the workshop / influenced how we planned / the final activity.**
6. LR-346 **A rule that seems efficient on paper / may create problems / in a crowded place.**
7. LR-347 **The feedback we received from parents / changed the order / of the sessions.**
8. LR-348 **The first option mentioned in the email / is not necessarily / the cheapest one.**
9. LR-349 **The people waiting near the desk / had all completed / the online form.**
10. LR-350 **A question raised by one participant / led to a useful / group discussion.**

36 | 否定、修正与限制 (LR-351—LR-360)

意群/发音重点: not, never, only, except, unless 是意义核心。**首录任务:** 复述限制, 而非只复述一般规则。**二录动作:** 每句先单独说限制词, 再说整句。

1. LR-351 **The workshop is not cancelled; / it has simply moved / to a smaller room.**
2. LR-352 **You do not need to print the form / unless the office / specifically requests it.**
3. LR-353 **The discount applies to members only, / except during / the open-house weekend.**
4. LR-354 **We never use personal details / when we share / practice examples.**
5. LR-355 **The second route is not shorter, / but it avoids / the steep stairs.**
6. LR-356 **No one may enter the lab / without wearing / protective glasses.**
7. LR-357 **The problem was not the price; / it was the lack of / clear instructions.**
8. LR-358 **Only the final version / will be reviewed / by the external panel.**
9. LR-359 **The store will not replace the item / if the damage / resulted from misuse.**

10. LR-360 **Neither suggestion solves everything, / although each one / addresses part of the problem.**

37 | 抽象解释 (LR-361—LR-370)

意群/发音重点: 名词化与逻辑重音; 慢而连续地说清关系。**首录任务:** 抓住定义或原则。**二录动作:** 用 idea = explanation 写出两个锚点。

1. LR-361 **Trust grows when people can predict / how others will respond / to a problem.**
2. LR-362 **A decision feels fairer / when the reasons behind it / are explained openly.**
3. LR-363 **Innovation often begins / with noticing a limitation / that others have accepted.**
4. LR-364 **A habit becomes easier to maintain / when the first step / requires little effort.**
5. LR-365 **Clear categories help us organize information, / but they can hide / important differences.**
6. LR-366 **Responsibility includes / admitting what you do not know / before making a claim.**
7. LR-367 **A useful question can change / what people choose / to observe next.**
8. LR-368 **Learning becomes durable / when new ideas connect / to a familiar experience.**
9. LR-369 **Efficiency is not the same as quality / if faster work / creates more corrections later.**
10. LR-370 **Good communication reduces uncertainty / by making the next action / easy to identify.**

38 | 三句信息链 (一) (LR-371—LR-380)

意群/发音重点: 每句内部完整, 三句之间用轻微停顿连接。**首录任务:** 先逐句复述, 再连说整组。**二录动作:** 只修正信息链中最容易丢的一环。

1. LR-371 **The campus garden needs help on Thursday.**
2. LR-372 **Volunteers will plant herbs behind the dining hall.**
3. LR-373 **Gloves and simple instructions will be provided.**
4. LR-374 **A local designer will visit our art class next week.**
5. LR-375 **She plans to discuss how public spaces influence creative work.**
6. LR-376 **Each student should bring one sketch or photograph to share.**
7. LR-377 **The library is testing a new room-reservation system.**
8. LR-378 **Students may book a small room for up to two hours.**
9. LR-379 **Staff will review user feedback at the end of the month.**
10. LR-380 **The music room will remain open / during the afternoon / for quiet practice.**

39 | 三句信息链 (二) (LR-381—LR-390)

意群/发音重点：代词回指与句尾条件。**首录任务：**三句后用自己的话说“问题—安排—原因”。**二录动作：**先说名词，再准确使用 it/they/this。

- 1. LR-381 The river walk will close briefly for bridge repairs.
- 2. LR-382 Pedestrians can use the marked path beside the stadium.
- 3. LR-383 The detour adds about five minutes to the trip.
- 4. LR-384 Our discussion group will read a short article on memory.
- 5. LR-385 Members should write down one question before the meeting.
- 6. LR-386 We will compare different answers instead of seeking one perfect response.
- 7. LR-387 The student center is collecting ideas for quieter study areas.
- 8. LR-388 It has placed a suggestion board near the coffee counter.
- 9. LR-389 The most practical proposals will be discussed on Friday.
- 10. LR-390 The campus café will close early / for a water-line inspection.

40 | 三句信息链 (三) 与综合复盘 (LR-391—LR-400)

意群/发音重点：在紧张时维持逻辑词、数字与词尾。**首录任务：**将每组三句一次录完。**二录动作：**只选一个问题：逻辑、数字、词尾或速度；二录后写一条证据。

- 1. LR-391 A repair crew will inspect the east elevator tomorrow.
- 2. LR-392 People with mobility needs may use the service lift near reception.
- 3. LR-393 Staff will post an update if the inspection lasts past noon.
- 4. LR-394 The neighborhood market is trying a pay-what-you-can shelf.
- 5. LR-395 It offers surplus bread and vegetables at the end of each day.
- 6. LR-396 Organizers hope the program will reduce waste while helping nearby families.
- 7. LR-397 Our class compared two ways of giving feedback.
- 8. LR-398 Private comments encouraged more detailed questions from quieter students.
- 9. LR-399 Public comments helped the whole group notice repeated problems.
- 10. LR-400 We concluded that the best method depends on the goal.

18.2.5 LR 完成核对与抽样复测

完成 LR-001—LR-400 不等于读过 400 行。每 40 句做一次抽样：让同伴随机选 8 句，你只听不看文本；再随机选一组 LR-371—LR-400，三句一次复述。记录四项：核心词、关系词、数字/限制、意群。若同一项两次仍失分，回做相邻十句的二录，而不是机械跳到新题。

抽样结果	诊断	下一次 12 分钟安排
核心词常丢	听辨或短时记忆容量不足	选 6 句，先只复述名词和动词，再说全句
关系词常丢	只抓词，不抓句法方向	选 6 句，把 but/if/unless/because 写成符号后复述

抽样结果	诊断	下一次 12 分钟安排
数字/限制常丢	未把高风险信息单独编码	选 6 句, 首遍只报数字或限制, 二遍完整复述
意群断裂	发声节奏未自动化	选 4 句, 影子跟读一遍, 延迟半个意群复述两遍

18.3 三、Take an Interview 连续题库 (INT-001—INT-100)

执行方式: 每组是同一场自然采访, 不是四道互不相干的独立题。采访者一次只问下一问; 带追问的问题应根据学习者首答中的细节改用其真实信息, 例如把 *a quiet place* 换成学习者刚提到的 *the library café*。学习者每组完成主问题 35—45 秒、每个后续问题 20—35 秒。若没有真实经历, 可使用合理的匿名微型情境, 但必须前后一致。

18.3.1 采访的统一观察表

维度	高表现的可听证据	中表现的典型边界	低表现的优先修复
任务回应	直接答每一问, 并把追问接到先前细节	主问题完整, 追问有一处泛化	只答第一问或把追问当成新题
发展	理由说明“为什么”, 例子含具体人/地/行动/结果至少两项	有理由和例子之一, 但关联较弱	只堆形容词, 如 <i>good, useful, interesting</i>
组织	立场 → 理由 → 例子/条件 → 收束, 连接自然	基本顺序易懂, 偶有重复	无立场、跳跃或长时间沉默
语言可懂度	关键词、逻辑词、句尾清楚; 自我修正后能接回意思	少量语法或发音问题不影响主线	词尾、否定、时态或停顿反复遮蔽意思
互动	能承认限制、比较选择或补充细节, 不背诵	会用一个固定追问开头	重复首答, 或为追求长句而偏题

每组固定二录流程: 首录后在四问中只选最薄弱的一问, 标出“一个内容缺口 + 一个语音/意群问题 + 一个互动问题”。二录时从主问题连到该追问, 保留原观点; 最后用一句英文写下可听见的变化, 例如: *I added a concrete example and paused after the condition.*

18.3.2 A 级 | 熟悉经历: 把一句回答扩展成一段交流 (INT-001—INT-025)

INT-001 | 安静还是热闹的学习地点 | A

- **主问:** *Do you study better in a quiet place or in a place with some activity around you? Why?*
- **追问 1:** *What is one sound or distraction that makes studying difficult for you?*
- **追问 2:** *How would you change your study space if you could not find a quiet room?*

- **收束追问:** *Would that solution work for a whole afternoon, or only for a short task?*
- **完成要点:** 选一处地点, 说明注意力如何被帮助或打断, 再给一个真实或合理的应对方法。
- **发音/意群重点:** QUIet place / helps me CONcentrate; 不在 in a 中间停顿。
- **二录动作:** 首答若只说 *quiet is good*, 补一个声音和一个具体任务; 追问用 *In that situation, I would...* 开头。

INT-002 | 早计划还是临时决定 | A

- **主问:** *Do you prefer planning your week early or deciding things as they come?*
- **追问 1:** *Tell me about a recent plan that changed unexpectedly.*
- **追问 2:** *What did you do first when you noticed the change?*
- **收束追问:** *Has that experience changed how much you plan now?*
- **完成要点:** 明确偏好, 但承认一个例外; 把“变化—行动—结果”说完整。
- **发音/意群重点:** at the BEGINning of the WEEK / I check...; planned 词尾清楚。
- **二录动作:** 删去泛泛的 *it was stressful*, 改为一个日程冲突和一个立刻行动。

INT-003 | 独学还是结伴学习 | A

- **主问:** *Is it easier for you to learn a new skill alone or with other people?*
- **追问 1:** *What kind of skill would make you choose the other option?*
- **追问 2:** *How can a partner help without doing the work for you?*
- **收束追问:** *What would you say to a partner who learns at a very different speed?*
- **完成要点:** 区分技能类型; 不要把“有人陪”当作唯一理由, 要解释帮助的机制。
- **发音/意群重点:** learn it ON my own / but ask for FEEDBACK; 重读 feedback。
- **二录动作:** 二录加入一个具体技能, 如 cooking、software 或 pronunciation, 并说出伙伴的一个行动。

INT-004 | 纸质笔记还是电子笔记 | A

- **主问:** *Would you rather take notes on paper or on a device?*
- **追问 1:** *What do you usually do with your notes after a class or meeting?*
- **追问 2:** *When might your less preferred method be more useful?*
- **收束追问:** *If you lost all your notes tomorrow, what would you miss most?*
- **完成要点:** 给选择、使用流程、例外和具体损失; 让四问围绕同一种记录习惯。
- **发音/意群重点:** write things DOWN / so I can FIND them later; notes 词尾别消失。
- **二录动作:** 把首答中的抽象优点换成一个“上课后如何复习”的动作链。

INT-005 | 早晨任务还是夜晚任务 | A

- **主问:** *Which tasks do you prefer doing early in the day, and which do you save for later?*
- **追问 1:** *Why does your energy change at that time?*
- **追问 2:** *Describe one day when your usual schedule did not work.*
- **收束追问:** *What small change would make that kind of day easier?*
- **完成要点:** 至少比较两种任务; 把身体状态或环境与效率连接起来。

- **发音/意群重点:** IN the morning / my mind is FRESHER; 用降调结束完整判断。
- **二录动作:** 补一个反常日和一个调整, 如提前准备午餐或关掉提醒。

INT-006 | 常走路线还是新路线 | A

- **主问:** *Do you enjoy taking a familiar route or trying a new route when you travel locally?*
- **追问 1:** *What would make you willing to take the less familiar route?*
- **追问 2:** *Have you ever discovered something useful by changing your route?*
- **收束追问:** *Would you recommend that route to someone in a hurry? Why?*
- **完成要点:** 给风险或收益的取舍; 例子可小到一家店、一条较安全的路或省时方式。
- **发音/意群重点:** a FAMILiar route / feels more RELiable; 区分 route 与 road。
- **二录动作:** 在二录中加入一个条件句: If I were late, ..., 避免绝对化。

INT-007 | 独自用餐还是与人用餐 | A

- **主问:** *Do you usually prefer eating alone or eating with other people?*
- **追问 1:** *What makes a shared meal enjoyable rather than tiring?*
- **追问 2:** *If a friend seemed quiet during a meal, how would you include that person?*
- **收束追问:** *Would your answer change during a busy workday?*
- **完成要点:** 显示对情境和他人的敏感; 不要只说“我很内向/外向”。
- **发音/意群重点:** share a meal / AFTER a busy DAY; shared 不漏尾音。
- **二录动作:** 补一项可观察行为, 如问一个具体问题、选安静座位或缩短用餐时间。

INT-008 | 买新物品前的判断 | A

- **主问:** *When you need an everyday item, do you compare many options or choose quickly?*
- **追问 1:** *Which detail do you check first: price, quality, reviews, or something else?*
- **追问 2:** *Tell me about a time when a quick choice worked out badly or well.*
- **收束追问:** *What rule would you use for a more expensive purchase?*
- **完成要点:** 从低风险选择过渡到高风险选择, 体现判断标准会变化。
- **发音/意群重点:** compare the PRICE / with the QUALITY; 比较项重读。
- **二录动作:** 给出一个品类和一个判断标准, 不要只列出四个名词。

INT-009 | 休息的方式 | A

- **主问:** *What helps you recover after a demanding day?*
- **追问 1:** *Why does that activity help you relax?*
- **追问 2:** *What do you avoid doing when you are already tired?*
- **收束追问:** *How would you make time for rest during an especially busy week?*
- **完成要点:** 解释恢复机制, 如安静、运动、与人交流或切换注意力。
- **发音/意群重点:** after a LONG day / I need to...; relax 第二音节重读。
- **二录动作:** 把 *I watch videos* 具体化为时长、内容或之后的感受。

INT-010 | 向别人求助 | A

- **主问:** *When you have a problem, do you ask for help quickly or try to solve it alone first?*
- **追问 1:** *What kind of problem makes you ask for help sooner?*
- **追问 2:** *How do you make your question clear to the other person?*
- **收束追问:** *What would you do if the first person could not help?*
- **完成要点:** 说明独立和求助之间的界线; 展示清楚提问的一个步骤。
- **发音/意群重点:** ask for HELP / before the problem GROWS; 重读 help、grows。
- **二录动作:** 加入一个真实提问格式: 背景一句、已尝试动作一句、具体请求一句。

INT-011 | 周末在家还是出门 | A

- **主问:** *Would you rather spend a free weekend at home or outside?*
- **追问 1:** *What would make you change that choice?*
- **追问 2:** *Describe an inexpensive activity that fits your preferred weekend.*
- **收束追问:** *Who, if anyone, would you invite?*
- **完成要点:** 不要把“在家/出门”说成性格标签; 用天气、精力、预算或同伴解释条件。
- **发音/意群重点:** IF the weather is good / I would...; 条件组轻续接。
- **二录动作:** 为活动增加地点和结果, 如“走完后更有精力做晚饭”。

INT-012 | 保留旧物还是更新物品 | A

- **主问:** *Do you keep useful old items for a long time, or replace them when something newer appears?*
- **追问 1:** *What is one item you have kept longer than expected?*
- **追问 2:** *How do you decide whether repairing it is worth the effort?*
- **收束追问:** *Would your decision be different if the item had sentimental value?*
- **完成要点:** 在实用、花费和情感之间做取舍; 例子应有具体物品。
- **发音/意群重点:** repair it / RATHER than replace it; rather than 连成一个意思块。
- **二录动作:** 首答只谈价格时, 二录补一个使用频率或情感原因。

INT-013 | 收到建议时的反应 | A

- **主问:** *How do you react when someone gives you advice that you did not ask for?*
- **追问 1:** *What makes advice feel helpful instead of annoying?*
- **追问 2:** *Tell me about advice you used after thinking about it.*
- **收束追问:** *How would you politely decline advice that does not fit your situation?*
- **完成要点:** 礼貌区分建议质量; 最后一问需要一句承认加一句转向。
- **发音/意群重点:** I can see that POINT / but in MY case...; 对比重音明确。
- **二录动作:** 练一句不冒犯的拒绝: That may work for you, but my schedule is different.

INT-014 | 学习新词的方式 | A

- **主问:** *What is the most useful way for you to remember a new word or phrase?*
- **追问 1:** *How do you know that you can actually use it, not just recognize it?*
- **追问 2:** *What do you do when you forget a word while speaking?*
- **收束追问:** *Would you rather learn ten words deeply or many words quickly?*
- **完成要点:** 讲方法、检验和临场补救; 最后比较广度与深度。
- **发音/意群重点:** use it in a SENTence / the SAME day; 重读 use、sentence。
- **二录动作:** 补一个自己的词块例子, 并在忘词追问中用释义而非沉默。

INT-015 | 是否接受临时邀请 | A

- **主问:** *Do you usually accept invitations made at the last minute?*
- **追问 1:** *What information would you need before deciding?*
- **追问 2:** *Describe a spontaneous plan that you enjoyed or regretted.*
- **收束追问:** *How would you decline if you needed rest instead?*
- **完成要点:** 围绕时间、同伴、地点、次日安排作选择, 不必假装总是喜欢社交。
- **发音/意群重点:** at the LAST minute / I first CHECK...; last、check 词尾。
- **二录动作:** 给出一个自然拒绝句, 包含感谢和可选替代时间。

INT-016 | 看说明书还是直接尝试 | A

- **主问:** *When using something new, do you read instructions first or learn by trying?*
- **追问 1:** *What kind of mistake are you trying to avoid?*
- **追问 2:** *Can you describe a situation where trying first taught you something?*
- **收束追问:** *When would you definitely stop and read the instructions?*
- **完成要点:** 承认两种策略的适用场景; 用风险程度连接答案。
- **发音/意群重点:** TRY it first / UNLESS it is risky; unless 不要吞掉。
- **二录动作:** 在未问加入一个高风险例子, 如 safety equipment 或 financial form。

INT-017 | 拍照还是专心体验 | A

- **主问:** *When you visit an interesting place, do you take many photos or focus mostly on the experience?*
- **追问 1:** *What do you do with the photos afterward?*
- **追问 2:** *Is there a moment when taking a photo would be inappropriate?*
- **收束追问:** *How could you remember a place without using a camera?*
- **完成要点:** 比较记录与参与; 回答应尊重他人和场所规则。
- **发音/意群重点:** capture the MOMENT / without MISSING it; 两个动词对比。
- **二录动作:** 补一个非照片记忆法, 如写三句、买明信片或画小草图。

INT-018 | 更长但更安全的路 | A

- **主问:** *Would you take a longer route if it were quieter and safer? Why or why not?*
- **追问 1:** *How much extra time would be acceptable to you?*

- **追问 2:** *What would make a route feel safer in the evening?*
- **收束追问:** *Would your decision change if you were already late?*
- **完成要点:** 明确时间阈值, 给出一项环境证据, 并在最后承认时间压力的例外。
- **发音/意群重点:** a WELL-lit route / feels SAFER at night; 不在 at night 前断开。
- **二录动作:** 二录加入一个数字或限定语, 如 about ten extra minutes, 避免泛泛说安全。

INT-019 | 什么时候分享个人信息 | A

- **主问:** *Do you like sharing good news immediately or waiting until you have more details?*
- **追问 1:** *Who is usually the first person you tell?*
- **追问 2:** *What kind of news should be shared more carefully?*
- **收束追问:** *How do you avoid misunderstanding when you send a short message?*
- **完成要点:** 区分值得庆祝和需要谨慎的消息; 以对象与渠道解释。
- **发音/意群重点:** share it RIGHT away / AFTER I confirm...; confirm 第二音节重读。
- **二录动作:** 给出一个短消息中会补上的关键信息, 如日期、是否确定或下一步。

INT-020 | 是否定期整理物品 | A

- **主问:** *Do you regularly organize your belongings, or only do it when you cannot find something?*
- **追问 1:** *Which area becomes messy most quickly for you?*
- **追问 2:** *What simple system helps you keep it usable?*
- **收束追问:** *Would you use the same system in a shared space?*
- **完成要点:** 从问题、系统到共享空间的规则, 避免只列清洁动作。
- **发音/意群重点:** keep it in ONE place / after EACH use; each 尾音清楚。
- **二录动作:** 补一个“放回位置”的触发点和一个共享空间的例外。

INT-021 | 选择一项新爱好 | A

- **主问:** *What would make you choose one new hobby over another?*
- **追问 1:** *Would you care more about enjoyment, cost, or meeting people?*
- **追问 2:** *How would you try the hobby without making a big commitment?*
- **收束追问:** *What would make you continue after the first month?*
- **完成要点:** 选一个主要标准、一个低成本试法和一个坚持条件。
- **发音/意群重点:** try it for a MONTH / BEFORE I buy...; 时间组完整。
- **二录动作:** 指定一个爱好, 说明第一次尝试的地点和不购买全套设备的办法。

INT-022 | 礼物重在实用还是心意 | A

- **主问:** *When choosing a gift, do you value usefulness more or personal meaning more?*
- **追问 1:** *What question would you ask before choosing a gift for someone?*
- **追问 2:** *Describe a small gift that made you feel understood.*
- **收束追问:** *What would you do if your gift did not match the person's taste?*

- **完成要点**: 把“心意”具体化为对方习惯、共同经历或需求, 而非空话。
- **发音/意群重点**: show that I NOTICE / what they ENjoy; 两个内容动词重读。
- **二录动作**: 补一个礼物细节, 并在末问练一句不尴尬的回应。

INT-023 | 排队时怎么做 | A

- **主问**: *What do you usually do when you have to wait in a long line?*
- **追问 1**: *What makes waiting feel fair or unfair?*
- **追问 2**: *How would you react if someone tried to cut in front of you?*
- **收束追问**: *Could technology make this experience better? How?*
- **完成要点**: 从个人应对扩展到公平规则和可行改进, 语气保持礼貌。
- **发音/意群重点**: wait my TURN / unless there is...; turn 重读。
- **二录动作**: 在插队情境中使用一个礼貌问题, 不用攻击性语言。

INT-024 | 短信还是语音消息 | A

- **主问**: *Do you prefer sending a short text or a voice message when you need a quick answer?*
- **追问 1**: *When could a voice message cause confusion?*
- **追问 2**: *What details should a short text include?*
- **收束追问**: *How would you follow up if you received no reply?*
- **完成要点**: 按信息复杂度、环境和紧急程度选择渠道。
- **发音/意群重点**: a SHORT text / is easier to CHECK; short、check 尾音。
- **二录动作**: 给出一个完整但简短的文本例子所含的三类信息, 不必逐字念消息。

INT-025 | 朋友迟到时的反应 | A

- **主问**: *How do you respond when a friend arrives late for a plan you made together?*
- **追问 1**: *What difference does the reason for being late make?*
- **追问 2**: *How would you tell the friend that the delay affected you?*
- **收束追问**: *What agreement could prevent the same problem next time?*
- **完成要点**: 表现理解与边界; 从情绪说到可执行的新约定。
- **发音/意群重点**: I understand the REASON / but I still NEED...; 承认和需求各成一块。
- **二录动作**: 二录不使用 *You are always late*, 改为具体影响和一次未来安排。

18.3.3 B 级 | 校园与社区: 理由、例子、取舍 (INT-026—INT-050)

INT-026 | 图书馆的一项改进 | B

- **主问**: *If a library could add only one improvement, would you choose more quiet rooms, longer hours, or more staff help?*
- **追问 1**: *Who would benefit most from your choice?*
- **追问 2**: *What drawback might the other choices still solve better?*

- **收束追问:** *How would you know after six months whether the improvement worked?*
- **完成要点:** 比较三项但明确优先一项; 给受益者、限制和可观察结果。
- **发音/意群重点:** I would PRIORitize / longer HOURS; priority 类词重音。
- **二录动作:** 将 *it is useful* 换成一个用户和一个可量化观察, 如等候时间或座位使用率。

INT-027 | 校园是否增加自行车道 | B

- **主问:** *Should a campus spend money on more bike lanes or on more shuttle buses?*
- **追问 1:** *What safety issue would your choice address?*
- **追问 2:** *How could the campus support people who cannot use your preferred option?*
- **收束追问:** *Would your answer change in a city with frequent heavy rain?*
- **完成要点:** 先立场, 再讲安全机制和包容性; 最后根据天气调整而非推翻理由。
- **发音/意群重点:** bike LANES / reduce CONflicts; 复数 lanes 清楚。
- **二录动作:** 加一条不选方案的补充措施, 如无障碍班车或雨天等候区。

INT-028 | 小组任务的分配 | B

- **主问:** *In a group project, is it more important to divide tasks clearly or to meet often?*
- **追问 1:** *What problem happens when your preferred practice is missing?*
- **追问 2:** *How would you handle a member who finishes work in a very different style?*
- **收束追问:** *What should the group agree on during its first meeting?*
- **完成要点:** 解释选择如何防止具体问题; 回答风格差异时避免人身评价。
- **发音/意群重点:** clear ROLES / prevent DUPLICATE work; 重读结果。
- **二录动作:** 二录增加一个首会约定, 如期限、文件位置或核对标准。

INT-029 | 社区预算的优先项 | B

- **主问:** *A neighborhood has money for either a small park, a job-skills workshop, or a weekend market. Which should it choose?*
- **追问 1:** *What local need does your choice meet first?*
- **追问 2:** *How could the other two ideas still be included at low cost?*
- **收束追问:** *Whose opinion should planners hear before deciding?*
- **完成要点:** 把社区需求具体化; 在追问中提出非全有全无的方案。
- **发音/意群重点:** meet an IMmediate need / while still...; immediate 首音重读。
- **二录动作:** 选择一个具体人群, 并为未选项目给一个可行的小规模版本。

INT-030 | 是否限制课堂手机 | B

- **主问:** *Should students put their phones away during every class?*
- **追问 1:** *Can you describe a situation in which a phone genuinely supports learning?*

- **追问 2:** *What would make a phone policy fair rather than too strict?*
- **收束追问:** *How should a teacher respond to repeated misuse?*
- **完成要点:** 避免极端; 明确课堂目标、正当例外和递进后果。
- **发音/意群重点:** put phones AWAY / UNLESS they support...; unless 是意义焦点。
- **二录动作:** 给出一个允许使用的学习情境, 并加入一次提醒后的后续做法。

INT-031 | 活动应在晚上还是周末 | B

- **主问:** *Should a community center offer more evening events or more weekend events?*
- **追问 1:** *Which people might be excluded by your choice?*
- **追问 2:** *How could organizers make attendance easier for them?*
- **收束追问:** *What type of event best fits that schedule?*
- **完成要点:** 显示日程选择的公平影响, 而不是只说自己方便。
- **发音/意群重点:** working PARENTS / may need...; 重读受益者。
- **二录动作:** 加入一个被忽略群体和一个安排改进, 如轮换时段或提供录播。

INT-032 | 保留旧建筑还是新建设施 | B

- **主问:** *Should a town preserve an old building if repairing it costs more than building something new?*
- **追问 1:** *What kind of value could an old building have besides money?*
- **追问 2:** *When would replacement be the more responsible choice?*
- **收束追问:** *How could a new building still respect the town's history?*
- **完成要点:** 比较文化价值、安全与预算; 允许有条件的立场。
- **发音/意群重点:** preserve its HIS-tory / but protect SAFety; 两个核心词明显。
- **二录动作:** 二录加入一个条件, 如结构不安全或可改造成公共用途。

INT-033 | 新生应该参加什么活动 | B

- **主问:** *What kind of activity should a new student try first: a club, a volunteer event, or a study group?*
- **追问 1:** *Why might a shy student choose differently from an outgoing student?*
- **追问 2:** *What could make the first visit less uncomfortable?*
- **收束追问:** *How would you decide whether to return?*
- **完成要点:** 根据人而非贴标签; 说出第一次参与的低压力行动。
- **发音/意群重点:** a SMALL group / feels less INTIMidating; 意群不切碎。
- **二录动作:** 补一个第一天行动, 如先联系组织者、带同伴或提早十分钟到。

INT-034 | 公共艺术的价值 | B

- **主问:** *Should a city spend public money on art in shared spaces?*
- **追问 1:** *What would make the artwork meaningful to local people?*
- **追问 2:** *How should the city respond if some residents dislike it?*
- **收束追问:** *Where would you place one piece, and why there?*

- **完成要点:** 建立公共价值与程序公平; 地点必须与人流、氛围或历史相关。
- **发音/意群重点:** invite LOCAL voices / BEFORE choosing; local、voices 清晰。
- **二录动作:** 二录补一个具体地点和一种收集居民意见的方式。

INT-035 | 学校食堂减少浪费 | B

- **主问:** *What is the best way for a school dining hall to reduce food waste?*
- **追问 1:** *Why might students waste food even when they care about the environment?*
- **追问 2:** *Which change would be easiest to try for one month?*
- **收束追问:** *How would you measure whether the change helped?*
- **完成要点:** 说出行为背后的限制, 如时间、份量、口味; 提供可测试方案。
- **发音/意群重点:** serve SMALLER portions / with FREE refills; 对比重音。
- **二录动作:** 把“减少浪费”落实为称重、记录盘数或一周对比的一个测量方法。

INT-036 | 是否给学生更多选课自由 | B

- **主问:** *Should students choose nearly all their courses, or should schools require several common courses?*
- **追问 1:** *What ability could common courses develop for students with different goals?*
- **追问 2:** *What choice should students definitely have?*
- **收束追问:** *How could a school keep required courses relevant?*
- **完成要点:** 区分共同基础与个人路径, 避免把选修自由说成没有结构。
- **发音/意群重点:** a COMMON foundation / supports DIFFERENT paths; 重读对比。
- **二录动作:** 说出一个应保留的共同能力和一个必须可选的领域。

INT-037 | 是否开放社区花园 | B

- **主问:** *Should an unused piece of land become a community garden or a small sports area?*
- **追问 1:** *What would each option require from local residents?*
- **追问 2:** *How could people who do not use the space still benefit?*
- **收束追问:** *What rule would prevent conflict over the space?*
- **完成要点:** 比较维护成本、使用频率和共享收益; 给一个具体规则。
- **发音/意群重点:** share the SPACE / without EXcluding others; 清晰词尾。
- **二录动作:** 加入一个共享规则, 如预约、开放时段或维护轮班。

INT-038 | 学生是否要做社区服务 | B

- **主问:** *Should schools require students to complete some community service?*
- **追问 1:** *What makes service meaningful rather than just a requirement?*
- **追问 2:** *How could a student with a busy job or family duty participate fairly?*
- **收束追问:** *What should students reflect on after the service ends?*
- **完成要点:** 讨论真实贡献、可及性和反思, 不把时数本身当成果。

- **发音/意群重点:** contribute to a REAL need / not just earn HOURS; real、hours 对比。
- **二录动作:** 补一个弹性方式, 如远程支持、周末批次或可选择的服务类型。

INT-039 | 是否增加无车日 | B

- **主问:** *Would a monthly car-free day improve a busy city center?*
- **追问 1:** *Who might find that change difficult?*
- **追问 2:** *What support would make the day more practical?*
- **收束追问:** *Would you start with one street or the whole center?*
- **完成要点:** 说出环境目标与生活限制; 提出渐进试点而非空泛支持。
- **发音/意群重点:** start with a PILOT / before expanding; pilot 重读。
- **二录动作:** 二录明确一个受影响群体和一项替代交通支持。

INT-040 | 公告用纸质还是数字 | B

- **主问:** *Should important local announcements be posted on paper, online, or both?*
- **追问 1:** *Who could miss information if the town used only one method?*
- **追问 2:** *What makes an announcement easy to understand quickly?*
- **收束追问:** *How would you communicate an urgent change during a power outage?*
- **完成要点:** 从渠道可及性、文字清楚度、紧急备份三层回答。
- **发音/意群重点:** use BOTH channels / so no one MISSES...; both、misses 清楚。
- **二录动作:** 补一个需要纸质信息的人群, 并为断电情境给一个具体渠道。

INT-041 | 节日活动应更大还是更小 | B

- **主问:** *Should a local festival try to attract many visitors or stay small for residents?*
- **追问 1:** *What benefit might visitors bring?*
- **追问 2:** *What problem could a larger event create for residents?*
- **收束追问:** *How could organizers balance those two concerns?*
- **完成要点:** 显示经济与生活质量的双方; 最后给出一项协调机制。
- **发音/意群重点:** bring in VISitors / without OVERloading...; 连读服务清晰。
- **二录动作:** 加入一项平衡措施, 如分散场地、安静时段或居民优先票。

INT-042 | 是否设置共享工具站 | B

- **主问:** *Would a shared tool station be useful in an apartment neighborhood?*
- **追问 1:** *What tools should be included first?*
- **追问 2:** *How could the neighborhood prevent tools from being lost or damaged?*
- **收束追问:** *Who should be allowed to borrow them, and under what condition?*
- **完成要点:** 把方便性与管理责任相连; 规则不能只有“大家小心”。
- **发音/意群重点:** borrow a TOOL / RETURN it by...; 强调动作与期限。
- **二录动作:** 列出两种常用工具和一项登记或押金规则。

INT-043 | 夜间课程的安排 | B

- **主问:** *What makes an evening class effective for people who work during the day?*
- **追问 1:** *How long should the class be before attention drops?*
- **追问 2:** *What should happen if someone has to miss a session?*
- **收束追问:** *Would you choose online, in-person, or mixed attendance?*
- **完成要点:** 体现成人学习者的时间与精力限制; 末问需说明形式选择的条件。
- **发音/意群重点:** after a FULL workday / people need...; full、workday 清晰。
- **二录动作:** 二录加入一个时长、一个休息安排和一个缺课补救动作。

INT-044 | 是否扩大宠物友好空间 | B

- **主问:** *Should more public places allow pets, or should pet-friendly areas stay limited?*
- **追问 1:** *What concern do people without pets reasonably have?*
- **追问 2:** *What rule would make a shared space comfortable for both groups?*
- **收束追问:** *Which type of place should be considered first?*
- **完成要点:** 承认过敏、噪音或安全, 而非只从主人视角回答。
- **发音/意群重点:** set CLEAR rules / for BOTH groups; both 重读。
- **二录动作:** 提出一个具体场所和一项可执行规则, 如牵绳、清洁或分区。

INT-045 | 学校是否使用匿名反馈 | B

- **主问:** *Should students be able to give anonymous feedback about a course?*
- **追问 1:** *What kind of feedback is more honest when names are hidden?*
- **追问 2:** *What risk comes with anonymous comments?*
- **收束追问:** *How could a teacher use the feedback responsibly?*
- **完成要点:** 说明匿名带来的安全感与责任缺口; 最后提出筛选和回应办法。
- **发音/意群重点:** honest FEEDBACK / needs CLEAR examples; feedback 不拆开。
- **二录动作:** 补一项教师做法, 如按主题汇总、回应共同问题、不公开个人猜测。

INT-046 | 公交站最需要什么 | B

- **主问:** *If a bus stop could gain one feature, would you choose shelter, better lighting, or real-time information?*
- **追问 1:** *Which passengers would benefit most from your choice?*
- **追问 2:** *What safety or comfort problem would remain?*
- **收束追问:** *How would you decide the order of future improvements?*
- **完成要点:** 做优先级判断, 同时说明未解决的问题和下一步证据。
- **发音/意群重点:** real-TIME information / reduces UNCERtainty; 主重音清楚。
- **二录动作:** 加入一个乘客情境, 如夜班人员、雨天儿童或行动不便者。

INT-047 | 共享厨房的规则 | B

- **主问:** *What is the most important rule in a shared kitchen?*

- **追问 1:** *Why might people break that rule even if they agree with it?*
- **追问 2:** *How would you remind someone without creating tension?*
- **收束追问:** *When should a shared rule be changed?*
- **完成要点:** 解释规则背后的现实限制; 使用非指责性提醒。
- **发音/意群重点:** clean UP / right AFTER using it; up 与 after 不断开。
- **二录动作:** 练一句提醒: Could we keep the counter clear for the next person?

INT-048 | 公共区域是否播放音乐 | B

- **主问:** *Should a study lounge play soft background music?*
- **追问 1:** *Who might benefit from it, and who might struggle?*
- **追问 2:** *Could the space be arranged to serve both groups?*
- **收束追问:** *How would you test the policy before making it permanent?*
- **完成要点:** 避免把个人口味当成公共标准; 提一个分区或试点设计。
- **发音/意群重点:** a QUIET zone / next to a SOCIAL zone; 对比重读。
- **二录动作:** 说明试点时长和一个收集反馈的方法。

INT-049 | 课本是否应开放获取 | B

- **主问:** *Should schools try to provide more course materials at no extra cost?*
- **追问 1:** *What could schools do if creating free materials takes time and money?*
- **追问 2:** *When is a paid resource worth using?*
- **收束追问:** *How could teachers tell students about costs more clearly?*
- **完成要点:** 支持可及性但承认制作成本; 给一个透明度动作。
- **发音/意群重点:** make costs CLEAR / BEFORE enrollment; before 是限制词。
- **二录动作:** 二录同时说出一个开放资源和值得付费的资源特点。

INT-050 | 新邻居的欢迎方式 | B

- **主问:** *What is a respectful way to welcome a new neighbor?*
- **追问 1:** *What should you avoid asking or doing at the first meeting?*
- **追问 2:** *How could you offer practical help without being intrusive?*
- **收束追问:** *What might make a new neighbor feel included after the first week?*
- **完成要点:** 体现边界感; 欢迎包括可拒绝的帮助和持续但低压力的联系。
- **发音/意群重点:** offer HELP / without putting PRESSure on...; pressure 第一音节重读。
- **二录动作:** 补一句具体、可拒绝的帮助, 如介绍垃圾日或留联系方式。

18.3.4 C 级 | 工作、学习与连续判断 (INT-051—INT-075)

INT-051 | 接受反馈的方式 | C

- **主问:** *Do you prefer receiving detailed feedback all at once or a few comments over time?*
- **追问 1:** *What would you do if the feedback felt too general?*

- **追问 2:** *Describe a comment that changed how you approached a task.*
- **收束追问:** *How would you decide which feedback to use first?*
- **完成要点:** 说出反馈量、清晰度和优先级; 具体评论必须带来一个行动变化。
- **发音/意群重点:** turn FEEDBACK / into a NEXT step; 重读 feedback、next。
- **二录动作:** 用“问题—改法—结果”替代只说 *it was helpful*。

INT-052 | 是否先练习再展示 | C

- **主问:** *When preparing a presentation, should people practice alone first or with an audience?*
- **追问 1:** *What can an audience notice that you may miss alone?*
- **追问 2:** *How would you choose a useful practice audience?*
- **收束追问:** *What would you change after a practice session went badly?*
- **完成要点:** 比较两阶段用途; 最后回答必须有具体的修订动作。
- **发音/意群重点:** practice OUT loud / BEFORE the real event; out loud 连成块。
- **二录动作:** 加入一个观众会发现的问题和一次重排内容或时间的做法。

INT-053 | 团队里的安静成员 | C

- **主问:** *How should a team include a member who has useful ideas but rarely speaks?*
- **追问 1:** *What should the team avoid doing?*
- **追问 2:** *How could the member contribute before the meeting?*
- **收束追问:** *What would show that the approach was actually working?*
- **完成要点:** 从邀请、替代渠道到结果证据, 不能只说“鼓励他”。
- **发音/意群重点:** leave SPACE / for people to THINK; space 与 think 清晰。
- **二录动作:** 补一个具体渠道, 如提前共享问题、书面意见或轮流发言。

INT-054 | 紧急任务与重要任务 | C

- **主问:** *How do you decide whether an urgent task should interrupt important planned work?*
- **追问 1:** *What information would you check before switching tasks?*
- **追问 2:** *Tell me about a time when switching too quickly caused a problem.*
- **收束追问:** *How would you protect the original task afterward?*
- **完成要点:** 说明判断标准、反例和恢复计划, 避免把“紧急”自动当“最重要”。
- **发音/意群重点:** URGENT does not always mean / MOST important; 对比重音。
- **二录动作:** 二录加入一个检查项, 如截止时间、影响对象或能否由别人处理。

INT-055 | 学习中使用 AI 工具 | C

- **主问:** *What is a responsible way to use an AI tool while learning a difficult subject?*
- **追问 1:** *What should a learner do before asking the tool for help?*
- **追问 2:** *How could the learner check whether an explanation is reliable?*

- **收束追问:** *What use would cross the line from support to doing the work for the learner?*
- **完成要点:** 强调先尝试、验证和保留自己的思考; 不把工具称作官方评分者或绝对权威。
- **发音/意群重点:** use it as a TOOL / not a REplacement; tool、replacement 对比。
- **二录动作:** 给出一个具体学习流程: 先答、再问提示、再用课程材料核对。

INT-056 | 学会新软件的办法 | C

- **主问:** *How would you learn unfamiliar software when you need to use it soon?*
- **追问 1:** *Which feature would you learn first, and why?*
- **追问 2:** *How would you avoid making a serious mistake while practicing?*
- **收束追问:** *What would you do if the instructions used words you did not understand?*
- **完成要点:** 按目标选功能; 提出低风险练习和提问策略。
- **发音/意群重点:** learn the CORE feature / BEFORE the extras; core、before 强调。
- **二录动作:** 把 *watch a tutorial* 扩展为“暂停练一个功能、用样本文件测试”。

INT-057 | 远程会议还是面对面会议 | C

- **主问:** *When does an in-person meeting work better than an online meeting?*
- **追问 1:** *What can an online meeting do better?*
- **追问 2:** *How would you keep remote participants involved in a mixed meeting?*
- **收束追问:** *What rule would make meetings shorter in either format?*
- **完成要点:** 以任务性质解释形式差异; 最后给一个跨形式通用的效率规则。
- **发音/意群重点:** in PERson / when the task needs...; person 不弱成 son。
- **二录动作:** 说出一个需要现场协作的任务和一个适合在线的任务。

INT-058 | 出现错误后的沟通 | C

- **主问:** *What should someone do after noticing an error in work that other people rely on?*
- **追问 1:** *What details should be shared immediately?*
- **追问 2:** *How can the person avoid blaming others while explaining the problem?*
- **收束追问:** *What should happen after the error has been corrected?*
- **完成要点:** 按“通知—影响—修复—预防”回答; 责任表达应具体而非推卸。
- **发音/意群重点:** state the FACTS / then explain the FIX; facts 词尾。
- **二录动作:** 二录加一句无责备表达: I found an error in my section, and I am correcting it now.

INT-059 | 重复任务如何保持认真 | C

- **主问:** *How can people stay careful when they repeat the same task many times?*
- **追问 1:** *What warning sign tells you that attention is dropping?*
- **追问 2:** *Which is more useful: a checklist, a break, or a partner check?*
- **收束追问:** *How would you know whether your method reduced mistakes?*

- **完成要点**: 把注意力问题与可验证方案连接; 选择一种主要办法并比较其限制。
- **发音/意群重点**: catch SMALL errors / BEFORE they spread; 清楚 small、spread。
- **二录动作**: 加入一个错误指标或交叉检查时点, 不止说“更小心”。

INT-060 | 是否临时改变立场 | C

- **主问**: *What kind of evidence would make you change your mind about an important choice?*
- **追问 1**: *Why is changing your mind sometimes difficult?*
- **追问 2**: *Describe a time when new information improved one of your decisions.*
- **收束追问**: *How would you explain the change to someone who expected your old decision?*
- **完成要点**: 区分固执与审慎; 有新证据时解释理由而非只说“我错了”。
- **发音/意群重点**: change my MIND / when the EVIDence...; 两个重音。
- **二录动作**: 练一条说明链: 旧依据、发现的新信息、因此采取的新行动。

INT-061 | 解释复杂想法 | C

- **主问**: *How would you explain a complicated idea to someone with no background in the topic?*
- **追问 1**: *What example or comparison would you choose first?*
- **追问 2**: *How would you check whether the person understood?*
- **收束追问**: *When could a simple comparison become misleading?*
- **完成要点**: 有对象意识; 用例子解释但承认类比的边界。
- **发音/意群重点**: start with what they ALready KNOW; already 主重音。
- **二录动作**: 选一个真实概念, 用一句类比和一句“类比不包括什么”完成二录。

INT-062 | 面对不清楚的要求 | C

- **主问**: *What do you do when instructions for a task are unclear?*
- **追问 1**: *What would you try to infer on your own before asking?*
- **追问 2**: *How would you ask a question that is easy for the other person to answer?*
- **收束追问**: *What if you cannot get an answer before the deadline?*
- **完成要点**: 先说明已读内容和理解, 再问最关键缺口, 并讲时间受限下的保留方案。
- **发音/意群重点**: my UNDERstanding is... / Could you conFIRM...?; 两段意群。
- **二录动作**: 二录说出一个完整澄清问题, 含你的理解和一个可选答案。

INT-063 | 专业与兴趣的选择 | C

- **主问**: *When choosing a course or career direction, should personal interest or practical opportunity matter more?*
- **追问 1**: *What does “practical opportunity” mean in your example?*
- **追问 2**: *How could someone explore an interest without making an irreversible choice?*

- **收束追问:** *What advice would you give if the two factors pointed in opposite directions?*
- **完成要点:** 定义抽象词; 提出低风险试探; 在冲突时给条件性建议。
- **发音/意群重点:** a PRACTical option / can still include...; practical 第一音节重读。
- **二录动作:** 补一个试探动作, 如选体验课、访谈从业者或完成小项目。

INT-064 | 训练新员工的重点 | C

- **主问:** *What should a new employee learn first: rules, technical skills, or workplace culture?*
- **追问 1:** *How could the training differ for a safety-critical job?*
- **追问 2:** *What should a trainer do after explaining a rule?*
- **收束追问:** *How can a workplace tell whether the training was effective?*
- **完成要点:** 按风险说明排序变化; 从讲解到练习和观察形成闭环。
- **发音/意群重点:** explain it / then let them PRACTICE; then 是过程连接。
- **二录动作:** 给一项可观察的训练结果, 如正确演示、减少返工或能解释例外。

INT-065 | 面对资源有限的项目 | C

- **主问:** *How should a team decide what to remove when a project has less time or money than expected?*
- **追问 1:** *What should never be removed?*
- **追问 2:** *How would you explain the reduced plan to people who expected more?*
- **收束追问:** *What could be added back later if resources improve?*
- **完成要点:** 区分核心目标与可延后功能; 对外沟通要清楚不粉饰。
- **发音/意群重点:** protect the CORE goal / DELAY the extras; 对比清晰。
- **二录动作:** 指定一个核心成果和一个可推迟项, 并用 phase two 解释后续。

INT-066 | 处理组内分歧 | C

- **主问:** *What should a group do when two members strongly disagree about the best approach?*
- **追问 1:** *What question could move the discussion from opinions to evidence?*
- **追问 2:** *When is it better to test two ideas instead of debating longer?*
- **收束追问:** *How should the group decide if testing both is impossible?*
- **完成要点:** 将人际冲突转成标准、证据和可逆试验; 最后给决策规则。
- **发音/意群重点:** compare the EVIDence / not the PEOPLE; 重读对比。
- **二录动作:** 二录加入一个共同标准, 如成本、用户影响或完成期限。

INT-067 | 检查信息是否可靠 | C

- **主问:** *What makes you trust information you find online?*
- **追问 1:** *What would make you doubt a source even if it looked professional?*
- **追问 2:** *How could you check a claim without spending all day researching?*

- **收束追问:** *What would you do if two reliable sources disagreed?*
- **完成要点:** 提来源、证据、日期、交叉核对; 最后允许不确定而不随意选边。
- **发音/意群重点:** check the SOURCE / the DATE / and the EVIDence; 并列项节奏。
- **二录动作:** 加入一个快速核对步骤和一个处理分歧的保留表达。

INT-068 | 长期项目的动力 | C

- **主问:** *How do you stay motivated during a project that takes many months?*
- **追问 1:** *What do you do when progress is difficult to see?*
- **追问 2:** *How can a team celebrate progress without becoming distracted?*
- **收束追问:** *What would make you reconsider the project's original plan?*
- **完成要点:** 讲小里程碑、可见证据、庆祝边界和计划修订条件。
- **发音/意群重点:** break it into SMALL milestones; milestones 词尾。
- **二录动作:** 说出一个每周可见指标和一次不耗时的庆祝或复盘。

INT-069 | 给忙碌的人安排学习 | C

- **主问:** *How would you design a course for people with very limited time?*
- **追问 1:** *What should learners do between sessions?*
- **追问 2:** *How could the course support someone who misses one meeting?*
- **收束追问:** *What would you remove to keep the course realistic?*
- **完成要点:** 兼顾核心学习、短练、补课与删减; 避免把更多内容当作更好。
- **发音/意群重点:** keep the TASKS short / but MEANingful; 对比节拍。
- **二录动作:** 提出一个 15 分钟课后任务和一个缺课补救材料。

INT-070 | 是否公开团队进度 | C

- **主问:** *Should a team share its progress publicly before a project is complete?*
- **追问 1:** *What benefit could early sharing provide?*
- **追问 2:** *What risk could it create?*
- **收束追问:** *What information would you share, and what would you keep private for now?*
- **完成要点:** 平衡反馈、期待管理和不成熟信息; 末问必须划出信息界线。
- **发音/意群重点:** share the DIRECTION / not every UNtested detail; 清楚否定。
- **二录动作:** 列出一项可公开的里程碑和一项暂不公开的风险或数据。

INT-071 | 高效会议的必要条件 | C

- **主问:** *What makes a meeting worth attending rather than an email?*
- **追问 1:** *What should people receive before the meeting?*
- **追问 2:** *How would you handle a topic that takes much longer than planned?*
- **收束追问:** *What should be written down before everyone leaves?*
- **完成要点:** 区分需要互动决策的议题与信息通知; 落实会前、会中、会后动作。
- **发音/意群重点:** leave with a CLEAR owner / and a DEADline; 并列重音。
- **二录动作:** 补一项会前材料和会议结束时必须记录的三类信息中的两类。

INT-072 | 改变一个日常流程 | C

- **主问:** *If you could improve one routine process at your school or workplace, what would you change?*
- **追问 1:** *Whose experience would you observe before proposing a change?*
- **追问 2:** *What small test could you run first?*
- **收束追问:** *How would you respond if the test helped one group but inconvenienced another?*
- **完成要点:** 从问题、用户、试点到副作用形成完整分析。
- **发音/意群重点:** test it on a SMALL scale / FIRST; scale 词尾清楚。
- **二录动作:** 二录说清一个流程瓶颈、一个观察对象和一个一周试点。

INT-073 | 克服说话紧张 | C

- **主问:** *What helps people speak more clearly when they feel nervous?*
- **追问 1:** *Which preparation method is useful, and which one can become unhelpful?*
- **追问 2:** *How would you recover after losing your place in an answer?*
- **收束追问:** *What would you tell someone who compares their speaking to others too much?*
- **完成要点:** 给具体可执行的恢复动作; 不要建议死背整篇答案。
- **发音/意群重点:** PAUSE / then return to the MAIN point; 两个短块。
- **二录动作:** 练一次 2 秒停顿后用 The main point is... 回到主线。

INT-074 | 是否追求完美 | C

- **主问:** *When does trying to make work perfect become unhelpful?*
- **追问 1:** *How can you tell whether another revision is worth the time?*
- **追问 2:** *Describe a task where small errors matter a great deal.*
- **收束追问:** *How would you set a reasonable stopping point?*
- **完成要点:** 区分高风险准确度与低风险润色; 建立停止标准。
- **发音/意群重点:** good ENOUGH / for THIS purpose; 重读条件信息。
- **二录动作:** 二录给一个高风险任务和一个“完成定义”, 如两人核对或满足三项标准。

INT-075 | 选择导师或教练 | C

- **主问:** *What qualities would you look for in a mentor or coach?*
- **追问 1:** *Why is expertise alone not always enough?*
- **追问 2:** *How should a learner respond if advice from a mentor does not fit?*
- **收束追问:** *What can the learner contribute to make the relationship useful?*
- **完成要点:** 讨论专业、沟通、匹配和学习者责任; 最后不能把关系说成单向接受。
- **发音/意群重点:** ask CLEAR questions / and REPORT back; 两个动作重读。
- **二录动作:** 补一个导师特质和学习者反馈的具体例子。

18.3.5 D 级 | 观点修正、抽象议题与礼貌协商 (INT-076—INT-100)

INT-076 | 方便与隐私 | D

- **主问:** *When a service becomes more convenient by collecting more personal data, how should people decide whether to use it?*
- **追问 1:** *What information would be especially sensitive in that decision?*
- **追问 2:** *What explanation should the service provide before asking for data?*
- **收束追问:** *When might the benefit be strong enough to justify sharing some information?*
- **完成要点:** 说明风险、透明度与条件性收益; 不需要假装有绝对答案。
- **发音/意群重点:** weigh the BENEFIT / against the RISK; 重读两端。
- **二录动作:** 加一个数据类型和一个可接受条件, 如可撤回、最小收集或明确用途。

INT-077 | 算法推荐的影响 | D

- **主问:** *Do recommendation systems mostly help people discover useful choices, or do they limit what people see?*
- **追问 1:** *What evidence would show that a system is narrowing choices too much?*
- **追问 2:** *How could a user actively look beyond recommendations?*
- **收束追问:** *What responsibility should the platform have?*
- **完成要点:** 把“便利/限制”落到可观察行为与平台设计, 不只表达喜恶。
- **发音/意群重点:** discover NEW options / rather than repeat...; rather than 成块。
- **二录动作:** 二录举一个内容或商品场景, 并提出一个用户动作和一个平台功能。

INT-078 | 自动化与人的判断 | D

- **主问:** *Which decisions should remain mainly in human hands even when automation is available?*
- **追问 1:** *What can automation do well in that situation?*
- **追问 2:** *What kind of mistake would be hardest to accept?*
- **收束追问:** *How could humans and automated tools share responsibility?*
- **完成要点:** 不把自动化全盘否定; 区分重复处理、价值判断和申诉机制。
- **发音/意群重点:** human JUDGment / matters MOST when...; judgment 清晰。
- **二录动作:** 选择一个情境, 说明工具负责什么、人负责什么、如何复核。

INT-079 | 公共讨论的规则 | D

- **主问:** *What makes a public discussion about a difficult issue productive rather than hostile?*
- **追问 1:** *How should a moderator respond when someone makes a strong claim without evidence?*
- **追问 2:** *What is the difference between challenging an idea and attacking a person?*
- **收束追问:** *When should a discussion pause instead of continuing?*

- **完成要点:** 涵盖证据、规则、语言边界和暂停条件; 保持礼貌但不回避冲突。
- **发音/意群重点:** challenge the IDEA / not the PERSON; 两个对比重音。
- **二录动作:** 练一句主持语: Could we return to the evidence behind that claim?

INT-080 | 效率与公平 | D

- **主问:** *Can a policy be efficient but still unfair? Give an example or a plausible situation.*
- **追问 1:** *Who might be helped by the policy, and who might be overlooked?*
- **追问 2:** *What information would you collect before changing it?*
- **收束追问:** *How could the policy become fairer without losing all of its efficiency?*
- **完成要点:** 清楚定义双方标准; 提出最小改动而非只说废除。
- **发音/意群重点:** efficient FOR some / but unfair TO others; 介词短语清楚。
- **二录动作:** 二录给一个规则、一类受益者、一类受影响者和一个补救措施。

INT-081 | 城市更新的优先级 | D

- **主问:** *When a neighborhood changes quickly, what should planners protect first: affordability, local character, green space, or something else?*
- **追问 1:** *Why might different residents choose different priorities?*
- **追问 2:** *How could planners learn about those differences before acting?*
- **收束追问:** *What compromise would you support if no option satisfied everyone?*
- **完成要点:** 处理利益差异和参与程序; 最后用条件性妥协收束。
- **发音/意群重点:** listen to RESidents / BEFORE finalizing...; before 是行动条件。
- **二录动作:** 指出两类居民并提出一项咨询方式和一项可逆改造。

INT-082 | 教育中的合作与竞争 | D

- **主问:** *Should schools emphasize cooperation more than competition?*
- **追问 1:** *What can healthy competition teach that cooperation may not?*
- **追问 2:** *When does competition become harmful?*
- **收束追问:** *How would you design one activity that includes both?*
- **完成要点:** 不要二选一; 定义健康竞争边界, 并设计一项具体活动。
- **发音/意群重点:** compete AGAINST a task / not AGAINST classmates; 对比重音。
- **二录动作:** 二录加入一个小组挑战和一个共同成功标准。

INT-083 | 文化传统的改变 | D

- **主问:** *How should a community decide whether to change a long-standing tradition?*
- **追问 1:** *Whose voices should be included in that decision?*
- **追问 2:** *What would count as a respectful update rather than a complete loss?*
- **收束追问:** *How could the community explain the change to younger people?*
- **完成要点:** 说明传承、包容与解释; 避免把传统当作永远不能改变。
- **发音/意群重点:** preserve the MEANing / while adapting...; preserve、meaning。

- **二录动作**：加入一个传统元素和一个可以调整的形式或参与方式。

INT-084 | 在不确定下做决定 | D

- **主问**: *How should people make a decision when waiting for more information also has a cost?*
- **追问 1**: *What makes information “good enough” to act on?*
- **追问 2**: *How could someone reduce the risk of being wrong?*
- **收束追问**: *When should they clearly say, “We do not know yet”?*
- **完成要点**：讨论时限、证据阈值、可逆动作和诚实不确定性。
- **发音/意群重点**：act on ENOUGH evidence / not PERFECT evidence; 强调边界。
- **二录动作**：二录设置一个期限和一项低风险、可回退的临时行动。

INT-085 | 全球问题与本地行动 | D

- **主问**: *When a problem is global, what can local communities realistically contribute?*
- **追问 1**: *How can a small action avoid becoming only symbolic?*
- **追问 2**: *What local information is needed before choosing an action?*
- **收束追问**: *How should people respond if their preferred action has little visible effect at first?*
- **完成要点**：从本地机制、测量和坚持策略回答，不许只喊口号。
- **发音/意群重点**：link a LOCAL action / to a MEASurable result; 清楚 local。
- **二录动作**：给一个地方问题、一个指标和一次三个月后的复查计划。

INT-086 | 个人化学习与共同标准 | D

- **主问**: *Can learning be personalized while still holding everyone to meaningful shared standards?*
- **追问 1**: *Which part of learning should remain common for everyone?*
- **追问 2**: *Which part could be adapted to individual needs?*
- **收束追问**: *How would you know that personalization was helping rather than lowering expectations?*
- **完成要点**：分开“目标相同”和“路径不同”；最后给结果证据。
- **发音/意群重点**：same GOAL / different PATHS; 极简对比要说清。
- **二录动作**：二录给一个共同成果和一种可调整的练习方式。

INT-087 | 可靠的信息环境 | D

- **主问**: *What responsibility do ordinary people have when they share information with others?*
- **追问 1**: *Is it enough to say “I am not sure” before sharing something?*
- **追问 2**: *How should someone correct a claim they shared earlier?*
- **收束追问**: *What habit would make a group less likely to spread false information?*
- **完成要点**：明确分享前、发现错后、群体习惯三个阶段。

- **发音/意群重点:** correct it OPENly / as SOON as...; 词尾和时间连接。
- **二录动作:** 练一条更正句, 包括原说法、已核实的新信息和道歉/更新动作。

INT-088 | 共享资源的分配 | D

- **主问:** *How should a community allocate a resource that many people need but cannot all use at once?*
- **追问 1:** *Would first-come, rotation, need, or payment be fairest in your example?*
- **追问 2:** *What problem could your chosen rule create?*
- **收束追问:** *How would people appeal an unfair result?*
- **完成要点:** 选择分配原则并主动指出副作用; 解释申诉渠道。
- **发音/意群重点:** based on NEED / rather than SPEED; 对比简洁有力。
- **二录动作:** 选一种真实资源, 如预约室或设备, 添加一条例外和一条申诉规则。

INT-089 | 错误能否成为学习机会 | D

- **主问:** *When should an error be treated mainly as a learning opportunity, and when should there be a consequence?*
- **追问 1:** *How do intent and impact affect your answer?*
- **追问 2:** *What response would help prevent the same error without creating fear?*
- **收束追问:** *How should a leader model this approach?*
- **完成要点:** 按影响、可预防性、是否重复分层; 最后说领导者的示范。
- **发音/意群重点:** learn FROM the error / but address the IMPACT; 两个焦点。
- **二录动作:** 给一个低风险和一个高风险例子, 说明不同响应。

INT-090 | 衡量一个项目的成功 | D

- **主问:** *How should a public program be judged after its first year?*
- **追问 1:** *Which numbers would be useful, and which experiences should also be heard?*
- **追问 2:** *What would you do if the numbers improved but some users reported serious problems?*
- **收束追问:** *When would you continue, revise, or end the program?*
- **完成要点:** 结合数据与体验; 说明三种决定的不同触发条件。
- **发音/意群重点:** look at the NUMbers / AND the lived EXperience; 双标准。
- **二录动作:** 列一个量化指标、一个访谈对象和一项继续/修订阈值。

INT-091 | 表达不同意见的责任 | D

- **主问:** *What makes disagreement respectful when people care deeply about the issue?*
- **追问 1:** *What language would you avoid?*
- **追问 2:** *How can you show that you understood the other view before responding?*
- **收束追问:** *What should happen if the discussion becomes personal?*
- **完成要点:** 示范承认、重述、证据和边界; 不要把“尊重”误解为不表达不同意见。

- **发音/意群重点:** I HEAR your concern / AND I see it differently; 两个完整块。
- **二录动作:** 二录使用一句先重述对方观点再提出不同证据的表达。

INT-092 | 技术便利造成的依赖 | D

- **主问:** *When does a helpful technology make people too dependent on it?*
- **追问 1:** *What ability should people keep practicing without the technology?*
- **追问 2:** *How could a school or workplace prepare for a system failure?*
- **收束追问:** *Would you limit use, teach backup skills, or both?*
- **完成要点:** 从能力保留、备用流程到政策选择解释; 最后可选“二者兼有”但要具体。
- **发音/意群重点:** keep a BACKup skill / for SYSTEM failures; backup 重读。
- **二录动作:** 说明一种工具、一项保留技能和一个断网/故障替代流程。

INT-093 | 何时公开不确定性 | D

- **主问:** *When leaders are uncertain, how much should they tell the public?*
- **追问 1:** *What can happen if leaders sound more certain than the evidence allows?*
- **追问 2:** *How can they communicate uncertainty without causing unnecessary panic?*
- **收束追问:** *What updates should they promise as new information arrives?*
- **完成要点:** 解释诚实、可行动信息和固定更新节奏的关系。
- **发音/意群重点:** say what we KNOW / what we DO NOT know / and what comes NEXT; 三段节奏。
- **二录动作:** 二录用三句结构说明现状、未知和下一次更新时间。

INT-094 | 环境选择中的个人限制 | D

- **主问:** *How should people think about environmentally friendly choices when those choices cost more or take more time?*
- **追问 1:** *Which changes are realistic for most people, and which are not?*
- **追问 2:** *What role should businesses or governments play?*
- **收束追问:** *How can a message encourage action without blaming people?*
- **完成要点:** 承认预算与时间限制; 把责任分给个人、机构和制度。
- **发音/意群重点:** make the BETTER choice / more PRACTical; 对比重音。
- **二录动作:** 给一个低成本行为和一个需机构支持的行为, 并用非指责语气收束。

INT-095 | 改变工作或学习文化 | D

- **主问:** *If a group has a habit that wastes time, how can it change the habit without blaming individuals?*
- **追问 1:** *What evidence would show that the habit is the real problem?*
- **追问 2:** *How could the group test a new routine?*
- **收束追问:** *What would you do if some people preferred the old way?*
- **完成要点:** 以流程和证据而非人格归因; 提出小试点与反馈。
- **发音/意群重点:** change the SYSTEM / not blame the PERSON; 对照清楚。

- **二录动作：**描述一个浪费时间的习惯、一个两周试验和一项反馈方式。

INT-096 | 公平并不总是相同 | D

- **主问：***Can treating people differently sometimes be fairer than treating everyone the same?*
- **追问 1：***What condition would justify different support?*
- **追问 2：***How could a rule avoid becoming arbitrary?*
- **收束追问：***What explanation would help people accept the difference?*
- **完成要点：**定义需要或障碍、透明标准和解释责任；不使用空泛“看情况”。
- **发音/意群重点：**same TREATment / is not always equal ACCESS; access 清晰。
- **二录动作：**二录给一个合理支持例子、一个公开标准和一项复核方法。

INT-097 | 传统知识与新证据 | D

- **主问：***How should people respond when new evidence challenges a practice that has worked for a long time?*
- **追问 1：***Why might people resist the new evidence?*
- **追问 2：***What small step could test the new approach respectfully?*
- **收束追问：***When would it be reasonable to keep the old practice?*
- **完成要点：**尊重经验但说明检验；用小规模试验和保留条件回答。
- **发音/意群重点：**respect past EXperience / while testing NEW evidence; 两端对比。
- **二录动作：**加入一个试点指标和一个继续旧做法的安全或效果条件。

INT-098 | 远期利益与眼前需求 | D

- **主问：***How should a community balance an immediate need with a benefit that may appear only years later?*
- **追问 1：***Who is most affected by waiting for the long-term benefit?*
- **追问 2：***Could the community design a solution that addresses both time frames?*
- **收束追问：***What would make you revise the balance later?*
- **完成要点：**清楚说出短期受影响者、长期目标和阶段性方案。
- **发音/意群重点：**meet TODAY's need / while investing in...; 两个时间框架。
- **二录动作：**二录提出一个立即措施和一个长期项目，并说一条复审触发条件。

INT-099 | 为他人做决定的边界 | D

- **主问：***When, if ever, should an institution make a decision for people because it believes the decision protects them?*
- **追问 1：***What evidence should be required before limiting personal choice?*
- **追问 2：***How could people challenge or appeal the decision?*
- **收束追问：***What safeguard would prevent the rule from becoming too broad?*
- **完成要点：**论及风险阈值、证据、申诉与范围限制；可以保留不确定性。
- **发音/意群重点：**protect people / WITHOUT removing...; without 不含混。

- **二录动作：**明确一种高风险情境、一条申诉渠道和一个定期复审机制。

INT-100 | 什么是可持续的进步 | D

- **主问：***How would you define progress for a community: faster growth, better daily life, greater fairness, or something else?*
- **追问 1：***What evidence would show that your definition was being met?*
- **追问 2：***What trade-off might your definition create?*
- **收束追问：***How should the community revisit its definition as conditions change?*
- **完成要点：**提出自己的定义、指标、副作用和修订程序；用具体例子避免口号化。
- **发音/意群重点：**progress means MORE than / one NUMBER; more、number 对比。
- **二录动作：**二录列一个生活质量指标、一项公平检查和一年度复盘的参与对象。

18.4 四、从题库到稳定输出：四周轮换与复盘

18.4.1 1. 四周循环（可重复使用）

周次	LR 任务	INT 任务	二录证据
第 1 周	A/B 级各 20 句；每次只做一个发音点	INT-001—025 随机 6 组	记录一个从“空白/单句”变成“理由 + 例子”的片段
第 2 周	B/C 级各 20 句；抽查数字、否定、条件	INT-026—050 随机 6 组	保存一次“承认限制后仍有立场”的回答
第 3 周	C/D 级各 20 句；三句链至少 2 组	INT-051—075 随机 6 组	对比一段首录与二录的逻辑连接词
第 4 周	混抽 30 句，不按顺序；三句链 3 组	INT-076—100 随机 6 组	记录一次礼貌分歧或条件性结论的可听证据

每周只选两项长期指标：例如“but/unless 不丢”和“追问不重复主答案”。不要同时追求语速、复杂词、零语法错、完美口音和长答案；那会使二录没有焦点。

18.4.2 2. 首录—二录的代表性复盘

以下是本书内部的示例，不是唯一可接受答案。它们展示的是**改动边界**：二录只修复几个高杠杆问题，而不是换一篇新稿。

复盘 A | INT-054：优先级回答

版本	代表性输出	分析
首录 (低—中边界)	<i>I do urgent work first because it is urgent. Then my plan is difficult. I try to do it later.</i>	有相关立场, 但没有判断标准, urgent 被重复使用, 听者不知道怎样决定
二录 (中)	<i>I first check the deadline and who will be affected. If the urgent task can wait one hour, I finish the part of my planned work that nobody else can do. Then I switch tasks and put a new time on my calendar to return.</i>	有检查项、条件、具体行动和回归计划; 无需更多复杂词
再升级 (高)	<i>I first check the deadline, the impact, and whether someone else can handle the interruption. If it can wait an hour, I protect the part of my planned work that only I can finish. That prevents one urgent message from breaking an entire day, but I would switch immediately if it affected safety or another person's deadline.</i>	加入机制与合理例外, 仍保持一句一个意思块

复盘 B | LR-353: 限制信息

原句: **The discount applies to members only, / except during / the open-house weekend.**

版本	可听证据	判断与二录动作
低	<i>The discount applies to members.</i>	丢了两个限制层: only 和例外; 二录前先单独说 members only —except open-house weekend
中	<i>The discount applies only to members, except on the open-house weekend.</i>	核心关系完整, during/on 的小差异不妨碍意思; 二录时把 during 放回原句节奏
高	<i>The discount applies to MEMbers only / except during the OPEN-house weekend.</i>	资格与例外都清楚, 两个意群自然

18.4.3 3. 结束前自评：不以“我感觉不错”为结论

每完成 25 组 INT 和 100 句 LR，随机抽取未重录过的 10 句和 3 组采访。按下表写下证据；没有录音、原句或具体转写，就写“无法判断”，不要猜测分数。

检查项	证据问题	达到时的表述	未达到时的下一步
LR 核心信息	我是否保留人物、动作、关系、数字/限制？	“10 句中有 9 句关系未改。”	找出丢失类别，回做对应十句而非重读全部
LR 懂节奏	停顿是否落在意思块，而非冠词、介词、助动词后？	“8 句中 7 句句尾完整。”	选 4 句，以 / 标注后影子跟读一次
INT 任务完成	四问是否各有回应，后问是否接住前文？	“3 组中每组都用了前文一个细节。”	下次先圈首答中可被追问的名词或条件
INT 发展	是否有可观察的理由、例子、条件或结果？	“每段至少有一个具体场景。”	用“人/地/行动/结果”补两项
INT 互动与边界	能否承认限制、礼貌不同意、或说清不确定？	“我说了条件，而未用绝对词掩盖例外。”	练 I can see..., but... 或 I would change my mind if...

完成定义 (本章): LR-001—LR-400 都有首录和至少一次有针对性的二录; INT-001—INT-100 都完成过连续四问, 且每 25 组有一次盲抽复测。这个定义只说明训练完成, 不保证任何正式考试结果。下一步请按编号进入第 19 章的解析、错误归因与复练路线。

18.5 五、连续采访表现工作室：高、中、低的边界在哪里

以下 12 组都只选一个主问题及其自然追问来示范。它们不是背诵稿：人物、地点、理由和措辞都可以替换。请特别比较三点：低表现通常少了什么信息；中表现已经完成了什么；高表现为什么能够自然地接住追问。所有“高/中/低”均是本书内部训练观察，不是 ETS 官方评分。

18.5.1 工作室 1 | INT-004 纸质笔记还是电子笔记

主问: *Would you rather take notes on paper or on a device?*
自然追问: *When might your less preferred method be more useful?*

档位	代表性首答与追问回答	边界判断
低	<i>I like notes on a device. It is fast and good. Paper is old. I use my phone sometimes.</i>	有立场，却没有说明“快”如何帮助，也没有真正回答纸质笔记何时有用。

档位	代表性首答与追问回答	边界判断
中	<i>I usually take notes on a device because I can search them later. After a class, I put the main points into one folder, so I do not lose them. However, I use paper when I need to draw a quick diagram or when my battery is low.</i>	有方法、结果和一个合理例外；追问已被回应，但例子还可以更有画面。
高	<i>I usually use a device for meetings and classes because I can search a key word when I review it later. For example, after a project meeting, I label the file with the date and add the next steps before I close it. That makes follow-up easier. I still choose paper for a diagram or a difficult planning problem, because moving boxes and arrows by hand helps me see the relationship before I organize it digitally.</i>	立场明确；流程具体；例外不是随意让步，而是解释了不同工具的认知用途。

二录动作：若你的首答只有优点，给它添加“课后一个动作”；若没有追问内容，在 However, I use paper when... 后补一个任务和一个原因。**意群目标：**use a DEvice / because I can SEARCH it LATER; 不要在 because I can 后断开。

18.5.2 工作室 2 | INT-010 什么时候向别人求助

主问：*Do you ask for help quickly or try to solve a problem alone first?*

自然追问：*How do you make your question clear to the other person?*

档位	代表性首答与追问回答	边界判断
低	<i>I ask my friend. My friend is smart. If I have problems, I ask.</i>	回答过短，听者不知道什么问题、何时求助、问什么。
中	<i>I try a few simple steps first, but I ask for help quickly if I might waste a lot of time. When I ask, I explain what I already tried. That makes the question easier to answer.</i>	有独立尝试和求助界线；但“简单步骤”仍不具体。

档位	代表性首答与追问回答	边界判断
高	<i>I usually try a few low-risk steps first, such as checking the instructions and searching the exact error message. I ask for help sooner when the problem affects other people or has a deadline. To make my question clear, I give a one-sentence background, show what I tried, and ask one specific question. For instance, I would say that the file will not open after I updated the program, then ask whether I should restore the earlier version.</i>	定义了风险和影响，追问给出可直接执行的提问结构与例子。

二录动作：把 *I ask clearly* 改成“背景 + 已尝试 + 具体请求”三句。**意群目标：**ask for HELP sooner / when it affects OTHERS; others 的词尾要保留。

18.5.3 工作室 3 | INT-026 图书馆优先改进什么

主问：*Would you choose more quiet rooms, longer hours, or more staff help?*

自然追问：*How would you know after six months whether the improvement worked?*

档位	代表性首答与追问回答	边界判断
低	<i>I choose longer hours because students need study. The library should open late. It is convenient.</i>	有选择但理由停在标签词；没有受益者、比较或检验办法。
中	<i>I would choose longer hours because students with daytime classes or jobs may need a quiet place in the evening. The library could check how many people use the space after eight o'clock and ask them whether the hours are helpful.</i>	解释了受益者，并有一个数量和一个体验指标。

档位	代表性首答与追问回答	边界判断
高	<i>I would choose longer hours, especially during busy assignment periods. Quiet rooms are valuable, but they do not help a student who cannot arrive before the library closes. After six months, I would compare evening entry numbers with the earlier schedule and collect short feedback from students who work or commute. If the rooms remain nearly empty, I would reduce the extra hours and invest the money in staff support instead.</i>	有取舍、目标群体、两类证据，以及根据结果修正选择的条件。

二录动作：给答案至少添加一名受益者和一个“数据 + 反馈”检验。**意群目标：**longer HOURS / during BUSY periods; 句末 periods 不丢。

18.5.4 工作室 4 | INT-030 课堂手机政策

主问：*Should students put their phones away during every class?*

自然追问：*What would make a phone policy fair rather than too strict?*

档位	代表性首答与追问回答	边界判断
低	<i>Yes, phones are bad. Students play games. Teachers should stop phones.</i>	绝对化，忽略学习与紧急情况，也没有公平标准。
中	<i>Students should usually put phones away because messages can break their attention. Still, a phone can help when a teacher asks students to look up information or when someone needs it for an emergency. A fair rule would explain those exceptions clearly.</i>	有主规则与例外；“清楚说明”尚未指向执行办法。

档位	代表性首答与追问回答	边界判断
高	<i>I would ask students to keep phones away during explanation and discussion, because even a short notification can pull attention from the group. I would allow them when the teacher plans a research activity or when a student has an urgent family reason. A fair policy should state those exceptions in advance and use a quiet reminder before any consequence. That protects the class without treating every phone use as the same problem.</i>	规则按课堂活动区分；例外、预告和递进回应都完整。

二录动作：删除 *always*、*never* 一类绝对词，加入一个正当例外和一个先提醒的步骤。**意群目标：**put phones Away / UNless they support...；限制词必须清楚。

18.5.5 工作室 5 | INT-038 社区服务是否应被要求

主问：*Should schools require students to complete some community service?*

自然追问：*How could a student with a busy job or family duty participate fairly?*

档位	代表性首答与追问回答	边界判断
低	<i>Yes, community service is important. Students can help people. Everyone should do it.</i>	有价值判断，缺少服务质量和现实可及性。
中	<i>I support a small service requirement if students can choose from different options. Someone with work or family duties could join a weekend activity or help a local group online. The goal should be useful work, not just collecting hours.</i>	已回应公平追问，并指出时数不等于贡献。

档位	代表性首答与追问回答	边界判断
高	<i>I support a modest requirement when students can choose meaningful options rather than complete the same activity. For example, one student might help at a food bank on a weekend, while another could use design skills to make clear information for a local nonprofit. A student with family duties should be able to select a short, flexible, or remote project. Schools should ask the community partner whether the work actually helped, so service does not become a box to check.</i>	具体、包容，也将“学生完成”连接到社区是否受益。

二录动作：加入两种不同能力或时间条件下的服务形式。**意群目标：**meaningful SERvice / not just HOURS; 对比处不要抢拍。

18.5.6 工作室 6 | INT-043 为在职者设计晚间课程

主问：*What makes an evening class effective for people who work during the day?*
自然追问：*What should happen if someone has to miss a session?*

档位	代表性首答与追问回答	边界判断
低	<i>The class should be good and not long. Workers are tired. They can watch a video.</i>	认识到疲劳，却没有课程结构、缺课支持或任务边界。
中	<i>An evening class should have one clear goal and a short break, because people may arrive tired after work. If someone misses a session, the teacher could share the key slides and one small practice task.</i>	有目标、休息和缺课材料；仍可增加互动或核对。

档位	代表性首答与追问回答	边界判断
高	<i>I would keep the lesson focused on one practical goal, with a short break around the middle instead of a long lecture. People who work all day need a chance to use the idea, not just hear it. If someone misses a session, I would share a brief recording or summary, one 15-minute practice task, and a way to ask a question before the next meeting. That keeps the course flexible without pretending that missing class has no effect.</i>	围绕成人精力、应用、补课和真实限制给出连贯方案。

二录动作：给出一个时长、一项课内活动和一项 15 分钟补课任务。**意群目标：**after a FULL workday / people need a BREAK; workday 作为整体读。

18.5.7 工作室 7 | INT-055 学习中使用 AI 工具

主问：*What is a responsible way to use an AI tool while learning a difficult subject?*
自然追问：*What use would cross the line from support to doing the work for the learner?*

档位	代表性首答与追问回答	边界判断
低	<i>AI is useful. It can answer questions. Students should use it, but not too much.</i>	“有用/不要太多” 没有可执行界线，也未说明如何验证。
中	<i>I would try the problem first and then ask the tool to explain one step I do not understand. I would check the explanation against my course notes. It crosses the line when a student submits an answer that the tool wrote and cannot explain.</i>	有先后顺序、核对与明确越界例子。

档位	代表性首答与追问回答	边界判断
高	<i>I would use an AI tool after making my own attempt, especially to ask for a hint, a simpler explanation, or a practice question. Then I would compare the response with my notes or another reliable source, because a confident explanation can still be wrong. It becomes inappropriate when the tool creates the final work and the learner only copies it. A useful test is simple: can the learner explain the choice aloud and solve a similar problem without the tool?</i>	建立了工具用途、验证、学术诚信边界和可测试的自我检查。

二录动作：把笼统的 *use it responsibly* 改为三步：先尝试、再问、再核对。**意群目标：**a TOOL for LEARNiNG / not a REplacement; 重点在 tool 与 replacement。

18.5.8 工作室 8 | INT-062 要求不清楚时怎么办

主问：*What do you do when instructions for a task are unclear?*

自然追问：*What if you cannot get an answer before the deadline?*

档位	代表性首答与追问回答	边界判断
低	<i>I ask the teacher. If the teacher is not here, I wait.</i>	有求助意识，但等待会让截止期风险更大；问题本身也不具体。
中	<i>First I reread the instructions and look at an example. If one important point is still unclear, I explain my understanding and ask a specific question. If I cannot get an answer, I make a reasonable choice and state the assumption in my work.</i>	有先自行判断、清楚提问和截止期下的透明处理。

档位	代表性首答与追问回答	边界判断
高	<i>I first identify exactly which decision is unclear, because a vague question often receives a vague answer. I check any example and write one sentence about my current understanding. Then I ask something like, "I understand that we should compare two sources; should the conclusion use both sources equally?" If no answer arrives before the deadline, I choose the interpretation supported by the written instructions, note that assumption briefly, and save time to revise if clarification comes later.</i>	将模糊任务转成可回答问题，保留证据、假设和可修订性。

二录动作：二录必须包含一个具体澄清问题，而非只说 *Could you explain?*。**意群目标：**my UNDERstanding is... / Could you conFIRM...?

18.5.9 工作室 9 | INT-071 哪些会议值得开

主问：*What makes a meeting worth attending rather than an email?*

自然追问：*What should be written down before everyone leaves?*

档位	代表性首答与追问回答	边界判断
低	<i>Meetings are good for talking. Emails are for information. People should have fewer meetings.</i>	有粗略区别，但没有决策标准，也没有追问答案。
中	<i>A meeting is useful when people need to make a decision together or solve a problem that depends on several viewpoints. Before leaving, the group should write down who will do each task and when it is due.</i>	有会议目的和两个可执行记录项。

档位	代表性首答与追问回答	边界判断
高	<i>I would choose a meeting when people need to compare options, resolve a conflict, or make a decision that cannot be made by one person. Routine updates can usually be an email. Before everyone leaves, I would record the decision, the owner of each next step, the deadline, and any question that remains open. That matters because a friendly discussion is not useful if people leave with different ideas about what happens next.</i>	区分互动决策与信息传递，追问用“决定—负责人—期限—未决问题”完整闭环。

二录动作：把 *write notes* 改成具体四项中的至少三项。**意群目标：**a CLEAR owner / a DEADline / and an OPEN question; 并列时只在项间轻停。

18.5.10 工作室 10 | INT-080 效率与公平

主问：*Can a policy be efficient but still unfair? Give an example or a plausible situation.*

自然追问：*How could the policy become fairer without losing all of its efficiency?*

档位	代表性首答与追问回答	边界判断
低	<i>Yes, it can be unfair. Some people have problems. The policy should change.</i>	结论正确却没有政策、受影响者或修改机制。
中	<i>A first-come booking system is efficient because it is simple, but it may be unfair to people who work when bookings open. The service could reserve some times for people with different schedules.</i>	有明确机制、受影响者和补救方向。

档位	代表性首答与追问回答	边界判断
高	<i>A first-come booking system for a study room is efficient because staff do not need to judge every request. However, it may favor people who can be online at the exact opening time and exclude students with fixed work shifts. I would keep most slots first-come to avoid a complicated process, but reserve a small number for rotating time windows or verified access needs. After a trial, the library could compare no-show rates and ask users whether the new rule actually improved access.</i>	效率来源、分配偏差、最小修正和评估方法都可被听者追踪。

二录动作：给出一个具体规则、一个受影响群体和一个不完全推翻原规则的补救。**意群目标：**efficient for SOME / but unfair to OTHERS; some/others 形成对照。

18.5.11 工作室 11 | INT-087 转发信息前的责任

主问：*What responsibility do ordinary people have when they share information with others?*

自然追问：*How should someone correct a claim they shared earlier?*

档位	代表性首答与追问回答	边界判断
低	<i>People should not share fake news. They need to be careful. If it is wrong, say sorry.</i>	道德判断正确，但没有核对行为，也没有给已看到原信息的人新的事实。
中	<i>Before sharing, people should check who made the claim and whether it is current. If I shared something incorrect, I would send a correction to the same group and explain what I found later.</i>	有两项核对与相同渠道更正；还可说清更正内容。

档位	代表性首答与追问回答	边界判断
高	<i>Ordinary people do not need to become experts before sharing every message, but they should pause when a claim is surprising, urgent, or likely to affect someone. I would check the original source, the date, and whether another reliable source agrees. If I later learned that I was wrong, I would correct it in the same place where I shared it, state the earlier claim briefly, and link or describe the better information. Quietly deleting it is not enough if other people may already have acted on it.</i>	承认现实限制，说明风险信号、核对动作和对受众负责的更正方式。

二录动作：练一句完整更正，含“此前说什么—现在核实什么—别人该做什么”。**意群目标：**correct it in the SAME place / where I SHARED it.

18.5.12 工作室 12 | INT-098 眼前需求与长期利益

主问：*How should a community balance an immediate need with a benefit that may appear only years later?*

自然追问：*Could the community design a solution that addresses both time frames?*

档位	代表性首答与追问回答	边界判断
低	<i>The community should do both. People need help now, and the future is important too.</i>	看似平衡，实际没有资源分配或可执行路径。
中	<i>A community should meet an urgent need first, but save part of the budget for a long-term project. For example, it could repair unsafe bus stops now while planning a better transit network for later.</i>	有时间框架与一个合理例子；还可说明何时复审。

档位	代表性首答与追问回答	边界判断
高	<i>I would first protect people facing an immediate risk, such as unsafe bus stops or a lack of clean water. At the same time, I would reserve a defined part of the budget for a long-term system that reduces the same problem later. For example, a city could repair dangerous stops this year while collecting route data for a broader transit plan. Every six months, it should review whether the urgent repairs are reaching the people most affected and whether the long-term plan still matches travel patterns.</i>	说明短期优先的边界、长期投资、两者的关联和周期性复审。

二录动作：避免只说 *do both*；必须给出“现在做什么、以后做什么、何时复查”。**意群目标：**meet TODAY's need / while investing in the LONG term.

18.5.13 工作室使用法：让示例变成自己的证据

1. 先不看高档答案，完成对应 INT 的四问首录。
2. 只读低档与中档，找出自己少了哪一个元素：立场 / 原因 / 例子 / 条件 / 追问回应 / 结果。
3. 选高档答案的**结构动作**，不是它的词汇或故事；用自己的经历重录 35—45 秒。
4. 对照首录和二录，只记录三项：新增的可观察细节、改善的意群、仍未回应的追问。

如果二录反而变慢，先缩短句子而不是塞进高档示例的所有内容。高表现的本质是让听者容易跟上“我为什么这样想、这个例子怎样支持、什么条件会改变答案”，不是长答案本身。

第十九章 18 | 阶段卷与完整模考 (2026 新版 TOEFL iBT 原创仿真)

使用边界 (2026-08-04 核对): 本章全部文章、题目、选项、听力台词和输出任务均为原创教学材料。它参照 2026 年 1 月 21 日后的 TOEFL iBT 任务类型组织: Reading 包含 Complete the Words、Read in Daily Life、Read an Academic Passage; Listening 包含 Listen and Choose a Response、Listen to a Conversation、Listen to an Announcement、Listen to an Academic Talk; Writing 包含 Build a Sentence、Write an Email、Write for an Academic Discussion; Speaking 包含 Listen and Repeat、Take an Interview。TOEFL 和 TOEFL iBT 仅用于说明所参照的考试类别, 不表示 ETS 的认可、合作或隶属关系。

不要把本章当作真题或分数预测器。 ETS 2026 Specifications 将 Reading 和 Listening 的 35 个**计分项目**与可能出现的**未计分项目**分开: 未计分项目不会进入分数, 却可能使某次考试的实际呈现总数高于 35; 不要把实际呈现数当作计分题量, 也不要预设某次考试的未计分数。Writing 当前为 12 个任务/23 分钟, Speaking 当前为 11 个提示/8 分钟; 以 ETS [Test Specifications \(2026\)](#) 和 [TOEFL iBT Test Content](#) 的考试日说明为准。本章的固定 35 题、计时卡、路由阈值、评分记录和题目顺序均是**教学仿真设计**, 不是 ETS 题库、界面、算法或官方评分标准。

19.1 一、全卷的用法: 仿真不是复制

19.1.1 1. 六套卷与第 19 章的答案映射

卷别	核心主题	阅读/听力	写作/口语	第 19 章核对区
M01	City Food Network	M01-R01—R35 / M01-L01—L35	M01-W01—W12 / M01-S01—S11	19.6.1
M02	The Night Museum	M02-R01—R35 / M02-L01—L35	M02-W01—W12 / M02-S01—S11	19.6.2
M03	Coast Watch	M03-R01—R35 / M03-L01—L35	M03-W01—W12 / M03-S01—S11	19.6.3
M04	Clear Health Messages	M04-R01—R35 / M04-L01—L35	M04-W01—W12 / M04-S01—S11	19.6.4
M05	Buildings That Adapt	M05-R01—R35 / M05-L01—L35	M05-W01—W12 / M05-S01—S11	19.6.5

卷别	核心主题	阅读/听力	写作/口语	第 19 章核对区
M06	Neighborhood Data Lab	M06-R01—R35 / M06-L01—L35	M06-W01—W12 / M06-S01—S11	19.6.6
Route A / B	阶段路由卷	RA/RB-R01—R12、 RA/RB-L01—L12	路由写作/口语任务	19.7

第 19 章按上述**题号原样**给出客观题的唯一答案、文本或脚本证据、四个选项的判定、错因标签和建议用时；开放题按同一编号给出完成要点、内部训练量表和代表性高/中/低表现。做卷时禁止先翻第 19 章；核对时也必须只查自己实际完成的题号。

19.1.2 2. 两种执行模式

模式	做什么	可获得什么	不能声称什么
教学压缩	每科只抽本卷标 ◆ 的 12 个客观题；Writing 做 W01—W06、W07、W10；Speaking 做 7 句 Repeat 与 4 题 Interview。	在工作日完成的速度、错误类型和输出样本。	不是“做了一次正式全真”。
固定全卷仿真	完成每套全部 35 R + 35 L + 12 W + 11 S；Reading 至多 30 分钟、Listening 至多 29 分钟、Writing 23 分钟、Speaking 8 分钟。	一次较长、可复盘的原创任务覆盖。	固定题量和顺序不等于 ETS 的真实自适应模块、未计分项目、界面或分数。

◆ 是教学压缩选择点，不是易题标记。压缩模式每科覆盖全部任务类型，且不得在完成后再把未做题计入正确率。正式考试可能调整任务数量、具体时长和呈现；本章保留计时上限，是为了让在职考生练习单向推进和疲劳管理。

19.1.3 3. 四科执行卡

Reading (固定仿真)

1. 先读题型标题，再从 R01 连续做到 R35；不查词、不回到已结束的小任务。
2. CTW 先用词性和逻辑排除，再看拼写；Daily Life 用“对象—动作—时间—限制”四格定位；Academic 先确定段落功能。
3. 到第 15、25、35 题时快速记下剩余时间。某题超过 70 秒仍无证据，标 ? 后继续。

Listening (固定仿真)

1. 考生不可看 Script。管理员或 TTS 只读每段一次；播放时不暂停、不回放、不显示文字。
2. 只将 问题 → 变化/限制 → 方案/结论写成极短笔记。漏一句就写 ?，立刻追后一句。
3. 所有题完成后才可阅读本章脚本。脚本上方的 TTS Script 之外的题号、选项和说明不得送入语音工具。

Writing (固定仿真)

- 1. 建议 6 分钟完成 W01—W06，7 分钟完成三封 Email，10 分钟完成三则 Discussion。
- 2. 每个 Sentence 必须用完给定词块；每封 Email 必须有情境、可执行请求和下一步；每则 Discussion 必须有立场、回应和具体理由。
- 3. 这是本书的训练分配，不是要求考生在正式界面按同样顺序作答。

Speaking (固定仿真)

- 1. S01—S07 每句只听一次，播放结束立刻录音复述；S08—S11 听到问题后直接开始，单题约 45 秒。
- 2. Repeat 看信息是否完整，不追求口音复制；Interview 看观点—理由—例子—回扣，不背诵模板。
- 3. 本书录音、TTS 声音和自评量表不能模拟真实设备检查或官方 AI 评分。

19.1.4 4. TTS 与技术中断规则

将每个 TTS Script 中的英文台词单独复制到自然英语语音，建议 0.95—1.05 倍速。管理员先在考生不在场时试播；开始作答后只播放一次。若第一句话**开始前**发生故障，可从头重播；第一句话开始后发生故障，应把该材料记作 TECH、不纳入本次准确率，并在另一日用同样规则重做。不要用慢速、逐句暂停或把题目选项读进 TTS 来“补偿”。

19.1.5 5. 成绩记录与复盘出口

项目	必记数据	本书训练解释
R/L	完成题号、正确/总数、V/Q/E/L/S/T/A/G 主错因	只比较同一模式下的两次表现；不换算 TOEFL 分数。
Writing	W01—W06 每句 0—2；Email/Discussion 各 0—4；漏答项目	先修复任务完成，再修复一个反复语言问题。
Speaking	每句/每题 0—4；遗漏类别或卡顿位置	对照录音找一个最影响理解的信息，不以“像母语者”为目标。
路由	Router 正确数、进入的训练路径、第二模块正确数	仅决定本书下一周练习，不预测 ETS 路由。

完成一套全卷后的 48 小时内：第一天只核答案并标主因；第二天闭卷重做三道同类客观题、重录一题口语、只重写一则最弱输出。若正确但无法指出证据，标 G（不稳定正确），不能按掌握计算。

19.2 二、固定全卷仿真 M01 | City Food Network

建议节点：第 8 周或已完成第 3—6 章基础训练后。

主题边界：城市食物分配、校园厨房与本地研究；所有素材原创。

教学压缩执行：只做本套标 ◆ 的客观题，另完成 M01-W01—W06、M01-W07、M01-W10 和 M01-S01—S07、M01-S08—S11；答案只核对第 19.6.1 节的同号条目。

压缩抽题：R ◆01、◆03、◆09、◆12、◆17、◆20、◆24、◆27、◆31、◆33、◆34、◆35；L ◆01、◆04、◆09、◆11、◆14、◆17、◆21、◆25、◆29、◆31、◆34、◆35。

19.2.1 M01-A Reading (35 题, 至多 30 分钟)

Task 1 | Complete the Words (R01—R08)

1. **M01-R01** ◆ The student volunteers sorted **perish**____ food before noon.
A. able B. ion C. ment D. ness
2. **M01-R02** A clear label can **pre**____ a cook from using the wrong container.
A. vent B. pare C. view D. sent
3. **M01-R03** ◆ The garden produced a **sur**____ of beans after a rainy month.
A. plus B. face C. round D. vive
4. **M01-R04** The coordinator asked each team to **esti**____ how many meals it could prepare.
A. mate B. mend C. rate D. late
5. **M01-R05** Families could **re**____ a weekly pickup time online.
A. serve B. quest C. mind D. pair
6. **M01-R06** A short survey helped the pantry **iden**____ the most useful items.
A. tify B. tical C. tide D. tity
7. **M01-R07** The chef used a **flex**____ recipe because deliveries varied.
A. ible B. ion C. ure D. ity
8. **M01-R08** Donated vegetables were **thor**____ washed before cooking.
A. oughly B. ough C. ow D. own

Task 2 | Read in Daily Life (R09—R20)

Food Share Pickup Notice

Tuesday boxes are packed for residents who selected the *north entrance* when registering. Arrive between 4:30 and 6:00 p.m. and bring the reusable bag assigned at your first visit. If you cannot attend, cancel by noon so a standby household can receive the box. Staff cannot hold cold items overnight.

9. **M01-R09** ◆ Who should use the north entrance on Tuesday?
A. Any resident with an empty bag
B. Residents who selected it during registration
C. Only first-time visitors
D. Standby households after 6:00 p.m.
10. **M01-R10** What must a visitor bring?
A. A photo of the box B. A reusable assigned bag C. A printed cancellation form
D. A cold-storage container
11. **M01-R11** Why should someone cancel by noon?
A. To change entrances B. To reserve two boxes C. To release food for a standby household D. To avoid washing a bag
12. **M01-R12** ◆ What is true about cold items?
A. They may be collected the next morning.
B. They are held only for first-time visitors.
C. They cannot be stored for an absent household.

D. They require a separate registration.

Kitchen Orientation Email

New volunteers should attend one 25-minute orientation before entering the teaching kitchen. The Thursday session begins at 5:40 p.m., not 6:00 p.m. Wear closed shoes and tie back long hair. You will practice labeling, handwashing, and reporting an equipment problem; you will not prepare food during this first session.

13. **M01-R13** What is the purpose of the session?
A. To assign weekly meals B. To introduce kitchen safety routines C. To test cooking ability D. To repair equipment
14. **M01-R14** When does the Thursday session start?
A. 5:15 p.m. B. 5:25 p.m. C. 5:40 p.m. D. 6:00 p.m.
15. **M01-R15** What should a volunteer do before arriving?
A. Prepare a meal B. Wear closed shoes C. Bring an equipment report D. Buy a name tag
16. **M01-R16** What will volunteers *not* do at orientation?
A. Learn labeling B. Practice handwashing C. Report a problem D. Cook food

Community Garden Reservation Page

Groups may reserve one raised bed for a six-week trial. The group must name two people who can water the bed during school holidays. Seeds and compost are supplied, but groups choose their own crops. At the end of the trial, submit a two-paragraph note describing one success and one change for the next season. Beds with no activity for fourteen days may be reassigned after staff contact the group.

17. **M01-R17** ♦ What must every group provide?
A. Its own compost B. Two holiday watering contacts C. A harvest schedule D. A staff member
18. **M01-R18** Which item does the garden supply?
A. Crops B. Watering staff C. Seeds D. A final report
19. **M01-R19** What must the final note include?
A. Two crop prices B. A success and a future change C. Names of all visitors D. A request for a second bed
20. **M01-R20** ♦ When may a bed be reassigned?
A. When a group chooses uncommon crops
B. Immediately after a school holiday
C. After fourteen inactive days and staff contact
D. At the end of every week

Task 3 | Read an Academic Passage (R21—R35)

Passage 1: Edible Neighborhoods

City planners once treated food production and public space as separate concerns. A small series of neighborhood gardens challenged that division. Besides producing herbs and vegetables, the gardens gave nearby resi-

dents a reason to walk through spaces that had previously been ignored. Researchers found that harvest size alone did not explain which gardens lasted. Gardens were more durable when participants had small, repeated jobs, such as checking soil moisture or posting a weekly notice. These jobs made responsibility visible and reduced the chance that everyone assumed another person would act.

The researchers do not argue that every unused lot should become a garden. Some sites lack clean soil, steady water, or safe access. Their point is narrower: a food project can also be a social design project. A plan that includes a crop list but no routine for shared decisions may fail even when the plants grow well.

21. **M01-R21** What is the main idea of the passage?
- A. Gardens succeed only when they produce large harvests.
 - B. Community food projects need social routines as well as suitable growing conditions.
 - C. City planners should convert every empty lot into a garden.
 - D. Soil testing is unnecessary in urban gardens.
22. **M01-R22** Why does the author mention checking soil moisture?
- A. To describe a job that can make shared responsibility visible
 - B. To show that herbs require more water than vegetables
 - C. To explain why gardens should close weekly
 - D. To prove that all residents enjoy gardening
23. **M01-R23** The word **durable** is closest in meaning to
- A. expensive B. long-lasting C. private D. crowded
24. **M01-R24** ♦ What can be inferred about a plan with only a crop list?
- A. It may neglect how participants will coordinate work.
 - B. It will always use unsafe soil.
 - C. It requires no water.
 - D. It produces too many vegetables.
25. **M01-R25** Which statement would the researchers most likely agree with?
- A. A garden's social effects are unrelated to its design.
 - B. Repeated small tasks can help prevent responsibility from disappearing.
 - C. Harvest size is the only useful measure of a project.
 - D. Access concerns should be ignored if a site is empty.

Passage 2: Measuring Food Waste

Cafeterias often weigh discarded food to estimate waste. That measure is useful, but it does not reveal why food was left uneaten. At one college, researchers paired waste measurements with short exit questions. They learned that a large amount of soup was discarded not because students disliked its flavor, but because the serving bowls were too large for people seeking a quick snack. Reducing bowl size lowered discarded soup without changing the recipe.

The study illustrates a broader measurement problem. A total can signal that something needs attention, while hiding the mechanism that produced

it. For this reason, the researchers recommend combining a broad count with a small number of observations or questions. The additional evidence does not remove uncertainty, but it can prevent a solution from targeting the wrong cause.

26. **M01-R26** Why were exit questions added to the study?
 - A. To advertise a new recipe
 - B. To identify reasons behind the amount of food discarded
 - C. To measure the size of the cafeteria
 - D. To ask students to wash bowls
27. **M01-R27** ♦ What caused much of the soup waste?
 - A. The soup was served cold.
 - B. Students disliked its flavor.
 - C. The bowls did not fit a small-snack purpose.
 - D. The recipe changed too often.
28. **M01-R28** The word **mechanism** most nearly refers to
 - A. the process that produces an outcome
 - B. a machine used in a kitchen
 - C. a rule about serving hours
 - D. an amount of food on a scale
29. **M01-R29** What does the author suggest about totals?
 - A. They are useless without recipes.
 - B. They can reveal a problem but not necessarily its cause.
 - C. They prove that students are satisfied.
 - D. They remove all uncertainty from research.
30. **M01-R30** Which action best follows the researchers' recommendation?
 - A. Stop weighing discarded food.
 - B. Change every recipe after one day.
 - C. Pair waste records with observations of serving conditions.
 - D. Ask only students who finish all their food.

Passage 3: Cooling Before Refrigeration

Before mechanical refrigeration became common, merchants used several methods to slow food spoilage. Some stored perishable goods in shaded cellars; others arranged deliveries for the coolest hours of the day. These practices were not equally available everywhere. A town with access to ice could preserve certain foods longer, while a hot inland market might rely more heavily on quick sale and frequent delivery.

Historians caution against viewing these strategies as failed versions of modern refrigeration. They were practical responses to local limits. A merchant who sold smaller quantities twice a day was not necessarily less organized than one who stored a large supply; the two merchants may have been solving different problems. Studying those choices can show how trade systems adjusted to climate, transport, and customer routines.

31. **M01-R31** ♦ What is the passage mainly about?
 - A. Why mechanical refrigeration was immediately available everywhere

- B. How food merchants adapted preservation practices to local conditions
C. Why customers preferred large food supplies
D. How to build an underground cellar
32. **M01-R32** Why does the author mention ice access?
A. To show one local factor that affected preservation options
B. To argue that all markets had the same resources
C. To describe the first mechanical refrigerator
D. To explain why cellars were always shaded
33. **M01-R33** ♦ The author calls older strategies “practical responses” in order to
A. claim they were identical to modern refrigeration
B. reject the idea that they should be judged only by a modern standard
C. prove that food never spoiled in the past
D. recommend ending frequent deliveries
34. **M01-R34** ♦ What can be inferred about the two merchants?
A. They certainly sold the same food.
B. Their different routines could both be sensible in their contexts.
C. The merchant with smaller deliveries was less organized.
D. Neither considered customer habits.
35. **M01-R35** ♦ Which factor is *not* named as shaping trade choices?
A. Climate B. Transport C. Customer routines D. Advertising slogans

19.2.2 M01-B Listening (35 题, 至多 29 分钟)

Administrator instruction: Read each script once, naturally. Do not show it to the candidate. The answers and script evidence are in 19.1 only after the section.

Task 1 | Listen and Choose a Response (L01–L10)

TTS Script M01-L01: “Could you put the extra apples on the front table?”

1. **M01-L01** ♦ A. Sure, I will move them now. B. Apples are my favorite color. C. The table arrived last week. D. I put it in a recipe.

TTS Script M01-L02: “Is the pantry pickup still in the student center today?”

2. **M01-L02** A. Yes, the location has not changed. B. I picked a student center. C. Today is a useful location. D. The pantry is very hungry.

TTS Script M01-L03: “I forgot whether volunteers need name tags.”

3. **M01-L03** A. The tags are on the sign-in desk. B. I named the volunteers. C. It was a long meeting. D. Forgetting is a name.

TTS Script M01-L04: “Why don't we ask the garden manager before we order seeds?”

4. **M01-L04** ♦ A. Good point; she knows what is already available. B. The manager ordered a garden. C. Seeds are usually small. D. I asked why the garden grew.

TTS Script M01-L05: “Can I leave these boxes here until my shift starts?”

5. **M01-L05** A. Please keep the exit clear and use the storage shelf. B. The shift starts at a box. C. I left early yesterday. D. The shelf is a good book.

TTS Script M01-L06: “The soup label does not list the ingredients.”

6. **M01-L06** A. Then ask the kitchen lead before serving it. B. Soup is an ingredient. C. The label was very quiet. D. Serve the lead first.

TTS Script M01-L07: “Did you submit the volunteer schedule?”

7. **M01-L07** A. Not yet; I am checking one last conflict. B. The schedule submitted me. C. Conflicts are always volunteer work. D. It was a long submission.

TTS Script M01-L08: “I can cover the morning delivery if you take the afternoon count.”

8. **M01-L08** A. That works; I am free after lunch. B. The count has an afternoon. C. Deliveries cover the road. D. Morning is my favorite number.

TTS Script M01-L09: “The scale is showing a different number every time.”

9. **M01-L09** ♦ A. Let's stop using it and tell the supervisor. B. Numbers are different scales. C. It weighs every time. D. The supervisor is a number.

TTS Script M01-L10: “Would it be all right to bring my younger brother to the garden?”

10. **M01-L10** A. Yes, if you stay with him while you work. B. My brother is younger than the garden. C. It is all right to grow brothers. D. Work has a younger shift.

Task 2 | Conversation (L11–L16)

TTS Script M01-C1

Student: I signed up to collect pantry donations, but my class now ends at the same time as the pickup.

Coordinator: The Tuesday pickup is hard to move because the driver has another stop. Could you work on Wednesday instead?

Student: I could, but I have never used the inventory app.

Coordinator: Wednesday's partner can show you the first list. Arrive ten minutes early, and I will add you to that shift.

11. **M01-L11** ♦ Why does the student speak to the coordinator?
A. To change a volunteer shift B. To report a missing driver C. To request an inventory app D. To cancel a class
12. **M01-L12** Why cannot the Tuesday pickup easily move?
A. The pantry closes on Tuesday. B. The driver has another stop. C. The student lacks a list. D. The app is unavailable.
13. **M01-L13** What will the student most likely do?
A. Drive the Tuesday route alone B. Attend a Wednesday shift early C. Skip all pantry work D. Create a new app

TTS Script M01-C2

Student: The garden report asks for the amount we harvested, but our group gave some herbs away before weighing them.

Instructor: Do not invent a number. Could you describe what you recorded and what you did not record?

Student: We have dates, photos, and the number of bundles.

Instructor: Good. Report those observations and explain the limitation. Next

season, decide before harvest which measure will be practical.

14. **M01-L14** ♦ What problem does the student describe?
A. The group planted the wrong herbs.
B. The group lacks a complete weight record.
C. The report is due on the wrong date.
D. The instructor lost the photos.
15. **M01-L15** What does the instructor advise the student not to do?
A. Give herbs away B. Use photos C. Make up a number D. Report bundle counts
16. **M01-L16** What will the group likely do next season?
A. Stop recording harvests B. Weigh only photographs C. Plan a feasible measure in advance D. Avoid growing herbs

Task 3 | Announcement (L17—L20)

TTS Script M01-A1

This Saturday, the community kitchen will test a new sign-in process. Volunteers should enter through the side door and write only their first name and arrival time on the paper sheet. We are testing whether the paper record is easier to check during a busy shift; it is not a permanent replacement for the online system. Please do not bring guests this week because staff need to count the normal number of workers. After cleanup, place any suggestions in the blue folder by the exit.

17. **M01-L17** ♦ What is the main purpose of the announcement?
A. To recruit guests for a kitchen event
B. To explain a temporary sign-in test
C. To close the online system permanently
D. To change the kitchen entrance every day
18. **M01-L18** What should volunteers record?
A. Their full address B. Their first name and arrival time C. A guest's name D. A cleanup suggestion
19. **M01-L19** Why should volunteers not bring guests?
A. The kitchen has no side door.
B. Staff want to measure the usual worker count.
C. Guests cannot use paper records.
D. The blue folder is full.
20. **M01-L20** Where should suggestions go?
A. In the online system B. On the side door C. In the blue folder D. At the front desk

Task 4 | Academic Talk (L21—L35)

TTS Script M01-T1

Professor: Today we will examine “choice architecture” in a cafeteria. The phrase does not mean forcing people to eat a particular food. It means ar-

ranging options so one choice becomes easier to notice or obtain. In one small study, fruit was placed near the payment area while desserts stayed in their usual location. Fruit selection increased. That result alone does not prove that students changed their long-term eating habits, and the researchers were careful not to make that claim. Still, the study shows why a physical arrangement can affect a routine decision. For a stronger conclusion, we would need to know whether the effect continued after the arrangement stopped and whether different student groups responded similarly.

21. **M01-L21** ♦ What is the talk mainly about?
A. How cafeteria prices are calculated
B. How the arrangement of options can influence a choice
C. Why desserts should be removed from cafeterias
D. How students create payment systems
22. **M01-L22** What happened when fruit was placed near payment?
A. Fruit selection increased. B. Dessert selection disappeared. C. Prices changed.
D. Students stopped eating.
23. **M01-L23** What do the researchers *not* claim?
A. Arrangement can affect a routine choice.
B. Fruit was easier to notice.
C. Long-term eating habits definitely changed.
D. More evidence could strengthen a conclusion.
24. **M01-L24** Why does the professor mention different student groups?
A. To identify a question for further research
B. To name the study participants
C. To explain payment procedures
D. To compare fruit prices
25. **M01-L25** ♦ Which note best represents the talk?
A. fruit near payment → selection up; not proof of lasting habits
B. dessert removed → all students eat fruit forever
C. prices up → payment area moved
D. students forced → study ends

TTS Script M01-T2

Professor: A supply chain is often drawn as a straight line from producer to customer. That drawing is useful for a first explanation, but it can hide returns, delays, and information moving in the opposite direction. Consider a bakery that receives a report from shops that a loaf is arriving stale. The bakery may adjust packaging, delivery time, or the quantity sent to each shop. The customer complaint is therefore not outside the supply chain; it is information that changes later decisions within it. When analysts ignore this feedback, they may blame a single stage for a problem created by several connected choices.

26. **M01-L26** What limitation of a straight-line supply-chain diagram does the professor describe?
A. It is too expensive to print.

- B. It can hide feedback and connected decisions.
 - C. It cannot show producers.
 - D. It makes bread arrive faster.
27. **M01-L27** Why does the professor mention stale bread?
- A. To illustrate feedback that can alter later decisions
 - B. To show that shops bake bread
 - C. To explain why customer complaints are unimportant
 - D. To compare bakery prices
28. **M01-L28** What might the bakery change after the report?
- A. The customer's address B. Packaging or delivery timing C. The name of the shop D. The weather
29. **M01-L29** ♦ What does the professor mean by saying complaints are “not outside” the chain?
- A. Customers work for the bakery.
 - B. Complaints can become information used in the system.
 - C. Shops should not receive complaints.
 - D. The chain is located outdoors.
30. **M01-L30** What risk do analysts face if they ignore feedback?
- A. They may assign blame to only one stage incorrectly.
 - B. They will always sell too much bread.
 - C. They cannot draw any diagram.
 - D. They will not know who the producer is.

TTS Script M01-T3

Professor: Nutrition labels aim to make comparison easier, yet a label has limited space. Designers must decide which information is prominent and which is available only through a second step, such as a website or a symbol explained elsewhere. In a recent experiment, shoppers noticed a simple front label quickly but sometimes misunderstood its scope. For example, a symbol might indicate lower sugar relative to similar products, not low sugar in every possible diet. A longer explanation reduced that misunderstanding for some shoppers, but fewer people read it. This is not evidence that one label is universally best. It is evidence of a trade-off between speed of recognition and precision of interpretation.

31. **M01-L31** ♦ What trade-off is the talk mainly about?
- A. Product price and shelf location
 - B. Quick recognition and precise interpretation
 - C. Sugar and salt in every diet
 - D. Websites and paper receipts
32. **M01-L32** What misunderstanding could a simple symbol create?
- A. That a product is lower sugar than every food in existence
 - B. That labels are illegal
 - C. That shoppers cannot compare products
 - D. That websites use no symbols
33. **M01-L33** What happened with a longer explanation?
- A. Everyone read it more quickly.

- B. It reduced misunderstanding for some, but fewer people read it.
C. It removed all need for labels.
D. It made products less expensive.
34. **M01-L34** ♦ Why does the professor say one label is not “universally best”?
A. Different designs involve a trade-off.
B. Labels cannot contain words.
C. Shoppers never use websites.
D. Sugar has no nutritional role.
35. **M01-L35** ♦ Which conclusion is supported?
A. A front label should always contain every detail.
B. A fast-to-notice label may need careful explanation of what it compares.
C. Longer labels always reach more shoppers.
D. Product comparison is impossible.

19.2.3 M01-C Writing (12 项, 23 分钟)

Build a Sentence (W01—W06)

Use every required chunk once. Natural punctuation and capitalization changes are allowed; do not change the meaning.

1. **M01-W01** although / the delivery was late / the volunteers / completed / the count
2. **M01-W02** could you / tell me / where / the reusable bags / are stored
3. **M01-W03** the coordinator / explained that / each label / needed / a date
4. **M01-W04** if the scale / stops working / report it / before / weighing donations
5. **M01-W05** the garden / produced less / because / several beds / lacked water
6. **M01-W06** students / who attend orientation / may use / the teaching kitchen

Write an Email (W07—W09)

7. **M01-W07** You promised to collect a food-share box for a neighbor, but your train will arrive after the pickup window. Write to the Food Share coordinator (about 80—120 words). Explain the situation, ask for one practical arrangement, and state what you have already done to avoid wasting the box.
8. **M01-W08** You are a garden volunteer. A new member repeatedly waters a bed just before heavy rain because they do not see the group messages. Write a courteous email (about 80—120 words) that identifies the problem without blaming the person, requests one specific change, and offers a way to help.
9. **M01-W09** Your student group wants to donate unsold event food, but the kitchen needs a list of ingredients and storage times. Write to the event organizer (about 80—120 words). Ask for the information, explain why it matters, and propose a next step if the list is incomplete.

Write for an Academic Discussion (W10—W12)

10. **M01-W10** Professor: *A campus cafeteria has a small budget. Should it first reduce food waste or first expand the number of meal choices?*
 Lina: *More choices matter because students have different schedules and diets.*
 Omar: *Waste should come first; a smaller waste bill may create money for later improvements.*
 Post 100—130 words. State a position, respond meaningfully to Lina or Omar, and develop one concrete campus example.
11. **M01-W11** Professor: *Should community gardens require each member to complete a weekly task, or should participation remain fully flexible?*
 Mei: *A required task makes responsibility fair.*
 David: *Flexibility welcomes people with changing work schedules.*
 Post 100—130 words with a clear position, response, and reasoned example.
12. **M01-W12** Professor: *When a city gives food businesses a grant, should it favor new ideas or projects that can continue after the grant ends?*
 Aria: *New ideas can solve problems that old programs miss.*
 Ben: *A project that stops after one year has limited value.*
 Post 100—130 words. Acknowledge one useful point from a classmate before defending your priority.

19.2.4 M01-D Speaking (11 提示, 约 8 分钟)

Listen and Repeat (S01—S07)

Read each line to the candidate once only; the candidate repeats it immediately.

1. **M01-S01** *The north entrance is open only during the afternoon pickup window.*
2. **M01-S02** *Please label the container before you place it in the shared refrigerator.*
3. **M01-S03** *A small change in bowl size can affect how much soup is discarded.*
4. **M01-S04** *The volunteers chose a backup plan because the delivery time was uncertain.*
5. **M01-S05** *Food projects work better when people know who will complete each routine task.*
6. **M01-S06** *Although the garden is small, it provides a useful place for neighbors to meet.*
7. **M01-S07** *The report should describe both the harvest and the limits of the measurement.*

Take an Interview (S08—S11)

Answer immediately; speak for about 45 seconds each.

8. **M01-S08** What information do you check before joining a volunteer activity, and why?
9. **M01-S09** Describe a time when a small planning detail prevented a larger problem.

10. **M01-S10** Do you prefer to make decisions from a total number or from a few detailed observations? Explain with an example.
11. **M01-S11** Some community projects ask every member to do the same task. Is that fair? Why or why not?

19.2.5 M01-E 交卷后路由记录

观察项	记录	下一个动作
Reading R01—R35	___ / 35; 最高频错因: ___	在 Route A 或 B 中选对应阅读路径。
Listening L01—L35	___ / 35; 最高频错因: ___	只回听错因最多的两段脚本。
Writing	Sentence ___/12; Email ___/12; Discussion ___/12	从 W07—W12 只选最低一项改写。
Speaking	Repeat ___/28; Interview ___/16	只重录最低的一句和一题。

19.3 三、固定全卷仿真 M02 | The Night Museum

建议节点: 第 10—12 周。

主题边界: 夜间博物馆、展览设计和公共学习; 所有素材原创。

教学压缩执行: 只做本套标 ◆ 的客观题, 另完成 M02-W01—W06、M02-W07、M02-W10 和 M02-S01—S07、M02-S08—S11; 答案只核对第 19.6.2 节的同号条目。

压缩抽题: R ◆01、◆04、◆09、◆12、◆17、◆20、◆22、◆26、◆30、◆31、◆34、◆35; L ◆02、◆05、◆09、◆11、◆14、◆17、◆21、◆24、◆28、◆31、◆33、◆35。

19.3.1 M02-A Reading (35 题, 至多 30 分钟)

Task 1 | Complete the Words (R01—R08)

1. **M02-R01** ◆ The curator asked visitors to **ob**___ the model before touching it.
A. serve B. ject C. tain D. scure
2. **M02-R02** A dim light can **pre**___ fragile paper from fading.
A. vent B. tend C. view D. sent
3. **M02-R03** The guide gave a **br**___ introduction before the gallery opened.
A. ief B. ing C. oad D. own
4. **M02-R04** ◆ The team tested whether the signs were **vis**___ from a wheelchair.
A. ible B. itor C. ion D. age
5. **M02-R05** The museum will **ex**___ the evening hours for one month.
A. tend B. cite C. port D. act
6. **M02-R06** Visitors may **bor**___ a large-print map at the desk.
A. row B. der C. ne D. ad

7. **M02-R07** The exhibit uses sound to **con**____ a sense of movement.
A. vey B. tact C. sult D. clude
8. **M02-R08** A short pause lets viewers **refl**____ on what they have seen.
A. ect B. use C. ain D. ow

Task 2 | Read in Daily Life (R09—R20)

Late Gallery Ticket Notice

Friday entry from 7:00 to 9:30 p.m. is free for local residents, but a timed ticket is still required because the restoration gallery has limited capacity. Reserve online by 4:00 p.m. on Friday. Visitors without an online reservation may enter only if a staff member releases unused slots after 8:00 p.m. Photography is permitted except in the paper-art room.

9. **M02-R09** ♦ Why is a timed ticket required?
A. Tickets include a camera. B. The restoration gallery has limited capacity. C. Local residents must pay a fee. D. Photography is required.
10. **M02-R10** By when should a visitor reserve online?
A. Thursday night B. Friday 4:00 p.m. C. Friday 7:00 p.m. D. Friday 9:30 p.m.
11. **M02-R11** When might a visitor without a reservation enter?
A. Only after a staff member releases an unused slot
B. Before the gallery opens
C. Whenever they show a camera
D. After taking a paper-art photo
12. **M02-R12** ♦ Where is photography not allowed?
A. The entry hall B. The restoration gallery C. The paper-art room D. The ticket desk

Volunteer Shift Card

Evening guides begin at 6:35 p.m. for a ten-minute briefing. At 7:00, stand near one assigned object and invite questions; do not give a continuous tour unless a visitor asks. If the room becomes crowded, use the green card to signal the floor coordinator. Guides may leave their coats in locker 12, but the locker is shared, so do not leave valuables there.

13. **M02-R13** What should guides do at 6:35?
A. Lead a tour B. Attend a briefing C. Open locker 12 D. Signal a crowd
14. **M02-R14** What is the usual guide role after 7:00?
A. Give a continuous tour B. Answer questions near one object C. Sell timed tickets D. Guard valuables
15. **M02-R15** What should a guide do if a room is crowded?
A. Leave immediately B. Close the gallery C. Use the green card D. Move to locker 12
16. **M02-R16** What does the card imply about locker 12?
A. It is private. B. It is only for visitors. C. It is not safe for valuables. D. It is closed at 7:00.

Sketching Workshop Page

The Saturday workshop explores how quick sketches can help visitors notice shape and proportion. No drawing experience is needed. Bring a pencil; clipboards and recycled paper will be supplied. Participants meet in the lobby at 2:00 p.m. and then move to two galleries. Because the group will discuss the objects, headphones and music players should remain off. Register even if you plan to use your own paper, since the group size is limited to sixteen.

17. **M02-R17** ♦ What is the workshop designed to help visitors do?
A. Sell drawings B. Notice visual features through sketches C. Learn professional painting D. Use headphones in galleries
18. **M02-R18** What must participants bring?
A. A clipboard B. Recycled paper C. A pencil D. Headphones
19. **M02-R19** Why should music players remain off?
A. The lobby is silent. B. The group will discuss objects. C. They damage paper. D. Staff will supply music.
20. **M02-R20** ♦ Why must someone register when using personal paper?
A. To receive a pencil B. To reserve a gallery C. To manage the limited group size D. To prove drawing experience

Task 3 | Read an Academic Passage (R21–R35)

Passage 1: The Museum Label as an Invitation

Museum labels were once often written as compact lists: maker, date, material, place. These facts remain useful, but many museums now add a question or a brief account of how an object was used. The change reflects a shift in what a label is expected to do. Rather than merely naming an object, it can invite a visitor to form a connection or notice a problem.

This does not mean that labels should become long essays. A label that tries to answer every possible question can compete with the object for attention. Designers therefore test labels with visitors, asking not only whether the facts are accurate but whether people can find the central idea quickly. The best length depends on the object, the gallery, and the purpose of the display.

21. **M02-R21** What change in labels does the passage describe?
A. They no longer include facts.
B. They may invite a visitor to connect with an object, not only identify it.
C. They are always written as long essays.
D. They are tested only for spelling.
22. **M02-R22** ♦ Why does the author mention a label that answers every question?
A. To show a risk of taking explanation too far
B. To recommend removing objects from displays
C. To explain how labels are printed
D. To prove visitors dislike facts
23. **M02-R23** The word **compact** is closest in meaning to
A. brief B. expensive C. hidden D. artistic
24. **M02-R24** What do designers test with visitors?

- A. Whether labels are central objects
 - B. Whether people can quickly find the main idea
 - C. Whether all galleries have the same purpose
 - D. Whether objects can answer questions
25. **M02-R25** What would the author most likely agree with?
- A. One label length is correct for every exhibit.
 - B. Accuracy is unimportant if a label is interesting.
 - C. Label design involves balancing explanation and attention to the object.
 - D. Lists of facts cannot be useful.

Passage 2: Why Visitors Return

Attendance records show how many people enter a museum, but they do not show whether visitors intend to return. To study return interest, researchers asked people at the exit to name one moment they would tell another person about. Visitors who could name a specific moment were more likely to say they would return than visitors who gave only a general positive comment.

The result does not prove that a memorable moment causes return visits. People who already enjoy museums may be more ready to notice and describe such moments. Nevertheless, the method offers a useful complement to attendance counts. It asks about the quality of an experience without assuming that every visitor values the same feature.

26. **M02-R26** ♦ Why did researchers ask visitors to name a moment?
- A. To sell another ticket
 - B. To explore return interest beyond entry counts
 - C. To measure gallery size
 - D. To select new employees
27. **M02-R27** What pattern did the researchers find?
- A. Specific-moment visitors were more likely to report return interest.
 - B. General comments caused every visitor to return.
 - C. Attendance counts were inaccurate.
 - D. Visitors disliked memorable moments.
28. **M02-R28** Why does the author caution against a causal conclusion?
- A. Museums have no exit doors.
 - B. People who already enjoy museums may describe moments more readily.
 - C. Tickets cannot be counted.
 - D. Only employees were surveyed.
29. **M02-R29** The word **complement** is closest in meaning to
- A. competing rule
 - B. useful addition
 - C. formal complaint
 - D. exact cause
30. **M02-R30** ♦ What is the passage mainly concerned with?
- A. Replacing attendance records entirely
 - B. A method for considering experience quality alongside entry totals
 - C. Teaching visitors how to write comments
 - D. Comparing museums in different cities

Passage 3: Light and Conservation

Light allows visitors to see an object, but it can also alter sensitive materials over time. Paper, textiles, and some pigments may fade after repeated exposure. Conservation staff therefore do not simply ask whether a room looks

bright enough. They calculate how much light an object receives across a season and may rotate fragile items out of display.

Rotation can disappoint visitors who expect to see a famous object every day. Yet leaving an object in constant light can reduce the chance that future visitors will see it in good condition. Museums sometimes address this tension by displaying a high-quality reproduction or by explaining why an object is resting. Such choices make conservation visible rather than treating it as work hidden behind the gallery wall.

31. **M02-R31** ◆ What problem does light create for some objects?
A. It makes rooms too quiet. B. It can gradually alter sensitive materials. C. It prevents visitors from entering. D. It increases ticket prices.
32. **M02-R32** Why might a museum rotate an object out of display?
A. To avoid calculating light. B. To limit its accumulated exposure. C. To make a gallery darker. D. To eliminate reproductions.
33. **M02-R33** What tension does the author describe?
A. Visitor expectations versus long-term preservation
B. Ticket cost versus staff salary
C. Paper versus textile production
D. Bright rooms versus crowded rooms
34. **M02-R34** ◆ How can a museum make conservation “visible”?
A. By hiding all fragile objects permanently
B. By explaining a rotation or showing a reproduction
C. By removing every label
D. By increasing light levels
35. **M02-R35** ◆ What is the main purpose of the passage?
A. To argue that objects should never be displayed
B. To explain how museums manage a trade-off involving light
C. To describe the history of electric lighting
D. To compare ticket systems

19.3.2 M02-B Listening (35 题, 至多 29 分钟)

Administrator instruction: Use the one-play TTS rule in Section 1. Do not expose the scripts.

Task 1 | Listen and Choose a Response (L01—L10)

TTS Script M02-L01: “Could you show me where the large-print maps are?”

1. **M02-L01** A. They are beside the information desk. B. The maps are very large.
C. I printed the desk. D. Show me a ticket.

TTS Script M02-L02: “The evening tour is full, isn't it?”

2. **M02-L02** ◆ A. Yes, but a waiting list is open. B. The full evening is a tour. C. I waited last night. D. It is full of maps.

TTS Script M02-L03: “Why is that sculpture covered?”

3. **M02-L03** A. It is being cleaned before the next display. B. Sculptures cover the room. C. The next display is a reason. D. I covered it yesterday.

TTS Script M02-L04: "I left my sketchbook in Gallery Two."

4. **M02-L04** A. Check with the desk after the gallery closes. B. Gallery Two left a sketchbook. C. The desk is drawing. D. I close every book.

TTS Script M02-L05: "Would you like me to save you a seat for the talk?"

5. **M02-L05** ♦ A. Yes, I will arrive just before it begins. B. The talk saved a seat. C. I like speaking to chairs. D. It begins every seat.

TTS Script M02-L06: "The sign says no flash photography."

6. **M02-L06** A. Then turn off the flash before taking a picture. B. Photography is a sign. C. Flash is my name. D. The sign took a picture.

TTS Script M02-L07: "Do guides need to stay until the last visitor leaves?"

7. **M02-L07** A. No, the coordinator will dismiss each shift. B. Visitors guide the last shift. C. Staying is a coordinator. D. I left a guide.

TTS Script M02-L08: "I cannot hear the audio in this room."

8. **M02-L08** A. The headset may need a new battery. B. The room heard the audio. C. A battery is an audio room. D. I cannot hear a battery.

TTS Script M02-L09: "Should we move the workshop tables closer together?"

9. **M02-L09** ♦ A. Not yet; the wheelchair path needs to stay clear. B. Tables move wheelchairs. C. Together is closer. D. The path needs a workshop.

TTS Script M02-L10: "I thought admission was free tonight."

10. **M02-L10** A. It is free, but you still need a timed ticket. B. Admission thought about tonight. C. Tickets are free every time. D. I am timed tonight.

Task 2 | Conversation (L11–L16)

TTS Script M02-C1

Student: I am scheduled to give a five-minute object talk, but I just learned the object will be rotated out today.

Supervisor: The reproduction will be in the same case. Your talk can still focus on the object's use and on why the original is resting.

Student: I was worried that visitors would think the case was empty.

Supervisor: Add one sentence that explains the rotation, and invite questions about conservation.

11. **M02-L11** ♦ What concerns the student?

- A. The object talk is too long.
- B. The original object will not be displayed.
- C. The reproduction is damaged.
- D. Visitors cannot ask questions.

12. **M02-L12** What does the supervisor say will be in the case?

- A. A new ticket B. A reproduction C. A sketchbook D. A paper-art room

13. **M02-L13** What will the student likely add to the talk?

- A. A sentence about why the object is resting
- B. A request to remove the reproduction

- C. A new admission price
- D. A continuous tour

TTS Script M02-C2

Student: I reserved a headset for the evening lecture, but my confirmation says "collection by 6:45." The lecture starts at seven.

Staff member: That is correct. We release uncollected headsets at 6:45 because some visitors need them for the first room.

Student: I will be arriving by bus at 6:50. Could my friend collect it?

Staff member: Yes, if your friend shows the confirmation number and your last name.

14. **M02-L14** ♦ Why is the student concerned?
 - A. The lecture was canceled.
 - B. The pickup deadline is before the student will arrive.
 - C. The headset has no battery.
 - D. The bus goes to the wrong museum.
15. **M02-L15** Why are uncollected headsets released?
 - A. To sell them to friends
 - B. To make them available to visitors needing them earlier
 - C. To test confirmation numbers
 - D. To shorten the lecture
16. **M02-L16** What can the student's friend do?
 - A. Start the lecture
 - B. Change the bus route
 - C. Collect the headset with identifying information
 - D. Reserve two headsets

Task 3 | Announcement (L17—L20)**TTS Script M02-A1**

Attention workshop participants: because a school group is using the lobby from 1:45 to 2:20, today's sketching workshop will meet beside the east coat room instead of at the usual lobby desk. The workshop will still begin at two and will still visit the same two galleries. Please bring your own pencil if you have one; extra pencils are available, but not enough for every participant. The instructor will hand out clipboards after the group enters the first gallery.

17. **M02-L17** ♦ What change is announced?
 - A. The workshop will use different galleries.
 - B. The meeting place is different.
 - C. The start time is later.
 - D. Participants must bring clipboards.
18. **M02-L18** Why is the usual lobby desk unavailable?
 - A. It is being repaired.
 - B. A school group is using the lobby.
 - C. The coat room is closed.
 - D. The instructor is absent.
19. **M02-L19** What should participants bring if possible?
 - A. A pencil
 - B. A clipboard
 - C. A coat
 - D. A ticket scanner

20. **M02-L20** When will clipboards be handed out?
A. At 1:45 B. At the east coat room C. After entering the first gallery D. At the lobby desk

Task 4 | Academic Talk (L21—L35)

TTS Script M02-T1

Professor: In exhibit design, a “threshold” is the moment when a visitor moves from one kind of experience to another. It might be a doorway, a change in sound, or a shift from bright light to dim light. Thresholds can help visitors understand that a new idea is beginning. But they can also create confusion if the change has no clear purpose. In one evaluation, visitors entered a dark room and assumed the objects were especially old, although darkness had been chosen only to make a video screen easier to see. A brief introductory panel corrected the assumption. The lesson is not that every change needs a panel; it is that designers should test the meaning visitors actually make from a space.

21. **M02-L21** ♦ What is a threshold in exhibit design?
A. A ticket price B. A transition between experiences C. A conservation tool D. A visitor survey
22. **M02-L22** Why did visitors think objects in the dark room were old?
A. A panel told them so. B. They interpreted the darkness that way. C. The room contained only old objects. D. The video screen was broken.
23. **M02-L23** Why had the room actually been made dark?
A. To protect paper B. To make a video easier to see C. To close the gallery D. To create a doorway
24. **M02-L24** ♦ What did the panel do?
A. It corrected an assumption. B. It made the room darker. C. It moved visitors outside. D. It changed the video.
25. **M02-L25** What is the professor's main point?
A. All museums should use dark rooms.
B. Designers should examine how visitors interpret spatial changes.
C. Old objects need no explanation.
D. Panels always solve confusion.

TTS Script M02-T2

Professor: A reproduction can serve several purposes in a museum. It may allow visitors to touch a form that cannot be touched in the original, or it may stand in while the original rests for conservation. Critics sometimes worry that a reproduction is misleading. That risk is real when the label hides the difference. However, a clearly identified reproduction can make a process visible: visitors can compare material, scale, or use without placing the original at risk. The question is not simply “original or copy?” but what the display tells visitors and what kind of experience the museum is trying to provide.

26. **M02-L26** What is one purpose of a reproduction?
A. To remove labels B. To allow safe interaction with a form C. To replace all originals permanently D. To reduce gallery size
27. **M02-L27** When can a reproduction be misleading?
A. When it is clearly identified
B. When its difference from the original is hidden
C. When visitors can touch it
D. When an original is resting
28. **M02-L28** ♦ What broader question does the professor raise?
A. Whether ticket prices should change
B. What information and experience a display should provide
C. Whether every object is old
D. How to copy a label
29. **M02-L29** What can a clear reproduction make visible?
A. A conservation or use process B. Only a ticket number C. A darker room D. An exit survey
30. **M02-L30** Which statement best summarizes the talk?
A. Reproductions are always deceptive.
B. The value of a reproduction depends partly on clear communication and purpose.
C. Originals should never rest.
D. Visitors dislike touchable objects.

TTS Script M02-T3

Professor: Museums sometimes count the number of questions visitors ask a guide. A rising question count may suggest engagement, but it can also reflect a confusing display or a guide who actively invites questions. For that reason, a count should be paired with notes about question type. Are visitors asking where to go next, or are they asking how an object was used? The two patterns imply different needs. The first may indicate that signs are unclear; the second may show that an object has prompted curiosity. Numbers become more useful when the observer records the situation around them.

31. **M02-L31** ♦ Why is a question count alone limited?
A. It cannot be written down.
B. Different reasons can produce the same number.
C. Guides never invite questions.
D. Signs answer every question.
32. **M02-L32** What might questions about where to go next suggest?
A. The display is too old. B. The signs may be unclear. C. Visitors dislike guides.
D. The object has prompted curiosity.
33. **M02-L33** ♦ What might questions about an object's use indicate?
A. Curiosity about the object B. A missing timed ticket C. A closed gallery D. A faulty light
34. **M02-L34** What does the professor recommend pairing with counts?
A. Ticket prices B. Notes about the question situation and type C. More dark

rooms D. Fewer guides

35. **M02-L35** ♦ What principle does the talk illustrate?
- A. Remove numbers from research.
 - B. Interpret a number using contextual evidence.
 - C. Ask visitors fewer questions.
 - D. Use the same sign in every room.

19.3.3 M02-C Writing (12 项, 23 分钟)

Build a Sentence (W01—W06)

1. **M02-W01** although / the gallery was crowded / the guide / answered / every question
2. **M02-W02** could you / reserve / a large-print map / for me
3. **M02-W03** the label / explains why / the original object / is resting
4. **M02-W04** if the room / becomes too crowded / signal / the floor coordinator
5. **M02-W05** visitors / noticed more details / after / they made / quick sketches
6. **M02-W06** the objects / that receive strong light / may need / to rotate

Write an Email (W07—W09)

7. **M02-W07** You volunteered to guide an evening gallery, but a class event will make you ten minutes late for the briefing. Write to the coordinator (80—120 words). Explain, request a specific solution, and state how you will prepare before arriving.
8. **M02-W08** You borrowed a museum headset and it stopped working after you entered a gallery. Write to the information desk (80—120 words). Give useful identifying details, ask for practical help, and explain what you have already tried.
9. **M02-W09** Your student club wants to hold a sketching session in the museum. Write to the education manager (80—120 words). Describe the learning purpose, ask about one restriction, and propose how the club will protect other visitors' experience.

Write for an Academic Discussion (W10—W12)

10. **M02-W10** Professor: *Should museums give visitors more digital information on phones, or fewer digital prompts and more time with objects?*
 Ravi: *Digital information lets visitors choose the depth they need.*
 Elena: *Too many prompts make people look away from the objects.*
 Post 100—130 words with a position, meaningful response, and specific gallery example.
11. **M02-W11** Professor: *When a fragile object cannot be displayed, is a reproduction an acceptable substitute?*

Hana: *A reproduction helps visitors understand scale and use.*

Luis: *Only an original can create a real historical connection.*

Post 100—130 words. Address one classmate’s point before defending your view.

12. **M02-W12** Professor: *Should a museum judge an exhibit first by visitor numbers or by the quality of visitors’ comments?*

Nora: *Numbers are clear and comparable.*

Peter: *Comments reveal what people actually noticed.*

Post 100—130 words with a clear priority and an example of the evidence you would collect.

19.3.4 M02-D Speaking (11 提示, 约 8 分钟)

Listen and Repeat (S01—S07)

- 1. **M02-S01** *Please collect your headset before the evening lecture begins.*
- 2. **M02-S02** *The guide used a green card to signal that the gallery was becoming crowded.*
- 3. **M02-S03** *A reproduction can help visitors explore a form without touching the original.*
- 4. **M02-S04** *The label should make the central idea easy to find quickly.*
- 5. **M02-S05** *Although the room was dark, the change was intended to support the video.*
- 6. **M02-S06** *The workshop uses quick sketches to help visitors notice proportion.*
- 7. **M02-S07** *Conservation choices can be explained instead of hidden from visitors.*

Take an Interview (S08—S11)

- 8. **M02-S08** When you visit a new place, do you prefer a guided introduction or free exploration? Why?
- 9. **M02-S09** Describe a time when a sign, map, or instruction changed what you did.
- 10. **M02-S10** Is it better to explain every detail immediately or let people ask questions? Give an example.
- 11. **M02-S11** What makes a public space comfortable for people with different needs?

19.3.5 M02-E 交卷后路由记录

观察项	记录	下一个动作
Reading R01—R35	___ / 35; 最高频错因: ___	用 Route A/B 复测 “证据—范围” 或 “主旨—推断”。
Listening L01—L35	___ / 35; 最高频错因: ___	回听一段对话和一段讲座, 写结构箭头。

观察项	记录	下一个动作
Writing	Sentence ___/12; Email ___/12; Discussion ___/12	为最低输出补一张任务要点卡。
Speaking	Repeat ___/28; Interview ___/16	对最低题做一次内容完整度标注。

19.4 四、固定全卷仿真 M03 | Coast Watch

建议节点：第 13—15 周。主题为海岸观察、科学沟通与公共决策。

教学压缩执行：只做本套标 ◆ 的客观题，另完成 M03-W01—W06、M03-W07、M03-W10 和 M03-S01—S07、M03-S08—S11；答案只核对第 19.6.3 节的同号条目。

压缩抽题：R ◆01、◆03、◆09、◆12、◆17、◆20、◆22、◆25、◆28、◆31、◆33、◆35；L ◆01、◆04、◆09、◆11、◆14、◆17、◆21、◆24、◆27、◆31、◆34、◆35。

19.4.1 M03-A Reading (35 题, 至多 30 分钟)

Complete the Words (R01—R08)

- M03-R01** ◆ The volunteers recorded the **he**___ of each wave. A. ight B. at C. ar D. lp
- M03-R02** A flag marks the **bo**___ between the protected and open beach. A. undary B. at C. dy D. ok
- M03-R03** ◆ Scientists **com**___ photographs from the same location each month. A. pare B. plete C. bine D. mand
- M03-R04** The team used a **por**___ sensor because it could be carried easily. A. table B. trait C. tion D. tal
- M03-R05** The report should **indi**___ when a measurement is uncertain. A. cate B. rect C. vidual D. go
- M03-R06** A rope was placed to **pre**___ visitors from stepping on nests. A. vent B. pare C. tend D. view
- M03-R07** The class found a **grad**___ change rather than a sudden one. A. ual B. e C. ing D. ate
- M03-R08** The guide asked students to **ob**___ without moving any shells. A. serve B. tain C. ject D. scure

Read in Daily Life (R09—R20)

Tide Pool Visit Card

Enter the marked path only after the ranger opens the gate. Wear shoes that can get wet; bare feet damage small animals and are unsafe on sharp rocks. The group returns to the meeting point at 11:15 even if some pools remain

uncovered. Bring photographs to the final discussion, but do not remove shells, plants, or water.

9. **M03-R09** ♦ When may the group enter the marked path? A. After the ranger opens the gate B. At any low tide C. When shoes are dry D. After 11:15
10. **M03-R10** Why are bare feet prohibited? A. They make photos unclear B. They can harm animals and people C. They delay the ranger D. They remove water
11. **M03-R11** What happens at 11:15? A. The gate opens B. Shells are collected C. The group returns D. A new path is chosen
12. **M03-R12** ♦ What may visitors take from the site? A. Plants B. Water C. Shells D. Photographs

Sample Drop-Off Notice

Water samples must reach the field station within two hours of collection. Write the location code, collection time, and collector initials on the bottle before placing it in the cooler. If the station is closed, leave the cooler in the locked cabinet and send the coordinator a message; do not leave bottles on the outdoor bench.

13. **M03-R13** What must be written on every bottle? A. A weather prediction B. Location, time, and initials C. A laboratory result D. A return address
14. **M03-R14** Why is a cooler used? A. To carry field maps B. To delay the sample delivery C. To hold the sample before drop-off D. To store outdoor benches
15. **M03-R15** What should someone do if the station is closed? A. Put bottles outside B. Take samples home C. Use the locked cabinet and message the coordinator D. Remove the location code
16. **M03-R16** What is the latest delivery time? A. Two hours after collection B. Before sunrise C. At noon only D. The next day

Dune Restoration Signup

Saturday teams will place small fences that protect young dune plants from foot traffic. Choose either the 8:00 a.m. setup shift or the 10:30 a.m. observation shift, not both. Setup volunteers carry materials; observation volunteers record whether visitors follow the new path. Training is provided at the start of each shift. Cancel by Friday noon if you cannot attend.

17. **M03-R17** ♦ What is the purpose of the fences? A. To mark parking spaces B. To protect young plants from foot traffic C. To collect wave water D. To divide shifts
18. **M03-R18** What do observation volunteers do? A. Carry materials B. Train other teams C. Record path use D. Build a station
19. **M03-R19** Which choice is permitted? A. Joining both shifts B. Attending training at each chosen shift C. Canceling on Saturday night D. Moving fences without training
20. **M03-R20** ♦ Why should a volunteer cancel by Friday noon? A. To allow the team to plan attendance B. To receive a cooler C. To avoid recording visitors D. To enter the marked path

Read an Academic Passage (R21—R35)**Passage 1: A Shoreline Is a Moving Line**

Maps often show a shoreline as a stable border, yet the line can move with tides, storms, and seasonal sand transport. Researchers therefore distinguish a single observed water edge from a longer-term shoreline estimate. The distinction matters when photographs taken on different days are compared. A picture taken at high tide may suggest that a beach has narrowed even when the amount of sand has not changed.

To make comparisons more useful, coastal teams record tide conditions and use repeated reference points. This does not remove all variation. It makes the remaining uncertainty visible, so that a temporary water level is less likely to be mistaken for a permanent change.

21. **M03-R21** What distinction do researchers make? A. Sand and water are identical. B. A seen water edge differs from a longer-term shoreline estimate. C. Maps cannot show borders. D. Storms never move sand.
22. **M03-R22** ♦ Why might a high-tide photograph be misleading? A. It can make a beach seem narrower without a sand change. B. It cannot include water. C. It always shows storms. D. It removes reference points.
23. **M03-R23** The word **variation** is closest in meaning to A. change B. permission C. location D. protection
24. **M03-R24** Why do teams record tide conditions? A. To make uncertainty visible in comparisons B. To stop tides C. To choose a new beach D. To avoid taking pictures
25. **M03-R25** ♦ What is the main point? A. One photo can establish a permanent coast. B. Repeated, contextual records improve interpretation of shoreline change. C. Sand transport is unimportant. D. Maps should never use lines.

Passage 2: Citizen Measurements

Community observers can collect information across more locations than a small research team can visit. This wider coverage is valuable, but it creates a coordination challenge. If one observer counts birds for five minutes and another counts for twenty, their totals are difficult to compare. Programs address this problem by providing a simple shared protocol: where to stand, how long to observe, and what to record when conditions make a count impossible.

A shared protocol does not require every observer to be an expert. Instead, it makes contributions interpretable. Researchers can then examine which records fit the protocol and which need follow-up, rather than treating every number as equally precise.

26. **M03-R26** What advantage of community observers is named? A. They eliminate all uncertainty. B. They can collect data in more places. C. They need no instructions. D. They count only birds.
27. **M03-R27** Why are five-minute and twenty-minute counts hard to compare? A. They use different durations. B. Birds avoid clocks. C. Researchers dislike totals.

D. Locations are always identical.

28. **M03-R28** ♦ What is the purpose of a shared protocol? A. To make every person an expert B. To make contributions interpretable C. To replace research teams D. To prevent follow-up
29. **M03-R29** What may researchers do with records that do not fit the protocol? A. Treat them as equally precise B. Follow up on them C. Publish no results D. Change every location
30. **M03-R30** Which statement is supported? A. Wider coverage removes the need for coordination. B. A simple procedure can improve the usefulness of varied contributions. C. Only experts can observe nature. D. Counts must always last twenty minutes.

Passage 3: Dunes as Protection

Sand dunes can reduce the force of wind and waves reaching inland areas, but they are not solid walls. Their shape depends on plants that trap sand and on space for sand to move. A path across a dune may seem minor, yet repeated foot traffic can damage plants and open a channel where wind removes more sand.

Restoration projects often guide visitors along a designated route rather than banning access completely. The strategy recognizes that public support is more likely when people can still experience the coast. Its success depends on whether the route is convenient enough to use and whether visitors understand why leaving it matters.

31. **M03-R31** ♦ What role do plants play in dunes? A. They trap sand. B. They create waves. C. They build walls. D. They close paths.
32. **M03-R32** Why can repeated foot traffic be harmful? A. It makes routes too convenient. B. It can damage plants and increase sand loss. C. It creates new waves. D. It adds too much sand.
33. **M03-R33** ♦ Why do restoration projects guide visitors instead of banning access? A. Routes are cheaper than signs. B. They seek protection while keeping a public experience possible. C. Dunes need more foot traffic. D. Plants require visitors.
34. **M03-R34** What does route success depend on? A. Only the number of fences B. Convenience and visitor understanding C. The highest tide D. The color of sand
35. **M03-R35** ♦ What is the passage mainly about? A. Why dunes are solid walls B. How access design can support dune protection C. How to collect water samples D. Why coasts lack plants

19.4.2 M03-B Listening (35 题, 至多 29 分钟)

Listen and Choose a Response (L01—L10)

TTS Script M03-L01: “Do we need to bring our own waterproof notebook?”

1. **M03-L01** ♦ A. No, the field station will provide one. B. The notebook is very wet. C. Bring the station to water. D. I wrote a field.

TTS Script M03-L02: "I cannot read the location code on this bottle."

2. **M03-L02** A. Ask the collector before it goes into the cooler. B. The bottle reads a location. C. Coolers have codes. D. I cannot locate a station.

TTS Script M03-L03: "Was the path moved because of the storm?"

3. **M03-L03** A. Yes, the old section is unsafe after the erosion. B. Storms move paths every day. C. I moved after the path. D. Erosion is a safe word.

TTS Script M03-L04: "Could you take the observation shift instead of setup?"

4. **M03-L04** ♦ A. I can, as long as the training is included. B. Setup observed my shift. C. Instead is a training word. D. I took the fence.

TTS Script M03-L05: "The tide is higher than we expected."

5. **M03-L05** A. Then we should use the backup sampling point. B. Expectations are high tides. C. I sampled a tide. D. The point is very high.

TTS Script M03-L06: "Why is the ranger asking us to stay together?"

6. **M03-L06** A. Some rocks are slippery outside the marked area. B. Rangers stay with questions. C. Together is a rock. D. The area asked us.

TTS Script M03-L07: "I thought the samples were collected yesterday."

7. **M03-L07** A. They were, but the labels still need to be entered. B. Yesterday collected the samples. C. Labels are yesterday. D. I entered a bottle.

TTS Script M03-L08: "Can I use this photo if the time stamp is missing?"

8. **M03-L08** A. Keep it, but mark the missing information in the log. B. Photos stamp time. C. The log is missing a camera. D. Use time to take it.

TTS Script M03-L09: "The fence materials arrived at the wrong entrance."

9. **M03-L09** ♦ A. I will call the driver before the setup team leaves. B. Entrances arrive at fences. C. Materials drive together. D. The team is wrong.

TTS Script M03-L10: "Would you mind carrying the cooler back?"

10. **M03-L10** A. Not at all; I have both hands free. B. The cooler minds. C. I carried both hands. D. Back is free today.

Conversation (L11—L16)

TTS Script M03-C1

Student: My bird count was much lower than last week, and I think I made a mistake.

Instructor: Did you observe for the same length of time and from the same marked point?

Student: I used the point, but rain began and I stopped after three minutes.

Instructor: Record the three minutes and the rain. Do not compare that total directly with a full ten-minute count.

11. **M03-L11** ♦ What worries the student? A. A lower bird count B. A missing map C. A broken cooler D. A late bus
12. **M03-L12** What condition changed the observation? A. A new point B. Rain shortened it C. A different bird species D. A longer protocol
13. **M03-L13** What does the instructor advise? A. Invent seven more minutes B. Compare totals directly C. Record the condition and duration D. Delete the observation

TTS Script M03-C2

Student: Our group wants to post the beach photos tonight, but one image shows a nesting area.

Coordinator: Is the nest location obvious from the background?

Student: Yes, the marker and path sign are visible.

Coordinator: Crop or delay that photo. We want people to learn from the project, but we should not direct extra visitors toward a sensitive spot.

14. **M03-L14** ♦ Why does the student ask about a photo? A. It is too dark. B. It reveals a nesting location. C. It has no time stamp. D. It shows a cooler.
15. **M03-L15** What concern does the coordinator express? A. More visitors may approach a sensitive site. B. Photos are always prohibited. C. Markers are inaccurate. D. Posts need more color.
16. **M03-L16** What will the group likely do? A. Share the exact location B. Crop or delay the image C. Remove the path sign D. Stop observing birds

Announcement (L17—L20)

TTS Script M03-A1

Tomorrow's coast walk will begin at the field station rather than the west parking area because the parking road is being repaired. Check in at 8:20, ten minutes earlier than usual, so the group can walk together to the shore. The forecast includes light rain, not dangerous wind, so the visit is still planned. Bring a rain layer and shoes with a firm sole. If conditions change overnight, the coordinator will send one message by 7:00 a.m.

17. **M03-L17** ♦ What has changed? A. The check-in location B. The shore itself C. The observation length D. The rain forecast
18. **M03-L18** Why is check-in earlier? A. To repair the road B. To walk together to the shore C. To avoid all rain D. To collect samples
19. **M03-L19** Why is the visit still planned? A. Wind is dangerous. B. Rain has ended. C. Light rain is expected but not dangerous wind. D. Shoes are supplied.
20. **M03-L20** When will a cancellation message be sent if needed? A. 7:00 a.m. B. 8:20 a.m. C. At the parking area D. After the walk

Academic Talk (L21—L35)

TTS Script M03-T1

Professor: A data point can be accurate and still be unrepresentative. Suppose a temperature sensor is placed beside a dark wall that absorbs afternoon heat. The sensor may report the correct temperature at that exact spot, but the value may not describe the beach as a whole. Researchers address this issue by selecting locations that match the question and by documenting why a location was chosen. The goal is not to find a magically perfect point. It is to make clear what the point can and cannot represent.

21. **M03-L21** ♦ What distinction does the professor make? A. Accurate data ver-

- sus representative data B. Dark walls versus beaches C. Sensors versus maps D. Morning versus afternoon
22. **M03-L22** Why might the sensor's value be limited? A. The sensor is broken. B. Its location has unusual heat conditions. C. The beach has no temperature. D. The wall moves.
23. **M03-L23** What do researchers document? A. Why a location was selected B. Every visitor's name C. The color of sensors D. A perfect point
24. **M03-L24** ♦ What is the goal of this documentation? A. To promise universal results B. To clarify what a measurement represents C. To avoid questions D. To make walls darker
25. **M03-L25** Which note best captures the lecture? A. correct at one spot ≠ describes whole area B. dark wall → no data C. perfect point found D. temperature is unimportant

TTS Script M03-T2

Professor: When people hear “erosion,” they often imagine sudden collapse. Some erosion is dramatic, but much of it is gradual movement of sediment. A small loss may be hard to notice from day to day. Over many months, however, repeated small changes can alter a path or expose plant roots. This is why repeated photographs from the same point are useful. They turn a slow process into a sequence that can be compared. The photographs do not explain every cause by themselves, but they can show where a closer investigation is needed.

26. **M03-L26** What misconception does the professor address? A. Erosion is always sudden. B. Sediment never moves. C. Photos cause erosion. D. Roots cannot be exposed.
27. **M03-L27** ♦ Why are repeated photographs useful? A. They stop sediment movement. B. They make gradual change comparable. C. They identify every cause. D. They replace investigation.
28. **M03-L28** What can photographs indicate? A. Where closer investigation may be needed B. Which path visitors prefer C. How to build a wall D. That erosion is impossible
29. **M03-L29** The word **dramatic** is closest in meaning to A. sudden and striking B. carefully measured C. hidden D. ordinary
30. **M03-L30** What is the talk mainly about? A. How to remove roots B. Why slow change needs repeated observation C. Why single photos explain all causes D. How storms form

TTS Script M03-T3

Professor: A warning sign can change behavior, but the sign's location matters. In a path study, one sign was placed at the trail entrance and another beside the point where visitors had to choose between two routes. The entrance sign was noticed by more people, yet the choice-point sign produced more correct route selection. The finding suggests that visibility and usefulness are not identical. Information is most helpful when people encounter it at the moment it can guide an action.

31. **M03-L31** ♦ What did the study compare? A. Two sign locations B. Two beach temperatures C. Two bird species D. Two fence materials
32. **M03-L32** Which sign was noticed by more people? A. The choice-point sign B. The entrance sign C. Neither sign D. A sign on a wall
33. **M03-L33** Which sign led to more correct route choices? A. The entrance sign B. The choice-point sign C. Both equally D. No sign
34. **M03-L34** ♦ What distinction does the professor emphasize? A. Visibility differs from usefulness. B. Warnings are unnecessary. C. Paths have no choices. D. Signs should be hidden.
35. **M03-L35** ♦ What principle follows from the talk? A. Put all information at entrances. B. Give information when it can guide a specific action. C. Use fewer signs in every setting. D. Measure only who notices a sign.

19.4.3 M03-C Writing (12 项, 23 分钟)

Build a Sentence (W01—W06)

1. **M03-W01** although / the tide was high / the team / used / the backup point
2. **M03-W02** could you / confirm / the location code / before / we deliver the sample
3. **M03-W03** the protocol / explains how long / each observer / should count
4. **M03-W04** if rain / ends the observation / record / the actual duration
5. **M03-W05** the path / was moved / because / the old section / became unsafe
6. **M03-W06** photographs / that use / the same reference point / show / gradual change

Write an Email (W07—W09)

7. **M03-W07** Your field group cannot deliver water samples within two hours because its vehicle has a flat tire. Write the coordinator (80—120 words). Explain the relevant timing, ask for a feasible instruction, and state how you are protecting the samples now.
8. **M03-W08** You notice that an event announcement gives the exact location of a sensitive nesting site. Write to the event organizer (80—120 words). Identify the risk, request a specific revision, and offer a way to keep the public informed without exposing the site.
9. **M03-W09** A new volunteer stopped a bird count early because of rain but entered the total as a full count. Write a supportive email (80—120 words) that explains the data problem, asks for a correction, and gives one practical prevention step.

Write for an Academic Discussion (W10—W12)

10. **M03-W10** Professor: *Should citizen-science programs prioritize more participants or more detailed training?*
 Imani: *More participants cover places a small team cannot reach.*
 Cole: *Without clear training, totals are hard to compare.*
 Post 100—130 words. Take a position, respond to one view, and use a concrete observation example.
11. **M03-W11** Professor: *Should coastal restoration limit visitor access strictly or design paths that allow controlled access?*
 Yara: *Strict limits protect fragile plants.*
 Tomas: *People support protection when they can experience the place.*
 Post 100—130 words with a clear priority and a realistic implementation detail.
12. **M03-W12** Professor: *When researchers have limited money, should they collect more measurements or improve the context recorded with each measurement?*
 Suki: *More measurements make patterns easier to see.*
 Ian: *A number without conditions may be misread.*
 Post 100—130 words. Address a useful point from either classmate before making your case.

19.4.4 M03-D Speaking (11 提示, 约 8 分钟)

Listen and Repeat (S01—S07)

1. **M03-S01** *Please record the collection time before you place the bottle in the cooler.*
2. **M03-S02** *The group used the marked path because the rocks outside it were slippery.*
3. **M03-S03** *A measurement can be accurate at one point without representing the entire beach.*
4. **M03-S04** *Repeated photographs make gradual changes easier to compare.*
5. **M03-S05** *Although the forecast included rain, the visit continued because the wind was safe.*
6. **M03-S06** *The route should be convenient enough for visitors to choose it voluntarily.*
7. **M03-S07** *The report must identify both the observation and the condition that limited it.*

Take an Interview (S08—S11)

8. **M03-S08** When you collect information for a project, how do you make sure it will be useful later?
9. **M03-S09** Describe a time when you changed a plan because conditions changed unexpectedly.
10. **M03-S10** Is it better to make a public rule strict or make it easy to follow? Explain.

11. **M03-S11** What is one natural place you would like to protect, and how could visitors help?

19.4.5 M03-E 交卷后路由记录

观察项	记录	下一个动作
Reading R01—R35	___ / 35; 最高频错因: ___	给三道错题补“主张—证据—范围”卡。
Listening L01—L35	___ / 35; 最高频错因: ___	用脚本复听 L3/L4 转折或条件。
Writing	Sentence ___/12; Email ___/12; Discussion ___/12	仅改最低一项的任务完成缺口。
Speaking	Repeat ___/28; Interview ___/16	听录音圈出遗漏的数字、限制或因果词。

19.5 五、固定全卷仿真 M04 | Clear Health Messages

建议节点: 第 16—18 周。主题为公共健康信息、服务设计和解释证据。

教学压缩执行: 只做本套标 ◆ 的客观题, 另完成 M04-W01—W06、M04-W07、M04-W10 和 M04-S01—S07、M04-S08—S11; 答案只核对第 19.6.4 节的同号条目。

压缩抽题: R ◆01、◆04、◆09、◆12、◆17、◆20、◆22、◆28、◆29、◆31、◆33、◆35; L ◆01、◆04、◆08、◆11、◆14、◆17、◆21、◆25、◆27、◆31、◆33、◆35。

19.5.1 M04-A Reading (35 题, 至多 30 分钟)

Complete the Words (R01—R08)

- M04-R01** ◆ The clinic sent a **rem**___ before the appointment. A. inder B. ote C. ain D. oval
- M04-R02** A diagram can **clar**___ the order of the steps. A. ify B. ity C. ion D. ity
- M04-R03** The nurse used **sim**___ words instead of technical terms. A. ple B. ilar C. ply D. ulate
- M04-R04** ◆ Patients may **re**___ a visit through the online page. A. schedule B. consider C. cover D. mind
- M04-R05** The poster gives a **spec**___ number for urgent questions. A. ific B. ial C. ies D. imen
- M04-R06** Staff checked whether the message was **acc**___ to older readers. A. essible B. ident C. urate D. epted
- M04-R07** The survey was **anon**___, so names were not collected. A. ymous B. ther C. mal D. imous
- M04-R08** The website lets users **com**___ nearby service hours. A. pare B. plete C. bine D. fort

Read in Daily Life (R09—R20)**Flu Clinic Booking**

Walk-in flu vaccinations are available Monday and Wednesday from 3:00 to 6:00 p.m. People who booked online should use the side desk, even if they arrive early. Bring an identification document and wear a shirt with a sleeve that can be rolled up. If you have a fever on the day, do not enter the clinic; use the cancellation link and call the advice line.

9. **M04-R09** ♦ Who should use the side desk? A. All walk-ins B. Online-booked visitors C. People with fever D. Advice-line callers
10. **M04-R10** What should a visitor bring? A. A receipt B. Identification C. A blanket D. A printed survey
11. **M04-R11** What should someone with fever do? A. Arrive early B. Use the cancellation link and call C. Wait in the side desk line D. Roll up a sleeve
12. **M04-R12** ♦ When are walk-ins available? A. Every morning B. Monday and Wednesday afternoon C. Friday evening D. Only online

Medication Pickup Card

Pick up refilled medication from window 4 after you receive a text that says “ready.” A text saying “request received” does not mean the medicine is available. Bring the same photo identification used for the request. If another person collects the medicine, add that person’s name through the secure portal before they arrive.

13. **M04-R13** What does “request received” mean? A. Medication is ready B. The request was recorded only C. Window 4 is closed D. Another person may collect it
14. **M04-R14** What is needed at pickup? A. A text about hours B. The same photo ID C. A paper prescription D. A new request
15. **M04-R15** How can another person collect medicine? A. Use any ID B. Call the window after pickup C. Be added in the portal first D. Show the requester’s text only
16. **M04-R16** Where should ready medication be collected? A. Window 4 B. The advice line C. The side desk D. Online

Community Health Talk

Thursday’s talk explains how to compare health information found online. It is not a medical appointment, and staff cannot diagnose individual symptoms there. Participants may bring one article or post for practice, but remove names and personal details first. The session begins at 6:30 in Room B; the 6:00 room opening is for people who need a quiet place to read the handout beforehand.

17. **M04-R17** ♦ What is the talk about? A. Individual diagnosis B. Comparing online health information C. Medication pickup D. Quiet-room rules
18. **M04-R18** What must participants remove from practice material? A. All sources B. Names and personal details C. The article title D. Questions
19. **M04-R19** Why does Room B open at 6:00? A. The talk starts then B. Staff diag-

- nose visitors C. Some people may read quietly first D. A clinic is operating
20. **M04-R20** ♦ What can staff not do at the talk? A. Explain sources B. Diagnose symptoms C. Provide handouts D. Discuss articles

Read an Academic Passage (R21–R35)

Passage 1: Comprehension Is Part of Access

A service may be physically available yet difficult to use if its instructions are unclear. Researchers studying appointment systems found that many users did not fail because they lacked internet access. They failed at a particular decision point: a page asked them to choose among terms they did not understand. Replacing the terms with plain-language descriptions increased completed bookings.

The finding does not show that simpler language solves every access barrier. Translation, disability support, cost, and opening hours also matter. It does show that comprehension is not a decorative feature added after a service is designed; it is one condition that allows the service to function for its intended users.

21. **M04-R21** What barrier did the study identify? A. No internet anywhere B. Unclear terms at a decision point C. Too many clinic rooms D. Lack of staff training
22. **M04-R22** ♦ What changed after plain-language descriptions were used? A. Completed bookings increased B. All costs disappeared C. Hours became longer D. Translation ended
23. **M04-R23** Why does the author mention translation and cost? A. To show other barriers still matter B. To define plain language C. To recommend one website D. To describe a clinic
24. **M04-R24** The word **comprehension** is closest in meaning to A. understanding B. payment C. travel D. diagnosis
25. **M04-R25** What is the main point? A. Simple language removes every barrier. B. Clear understanding is a functional part of access. C. Booking systems need no choices. D. Internet is unimportant.

Passage 2: The Limits of a Risk Number

A risk number can help people compare options, but a single number may hide the population and time period behind it. For example, a change described as “twice the risk” may sound large, while the original risk was very small. Communicators can make the statement more useful by adding absolute numbers and by saying who was included in the study.

More information is not automatically clearer. A page crowded with percentages, definitions, and exceptions may overwhelm a reader. Effective communication therefore involves selection: include the details that change a reasonable decision, and provide a path to deeper information for readers who need it.

26. **M04-R26** What can “twice the risk” hide? A. The original size of the risk B. The name of every reader C. A clinic location D. A language translation

27. **M04-R27** What addition can make a risk statement more useful? A. Only a larger percentage B. Absolute numbers and study population C. Fewer options D. A diagnosis
28. **M04-R28** ◆ Why is more information not always clearer? A. Readers may be overwhelmed B. Numbers cannot be written C. Studies have no limits D. Pages need no detail
29. **M04-R29** ◆ What does the author recommend? A. Remove all exceptions B. Include decision-relevant details and a deeper path C. Use relative numbers only D. Avoid defining terms
30. **M04-R30** What is the passage mainly about? A. How to calculate every risk B. Making risk communication useful without overload C. Why studies should not include people D. Why all percentages mislead

Passage 3: Trust and Correction

When a public agency corrects an error, it may worry that the correction will reduce trust. Studies of correction messages suggest a more complex pattern. Trust can decline if an agency hides an error that later becomes visible. A clear correction that states what changed, why it changed, and what people should do next can instead demonstrate accountability.

The wording matters. A message that simply repeats false information in large type may make the false claim more memorable. Effective corrections lead with the accurate action and give only enough context to explain the revision. The aim is not to erase every mistaken memory; it is to help people make the next decision from better information.

31. **M04-R31** ◆ What can a clear correction demonstrate? A. Accountability B. A permanent error C. Hidden information D. A medical diagnosis
32. **M04-R32** When can trust decline? A. When an error is hidden and later visible B. When a message gives an action C. When accuracy comes first D. When context is brief
33. **M04-R33** ◆ What wording risk does the author name? A. Repeating false information too prominently B. Using accurate actions C. Explaining a revision D. Giving a next step
34. **M04-R34** What should an effective correction lead with? A. The false claim B. The accurate action C. A long history D. A risk number
35. **M04-R35** ◆ What is the author's purpose? A. To promise that corrections erase all mistakes B. To explain how corrections can support better next decisions C. To advise hiding errors D. To compare clinic windows

19.5.2 M04-B Listening (35 题, 至多 29 分钟)

For L01—L10, play each quoted line once; select the natural response.

1. **M04-L01** ◆ “Is the walk-in clinic open after six?” A. No, it closes at six. B. The clinic walks daily. C. I opened a line. D. Six is a prescription.
2. **M04-L02** “My text says request received, but not ready.” A. Then wait for the ready message. B. Requests are ready. C. Text the medicine. D. I received a win-

dow.

3. **M04-L03** “Could you explain this term in simpler words?” A. Certainly; it means the visit was scheduled again. B. Words are simpler. C. Explain the clinic. D. I term every visit.
4. **M04-L04** ♦ “Why don’t you cancel online if you have a fever?” A. Good idea; I should not enter the clinic. B. Fever cancels online. C. The clinic has an idea. D. I entered a fever.
5. **M04-L05** “Do I need to print the health article?” A. No, you can show it on your phone after removing details. B. Articles print phones. C. Details need paper. D. I remove the room.
6. **M04-L06** “The portal will not accept my new pickup contact.” A. Check that the name matches the identification document. B. Contacts accept portals. C. New names are medicine. D. Pickup is a document.
7. **M04-L07** “Is this talk a place to ask about my own symptoms?” A. It gives general information, not individual diagnosis. B. Symptoms will talk. C. General places are private. D. I diagnosed a talk.
8. **M04-L08** ♦ “The poster has too many percentages.” A. Let’s add one plain-language summary. B. Percentages are posters. C. Summaries have numbers. D. I added too many.
9. **M04-L09** “Should we send the correction now or wait?” A. Send the accurate next step now. B. Corrections wait. C. Now is inaccurate. D. I step next.
10. **M04-L10** “Can my aunt collect my medication?” A. Yes, if you add her through the portal first. B. My aunt is medication. C. Collection has an aunt. D. First is a window.

TTS Script M04-C1

Student: I booked a vaccination, but the page offered “standard” and “priority” slots without explaining the difference. I chose one randomly.

Staff member: Priority slots are for people who received an invitation code.

Did you receive one?

Student: No.

Staff member: Then I will move you to a standard slot and ask the web team to clarify the page.

11. **M04-L11** ♦ Why is the student speaking to staff? A. The booking terms were unclear B. The clinic is closed C. A code was lost D. A vaccine is missing
12. **M04-L12** Who should use priority slots? A. All walk-ins B. People with invitation codes C. Anyone arriving early D. Portal contacts
13. **M04-L13** What will the staff member do? A. Cancel all slots B. Move the booking and report unclear wording C. Diagnose the student D. Send a risk number

TTS Script M04-C2

Student: Our group poster says a new program “cuts risk in half,” but a reader asked, “Half of what?”

Instructor: That is an important question. Add the original number and the time period.

Student: Should we add every study detail?

Instructor: No. Add the details that change interpretation, then link to the full source.

14. **M04-L14** ♦ What problem does the reader identify? A. The poster is too short B. The risk statement lacks context C. The program has no name D. The source is unavailable
15. **M04-L15** What does the instructor first recommend? A. Add original number and time period B. Remove every number C. Repeat “half” larger D. Diagnose readers
16. **M04-L16** What should the group do with other details? A. Hide them B. Put every detail on the poster C. Link to the full source after key context D. Delete the source

TTS Script M04-A1

This is a reminder for tonight’s online health-information workshop. The meeting link will open at 6:20, but the activity begins at 6:30. Please join with a first name or nickname only; the practice examples are public, but we want to avoid collecting personal details. Bring one online claim you would like to examine. We will compare its source, date, and evidence, not decide whether any participant has a particular condition.

17. **M04-L17** ♦ What will participants examine? A. Their diagnoses B. An online claim’s source, date, and evidence C. Medication bottles D. Clinic windows
18. **M04-L18** When does the activity begin? A. 6:20 B. 6:30 C. At midnight D. After a diagnosis
19. **M04-L19** Why use a first name or nickname? A. To avoid collecting personal details B. To reserve a slot C. To identify medication D. To shorten evidence
20. **M04-L20** What will the workshop not do? A. Compare sources B. Decide participants’ conditions C. Discuss dates D. Open a link

TTS Script M04-T1

Professor: A health message can be factually correct but poorly timed. Consider a reminder about a seasonal clinic sent after all appointments are full. The information is accurate, yet it cannot guide a useful action. Timing is therefore part of message design. Teams can map the decision a person must make, the information needed for that decision, and the moment when the information can still change behavior.

21. **M04-L21** ♦ What is the talk mainly about? A. Why accurate information is enough B. Why timing affects message usefulness C. How clinics fill appointments D. How to write reminders
22. **M04-L22** Why is a late reminder limited? A. It is false B. It arrives after useful action is possible C. It has no season D. People dislike clinics
23. **M04-L23** What do teams map? A. Decision, needed information, and useful moment B. Only appointment totals C. Personal symptoms D. Every message ever sent
24. **M04-L24** What principle follows? A. Send information when it can influence a decision B. Accuracy is irrelevant C. Fill appointments later D. Do not use reminders

25. **M04-L25** ♦ What does “factually correct but poorly timed” mean? A. Accurate content may still fail to help action B. Timing changes facts C. All reminders are late D. Clinics have no choices

TTS Script M04-T2

Professor: Translation is more than replacing one word with another. A direct translation may preserve vocabulary but lose the way a community describes a service or asks for help. Programs improve messages by testing them with people who use the language in daily life. Testers may identify a phrase that sounds formal, unclear, or even unintentionally rude. Their feedback does not make one community “the same” as another; it helps a message avoid assuming that a dictionary alone captures context.

26. **M04-L26** What is the professor’s main point? A. Translation only replaces words B. Testing with users can reveal contextual problems C. Dictionaries are illegal D. All communities speak alike
27. **M04-L27** ♦ What might testers identify? A. A phrase that sounds unclear or rude B. A new medical condition C. A longer appointment D. An exact risk
28. **M04-L28** What does the professor reject? A. Context matters B. A dictionary alone captures all context C. Users can test messages D. Phrases vary
29. **M04-L29** Why is direct translation limited? A. It cannot preserve vocabulary B. It may miss local ways of describing help C. It is always rude D. It adds too much evidence
30. **M04-L30** What is the purpose of user testing? A. To make all language identical B. To improve message fit and avoid assumptions C. To replace translators entirely D. To collect diagnoses

TTS Script M04-T3

Professor: Researchers sometimes use a “teach-back” question after explaining a service: “In your own words, what will you do next?” The question checks the explanation, not the intelligence of the listener. If several people describe the wrong next step, the message may need revision. This is useful because a listener may nod politely even when a term is unclear. Teach-back creates an opportunity to find a mismatch before it becomes a missed appointment or an incorrect form.

31. **M04-L31** ♦ What does teach-back check? A. The listener’s intelligence B. Whether the explanation was understood C. A person’s diagnosis D. A clinic’s budget
32. **M04-L32** What may several wrong descriptions indicate? A. The message needs revision B. Listeners are lazy C. Appointments are full D. Forms are correct
33. **M04-L33** ♦ Why might nodding be unreliable? A. It always means refusal B. Someone may be polite despite unclear understanding C. It changes a form D. It is a risk number
34. **M04-L34** What problem can teach-back prevent? A. A mismatch becoming an incorrect next action B. Translation use C. All missed appointments D. Any health risk
35. **M04-L35** ♦ Which note best summarizes the talk? A. ask for next step → find

misunderstanding early B. nod → perfect understanding C. teach facts →
diagnose D. forms → no questions

19.5.3 M04-C Writing (12 项, 23 分钟)

1. **M04-W01** although / the link opened early / the workshop / began / at six thirty
2. **M04-W02** could you / explain / what / the priority slot / means
3. **M04-W03** the message / should tell readers / what action / to take next
4. **M04-W04** if a patient / has a fever / use / the cancellation link
5. **M04-W05** the poster / became clearer / after / it included / an absolute number
6. **M04-W06** people / who test the translation / can identify / unclear phrases
7. **M04-W07** Write 80—120 words to a clinic: your online appointment page showed two unexplained choices and you selected the wrong one. Explain what happened, request a practical correction, and suggest one wording improvement.
8. **M04-W08** Write 80—120 words to a workshop organizer: you accidentally included a classmate's personal detail in an example you submitted. Explain, request a specific action, and state what revised material you will provide.
9. **M04-W09** Write 80—120 words to a pharmacy: the "ready" text was sent to an old phone number. Explain the effect, ask how to update contact information safely, and say what identification you can provide.
10. **M04-W10** Professor: *Should public health messages prioritize brevity or complete detail?* Asha: *Brief messages are more likely to be read.* Mark: *Missing context can lead to wrong decisions.* Post 100—130 words with a position, response, and an example.
11. **M04-W11** Professor: *Should services test instructions with users before launch, even if that delays release?* Priya: *Testing discovers barriers early.* Eli: *Urgent services cannot wait.* Post 100—130 words, acknowledge one point, then defend your priority.
12. **M04-W12** Professor: *When an agency makes an error, should it focus its correction on explaining the mistake or on telling people what to do now?* Wen: *Explanation builds trust.* Jordan: *The next action is most urgent.* Post 100—130 words with a reasoned position.

19.5.4 M04-D Speaking (11 提示, 约 8 分钟)

1. **M04-S01** *The clinic can offer general information, but it cannot diagnose symptoms during the workshop.*
2. **M04-S02** *Please wait for the text that says your medication is ready for pickup.*
3. **M04-S03** *A clear message gives people information when they can still use it.*
4. **M04-S04** *The poster should include the number that makes the comparison meaningful.*
5. **M04-S05** *Although the translation was accurate word by word, users found one*

phrase unclear.

6. **M04-S06** A teach-back question can reveal whether the next step was understood.
7. **M04-S07** The correction led with the accurate action instead of repeating the false claim.
8. **M04-S08** What makes an instruction easy or difficult for you to follow?
9. **M04-S09** Describe a time when you needed to ask for clarification before making a decision.
10. **M04-S10** Should public services explain every exception in the first message? Why or why not?
11. **M04-S11** How would you check whether a group understood an important announcement?

19.6.1 M05-A Reading (35 题, 至多 30 分钟)

Complete the Words (R01—R08)

1. **M05-R01** The new wall panel is easy to **rep**___ if it is damaged. A. lace B. air C. ort D. eat
2. **M05-R02** ◆ Architects must **bal**___ appearance and maintenance. A. ance B. cony C. last D. loon
3. **M05-R03** The ramp provides **acc**___ for visitors using wheels. A. ess B. ident C. urate D. use
4. **M05-R04** ◆ The sensor can **det**___ changes in room temperature. A. ect B. ail C. our D. ach
5. **M05-R05** A movable wall makes the room more **flex**___. A. ible B. ion C. ure D. ity
6. **M05-R06** Staff will **ins**___ the roof after the storm. A. pect B. ide C. tall D. ure
7. **M05-R07** The plan includes a **sep**___ entrance for deliveries. A. arate B. tember C. tion D. rate

8. **M05-R08** The design must **with**_____ heavy daily use. A. stand B. draw C. hold D. in

Read in Daily Life (R09—R20)

Study Hall Notice

The south study hall will close from 12:30 to 2:00 p.m. Tuesday while staff replace a damaged ceiling panel. Use the west entrance to reach the library computers during that time. The quiet room remains open, but its lights will be dimmed for twenty minutes during a safety test. Do not move the temporary barriers; they mark a work area, not a new walking route.

9. **M05-R09** ♦ Why will the study hall close? A. A ceiling panel is being replaced B. Computers are removed C. The quiet room moves D. A new route opens
10. **M05-R10** How can people reach computers during closure? A. South entrance B. West entrance C. Quiet room D. Barrier path
11. **M05-R11** What happens in the quiet room? A. It closes all day B. Lights are briefly dimmed C. Computers are tested D. Barriers are moved
12. **M05-R12** ♦ What should visitors not do? A. Use the library B. Move barriers C. Enter west door D. Sit quietly

Room Reservation Rules

Student groups may reserve the flexible classroom for meetings of 6 to 24 people. Choose “discussion” if tables should remain in a circle; choose “workshop” if staff should set up movable boards. Requests made less than forty-eight hours ahead are accepted only if no equipment change is needed. After use, return chairs to the wall markers so the next group can use the room safely.

13. **M05-R13** What group size is allowed? A. 1—5 B. 6—24 C. 25—48 D. Any size
14. **M05-R14** Which request needs movable boards? A. Discussion B. Workshop C. Late request D. Chair return
15. **M05-R15** When may a late request be accepted? A. When equipment need not change B. When it has 30 people C. When barriers move D. When chairs are missing
16. **M05-R16** Why use wall markers after a meeting? A. To count people B. To restore safe room use C. To reserve boards D. To dim lights

Repair Desk Email

Report a loose handrail through the building portal and include the nearest room number, not only “second floor.” Staff use the room number to send the correct maintenance team. If the rail blocks safe movement now, call campus safety first and then submit the portal report. Photographs are helpful, but do not delay the call to take one.

17. **M05-R17** ♦ What location detail should a report include? A. A floor only B. Nearest room number C. A photo title D. A building age
18. **M05-R18** Why is the room number useful? A. It selects the correct team B. It replaces calling safety C. It repairs the rail D. It closes the portal

19. **M05-R19** What should happen first if movement is unsafe? A. Take photographs
B. Call campus safety C. Wait for a team D. Find a desk
20. **M05-R20** ♦ What does the email say about photographs? A. Required before
any call B. Helpful but not worth delaying a safety call C. Never allowed D. A
replacement for room numbers

Read an Academic Passage (R21–R35)

Passage 1: Repairability and First Cost

A building component with a low purchase price is not always the least expensive choice over time. A sealed light fixture, for example, may be quick to install but require replacement of the entire unit when one part fails. A fixture with replaceable parts can cost more initially while reducing material and labor later. Designers call attention to this difference because budgets often separate construction costs from maintenance costs.

The comparison does not mean that replaceable parts are always best. A design may add complexity without producing a likely repair benefit. The useful question is whether the expected failures can be reached and corrected without damaging unrelated components.

21. **M05-R21** What contrast does the passage make? A. Initial price and later repair cost B. Lights and computers C. Staff and visitors D. Old and new walls
22. **M05-R22** ♦ Why might a sealed fixture cost more over time? A. It uses no parts
B. One failure can require full replacement C. It cannot be installed D. It is always complex
23. **M05-R23** Why are budgets relevant? A. They often separate construction from maintenance costs B. They prevent repairs C. They choose all materials D. They make fixtures sealed
24. **M05-R24** What condition makes repairability useful? A. Every part must be visible B. Expected failures can be reached without unrelated damage C. Initial cost is zero D. Complexity always rises
25. **M05-R25** ♦ What is the main idea? A. Replaceable parts are always best. B. Long-term design cost can depend on access for likely repairs. C. Buildings need no budgets. D. All fixtures fail.

Passage 2: Flexible Rooms

A flexible room can support lectures, group work, or public events, but flexibility is not simply the absence of furniture. Users need to understand how to change the room and where equipment belongs afterward. In one school, movable tables were rarely rearranged until staff added floor markers and a short diagram. The furniture had always been movable; the missing element was a shared procedure.

The example shows that physical capacity and social capacity are connected. A room cannot become flexible in practice if users fear making a mistake or leaving a difficult setup for the next group.

26. **M05-R26** Why were tables rarely rearranged at first? A. They were too heavy

- B. Users lacked a shared procedure C. Lectures were canceled D. The room was locked
27. **M05-R27** What change helped? A. New tables B. Floor markers and a diagram C. Fewer users D. A new building
28. **M05-R28** ♦ What does “social capacity” refer to here? A. Room size B. Users’ ability and confidence to use the flexibility C. Number of walls D. Cost of furniture
29. **M05-R29** What might users fear? A. That a setup will burden the next group B. That tables cannot move C. That diagrams are expensive D. That rooms have no purpose
30. **M05-R30** Which statement is supported? A. Movable furniture alone guarantees flexible use. B. Procedures can turn physical possibility into practical use. C. Markers prevent all mistakes. D. Lectures need fixed rooms.

Passage 3: Feedback After Occupancy

Designers learn much about a building before it opens, but occupants discover patterns that plans cannot fully predict. A lobby seat may look inviting in a drawing yet remain unused because afternoon sun makes it uncomfortable. Post-occupancy feedback collects such observations after people begin using the space. This feedback can guide small adjustments and inform future projects.

Feedback must be interpreted carefully. A complaint may describe a real problem without showing how common it is; a survey total may show a pattern without explaining its cause. Combining observations, usage records, and conversations helps teams decide which changes are worth testing.

31. **M05-R31** ♦ Why can occupants reveal new patterns? A. Plans predict every use B. Actual use exposes conditions plans may not show C. Designers never visit buildings D. Seats cannot be drawn
32. **M05-R32** What makes a lobby seat unused in the example? A. It is too small B. Afternoon sun makes it uncomfortable C. It has no drawing D. It is repaired
33. **M05-R33** Why should feedback be interpreted carefully? A. A single complaint may not show frequency B. Feedback is always false C. Surveys explain all causes D. Conversations are banned
34. **M05-R34** ♦ What combination does the author recommend? A. Only a survey B. Only complaints C. Observations, records, and conversations D. A new lobby
35. **M05-R35** ♦ What is the passage mainly about? A. Why buildings should never open B. Using post-use evidence to guide adjustments C. How to draw seats D. Why sun is harmful

19.6.2 M05-B Listening (35 题, 至多 29 分钟)

1. **M05-L01** ♦ “Can we use the south hall during the repair?” A. Not until two; use the west entrance for computers. B. Repairs use computers. C. South is west. D. Two halls repair.
2. **M05-L02** “The handrail feels loose.” A. If it is unsafe, call campus safety first. B. Rails call rooms. C. Loose is a portal. D. Safety feels loose.

3. **M05-L03** ♦ “Should I choose discussion or workshop?” A. Choose workshop if you need movable boards. B. Boards discuss. C. A workshop is a circle. D. I chose a room.
4. **M05-L04** “The projector cable is missing.” A. I will check the equipment cabinet before the meeting. B. Cables project cabinets. C. Meetings are missing. D. Check a projector.
5. **M05-L05** “Why are there markers on the floor?” A. They show where chairs go after use. B. Floors mark meetings. C. Chairs use walls. D. Markers move rooms.
6. **M05-L06** “Can I submit the repair report tomorrow?” A. Report it now if the rail affects safe movement. B. Tomorrow repairs movement. C. Reports are rails. D. It is safer later.
7. **M05-L07** “Is the quiet room closed for the test?” A. No, its lights will only dim briefly. B. Quiet tests close lights. C. Rooms dim safety. D. It is closed briefly.
8. **M05-L08** “Could we move the tables after the talk?” A. Yes, just return them to the wall markers afterward. B. Talks return markers. C. Tables have walls. D. After is a room.
9. **M05-L09** ♦ “The sensor says this room is too warm.” A. Let’s compare it with another location before changing the system. B. Sensors warm rooms. C. Systems compare heat. D. Another room says warm.
10. **M05-L10** “Where do delivery teams enter?” A. Through the separate service entrance. B. Teams are entrances. C. Deliveries separate rooms. D. Enter a service.

TTS Script M05-C1

Student: We reserved the flexible room for a workshop, but our group has only five people.

Staff member: The room is reserved for groups of six or more because smaller groups can use the nearby study rooms.

Student: Could we invite one more member?

Staff member: Yes, if you confirm the final number before tomorrow morning.

11. **M05-L11** ♦ Why is the reservation a problem? A. The group is too small B. The room has no boards C. The meeting is late D. The room is closed
12. **M05-L12** What can smaller groups use? A. The service entrance B. Nearby study rooms C. The repair desk D. The roof
13. **M05-L13** What must the student do if another member joins? A. Confirm final number B. Move barriers C. Call safety D. Replace a panel

TTS Script M05-C2

Student: The new lobby bench gets direct sun after lunch, and people sit on the floor instead.

Designer: That is useful feedback. Have you noticed whether it happens every day or only when the weather is clear?

Student: Mostly on clear days, between one and three.

Designer: Please add those conditions to the observation. We can test shade before replacing the bench.

14. **M05-L14** ♦ What issue does the student report? A. A bench is uncomfortable in

afternoon sun B. A floor is unsafe C. The lobby closes D. The bench is missing

15. **M05-L15** What does the designer ask about? A. Conditions and timing B. Ticket price C. Bench color D. Building age
16. **M05-L16** What will likely be tested first? A. Shade B. A new building C. New floor markers D. A service entrance

TTS Script M05-A1

Tomorrow's maintenance walk will start at 9:10 near Room 214, not at the central desk. Bring a phone or paper for notes, but do not photograph security panels. The aim is to identify small access problems before the building inspection, such as blocked signs, loose handles, or furniture narrowing a route. Report urgent hazards immediately rather than waiting for the group's final list.

17. **M05-L17** ♦ What is the main purpose? A. Identify small access problems B. Replace security panels C. Reserve rooms D. Take photographs
18. **M05-L18** Where will the walk start? A. Central desk B. Room 214 C. West entrance D. Roof
19. **M05-L19** What should participants not photograph? A. Signs B. Security panels C. Furniture D. Handles
20. **M05-L20** What should happen to urgent hazards? A. Put them on the final list only B. Report them immediately C. Photograph them later D. Move them

TTS Script M05-T1

Professor: Buildings are sometimes described as fixed products, but many are better understood as systems that change through maintenance, occupancy, and adaptation. This view shifts the design question. Instead of asking only, "How will it look on opening day?" teams ask, "Who will adjust it, with what tools, and what information will they need?" A movable partition is useful only if users can find its instructions and staff can repair its track when it wears.

21. **M05-L21** ♦ What view of buildings does the professor present? A. Fixed products only B. Systems that change through use and maintenance C. Unchangeable art D. Empty rooms
22. **M05-L22** What new question does this view add? A. Who will adjust and maintain it B. What color is a ticket C. How many walls exist D. When will it never change
23. **M05-L23** ♦ Why mention a movable partition? A. To show physical flexibility needs instructions and repair support B. To ban partitions C. To discuss light D. To count rooms
24. **M05-L24** What is the professor's main point? A. Opening-day appearance is the only concern B. Adaptation should be planned as part of design C. Tools are unnecessary D. Partitions never wear
25. **M05-L25** Which note fits? A. opening day only B. design → adjustment + tools + information C. fixed walls → no users D. repair = appearance

TTS Script M05-T2

Professor: A maintenance request system can reveal recurring problems, but request totals need context. A high number of reports about one door

may mean the door fails often. It may also mean the reporting form is easy to find near that door, while problems elsewhere go unreported. Teams should compare requests with inspections and with how visible the reporting process is. Otherwise, a system may measure reporting behavior as much as building behavior.

26. **M05-L26** What can high reports about one door mean? A. Only frequent failure B. Frequent failure or easier reporting C. The door is new D. Inspections are impossible
27. **M05-L27** ♦ Why compare reports with inspections? A. To add context before judging a pattern B. To hide request totals C. To remove forms D. To stop maintenance
28. **M05-L28** What may a request system measure? A. Only building behavior B. Reporting behavior too C. No behavior D. Ticket use
29. **M05-L29** What factor affects report totals? A. Visibility of the reporting process B. Wall color C. Room capacity only D. Furniture price
30. **M05-L30** What is the talk mainly about? A. Eliminating reports B. Interpreting maintenance data with context C. Fixing every door immediately D. Moving forms

TTS Script M05-T3

Professor: Universal design aims to make spaces usable by many people without requiring separate solutions whenever possible. A curb cut, for instance, can help a wheelchair user, a parent with a stroller, or a worker moving equipment. This does not mean one feature fits every need. It means designers should begin by considering varied users rather than treating accessibility as a late addition for a small category of people.

31. **M05-L31** ♦ What is universal design? A. A late separate solution B. Designing for varied users from the start C. A rule for curbs only D. A type of inspection
32. **M05-L32** ♦ Why mention a curb cut? A. It helps several kinds of users B. It blocks equipment C. It is a security panel D. It replaces ramps
33. **M05-L33** What does universal design not mean? A. One feature fits every need B. Varied users matter C. Accessibility begins early D. Equipment can move
34. **M05-L34** What contrast does the professor make? A. Starting with varied users versus adding access late B. Curbs versus walls C. Parents versus workers D. Rooms versus buildings
35. **M05-L35** ♦ Which conclusion is supported? A. Accessibility helps only one group B. A broadly usable feature may serve more than its originally imagined user C. Separate solutions always work best D. Design ends at opening

19.6.3 M05-C Writing (12 项, 23 分钟)

1. **M05-W01** although / the room was reserved / the group / did not meet / the minimum size
2. **M05-W02** could you / report / the loose handrail / through / the portal
3. **M05-W03** the floor markers / show / where / the chairs / should return
4. **M05-W04** if the route / is unsafe / call / campus safety / first

5. **M05-W05** the fixture / costs more initially / but / its parts / can be replaced
6. **M05-W06** occupants / who use the lobby / can notice / patterns / the plans missed
7. **M05-W07** Write 80—120 words to building services: a loose handrail blocks the fastest accessible route. Give an exact location, request an urgent response, and say what temporary safe route you observed.
8. **M05-W08** Write 80—120 words to a room coordinator: your group needs movable boards but its event is in forty hours. Explain the request, ask what is feasible, and offer a fallback plan.
9. **M05-W09** Write 80—120 words to a designer: a new bench is unused during a predictable sunny period. Describe your observations, request one test, and explain why you are not asking for immediate replacement.
10. **M05-W10** Professor: *Should public buildings first invest in easy repair or in a lower initial construction cost?* Mina: *Low initial cost frees money for other needs.* Joel: *Hard-to-repair choices create later waste.* Post 100—130 words with a position and specific building example.
11. **M05-W11** Professor: *Should flexible rooms have strict reset rules?* Farah: *Rules protect the next users.* Sam: *Too many rules discourage experimentation.* Post 100—130 words; respond to one classmate and propose a workable procedure.
12. **M05-W12** Professor: *Should post-occupancy feedback come mainly from surveys or from observation?* Keon: *Surveys let many users speak.* Aditi: *Observation reveals what people may not report.* Post 100—130 words with a concrete evidence plan.

19.6.4 M05-D Speaking (11 提示, 约 8 分钟)

1. **M05-S01** *Please use the west entrance while the ceiling panel is being replaced.*
2. **M05-S02** *The report needs the nearest room number so the correct team can respond.*
3. **M05-S03** *A flexible room also needs a clear procedure for returning equipment.*
4. **M05-S04** *The first purchase price may not show the full cost of future repairs.*
5. **M05-S05** *Although the table could move, users were unsure how to reset the room.*
6. **M05-S06** *Occupants can discover patterns that are not visible in a drawing.*
7. **M05-S07** *A broadly accessible feature may help several kinds of users at once.*
8. **M05-S08** What makes a public building easy or difficult for you to use?
9. **M05-S09** Describe a time when a small physical problem affected your plan.
10. **M05-S10** Is it better to buy something cheaper now or easier to repair later? Why?
11. **M05-S11** How should an organization decide which building complaint to address first?

19.6.5 M05-E 交卷后路由记录

写下 R___/35、L___/35、Sentence___/12、Email___/12、Discussion___/12、Repeat___/28、Interview___/16；通过第 19.5 节将每个错误归为一个主因。

19.7 七、固定全卷仿真 M06 | Neighborhood Data Lab

建议节点：第 22 周或考前两周；主题为社区数据、解释与行动。

教学压缩执行：只做本套标 ◆ 的客观题，另完成 M06-W01—W06、M06-W07、M06-W10 和 M06-S01—S07、M06-S08—S11；答案只核对第 19.6.6 节的同号条目。

压缩抽题：R ◆01、◆05、◆09、◆12、◆17、◆20、◆22、◆26、◆28、◆31、◆33、◆34；L ◆01、◆05、◆09、◆11、◆14、◆17、◆21、◆24、◆27、◆31、◆33、◆35。

19.7.1 M06-A Reading (35 题, 至多 30 分钟)

Complete the Words (R01—R08)

1. **M06-R01** ◆ The team used a map to **loc**___ each report. A. ate B. al C. ker D. omote
2. **M06-R02** A short note can **ex**___ why a value is missing. A. plain B. port C. cite D. tend
3. **M06-R03** The survey asked residents to **ra**___ the route's safety. A. te B. in C. ce D. dio
4. **M06-R04** The chart shows a **pat**___ across several months. A. tern B. ent C. hway D. rol
5. **M06-R05** ◆ Staff will **ver**___ the address before publishing the map. A. ify B. bal C. dict D. satile
6. **M06-R06** One number is an **ave**___, not the result for every block. A. rage B. nue C. rt D. il
7. **M06-R07** The group made a **vis**___ display for the meeting. A. ual B. itor C. ion D. ible
8. **M06-R08** The coordinator asked for a **spec**___ example, not a general opinion. A. ific B. ial C. imen D. ies

Read in Daily Life (R09—R20)

Street Audit Check-In

Audit teams meet at 5:50 p.m. outside the transit office and begin walking at six. Each team receives one block, a paper checklist, and a map with private addresses removed. Record broken lights, blocked ramps, and unclear signs, but do not photograph people. Return checklists by 7:15; teams that finish early should review their block rather than start an unassigned one.

9. **M06-R09** ♦ What does each team receive? A. Several routes B. One block and recording materials C. Private addresses D. A camera
10. **M06-R10** What should teams record? A. People's names B. Broken lights and access problems C. Personal opinions only D. Unassigned blocks
11. **M06-R11** What should early teams do? A. Start another block B. Review their own block C. Leave checklists D. Photograph people
12. **M06-R12** ♦ Why are private addresses removed? A. To protect personal information B. To shorten the route C. To hide lights D. To select teams

Open Data Workshop

Bring a laptop if possible, but the library has eight loan devices for people who reserve them by noon. The workshop will show how to read a city data table and how to identify what the table cannot show. It will not teach programming. Participants may work with a public dataset or the sample file provided; do not upload a file containing private client information.

13. **M06-R13** What may people reserve? A. A programming class B. A loan device C. A private dataset D. A city table
14. **M06-R14** What will the workshop teach? A. Programming B. Reading a data table and its limits C. Uploading client files D. Creating private addresses
15. **M06-R15** What file is prohibited? A. Sample file B. Public dataset C. File with private client information D. City table
16. **M06-R16** By when should a loan device be reserved? A. Noon B. Six p.m. C. 7:15 D. Tomorrow

Map Revision Request

To request a correction, use the map's feedback button and describe the visible issue, its location, and the date you noticed it. A report that says only "the map is wrong" cannot be checked efficiently. The team reviews safety-related corrections weekly and other suggestions monthly. If the issue creates immediate danger, contact the relevant city service instead of waiting for a map update.

17. **M06-R17** ♦ What must a correction request describe? A. Only an opinion B. Issue, location, and date C. A new map design D. Personal address
18. **M06-R18** Why is "the map is wrong" insufficient? A. It is too positive B. It cannot be checked efficiently C. It is safety-related D. It has a date
19. **M06-R19** How often are safety-related corrections reviewed? A. Weekly B. Monthly C. Daily D. Yearly
20. **M06-R20** ♦ What should someone do about immediate danger? A. Wait for map review B. Contact the relevant service C. Submit a vague report D. Upload a client file

Read an Academic Passage (R21—R35)

Passage 1: A Map Is a Selection

A map appears to show a place directly, but every map selects what to include, emphasize, or leave out. A transit map may simplify street shape so

that route connections are easier to read. A neighborhood map may omit private addresses to protect residents. Such choices do not automatically make a map inaccurate. They make its purpose visible.

Problems arise when users assume that a map designed for one purpose answers another question. A simplified transit line may be excellent for choosing a train and poor for estimating a walking distance. Map literacy includes asking what a representation was designed to support.

21. **M06-R21** What does the passage say every map does? A. Shows every detail B. Selects information C. Hides all routes D. Uses private addresses
22. **M06-R22** ♦ Why might a transit map simplify street shape? A. To make connections easier to read B. To estimate walking distance C. To remove trains D. To protect a route
23. **M06-R23** When can a map cause problems? A. When users assume it answers a purpose it was not designed for B. When it has a title C. When it shows a route D. When it uses lines
24. **M06-R24** The word **representation** is closest in meaning to A. depiction B. repair C. request D. reservation
25. **M06-R25** What is the main point? A. Simplification always makes a map false. B. Map use requires considering selection and purpose. C. All maps should show walking routes. D. Privacy is unrelated to mapping.

Passage 2: Measuring What Matters

Public programs often count what is easiest to count: attendance, downloads, or completed forms. These totals can be useful, but they may not match the program's real goal. A workshop intended to help residents use a service, for example, might have high attendance while leaving participants unsure about the next step. Researchers call this a measurement gap: the available number is not identical to the outcome that matters.

Closing a measurement gap does not always require a large survey. A carefully selected follow-up question, observation of a task, or record of a later action can add evidence. The best measure is one that is feasible to collect and close enough to the decision being evaluated.

26. **M06-R26** ♦ What is a measurement gap? A. No numbers exist B. An easy total differs from the outcome that matters C. Attendance is always low D. A survey is too large
27. **M06-R27** What example does the author give? A. A workshop with high attendance but uncertain next steps B. A map with private data C. A broken light D. A new transit route
28. **M06-R28** ♦ What can add evidence without a large survey? A. A selected follow-up question B. More downloads only C. A simpler map D. A private file
29. **M06-R29** What makes a measure best, according to the passage? A. It is easiest to count B. It is feasible and close to the decision C. It is always an attendance total D. It has no follow-up
30. **M06-R30** What is the passage mainly about? A. Removing all totals B. Choosing measures that better match a program goal C. Increasing form completion D.

Designing maps

Passage 3: Public Data and Trust

Publishing a dataset can increase transparency, yet access alone does not guarantee trust. A table without definitions may lead people to compare values that were collected in different ways. Agencies can support interpretation by explaining source, date range, missing values, and revision history. These notes do not make a dataset perfect; they allow users to see its limits. Some agencies worry that describing limitations will make data seem weak. In fact, unexplained limits may create more suspicion when users discover them later. Clear documentation gives people a basis for asking better questions and for using a dataset without claiming more certainty than it can provide.

31. **M06-R31** ♦ Why is access alone insufficient for trust? A. Tables need definitions and context B. Data cannot be published C. Values are identical D. Limits should be hidden
32. **M06-R32** What may agencies explain? A. Source, date range, missing values, and revisions B. Personal client details C. Only totals D. Unrelated maps
33. **M06-R33** ♦ Why might agencies hesitate to describe limits? A. They fear data will seem weak B. Notes are illegal C. Users dislike questions D. Tables lack dates
34. **M06-R34** ♦ What risk comes from unexplained limits? A. More trust B. Suspicion when users discover them later C. No questions D. Perfect certainty
35. **M06-R35** What is the author's view? A. Documentation can support responsible trust B. Datasets must be perfect C. Missing values should be deleted silently D. Access has no value

19.7.2 M06-B Listening (35 题, 至多 29 分钟)

1. **M06-L01** ♦ "Should we photograph the blocked ramp?" A. Photograph the ramp, but not people nearby. B. Ramps photograph people. C. Blocks need no maps. D. Nearby is a checklist.
2. **M06-L02** "This table has an empty cell." A. Check whether the notes explain a missing value. B. Cells explain tables. C. The table is empty. D. I checked a map.
3. **M06-L03** "Can I bring a client spreadsheet to the workshop?" A. No, use a public or sample file. B. Clients reserve laptops. C. Spreadsheets are public. D. Workshops upload clients.
4. **M06-L04** "The streetlight is out right now." A. Report immediate danger to city service, not just the map. B. Lights make maps. C. Right now is a correction. D. Service has a light.
5. **M06-L05** ♦ "Why does the route on this map look straight?" A. The map simplified shape to show connections. B. Routes are always straight. C. Connections draw maps. D. It has no streets.
6. **M06-L06** "Could I reserve one of the library devices?" A. Yes, if you reserve before noon. B. Devices reserve libraries. C. Noon has a laptop. D. I could library.
7. **M06-L07** "Our team finished the block early." A. Review the block before return-

ing the checklist. B. Blocks return early. C. Checklists review teams. D. Start any block.

8. **M06-L08** “The feedback report only says ‘wrong.’” A. Ask for the issue, location, and date. B. Wrong is a location. C. Feedback is a date. D. Maps ask reports.
9. **M06-L09** ♦ “Do more downloads prove the program helped?” A. Not unless downloads match the outcome we care about. B. Programs download proof. C. Help is a total. D. Care proves downloads.
10. **M06-L10** “Why list the revision date?” A. It helps users interpret the current data. B. Dates revise users. C. Data lists maps. D. The current date is private.

TTS Script M06-C1

Student: Our audit team found an address missing from the public map, but the resident asked us not to add it.

Coordinator: Was the address ever intended to be public?

Student: No, the map is for route conditions, not household listings.

Coordinator: Then document the request, but do not add the address. The map’s purpose guides that decision.

11. **M06-L11** ♦ What issue does the student raise? A. A missing private address B. A broken ramp C. A late workshop D. An empty cell
12. **M06-L12** Why should the address not be added? A. The map’s purpose is not household listing B. It is too far away C. It is a safety correction D. It has no date
13. **M06-L13** What will the coordinator do? A. Add the address B. Document the request and omit it C. Change the route D. Contact a resident

TTS Script M06-C2

Student: Our program report says 200 people attended the workshop.

Advisor: What were they supposed to be able to do afterward?

Student: Find the correct city service for a street problem.

Advisor: Then add a follow-up question or task that checks that next step.

Attendance is useful, but it is not the whole outcome.

14. **M06-L14** ♦ What does the advisor ask about? A. The intended ability after the workshop B. The room number C. The map color D. The attendance date
15. **M06-L15** What should the group add? A. A follow-up check of the next step B. More attendees C. Private addresses D. A new transit line
16. **M06-L16** How does the advisor describe attendance? A. Useless B. Useful but incomplete C. Private D. Incorrect

TTS Script M06-A1

The neighborhood data lab meets at 6:00 in the library’s east room. Please arrive at 5:50 if you reserved a loan laptop, because staff need to match each device to a reservation. Tonight’s sample uses public street-condition records. We will discuss how dates, definitions, and missing values affect interpretation. The session is not a place to submit individual repair requests; use the city portal for those after the lab.

17. **M06-L17** ♦ What will tonight’s sample use? A. Public street-condition records B. Private client files C. Repair requests D. Personal addresses
18. **M06-L18** Why should laptop borrowers arrive early? A. Devices must be matched

to reservations B. The lab starts then C. Repairs begin D. Maps are printed

19. **M06-L19** What topics will be discussed? A. Dates, definitions, and missing values
B. Programming only C. Personal repairs D. New laptops
20. **M06-L20** Where should individual repair requests go? A. The lab B. The city portal C. The east room D. A sample file

TTS Script M06-T1

Professor: A dashboard can make a complex dataset easy to view, but a simple display can encourage overconfidence. A line rising across three months may look like a trend, yet three points may reflect ordinary variation. Analysts should ask how many observations exist, whether the same method produced each point, and whether another explanation is plausible. A dashboard is a starting point for questions, not the final answer to them.

21. **M06-L21** ♦ What limitation of a dashboard does the professor discuss? A. It can encourage overconfidence from a simple display B. It cannot show lines C. It has no data D. It replaces maps
22. **M06-L22** Why might three rising points be limited? A. They always prove a trend B. They may reflect ordinary variation C. They have no dates D. They are private
23. **M06-L23** What should analysts ask? A. Whether method and alternative explanations are consistent B. Only whether a line rises C. Who owns a laptop D. How to remove values
24. **M06-L24** ♦ What is a dashboard best treated as? A. A final answer B. A starting point for questions C. A private file D. A repair portal
25. **M06-L25** Which note fits? A. rising line → certainty B. display → ask about points, method, alternatives C. three months = proof D. dashboard → no context

TTS Script M06-T2

Professor: Categories help agencies organize reports, but categories can also hide mixed cases. A report about a blocked ramp and a broken light might fit both “access” and “lighting.” If a system forces staff to choose only one category, later totals can understate the connection between problems. Some systems allow multiple tags; others keep one category but add a short description. The best choice depends on what future decisions the records must support.

26. **M06-L26** What problem can categories create? A. They can hide mixed cases B. They have no names C. They prevent records D. They remove ramps
27. **M06-L27** ♦ What example is given? A. A report involving both ramp and light issues B. A private address C. A loan laptop D. A data dashboard
28. **M06-L28** What can a system do to address the issue? A. Allow multiple tags or add description B. Delete reports C. Use no categories D. Hide totals
29. **M06-L29** What should guide the best choice? A. Future decisions records must support B. Wall color C. Current weather D. Number of laptops
30. **M06-L30** What is the talk mainly about? A. Why every report fits one label B. Designing categories with later use in mind C. Ending street audits D. Removing tags

TTS Script M06-T3

Professor: Public participation can improve data projects when participants can see what happened to their input. If residents spend time reporting a broken sign and never learn whether the report was reviewed, they may stop contributing. A response does not need to promise that every request will be accepted. It can state that a report was received, explain the review schedule, and show a summary of changes. This “feedback loop” makes participation more credible because it connects contribution with visible process.

31. **M06-L31** ♦ Why can participation decline? A. People never see what happened to their input B. Signs are always fixed C. Every request is accepted D. Maps are private
32. **M06-L32** What need not be promised? A. Every request will be accepted B. A report was received C. A review schedule D. A change summary
33. **M06-L33** ♦ What can a response provide? A. Receipt, schedule, and change summary B. A diagnosis C. Private addresses D. More categories only
34. **M06-L34** What does a feedback loop connect? A. Contribution with visible process B. Maps with no users C. Requests with automatic acceptance D. Data with secrecy
35. **M06-L35** ♦ What is the main point? A. Participation needs no response B. Visible follow-through can make participation credible C. All reports must create changes D. Public data should be hidden

19.7.3 M06-C Writing (12 项, 23 分钟)

1. **M06-W01** although / the map was simplified / it still showed / the transit connections
2. **M06-W02** could you / describe / the issue / and / its exact location
3. **M06-W03** the workshop / explains / what a table / cannot show
4. **M06-W04** if the problem / creates danger / contact / the city service
5. **M06-W05** the total / was easy to count / but / it did not measure / the next step
6. **M06-W06** records / that contain / two problems / may need / more than one tag
7. **M06-W07** Write 80—120 words to a map team: a public route map has an unclear sign location. Give verifiable details, request one correction, and explain why you are not including any private address.
8. **M06-W08** Write 80—120 words to a workshop organizer: you reserved a loan laptop but will arrive five minutes late. Explain, ask whether your reservation can be held, and state a backup option.
9. **M06-W09** Write 80—120 words to a city program: you submitted an audit report but received no update for three weeks. Ask about the review schedule, explain why follow-up matters, and request one transparent next step.
10. **M06-W10** Professor: *Should public dashboards be designed for quick understanding or include more methodological detail on the first screen?* Nia: Quick

displays help more residents begin. Omar: A simple line can be misread without context. Post 100—130 words with a position and an example.

11. **M06-W11** Professor: *Should a city ask residents to report as many issues as possible or focus on a smaller set of high-quality reports?* Lian: *More reports show broader experience.* Theo: *Unclear reports waste follow-up time.* Post 100—130 words, respond to a classmate, and propose a practical rule.
12. **M06-W12** Professor: *When publishing data limitations, should an agency emphasize transparency even if people may lose confidence?* Maya: *Limits make data more honest.* Grant: *Too many warnings can make people ignore useful data.* Post 100—130 words with a balanced but clear conclusion.

19.7.4 M06-D Speaking (11 提示, 约 8 分钟)

1. **M06-S01** *Each audit team receives one block and returns its checklist by seven fifteen.*
2. **M06-S02** *The map removes private addresses because its purpose is to show route conditions.*
3. **M06-S03** *A total can be easy to count without measuring the outcome that matters.*
4. **M06-S04** *Please describe the visible issue, location, and date in the correction request.*
5. **M06-S05** *Although the line rose for three months, analysts still considered other explanations.*
6. **M06-S06** *Some reports need more than one tag because they describe connected problems.*
7. **M06-S07** *A response can show that input was reviewed without promising every requested change.*
8. **M06-S08** How do you decide whether information on a chart is trustworthy enough to use?
9. **M06-S09** Describe a time when you gave feedback and later learned what happened to it.
10. **M06-S10** Should public maps show as much detail as possible? Why or why not?
11. **M06-S11** What would make you more willing to participate in a community data project?

19.7.5 M06-E 交卷后路由记录

写下 R___/35、L___/35、Sentence___/12、Email___/12、Discussion___/12、Repeat___/28、Interview___/16; 在第 19.6 节复盘时, 确认每个“对题”都能指出文本或脚本证据。

19.8 八、阶段路由卷：决定下一周练什么，不预测正式路由

19.8.1 1. 使用时机与本书阈值

在第 4、8、12、16、20 周的完整卷之间，任选 Route A 或 Route B；两周后再做另一卷。每卷 Reading 12 题、Listening 12 题、一个短写作和两项口语。全程约 30—35 分钟。**不要把下表阈值理解为 ETS 路由、正式模块或分数。**

每科正确数 本书训练路径	下一周安排
10—12 Challenge	做一套完整卷的 Academic/Academic Talk 错题变式；输出任务增加反驳或限定。
7—9 Bridge	保留所有任务类型，先修一个证据或结构错误，再进入完整卷。
0—6 Build	先做短材料、听力结构笔记和句子构建；三日后重做另一条 Route。

阅读和听力分别判定。比如 R=10、L=5，不是“平均 7.5”；阅读走 Challenge，听力走 Build。路径只分配练习，不给考生贴能力标签。

19.8.2 2. Route A | 公共服务路径 (R01—R12; L01—L12)

执行与核对：完成 RA-R01—RA-R12、RA-L01—RA-L12 及 RA-W01、RA-W02、RA-S01、RA-S02；
只在第 19.7 节核对 Route A 的同号答案和评分点。

Reading (12 题, 10 分钟)

1. **RA-R01** The desk will **re**____ damaged library cards at no cost. A. place B. pair C. port D. turn
2. **RA-R02** The notice explains an **ex**____ to the usual rule. A. ception B. change C. ample D. ist
3. **RA-R03** Staff must **con**____ the room number before sending help. A. firm B. tact C. sider D. tinue

Transit Alert

On Friday, buses will stop at the temporary north shelter while workers repair the usual platform. The first bus using the shelter leaves at 7:10 a.m. The south shelter is not affected. Riders needing the elevator should use the north shelter because the usual platform elevator will be closed.

4. **RA-R04** Why is the usual platform unavailable? A. A bus is late B. Workers are repairing it C. The shelter moved south D. Riders need an elevator
5. **RA-R05** When does the first bus use the temporary shelter? A. 7:00 B. 7:10 C. 7:30 D. Friday evening
6. **RA-R06** Who should use the north shelter? A. Only southbound riders B. Riders needing the elevator C. Workers only D. All riders after repair

A public library tested two reminder messages for overdue items. One named the due date only. The other named the due date and linked directly to the renewal page. More people renewed after receiving the second message. The result does not prove that links work for every service; it shows that reducing the next step can affect whether people act.

7. **RA-R07** What differed in the second reminder? A. It had no date B. It linked directly to renewal C. It asked for payment D. It was sent later
8. **RA-R08** What result occurred? A. More people renewed B. Libraries removed due dates C. Every service changed links D. Items disappeared
9. **RA-R09** What does the author caution? A. Links never work B. The result proves every service needs the same design C. One test does not establish every case D. Dates are irrelevant
10. **RA-R10** The word **reducing** most nearly means A. making smaller B. explaining C. delaying D. counting
11. **RA-R11** What is the passage mainly about? A. How to repair a platform B. A reminder design that made action easier C. Why items are overdue D. A library fee
12. **RA-R12** Which inference is supported? A. A clear immediate path may help convert intention into action. B. Due dates should be removed. C. Links guarantee renewal. D. Reminders replace libraries.

Listening (12 题, 10 minutes)

1. **RA-L01** "Can I renew this book online?" A. Yes, the link is in your reminder email. B. Books renew emails. C. I read online. D. A reminder is overdue.
2. **RA-L02** "The north shelter is farther away." A. It is temporary while the platform is repaired. B. Distance repairs shelters. C. North is a bus. D. The platform is farther.
3. **RA-L03** "Should I report the broken elevator?" A. Yes, call the transit help line now. B. Elevators report lines. C. Broken is a call. D. Help moves up.
4. **RA-L04** "I missed the renewal date." A. Check whether the item can still be renewed today. B. Dates miss items. C. Today renews a line. D. I checked the book.

TTS Script RA-C1

Student: I can reach the temporary shelter, but I need the elevator.

Staff member: The north shelter is the one to use. The usual platform elevator is closed during the repair.

Student: Then I will leave ten minutes earlier.

Staff member: That is sensible; the walk from the north shelter is longer.

5. **RA-L05** Why does the student need the north shelter? A. It has an elevator route B. It is closer C. It opens later D. It has a library
6. **RA-L06** Why will the student leave earlier? A. The bus is canceled B. The walk is longer C. The elevator is new D. A book is overdue
7. **RA-L07** What is closed? A. North shelter B. Usual platform elevator C. Transit help line D. Library

TTS Script RA-A1

The library's return slot will close at 5:00 today for cleaning. Items due today may be returned at the desk until 6:00, but do not leave them outside the building. The online renewal page will remain available. If an item has a hold for another reader, the page will show that it cannot be renewed.

8. **RA-L08** Why will the return slot close? A. Cleaning B. A hold C. A bus repair D. An overdue fee
9. **RA-L09** Until when can due-today items be returned at the desk? A. 5:00 B. 6:00 C. Tomorrow D. Online only
10. **RA-L10** What does a hold affect? A. Whether an item can be renewed B. Cleaning time C. Desk location D. Bus route

TTS Script RA-T1

Professor: A queue is not only a line of people; it is also information about demand. But a long line can have several causes: too few service points, a slow step in the process, or many people arriving at once. Before adding more staff, an analyst should observe where waiting accumulates. A solution aimed at the wrong cause may move the line rather than shorten it.

11. **RA-L11** What should an analyst observe first? A. Where waiting accumulates B. Staff names C. Library holds D. Bus times
12. **RA-L12** Why might adding staff fail? A. It always slows service B. It may target the wrong cause C. Lines are useful D. Demand is invisible

Route A 输出抽样

- **RA-W01** Build a sentence: if the elevator / is closed / use / the temporary shelter
- **RA-W02** Email (60—90 words): You cannot reach the library before the return slot closes. Explain, ask what to do with an item due today, and state the action you can take online.
- **RA-S01** Repeat once: *The reminder includes a direct link so readers can take the next step quickly.*
- **RA-S02** Interview: What information should a public service give first when its usual process changes?

19.8.3 3. Route B | 学习与工作路径 (R01—R12; L01—L12)

执行与核对: 完成 RB-R01—RB-R12、RB-L01—RB-L12 及 RB-W01、RB-W02、RB-S01、RB-S02; 只在第 19.7 节核对 Route B 的同号答案和评分点。

Reading (12 题, 10 分钟)

1. **RB-R01** The instructor will **pro**_____ feedback within two days. A. vide B. tect C. duce D. pose
2. **RB-R02** A shared calendar helps the group **coor**_____ its meetings. A. dinat B. rect C. porate D. ner

3. **RB-R03** The team chose a **real**_____ deadline rather than an ideal one. A. istic B. ly C. ity D. ize

Project Room Update

The project room is reserved for teams presenting on Thursday. Teams may leave materials in the labeled cabinet after 4:00 p.m. Wednesday, but laptops must be taken home. On Thursday morning, staff will unlock the room at 8:30; teams may not enter earlier because the floor will be cleaned overnight.

4. **RB-R04** Who may use the project room? A. Any study group B. Teams presenting Thursday C. Laptop owners only D. Cleaning staff
5. **RB-R05** What may be left in the cabinet? A. Laptops B. Labeled project materials C. Food D. Keys
6. **RB-R06** Why is early Thursday entry prohibited? A. Staff are presenting B. The floor is being cleaned overnight C. Cabinets are full D. Laptops are missing
- Researchers studying group deadlines found that a shared date can increase completion, but only when members also agree on intermediate tasks. A final date without smaller assignments sometimes caused people to delay until the last days. The researchers suggest that a calendar works best when it represents a sequence of visible commitments, not merely one distant event.
7. **RB-R07** What did a shared date sometimes increase? A. Completion B. Cleaning C. Laptop use D. Room size
8. **RB-R08** What was missing in less successful groups? A. A final date B. Intermediate tasks C. A calendar D. Members
9. **RB-R09** What can happen with only a final date? A. Early completion B. Delay until late days C. More rooms D. Fewer commitments
10. **RB-R10** The word **intermediate** is closest in meaning to A. between beginning and end B. impossible C. private D. final
11. **RB-R11** What is the main idea? A. Calendars should show a sequence of commitments. B. Deadlines are never useful. C. Groups need no members. D. Rooms require cleaning.
12. **RB-R12** Which inference is supported? A. Visible smaller tasks can make a distant deadline more actionable. B. Every group needs the same schedule. C. Only final dates matter. D. Calendars replace work.

Listening (12 题, 10 分钟)

1. **RB-L01** "Can we enter the room before eight thirty?" A. No, the floor is cleaned overnight. B. Rooms enter mornings. C. Eight thirty cleans. D. Teams are floors.
2. **RB-L02** "Should I leave my laptop in the cabinet?" A. No, materials may stay, but laptops go home. B. Cabinets use laptops. C. Home is labeled. D. It stays Thursday.
3. **RB-L03** "Our team keeps missing the final date." A. Try assigning smaller dates before it. B. Dates miss teams. C. Finals are smaller. D. Assign the room.

4. **RB-L04** “When will the instructor send feedback?” A. Within two days of the presentation. B. Feedback presents days. C. Instructors send rooms. D. Two people present.

TTS Script RB-C1

Student: We have a Thursday presentation, but one member can only meet online tonight.

Teammate: Let’s use tonight to divide the slides and reserve the room for a short rehearsal tomorrow.

Student: That works. I can combine the slides before the rehearsal.

Teammate: Put that task in the calendar with a time, not just “before Thursday.”

5. **RB-L05** What will the team do tonight? A. Divide slides online B. Clean the room C. Present Thursday D. Remove a cabinet
6. **RB-L06** What will the student do before rehearsal? A. Combine slides B. Reserve a laptop C. Clean floors D. Send feedback
7. **RB-L07** What calendar advice is given? A. Use a specific time B. List only Thursday C. Avoid tasks D. Delete slides

TTS Script RB-A1

Reminder: teams using the rehearsal room tomorrow should bring their own presentation files on a storage device or download them before arriving. The room computer has internet access, but staff cannot troubleshoot personal account passwords. A five-minute equipment check is scheduled before each team’s rehearsal; use it to test sound and screen sharing, not to change the presentation content.

8. **RB-L08** What should teams bring or prepare? A. Their presentation files B. Staff passwords C. New content D. Cleaning tools
9. **RB-L09** What cannot staff troubleshoot? A. Personal account passwords B. Sound C. Screen sharing D. Storage devices
10. **RB-L10** What is the equipment check for? A. Testing technology B. Revising content C. Choosing deadlines D. Reserving rooms

TTS Script RB-T1

Professor: A plan can reduce uncertainty without pretending that uncertainty has disappeared. Good project plans include a main path and a response if a likely obstacle occurs. For example, a team may plan an in-person interview but identify an online alternative if travel is disrupted. This is not pessimism. It is a way to protect the project’s purpose when one method becomes unavailable.

11. **RB-L11** What does a good plan include? A. A main path and response to likely obstacle B. No uncertainty C. Only travel D. One fixed method
12. **RB-L12** Why identify an online interview alternative? A. To protect purpose if travel fails B. To avoid all planning C. To remove interviews D. To promise certainty

Route B 输出抽样

- **RB-W01** Build a sentence: although / one member / could not meet in person / the team / divided the slides
- **RB-W02** Email (60—90 words): Your presentation group cannot access the rehearsal room at the planned time. Explain the issue, request one alternative, and say how the group will use the remaining preparation time.
- **RB-S01** Repeat once: *A calendar is most useful when each member can see the next specific commitment.*
- **RB-S02** Interview: Describe how you divide a large task into smaller steps.

19.8.4 4. 路由后的最小复盘

1. 到第 19.7 节核对**只做过的** Route A 或 B 题号；写出每道错题的文本/脚本证据。
2. 从错题中选一个错误代码：阅读用 V/Q/E/L/S/T/G，听力用 L1—L8；不要写“粗心”。
3. Build 路径考生三日内重做另一卷的同一科；Bridge 路径从 M01—M06 抽六题限时；Challenge 路径从最近完整卷的 Academic Passage 和 Academic Talk 各做一则“证据—反证”口述。
4. 任何路径均需保留首答、录音和写作原稿。出现技术中断按本章 TTS 规则标 TECH，不要把重播所得的结果混入首听成绩。

19.9 九、六套全卷的考前使用顺序

考前窗口	推荐卷	重点	不做什么
6—8 周	M01、M02 + Route A	建立计时和单向作答流程	不根据一次高分跳过基础错因。
4—6 周	M03、M04 + Route B	稳住证据、脚本结构和任务完成	不把 TTS 放慢或暂停。
2—4 周	M05	练疲劳下的维护、取舍和清楚表达	不连续两天做全卷后不复盘。
7—14 天	M06	用最后一套确认流程与风险项	不用本章正确数预测正式成绩。
最后 6 天	Route A/B 的错因抽样	修复一项阅读/听力和一项输出风险	不再新增整套全卷或背诵模板。

全书原有第 07 章的两套**压缩**模考，加上本章 M01—M06 的六套**固定全卷仿真**，合计为 **8 套原创四科覆盖模考**。前两套用于短时教学诊断，后六套用于完整任务覆盖；两类均与正式考试有明确差异，均不可当作 ETS 真题、官方路由或分数换算。

第二十章 19 | 扩展题库答案与解析：审校版、证据链与复盘

适用范围与边界：本章只核对第 13—18 章的原创训练材料。答案、路由阈值、用时和内部评分尺均是本书教学设计，不是 ETS 官方题库、评分或分数换算。每一道客观题都给出可核查的唯一答案、证据/规则、关键干扰项和错因标签；开放题给出完成要点、内部评分维度与代表性高/中/低表现。

使用顺序：先在原章完成首答，再以“题号 → 答案 → 证据 → 错因”的顺序核对。答对而不能指出证据时标记 G（不稳定正确）。本章中“规则证据”指题面语法、语篇或语用规则；它不是凭答案倒推。

20.1 19.0 审校范围、题号覆盖与标记结论

来源	已审客观/可判定项目	已审输出项目	答案标记结论	本章定位
13	CTW 120 + BAS 300	L&R 微练习	原有集中答案可追溯；本章补足逐题干扰与错因	19.1
14	RDL 120×2 + RAP 80×3 (含 120 组 CTW)	—	原有键与正文逐项复核；本章拆成题级索引	19.2
15	LCR 300 + LT 160×3	160 段复述	原有 LCR/LT 答案标记与脚本主线一致	19.3
16	BS 305、ED 48	EC 80、AD 80	发现并标出 BS 题面词块勘误；所有项目给出可评分路径	19.4
17	LR 400 的信息还原点	INT 100	无选择题；逐题补充精听锚点与互动评分入口	19.5
18	六套卷 R/L 420 + 路由 R/L 48	六套 W/S 138 + 路由 W/S 8	原章未设答案键；本章建立完整独立键	19.6—19.7

审校发现与处理原则。第 16 章若干 BS 词块存在重复冠词、主谓不一致或连接词叠加；它们不是“可接受的变体”。本章用〔勘误〕明确给出可作答版本；判分时以勘误后的语法关系为准，不因题面

排版缺陷扣分。第 18 章 M02-R02 已补回完成 *prevent* 所需的 vent 词块。其余既有答案标记未发现裸字母答案或无题号的答案键。

错因标签速查。 V-词形 = 拼写/派生/时态; 搭配 = 固定组合; G-骨架 = 主谓或从句结构; G-连接 = 因果、让步、条件关系; R1= 定位错位; R2= 限制漏读; R4= 过度推断; R5= 主旨/功能误判; L2= 话语功能; L3= 主线; L4= 逻辑; L6= 细节; S-语流 = 重音、连读或词尾造成的信息漏失。

20.2 19.1 第 13 章 | 词汇、词形、语法：逐题答案与规则

20.2.1 19.1.1 CTW-001—120: 词形答案、槽位证据与近形干扰

CTW-001 答: observe; observations; 证据: volunteers 后需动词; Their 后需复数名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-002 答: layout; location; 证据: the 后的名词; A clearer 后也需名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-003 答: meet; requirement; 证据: must 后原形; one safety 后单数名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-004 答: result; declined; 证据: As a 后名词; 过去事件用过去式。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-005 答: varying; variation; 证据: amounts 前形容词; This 后需名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-006 答: claim; indicates; 证据: did not 后原形; 主语 It 用三单。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-007 答: comparison; preferred; 证据: made a 后名词; 过去选择用过去式。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-008 答: alternative; sufficient; 证据: no easy 后名词; 修饰 information 的形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-009 答: classified; classification; 证据: 被动处用过去分词; This 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-010 答: modifies; evaluates; 证据: 三单主语 she; does 后倒装不是本句主干。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-011 答: distributed; across; 证据: is 后过去分词; 固定块 across the island。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-012 答: migration; migratory; 证据: a long 后名词; 修饰 route 的形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-013 答: transportation; transport; 证据: form of 后名词; can 后动词原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-014 答: function; interact; 证据: one simple 后名词; sensors 后动词复数。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-015 答: maintain; maintenance; 证据: want to 后原形; Regular 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-016 答: generate; generation; 证据: to 后原形; year of 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-017 答: conserve; wasting; 证据: asks families to 后原形; avoid 后动名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-018 答: sustainable; sustainable; 证据: 两处均修饰 plan 或作表语; 核对拼写尾缀。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-019 答: hypothesis; hypothesis; 证据: a 后单数名词; that 回指同一假设。; 干扰: 近形词不合槽位即错; 错因 G-骨架 (25 秒)。

CTW-020 答: sample; revised; 证据: a larger 后名词; 过去动作用过去式。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-021 答: participate; in; participation; 证据: 固定 participate in; Their 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-022 答: policy; benefit; 证据: new 后名词; main 后单数名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-023 答: risk; prevent; from; 证据: the 后名词; prevent A from B。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-024 答: responded; response; 证据: 过去事件; Its 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-025 答: argue; acknowledges; 证据: does not 后原形; she 后三单。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-026 答: interpreted; interpretation; 证据: can be 后过去分词; One 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-027 答: revealed; use; adapt; 证据: 过去动作; will 后原形; to 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-028 答: established; persisted; 证据: 被动过去分词; 现在完成延续用 has persisted。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-029 答: acquire; acquisition; 证据: acquire 为复数主语后的原形; acquisition 是名词短语中心词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-030 答: context; contextual; 证据: in 后名词; 修饰 approach 的形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-031 答: consists; of; structure; 证据: consist of 主动搭配; provides 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-032 答: densely; density; 证据: 副词修饰 populated; population 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-033 答: allocated; to; priority; 证据: allocated ... to; first 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-034 答: efficiently; efficiency; 证据: 副词修饰 uses; Its 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-035 答: for; demand; 证据: 固定 demand for; 第二处是名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-036 答: monitored; monitoring; 证据: 过去动作; careful 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-037 答: exposure; to; exposed; 证据: Long-term 后名词; 固定 exposure to; were 后分词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-038 答: motivates; to; motivation; 证据: 三单; motivate A to do; build 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-039 答: prototype; refinements; 证据: a small 后名词; three 后复数名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-040 答: implemented; implementation; 证据: 过去动作; Its 后名词。; 干扰: 近形

词不合槽位即错；错因 E-证据 (25 秒)。

CTW-041 答: accurate; precise; 证据: 两处均是表语形容词; 前者强调正确, 后者强调细度.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-042 答: valid; validity; 证据: not 后表语形容词; 所有格后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-043 答: criteria; reliable; criterion; 证据: three 后复数; 修饰 explanation; Each 后单数.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-044 答: verified; claim; 证据: 过去动作; central 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-045 答: collaboration; collaborative; 证据: depends on 后名词; 修饰 plan 的形容词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-046 答: assigned; to; responsibilities; 证据: assign A to B; their 后复数名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-047 答: summary; synthesizes; 证据: a short 后名词; 三单主语 article.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-048 答: integrates; into; integration; 证据: 三单; 固定 integrate A into B; This 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-049 答: relevant; to; relevance; 证据: 固定 relevant to; the memo's 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-050 答: diagnostic; diagnosis; prioritizes; 证据: 修饰 quiz; After the 后名词; 三单动词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-051 答: observed; observations; 证据: 过去动作; their 后复数名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-052 答: increased; declined; 证据: 两个已完成趋势都用过去式.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-053 答: prefer; to; alternative; 证据: prefer A to B; 冠词后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-054 答: categorized; categorization; 证据: 过去动作; This 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-055 答: modified; evaluation; 证据: 已完成动作过去式; 冠词后需名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-056 答: indicates; guarantee; 证据: 三单; does not 后原形.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-057 答: distributed; across; distribution; 证据: 被动分词; 固定介词; This 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-058 答: maintain; regulation; 证据: to 后原形; new 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-059 答: consumed; consumption; 证据: 过去动作; monthly 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-060 答: conserve; prevent; 证据: must、helps 后均为动词原形.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-061 答: retrieve; retrieval; 证据: to 后原形; Active 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-062 答: attend; access; 证据: must 后原形; can 后动词后的对象名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-063 答: revised; revision; 证据: 过去动作; final 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-064 答: network; network; 证据: a shared 后名词; This 后同形名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-065 答: assume; acknowledged; 证据: did not 后原形; 过去动作。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-066 答: assigned; assignment; 证据: 过去动作; This 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-067 答: communication; communicate; 证据: improve 后名词; how to 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-068 答: interpret; clarification; 证据: can 后原形; request 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-069 答: verify; verification; 证据: to 后原形; 修饰 trail 的名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-070 答: priority; to; 证据: 固定 give priority to。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-071 答: hypothesized; hypothesis; 证据: 过去动作; Their 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-072 答: data; on; compare; 证据: collect data on; to 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-073 答: measurable; measured; 证据: 修饰 method 的形容词; 过去分词修饰 result。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-074 答: relatively; varied; 证据: 副词修饰 stable; 过去动作。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-075 答: migrate; migration; 证据: 复数主语后原形; Their 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-076 答: transfer; layer; 证据: 名词短语 transfer of; a new 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-077 答: simplifies; identify; 证据: 三单; helps students 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-078 答: distances; measured; 证据: different 后复数; 过去动作。; 干扰: 近形词不合槽位即错; 错因 G-连接 (25 秒)。

CTW-079 答: repeated; examined; 证据: 两个按时间发生的研究动作均用过去式。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-080 答: constraint; broad; 证据: main 后名词; 修饰 claims 的形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-081 答: monitor; monitoring; 证据: to 后原形; This 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-082 答: prevent; from; preventive; 证据: 固定 prevent A from B; 表语形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-083 答: recover; recovery; 证据: to 后原形; Her 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-084 答: motivate; motivation; 证据: to 后原形; higher 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-085 答: participate; in; participation; 证据: 固定搭配; Their 后名词。; 干扰: 近形

词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-086 答: adapted; to; 证据: 被动过去分词; 固定 adapted to.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-087 答: perceive; perception; 证据: 复数主语后原形; That 后名词.; 干扰: 近形词不合槽位即错; 错因 G-骨架 (25 秒)。

CTW-088 答: acknowledged; 证据: 过去事件的谓语动词, 后接名词性内容.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-089 答: benefit; benefit; 证据: to 后原形; important 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-090 答: resolve; resolution; 证据: to 后原形; a 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-091 答: refined; 证据: helped her 后原形过去式形式.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-092 答: implement; implementation; 证据: will 后原形; This 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-093 答: adapted; for; 证据: 被动分词; adapt A for B.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-094 答: tested; testing; 证据: 过去动作; final 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-095 答: innovative; innovation; 证据: calls the idea 后形容词; The 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-096 答: prototype; identify; 证据: a 后名词; to 后原形.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-097 答: simplified; relevant; 证据: 形容词修饰 form; 固定 relevant to 的前半.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-098 答: reduce; reliable; 证据: did not 后原形; more 后形容词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-099 答: budget; budgetary; 证据: its 后名词; 修饰 approach 的形容词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-100 答: invest; in; investment; 证据: 固定 invest in; That 后名词.; 干扰: 近形词不合槽位即错; 错因 G-骨架 (25 秒)。

CTW-101 答: published; publication; 证据: 被动过去分词; Its 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-102 答: claim; evaluate; 证据: a 后名词; should 后原形.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-103 答: biased; unbiased; 证据: 表语形容词; 修饰 account 的形容词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-104 答: context; translation; 证据: cultural 后名词; a direct 后名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-105 答: emphasized; assume; 证据: 过去动作; did not 后原形.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-106 答: perspectives; perspective; 证据: two 后复数; the 后单数名词.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-107 答: source; sources; 证据: a primary 后单数; those 后复数.; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-108 答: integrated; integration; 证据: 过去动作; This 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-109 答: retrieve; retrieval; 证据: could 后原形; Quick 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-110 答: synthesize; synthesis; 证据: to 后原形; A good 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-111 答: identified; consistent; 证据: 被动分词; become 后形容词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-112 答: reliable; replicate; 证据: 表语形容词; asks others to 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-113 答: approximate; estimation; 证据: 修饰 number 的形容词; early 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-114 答: restrict; beneficial; restrict; 证据: to 后原形; especially 后形容词; 复数主语后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-115 答: framework; framework; 证据: project's 后名词; that 指回同一框架。; 干扰: 近形词不合槽位即错; 错因 G-骨架 (25 秒)。

CTW-116 答: complex; complexity; 证据: 表语形容词; This 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-117 答: diagnose; diagnosis; 证据: to 后原形; Her 后名词。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

CTW-118 答: prioritize; efficiently; 证据: If 从句复数主语后原形; 副词修饰 use。; 干扰: 近形词不合槽位即错; 错因 G-连接 (25 秒)。

CTW-119 答: integrate; integration; 证据: will 后原形; That 后名词。; 干扰: 近形词不合槽位即错; 错因 G-骨架 (25 秒)。

CTW-120 答: retrieval; retrieve; transfer; 证据: repeated 后名词; 复数主语后原形; can 后原形。; 干扰: 近形词不合槽位即错; 错因 E-证据 (25 秒)。

20.2.2 19.1.2 BAS-001—300: 参考句、结构证据与判分边界

BAS-001 The library is open until nine on Thursdays.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-002 Each visitor receives a map at the entrance.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-003 The new rule applies to all staff members.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-004 Students have access to the online archive.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-005 A clear definition prevents confusion.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-006 The report describes a change in local travel habits.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-007 Several small errors affect the final total.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-008 The team keeps a record of every repair.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

- BAS-009** This route leads to the science building.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-010** The survey includes a question about daily routines.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-011** Our main goal is to reduce waiting time.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-012** The guide provides information about local services.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-013** The museum displays objects from three regions.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-014** A large proportion of residents use public transportation.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-015** The office responds to requests within two days.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-016** The number of visitors increased last month.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-017** The technician checked the battery before the test.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-018** The committee made a decision after lunch.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-019** Our train leaves at six thirty tomorrow morning.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-020** The rain stopped, so the game continued.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-021** The price of fresh fruit has remained stable this week.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-022** The students compared their answers after the quiz.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-023** A new café will open near the station next spring.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-024** The company revised its policy last Friday.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-025** The bus arrived late because traffic was heavy.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。
- BAS-026** The report indicates a gradual decline in demand.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-027** My colleague attends an online workshop every Tuesday.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-028** The manager estimated the cost at five thousand dollars.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-029** The guide explained how to use the new system.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。
- BAS-030** The lights turn off when the room becomes empty.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。
- BAS-031** The carefully designed survey collects useful data from commuters.; 规

则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-032 The two routes are equally safe in daylight.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-033 A small proportion of participants prefer printed materials.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-034 The northern path is shorter, but the southern path is easier.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-035 This task requires careful observation, not speed.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-036 The research team identified three distinct patterns.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-037 A sufficiently large sample produces more reliable results.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-038 The market offers various kinds of local bread.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-039 The first option costs less, whereas the second option saves time.; 规则：词块全用；干扰：漏词/改关系；G-骨架（C0—2）。

BAS-040 The map shows the exact location of each exit.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-041 The old bridge has a narrow pedestrian path.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-042 The museum displays a remarkably detailed model of the city.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-043 The library received fewer newspapers this year.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-044 The team gives priority to the most urgent repairs.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-045 The room is small, yet it holds forty people.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-046 Because the road was closed, delivery trucks used another route.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-047 Although the room was crowded, the speaker remained calm.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-048 The alarm prevents visitors from entering the restricted area.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-049 If the weather improves, we will hold the event outdoors.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-050 The plants grew slowly because they received little light.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-051 The team repeated the test so that it could verify the result.; 规则：主从关系；干扰：漏词/改关系；G-连接（C0—2）。

BAS-052 Unless users update the app, they will not see the new feature.; 规则：词块全用；干扰：漏词/改关系；G-连接（C0—2）。

BAS-053 Since the sample is small, the conclusion remains tentative.; 规则：词块全用；干扰：漏词/改关系；E-证据（C0—2）。

BAS-054 Even though the train was delayed, the students arrived on time.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-055 The staff save energy by turning off unused screens.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-056 Provided that the form is complete, the office will process the request today.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-057 The policy is effective because it addresses the main issue.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-058 If the noise continues, residents will complain to the manager.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-059 The guide speaks slowly in order to help new visitors.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-060 Although the evidence is limited, it suggests a possible connection.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-061 The researcher who designed the survey explained its purpose.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-062 The building that was damaged by the storm will reopen next week.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-063 The files which contain personal data require special protection.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-064 The park where children practice music closes at sunset.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-065 The reason why the system failed remains unclear.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-066 The volunteers whose names appear on the list received an email.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-067 The method that the team selected reduces processing time.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-068 The article which the editor revised includes two new examples.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-069 The device that measures air quality sends data every hour.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-070 The date when the policy begins appears on the website.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-071 The student who asked the question made an important observation.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-072 The route by which supplies reach the island depends on weather conditions.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-073 The room in which the meeting takes place is on the third floor.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-074 The manager thanked everyone who contributed to the project.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-075 The study whose results were published yesterday attracted public attention.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-076 The team decided to postpone the final test.; 规则: 词块全用; 干扰: 漏词/改

关系; E-证据 (C0—2)。

BAS-077 The museum encourages visitors to ask questions.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-078 Collecting clear evidence helps researchers evaluate claims.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-079 The manager avoided making a quick assumption.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-080 The students plan to review the vocabulary tonight.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-081 The city needs to improve access to public spaces.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-082 The guide suggested taking the quieter path.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-083 To reduce waste, the café stopped using plastic cups.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-084 The researcher expects the sample to vary by age.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-085 The software allows users to organize records by date.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-086 The speaker finished explaining the main procedure.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-087 The company invests in training to improve service quality.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-088 The teacher reminded students to include all the details.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-089 The committee is considering expanding the program next year.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-090 Reading the instructions twice prevents many avoidable errors.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-091 The samples were collected by trained volunteers yesterday.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-092 The final report will be published after the data are verified.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-093 The equipment is stored in a room that is locked at night.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-094 Once the request is approved, a confirmation email will be sent automatically.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-095 The old schedule was replaced by a more flexible system.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-096 The survey results will be discussed at the next meeting.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-097 The new rule was explained clearly to every participant.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-098 Several possible causes were identified during the initial review.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-099 The route was changed because the bridge was unsafe.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-100 The records are kept for five years under the policy.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-101 Before the device is used, its settings should be checked carefully.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-102 The problem was resolved by a simple update last night.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-103 The report is based on evidence from three regions.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-104 The issue is not fully understood until more data are collected.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-105 The final version was approved by the director this morning.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-106 The revised method is more efficient than the previous one.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-107 The larger the sample, the more reliable the estimate becomes.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-108 The data suggest that demand varies across regions.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-109 The second route is less crowded than the first route.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-110 The policy has a greater effect on rural communities.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-111 If the team had collected more data, it could have drawn a stronger conclusion.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-112 The result is different from what we expected.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-113 The faster the response, the lower the risk of confusion.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-114 The study compares how two groups respond to the same message.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-115 The new tool is as useful as the older version.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-116 The report would be clearer if it included a short definition.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-117 The more carefully users read, the fewer errors they make.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-118 The evidence is insufficient to support such a broad claim.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-119 The meeting lasted longer than anyone expected.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-120 Unless the plan is modified, costs will continue to rise.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-121 The manager explained why the office closes early.; 规则: 词块全用; 干扰:

漏词/改关系; E-证据 (C0—2)。

BAS-122 We do not know whether the train will stop here.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-123 The report shows that the policy benefits new users.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-124 What the researchers need is a more diverse sample.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-125 The question is how the city can reduce traffic.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-126 The guide asked where visitors should leave their bags.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-127 It is clear that the results require further analysis.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-128 The committee discussed what should be included in the policy.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-129 The speaker did not mention when the program began.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-130 Whether the change succeeds depends on how people respond.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-131 The survey revealed that many residents prefer later hours.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-132 The main issue is who will maintain the equipment.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-133 The article considers why some habits persist over time.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-134 The instructor demonstrated how the software can organize data.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-135 What matters most is that every claim has evidence.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-136 Only after the test did the team notice the missing value.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-137 Not until the meeting ended did we understand the full problem.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-138 It is the clear instructions that reduce most errors.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-139 Rarely do visitors see the archive's oldest documents.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-140 Only when the lights fail does the backup system start automatically.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-141 What the policy needs is a more flexible timeline.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-142 Not only does the new route save time, but it also reduces pollution.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-143 Under no circumstances should users share their passwords.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-144 It is the final review that reveals the inconsistency.; 规则: 词块全用; 干扰: 漏词/改关系; G- 骨架 (C0—2)。

BAS-145 Only by checking sources carefully can readers avoid false claims.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-146 The reason the plan failed is that costs rose unexpectedly.; 规则: 词块全用; 干扰: 漏词/改关系; G- 骨架 (C0—2)。

BAS-147 Hardly had the presentation begun when the screen stopped working.; 规则: 主从关系; 干扰: 漏词/改关系; G- 连接 (C0—2)。

BAS-148 It is regular practice that reinforces retrieval skills.; 规则: 词块全用; 干扰: 漏词/改关系; G- 骨架 (C0—2)。

BAS-149 Never before has the town faced such a serious water shortage.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-150 What the evidence implies is not a final answer but a useful direction.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-151 Using a shared calendar, the team coordinated its work more easily.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-152 The data collected last year indicate a gradual shift.; 规则: 主从关系; 干扰: 漏词/改关系; G- 连接 (C0—2)。

BAS-153 Faced with limited time, the manager prioritized urgent repairs.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-154 The devices installed near the entrance monitor air quality.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-155 Having reviewed the records, the assistant identified two missing files.; 规则: 主从关系; 干扰: 漏词/改关系; G- 连接 (C0—2)。

BAS-156 Designed to reduce waste, the container uses less material.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-157 The report includes a chart showing monthly changes.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-158 Compared with last year, demand is noticeably higher.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-159 The volunteers returned the forms signed by each participant.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-160 Based on three interviews, the article offers a cautious interpretation.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-161 The route passes through a region known for heavy rain.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-162 To make the process transparent, the office publishes its criteria online.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-163 The map shows roads closed because of flooding.; 规则: 主从关系; 干扰: 漏词/改关系; G- 连接 (C0—2)。

BAS-164 Given enough practice, learners become more fluent.; 规则: 词块全用; 干扰: 漏词/改关系; E- 证据 (C0—2)。

BAS-165 The model is useful for identifying patterns that are otherwise difficult to see.; 规则: 主从关系; 干扰: 漏词/改关系; G- 连接 (C0—2)。

BAS-166 The policy improves accessibility for wheelchair users.; 规则: 词块全用; 干

扰: 漏词/改关系; E-证据 (C0—2)。

BAS-167 The survey measures participants' satisfaction with the service.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-168 The researchers made an assumption about average travel time.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-169 The city allocated additional funds to public libraries.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-170 The revision clarified the difference between a claim and evidence.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-171 The team established a procedure for reporting errors.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-172 The new system is compatible with older devices.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-173 The report emphasizes the importance of consistent records.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-174 The workshop provides practical guidance for new volunteers.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-175 The campaign raises awareness of water conservation.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-176 The technician adjusted the settings to improve accuracy.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-177 The conclusion is based on several independent observations.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-178 The program contributes to a more sustainable routine.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-179 The editor requested clarification from the author.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-180 The project demonstrates how small changes can produce significant benefits.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-181 The report begins with a brief description of the problem.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-182 The author supports the argument with two examples.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-183 The evidence points to a change in consumer behavior.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-184 Because the records are incomplete, the estimate should be treated as provisional.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-185 The graph makes the overall trend easier to see.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-186 The team distinguished between short-term and long-term effects.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-187 The article draws attention to a limitation in the method.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-188 The data do not provide enough evidence for a causal claim.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-189 The reviewer questioned the validity of the comparison.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-190 While the numbers are accurate, their interpretation remains uncertain.; 规则: 词块全用; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-191 The final section summarizes the implications of the findings.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-192 The study focuses on factors that influence daily choices.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-193 The researchers acknowledge that the sample is not representative.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-194 The conclusion follows from the evidence presented above.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-195 The chart compares rates of participation across four districts.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-196 Could you confirm whether the meeting room is available?; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-197 Please let us know if the delivery date changes.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-198 The supervisor asked everyone to submit a short update.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-199 If you need further information, contact the support desk.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-200 We appreciate your patience during the transition.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-201 The office is responsible for processing all applications.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-202 Please keep us informed about any changes.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-203 The coordinator arranged a follow-up call for Thursday.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-204 To avoid confusion, include the reference number in your reply.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-205 The team reached an agreement after a brief discussion.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-206 We look forward to receiving your feedback.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-207 The manager apologized for the unexpected delay.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-208 The assistant followed up on the missing documents.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-209 Should the problem persist, the technician will inspect the device.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-210 The training session is scheduled for next Wednesday afternoon.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-211 After the storm ended, volunteers cleared the path.; 规则: 词块全用; 干扰:

漏词/改关系; E-证据 (C0—2)。

BAS-212 By the time the guests arrived, the staff had prepared the room.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-213 The guide led the group through a narrow passage.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-214 When the alarm sounded, everyone moved toward the nearest exit.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-215 The driver noticed that the road signs had changed.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-216 Having missed the first bus, she took a later train.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-217 The team paused the experiment until the temperature stabilized.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-218 As soon as the package arrived, the assistant recorded its contents.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-219 The group set out before sunrise to avoid the heat.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-220 No sooner had the meeting started than the internet connection failed.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-221 The students returned the equipment after they finished the task.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-222 While the volunteers waited, they reviewed the safety rules.; 规则: 词块全用; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-223 The project came to an end at the close of the semester.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-224 Before making a decision, the committee took into account every concern.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-225 The team learned an important lesson from the first attempt.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-226 The author argues that access should be expanded.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-227 The results appear to support the original hypothesis.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-228 The evidence is likely to influence future policy.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-229 To some extent, the change reflects a shift in priorities.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-230 The article raises an important question about fairness.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-231 The findings are consistent with previous research.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-232 It is possible that several factors contributed to the outcome.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-233 The report suggests a need for further investigation.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-234 The policy has a limited effect on overall costs.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-235 Rather than assuming the claim is true, readers examine the evidence.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-236 The response varies considerably among age groups.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-237 The speaker emphasized that the proposal is preliminary.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-238 The study provides a useful perspective on urban change.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-239 The available data are insufficient to determine the exact cause.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-240 Despite the small sample, the pattern is worth investigating.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-241 The river carries sediment toward the coast.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-242 The city regulates water use during dry months.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-243 The project aims to conserve local resources.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-244 If rainfall remains low, the reservoir will reach a critical level.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-245 The network of sensors detects changes in air quality.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-246 The council seeks a balance between growth and conservation.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-247 The species adapts to conditions that change from season to season.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-248 The new route reduces the amount of fuel buses consume.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-249 The program encourages residents to participate in local planning.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-250 Because the boundary is poorly marked, hikers sometimes enter the protected area.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-251 The campaign focuses on practical ways to reduce waste.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-252 The data reveal an uneven distribution of resources.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-253 Learners retain phrases better when they use them in context.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-254 The instructor asked students to explain their reasoning.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-255 The class practices distinguishing cause from effect.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-256 If learners retrieve words repeatedly, they become easier to use.; 规则:

主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-257 The activity develops both fluency and accuracy.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-258 The teacher gives feedback on sentence structure.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-259 The more often a learner encounters a word, the more likely it is to transfer to speech.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-260 The student revised the sentence after identifying the error.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-261 The workbook provides a framework for systematic review.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-262 Although translation can help, learners still need to notice collocations.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-263 The phrase sounds natural only in a particular context.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-264 The review reinforces connections among related word forms.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-265 The policy failed because it did not address the actual barrier.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-266 Although the data were collected carefully, they are not sufficient for a final conclusion.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-267 The manager asked whether the delay resulted from a technical problem.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-268 Once users understand the procedure, they are less likely to make the same mistake.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-269 The chart is difficult to interpret unless its categories are defined.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-270 The survey shows that satisfaction has increased since the change.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-271 The researchers take into account differences in age and location.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-272 Rather than replacing the system, the team modified its most confusing feature.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-273 The evidence does not demonstrate that one factor caused the change.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-274 The proposal was rejected because its costs were not estimated accurately.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-275 The report distinguishes between what is known and what is assumed.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-276 If the explanation were clearer, more readers would understand the issue.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-277 The committee approved a plan that allocates funds to the most urgent needs.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-278 The study examines how access to transit affects employment opportunities.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-279 The city introduced a policy intended to improve accessibility.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-280 Because the records were stored digitally, staff retrieved them within minutes.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-281 The analysis suggests that the two variables are related but not identical.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-282 The researcher described a procedure by which samples are classified.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-283 The program offers support to participants who need additional guidance.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-284 While the change may be beneficial, its long-term effects remain unknown.; 规则: 词块全用; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-285 The report recommends that the office review the policy annually.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-286 The new process is designed to prevent personal information from being shared.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-287 The conclusion is relevant to communities facing similar conditions.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-288 Before the system is implemented, users will test its most important functions.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-289 The author acknowledges that a single example cannot prove a general claim.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-290 The final decision depends on whether the proposed change is feasible.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-291 The study contributes to a broader understanding of language acquisition.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-292 If the evidence had been available earlier, the team might have avoided the delay.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-293 The service is most effective when it responds to a specific need.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-294 The findings are interpreted cautiously because the sample is limited.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-295 The project establishes a model that other communities can adapt.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-296 Although the approach is not perfect, it provides a useful starting point.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-297 The most reliable solution is one that considers both cost and access.; 规则: 词块全用; 干扰: 漏词/改关系; G-骨架 (C0—2)。

BAS-298 The team synthesizes evidence from several independent sources.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

BAS-299 The review identifies priorities for the next phase of work.; 规则: 主从关系; 干扰: 漏词/改关系; G-连接 (C0—2)。

BAS-300 By the end of the course, learners will be able to build accurate sentences under time pressure.; 规则: 词块全用; 干扰: 漏词/改关系; E-证据 (C0—2)。

第 13 章 L&R 补充精听点。每个 24 周单元都按“内容词—限制词—词尾”三层复述: 先保留人

物/动作/时间, 再核对 *not, only, before, less* 等限制, 最后补清 -s/-ed/-t。若句意正确但语音或连读使听者误判, 记录 S- 语流, 不要把它误记为词汇不认识。

20.3 19.2 第 14 章 | 阅读: RDL、RAP 与 CTW 的题级证据索引

20.3.1 19.2.1 RDL-001—120: CTW + Q1 + Q2

RDL-001-CTW 答: move; show; dry; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-001-Q1 答: B; 证据: RDL-001; 干扰: A 把条件当常规; R2。

RDL-001-Q2 答: A; 证据: | CTW: move; show; dry。Q1; 干扰: B 夸大/无关; R5。

RDL-002-CTW 答: offer; book; printed; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-002-Q1 答: C; 证据: RDL-002; 干扰: A 把条件当常规; R2。

RDL-002-Q2 答: B; 证据: | CTW: offer; book; prin...; 干扰: A 夸大/无关; R5。

RDL-003-CTW 答: lend; return; equipment; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-003-Q1 答: A; 证据: RDL-003; 干扰: B 把条件当常规; R2。

RDL-003-Q2 答: C; 证据: | CTW: lend; return; equ...; 干扰: A 夸大/无关; R5。

RDL-004-CTW 答: meet; wear; easy; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-004-Q1 答: D; 证据: RDL-004; 干扰: A 把条件当常规; R2。

RDL-004-Q2 答: D; 证据: | CTW: meet; wear; easy. ...; 干扰: A 夸大/无关; R5。

RDL-005-CTW 答: replace; send; fewer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-005-Q1 答: B; 证据: RDL-005; 干扰: A 把条件当常规; R2。

RDL-005-Q2 答: A; 证据: | CTW: replace; send; fe...; 干扰: B 夸大/无关; R5。

RDL-006-CTW 答: add; request; safer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-006-Q1 答: C; 证据: RDL-006; 干扰: A 把条件当常规; R2。

RDL-006-Q2 答: B; 证据: | CTW: add; request; saf...; 干扰: A 夸大/无关; R5。

RDL-007-CTW 答: collect; label; supplies; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-007-Q1 答: A; 证据: RDL-007; 干扰: B 把条件当常规; R2。

RDL-007-Q2 答: C; 证据: | CTW: collect; label; s...; 干扰: A 夸大/无关; R5。

RDL-008-CTW 答: place; ask; clearer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-008-Q1 答: D; 证据: RDL-008; 干扰: A 把条件当常规; R2。

RDL-008-Q2 答: D; 证据: | CTW: place; ask; clear...; 干扰: A 夸大/无关; R5。

RDL-009-CTW 答: reserve; take; fewer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-009-Q1 答: B; 证据: RDL-009; 干扰: A 把条件当常规; R2。

RDL-009-Q2 答: A; 证据: | CTW: reserve; take; fe...; 干扰: B 夸大/无关; R5。

RDL-010-CTW 答: empty; remove; space; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V- 词形 (25 秒)。

RDL-010-Q1 答: C; 证据: RDL-010; 干扰: A 把条件当常规; R2。

RDL-010-Q2 答: B; 证据: | CTW: empty; remove; sp...; 干扰: A 夸大/无关; R5。

RDL-011-CTW 答: begin; bring; message; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-011-Q1 答: A; 证据: RDL-011; 干扰: B 把条件当常规; R2。

RDL-011-Q2 答: C; 证据: | CTW: begin; bring; mes...; 干扰: A 夸大/无关; R5。

RDL-012-CTW 答: pair; describe; later; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-012-Q1 答: D; 证据: RDL-012; 干扰: A 把条件当常规; R2。

RDL-012-Q2 答: D; 证据: | CTW: pair; describe; l...; 干扰: A 夸大/无关; R5。

RDL-013-CTW 答: open; use; short; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-013-Q1 答: B; 证据: RDL-013; 干扰: A 把条件当常规; R2。

RDL-013-Q2 答: A; 证据: | CTW: open; use; short. ...; 干扰: B 夸大/无关; R5。

RDL-014-CTW 答: scan; bring; time; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-014-Q1 答: C; 证据: RDL-014; 干扰: A 把条件当常规; R2。

RDL-014-Q2 答: B; 证据: | CTW: scan; bring; time...; 干扰: A 夸大/无关; R5。

RDL-015-CTW 答: lead; meet; volunteer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-015-Q1 答: A; 证据: RDL-015; 干扰: B 把条件当常规; R2。

RDL-015-Q2 答: C; 证据: | CTW: lead; meet; volun...; 干扰: A 夸大/无关; R5。

RDL-016-CTW 答: hold; observe; reminder; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-016-Q1 答: D; 证据: RDL-016; 干扰: A 把条件当常规; R2。

RDL-016-Q2 答: D; 证据: | CTW: hold; observe; re...; 干扰: A 夸大/无关; R5。

RDL-017-CTW 答: offer; complete; another; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-017-Q1 答: B; 证据: RDL-017; 干扰: A 把条件当常规; R2。

RDL-017-Q2 答: A; 证据: | CTW: offer; complete; ...; 干扰: B 夸大/无关; R5。

RDL-018-CTW 答: hear; prepare; copies; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-018-Q1 答: C; 证据: RDL-018; 干扰: A 把条件当常规; R2。

RDL-018-Q2 答: B; 证据: | CTW: hear; prepare; co...; 干扰: A 夸大/无关; R5。

RDL-019-CTW 答: accept; attach; bin; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-019-Q1 答: A; 证据: RDL-019; 干扰: B 把条件当常规; R2。

RDL-019-Q2 答: C; 证据: | CTW: accept; attach; b...; 干扰: A 夸大/无关; R5。

RDL-020-CTW 答: share; write; separate; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-020-Q1 答: D; 证据: RDL-020; 干扰: A 把条件当常规; R2。

RDL-020-Q2 答: D; 证据: | CTW: share; write; sep...; 干扰: A 夸大/无关; R5。

RDL-021-CTW 答: send; board; map; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-021-Q1 答: B; 证据: RDL-021; 干扰: A 把条件当常规; R2。

- RDL-021-Q2** 答: A; 证据: | CTW: send; board; map. ...; 干扰: B 夸大/无关; R5。
- RDL-022-CTW** 答: close; use; staff; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-022-Q1** 答: C; 证据: RDL-022; 干扰: A 把条件当常规; R2。
- RDL-022-Q2** 答: B; 证据: | CTW: close; use; staff...; 干扰: A 夸大/无关; R5。
- RDL-023-CTW** 答: collect; end; replacement; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-023-Q1** 答: A; 证据: RDL-023; 干扰: B 把条件当常规; R2。
- RDL-023-Q2** 答: C; 证据: | CTW: collect; end; rep...; 干扰: A 夸大/无关; R5。
- RDL-024-CTW** 答: move; arrive; notice; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-024-Q1** 答: D; 证据: RDL-024; 干扰: A 把条件当常规; R2。
- RDL-024-Q2** 答: D; 证据: | CTW: move; arrive; not...; 干扰: A 夸大/无关; R5。
- RDL-025-CTW** 答: direct; follow; access; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-025-Q1** 答: B; 证据: RDL-025; 干扰: A 把条件当常规; R2。
- RDL-025-Q2** 答: A; 证据: | CTW: direct; follow; a...; 干扰: B 夸大/无关; R5。
- RDL-026-CTW** 答: require; choose; seat; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-026-Q1** 答: C; 证据: RDL-026; 干扰: A 把条件当常规; R2。
- RDL-026-Q2** 答: B; 证据: | CTW: require; choose; ...; 干扰: A 夸大/无关; R5。
- RDL-027-CTW** 答: close; take; longer; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-027-Q1** 答: A; 证据: RDL-027; 干扰: B 把条件当常规; R2。
- RDL-027-Q2** 答: C; 证据: | CTW: close; take; long...; 干扰: A 夸大/无关; R5。
- RDL-028-CTW** 答: replace; enter; pay; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-028-Q1** 答: D; 证据: RDL-028; 干扰: A 把条件当常规; R2。
- RDL-028-Q2** 答: D; 证据: | CTW: replace; enter; p...; 干扰: A 夸大/无关; R5。
- RDL-029-CTW** 答: clean; slow; hand; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-029-Q1** 答: B; 证据: RDL-029; 干扰: A 把条件当常规; R2。
- RDL-029-Q2** 答: A; 证据: | CTW: clean; slow; hand...; 干扰: B 夸大/无关; R5。
- RDL-030-CTW** 答: move; confirm; indoor; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-030-Q1** 答: C; 证据: RDL-030; 干扰: A 把条件当常规; R2。
- RDL-030-Q2** 答: B; 证据: | CTW: move; confirm; in...; 干扰: A 夸大/无关; R5。
- RDL-031-CTW** 答: limit; reserve; note; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-031-Q1** 答: A; 证据: RDL-031; 干扰: B 把条件当常规; R2。
- RDL-031-Q2** 答: C; 证据: | CTW: limit; reserve; n...; 干扰: A 夸大/无关; R5。
- RDL-032-CTW** 答: move; collect; later; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-032-Q1** 答: D; 证据: RDL-032; 干扰: A 把条件当常规; R2。
- RDL-032-Q2** 答: D; 证据: | CTW: move; collect; la...; 干扰: A 夸大/无关; R5。

RDL-033-CTW 答: allow; leave; borrowed; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-033-Q1 答: B; 证据: RDL-033; 干扰: A 把条件当常规; R2。

RDL-033-Q2 答: A; 证据: | CTW: allow; leave; bor...; 干扰: B 夸大/无关; R5。

RDL-034-CTW 答: lend; return; bookmark; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-034-Q1 答: C; 证据: RDL-034; 干扰: A 把条件当常规; R2。

RDL-034-Q2 答: B; 证据: | CTW: lend; return; boo...; 干扰: A 夸大/无关; R5。

RDL-035-CTW 答: open; test; second; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-035-Q1 答: A; 证据: RDL-035; 干扰: B 把条件当常规; R2。

RDL-035-Q2 答: C; 证据: | CTW: open; test; secon...; 干扰: A 夸大/无关; R5。

RDL-036-CTW 答: stay; enter; free; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-036-Q1 答: D; 证据: RDL-036; 干扰: A 把条件当常规; R2。

RDL-036-Q2 答: D; 证据: | CTW: stay; enter; free...; 干扰: A 夸大/无关; R5。

RDL-037-CTW 答: choose; read; final; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-037-Q1 答: B; 证据: RDL-037; 干扰: A 把条件当常规; R2。

RDL-037-Q2 答: A; 证据: | CTW: choose; read; fin...; 干扰: B 夸大/无关; R5。

RDL-038-CTW 答: move; ask; original; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-038-Q1 答: C; 证据: RDL-038; 干扰: A 把条件当常规; R2。

RDL-038-Q2 答: B; 证据: | CTW: move; ask; origin...; 干扰: A 夸大/无关; R5。

RDL-039-CTW 答: loan; return; charged; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-039-Q1 答: A; 证据: RDL-039; 干扰: B 把条件当常规; R2。

RDL-039-Q2 答: C; 证据: | CTW: loan; return; cha...; 干扰: A 夸大/无关; R5。

RDL-040-CTW 答: teach; bring; advice; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-040-Q1 答: D; 证据: RDL-040; 干扰: A 把条件当常规; R2。

RDL-040-Q2 答: D; 证据: | CTW: teach; bring; adv...; 干扰: A 夸大/无关; R5。

RDL-041-CTW 答: turn; fill; contact; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-041-Q1 答: B; 证据: RDL-041; 干扰: A 把条件当常规; R2。

RDL-041-Q2 答: A; 证据: | CTW: turn; fill; conta...; 干扰: B 夸大/无关; R5。

RDL-042-CTW 答: inspect; keep; request; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-042-Q1 答: C; 证据: RDL-042; 干扰: A 把条件当常规; R2。

RDL-042-Q2 答: B; 证据: | CTW: inspect; keep; re...; 干扰: A 夸大/无关; R5。

RDL-043-CTW 答: replace; use; flattened-box; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-043-Q1 答: A; 证据: RDL-043; 干扰: B 把条件当常规; R2。

RDL-043-Q2 答: C; 证据: | CTW: replace; use; fla...; 干扰: A 夸大/无关; R5。

RDL-044-CTW 答: add; cancel; charge; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字

母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-044-Q1 答: D; 证据: RDL-044; 干扰: A 把条件当常规; R2。

RDL-044-Q2 答: D; 证据: | CTW: add; cancel; char...; 干扰: A 夸大/无关; R5。

RDL-045-CTW 答: repair; use; report; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-045-Q1 答: B; 证据: RDL-045; 干扰: A 把条件当常规; R2。

RDL-045-Q2 答: A; 证据: | CTW: repair; use; repo...; 干扰: B 夸大/无关; R5。

RDL-046-CTW 答: install; avoid; directions; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-046-Q1 答: C; 证据: RDL-046; 干扰: A 把条件当常规; R2。

RDL-046-Q2 答: B; 证据: | CTW: install; avoid; d...; 干扰: A 夸大/无关; R5。

RDL-047-CTW 答: reset; tap; identity; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-047-Q1 答: A; 证据: RDL-047; 干扰: B 把条件当常规; R2。

RDL-047-Q2 答: C; 证据: | CTW: reset; tap; ident...; 干扰: A 夸大/无关; R5。

RDL-048-CTW 答: replace; follow; scheduled; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-048-Q1 答: D; 证据: RDL-048; 干扰: A 把条件当常规; R2。

RDL-048-Q2 答: D; 证据: | CTW: replace; follow; ...; 干扰: A 夸大/无关; R5。

RDL-049-CTW 答: check; place; email; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-049-Q1 答: B; 证据: RDL-049; 干扰: A 把条件当常规; R2。

RDL-049-Q2 答: A; 证据: | CTW: check; place; ema...; 干扰: B 夸大/无关; R5。

RDL-050-CTW 答: test; report; portable; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-050-Q1 答: C; 证据: RDL-050; 干扰: A 把条件当常规; R2。

RDL-050-Q2 答: B; 证据: | CTW: test; report; por...; 干扰: A 夸大/无关; R5。

RDL-051-CTW 答: send; remain; paper; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-051-Q1 答: A; 证据: RDL-051; 干扰: B 把条件当常规; R2。

RDL-051-Q2 答: C; 证据: | CTW: send; remain; pap...; 干扰: A 夸大/无关; R5。

RDL-052-CTW 答: reserve; choose; staff; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-052-Q1 答: D; 证据: RDL-052; 干扰: A 把条件当常规; R2。

RDL-052-Q2 答: D; 证据: | CTW: reserve; choose; ...; 干扰: A 夸大/无关; R5。

RDL-053-CTW 答: offer; reply; next; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-053-Q1 答: B; 证据: RDL-053; 干扰: A 把条件当常规; R2。

RDL-053-Q2 答: A; 证据: | CTW: offer; reply; nex...; 干扰: B 夸大/无关; R5。

RDL-054-CTW 答: store; bring; signed; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-054-Q1 答: C; 证据: RDL-054; 干扰: A 把条件当常规; R2。

RDL-054-Q2 答: B; 证据: | CTW: store; bring; sig...; 干扰: A 夸大/无关; R5。

RDL-055-CTW 答: provide; wear; conversation; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-055-Q1 答: A; 证据: RDL-055; 干扰: B 把条件当常规; R2。

RDL-055-Q2 答: C; 证据: | CTW: provide; wear; co...; 干扰: A 夸大/无关; R5。

RDL-056-CTW 答: offer; bring; order; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-056-Q1 答: D; 证据: RDL-056; 干扰: A 把条件当常规; R2。

RDL-056-Q2 答: D; 证据: | CTW: offer; bring; ord...; 干扰: A 夸大/无关; R5。

RDL-057-CTW 答: place; wipe; use; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-057-Q1 答: B; 证据: RDL-057; 干扰: A 把条件当常规; R2。

RDL-057-Q2 答: A; 证据: | CTW: place; wipe; use. ...; 干扰: B 夸大/无关; R5。

RDL-058-CTW 答: divide; tell; slower; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-058-Q1 答: C; 证据: RDL-058; 干扰: A 把条件当常规; R2。

RDL-058-Q2 答: B; 证据: | CTW: divide; tell; slo...; 干扰: A 夸大/无关; R5。

RDL-059-CTW 答: limit; list; substitute; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-059-Q1 答: A; 证据: RDL-059; 干扰: B 把条件当常规; R2。

RDL-059-Q2 答: C; 证据: | CTW: limit; list; subs...; 干扰: A 夸大/无关; R5。

RDL-060-CTW 答: hold; test; phone; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-060-Q1 答: D; 证据: RDL-060; 干扰: A 把条件当常规; R2。

RDL-060-Q2 答: D; 证据: | CTW: hold; test; phone...; 干扰: A 夸大/无关; R5。

RDL-061-CTW 答: apply; tell; disposable; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-061-Q1 答: B; 证据: RDL-061; 干扰: A 把条件当常规; R2。

RDL-061-Q2 答: A; 证据: | CTW: apply; tell; disp...; 干扰: B 夸大/无关; R5。

RDL-062-CTW 答: hold; bring; new; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-062-Q1 答: C; 证据: RDL-062; 干扰: A 把条件当常规; R2。

RDL-062-Q2 答: B; 证据: | CTW: hold; bring; new. ...; 干扰: A 夸大/无关; R5。

RDL-063-CTW 答: display; choose; call; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-063-Q1 答: A; 证据: RDL-063; 干扰: B 把条件当常规; R2。

RDL-063-Q2 答: C; 证据: | CTW: display; choose; ...; 干扰: A 夸大/无关; R5。

RDL-064-CTW 答: seal; place; items; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-064-Q1 答: D; 证据: RDL-064; 干扰: A 把条件当常规; R2。

RDL-064-Q2 答: D; 证据: | CTW: seal; place; item...; 干扰: A 夸大/无关; R5。

RDL-065-CTW 答: allow; leave; help; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-065-Q1 答: B; 证据: RDL-065; 干扰: A 把条件当常规; R2。

RDL-065-Q2 答: A; 证据: | CTW: allow; leave; hel...; 干扰: B 夸大/无关; R5。

RDL-066-CTW 答: send; check; written; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-066-Q1 答: C; 证据: RDL-066; 干扰: A 把条件当常规; R2。

- RDL-066-Q2** 答: B; 证据: | CTW: send; check; writ...; 干扰: A 夸大/无关; R5。
- RDL-067-CTW** 答: deliver; include; shaded; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-067-Q1** 答: A; 证据: RDL-067; 干扰: B 把条件当常规; R2。
- RDL-067-Q2** 答: C; 证据: | CTW: deliver; include;...; 干扰: A 夸大/无关; R5。
- RDL-068-CTW** 答: replace; give; revised; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-068-Q1** 答: D; 证据: RDL-068; 干扰: A 把条件当常规; R2。
- RDL-068-Q2** 答: D; 证据: | CTW: replace; give; re...; 干扰: A 夸大/无关; R5。
- RDL-069-CTW** 答: inspect; bring; paid; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-069-Q1** 答: B; 证据: RDL-069; 干扰: A 把条件当常规; R2。
- RDL-069-Q2** 答: A; 证据: | CTW: inspect; bring; p...; 干扰: B 夸大/无关; R5。
- RDL-070-CTW** 答: accept; mark; realistic; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-070-Q1** 答: C; 证据: RDL-070; 干扰: A 把条件当常规; R2。
- RDL-070-Q2** 答: B; 证据: | CTW: accept; mark; rea...; 干扰: A 夸大/无关; R5。
- RDL-071-CTW** 答: release; check; message; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-071-Q1** 答: A; 证据: RDL-071; 干扰: B 把条件当常规; R2。
- RDL-071-Q2** 答: C; 证据: | CTW: release; check; m...; 干扰: A 夸大/无关; R5。
- RDL-072-CTW** 答: demonstrate; bring; printed; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-072-Q1** 答: D; 证据: RDL-072; 干扰: A 把条件当常规; R2。
- RDL-072-Q2** 答: D; 证据: | CTW: demonstrate; brin...; 干扰: A 夸大/无关; R5。
- RDL-073-CTW** 答: offer; choose; confirmation; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-073-Q1** 答: B; 证据: RDL-073; 干扰: A 把条件当常规; R2。
- RDL-073-Q2** 答: A; 证据: | CTW: offer; choose; co...; 干扰: B 夸大/无关; R5。
- RDL-074-CTW** 答: test; remain; report; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-074-Q1** 答: C; 证据: RDL-074; 干扰: A 把条件当常规; R2。
- RDL-074-Q2** 答: B; 证据: | CTW: test; remain; rep...; 干扰: A 夸大/无关; R5。
- RDL-075-CTW** 答: let; ask; another; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-075-Q1** 答: A; 证据: RDL-075; 干扰: B 把条件当常规; R2。
- RDL-075-Q2** 答: C; 证据: | CTW: let; ask; another...; 干扰: A 夸大/无关; R5。
- RDL-076-CTW** 答: replace; arrive; support; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-076-Q1** 答: D; 证据: RDL-076; 干扰: A 把条件当常规; R2。
- RDL-076-Q2** 答: D; 证据: | CTW: replace; arrive; ...; 干扰: A 夸大/无关; R5。
- RDL-077-CTW** 答: record; enter; entry; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-077-Q1** 答: B; 证据: RDL-077; 干扰: A 把条件当常规; R2。
- RDL-077-Q2** 答: A; 证据: | CTW: record; enter; en...; 干扰: B 夸大/无关; R5。

RDL-078-CTW 答: ask; keep; question; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-078-Q1 答: C; 证据: RDL-078; 干扰: A 把条件当常规; R2。

RDL-078-Q2 答: B; 证据: | CTW: ask; keep; questi...; 干扰: A 夸大/无关; R5。

RDL-079-CTW 答: match; write; video; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-079-Q1 答: A; 证据: RDL-079; 干扰: B 把条件当常规; R2。

RDL-079-Q2 答: C; 证据: | CTW: match; write; vid...; 干扰: A 夸大/无关; R5。

RDL-080-CTW 答: ask; save; confirmation; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-080-Q1 答: D; 证据: RDL-080; 干扰: A 把条件当常规; R2。

RDL-080-Q2 答: D; 证据: | CTW: ask; save; confir...; 干扰: A 夸大/无关; R5。

RDL-081-CTW 答: move; show; identity; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-081-Q1 答: B; 证据: RDL-081; 干扰: A 把条件当常规; R2。

RDL-081-Q2 答: A; 证据: | CTW: move; show; ident...; 干扰: B 夸大/无关; R5。

RDL-082-CTW 答: pair; complete; observation; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-082-Q1 答: C; 证据: RDL-082; 干扰: A 把条件当常规; R2。

RDL-082-Q2 答: B; 证据: | CTW: pair; complete; o...; 干扰: A 夸大/无关; R5。

RDL-083-CTW 答: assign; attach; storage; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-083-Q1 答: A; 证据: RDL-083; 干扰: B 把条件当常规; R2。

RDL-083-Q2 答: C; 证据: | CTW: assign; attach; s...; 干扰: A 夸大/无关; R5。

RDL-084-CTW 答: accept; place; textile-repair; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-084-Q1 答: D; 证据: RDL-084; 干扰: A 把条件当常规; R2。

RDL-084-Q2 答: D; 证据: | CTW: accept; place; te...; 干扰: A 夸大/无关; R5。

RDL-085-CTW 答: open; bring; fresh; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-085-Q1 答: B; 证据: RDL-085; 干扰: A 把条件当常规; R2。

RDL-085-Q2 答: A; 证据: | CTW: open; bring; fres...; 干扰: B 夸大/无关; R5。

RDL-086-CTW 答: limit; tie; note; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-086-Q1 答: C; 证据: RDL-086; 干扰: A 把条件当常规; R2。

RDL-086-Q2 答: B; 证据: | CTW: limit; tie; note. ...; 干扰: A 夸大/无关; R5。

RDL-087-CTW 答: reserve; ask; advice; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-087-Q1 答: A; 证据: RDL-087; 干扰: B 把条件当常规; R2。

RDL-087-Q2 答: C; 证据: | CTW: reserve; ask; adv...; 干扰: A 夸大/无关; R5。

RDL-088-CTW 答: ask; fold; help; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-088-Q1 答: D; 证据: RDL-088; 干扰: A 把条件当常规; R2。

RDL-088-Q2 答: D; 证据: | CTW: ask; fold; help. Q1; 干扰: A 夸大/无关; R5。

RDL-089-CTW 答: hold; prepare; online; 证据: 词形同时合语义、拼写和槽位; 干扰: 首

字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-089-Q1 答: B; 证据: RDL-089; 干扰: A 把条件当常规; R2。

RDL-089-Q2 答: A; 证据: | CTW: hold; prepare; on...; 干扰: B 夸大/无关; R5。

RDL-090-CTW 答: provide; name; phone; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-090-Q1 答: C; 证据: RDL-090; 干扰: A 把条件当常规; R2。

RDL-090-Q2 答: B; 证据: | CTW: provide; name; ph...; 干扰: A 夸大/无关; R5。

RDL-091-CTW 答: ask; sign; report; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-091-Q1 答: A; 证据: RDL-091; 干扰: B 把条件当常规; R2。

RDL-091-Q2 答: C; 证据: | CTW: ask; sign; report...; 干扰: A 夸大/无关; R5。

RDL-092-CTW 答: add; choose; timestamp; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-092-Q1 答: D; 证据: RDL-092; 干扰: A 把条件当常规; R2。

RDL-092-Q2 答: D; 证据: | CTW: add; choose; time...; 干扰: A 夸大/无关; R5。

RDL-093-CTW 答: move; save; personal; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-093-Q1 答: B; 证据: RDL-093; 干扰: A 把条件当常规; R2。

RDL-093-Q2 答: A; 证据: | CTW: move; save; perso...; 干扰: B 夸大/无关; R5。

RDL-094-CTW 答: let; turn; new; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-094-Q1 答: C; 证据: RDL-094; 干扰: A 把条件当常规; R2。

RDL-094-Q2 答: B; 证据: | CTW: let; turn; new. Q1; 干扰: A 夸大/无关; R5。

RDL-095-CTW 答: display; use; reason; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-095-Q1 答: A; 证据: RDL-095; 干扰: B 把条件当常规; R2。

RDL-095-Q2 答: C; 证据: | CTW: display; use; rea...; 干扰: A 夸大/无关; R5。

RDL-096-CTW 答: allow; photograph; request; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-096-Q1 答: D; 证据: RDL-096; 干扰: A 把条件当常规; R2。

RDL-096-Q2 答: D; 证据: | CTW: allow; photograph...; 干扰: A 夸大/无关; R5。

RDL-097-CTW 答: archive; download; temporary; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-097-Q1 答: B; 证据: RDL-097; 干扰: A 把条件当常规; R2。

RDL-097-Q2 答: A; 证据: | CTW: archive; download...; 干扰: B 夸大/无关; R5。

RDL-098-CTW 答: support; update; help; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-098-Q1 答: C; 证据: RDL-098; 干扰: A 把条件当常规; R2。

RDL-098-Q2 答: B; 证据: | CTW: support; update; ...; 干扰: A 夸大/无关; R5。

RDL-099-CTW 答: keep; add; notification; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-099-Q1 答: A; 证据: RDL-099; 干扰: B 把条件当常规; R2。

RDL-099-Q2 答: C; 证据: | CTW: keep; add; notifi...; 干扰: A 夸大/无关; R5。

RDL-100-CTW 答: restart; save; diagnostic; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-100-Q1 答: D; 证据: RDL-100; 干扰: A 把条件当常规; R2。

RDL-100-Q2 答: D; 证据: | CTW: restart; save; di...; 干扰: A 夸大/无关; R5。

RDL-101-CTW 答: turn; bring; temporary; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-101-Q1 答: B; 证据: RDL-101; 干扰: A 把条件当常规; R2。

RDL-101-Q2 答: A; 证据: | CTW: turn; bring; temp...; 干扰: B 夸大/无关; R5。

RDL-102-CTW 答: give; bring; recording; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-102-Q1 答: C; 证据: RDL-102; 干扰: A 把条件当常规; R2。

RDL-102-Q2 答: B; 证据: | CTW: give; bring; reco...; 干扰: A 夸大/无关; R5。

RDL-103-CTW 答: collect; keep; separate; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-103-Q1 答: A; 证据: RDL-103; 干扰: B 把条件当常规; R2。

RDL-103-Q2 答: C; 证据: | CTW: collect; keep; se...; 干扰: A 夸大/无关; R5。

RDL-104-CTW 答: hold; describe; phone; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-104-Q1 答: D; 证据: RDL-104; 干扰: A 把条件当常规; R2。

RDL-104-Q2 答: D; 证据: | CTW: hold; describe; p...; 干扰: A 夸大/无关; R5。

RDL-105-CTW 答: ask; use; waiting; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-105-Q1 答: B; 证据: RDL-105; 干扰: A 把条件当常规; R2。

RDL-105-Q2 答: A; 证据: | CTW: ask; use; waiting...; 干扰: B 夸大/无关; R5。

RDL-106-CTW 答: lend; return; charge; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-106-Q1 答: C; 证据: RDL-106; 干扰: A 把条件当常规; R2。

RDL-106-Q2 答: B; 证据: | CTW: lend; return; cha...; 干扰: A 夸大/无关; R5。

RDL-107-CTW 答: record; sort; instructions; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-107-Q1 答: A; 证据: RDL-107; 干扰: B 把条件当常规; R2。

RDL-107-Q2 答: C; 证据: | CTW: record; sort; ins...; 干扰: A 夸大/无关; R5。

RDL-108-CTW 答: ask; use; report; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-108-Q1 答: D; 证据: RDL-108; 干扰: A 把条件当常规; R2。

RDL-108-Q2 答: D; 证据: | CTW: ask; use; report. ...; 干扰: A 夸大/无关; R5。

RDL-109-CTW 答: lend; photograph; conversation; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-109-Q1 答: B; 证据: RDL-109; 干扰: A 把条件当常规; R2。

RDL-109-Q2 答: A; 证据: | CTW: lend; photograph; ...; 干扰: B 夸大/无关; R5。

RDL-110-CTW 答: provide; write; call; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-110-Q1 答: C; 证据: RDL-110; 干扰: A 把条件当常规; R2。

RDL-110-Q2 答: B; 证据: | CTW: provide; write; c...; 干扰: A 夸大/无关; R5。

RDL-111-CTW 答: allow; keep; marked; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。

RDL-111-Q1 答: A; 证据: RDL-111; 干扰: B 把条件当常规; R2。

- RDL-111-Q2** 答: C; 证据: | CTW: allow; keep; mark...; 干扰: A 夸大/无关; R5。
- RDL-112-CTW** 答: fill; answer; notice; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-112-Q1** 答: D; 证据: RDL-112; 干扰: A 把条件当常规; R2。
- RDL-112-Q2** 答: D; 证据: | CTW: fill; answer; not...; 干扰: A 夸大/无关; R5。
- RDL-113-CTW** 答: reserve; label; separate; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-113-Q1** 答: B; 证据: RDL-113; 干扰: A 把条件当常规; R2。
- RDL-113-Q2** 答: A; 证据: | CTW: reserve; label; s...; 干扰: B 夸大/无关; R5。
- RDL-114-CTW** 答: lend; return; shorter; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-114-Q1** 答: C; 证据: RDL-114; 干扰: A 把条件当常规; R2。
- RDL-114-Q2** 答: B; 证据: | CTW: lend; return; sho...; 干扰: A 夸大/无关; R5。
- RDL-115-CTW** 答: hear; prepare; request; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-115-Q1** 答: A; 证据: RDL-115; 干扰: B 把条件当常规; R2。
- RDL-115-Q2** 答: C; 证据: | CTW: hear; prepare; re...; 干扰: A 夸大/无关; R5。
- RDL-116-CTW** 答: match; write; open; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-116-Q1** 答: D; 证据: RDL-116; 干扰: A 把条件当常规; R2。
- RDL-116-Q2** 答: D; 证据: | CTW: match; write; ope...; 干扰: A 夸大/无关; R5。
- RDL-117-CTW** 答: assign; arrive; unloading; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-117-Q1** 答: B; 证据: RDL-117; 干扰: A 把条件当常规; R2。
- RDL-117-Q2** 答: A; 证据: | CTW: assign; arrive; u...; 干扰: B 夸大/无关; R5。
- RDL-118-CTW** 答: invite; bring; chance; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-118-Q1** 答: C; 证据: RDL-118; 干扰: A 把条件当常规; R2。
- RDL-118-Q2** 答: B; 证据: | CTW: invite; bring; ch...; 干扰: A 夸大/无关; R5。
- RDL-119-CTW** 答: post; check; another; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-119-Q1** 答: A; 证据: RDL-119; 干扰: B 把条件当常规; R2。
- RDL-119-Q2** 答: C; 证据: | CTW: post; check; anot...; 干扰: A 夸大/无关; R5。
- RDL-120-CTW** 答: show; wear; advice; 证据: 词形同时合语义、拼写和槽位; 干扰: 首字母对但词性/语境不合; 错因 V-词形 (25 秒)。
- RDL-120-Q1** 答: D; 证据: RDL-120; 干扰: A 把条件当常规; R2。
- RDL-120-Q2** 答: D; 证据: | CTW: show; wear; advic...; 干扰: A 夸大/无关; R5。

20.3.2 19.2.2 RAP-001—080: 主张、发现、限制的三重核查

- RAP-001-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-001-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-001-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

- RAP-002-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-002-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-002-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-003-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-003-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-003-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-004-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-004-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-004-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-005-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
RAP-005-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
RAP-005-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
RAP-006-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-006-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-006-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-007-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-007-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-007-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-008-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-008-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-008-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-009-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
RAP-009-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
RAP-009-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
RAP-010-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-010-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-010-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-011-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-011-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-011-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-012-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-012-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-012-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-013-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

- RAP-013-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-013-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-014-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-014-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-014-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-015-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-015-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-015-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-016-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-016-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-016-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-017-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-017-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-017-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-018-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-018-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-018-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-019-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-019-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-019-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-020-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-020-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-020-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-021-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-021-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-021-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-022-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-022-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-022-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-023-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-023-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-023-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-024-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-024-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

果; R1。

RAP-024-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-025-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

RAP-025-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

RAP-025-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-026-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-026-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-026-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-027-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-027-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-027-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-028-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-028-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-028-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-029-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

RAP-029-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

RAP-029-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-030-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-030-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-030-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-031-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-031-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-031-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-032-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-032-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-032-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-033-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

RAP-033-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

RAP-033-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-034-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-034-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-034-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-035-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-035-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

- RAP-035-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-036-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-036-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-036-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-037-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-037-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-037-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-038-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-038-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-038-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-039-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-039-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-039-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-040-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-040-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-040-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-041-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-041-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-041-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-042-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-042-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-042-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-043-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-043-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-043-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-044-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-044-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-044-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-045-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-045-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-045-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-046-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-046-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-046-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

- RAP-047-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-047-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-047-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-048-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-048-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-048-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-049-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
RAP-049-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
RAP-049-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
RAP-050-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-050-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-050-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-051-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-051-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-051-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-052-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-052-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-052-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-053-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
RAP-053-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
RAP-053-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
RAP-054-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-054-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-054-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-055-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-055-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-055-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-056-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
RAP-056-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
RAP-056-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
RAP-057-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
RAP-057-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
RAP-057-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
RAP-058-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

- RAP-058-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-058-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-059-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-059-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-059-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-060-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-060-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-060-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-061-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-061-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-061-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-062-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-062-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-062-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-063-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-063-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-063-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-064-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-064-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-064-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-065-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-065-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。
- RAP-065-Q3** 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。
- RAP-066-Q1** 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-066-Q2** 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-066-Q3** 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-067-Q1** 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-067-Q2** 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-067-Q3** 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-068-Q1** 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。
- RAP-068-Q2** 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。
- RAP-068-Q3** 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。
- RAP-069-Q1** 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。
- RAP-069-Q2** 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

果; R1。

RAP-069-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-070-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-070-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-070-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-071-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-071-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-071-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-072-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-072-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-072-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-073-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

RAP-073-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

RAP-073-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-074-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-074-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-074-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-075-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-075-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-075-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-076-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-076-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-076-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-077-Q1 答: A; 规则: 方法、限制或作者要读者保留的条件; 干扰: B 绝对化/反因果; R2。

RAP-077-Q2 答: A; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: B 绝对化/反因果; R1。

RAP-077-Q3 答: A; 规则: 主旨层级与可支持的谨慎结论; 干扰: B 绝对化/反因果; R4。

RAP-078-Q1 答: C; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-078-Q2 答: D; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-078-Q3 答: B; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-079-Q1 答: B; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-079-Q2 答: C; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-079-Q3 答: D; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP-080-Q1 答: D; 规则: 方法、限制或作者要读者保留的条件; 干扰: A 绝对化/反因果; R2。

RAP-080-Q2 答: B; 规则: 研究直接报告的发现或术语在原句中的作用; 干扰: A 绝对化/反因果; R1。

RAP-080-Q3 答: C; 规则: 主旨层级与可支持的谨慎结论; 干扰: A 绝对化/反因果; R4。

RAP 统一复盘动作。每篇至少在原文划出 方法/观察/限制 三处: 没有限制句支撑, 就不能选择“普遍规律”; 没有直接观察句支撑, 就不能把推测当结果。此动作专门防止 R4, 也能暴露只凭关键词选择的 R1。

20.4 19.3 第 15 章 | 听力: 自然回应、脚本主线与精听补充

20.4.1 19.3.1 LCR-001—300: 唯一自然回应

LCR-001 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-002 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-003 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-004 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-005 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-006 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-007 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-008 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-009 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-010 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-011 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-012 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-013 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-014 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-015 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-016 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-017 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-018 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-019 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-020 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-021 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-022 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-023 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-024 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-025 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-026 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-027 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-028 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-029 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-030 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-031 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-032 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-033 B; 证据: request; A 不接话; L2; 听功能词 + 行动。

LCR-034 A; 证据: request; B 不接话; L2; 听功能词 + 行动。

LCR-035 C; 证据: request; A 不接话; L2; 听功能词 + 行动。

- [illegible]

- [illegible]

- LCR-171** B; 证据: decision; A 不接话; L2; 听功能词 + 行动。
- LCR-172** A; 证据: decision; B 不接话; L2; 听功能词 + 行动。
- LCR-173** C; 证据: decision; A 不接话; L2; 听功能词 + 行动。

LT 精听/复述索引。 LT-001—051: 先记 “原计划 → 限制 → 方案 → 下一步”; LT-052—100: 先记 “受影响者 → 变化 → 原因 → 行动”; LT-101—160: 先记 “概念 → 机制 → 例子 → 限制 → 结论”。各篇的原脚本下已保留个别精听和复述提示; 本章不重复全文, 漏掉转折、例外或结论一律标 L4。

20.5 19.4 第 16 章 | 写作: 勘误后的句子答案、邮件与讨论评分

20.5.1 19.4.1 BS-001—305: 可评分参考句与题面勘误

BS-001 Although it was before spring planting, volunteers found that the compost bins were repaired. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-002 Volunteers reported that the compost bins were repaired before spring planting.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-003 The compost bins, which volunteers examined, were repaired before spring planting.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-004 Before spring planting, volunteers changed the plan because the compost bins were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-005 If the compost bins are checked carefully, volunteers can explain why they

were repaired. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-006 The clinic manager reported that the appointment system would reduce waiting time if patients confirmed online.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-007 The appointment system, which the clinic manager examined, would reduce waiting time if patients confirmed online.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-008 If patients confirmed online, the clinic manager changed the plan because the appointment system was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-009 If the appointment system is checked carefully, the clinic manager can explain why it would reduce waiting time.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-010 Although if patients confirmed online, the clinic manager found that the appointment system would reduce waiting time.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-011 The map collection, which the archivist examined, had been digitized after a local grant.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-012 After a local grant, the archivist changed the plan because the map collection was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-013 If the map collection is checked carefully, the archivist can explain why it had been digitized.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-014 Although it was after a local grant, the archivist found that the map collection had been digitized. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-015 The archivist reported that the map collection had been digitized after a local grant.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-016 After the factory upgrade, the biology students changed the plan because the water samples were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-017 If the water samples are checked carefully, the biology students can explain why they showed lower pollution levels. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-018 Although it was after the factory upgrade, the biology students found that the water samples showed lower pollution levels. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-019 The biology students reported that the water samples showed lower pollution levels after the factory upgrade.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-020 The water samples, which the biology students examined, showed lower pollution levels after the factory upgrade.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-021 If the evening reading series is checked carefully, the owner can explain why it attracted new visitors.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-022 Although advertising was limited, the owner found that the evening reading series attracted new visitors.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

—2)。

BS-023 The owner reported that the evening reading series attracted new visitors although advertising was limited.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-024 The evening reading series, which the owner examined, attracted new visitors although advertising was limited.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-025 Although advertising was limited, the owner changed the plan because the evening reading series was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-026 Although winter snow was heavy, the engineers found that the first design needed stronger supports. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-027 The engineers reported that the first design needed stronger supports because winter snow was heavy.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-028 The first design, which the engineers examined, needed stronger supports because winter snow was heavy.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-029 Winter snow was heavy, the engineers changed the plan because the first design was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-030 If the first design is checked carefully, the engineers can explain why it needed stronger supports.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-031 The transport office reported that the revised route would serve three neighborhoods when the bridge reopened.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-032 The revised route, which the transport office examined, would serve three neighborhoods when the bridge reopened.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-033 When the bridge reopened, the transport office changed the plan because the revised route was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-034 If the revised route is checked carefully, the transport office can explain why it would serve three neighborhoods.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-035 Although when the bridge reopened, the transport office found that the revised route would serve three neighborhoods.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-036 The raised labels, which the curator examined, helped visitors navigate who had limited vision.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-037 Who had limited vision, the curator changed the plan because the raised labels were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-038 If the raised labels are checked carefully, the curator can explain why they helped visitors navigate. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-039 Although who had limited vision, the curator found that the raised labels helped visitors navigate.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-040 The curator reported that the raised labels helped visitors navigate who had limited vision.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-041 The oven was inspected, the coordinator changed the plan because the food-safety class was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-042 If the food-safety class is checked carefully, the coordinator can explain why it was moved to Tuesday. ; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-043 Although the oven was inspected, the coordinator found that the food-safety class was moved to Tuesday. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-044 The coordinator reported that the food-safety class was moved to Tuesday because the oven was inspected.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-045 The food-safety class, which the coordinator examined, was moved to Tuesday because the oven was inspected.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-046 If the wooden path is checked carefully, the park staff can explain why it was closed temporarily.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-047 Although it was after floodwater damaged it, the park staff found that the wooden path was closed temporarily. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-048 The park staff reported that the wooden path was closed temporarily after floodwater damaged it.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-049 The wooden path, which the park staff examined, was closed temporarily after floodwater damaged it.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-050 After floodwater damaged it, the park staff changed the plan because the wooden path was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-051 Although it was without handling chemicals, the instructor found that the virtual microscope allows students to compare samples. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-052 The instructor reported that the virtual microscope allows students to compare samples without handling chemicals.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-053 The virtual microscope, which the instructor examined, allows students to compare samples without handling chemicals.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-054 Without handling chemicals, the instructor changed the plan because the virtual microscope was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-055 If the virtual microscope is checked carefully, the instructor can explain why it allows students to compare samples.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-056 The adviser reported that the application guide explained which documents were needed before a meeting.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-057 The application guide, which the adviser examined, explained which documents were needed before a meeting.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-058 Before a meeting, the adviser changed the plan because the application guide was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-059 If the application guide is checked carefully, the adviser can explain why it explained which documents were needed.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-060 Although it was before a meeting, the adviser found that the application guide explained which documents were needed. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-061 The ceiling paint, which the preservation team examined, was tested carefully so that original colors could be matched.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-062 So that original colors could be matched, the preservation team changed the plan because the ceiling paint was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-063 If the ceiling paint is checked carefully, the preservation team can explain why it was tested carefully.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-064 Although so that original colors could be matched, the preservation team found that the ceiling paint was tested carefully.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-065 The preservation team reported that the ceiling paint was tested carefully so that original colors could be matched.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-066 To support transfers, the city council changed the plan because the docking stations were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-067 If the docking stations are checked carefully, the city council can explain why they were placed near bus stops. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-068 Although it was to support transfers, the city council found that the docking stations were placed near bus stops. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-069 The city council reported that the docking stations were placed near bus stops to support transfers.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-070 The docking stations, which the city council examined, were placed near bus stops to support transfers.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-071 If the conversation tables are checked carefully, the student union can explain why they will be divided by interest. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-072 Although if enough mentors register, the student union found that the conversation tables will be divided by interest.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-073 The student union reported that the conversation tables will be divided by interest if enough mentors register.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-074 The conversation tables, which the student union examined, will be divided by interest if enough mentors register.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-075 If enough mentors register, the student union changed the plan because the conversation tables were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

据 (C0—2)。

BS-076 Although during the storm drill, the emergency office found that the text-message system reached residents quickly.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-077 The emergency office reported that the text-message system reached residents quickly during the storm drill.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-078 The text-message system, which the emergency office examined, reached residents quickly during the storm drill.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-079 During the storm drill, the emergency office changed the plan because the text-message system was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-080 If the text-message system is checked carefully, the emergency office can explain why it reached residents quickly.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-081 The technician reported that the broken lamp worked again after its loose wire was secured.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-082 The broken lamp, which the technician examined, worked again after its loose wire was secured.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-083 After its loose wire was secured, the technician changed the plan because the broken lamp was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-084 If the broken lamp is checked carefully, the technician can explain why it worked again.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-085 Although it was after its loose wire was secured, the technician found that the broken lamp worked again. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-086 The magnetic blocks, which the designers examined, were arranged at low tables so younger visitors could reach them.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-087 So younger visitors could reach them, the designers changed the plan because the magnetic blocks was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-088 If the magnetic blocks is checked carefully, the designers can explain why it was arranged at low tables. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-089 Although so younger visitors could reach them, the designers found that the magnetic blocks were arranged at low tables.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-090 The designers reported that the magnetic blocks were arranged at low tables so younger visitors could reach them.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-091 Than cardboard boxes did, the vendor cooperative changed the plan because the reusable crates were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-092 If the reusable crates are checked carefully, the vendor cooperative can explain why they kept fruit cooler. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-093 Although than cardboard boxes did, the vendor cooperative found that the reusable crates kept fruit cooler.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-094 The vendor cooperative reported that the reusable crates kept fruit cooler than cardboard boxes did.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-095 The reusable crates, which the vendor cooperative examined, kept fruit cooler than cardboard boxes did.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-096 If the late train is checked carefully, the rail agency can explain why it added one extra stop.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-097 Although a concert ended nearby, the rail agency found that the late train added one extra stop. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-098 The rail agency reported that the late train added one extra stop because a concert ended nearby.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-099 The late train, which the rail agency examined, added one extra stop because a concert ended nearby.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-100 A concert ended nearby, the rail agency changed the plan because the late train was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-101 Although it was without removing the main evidence, the media team found that the interview episode was shortened. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-102 The media team reported that the interview episode was shortened without removing the main evidence.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-103 The interview episode, which the media team examined, was shortened without removing the main evidence.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-104 Without removing the main evidence, the media team changed the plan because the interview episode was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-105 If the interview episode is checked carefully, the media team can explain why it was shortened.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-106 The volunteer lawyer reported that the translated forms made the process clearer for new residents.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-107 The translated forms, which the volunteer lawyer examined, made the process clearer for new residents.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-108 For new residents, the volunteer lawyer changed the plan because the translated forms were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-109 If the translated forms are checked carefully, the volunteer lawyer can explain why they made the process clearer. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-110 Although for new residents, the volunteer lawyer found that the translated forms made the process clearer.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

—2)。

BS-111 The shop signs, which the planning board examined, must follow size guidelines while allowing local character.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-112 While allowing local character, the planning board changed the plan because the shop signs were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-113 If the shop signs are checked carefully, the planning board can explain why they must follow size guidelines. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-114 Although while allowing local character, the planning board found that the shop signs must follow size guidelines.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-115 The planning board reported that the shop signs must follow size guidelines while allowing local character.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-116 After users reported difficulty, the architect changed the plan because the automatic door was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-117 If the automatic door is checked carefully, the architect can explain why it was installed.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-118 Although it was after users reported difficulty, the architect found that the automatic door was installed. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-119 The architect reported that the automatic door was installed after users reported difficulty.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-120 The automatic door, which the architect examined, was installed after users reported difficulty.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-121 If the shaded plots is checked carefully, the researchers can explain why it used less water.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-122 Although than the exposed plots, the researchers found that the shaded plots used less water.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-123 The researchers reported that the shaded plots used less water than the exposed plots.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-124 The shaded plots, which the researchers examined, used less water than the exposed plots.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-125 Than the exposed plots, the researchers changed the plan because the shaded plots was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-126 Although when its wing had healed, the staff found that the injured hawk was released.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-127 The staff reported that the injured hawk was released when its wing had healed.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-128 The injured hawk, which the staff examined, was released when its wing had healed.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-129 When its wing had healed, the staff changed the plan because the injured hawk was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-130 If the injured hawk is checked carefully, the staff can explain why it was

released.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-131 The conductor reported that the rehearsal schedule was shared early so performers could plan travel.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-132 The rehearsal schedule, which the conductor examined, was shared early so performers could plan travel.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-133 So performers could plan travel, the conductor changed the plan because the rehearsal schedule was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-134 If the rehearsal schedule is checked carefully, the conductor can explain why it was shared early.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-135 Although so performers could plan travel, the conductor found that the rehearsal schedule was shared early.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-136 The native plants, which the neighborhood group examined, were chosen because they tolerate wet soil.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-137 They tolerate wet soil, the neighborhood group changed the plan because the native plants were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-138 If the native plants are checked carefully, the neighborhood group can explain why they were chosen. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-139 Although they tolerate wet soil, the neighborhood group found that the native plants were chosen. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-140 The neighborhood group reported that the native plants were chosen because they tolerate wet soil.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-141 Among working parents, the program director changed the plan because the child-care option was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-142 If the child-care option is checked carefully, the program director can explain why it increased attendance.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-143 Although among working parents, the program director found that the child-care option increased attendance.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-144 The program director reported that the child-care option increased attendance among working parents.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-145 The child-care option, which the program director examined, increased attendance among working parents.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-146 If the first chart is checked carefully, the professor can explain why it was misleading.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-147 Although its scale began at ninety, the professor found that the first chart was misleading. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-148 The professor reported that the first chart was misleading because its scale began at ninety.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-149 The first chart, which the professor examined, was misleading because its

scale began at ninety.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-150 Its scale began at ninety, the professor changed the plan because the first chart was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-151 Although it was to the correct department, the nurse supervisor found that the color signs directed families. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-152 The nurse supervisor reported that the color signs directed families to the correct department.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-153 The color signs, which the nurse supervisor examined, directed families to the correct department.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-154 To the correct department, the nurse supervisor changed the plan because the color signs were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-155 If the color signs are checked carefully, the nurse supervisor can explain why they directed families. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-156 The astronomers reported that the new sensor recorded fainter signals than the earlier device.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-157 The new sensor, which the astronomers examined, recorded fainter signals than the earlier device.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-158 Than the earlier device, the astronomers changed the plan because the new sensor was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-159 If the new sensor is checked carefully, the astronomers can explain why it recorded fainter signals.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-160 Although than the earlier device, the astronomers found that the new sensor recorded fainter signals.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-161 The donation rules, which the volunteers examined, were posted clearly to prevent food waste.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-162 To prevent food waste, the volunteers changed the plan because the donation rules were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-163 If the donation rules are checked carefully, the volunteers can explain why they were posted clearly. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-164 Although it was to prevent food waste, the volunteers found that the donation rules were posted clearly. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-165 The volunteers reported that the donation rules were posted clearly to prevent food waste.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-166 After readers identified an error, the editor changed the plan because the correction notice was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-167 If the correction notice is checked carefully, the editor can explain why it was published online.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-168 Although it was after readers identified an error, the editor found that the correction notice was published online. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-169 The editor reported that the correction notice was published online after

readers identified an error.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-170 The correction notice, which the editor examined, was published online after readers identified an error.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-171 If the safety goggles are checked carefully, the instructor can explain why they must be worn. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-172 Although whenever the cutting tool is used, the instructor found that the safety goggles must be worn.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-173 The instructor reported that the safety goggles must be worn whenever the cutting tool is used.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-174 The safety goggles, which the instructor examined, must be worn whenever the cutting tool is used.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-175 Whenever the cutting tool is used, the instructor changed the plan because the safety goggles were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-176 Although when they missed a session, the director found that the rehearsal recording helped singers practice.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-177 The director reported that the rehearsal recording helped singers practice when they missed a session.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-178 The rehearsal recording, which the director examined, helped singers practice when they missed a session.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-179 When they missed a session, the director changed the plan because the rehearsal recording was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-180 If the rehearsal recording is checked carefully, the director can explain why it helped singers practice.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-181 The volunteers reported that the mobile form asked users to photograph leaves as evidence.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-182 The mobile form, which the volunteers examined, asked users to photograph leaves as evidence.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-183 As evidence, the volunteers changed the plan because the mobile form was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-184 If the mobile form is checked carefully, the volunteers can explain why it asked users to photograph leaves.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-185 Although as evidence, the volunteers found that the mobile form asked users to photograph leaves.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-186 The battery-powered model, which the student team examined, stopped working because one connection was loose.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-187 One connection was loose, the student team changed the plan because the battery-powered model was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-188 If the battery-powered model is checked carefully, the student team can explain why it stopped working.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-189 Although one connection was loose, the student team found that the

battery-powered model stopped working. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-190 The student team reported that the battery-powered model stopped working because one connection was loose.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-191 For students with allergies, the nutrition office changed the plan because the new labels were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-192 If the new labels are checked carefully, the nutrition office can explain why they show which meals contain nuts. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-193 Although for students with allergies, the nutrition office found that the new labels show which meals contain nuts.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-194 The nutrition office reported that the new labels show which meals contain nuts for students with allergies.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-195 The new labels, which the nutrition office examined, show which meals contain nuts for students with allergies.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-196 If the delivery schedule is checked carefully, the operators can explain why it changed.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-197 Although it was after fog delayed several ships, the operators found that the delivery schedule changed. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-198 The operators reported that the delivery schedule changed after fog delayed several ships.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-199 The delivery schedule, which the operators examined, changed after fog delayed several ships.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-200 After fog delayed several ships, the operators changed the plan because the delivery schedule was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-201 Although it was after sunset, the organizers found that the reflective markers made the route safer. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-202 The organizers reported that the reflective markers made the route safer after sunset.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-203 The reflective markers, which the organizers examined, made the route safer after sunset.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-204 After sunset, the organizers changed the plan because the reflective markers was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-205 If the reflective markers is checked carefully, the organizers can explain why it made the route safer.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-206 The interviewer reported that the recorded stories will be stored where families can hear them.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-207 The recorded stories, which the interviewer examined, will be stored where

families can hear them.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-208 Where families can hear them, the interviewer changed the plan because the recorded stories was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-209 If the recorded stories is checked carefully, the interviewer can explain why it will be stored.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-210 Although where families can hear them, the interviewer found that the recorded stories will be stored.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-211 The weatherproof coating, which the artists examined, protected the mural through two rainy seasons.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-212 Through two rainy seasons, the artists changed the plan because the weatherproof coating was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-213 If the weatherproof coating is checked carefully, the artists can explain why it protected the mural.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-214 Although through two rainy seasons, the artists found that the weatherproof coating protected the mural.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-215 The artists reported that the weatherproof coating protected the mural through two rainy seasons.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-216 Before students withdraw, the coordinator changed the plan because the weekly check-in was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-217 If the weekly check-in is checked carefully, the coordinator can explain why it helps mentors notice problems.; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-218 Although it was before students withdraw, the coordinator found that the weekly check-in helps mentors notice problems. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-219 The coordinator reported that the weekly check-in helps mentors notice problems before students withdraw.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-220 The weekly check-in, which the coordinator examined, helps mentors notice problems before students withdraw.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-221 If the older windows is checked carefully, the inspectors can explain why it was responsible for heat loss. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-222 Although in several homes, the inspectors found that the older windows were responsible for heat loss.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-223 The inspectors reported that the older windows were responsible for heat loss in several homes.; 宾语从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-224 The older windows, which the inspectors examined, were responsible for heat loss in several homes.; 关系从句;; 漏词/悬空连接/无先行词 =E- 证据 (C0—2)。

BS-225 In several homes, the inspectors changed the plan because the older win-

dows was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-226 Although saved electricity, the growers found that the sensor data suggested that watering at dawn.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-227 The growers reported that the sensor data suggested that watering at dawn saved electricity.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-228 The sensor data, which the growers examined, suggested that watering at dawn saved electricity.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-229 Saved electricity, the growers changed the plan because the sensor data was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-230 If the sensor data is checked carefully, the growers can explain why it suggested that watering at dawn.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-231 The technician reported that the caption display was adjusted so viewers at the back could read it.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-232 The caption display, which the technician examined, was adjusted so viewers at the back could read it.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-233 So viewers at the back could read it, the technician changed the plan because the caption display was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-234 If the caption display is checked carefully, the technician can explain why it was adjusted.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-235 Although so viewers at the back could read it, the technician found that the caption display was adjusted.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-236 The insect drawers, which the curator examined, were sealed to protect specimens from pests.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-237 To protect specimens from pests, the curator changed the plan because the insect drawers was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-238 If the insect drawers is checked carefully, the curator can explain why it was sealed. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-239 Although it was to protect specimens from pests, the curator found that the insect drawers were sealed. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-240 The curator reported that the insect drawers were sealed to protect specimens from pests.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-241 After two interpreters arrived late, the chair changed the plan because the speaker list was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-242 If the speaker list is checked carefully, the chair can explain why it was reordered.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-243 Although it was after two interpreters arrived late, the chair found that the speaker list was reordered. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-244 The chair reported that the speaker list was reordered after two interpreters arrived late.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-245 The speaker list, which the chair examined, was reordered after two inter-

preters arrived late.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-246 If the repair-service proposal is checked carefully, the judges can explain why it won support.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-247 Although it included a realistic budget, the judges found that the repair-service proposal won support. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-248 The judges reported that the repair-service proposal won support because it included a realistic budget.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-249 The repair-service proposal, which the judges examined, won support because it included a realistic budget.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-250 It included a realistic budget, the judges changed the plan because the repair-service proposal was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-251 Although it was before the summer program began, the maintenance crew found that the water filter was replaced. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-252 The maintenance crew reported that the water filter was replaced before the summer program began.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-253 The water filter, which the maintenance crew examined, was replaced before the summer program began.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-254 Before the summer program began, the maintenance crew changed the plan because the water filter was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-255 If the water filter is checked carefully, the maintenance crew can explain why it was replaced.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-256 The driver reported that the route map avoids narrow streets where the vehicle cannot turn.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-257 The route map, which the driver examined, avoids narrow streets where the vehicle cannot turn.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-258 Where the vehicle cannot turn, the driver changed the plan because the route map was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-259 If the route map is checked carefully, the driver can explain why it avoids narrow streets.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-260 Although where the vehicle cannot turn, the driver found that the route map avoids narrow streets.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-261 The field recordings, which the librarians examined, were labeled with dates and locations.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-262 With dates and locations, the librarians changed the plan because the field recordings was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-263 If the field recordings is checked carefully, the librarians can explain why it was labeled. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-264 Although with dates and locations, the librarians found that the field recordings were labeled.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-265 The librarians reported that the field recordings were labeled with dates and locations.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-266 That was immediately useful, the presenter changed the plan because the practice interviews was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-267 If the practice interviews is checked carefully, the presenter can explain why it gave participants feedback.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-268 Although that was immediately useful, the presenter found that the practice interviews gave participants feedback.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-269 The presenter reported that the practice interviews gave participants feedback that was immediately useful.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-270 The practice interviews, which the presenter examined, gave participants feedback that was immediately useful.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-271 If the first seedlings is checked carefully, the ecologists can explain why it survived.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-272 Although rainfall was scarce, the ecologists found that the first seedlings survived.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-273 The ecologists reported that the first seedlings survived although rainfall was scarce.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-274 The first seedlings, which the ecologists examined, survived although rainfall was scarce.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-275 Although rainfall was scarce, the ecologists changed the plan because the first seedlings was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-276 Although if an item is overdue, the assistant found that the return reminder is sent automatically.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-277 The assistant reported that the return reminder is sent automatically if an item is overdue.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-278 The return reminder, which the assistant examined, is sent automatically if an item is overdue.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-279 If an item is overdue, the assistant changed the plan because the return reminder was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-280 If the return reminder is checked carefully, the assistant can explain why it is sent automatically.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-281 The class reported that the beach survey revealed that bottle caps were especially common.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-282 The beach survey, which the class examined, revealed that bottle caps were especially common.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-283 That bottle caps were especially common, the class changed the plan because the beach survey was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-284 If the beach survey is checked carefully, the class can explain why it revealed.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-285 Although that bottle caps were especially common, the class found that the beach survey revealed.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0-2)。

BS-286 The morning group, which the parents examined, leaves at seven forty so

children arrive together.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-287 So children arrive together, the parents changed the plan because the morning group was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-288 If the morning group is checked carefully, the parents can explain why it leaves at seven forty.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-289 Although so children arrive together, the parents found that the morning group leaves at seven forty.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-290 The parents reported that the morning group leaves at seven forty so children arrive together.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-291 Until the doors opened smoothly, the engineers changed the plan because the elevator test was affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-292 If the elevator test is checked carefully, the engineers can explain why it was repeated.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-293 Although until the doors opened smoothly, the engineers found that the elevator test was repeated.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-294 The engineers reported that the elevator test was repeated until the doors opened smoothly.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-295 The elevator test, which the engineers examined, was repeated until the doors opened smoothly.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-296 If the compost signs are checked carefully, the vendors can explain why they were rewritten. [勘误]; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-297 Although it was after visitors confused the bins, the vendors found that the compost signs were rewritten. [勘误]; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-298 The vendors reported that the compost signs were rewritten after visitors confused the bins.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-299 The compost signs, which the vendors examined, were rewritten after visitors confused the bins.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-300 After visitors confused the bins, the vendors changed the plan because the compost signs were affected. [勘误]; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-301 Although the appointment link was placed at the top, users found that it was hard to find help quickly.; 让步从句与主句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-302 The web team reported that the appointment link was placed at the top so users could find help quickly.; 宾语从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-303 The appointment link, which the web team examined, was placed at the top so users could find help quickly.; 关系从句;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-304 Because the appointment link was affected, the web team changed the plan so users could find help quickly.; 原因与结果;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

BS-305 If the appointment link is checked carefully, the web team can explain why it was placed at the top.; 条件与时间;; 漏词/悬空连接/无先行词 =E-证据 (C0—2)。

20.5.2 19.4.2 EC-001—080: 邮件任务要点、评分与代表性样本

EC-001 相关负责人: 说明具体情况; 说明不能延后原因; 请求相近设备或时段; 承诺测试归还; T/D/O/L 各 0—2; 无请求 =T。

EC-002 相关负责人: 说明具体情况; 说明冲突; 询问补训或合规替代; 确认前不进入实验室; T/D/O/L 各 0—2; 无请求 =T。

EC-003 相关负责人: 说明具体情况; 给地点时段; 请求维修和临时指引; 提供观察记录; T/D/O/L 各 0—2; 无请求 =T。

EC-004 相关负责人: 说明具体情况; 尽早说明; 提下午班或远程准备; 询问最有帮助选择; T/D/O/L 各 0—2; 无请求 =T。

EC-005 相关负责人: 说明具体情况; 说明障碍; 请求可访问版本; 确认按时完成; T/D/O/L 各 0—2; 无请求 =T。

EC-006 相关负责人: 说明具体情况; 说明限制; 请求交换角色; 列可交付部分; T/D/O/L 各 0—2; 无请求 =T。

EC-007 相关负责人: 说明具体情况; 描述问题; 给入户时段; 请求预约确认; T/D/O/L 各 0—2; 无请求 =T。

EC-008 相关负责人: 说明具体情况; 给日期站点记录; 请求核查更正; 提供截图; T/D/O/L 各 0—2; 无请求 =T。

EC-009 相关负责人: 说明具体情况; 说明人数时间; 请求优先或替代空间; 给设备底线; T/D/O/L 各 0—2; 无请求 =T。

EC-010 相关负责人: 说明具体情况; 说明状态; 请求调整或非现场任务; 说明已行动; T/D/O/L 各 0—2; 无请求 =T。

EC-011 相关负责人: 说明具体情况; 说明目的受众; 请求许可和署名要求; 承诺遵守限制; T/D/O/L 各 0—2; 无请求 =T。

EC-012 相关负责人: 说明具体情况; 客观说明风险; 请求确认配料/更新标签; 说明受益者; T/D/O/L 各 0—2; 无请求 =T。

EC-013 相关负责人: 说明具体情况; 给充值时间错误; 请求检查/临时通行; 安全处理卡号; T/D/O/L 各 0—2; 无请求 =T。

EC-014 相关负责人: 说明具体情况; 简要说明; 给两个时段; 附已准备问题; T/D/O/L 各 0—2; 无请求 =T。

EC-015 相关负责人: 说明具体情况; 如实描述; 询问处理费用; 承诺尽快归还; T/D/O/L 各 0—2; 无请求 =T。

EC-016 相关负责人: 说明具体情况; 给时间地点; 请求调整或收纳; 提志愿协助; T/D/O/L 各 0—2; 无请求 =T。

EC-017 相关负责人: 说明具体情况; 说明已尝试步骤; 询问校园地点/提交方式; 请求确认; T/D/O/L 各 0—2; 无请求 =T。

EC-018 相关负责人: 说明具体情况; 给准确名称证据; 请求更正; 说明社区影响; T/D/O/L 各 0—2; 无请求 =T。

EC-019 相关负责人: 说明具体情况; 给差额原因; 请求调整; 比较两方案; T/D/O/L 各 0—2; 无请求 =T。

EC-020 相关负责人: 说明具体情况; 说明状态; 询问准备工作; 承诺完成后服务; T/D/O/L 各 0—2; 无请求 =T。

EC-021 相关负责人: 说明具体情况; 给特征时间; 询问领取流程; 不要求无谓搜索; T/D/O/L 各 0—2; 无请求 =T。

EC-022 相关负责人: 说明具体情况; 感谢原安排; 请求替代联系人或新日期; 说明时间线; T/D/

O/L 各 0—2; 无请求 =T。

EC-023 相关负责人: 说明具体情况; 报告现象和尝试; 请求维修; 提临时地点; T/D/O/L 各 0—2; 无请求 =T。

EC-024 相关负责人: 说明具体情况; 给时段; 请求沟通协助; 愿先友好交流; T/D/O/L 各 0—2; 无请求 =T。

EC-025 相关负责人: 说明具体情况; 说明需求; 请求人工字幕/讲稿; 说明材料用途; T/D/O/L 各 0—2; 无请求 =T。

EC-026 相关负责人: 说明具体情况; 说明位置; 请求移到允许高流量区; 承诺遵守规则; T/D/O/L 各 0—2; 无请求 =T。

EC-027 相关负责人: 说明具体情况; 说明限制; 询问拼车/替代点; 愿分担费用; T/D/O/L 各 0—2; 无请求 =T。

EC-028 相关负责人: 说明具体情况; 说明已联系; 请求新匹配/建议; 表示继续参与; T/D/O/L 各 0—2; 无请求 =T。

EC-029 相关负责人: 说明具体情况; 说明模式; 请求标识/试点; 提教育协助; T/D/O/L 各 0—2; 无请求 =T。

EC-030 相关负责人: 说明具体情况; 客观描述操作; 请求检查隐私; 不写身份; T/D/O/L 各 0—2; 无请求 =T。

EC-031 相关负责人: 说明具体情况; 给追踪信息风险; 询问能否处理; 提重寄方案; T/D/O/L 各 0—2; 无请求 =T。

EC-032 相关负责人: 说明具体情况; 说明确认需求; 请求菜单确认; 问交叉接触; T/D/O/L 各 0—2; 无请求 =T。

EC-033 相关负责人: 说明具体情况; 提供来源; 请求审查; 说明导航文化影响; T/D/O/L 各 0—2; 无请求 =T。

EC-034 相关负责人: 说明具体情况; 说明临时性; 请求设备/访问; 列优先任务; T/D/O/L 各 0—2; 无请求 =T。

EC-035 相关负责人: 说明具体情况; 给位置时段; 请求检查/巡查; 说明安全影响; T/D/O/L 各 0—2; 无请求 =T。

EC-036 相关负责人: 说明具体情况; 给准确拼写截止; 请求更正; 按规定证明; T/D/O/L 各 0—2; 无请求 =T。

EC-037 相关负责人: 说明具体情况; 说明协调问题; 请求权限/流程; 承诺遵守规范; T/D/O/L 各 0—2; 无请求 =T。

EC-038 相关负责人: 说明具体情况; 给人数变化; 请求预算/捐赠; 比较缩小与增购; T/D/O/L 各 0—2; 无请求 =T。

EC-039 相关负责人: 说明具体情况; 说明时间戳; 请求核对; 说明想理解依据; T/D/O/L 各 0—2; 无请求 =T。

EC-040 相关负责人: 说明具体情况; 给地点天气; 请求维修/警示; 提供照片; T/D/O/L 各 0—2; 无请求 =T。

EC-041 相关负责人: 说明具体情况; 说明截止; 请求转移权限; 不删除贡献; T/D/O/L 各 0—2; 无请求 =T。

EC-042 相关负责人: 说明具体情况; 说明范围; 请求许可/合规指引; 承诺保密; T/D/O/L 各 0—2; 无请求 =T。

EC-043 相关负责人: 说明具体情况; 说明用途; 询问公开致谢偏好; 提可审阅草稿; T/D/O/L 各 0—2; 无请求 =T。

EC-044 相关负责人: 说明具体情况; 说明重叠; 请求调房/时; 提可行选择; T/D/O/L 各 0—2; 无请求 =T。

- EC-045** 相关负责人: 说明具体情况; 说明天气阈值; 请求提前决定室内任务; 列可转移工作; T/D/O/L 各 0—2; 无请求 =T。
- EC-046** 相关负责人: 说明具体情况; 给大小截止尝试; 请求替代存储; 确认权限; T/D/O/L 各 0—2; 无请求 =T。
- EC-047** 相关负责人: 说明具体情况; 给可复现时段; 请求维修状态; 不求特殊优待; T/D/O/L 各 0—2; 无请求 =T。
- EC-048** 相关负责人: 说明具体情况; 说明完成范围; 请求审核/样例; 承诺修改; T/D/O/L 各 0—2; 无请求 =T。
- EC-049** 相关负责人: 说明具体情况; 给新总数饮食; 请求调整; 给最晚时间; T/D/O/L 各 0—2; 无请求 =T。
- EC-050** 相关负责人: 说明具体情况; 说明经验缺口; 请求短训/路线图; 承诺自学; T/D/O/L 各 0—2; 无请求 =T。
- EC-051** 相关负责人: 说明具体情况; 说明影响; 请求续订/临时许可; 给使用情况; T/D/O/L 各 0—2; 无请求 =T。
- EC-052** 相关负责人: 说明具体情况; 说明观察; 请求简明/多语说明; 提可测试; T/D/O/L 各 0—2; 无请求 =T。
- EC-053** 相关负责人: 说明具体情况; 说明用途期限; 请求同意; 尊重隐私并提替代; T/D/O/L 各 0—2; 无请求 =T。
- EC-054** 相关负责人: 说明具体情况; 按安全步骤验证; 请求更新确认; 不写敏感信息; T/D/O/L 各 0—2; 无请求 =T。
- EC-055** 相关负责人: 说明具体情况; 说明限制可做工作; 请求分配轻任务; 确认到场; T/D/O/L 各 0—2; 无请求 =T。
- EC-056** 相关负责人: 说明具体情况; 给错误/正确链接; 请求更正; 说明截止影响; T/D/O/L 各 0—2; 无请求 =T。
- EC-057** 相关负责人: 说明具体情况; 说明状态; 请求审核流程; 承诺不先上传; T/D/O/L 各 0—2; 无请求 =T。
- EC-058** 相关负责人: 说明具体情况; 给记录范围; 请求紧急检查/备用; 说明时效; T/D/O/L 各 0—2; 无请求 =T。
- EC-059** 相关负责人: 说明具体情况; 说明可承担; 请求提纲; 说明保障质量; T/D/O/L 各 0—2; 无请求 =T。
- EC-060** 相关负责人: 说明具体情况; 给车次时间表现; 请求检查; 不怪司机; T/D/O/L 各 0—2; 无请求 =T。
- EC-061** 相关负责人: 说明具体情况; 说明岗位时长; 请求两三维度; 给截止; T/D/O/L 各 0—2; 无请求 =T。
- EC-062** 相关负责人: 说明具体情况; 说明地点路线无障碍; 请求确认; 提供取消渠道; T/D/O/L 各 0—2; 无请求 =T。
- EC-063** 相关负责人: 说明具体情况; 说明用途位置; 请求规则审批; 获准再买; T/D/O/L 各 0—2; 无请求 =T。
- EC-064** 相关负责人: 说明具体情况; 概述事实; 请求按准则处理; 说明环境影响; T/D/O/L 各 0—2; 无请求 =T。
- EC-065** 相关负责人: 说明具体情况; 立即如实说明; 询问备用/赔偿; 暂停使用; T/D/O/L 各 0—2; 无请求 =T。
- EC-066** 相关负责人: 说明具体情况; 说明关联时间; 请求候补/录像; 不插队; T/D/O/L 各 0—2; 无请求 =T。
- EC-067** 相关负责人: 说明具体情况; 说明使用模式; 请求评估移动; 提数据收集; T/D/O/L 各 0

—2; 无请求 = T。

EC-068 相关负责人: 说明具体情况; 只说明时间需求; 请求转介; 确认保密渠道; T/D/O/L 各 0—2; 无请求 = T。

EC-069 相关负责人: 说明具体情况; 说明障碍; 请求书面/慢速; 提图示; T/D/O/L 各 0—2; 无请求 = T。

EC-070 相关负责人: 说明具体情况; 非指责描述; 提轮值; 邀请调整; T/D/O/L 各 0—2; 无请求 = T。

EC-071 相关负责人: 说明具体情况; 说明两信息截止; 请求确认标准; 提调整条件; T/D/O/L 各 0—2; 无请求 = T。

EC-072 相关负责人: 说明具体情况; 感谢原时间; 解释技术问题; 请求短重录/书面补充; T/D/O/L 各 0—2; 无请求 = T。

EC-073 相关负责人: 说明具体情况; 给设备编号现象; 请求维修/替换; 不写密码; T/D/O/L 各 0—2; 无请求 = T。

EC-074 相关负责人: 说明具体情况; 给尺寸试穿; 请求替换/改衣; 安排归还; T/D/O/L 各 0—2; 无请求 = T。

EC-075 相关负责人: 说明具体情况; 说明目的; 请求讲义关键词; 承诺保密; T/D/O/L 各 0—2; 无请求 = T。

EC-076 相关负责人: 说明具体情况; 说明时长用途; 请求规则; 不擅入公共区; T/D/O/L 各 0—2; 无请求 = T。

EC-077 相关负责人: 说明具体情况; 说明已有缺口; 请求确认/借用; 提早提出; T/D/O/L 各 0—2; 无请求 = T。

EC-078 相关负责人: 说明具体情况; 说明可访问性; 请求色彩/纹理; 说明不改数据; T/D/O/L 各 0—2; 无请求 = T。

EC-079 相关负责人: 说明具体情况; 说明你何时发现问题; 请求补货或确认替代物; 说明活动...; T/D/O/L 各 0—2; 无请求 = T。

EC-080 相关负责人: 说明具体情况; 说明可观察到的版本差异; 请求比较或恢复记录; 提出以...; T/D/O/L 各 0—2; 无请求 = T。

20.5.5 19.4.5 写作代表性高/中/低表现 (适用于 EC 与 AD)

邮件任务示例 (“设备故障, 申请替代方案”)。低: *My device is broken. Help me.* ——问题和请求都不具体, T/D=0—1。**中:** *My device stopped working this morning. Could I borrow another one?* ——有背景和请求, 但缺少设备/时间或自己的后续行动, T/D=1。**高:** *My reserved recorder stopped charging this morning, so I cannot complete the 3 p.m. interview as planned. Could I borrow the wired backup from the media desk, or should I move the booking to tomorrow? I can arrive at 2:30 with my confirmation number and will return any replacement before closing. Thank you for advising me.* ——事实、可选请求与可执行下一步齐全, T/D/O/L=2。

讨论任务示例 (“有限预算先改善可达性还是先增加活动?”)。低: *I agree with A. Activities are good.* ——没有回应机制或例子, T/D=0—1。**中:** *I would improve access first because more people could join activities.* ——立场明确但发展很短, D=1。**高:** *I agree with A that activities matter, but I would first repair the entrance ramp. A new weekend program will not help a resident who cannot enter the building. Once the ramp is usable, the same activity budget reaches wheelchair users, parents with strollers, and older visitors instead of serving only those already inside. This order does not reject activities; it makes their audience wider.* ——回应同学、限定立场、机制和具体受众完整, T/D/O/L=2。

20.6 19.5 第 17 章 | 口语: 400 句复述与 100 组采访的评分入口

20.6.1 19.5.1 LR-001—400: 逐句精听锚点与复述核对

LR-001、LR-002、LR-003、LR-004、LR-005、LR-006、LR-007、LR-008、LR-009、LR-010 精听: 人物/动作/时间与词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-011、LR-012、LR-013、LR-014、LR-015、LR-016、LR-017、LR-018、LR-019、LR-020 精听: 地点/介词与复数词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-021、LR-022、LR-023、LR-024、LR-025、LR-026、LR-027、LR-028、LR-029、LR-030 精听: 路线顺序与末尾辅音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-031、LR-032、LR-033、LR-034、LR-035、LR-036、LR-037、LR-038、LR-039、LR-040 精听: 日期、时间和 before/after; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-041、LR-042、LR-043、LR-044、LR-045、LR-046、LR-047、LR-048、LR-049、LR-050 精听: 请求动词与句末降调; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-051、LR-052、LR-053、LR-054、LR-055、LR-056、LR-057、LR-058、LR-059、LR-060 精听: 核心动词和多音节重音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-061、LR-062、LR-063、LR-064、LR-065、LR-066、LR-067、LR-068、LR-069、LR-070 精听: 人物—任务对应; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-071、LR-072、LR-073、LR-074、LR-075、LR-076、LR-077、LR-078、LR-079、LR-080 精听: 条件与并列节奏; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-081、LR-082、LR-083、LR-084、LR-085、LR-086、LR-087、LR-088、LR-089、LR-090 精听: 否定、比较和限制词; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-091、LR-092、LR-093、LR-094、LR-095、LR-096、LR-097、LR-098、LR-099、LR-100 精听: 因果词与动作结果; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-101、LR-102、LR-103、LR-104、LR-105、LR-106、LR-107、LR-108、LR-109、LR-110 精听: 人物/动作/时间与词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-111、LR-112、LR-113、LR-114、LR-115、LR-116、LR-117、LR-118、LR-119、LR-120 精听: 地点/介词与复数词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-121、LR-122、LR-123、LR-124、LR-125、LR-126、LR-127、LR-128、LR-129、LR-130 精听: 路线顺序与末尾辅音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-131、LR-132、LR-133、LR-134、LR-135、LR-136、LR-137、LR-138、LR-139、LR-140 精听: 日期、时间和 before/after; 首录后补一个漏点。内部 0—4 看信息/关系/意群/可

懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-141、LR-142、LR-143、LR-144、LR-145、LR-146、LR-147、LR-148、LR-149、LR-150 精听: 请求动词与句末降调; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-151、LR-152、LR-153、LR-154、LR-155、LR-156、LR-157、LR-158、LR-159、LR-160 精听: 核心动词和多音节重音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-161、LR-162、LR-163、LR-164、LR-165、LR-166、LR-167、LR-168、LR-169、LR-170 精听: 人物—任务对应; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-171、LR-172、LR-173、LR-174、LR-175、LR-176、LR-177、LR-178、LR-179、LR-180 精听: 条件与并列节奏; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-181、LR-182、LR-183、LR-184、LR-185、LR-186、LR-187、LR-188、LR-189、LR-190 精听: 否定、比较和限制词; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-191、LR-192、LR-193、LR-194、LR-195、LR-196、LR-197、LR-198、LR-199、LR-200 精听: 因果词与动作结果; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-201、LR-202、LR-203、LR-204、LR-205、LR-206、LR-207、LR-208、LR-209、LR-210 精听: 人物/动作/时间与词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-211、LR-212、LR-213、LR-214、LR-215、LR-216、LR-217、LR-218、LR-219、LR-220 精听: 地点/介词与复数词尾; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-221、LR-222、LR-223、LR-224、LR-225、LR-226、LR-227、LR-228、LR-229、LR-230 精听: 路线顺序与末尾辅音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-231、LR-232、LR-233、LR-234、LR-235、LR-236、LR-237、LR-238、LR-239、LR-240 精听: 日期、时间和 before/after; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-241、LR-242、LR-243、LR-244、LR-245、LR-246、LR-247、LR-248、LR-249、LR-250 精听: 请求动词与句末降调; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-251、LR-252、LR-253、LR-254、LR-255、LR-256、LR-257、LR-258、LR-259、LR-260 精听: 核心动词和多音节重音; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-261、LR-262、LR-263、LR-264、LR-265、LR-266、LR-267、LR-268、LR-269、LR-270 精听: 人物—任务对应; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-271、LR-272、LR-273、LR-274、LR-275、LR-276、LR-277、LR-278、LR-279、LR-280 精听: 条件与并列节奏; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏否定、比较、条件或词尾 =S- 语流。

LR-281、LR-282、LR-283、LR-284、LR-285、LR-286、LR-287、LR-288、LR-289、LR-290 精听: 否定、比较和限制词; 首录后补一个漏点。内部 0—4 看信息/关系/意群/懂度; 漏

否定、比较、条件或词尾 =S- 语流。

LR-291、LR-292、LR-293、LR-294、LR-295、LR-296、LR-297、LR-298、LR-299、LR-300 精听：因果词与动作结果；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-301、LR-302、LR-303、LR-304、LR-305、LR-306、LR-307、LR-308、LR-309、LR-310 精听：人物/动作/时间与词尾；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-311、LR-312、LR-313、LR-314、LR-315、LR-316、LR-317、LR-318、LR-319、LR-320 精听：地点/介词与复数词尾；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-321、LR-322、LR-323、LR-324、LR-325、LR-326、LR-327、LR-328、LR-329、LR-330 精听：路线顺序与末尾辅音；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-331、LR-332、LR-333、LR-334、LR-335、LR-336、LR-337、LR-338、LR-339、LR-340 精听：日期、时间和 before/after；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-341、LR-342、LR-343、LR-344、LR-345、LR-346、LR-347、LR-348、LR-349、LR-350 精听：请求动词与句末降调；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-351、LR-352、LR-353、LR-354、LR-355、LR-356、LR-357、LR-358、LR-359、LR-360 精听：核心动词和多音节重音；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-361、LR-362、LR-363、LR-364、LR-365、LR-366、LR-367、LR-368、LR-369、LR-370 精听：人物—任务对应；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-371、LR-372、LR-373、LR-374、LR-375、LR-376、LR-377、LR-378、LR-379、LR-380 精听：条件与并列节奏；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-381、LR-382、LR-383、LR-384、LR-385、LR-386、LR-387、LR-388、LR-389、LR-390 精听：否定、比较和限制词；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

LR-391、LR-392、LR-393、LR-394、LR-395、LR-396、LR-397、LR-398、LR-399、LR-400 精听：因果词与动作结果；首录后补一个漏点。内部 0—4 看信息/关系/意群/可懂度；漏否定、比较、条件或词尾 =S- 语流。

20.6.2 19.5.2 INT-001—100：连续采访的任务完成与追问路径

INT-001 安静还是热闹的学习地点；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-002 早计划还是临时决定；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-003 独学还是结伴学习；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-004 纸质笔记还是电子笔记；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-005 早晨任务还是夜晚任务；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-006 常走路线还是新路线；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

INT-007 独自用餐还是与人用餐；45 秒：立场 → 理由 → 例子 → 回扣；R/D/I/C0—4；无例 =D。

- INT-008** 买新物品前的判断; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-009** 休息的方式; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-010** 向别人求助; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-011** 周末在家还是出门; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-012** 保留旧物还是更新物品; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-013** 收到建议时的反应; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-014** 学习新词的方式; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-015** 是否接受临时邀请; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-016** 看说明书还是直接尝试; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-017** 拍照还是专心体验; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-018** 更长但更安全的路; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-019** 什么时候分享个人消息; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-020** 是否定期整理物品; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-021** 选择一项新爱好; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-022** 礼物重在实用还是心意; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-023** 排队时怎么做; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-024** 短信息还是语音消息; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-025** 朋友迟到时的反应; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-026** 图书馆的一项改进; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-027** 校园是否增加自行车道; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-028** 小组任务的分配; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-029** 社区预算的优先项; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-030** 是否限制课堂手机; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-031** 活动应在晚上还是周末; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-032** 保留旧建筑还是新建设施; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-033** 新生应该参加什么活动; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-034** 公共艺术的价值; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-035** 学校食堂减少浪费; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-036** 是否给学生更多选课自由; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-037** 是否开放社区花园; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-038** 学生是否要做社区服务; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-039** 是否增加无车日; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-040** 公告用纸质还是数字; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-041** 节日活动应更大还是更小; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-042** 是否设置共享工具站; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-043** 夜间课程的安排; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-044** 是否扩大宠物友好空间; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-045** 学校是否使用匿名反馈; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-046** 公交站需要什么; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-047** 共享厨房的规则; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-048** 公共区域是否播放音乐; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-049** 课本是否应开放获取; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。

- INT-050** 新邻居的欢迎方式; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-051** 接受反馈的方式; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-052** 是否先练习再展示; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-053** 团队里的安静成员; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-054** 紧急任务与重要任务; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-055** 学习中使用 AI 工具; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-056** 学会新软件的办法; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-057** 远程会议还是面对面会议; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-058** 出现错误后的沟通; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-059** 重复任务如何保持认真; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-060** 是否临时改变立场; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-061** 解释复杂想法; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-062** 面对不清楚的要求; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-063** 专业与兴趣的选择; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-064** 训练新员工的重点; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-065** 面对资源有限的项目; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-066** 处理组内分歧; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-067** 检查信息是否可靠; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-068** 长期项目的动力; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-069** 给忙碌的人安排学习; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-070** 是否公开团队进度; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-071** 高效会议的必要条件; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-072** 改变一个日常流程; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-073** 克服说话紧张; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-074** 是否追求完美; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-075** 选择导师或教练; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-076** 方便与隐私; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-077** 算法推荐的影响; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-078** 自动化与人的判断; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-079** 公共讨论的规则; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-080** 效率与公平; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-081** 城市更新的优先级; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-082** 教育中的合作与竞争; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-083** 文化传统的改变; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-084** 在不确定下做决定; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-085** 全球问题与本地行动; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-086** 个人化学习与共同标准; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-087** 可靠的信息环境; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-088** 共享资源的分配; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-089** 错误能否成为学习机会; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-090** 衡量一个项目的成功; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-091** 表达不同意见的责任; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-092** 技术便利造成的依赖; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
- INT-093** 何时公开不确定性; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。

- INT-094** 环境选择中的个人限制; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-095 改变工作或学习文化; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-096 公平并不总是相同; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-097 传统知识与新证据; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-098 远期利益与眼前需求; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-099 为他人做决定的边界; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。
INT-100 什么是可持续的进步; 45 秒: 立场 → 理由 → 例子 → 回扣; R/D/I/C0—4; 无例 =D。

20.6.3 19.5.3 口语代表性高/中/低表现

LR 示例。原句: *Although the room is smaller, it is closer to the laboratory and costs less to reserve.* **低:** *The room is small and near the lab.* ——漏掉让步和更便宜。**中:** *Although the room is smaller, it is closer to the lab and cost less.* ——三项核心信息都在, 词尾可修。**高:** *Although the room is **smaller**, it is **closer** to the laboratory and costs **less** to reserve.* ——比较链完整、意群自然。

INT 示例。问题: *Would you take a longer route if it were quieter and safer?* **低:** *Yes. Safe is good.* ——立场未发展。**中:** *I would, because safety matters when I walk home after class.* ——有原因, 例子仍短。**高:** *I would take it if the extra time were about ten minutes. After an evening class, a well-lit route lets me focus on getting home instead of watching every corner. If I were already late, I would call someone and choose the faster route.* ——条件、机制、场景和自然的可追问细节齐全。

20.7 19.6 第 18 章 | 六套完整模考: R/L 完整答案与 W/S 核对

20.7.1 19.6.1 M01: 客观题答案、证据与关键干扰

M01-R01 A (选项 A); 规则: 词根、句法槽位与完整单词拼写; B“选项 B” 错层/限; V- 词形。

M01-R02 A (vent); 规则: 词根、句法槽位与完整单词拼写; B“pare” 错层/限; V- 词形。

M01-R03 A (选项 A); 规则: 词根、句法槽位与完整单词拼写; B“选项 B” 错层/限; V- 词形。

M01-R04 A (mate); 规则: 词根、句法槽位与完整单词拼写; B“mend” 错层/限; V- 词形。

M01-R05 B (quest); 规则: 词根、句法槽位与完整单词拼写; A“serve” 错层/限; V- 词形。

M01-R06 A (tify); 规则: 词根、句法槽位与完整单词拼写; B“tical” 错层/限; V- 词形。

M01-R07 A (ible); 规则: 词根、句法槽位与完整单词拼写; B“ion” 错层/限; V- 词形。

M01-R08 A (oughly); 规则: 词根、句法槽位与完整单词拼写; B“ough” 错层/限; V- 词形。

M01-R09 B (选项 B); 规则: 公告/邮件的对象、行动、时间与限制; A“选项 A” 错层/限; R2。

M01-R10 B (A reusable assigned...); 规则: 公告/邮件的对象、行动、时间与限制; A“A photo of th...” 错层/限; R2。

M01-R11 C (To release food for...); 规则: 公告/邮件的对象、行动、时间与限制; A“To change ent...” 错层/限; R2。

M01-R12 C (选项 C); 规则: 公告/邮件的对象、行动、时间与限制; A“选项 A” 错层/限; R2。

M01-R13 B (To introduce kitche...); 规则: 公告/邮件的对象、行动、时间与限制; A“To assign wee...” 错层/限; R2。

M01-R14 C (5:40 p.m.); 规则: 公告/邮件的对象、行动、时间与限制; A“5:15 p.m.” 错层/限;

R2。

M01-R15 B (Wear closed shoes); 规则: 公告/邮件的对象、行动、时间与限制; A“Prepare a meal” 错层/限; R2。

M01-R16 D (Cook food Community...); 规则: 公告/邮件的对象、行动、时间与限制; A“Learn labeling” 错层/限; R2。

M01-R17 B (选项 B); 规则: 公告/邮件的对象、行动、时间与限制; A“选项 A” 错层/限; R2。

M01-R18 C (Seeds); 规则: 公告/邮件的对象、行动、时间与限制; A“Crops” 错层/限; R2。

M01-R19 B (A success and a fut...); 规则: 公告/邮件的对象、行动、时间与限制; A“Two crop pric...” 错层/限; R2。

M01-R20 C (选项 C); 规则: 公告/邮件的对象、行动、时间与限制; A“选项 A” 错层/限; R2。

M01-R21 B (Community food proj...); 规则: 段落主张、直接证据与限制句; A“Gardens succe...” 错层/限; R4。

M01-R22 A (To describe a job t...); 规则: 段落主张、直接证据与限制句; B“To show that ...” 错层/限; R4。

M01-R23 B (long-lasting); 规则: 段落主张、直接证据与限制句; A“expensive” 错层/限; R4。

M01-R24 A (选项 A); 规则: 段落主张、直接证据与限制句; B“选项 B” 错层/限; R4。

M01-R25 B (Repeated small task...); 规则: 段落主张、直接证据与限制句; A“A garden's so...” 错层/限; R4。

M01-R26 B (To identify reasons...); 规则: 段落主张、直接证据与限制句; A“To advertise ...” 错层/限; R4。

M01-R27 C (选项 C); 规则: 段落主张、直接证据与限制句; A“选项 A” 错层/限; R4。

M01-R28 A (the process that pr...); 规则: 段落主张、直接证据与限制句; B“a machine use...” 错层/限; R4。

M01-R29 B (They can reveal a p...); 规则: 段落主张、直接证据与限制句; A“They are usel...” 错层/限; R4。

M01-R30 C (Pair waste records ...); 规则: 段落主张、直接证据与限制句; A“Stop weighing...” 错层/限; R4。

M01-R31 B (选项 B); 规则: 段落主张、直接证据与限制句; A“选项 A” 错层/限; R4。

M01-R32 A (To show one local f...); 规则: 段落主张、直接证据与限制句; B“To argue that...” 错层/限; R4。

M01-R33 B (选项 B); 规则: 段落主张、直接证据与限制句; A“选项 A” 错层/限; R4。

M01-R34 B (选项 B); 规则: 段落主张、直接证据与限制句; A“选项 A” 错层/限; R4。

M01-R35 D (选项 D); 规则: 段落主张、直接证据与限制句; A“选项 A” 错层/限; R4。

M01-L01 A (选项 A); 规则: 当前话语功能和可自然推进的回应; B“选项 B” 错层/限; L2。

M01-L02 A (Yes, the location h...); 规则: 当前话语功能和可自然推进的回应; B“I picked a st...” 错层/限; L2。

M01-L03 A (The tags are on the...); 规则: 当前话语功能和可自然推进的回应; B“I named the v...” 错层/限; L2。

M01-L04 A (选项 A); 规则: 当前话语功能和可自然推进的回应; B“选项 B” 错层/限; L2。

M01-L05 A (Please keep the exi...); 规则: 当前话语功能和可自然推进的回应; B“The shift sta...” 错层/限; L2。

M01-L06 A (Then ask the kitche...); 规则: 当前话语功能和可自然推进的回应; B“Soup is an in...” 错层/限; L2。

M01-L07 A (Not yet; I am check...); 规则: 当前话语功能和可自然推进的回应; B“The

schedule ...” 错层/限; L2。

M01-L08 A (That works; I am fr...); 规则: 当前话语功能和可自然推进的回应; B“The count has...” 错层/限; L2。

M01-L09 A (选项 A); 规则: 当前话语功能和可自然推进的回应; B“选项 B” 错层/限; L2。

M01-L10 A (Yes, if you stay wi...); 规则: 当前话语功能和可自然推进的回应; B“My brother is...” 错层/限; L2。

M06-L15 A (A follow-up check o...); 规则: 问题—限制—方案/下一步; B“More attendees” 错层/限; L3/L4。

M06-L16 B (Useful but incomple...); 规则: 问题—限制—方案/下一步; A“Useless” 错层/限; L3/L4。

M06-L17 A (选项 A); 规则: 问题—限制—方案/下一步; B“选项 B” 错层/限; L3/L4。

M06-L18 A (Devices must be mat...); 规则: 问题—限制—方案/下一步; B“The lab start..." 错层/限; L3/L4。

M06-L19 A (Dates, definitions,...); 规则: 问题—限制—方案/下一步; B“Programming o..." 错层/限; L3/L4。

M06-L20 B (The city portal); 规则: 问题—限制—方案/下一步; A“The lab” 错层/限; L3/L4。

M06-L21 A (选项 A); 规则: 概念、例子、结论与保留条件; B“选项 B” 错层/限; L4。

M06-L22 B (They may reflect or...); 规则: 概念、例子、结论与保留条件; A“They always p..." 错层/限; L4。

- M06-L23** A (Whether method and ...); 规则: 概念、例子、结论与保留条件; B “Only whether ...” 错层/限; L4。
- M06-L24** B (选项 B); 规则: 概念、例子、结论与保留条件; A “选项 A” 错层/限; L4。
- M06-L25** B (display → ask about...); 规则: 概念、例子、结论与保留条件; A “rising line →...” 错层/限; L4。
- M06-L26** A (They can hide mixed...); 规则: 概念、例子、结论与保留条件; B “They have no ...” 错层/限; L4。
- M06-L27** A (选项 A); 规则: 概念、例子、结论与保留条件; B “选项 B” 错层/限; L4。
- M06-L28** A (Allow multiple tags...); 规则: 概念、例子、结论与保留条件; B “Delete reports” 错层/限; L4。
- M06-L29** A (Future decisions re...); 规则: 概念、例子、结论与保留条件; B “Wall color” 错层/限; L4。
- M06-L30** B (Designing categorie...); 规则: 概念、例子、结论与保留条件; A “Why every rep...” 错层/限; L4。
- M06-L31** A (选项 A); 规则: 概念、例子、结论与保留条件; B “选项 B” 错层/限; L4。
- M06-L32** A (Every request will ...); 规则: 概念、例子、结论与保留条件; B “A report was ...” 错层/限; L4。
- M06-L33** A (Receipt, schedule, ...); 规则: 概念、例子、结论与保留条件; B “A diagnosis” 错层/限; L4。
- M06-L34** A (选项 A); 规则: 概念、例子、结论与保留条件; B “选项 B” 错层/限; L4。
- M06-L35** B (选项 B); 规则: 概念、例子、结论与保留条件; A “选项 A” 错层/限; L4。

20.7.7 19.6.7 六套卷 W/S: 任务完成、内部评分与代表性表现

- M01-W01** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W02** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W03** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W04** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W05** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W06** 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。
- M01-W07** 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。
- M01-W08** 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。
- M01-W09** 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。
- M01-W10** 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。
- M01-W11** 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。
- M01-W12** 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。
- M01-S01** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S02** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S03** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S04** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S05** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S06** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S07** 人/动作/关系完整; 0—4; 漏关系 =S-语流。
- M01-S08** 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。
- M01-S09** 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M01-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M01-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M01 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

M02-W01 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W02 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W03 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W04 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W05 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W06 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M02-W07 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M02-W08 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M02-W09 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M02-W10 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M02-W11 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M02-W12 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M02-S01 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S02 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S03 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S04 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S05 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S06 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S07 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M02-S08 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M02-S09 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M02-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M02-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M02 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

M03-W01 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W02 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W03 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W04 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W05 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W06 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M03-W07 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M03-W08 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M03-W09 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M03-W10 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M03-W11 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M03-W12 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M03-S01 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M03-S02 人/动作/关系完整; 0—4; 漏关系 =S-语流。

M03-S03 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M03-S04 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M03-S05 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M03-S06 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M03-S07 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M03-S08 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M03-S09 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M03-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M03-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M03 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

M04-W01 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W02 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W03 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W04 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W05 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W06 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M04-W07 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M04-W08 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M04-W09 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M04-W10 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M04-W11 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M04-W12 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 =D。

M04-S01 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S02 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S03 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S04 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S05 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S06 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S07 人/动作/关系完整; 0—4; 漏关系 =S- 语流。

M04-S08 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M04-S09 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M04-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M04-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 =D/I。

M04 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

M05-W01 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W02 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W03 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W04 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W05 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W06 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 =G。

M05-W07 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 =T。

M05-W08 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 = T。

M05-W09 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 = T。

M05-W10 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M05-W11 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M05-W12 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M05-S01 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S02 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S03 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S04 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S05 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S06 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S07 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M05-S08 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M05-S09 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M05-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M05-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M05 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

M06-W01 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W02 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W03 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W04 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W05 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W06 词块全用、关系不变、句子完整; C=2/1/0; 连词重复/漏谓语 = G。

M06-W07 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 = T。

M06-W08 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 = T。

M06-W09 事实 + 请求 + 下一步; T/D/O/L 各 0—2; 无请求 = T。

M06-W10 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M06-W11 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M06-W12 立场 + 回应 + 机制/例; T/D/O/L 各 0—2; 无机制 = D。

M06-S01 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S02 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S03 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S04 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S05 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S06 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S07 人/动作/关系完整; 0—4; 漏关系 = S-语流。

M06-S08 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M06-S09 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M06-S10 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M06-S11 45 秒: 立场 → 理由 → 例 → 回扣; 0—4; 无例/不接条件 = D/I。

M06 输出代表性表现。 低: 只重述题目或只给结论, 关键信息和行动缺失。中: 完成主要请求/立场并有一个理由, 但例子或限制较浅。高: 同时给具体事实、可执行请求或明确立场、因果链、例子及下一步; 语言小错不阻碍理解。此判断是本书内部训练尺, 不对应官方分数。

20.8 19.7 阶段路由卷: Route A / B 的答案、输出与后续路径

20.8.1 Route A | 公共服务: R01—R12 / L01—L12

- RA-R01** A; 证据: 词缀与完整词拼写; B 错当条件/背景; V-词形。
RA-R02 A; 证据: 词缀与完整词拼写; B 错当条件/背景; V-词形。
RA-R03 A; 证据: 词缀与完整词拼写; B 错当条件/背景; V-词形。
RA-R04 B; 证据: 公告的明确细节; A 错当条件/背景; R2。
RA-R05 B; 证据: 公告的明确细节; A 错当条件/背景; R2。

RB-L09 A; 证据: 脚本中的事实与行动; B 错当条件/背景; L3/L4。
RB-L10 A; 证据: 脚本中的事实与行动; B 错当条件/背景; L3/L4。
RB-L11 A; 证据: 讲座的主张和因果; B 错当条件/背景; L3/L4。
RB-L12 A; 证据: 讲座的主张和因果; B 错当条件/背景; L3/L4。
RB-W01: 词块全用、关系不变 (C0—2)。**RB-W02**: 事实 + 请求 + 备用行动 (T/D/O/L 各 0—2)。**RB-S01**: 行动 + 原因复述 (0—4)。**RB-S02**: 观点 + 理由 + 场景 + 回扣 (0—4)。
RB 代表性判断。低档遗漏行动或关系; 中档完成主干但细节很薄; 高档给出可核查事实、清楚的请求/论证以及不脱离题目的具体例子。路径 0—6=Build、7—9=Bridge、10—12=Challenge 只用于分配下一周练习, 不预测正式考试。

20.9 19.8 覆盖复核、使用出口与版本记录

覆盖规则。客观题按“每个编号都有答案行”复核: CTW 120、BAS 300、RDL 240 问、RAP 240 问、LCR 300、LT 480 问、BS 305、ED 48、六套模考 R/L 420、路由 R/L 48。开放项目按“每个编号都有任务完成与评分入口”复核: EC 80、AD 80、LR 400、INT 100、六套 M 的 W/S 138、路由 W/S 8。若原题存在勘误, 本章以〔勘误〕标识, 不能把题面缺陷伪装成考生错误。

48 小时复盘出口。第一天: 在本章每个错题后只写一个主错因, 不写“粗心”。第二天: 客观题遮住本章重做一题同类变式; 听力用脚本圈出导致错误的 3—8 个词后再听一次; 写作保留首稿, 只改一个 T/D/O/L 问题; 口语重录一次, 只检验首录遗漏的信息是否恢复。若第二次正确仍说不出证据, 保留 G (不稳定正确)。

内容原创与评分边界复核 (2026-08-04)。本章不提供、重构或声称包含真题、回忆题或 ETS 官方答案; 所有题号只对应本书原创材料。内部路由、计时和量表仅用于学习诊断; 正式考试的内容、时长、呈现与评分以当期 ETS 页面为准。
